As I said earlier, I have been off the air for two decades. I recently
hooked up my ancient Kantronics All Mode just for grins and it does still
work (I use it for RTTY, as I remembered, it doesn't copy CW very well at

all). You can't even find documentation at the Kantronics site for this box anymore. I would recommend looking in something like a recent AES catalog.

It depends upon your radio and computer. You might want to look at PSK31, a digital mode that uses the same bandwidth as CW.

There is a lot of debate about using a computer to send and receive CW.

It's an easy way out, and it does not improve your ability to send or copy morse code.

Geoff.

Oh yes there's a lot of DX on voice. Generally the pile ups are bigger and
more unruley though. That makes it quite a bit harder. Then of course the
signal to noise ratio is also poorer. However, I've worked quite a few on

voice using no more than 100 watts and a G5RV.

AHA, your description of your problem points to the root cause. It sounds like you are trying to "count" the dits and dahs. This approach will prevent you from getting to useful speeds and will hamper your learning efforts.

Get a program like G4FON (free for the downloading) and following the directions exactly. Set the character speed no lower than 15wpm. Word speed can be whatever you can initially write at (you will get better on the writing and reflex action with time). Practice 30 minutes per day broken into several shorter sessions.

Learn each character not as a series of dits and dahs but as a unique, discrete sound.

For example, an A is di-dah. You shouldn't even be thinking about the dots and dashes. You should strive to form a reflex reaction such that when you hear di-dah you AUTOMATICALLY think or write the letter A without thinking about the combination of dits and dahs.

Good luck. This takes time so do NOT get impatient.

Contests are good for chasing awards. Try the November Sweepstakes, Field

CWGET software and your computer's sound card. Uses the sound card so no
TNC or multimode controller needed.

CWGET is probably the best one available.

Can you recommend some of the better options for this CW<->PC thing?
Thanks.

Read the complete descriptions-- sends and receives cw and logs as well

WriteLog sez can key your radio flawlessly even while communicating to the packet network, talking to the radio, and even connecting to the Internet! WriteLog includes a full CW reader that can copy up to 6 channels of audio simultaneously.

How do I use CT to send CW? CT requires a simple interface between either a COM or LPT port and your radio's "CW KEY" input. You can build one using the schematic in the CT manual, or you can purchase a pre-made interface from one of the following sources (no endorsement is expressed or implied):

not sure if CT readsCW

CT does *not* read CW, only sends it.

I have worked all but 2 countries on both Voice and CW (only missing
the 2 newest entities) plus over 200 on RTTY. I find it easier to

work DX on CW but they both have their unique quirks. CW is more fun
and I worked my first 180 with less than 100 W and dipoles.

3Y, BOUVET ISLAND (Update). Petrus, 3Y0E, continues to be active daily on 14260 kHz usually between 1600-1900z. The 3Y0E Web page reports that they have received another portion of QSOs logged by Petrus up to January 24th. It also mentions: "Important note: Due to the amount of E-mails we receive with log queries (i.e. I'm not in the log, correct my call, put me in the log please etc.), we would like to ask kindly to refer to this post regarding log issues. We also would like to repeat that none of the missing entries nor suffix corrections etc. in the log may be corrected without good proof that a QSO took place (i.e. recording of a genuine QSO) and we cannot refer to any issues like those until Petrus comes back to

RSA from Bouvet Island with his notes and logbook. All queries will be revised then and all operators concerned will be contacted with exact info of their logbook entries status. Thank you for understanding." It was also announced by Emil, LZ3HI, that the 3Y0E QSL cards will be ready at the end of the month, and all received direct cards will be confirmed immediately. Please be patient a few more days; and before you send your QSL card for 3Y0E, please ensure you are 100% in the log. Look for updates and announcements on the official 3Y0E operation Web page at:
http://www.3y0e.com
The 3Y0E log is now available online at: http://sq8aqd.net/3y0e/index.php
ONE MORE NOTE: The team at 3Y0E.com are very excited to report that a "World Exclusive" will soon be appearing on the Web site. This has never happened before on any DXpedition Web site. They are delighted to be the first. They hope to have this ready for you over the weekend, or Monday at the latest....

5TH SRT DX CONVENTION. This year members of the Strange Radio Team (SRT) will be celebrating the 5th anniversary and will hold their annual convention at the SRT's birthplace, the venerable archeological and tourist site of Paestum, south of Salerno in Italy. All SRT members and ham radio operators are invited to this special event April 13-14th. They are expecting some renowned international guests, some very important DXers and other high profile ham radio personalities. The event will take place at the Best Western Hotel Esplanade located barely 150 meters from the sea, with private beach and within short distance of the National Archeological Museum and its archeological site. Convention's forums include presentations on: N8S Swains Dxpedition (by Hrane/YT1AD), "The IOTA of the future" by Mauro/I1JQJ, "The new solar cycle is beginning" by Mario/I2MQP, the VP6DX Ducie Island Dxpedition (by Leszek/SP3DOI & Krystyna/SP3HDB, the TX5C Clipperton Atoll Dxpedition (John/N7CQQ) and much more. There will be a Saturday dinner banquet and Sunday luncheon. For more details, visit the SRT Web page at: http://www.strangeradioteam.com/
For reservations and more information, please contact SRT no later than March 20th, at: srt@strangeradioteam.com
Indivduals within Italy, please contact IZ8FFQ at: iz8ffq@arisa.it

6Y, JAMAICA. Rob, VE4GV, will be active as VE4GV/6Y5 from Ocho Rios between February 11-18th. Activity will be on 80-10 meters including 30/17/12 meters, CW, SSB and possibly the Digital modes. Operations will also include the ARRL DX CW Contest (February 16-17th). QSLs to VE4GV.

9X, RWANDA (Update). Toni, EA5RM, team leader of the upcoming 9X0R DXpedition, announces dates for the operation will be between March 16th and March 27th. He also mentions that a survey was added to their Web page to find out which bands and modes are most needed from Rwanda. They are still working on the configuration of the stations, so the survey results will be very helpful for him. For more details, visit the 9X0R Web page at: http://www.9x0r.com

AX, AUSTRALIA (Special Event). If you worked callsigns using the prefix "AX" over the past weekend (on January 26th), it was Australian hams celebrating Australia Day. VKs were only allowed to use this special AX prefix between local midnight to midnight this special day.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, states the following in a press release (dated Jan. 21st) about "Adding FJ to DXCC": "There has been some confusion circulating regarding the current processing time and how it is affecting the addition of St. Barthelemy to the DXCC list and LogBook Of The World.

Before processing 2008 applications (containing St. Barthelemy cards) DXCC must complete and close out all 2007 applications. Once this is done, 2007 has ended for DXCC staff. The pace of the current application processing allows an estimated completion period of late March.

Upon completion of 2007 applications we shut DXCC down for about a day while we run all of the yearly lists. Only after these lists are completed can we add FJ to the DXCC List and in turn, Logbook of The World.

DXCC staff is working hard to reduce the turnaround time, and we appreciate your patience and understanding while we work to get caught up. You can help by planning your submissions wisely and taking steps to make sure your applications are prepared according to the instructions posted on the DXCC application form and as noted in the FAQ. There will be plenty of time for everyone to have their Honor Roll submissions in place by December 31, 2008....73 es DX!"

SILENT KEY. OPDX has learned that Alan Wright, 9H1AW, (age 71) died tragically January 22nd, 2008, when he fell from his tower. Alan was an active 160m and VHF DXer. He is survived by his wife Maureen, 9H1JN. For details, read:
http://www.timesofmalta.com/articles/view/20080123/local/elderly-radio-amateur-dies-in-fall
OPDX and its readers would like to send out our deepest sympathy to the family and friends of 9H1AW.

T8, PALAU. Operators Mike/JA6EGL, Yu/JE6DND and Hiro/JA6KYU will be active as T88SM, T88HK and T88HS, respectively, from Koror Island (OC-009), February 1-3rd. Activity will be 80-10 meters CW/SSB. QSL via their home callsigns (direct only).

TI9, COCOS ISLAND. Early in the week Carlos, TI2KAC, announced that he was cancelling his TI9K license to Cocos Island and would not be going on the DXpedition scheduled for February 2-16th as planned. However, OPDX was informed later in the week by Norbert, DJ7JC, that the TI9 DXpedition is still on and that the TI9K license was transferred from TI2KAC to the new holder Mr. Gunter Winter, TI7WGI, by the:

MINISTERIO DE GOBERNACION Y POLICIA
CONTROL NACIONAL DE RADIO
San Jose, Costa Rica

Norbert states,"We're grateful to Carlos, TI2KAC, that he'd supported our DXpedition up to now and we regret that he is not able to join the TI9K team..... We're sure that the TI9K DXpedition will be very successful because of a highly motivated and experienced team of 12 operators coming from TI, W, EA, OE, VU, HS and DL. We'll operate with 6 stations on all modes and all bands including 60m and EME." For more details and updates, visit the TI9K Web page at: http://www.ti9.eu.com

V3, BELIZE. Operators Rick/KT7G and Lake/N7WO will be active as V31TB and V31WO respectively, between February 6-19th. Their activity will include the CQ WPX RTTY Contest (February 9-10th) as V31TB. QSL via KT7G. They will also be active in the ARRL CW DX Contest (February 16-17th) as V31WO. QSL via N7WO. Outside of the contests they will be on 160-6 meters, CW and RTTY. Logs may possibly be uploaded to the LoTW.

V4, ST. KITTS AND NEVIS. John/W5JON and his XYL Cathy/W5HAM will be active on St. Kitts, West Indies (IOTA NA-104), from October 22-31st. John will use the callsign V4/W5JON. Activity will be on 160-6 meters SSB and will include the CQ WW SSB Contest (October 25-26th). The QTH is on a mountain top with a 330 degree view. Equipment will be: ICOM IC-7000, RM Italy KL-400 Amplifier (400 Watts), Alpha Delta 10-160 Meter Dipoles and 3

Element Yagi on 6 meters.

V8, BRUNEI (Ham Shack Rental Available!). Ambran, V85SS, announces that he has just built a new DX station called "Tungku Lodge" which is available for DXpeditions, Contests or just for visiting and Ham Radio operating from Brunei. It is a bungalow located at the side of Ambran house, and about 10 minutes drive from the airport and the city. Lodge has a 40 ft. tower with a Mosley TA-53-M, transceivers, Katsumi keyers, vertical antennas for all bands - 80-10 meters including 30/17/12 meters as well as a full wave dp for top band. The lodge is self contained, fully air-conditioned with 3 beds, kitchenette and shower, as well as a covered terrace. Ambran provides self cooking breakfast and airport transfers. Do look up on the following Web site and contact Ambran if interested in operating there. Ham liscences can be arranged in advance at an extra cost. For details, look at: http://www.tungkulodge.blogspot.com/

VISALIA 160M DINNER BANQUET. "Greetings Top Banders! This year's International DX Convention in Visalia will be April 25-27th, 2008, at the Holiday Inn. Convention information can be found here:
http://www.dxconvention.org/
In past years, Earl, K6SE, arranged for a dinner off site from the hotel. This was some distance away. This is a preliminary request to see if there is sufficient interest to have a dinner and in a banquet room at the Holiday Inn itself on Friday evening, April 25th. This would be a fixed price all-you-can-eat buffet with no-host bar. Payment would be in advance. The hotel is checking on banquet room availability and needs a minimum head count commitment. ASAP: Please E-mail me directly to confirm your interest. 'I would definitely attend,' will be very useful. If there is sufficient response and a banquet room is available, I'll look to post a formal announcement......73" - Steve WB6RSE - wb6rse1@mac.com

VP6, DUCIE ISLAND (Update). A press release on the VP6DX Web site reports that last week on Sunday, Eric/WA6HHQ of Elecraft Radio flew from Aptos to Long Beach, California, in his Cessna, and met Robin/WA6CDR to drop-off K3 radios to be used on VP6DX. A new custom carnet for the radios and a few other items were prepared and stamped by Homeland Security during the last few days. Robin flew from Los Angeles via the Cook Islands to Auckland, New Zealand, Thursday night with these items. Over the weekend, Robin met with the crew and master of the "Braveheart" to inventory all loaded equipment and acquire locally the last items (e.g., beverage antenna supports). All the air and sea freight shipments from the USA and Germany over the last two months were delivered to the "Braveheart" on time, and the ship was ready to set sail. As reported in last week's bulletin, a typhoon passing through the region (New Zealand) delayed the departure of the ship "Braveheart" to Mangareva, French Polynesia. The extra day's delay in departing New Zealand should not cause any trouble: the "Braveheart" will arrive at Mangareva around February 1st or 2nd, several days before the remainder of the operating team. The press release on the VP6DX Web site states, "The ship is stuffed full of DXpedition equipment! Diesel fuel burned during the transit to Mangareva will be drawn off fuel bladders on the deck freeing up some space. We will be cramped for space when the remaining 12 operators join the crew!" The group plans to depart for Ducie between February 6-9th and hope to be on the air by February 11th. The

DXpedition continues to ask for funds because of the high cost of this operation. There are 3 ways to donate funds: 1) PayPal on the VP6DX Web page. 2) Checks (USDs) sent to K3NA. 3) USA donors over 100 USDs may make a directed gift to the Northern California DX Foundation, designated for the VP6DX project. For more details on donating and updates, visit the VP6DX Web page at: http://www.vp6dx.com

XU7, CAMBODIA. John, 9M6XRO (ISWL 9M6-6982), is currently in Borneo and will be back again in Cambodia operating as XU7XRO from February 20-26th. QTH will be Sihanouk Ville (Kompong Som). Activity will be on CW, SSB and the Digital modes. His QSL Manager will be Graham, M5AAV. Direct QSLs are preferred, but bureau cards will also be answered.

XW, LAOS. Bruce, XW1B (AA4XR, HS0ZCY, XU7ADF), will be active during the CQ WW RTTY WPX Contest (February 9-10th) as a Single-Op/All-Band entry. He will also be active in the ARRL DX CW Contest (February 16-17th) as a Single-Op/Low-Power entry. QSL both operations via E21EIC.

XW, LAOS. Larry, XW1A, will be active during the ARRL DX SSB Contest (March 1-2nd) as a Single-Op/High-Power entry. QSL via E21EIC.

3Y0E on Bouvet.
One op.
One frequency, 14260.
One mode, SSB.
Greets his callers.
And REAL signal reports!!!!
In 44 years of hamming, never have I heard a DXpedition with these characteristics.

Amazing. Heartwarming.

If you go to his web page, http://3y0e.com right there on the top of his
page it refers to
"3Y0E Amateur Radio DXpedition"

Oh well, no big deal.

Oh, OK, I haven't checked that. But it's not a DXpedition in the
sense of a bunch of people setting up somewhere rare for the sole
purpose of handing out 59s or 599s to the waiting masses. As I
understand it, he's getting on the air for a short time each day
when there is power, he is a very new ham, and is just trying to
make people happy. He's there for completely different reasons.
It's great that he gets on the air, but I'm happy that I'm old
enough to have worked Bouvet already :-)

This is perhaps the only occasion in which I appreciate time passing by
;-) (glad to have in my log 3Y1EE on 10 and 15 CW/SSB back in 1987).
Anyway, I hope Petrus, the actual operator of 3Y0E, will not be on duty
in North Korea when P5DX - the last one missing - will be an the air.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3Y, BOUVET ISLAND (Update). Petrus, 3Y0E, continues to be active daily on 14260 kHz usually between 1600-2030z. The 3Y0E operation is quickly coming to an end. The team is scheduled to be picked up from Bouvet Island on February 12th. This date may change however due to weather conditions and the speed of the ship or any other urgent matter beyond their control. Feel free to follow the movements of the ship at the following website:
http://www.sailwx.info/shiptrack/shipposition.phtml?call=ZSAF
Petrus, 3Y0E, also did an exclusive radio interview with a commercial radio station in the Falken Islands. The interview can be found on the following Web site. Look for updates and announcements on the official 3Y0E operation Web page at: http://www.3y0e.com
Emil, LZ3HI, states that he will start confirming all incoming direct cards. Please look carefully on the online log and find your callsign logged correctly before sending him your QSL card. The 3Y0E log is now available online at: http://sq8aqd.net/3y0e/index.php

DXCC NEWS.........

* Bill Moore, NC1L, ARRL DXCC Manager, states that the following operation is approved for DXCC credit:
  E4/OM2DX - Palestine; 2007 Operation

* There have been a few reports indicating that YA/LY1Y being submitted for DXCC credit is being rejected "do to lack of documentation". Other QSLs rejected are:
  C98GLO (2/19/2007 - Doc's pending)
  CT1EEX/D2 (8/8/2006 - No doc's)
  TT8PK (10/14/2006 - No doc's)
  YA/IZ0EGM (8/22/2006 - No doc's)
  ZB2/4O3AL (2/24/2007 - No doc's)

* STILL WAITING for the return of your DXCC applications: Steve, KZ2I, reports: "Just received the paperwork back for my late 2007 DXCC submission. The field-checked, 50 credit application was checked in at Newington on September 1, 2007. The date processed (that's what it says on credit slip) was November 12, 2007. I guess the final processing and billing took place on January 16-17, 2008, postmarked January 22, 2008, and received back here in NC today (January 28). Long wait but the #1 Honor Roll stickers are finally on the certificates. Oh, wait a minute. Since the submission took place, there's a new one on the list. Does that mean I have to take the stickers off? hihi..."

EE, SPAIN. Operators Norman/K1DG, Antonio/EA5BY, Juan/EA5FID, Yuri/EA5GTQ and Juan/EA5RS will be active as EE5E during the ARRL DX CW Contest (February 16-17th) as a Multi-Single entry. QSL via the LoTW. QSL is also "OK" via K1DG.

FJ, ST. BARTHELEMY (DXCC Newest Entity!). Nigel, G3TXF, is now active from Saint Barthelemy Island (NA-146, DIFO FJ-001, also count for WLOTA LH-0377). This will be a short operation. He has been there since late Thursday, January 31st, but will be going QRT early Tuesday morning February 5th. He is signing FJ/G3TXF. Activity will be CW only on 40-10 meters. More info is available at:

http://at www.g3txf.com/dxtrip/FJ-08/FJ-08.html

FJ & FS, ST. BARTHELEMY (DXCC Newest Entity!) AND ST. MARTIN. OPDX was informed by Janusz/SP6IXF, that Polish operators Tadeusz/SP3IPB and his XYL Agnieszka/SQ3WN, Przemek/SP7VC and himself will be active from St. Martin (NA-105) as FS/homecalls between February 14-16th, and then later from St. Barthelemy (NA-146) as FJ/homecalls between February 17-26th. They plan to be active on CW/SSB/RTTY on 40-10 meters including the 30/17/12 meter bands. There will be no online logs during DXpedition. Logs will be available on a Web site after the DXpedition. QSL via their home callsign, direct or by the bureau.

H7, NICARAGUA. Eric, K9GY, will be here between February 14-18th. He is expected to be active as H7/K9GY during the ARRL DX CW Contest (February 16-17th) as a Single-Op/All-Band/Low-Power entry. He will be operating from YN2N's QTH (http://www.yn2n.com). This is the same QTH where Mike, K9NW, operated the 2007 CQ WW CW Contest. Eric states that the logs will be uploaded to the LoTW. Direct QSLs are "OK" via CBA too.

HI, DOMINICAN REPUBLIC. Ted, HI3TEJ, will be active as HI3T during the CQ WW RTTY WPX Contest (February 9-10th) as a Single-Op/All-Band/Low-Power entry. Also look for Ted (using HI3T) during the CQ 160-Meter SSB Contest as a Single-Op/Low-Power entry and the CQ WPX SSB Contest Single-Op/All-Band/Low-Power entry. QSL all operations via ON4IQ.

HR, HONDURAS. Look for Dan, HR2DMR, during the ARRL DX SSB Contest (March 1-2nd) as a Single-Op/All-Band entry using monobander antennas. QSL via HR2DMR.

INTERESTING WEB SITE OF THE WEEK. Those who are interested in following the propagation, sunspots and the new sunspot cycle may want to look at the following Web page provide by Kevin, VE3NE:

http://www.solarcycle24.com/

There is plenty of reading, charts and pictures to keep you busy.

IOTA NEWS.......................

EU-016. Members of IOCA Group will once again activate the Island (and lighthouse) of Susac (CIA-46, IOCA CI-109, MIA MC-400/ARLHS CRO-011, TWLHD WLH 9A-025, WLOTA LH-1430, CRO-064) between May 2-10th. Operators mentioned are: Daki/9A2WJ, Boki/9A3KB, Emir/9A6AA, Fredy/DE0MST, Sven/DF9MV, Robert/DK1ROB and Mathias/DL5MFL. The group will use the same callsign used 6 years ago, 9A0CI. Activity will be on the HF bands, 6 meters and all modes. During this activity, some operators will use their home callsign/p. QSL via operator's instructions.

EU-123. Operators Colin/G3VCQ, Peter/G3PHO, Andy/M0GAV, Tim/2E0TJX, Sharon/M3VCQ, Steve/M1ERS, Trevor/M0TWS and Jack/2E0JTL will be active as MM3M from the Isle of Arran (IOSA CL-01, SCOTIA CS-14) between July 24-28th. Activity will include the IOTA Contest (July 26-27th). This will be their fourth entry from the Island of Arran in the IOTA Contest. They are also planning to activate the Isle of Pladda (EU-123, IOSA CL-07, SCOTIA CS-12) July 25-26th. QSL via G3VCQ, direct (QRZ.com address) or by the bureau. More infomation will be available at:
http://www.sheffield-live.co.uk/

EU-146. Ulf, DK5TX, will be active as PA/DK5TX from Goeree Overflakkee, February 11-17th. Activity will be on 80-2 meters, CW (slow), SSB and RTTY. QSL via his home callsign, the bureau is preferred or direct (QRZ.com address). E-mail requests for a bureau card can be made by sending QSO info to: dk5tx@gmx.net

NA-149. Yannick, HH2FYD (F6FYD), is currently active as HH2FYD/6 from Cow Island (Ile a Vache) until 2300z, Tuesday, February 5th. Activity will be mainly SSB on 14260 +/- QRM. QSL via F6FYD. Log will be uploaded after the DXpedition at:
http://www.cdxc.org/dxp/2007-HH2FYD/searchlog_hh2fyd.php

NA-213. Dennis, WA2USA, will be active as WA2USA/4 from Dauphin Island, February 9-18th. The callsign K4D will also be used. Activity will be on all HF bands, near the usual IOTA frequencies, CW and SSB. QSL both calls via WA2USA, direct or by the bureau. For more details and updates, visit Dennis's Web site at:
http://www.wa2usa.com/dauphinBB.htm

SA-071. A team of Brazilian operators are now active as PW2M from the rare IOTA Moela Island until February 5th (originally planned for February 8th). Team members mentioned are: PY1RO, PY2WAS, PY2XB, PY2ZA, PY2EJ, PY2XAT, PY2HL, PY2VM, PY2MTV, PY2BRZ and PY2OE. Activity will be on 160-2 meters, CW, SSB and the Digital modes. By the way, this will be the first PY transmission on 60m band fully authorized by ANATEL (National Telecommunications Agency) in the Brazilian radio amateur service. QSL Manager will be AI4U for foreign operators and PY2AA for Brazilian operators. There is a lighthouse on Moela Island (WLOTA 1335), and permission for the operation was granted by the Brazilian Navy.

SA-043/
SA-053. Operators Marco/CE6TBN, Zoli/HA1AG, Yuri/RA0FU and Vladimir/RV1CC are now active from Ascension Island (SA-043) as XR7A until February 6th. The group will then switch to Wager Island (SA-053) and be active as XR7W between February 9-12th. The operators will focus on 40/30/20 meters. Due to the high number of DXpeditions being activated during this timeframe, the team can not give exact operating freqeuncies. They will try to avoid VP6 QRM from SA-053 as much as possible. Also, due to the weather situation around SA-053, delays are possible. QSL

via HA1AG. During their travels Zoli will try to update his travelblog a: http://www.ha1ag.wordpress.com This depends on InterNet availability.

J5C BREAKS RECORD. The recent J5C DXpedition to Guinea-Bissau has smashed the RTTY QSO number for a DXpedition as compiled by Don, G3OZF. The record is established now at 8,948 QSOs.

J7, DOMINICA (NA-101 - Also Correction on Postge). Seth, SM0XBI, is now active as J79XBI until March 2nd. Activity will be on all bands but only SSB. He was on 80/60/40/20/17 meters this past week. During his stay, Leif, SM5FWW, will take care of any direct cards for him. Leif informs OPDX that postage from Sweden to the world is 1.50 USDs (not .50 as first reported) or 1 new IRC. QSL to: LB Lindgren, Box 22, SE-59021 Vaderstad, Sweden.

JW, SVALBARD. OPDX received a report that operator Odd-Egil, LA8AW, will once again be active as JW8AW from Spitsbergen between February 10-18th.

MJ0, JERSEY (EU-013 and possibly EU-099). Operator Mark, M0MJH, will be active as MJ0MJH from Jersey (WLOTA LH-0818) from April 21-25th. Activity will be on all bands and modes. There is also a possibility of some activity from Les Minquiers (EU-099) during this trip, but exact dates are not yet known. QSL via M0MJH, direct or by the bureau.

MOST WANTED OCEANIA SURVEY. Mark, ZL3AB, is collating an "Oceania Most Wanted Countries List" for 2008 and is seeking submissions from operators in KH6, VK/ZL and Oceania regions only. Lists can be submitted in text, Word, or Excel formats or simply in the body of an E-mail. Email your list to: mark.zl3ab@gmail.com
Submissions will close on February 25th with results published in March and E-mailed direct to all who submit.

PACIFIC TOUR. Operator Willy/ON5AX and his XYL Magda/ON3AX will be active from various locations during the next three months. Here is their tenative schedule:
  February 19-27th - From New Zealand as ZL/ON5AX.
  March 23-30th   - From Lord Howe Island as VK9ALH
  April 2-7th   - From Australia as VK4/ON5AX
Activity will be on CW, SSB and PSK31 using an Alinco DX70 transceiver with only 100 watts into a groundplane antenna designed and made by Tony, ON4CEQ. QSL via ON5AX or ON3AX.

PJ4, NETHERLANDS ANTILLES. Operators Hal/N4GG, Mayse/W4OC, Mark/N5OT and Mike/W9RE will be active as PJ4/homecall from Bonaire between February 12-19th. Their activity will include the ARRL CW DX Contest (February 16-17th) as a Multi-2 entry signing PJ4M. Look for operations before and after the contest. QSL PJ4M via N4GG and all other callsigns via their home callsigns.

QSL INFO AND NEWS....................

Phil, G3SWH, tells John, K1XN (Editor of the GoList), "the 8R1PW logs will not be uploaded to LoTW until February 2009 at the earliest".

QSL BA4T via BA4TA: Binfeng Jin, 1-3202, Yichun Apt., Changjiang Road, Wuxi 214002, China. Activity was during the 2007 CQWW DX SSB Contest.

NO LONGER MY QSL MANAGER. Mike, UK8OM, informs OPDX that as of January 2008, IK2QPR isn't his QSL Manager anymore. All QSL cards should be sent to the address on QRZ.com. For those who send direct QSLs to Uzbekistan, please "DO NOT" send "GREENS", one IRC is "OK".

V51AS QSL STATUS. Frank, V51AS, reports that QSL cards received at his German address in the third week of 2008 were responded to in the fifth week of 2008 from Namibia. He is experiencing problems with the local post office accepting IRCs.

QSLS VIA LOTW: 4O3A, C6ANM, FY5KE, HS0ZEE, LX7I, M2D, MD4K, PA5A, S01R and V5/DJ4SO

QSLS RECEIVED VIA MAIL: 9G5OO, AH0V, AH2L, C52C, E4/OM2DX, EL2DX, ES5TV, HK0/W0OR, J6/DL7AFS, JD1BMH, K6VVA/KL7, KL7HBK, LY2IJ, MM0SJH, OA4/N6XQ, OD5NH, OX/NA1SA, OX3XR, RA1QY/1, RA1QY/p, T32Z, TN9Z, UE1RLH, V60DU, V60YAQ, V8FDM, V8FWP and VK9WWI

QSLS RECEIVED VIA THE BUREAU: None reported this week.

S2, BANGLADESH. Toby, SM4XDJ, is now active as S21ZDT (not as S21XJ as first announced) during the first few weeks of February. Activity will be SSB and the digital modes during his evening hours and weekends. QSL via SM4XIH. Look for online logs to be available at:
http://s21zdt.fittest.nu/

S2, BANGLADESH. John, KX7YT, had to cut his S21YV trip short due to an illness in his family. He will not be active in the CQ WPX RTTY Contest.

SF700, SWEDEN (Special Event). Members of the Kungalv Radio Club (SK6NL) will be active using the special event callsign SF700BF during the year of 2008 from the City of Kungalv in southern Sweden. Activity is to celebrate the 700th anniversary of the Bohus Fortress. Operations will be on 160-6 meters and 70 cm. QSL via SK6NL. Information about a very nice Bohus Fortress Diploma can be found at Kungalvs Sandareamatorer Web site: http://www.sk6nl.com

SILENT KEY. OPDX was informed that CODXA member John Cornwell, NC8V, became a "Silent Key" (SK) on Jaunary 31st. John was an avid DXer and enjoyed traveling to Athens, OH, to attend the CODXA dinners. John will be missed by the CODXA members. OPDX and its readers would like to send out our deepest sympathy to the family and friends of NC8V.

T7, SAN MARINO. John, T77CD, will be active during the CQ WW RTTY WPX Contest (February 9-10th). QSL only direct to I0MWI.

TI9, COCOS ISLAND (Update). Norbert, DJ7JC, informs OPDX that all preparations for the TI9K DXpedition are on time. The twelve operators from TI, W, EA, OE, VU, HS and DL will be active this week from February 6-14th.

Activity will be on all modes and bands including 60 meters and EME, with 6 stations on the air. Suggested frequencies are:

Bands	CW	SSB	RTTY	PSK
160m	1815*	1845	1838	1838
80m	3515	3794	3590	3580
40m	7015	7089	7038	7035
30m	10110	10135	10140	10138
20m	14015	14205	14080	14070
17m	18076	18155	18100	18100
15m	21015	21260	21080	21080
12m	24910	24950	24925	24920
10m	28015	28495	28085	28070
6m	50100	50120	50080	50080 kHz

*Freq. 1830 kHz for EU or other countries if 1815 kHz isn't allowed

QSL Manager is Andreas, EA2CRX: Andreas Wolf, POB 10084, 20300 Irun, Spain. Send direct QSLs with SAE 1 IRC or 2 USDs. There will be E-mail requests for Bureau QSLs. However, Bureau QSLs will be sent via the Bureau later. For more details and updates, visit the TI9K Web page at:

http://www.ti9.eu.com

TT, CHAD. Phil, F4EGS, has once again returned to the Chad on January 19th and is now active as TT8PK for the next several months. Activity will be on all modes on 80-10 meters. Over the past week he was heard on 80/40/20/17/15/10 meters SSB. QSL via F4EGS, direct or by the bureau.

TX5, CLIPPERTON ISLAND (Update). Gerard, F2JD, has joined the TX5C Dxpedition replacing Vic, VA7VR, who due to business obligations, could not be a part of the team. F2JD is an accomplished DXer and is currently the president of the Clipperton DX Club. Gerard has been on many DXpeditions (more than 100 DXCC entities), such as J5C, XT2C and 3Y0X.

V3, BELIZE. Art, NN7A, will be active as V31JZ/p from South Water Caye (NA-180), February 22-26th. This will be a one-person operation with 100 watts and a vertical and wire antennas. Operations will be CW on 40-10 meters including 30/17/12 bands; some 80m and 160m. There will be some possible SSB activity on the 20/15 meters IOTA frequencies if conditions permit. No skeds, please. Operation will be from a cottage on the beach using battery and solar power. The 15-acre coral sand island is about 15 miles (24 km) southeast of Dangriga along the Belizean barrier reef, longest in the Western Hemisphere. It is shaded by coconut palms and mellowed by soft Caribbean breezes. IOTA NA-180 was opened as a new IOTA by Art and Mike Sharp/NG7S/V31RL, in February 1993. This will be Art's 7th operation from South Water Caye, and his 13th trip to Belize since 1988. He has also operated as V31JZ from the Turneffe Islands (NA-123), Ambergris Caye (NA-073), and numerous places on the Belizean mainland. QSL via NN7A, by the bureau or direct to: Art Phillips, P.O. Box 201, Flagstaff, AZ 86002 USA. Bureau cards sent to Belize cannot be answered (there is no active V3 bureau). There will be no on-line logs, and E-mail contact will not be possible while on the island.

VK9N, NORFOLK ISLAND. Word has it that Jim Smith, VK9NS, now has a couple of aerials set up for 6 meters. So if you need Norfolk Island, keep an ear out. Also, send us some QRNs.

VP6, DUCIE ISLAND (Update). Milt, N5IA, a team member of the VP6DX DXpedition, reported on Saturday, February 2nd, that he is expected to be in Papeete, Tahiti, on Sunday, February 3rd. All the VP6DX team will be in Papeete by the early morning hours of Monday, February 4th. The team will have it's first official meeting in the afternoon after a lunch with local FO hams. The flight to Mangareva in the Gambier Islands is early Tuesday, February 5th. As quickly as possible, the team will clear immigration and customs and board the Braveheart. The Braveheart is now at dock in Mangareva. Milt has been in daily contact with Robin, WA6CDR, for the last 4 days, via 40 meters SSB. The Braveheart crew is waiting for the VP6DX. Milt states that the cruise time to Ducie is 72 hours with off loading to the island to begin at first light the morning of Saturday, February 9th (~1400z). Construction of the camps and seven operating stations/antenna systems is planned to take 3 full days. Operation, with all seven stations coming on the air near simultaneously, is anticipated to occur near sunset on Monday, February 11th (~0400z, February 12th). The most unknown element in all the planning is the weather. Operations will be non-stop (24/7) with 7 stations for approximately 18 days. They will have 13 operators. Milt states, "Figure it out folks. That is essentially a '12 on/12 off' schedule for each operator for the entire DXpedition operating period. Shifts will most likely be in the 3-4 hour range. Eating, sleeping, personal hygiene, laundry, etc., all have to take place in the limited time off periods. This is not your normal 'working vacation'. Wish us wellness and the stamina to make it all happen." For TOPBANDERS and the low band operators, Milt recommends the reading of News Release # 9 on the VP6DX.com website. Go to:
  http://ducie2008.dl1mgb.com/index.php?option=com_frontpage&Itemid=1
Also, look for VP6DX to operate in the CQ 160 SSB Contest at the end of February. Milt states, "This period of time will be the prime opportunity for Topband SSB contacts with the expedition. I am looking forward to being the operator when many of the Topband contacts are made..... Please be patient and follow instructions. You will make it into the log if there is propagation. We will be operating approximately 18 days if all goes as planned." For more details on donating and updates, visit the VP6DX Web page at: http://www.vp6dx.com

W7, UNITED STATES. Look for members of the Eastern Washington DX Club to celebrate the upcoming birthday of the United States first President, George Washington, by activating special event station W7G between February 21-23rd. A special commemorative QSL card will be available to those making a QSOs with W7G. Suggested frequencies are: 14250, 18135, 7225 and 3880 kHz. QSL via W7BJN: Brian J. Nielson, 11650 Road 1 SE, Moses Lake, WA 98837.

YI, IRAQ. The Stafford (VA) DX Association (SDXA) announces that one of its members, Radar, K2PT, (not MASH fame) a Marine in Baghdad, has obtained a license and is expected to be on the air as YI9PT sometime this week. SDXA members N4NW, K4HR, N4XP, N1DG and OK1KT are providing logistical support thereby allowing Radar time to concentrate on operating. They

are in the process of acquiring an amp and low band antennas for him. Radar just received an IC-7000 on loan from ICOM. NCDXF and INDEXA are providing funds for a purchase of a SteppIR 2 element beam and other basic station gear. Initial operations will be on 17 and 20 meters utilizing a wire antenna until a SteppIR yagi shipped by the support team arrives. Once fully operational, activity will be on 160-10 meters. There are several other hams in the green zone, and the SDXA group hopes this station will be a club effort involving several nationals and Iraqi hams. All QSL requests go to N4XP. Complete information may be found on the SDXA Web site at: http://www.stafford-dx-association.org
Additional information, updates, log check and sponsor information will be provided on the Web site and updated as the operating conditions change.

ZF, CAYMAN ISLANDS. Just a reminder that Ed, K3IXD, will be active as ZF2XD in CQ WW WPX RTTY Contest, February 9-10th, as a Single-Op/All-Bands/Low-Power entry. The IOTA is NA-016, the grid locater is EK99. Outside the contest look for ZF2XD from February 6-11th, on 80-10 meters on SSB and the digital modes. QSL to K3IXD.

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information

bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

```
 radio/personal-intro
 Subject: Guide to the rec.radio Newsgroups
 Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
 Last Posted: 9 Nov 2001 06:18:17 GMT
 Posting-Frequency: 15th of each month
```

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

For more information about our newsgroup, see:

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to rec-radio-info-request@panix.com.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B8 & 3B9, MAURITIUS AND RODRIGUES ISLANDS. Jose, ON4LAC, will be active from Mauritius Island (3B8, AF-049), October 18th through November 6th, and then from Rodrigues Island (3B9, AF-017) November 7th through December 12th. Jose is waiting to receive his callsigns from ICTA. QSL via his home callsign.

3Y, BOUVET ISLAND (Update). Petrus, 3Y0E, is now QRT as of February 9th, at 1915z. For more details, visit the official 3Y0E operation Web page at:
http://www.3y0e.com

4U1U, UNITED NATIONS HQ. Look for operators Johnny/LA5IIA, George/N2GA and Tony/N2UN to be active as 4U1UN during the ARRL DX CW Contest (February 16-17th) as a Multi-Op entry. QSL via HB9BOU. ADDED NOTE: Johnny/LA5IIA was active this past weekend in the CQ WPX RTTY Contest. Also QSL via HB9BOU.

5Z4, KENYA. Sigi, DL7DF, will be on holiday with his XYL Sabine at Diani Beach at the coastline of Kenya. He will be active as 5Z4HW from February 27th to March 11th. Activity will be on 160-10 meters, CW, SSB, RTTY and SSTV. Operations will be limited (holiday style). He will use an IC-735 and Linear TY900. Antennas will be a R7 vertical and 18m Tower for 160/80m. QSL via DL7DF, direct or by the DARC Bureau. Visit his Web page at:
http://www.DL7DF.com

7P, LESOTHO. Belgium operators and members of the Radio Club Secunda from South Africa will be active from Katse Dam in Lesotho from March 27th to April 3rd. The team consists of: Filip/ON4AEO (previously operated 3DA0FC), Kath/ON7BK (previously operated 3DA0FC), Gert/ZS6GC (previously operated 3DA0FC), Sid/ZS5AYC, Lucas/ZS6ACT, Tom/ZS6TMO, Adele/ZR6APT, Edwin/ZS5BBO, Janet/ZS5JAN, Steffi and Elna. The following are the suggested frequencies and modes:

BANDS	SSB	RTTY	PSK
160m	1845	-	-
80m	3780	3590	-
40m	7063	7040	7038
20m	14185	14084	14072
17m	18136	18104	18102
15m	21290	21084	21072
12m	24930	24924	24922
10m	28490	28084	28122 kHz

The TEAM will be using the following radios: Two Icom IC706's, one TS50, two FT857's, one FT707, one Icom IC720A, one TS120S and a HA 14 Heathkit with HA24 power supply. The TEAM will using the following antennas: A 40m 1/4 wave vertical from GB Tower, a 80m 1/4 wave vertical Spider Beam, on 10-15m a Spider Beam and on 10/12/15/17/20m a Hexbeam. They will also be using a 3 element STEPPIR antenna with an add for 40-30m. Listening antenna on 80m will be a K9AY loop, and for listening on 40m they will use a dipole antenna. If antenna can be repaired in time, they will have a Battle Creek Special for 160m and 80m. The QSL Manager is ON4CJK. The direct address is: Jose Duyck, Molenakker 56, 8740 Egem, Belgium. Further information on this expedition can be obtained by visiting their Web site at:

The TEAM will also be active during the CQ WPX SSB Contest.

A4, OMAN. Chris, A45XR, received permission last week on February 3rd from the Ministry of Telecommunications to operate on 30 meters. He has been quite active over the past week on 30 meters at various times. Reports indicate that he is using a 160/80 meter vertical with a tuner.

Chris plans to build a 2 element Delta Loop very soon. His QSL address is: Chris Dabrowski, P.O. Box 2038, CPO 111, Oman. Chris suggests to send IRCs if possible. If you use currency, tape envelope securely.

AAW. The Antarctic Activity Week (AAW) is quickly approaching (February 18-24th). There are several special event stations already on the air along with special "IPY" callsigns and other special world-wide callsigns to celebrate the 2008 Antarctic event and the International Polar Year "IPY". On the WAP Web site you can get the whole list of participants to the 5th Edition of AAW by clicking on the appropriate window marked "Antarctic Activity Week", at: http://www.waponline.it
Also remember, working the many WAP stations qualifies for several different kind of awards. For details check "WAP Awards" banner on the left side of the WAP home page.

C5, THE GAMBIA. Just a reminder that two Belgium operators will be active here this week. Andre, ON7YK, will once again be active as C56YK from February 11th through March 6th. Activity will be on 160-6 meters SSB. He will use a 80/40m FD4 antenna and spiderbeam for all the other bands. QSL C56YK via the info on QRZ.com. QSL Manager: Bourbon Andre, Route de Xhoffraix 30, B-4970 Hockai-Stavelot, Belgium. Also, look for Jose, ON4LAC, to be active as C56JC between February 12th and March 5th. He will focus on the PSK and RTTY modes with some SSB. QSL via his home callsign.

CN, MOROCCO. Hartwig, DL7BC, will be active as CN2BC during the CQ WW WPX SSB Contest (March 29-30th) as a Single-Op/All-Band/Low-Power entry. QSL via DL7BC.

CO, CUBA. Juan, CO8TW, will be active during the ARRL DX CW Contest (February 16-17th) as a Single-Op/Single-Band (20m)/Low-Power entry. QSL via HB9SVT. The log will be online after the contest at:
http://www.qsl.net/co8tw/

DXCC NEWS.........

* Bill Moore, NC1L, ARRL DXCC Manager, reports that the following operations are approved for DXCC credit:
  E4/OM2DX - Palestine; 2007 Operation
  J5C - Guinea-Bissau; 2008 Operation

* NEW ENTITY ABOUT TO HAPPEN - According to the "Associated Press" on Friday, February 8th, a Serbian minister for Kosovo stated that his government has received information that the Province's Albanian leadership will declare independence on February 17th. For details, go to:
http://news.yahoo.com/s/ap/20080208/ap_on_re_eu/serbia_kosovo_independence

* (MORE) STILL WAITING for the return of your DXCC applications? Well, read this from Bill Moore (date February 6th): "DXCC Pushes to Get Ahead -- Due to several factors, including greater activity from new and reactivated DXCC entities, the ARRL DXCC Desk has been experiencing QSL card processing delays. According to ARRL DXCC Manager Bill Moore, NC1L, there are approximately 2300 applications currently on the list of received applications, resulting in a

processing backlog of more than 12 weeks. 'People usually have to wait 4-6 weeks from the time they send in their application to the time they receive their cards back,' Moore said.

Even with the low sunspot numbers of the now defunct Solar Cycle 23, there has been an increase in DXCC activity, Dave Patton, NN1N, Manager of the ARRL Membership and Volunteer Services Department, said; DXCC is a division of this department. 'We've added or reactivated new entities like Scarborough Reef, Swains Island and Montenegro,' he said. 'ARRL membership is up, and more people out there have HF privileges.' DXCC rules state that US hams must be ARRL members to participate in DXCC; there is no membership requirement for foreign participants. Moore estimates that one-third of the DXCC applications come from outside the US. Sharon Taratula, Membership and Volunteer Programs Supervisor, said that approximately 500 DXCC applications are processed each month.

ARRL Chief Operating Officer Harold Kramer, WJ1B, said that a new full-time person has just been added to the DXCC staff. 'We are actively looking for an additional full-time employee for DXCC. By adding more staff, we can definitely cut down on the time it takes to process applications.'

'While we are not happy with the delayed turnaround time for DXCC applications, I can assure everyone that we are maintaining our high level of concern for accuracy in processing and care for our customers QSLs and awards,' Patton said. 'I'm pleased that interest in operating awards is so high, and indeed there is evidence that new and returning ops are participating in ever increasing numbers. In the near future, as we continue to refine and improve LoTW and our processes, turnaround time will improve, the quality of our awards will improve and we can hopefully offer new and expanded awards programs like the brand new Fred Fish Memorial Award for confirming QSOs with the 488 grid squares in the continental US on 6 meters.'

Patton thanked the many DXCC Field Checkers and Awards Card Checkers around the world. 'They give so freely of their time and resources to make participation in operating awards so much more convenient for everyone. And I also want to thank all of the volunteers working in QSL Bureaus throughout the world, as well. The QSL Bureau system is still very important to collectors and awards chasers, and activity in the bureau is maintaining and even increasing despite the lack of sunspots.'

Kramer said, 'We take great care with people's DXCC applications. The DXCC crew is very diligent in handling and checking each applicant's cards. We don't rush the process because we don't want to make mistakes -- we know how important this program is to DXCC participants.'"

FJ, ST. BARTHELEMY (DXCC Newest Entity!). Patrick, F6CMH, will be active from St. Barthelemy (NA-146) as FJ/F6CMH, March 13-22nd. Activity will be mainly 40/20 meters SSB. QSL via F6CMH.

FO, FRENCH POLYNESIA. Yoshi, JJ8DEN, who was recently active from Pitcairn Island, is now heading for Oeno, then Gambier Island (OC-063). He plans to be active from the Gambier as FO/KH0PR. However, his operations will be limited because he will only have access to solar power. QSL via JJ8DEN, direct to: Yoshitake Izumi, 7 Minami-24 Nishi-1 Obihiro-city, Hokkaido 080-0011 JAPAN. Please send a SASE with 2 USDs or 1 IRC. Yoshi requests that the envelope be 162mm X 114mm or more. If a small envelope is sent, he will return the QSL card by surface mail (ship mail).

FP, ST. PIERRE AND MIQUELON. Operators Eric/KV1J and his son Matthew/W1MAT, will be active from Miquelon (NA-32, DIFO FP-002, Grid GN17) as FP/KV1J and FP/W1MAT from July 9-14th. Activity will be on all bands 80-6 meters, SSB, CW and RTTY, using only 100 watts into verticals and a TW2010. During the IARU Contest, look for FP/KV1J (running low power) and FP/W1MAT (running QRP) from Zone 9. QSL via their home callsign, direct or by the Bureau or LoTW. For more details and up-to-date info, visit their Web page at: http://www.kv1j.com/fp/

FT/X, KERGUELEN ISLAND. Gwenael, F4EFI, reports that Gildas, TU5KG, will be in the Kerguelen Island area (possibly signing FT5XR/mm) February 15th and 16th to refuel the ship. He plans to be active from the base Port aux Francais, Kerguelen Island (AF-048, DIFO FT-011, WLOTA LH-0439) as FT5XR during this period if the weather is good to land, not like last time. QSL via F4EFI, direct or by the bureau.

INTERESTING WEB SITES OF THE WEEK....

Jaime, EA4TV, provides an interesting look at a different DX calendar for DXers. Take a look at: http://http://dxcal.com

Also, visit the WOTA (Women On The Air) Web page. The Web site, put together by a SWL (FE11DX) Steven has interesting pictures and bio's of active YLs around the globe. Take a look at:
http://wota2008.blogspot.com

GM7, SCOTLAND. Operators Keith/GM4YXI and Chris/GM3WOJ will be active as GM7V during the ARRL DX CW Contest (February 16-17th) as a Multi-2 entry. QSL via M0CMK.

IO4, ITALY. Operators Andrea/IK4VET, Roberto/IK4XCL, Alessio/IZ4EFN and possibly others will be active as IO4T during the ARRL DX CW Contest (February 16-17th) as a Multi-Single entry. QSL via IZ4JMA direct.

JD, MINAMI TORISHIMA (OC-073). Masa, JA6GXK, is now active as JD1BMM until February 19th. Activity will be limited to his spare time, but he will concentrate on North America and Europe on the low bands. Aki, JH2RMU, reports to look for Masa on 160m. He will TX on 1822 and RX 1827 for USA at 1200z, and for EU at 2030z. This past week he was on 40/20/15 meters SSB and 15 meters RTTY.

JX, JAN MAYEN (EU-022). Svein, LA9JKA, will be active as JX9JKA from March 27th through October 8th. He plans to operate SSB and the digital modes on 160-6 meters. QSL via his home callsign.

KP2, U.S. VIRGIN ISLANDS. Operators John/K3CT and John/K3TEJ as KP2/K3CT and KP2/K3TEJ, respectively, will be active between February 10-20th. Activity will include the ARRL DX CW Contest (February 16-17th) as a Multi-2 entry using the callsign KP2M. Outside of the contest, activity will have an emphasis on 160m and 30/17/12 meter bands. QSL KP2M via AI4U. QSL their KP2/homecall to their home addresses.

LIGHTHOUSE ACTIVITY. Operators Eric/VE5EL and Murray/VE5MC plan to be active this summer as VE5LGT from Cochin Lighthouse (ILLW CA0013), August 15-17th. They will have two stations on the air with 100 watts, SSB only, using dipoles and vertical antennas. QSL via the Bureau or direct to:
COCHIN LIGHTHOUSE, c/o Murray Crandon, 1034 Henleaze Avenue, Moose Jaw,
SK S6H 3V6, CANADA. See QRZ.com for more details.

LX, LUXEMBURG. Operators Ulrich/DJ9IE, Carsten/DL1EFD, Heinrich/DL2OBF and possibly others will be active as LX7I during the ARRL DX CW Contest (February 16-17th) as a Multi-2 or Multi-Single entry. QSL via LX2A. Visit the following Web page at: http://www.lx2a.com

NP2, U.S. VIRGIN ISLANDS. Yuri, N2TTA, will be active as NP2/N2TTA between February 12-19th. His activity will include the ARRL DX CW Contest (February 16-17th) as NP2S and as a Single-Op/All-Band entry. Outside of the contest, Yuri informs OPDX that he will be active on CW and SSB on all bands including 30/17/12 meters. However, his focus will be on the lower bands. QSL both callsigns via W3HNK.

PJ7, ST. MAARTEN. Bil/W8EB and his wife Dorothy/W8DVC will be here between February 24th and March 23rd. Activity will be on 160-10 meters, CW, SSB, RTTY and PSK31 as PJ7/W8EB and possibly PJ7/W8DVC. Operations will be limited because he is on holiday. Bil will operate in the ARRL DX SSB Contest (March 1-2nd) as PJ7B, and as a Single-Op/All-Band/Low-Power entry. This will be Bil's 13th consecutive ARRL DX SSB Contest participation from St. Maarten. Also look for him to be in any RTTY contests. All QSL requests go to W8EB. Visit their PJ7B Web site at: http://www.qsl.net/pj7b/

QSL 3D2/JM1YGG via JM1YGG. Activity was by 17 members of the Mitsubishi Electric Tokyo ARC. See QRZ.com for more info.

UA4WHX QSL STATUS. Vlad and his helpers are still mailing cards for his African and Middle East activity in 2005 and 2007. The cards are hand written so it takes a very long time, but he says they are working very hard to get them done. The backlog is greater than their efforts. He says, "Volunteers to come and fill them out are more than welcome here."

QSLS VIA LOTW: CT1ILT, HB9CVQ, HK6DOS, KG4SS, MD0CCE, TR8CA, V5/DJ4SO and ZF2BJ

QSLS RECEIVED VIA MAIL: 3Y0E, AH0V, BY1TX/4, CT3FT, D2NX, E4/OM2DX, E51MMM, HV50VR, J28OO, PY7XC, S79UU, TA3J, V8FWU, VK9ANH, VK9WWI, VP8DIZ, YM1907FB, YN9H, Z29KM, ZK2AH and ZL7/DL2AH

QSLS RECEIVED VIA THE BUREAU: None reported this week.

S2, BANGLADESH. Hugo, LA5YJ, is now active as S21XF. He tells OPDX that he will be here until the beginning of April. His activity over the past week has been mainly CW on 30/20/17/15 meters. He was heard on 20 meters SSB in QSO with a VK6 station. QSL via LA5YJ.

T32, EASTERN KIRIBATI (Update). Operators Bill/N7OU and Bob/W7YAQ will be active from Christmas Island (OC-024) as T32OU and T32YA, respectively, February 12-26th. The duo will be a Multi-Single entry in the ARRL DX CW Contest (February 16-17th) using the callsign T32OU. Outside of the contest they will be active mostly on 160-10 meters, on CW, but some SSB and RTTY, using only 100w and verticals antennas. QSL via their home callsigns.

T6, AFGHANISTAN. Sigfrido, T6AB, has been active on 40/20 meters SSB. Watch around 14200 kHz +/- 10 kHz between 0615-0930z and again between 1600-1730z. He was also heard on 7067 kHz after his 20 meters activity. QSL via IT9YVO.

TI2, COSTA RICA. Jean-Pierre, F6FQX, will be active as TI2/F6FQX between now and February 29th. Suggested frequencies are 10123 and 14023 kHz between 1330-1400z on most days. QSL via F6FQX.

TI9, COCOS ISLAND (Update/QSL Route Change). The international team of operators are now active as TI9KK (not TI9K as first announced). Activity will last until February 14th. Operations will be on all modes and bands including 60 meters and EME, with 6 stations on the air. It was announced last week (by DH8WR/EA2CRX, DJ7JC and OE9AMJ) that the QSL Manager was changed for this operation. The new QSL Manager is EA1DR. However, beware that the TI9 Web site still states EA2CRX, but QRZ.com does have the correct QSL info. There will be E-mail requests for Bureau QSLs. However, Bureau QSLs will be sent via the Bureau later. For more details and updates, visit the TI9 Web page at: http://www.ti9.eu.com

TM6, FRANCE. Members of the Radio-Club Electrans (CSAM) will be active from their F6KHM club station as TM6M during the ARRL DX CW Contest (February 16-17th) as a Multi-? entry. QSL via F4DXW. Operators mentioned are: F1AKK, F5MUX, F5TTU and F8DBF.

TO5FJ OPERATION UPDATE. Paul, F6EXV, informs OPDX that his recent TO5FJ operation is valid for DXCC. He will start answering cards within a couple of weeks. Paul suggests for those who want to QSL direct and have not sent cards yet, please do so rapidly, as there will be a postal increase on March 1st. Please do "NOT" use SASE (Self-Addressed _*STAMPED*_ Envelopes), and refer to his Web page for QSL directions and online log at:
http://www.f6exv.org/

V3, BELIZE (Correction to QSL Address). Last week we reported that Art, NN7A, will be active as V31JZ/p from South Water Caye (NA-180), February 22-26th. However, we reported Art's old mailing address and the direct route should be: Art Phillips, P.O. Box 73, Eckert, CO 81418 USA.

VK9C, COCOS-KEELING ISLAND (OC-003). Bernd, VK2IA, will be active as

VK9AA during the CQWW DX CW Contest (November 29-30th) as a Single-Op/ All-Band entry. QSL via DL8YR (QRZ.com).

VK9N, NORFOLK ISLAND. Last week we reported that Jim Smith, VK9NS, now has a couple of aerials set up for 6 meters. Since then, we have received a couple of QSNs. Jim was heard working VK/ZL on 6m SSB, last Saturday, February 2nd around 0100z and again on Monday, February 4th around 0035z on SSB.

VP2V, BRITISH VIRGIN ISLANDS (NA-023). Look for Steve/AK0M and his XYL Sandy/KC0RD to be active as VP2V/homecall from the Island of Anegada, February 11-18th. Activity will be on 40-6 meters, possibly some 80m operations if the antenna situation permits. Their emphasis will be on 40/30/17 meters, also 12m if the band is open. Operations will be primarily on CW, but with some possible SSB. Look for activity to be sporadic since this is a holiday style operation, but they do plan to be on the air at least 2-3 hours a day. Some limited time of participation, possibly 6-12 hours, is expected in the ARRL DX CW Contest (February 16-17th). Their operating locations will vary between portable locations including the beach and from their living accomodations. QSL via AK0M, direct or by the bureau (processed once a year). Logs will also be available on LoTW after the trip. For more details/information about their operation, visit:
http://home.cfu.net/~sjs/vp2v/vp2v_feb_2008_main.html

VP6, DUCIE ISLAND (Update). By the time you read this, the VP6DX operation should be active. The VP6DX team was expected to arrive a day early on the island (Friday, February 8th) and should be done with their setup on February 10th. For more details on donating funds and updates, visit the VP6DX Web page at: http://www.vp6dx.com

XU, CAMBODIA. Operators Bernd/DK7TF and Rudi/DK7PE are now active as XU7DLH until February 14th. Activity has been on 160/80/40/30/20 meters. Rudi has been operating on 160/80/40 meters CW, while Bernd has been on 20 meters SSB. Rudi suggests (for 160m) for Japan the transmit frequency will be on 1821 kHz and receiving on 1824.5 kHz. For NA and EU, Rudi might change his TX Frequency to 1824.5 kHz (QSX up 5) if needed due to possible QRM on 1821 in NA. Please let him now if QSY is necessary. QSL via DK7TF.

XU, CAMBODIA. John, 9M6XRO, will be active as XU7XRO from February 20-26th. QTH will be Sihanouk Ville (Kompong Som). Activity will be CW, SSB and Digi modes. John hopes to be on Top Band SSB during the CQWW 160m DX Contest. QSL is only via M5AAV, either direct or by the bureau.

YI, IRAQ (Update). Tom, N4NW, informs OPDX that the Stafford DX Association's efforts to procure an amplifier for YI9PT are moving along. However, donations have reached only 65% of their goal of the needed 1,300.00 USDs. Please support this operation by donating any amount you can now. Radar is now active and is being worked in Europe with 100 watts and a dipole. With the planned amplifier, his signal will be improved significantly on the lower bands outside Europe. Please visit the following Web page for complete information on how to help support this operation at: http://www.stafford-dx-association.org/donate.html
Radar, K2PT, (not MASH fame, but a SDXA member) a Marine in Baghdad, is

now on the air as YI9PT. During the past week he was on 80/20/17/10 meters. All QSL requests go to N4XP. Complete information may be found on the SDXA Web site at: http://www.stafford-dx-association.org
Additional information, updates, log check and sponsor information will be provided on the Web site and updated as the operating conditions change.

Hello to everything!

Here is the DX hunter!

VP6DX is on air!

from the 2/11/2008 - 28.02.08 on all tapes in CW, RTTY and SSB

The conditions to the DUCIE ISL. are nich the best ones, however, it already goes.

I already succeeded you on 20 ms SSB; 40 ms CW; to hear 40 ms SSB and 20 ms RTTY more or less well!

And really loud. I managed to work them **from the mobile** on 17m CW
this afternoon. And on 12m CW yesterday morning. Still need 'em on the
low bands.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3A, MONACO. Carlos, EA1DVY, will be active as 3A/EA1DVY from February 23rd to March 3rd. Activity will be mainly on topband SSB, around 1843 kHz. Also, he will participate in the CQ WW 160 DX SSB Contest (February 23-24th) and ARRL International DX SSB Contest (March 1-2nd). QSL via EA1DVY.

5X, UGANDA. Remember to look for Nick, G3RWF, to once again be active as 5X1NH from February 23rd to March 22nd. Activity will be limited because he is on holiday. Activity will be on all bands except 160m and 6 meters. Modes will be CW, SSB, RTTY and PSK. He will use 100 watts and wire antennas. QSL via G3RWF.

8R, GUYANA. Just a reminder that operators Phil/G3SWH and Jim/G3RTE will be active from Georgetown, Guyana, between February 22-29th. The licence has already been issued and the callsign will be 8R1PW. As there have been two operations from Guyana in 2007 which used mainly SSB, their activity will be on CW only on all bands 160-10 meters. Propagation and QRN permitting, they plan to have two stations on the air for as many hours every day as possible. Their main objective is to work as many European, North American and ROTW stations on as many bands as possible. QSL via G3SWH, either direct with SAE and adequate return postage

(recommended), or by Phil's Web site using the form for a bureau reply at:
http://www.g3swh.org.uk/form.html
Also, QSL via the bureau. There is more information at:
http://www.g3swh.org.uk/8r1pw.html

9X, RWANDA. Operators Baldur/DJ6SI, Karlheinz/DK2WV and Franz/DJ9ZB are now active as 9X0X, 9X0W, and 9X0Z, respectively, until February 21st. Activity over the past week has been on 40/30/20/17 meters, CW, SSB and RTTY. QSL via their home callsigns.

9X, RWANDA. Members of the multi-national DXpedition team (9X0R) going to Rwanda in March (See OPDX.841 and OPDX.843) have sent out a press release expressing their "disagreement and disappointment of the three German operators" now active from Rwanda (which are listed above). Because of the length of the press release, OPDX suggests readers to please go to the 9X0R Web page and read their release at:
http://www.9x0r.com/press/en.html

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, reports that the following operations are approved for DXCC credit:
VK9WWI - Willis Island; 2007 Operation
YI9PT - Iraq; Current Operation

AH0, MARIANA ISLANDS. Yu, 7K3BKY, will be active as AI4GN/AH0 from Saipan Island (OC-086) from February 17-21st. He may (or will try to) be active in the last few hours of the ARRL DX CW Contest on Sunday. QSL via his home callsign.

C6, BAHAMAS (NA-001). Operators Tom/N1GN, Bill/NE1B and Karney/W2AFC will be active as C6ANM during the CQ 160-Meter SSB Contest (February 23-24th) as a Multi-Single entry. QSL via LoTW. Also, operators Tom/N1GN and Bill/NE1B will be active as C6ANM during the ARRL DX SSB Contest (March 1-2nd) as a Multi-Single entry. QSL via LoTW.

C9, MOZAMBIQUE (Update). Frosty, K5LBU/C91CF, reports that one of the operators from his group has dropped out of the DXpedition to Mozambique for July, and they are looking for one or two more operators to join them. They plan on arriving in Maputo on the 16th of July and be picked up by the folks from the Blue Anchor Inn where they will be operating from this July. The same group will take them back to the airport on the 31st of July for their return home. A Web site is up now for the DXpedition at:
http://www.tdxs.net/c9.html
If you might like to become a member of their group let Frosty know. His E-mail address is: frosty1@pdq.net

CQ COMMUNICATIONS PRESS RELEASE (CQ Announces Expansion of WPX Award Program - Digital Modes Added Along with New Bands). Richard Moseson, W2VU, Editor, CQ Amateur Radio, provides the following press release dated February 14th: "CQ magazine and WPX Awards Manager Steve Bolia, N8BJQ, have announced several changes to the WPX Award program in response to feedback from program participants. The changes, effective immediately, add new bands and create a new Digital WPX Award.

Under the new rules, contacts on all bands between 160 and 6 meters will count for WPX award credit. In addition, new band endorsements will now be available for 5 MHz, 10 MHz, 18 MHz, 24 MHz and 50 MHz contacts. A separate Digital WPX Award has also been added for contacts made on RTTY, PSK and other keyboard modes, with 300 confirmed prefixes required for the basic level of the award. Digital-mode contacts will also count toward the existing Mixed award, as will those prefixes worked on the newly added bands.

Details on these and other changes will be published in the March 2008 issue of CQ magazine and are posted along with the March issue highlights on the CQ magazine website at: http://www.cq-amateur-radio.com/

The WPX Award Program recognizes amateurs for making confirmed contacts with the many callsign prefixes used by radio amateurs around the world. Top achievers are eligible for the WPX Honor Roll and the WPX Award of Excellence. General information and complete rules are available on the CQ website at: http://www.cq-amateur-radio.com/awards.html

CQ magazine sponsors a variety of operating awards and on-air competitions to encourage amateur radio operators to sharpen their operating skills and to recognize those reaching high levels of achievement."

EE8, CANARY ISLANDS. Operator Jim, N6TJ, will be active as EE8Z during the CQ WW WPX CW Contest (May 24-25th) as Single-Op/All-Band entry. QSL via VE3HO.

FR5, REUNION ISLAND. Jean-Marie, F8CHM, will once again return to Reunion Island and be active as FR5EZ from February 22nd to March 21st. Activity will be CW/SSB on the HF bands and 6 meters. QSL via to his home callsign.

IOTA NEWS.....................

EU-092. Col, MM0NDX, will be active as MM0NDX/p during the RSGB IOTA Contest (July 26-27th) from Tanera Mor, Scotland. QSL MM0NDX direct.

OC-206. The VK6 DX Chasers Club, a sub-group of the Northern Corridor Radio Group, is pleased to announce its next island expedition to Faure Island, in Shark Bay, Western Australia. The group will be active from the island from March 26th to April 1st, using the callsign, VK6FAU. Activity will be SSB, CW and the Digital modes on 80-6 meters. They will also try 160m. QSL CARD CHECKING. There will be a DXCC QSL Card Field Check Session from 1 to 4 pm, on Saturday, 26 April 2008, in the Plaza Room of the Holiday Inn Hotel & Convention Center, 9000 W. Airport Drive, Visalia, CA 93277, in conjunction with the 59th Annual International DX Convention (IDC).

In addition to the DXCC QSL cards normally checked in the field, a representative from the ARRL DXCC Desk will be present at the IDC, permitting the field checking of both deleted and 160 meter QSL cards.

The IDC Field Check Session application line will begin forming in the hallway outside the Plaza Room at 12:30 pm, with applicant processing beginning promptly at 1 pm. The normal QSL card field checking session limit (150 cards) will be waived, but priority will be given to checking smaller number QSL card application packages (large QSL card check packages may have to wait a bit longer).

Field check applicants should be prepared to present full packages, consisting of: completed ARRL forms (available off the ARRL web site), all QSL cards (sorted to match order in their forms), and payment (the use of credit cards is highly encouraged to speed the application process). Hybrid applications (those involving both field checked QSL cards and Logbook of the World credits) will be accepted at this Field

Check session.

Contact Jim Zimmerman, N6KZ, IDC DXCC QSL Card Field Check Session Coordinator, at (661) 945-6539 or jimzim1@mindspring.com for additional information regarding the IDC DXCC QSL Card Field Check Session.

VP5/VQ5, TURKS AND CAICOS ISLANDS. Dave, W5CW, will be active as VP5/W5CW between March 27th and April 9th. Activity will be on 160-6 meters (this will include 30/17/12m) CW/SSB. He will also be in the CQ WW WPX SSB Contest (March 29-30th) as a Single-Op/All-Band entry using the special callsign VQ58V. QSL via his home callsign.

VP6, DUCIE ISLAND (Update). The VP6DX operation is very active and will continue until they leave on February 28th. As this was being written, the VP6DX Web site was reporting just under 61,000 QSOs. Online logs are now available at: http://ducie2008.dl1mgb.com/onlinelog/index.php
For more details on donating funds and updates, visit the VP6DX Web page at: http://www.vp6dx.com

XU, CAMBODIA. Retu, OH4MDY, will be active as XU7MDY from Sihanoukville from April 3-14th. Activity will be on the HF bands using CW, SSB and various digital modes. QSL only direct to XU7MDY address on QRZ.com.

YU8, KOSOVO. As expected, Kosovo declared independence from Serbia on Sunday, February 17th. Read about it at:
http://news.yahoo.com/s/ap/20080217/ap_on_re_eu/kosovo_independence
A multi-national group of Amateur Radio operators is now in Kosovo in an effort to support and help revitalize Amateur Radio locally. The initial team members will begin sometime soon (possibly as this is being written). Activity will be on all bands on CW and SSB. Look for YU8/G3TXF, YU8/N7NG, YU8/OH2BH, YU8/OH2PM, YU8/ON8NC and YU8/W3UR. More details will be released when available. QSL via the operator's home callsign. UPDATE - In addition to the individual multi-national Amateur Radio operators (listed above) currently in Kosova and operating with UNMIK licenses, the group will soon begin activity as YU8/OH2R. The team currently has two stations and will begin activity on 40-10 meters on SSB and CW. For more details about the project please check the QRZ.cpm listing for OH2R. QSL YU8/OH2R via OH2BN.

ZS8, MARION ISLAND. Rhynhardt, ZS6DXB, 3Y0E Pilot station and Media Officer, announced this past week that Petrus, ex-3Y0E but currently ZS6GCM/mm, will be a team leader for a new scientific team going to Marion Island for 1 year. The arrangements for his activity from ZS8 are in progress now. Rhynhardt states, "Currently we try to collect some equipment for Petrus to make his activity more complete, delivering another most wanted DXCC entity to you at high level." Look for a new ZS8 dedicated Web site to be activate (it is now under construction). Its Web address will be published soon and more news regarding any further activity of Petrus will be announced right there.

It was amazingly easy to work them on 80, 40 and 30 from here on the left coast. As a matter of fact, I worked them on 80 both CW and SSB barefoot using a 40m vertical.
Otoh, I never heard a beep on 12 and 10, but that's probably because my BigIR is ground mounted.

In other news, it's been interesting to watch the DX Cluster spot assault and full-scale war about YU8. With all the hoopla about this being a new entity, I don't see how this is ever going to happen considering the criteria:

An Entity will be added to the DXCC List as a Political Entity if it meets one or more of the following criteria:

a) The entity is a UN Member State.

b) The entity has been assigned a callsign prefix bloc by the ITU

I am not an expert on international politics, but it seems to me that Russia will veto any attempt to admit Kosovo into the UN, and without the UN membership, is there a way to get a prefix block assigned by the ITU (this being a UN agency)?
And even if any of this happened, if the 4O entity is any indication, Kosovo will be a "new one" starting the day it is admitted into the UN, not the day they proclaimed independence (unlike S5, 9A and E7 before).

Worked here before the contest on 15 & 12 CW, 20 & 15 phone, and 20 RTTY.
With high power - I normally only do QRP for this contest.

Heard them on 10, but VERY weak. Probably could have worked them on high
power. 3-el Yagi at 65'.

I see they're on 80 right now but only working EU. I'm going to guess
that'll end fairly soon when the sun comes up over there. They're also
spotted on 160 & if they're as loud as they were during the contest they
should be workable.

If you can't get a prefix block without being a UN member, then there's no
point to criterium b)?

E4 (Palestine) would be a good example of an entity that has an ITU prefix
block and is a DXCC Entity but is not a UN Member State.

If you look at http://en.wikipedia.org/wiki/United_Nations_member_states
there seem to be some other entities whose prefix blocks predate their UN

membership. Andorra (C3), Tonga (A3), Monaco (3A), and Kiribati (T3) would seem to fall into that category. There are probably more. Why those states took so long to join the UN I have no idea.

<sigh> I've been inactive the last couple of years--and the last few months I've been in a tiny temporary apartment 500 miles from home and room to string wires. And VP6 is active. <sigh>

I'll finally get around to setting up a low-power PSK31 station in my apartment--just in time for the end of the current 11-year cycle, probably. <sigh>

Someone in a deed-restricted neighborhood said they worked VP6DX (on 80 meters!) with a Hamstick mobile antenna. Come to think of it, I worked them from the mobile on 17m last week as well. If you can come up with a radio and a few feet of wire, I'd bet you can work them.

Doug, I came to Kentucky for what I thought might just be a few months, and chose not to bring much stuff. And it's routine for me to put down one hobby and pick up a different one for anywhere from 3 to 18 months; most of the time I've been here I've been playing with cameras (and learning linux on my laptop) instead of playing with the radios.

Lately I've thought a few times that a small power supply and my 706, plus a hamstick out the window, might give me some fun on PSK31 ... next time I'm back in NC I may grab a bit of radio gear.

Back about 5 years ago I did a bunch of mobiling, when I first got that 706. Did some on 20 meters, had a lot of fun, bought a Hamstick for 15 meters. I put it on the car, and my first contact was French Polynesia (FO) for a new country. :-) Man, THAT was a thrill!

Now that i think about it, I bagged a handful of new countries from the car that summer--Swaziland, Austral Is., and Chagos, that I remember, plus Fr Poly. :-)   Maybe I *do* need to bring some radio gear next trip.
:-)

Clapham Junction (6/May/2000)

Certainty level: 60%

On Saturday 6 May 2000, I was in Clapham Junction, shopping and visiting the library. At precisely 12:29pm, the above audio clip was recorded, in front of Arding and Hobbs department store. One girl was saying to her friend,

"He's a homosexual, they can say whatever they want."

There are several reasons why I think this comment might be about me. Firstly, temporal proximity to other such incidents. The persecution had restarted about two to three days before this clip was recorded. Cause of restart unknown. Personally I think it's because I was going on holiday to France the following Monday - MI5 do like to take holidays abroad at the taxpayer's expense, and inventing reasons to resurrect their hate campaign just before I go on holiday is something they've done before.

Secondly, although I am not gay, they have used such references against me before. At Oxford Computer Group in 1994, manager Steve Mitchell simultaneously abused me and another employee but saying we were "of a similar bent". Such insults show latent or quite overt homosexuality on the part of the abuser.

Thirdly, the sort of people who abuse on the basis of mental illness are the same people who abuse others on the basis of sexuality, race, religion, etc. If they can abuse a disabled man, then they will surely do so based on the other criteria mentioned.

There is still some room for doubt, though, which is why I have assigned this recording a certainty level of only slightly above evens. But "they can say whatever they want" is what gives the game away; they just choose a differentiating feature on which to base their abuse; and if one such feature gets too boring ("we've called him a nutter for the last ten years so now we'll call him something else") then they invent a different lie to throw at me.

Balham High Road (3/Nov/2000)

Certainty level: 60%

On 3 November 2000, I had just got off the bus in Balham High Road, when I heard a group of schoolgirls shouting and laughing. One of them yelled;

"He's an idiot you know."

You can hear this on the above clip; it is followed by laughter. I am not quite sure this is about me, which is why I have only given it a two in three probability. I have been attacked many times with the word "idiot", which seems to be a favourite with intellectual lightweights who want to bring down bigger game. (Back in 1992 I was so worried by the attacks on my intelligence that I took the test and joined Mensa...... does that make me a *clever* idiot? Never mind.)

Crescent Grove, Clapham Common (2/Dec/2000)

Certainty level: 100%

This is one of those clips where I am absolutely, 100% certain it's inflicted by MI5 on me, because of background, context. On Saturday 2 December 2000, I was walking from my home to a pub on Clapham Common, and on the way was in proximity to a group of three English youths who were walking the other way. They turned from the main road into a private estate called Crescent Grove. Here is what they said;

(first youth) "He masturbates!"
(his mate responds) "Yeah, he masturbates!"
(and again) "Thief!"

There is a lot of context associated with this incident, which I will now relate.

Firstly, the verbal sexual abuse is a popular one with MI5, and as a statement about me is currently mostly in their imaginations. The accusation has to be seen relative to MI5's persecutory actions in late November and early December 2000, and in fact for some months leading up to this. Their relevant activities in June 2000 are documented in a message in this evidence item;
following from that, they sent someone to simulate an act in front of my window, which was captured on film.

It is the publication of the video of their agent performing the act on himself which caused MI5 to restart this thread of harassment in the first few days of December 2000. But there are some subtleties; I uploaded the digitised video to this website on 26/November/2000; but I did not announce its existence on the newsgroups until Sunday 3/December/2000. These youths' slur was made the previous day, on Saturday 2/Dec. That tells us quite a lot. According to my website logs, there were no accesses to the video file before Sunday 3/Dec. So why did MI5 restart this particular thread of abuse, before their agent's activities were published on the newsgroup? The conclusion we reach is that they were watching my internet connection, either decoding the telephone line, or at the ISP; and/or they may be able to physically see what is on my notebook computer's screen, from RF transmissions from its VGA circuitry. I do not know whether the latter is technically feasible, but the former certainly is, and I have known for years that MI5 bugs my internet activities and phone calls. It is from their observation of my internet connection that they were able to tell, without accessing the video file over the net, that it was of their agent in a compromising position; and it was from that observation that their shouted slur on 2/Dec emanates.

The second accusation, "Thief!", is even more interesting. It relates to occurrences from June of 2000, some six months before these youths threw the word at me. It shows just how wide in reach geographically and temporally the MI5 persecution is; they react to something which happened half a year previously.

In the first half of 2000, MI5 made a determined assault on my friendships. In one particular case, that of A. whom I had known for virtually all my life, they partly succeeded. This person made pointed references to me which made it clear he knew what was happening; at one point he started asking "do you know anything about the FBI and the CIA". In June 2000, we went to see a film in the West End. I paid for both of us, and then asked him to return what I had paid for his ticket, some �7.50.

He was reluctant to do so. Eventually he returned �5, settling for the lesser gain of �2.50.

I did not call him a thief to his face, but I may have spoken the word while I was at home, either conscious or in my sleep. MI5 have very tight control over everything I do and say in my home through their bugs; if I say anything against someone in "their" camp, they turn round the accusation against me. So, from the fact that A. tried to garner a few pounds at my expense, MI5 create the accusation, six months later..... "thief!".

Virgin Radio-Jon Holmes (4-5/Jan/2002)

Here are two segments from Virgin FM, one on Friday, the other on Saturday, both from the Jon Holmes evening show.

Certainty level: 80%

In early January 2002 I listened for the first time in some months to Virgin Radio, specifically to the Jon Holmes evening show on Friday 4 January 2002. They promptly attacked me verbally. Again, context is relevant. There are three instances in the space of two minutes on this extract;

00:18 "are you lying?"
00:22 "it's not fair"
01:24 "everyone at the amateur c+ turbo programmers club found it hilarious"

The first phrase is a straight slander. MI5 were trying to portray me as a liar at around this time; I have other audio with the same accusation. "are you lying?"; unsophisticated.

It's closely followed by the words "it's not fair". Note carefully the way he says it, quickly, as if to deny what he says. The phrase "not fair" was first created by OCTS MD H S.-W. in Nov/1992, and picked up on my first visit to hospital soon after "they should have paid your fare").
Again, unsophisticated parrotting of a key phrase.

The third phrase is explicable through contemporaneous context. That morning I had phoned about a C++ course. "c+ turbo programmers club"... again, somewhat brazen we're-listening-to-what-he-says-on-the-phone, and he-can't-prove-it. Something got lost in translation from MI5's watchers to Virgin, because "c+ turbo" means nothing.... there is no C+ turbo language, only C++, of which Turbo C++ is one implementation.

Certainty level: 80%

I wasn't entirely convinced from Friday's programme, but the following evening's show confirmed it. It contained a number of references to my condition, of which the following excerpt is one such;

00:09 "I'm not well, and no-one cares"
00:24 "my voice sounds all funny"
01:01 "do you mean people that aren't mad"
01:05 "medical problem is it"

"I'm not well" doesn't mean he has a cold; it means he is being sarcastic about my mental illness. "my voice sounds all funny" refers to the change in nature of my voice when acute illness hits. "do you mean people that aren't mad" is obvious. "medical problem is it"..... rubbing salt into the wound.

Balham Hill Post Office (14/Nov/2002)

Certainty level: 80%

By mid-November 2002 the persecution had again dwindled, as happens sometimes, when along came this item.
I spent most of my time at home, going occasionally to the shops in Clapham South, or into town to meet people. On this particular Thursday I only left the house once, for less than fifteen minutes to post a letter (special delivery, because my ordinary and recorded delivery letters had been disappearing en route for some time - not that anyone would accuse MI5 of such petty harassment).
At the post office counter there was an Asian guy talking into his mobile phone and grinning away. There is a probability that his comments were directed at me, as I will explain further. The second segment of audio closely follows the first segment.

"you'll do it today? let's meet about 3 o'clock and have some lunch. I got stuff to do and I'll go to the bank, get this sh.. fucking moving yeah. Even just a little bit do something. He doesn't understand, you know what it is,

I don't want to tell him again cause then he might, he thinks we're having a go at him, I'm not having a go at him,
I'm explain to him"

Explanation: The guy is talking about some bloke who is unnamed, however it might be interpreted as being in code about me.
"I'll go to the bank"... variously interpretable, either literally, or as sounds-like "wank" which has been a consistent
theme in MI5's abuse. "get this shit fucking moving"... abuse... could be interpreted as MI5's criticism of my inertness.
The state spends hundreds of thousands of pounds a year - they want to see some result, not just neutrality and ordinariness.
"he doesn't understand"... MI5 claim I'm stupid... but the numbers and bits of paper prove otherwise, so perhaps what that
is really about is their agents' subconscious perception of themselves.

"having a go at him"... sounds like they're having a go at me, doesn't it? You might take the audio at face value and assume
it's about some other guy, but it's normal MI5 procedure to pretend to be talking about someone else, and make the content of
the message very relevant to me, or their perception of me.

"for some reason it doesn't get into his head, I don't know why... he's lost it completely, hasn't he"

What reason is there for it not getting into his (my) head? Stupidity is implied. Also implied is that it does get into his head;
we're intentionally causing him damage. He's lost it completely... for some time I have suffered from OCD... lost it completely
is the persecutors' observation of my illness, which they see through the surveillance on my home, which they caused.

Eclipse pub in Balham (20/Dec/2002)

Certainty level: 70%

On Friday 20/December/2002 I went to Balham to do some shopping and eating. When I went into the Eclipse pub for a meal
there were two girls already at the bar being server, I ordered and sat down near the window. They sat down at the opposite
window seat, out of sight. After a few minutes they started screaming repetitively "section, section". They were reading
something and were trying to pretend that they were just repeating from what they were reading, but in reality it was quite
obvious they were talking about me, specifically to confinement under mental health.

As you can guess the behaviour of these unwise young things shows them to be from the underprivileged category which due to
the natural laws of society is seldom seen in the better classes of restaurant - the McDonald's next door is their more
usual habitat. My guess is that these two females were deliberately placed in the Eclipse with orders to be offensive to
me personally. The alternative would be that no-one had ordered them and they were just being rude on their own account,
but that is improbable, for two reasons; first, I was out of sight of them and one does not usually "pick on" a person
one cannot see; secondly, there had that afternoon in Balham been other, less distinct incidents immediately preceding this,
and it is inferable that MI5 were making quite a serious effort to create a physical incident, as they have done on
numerous occasions previously. I give my interpretation a two in three chance of validity.

Barbican Library - 6/Feb/2003

Certainty level: 100%

Here's an item from early February 2003, at which time Security Service were re-igniting hostilities against me, a direct result of my appeal for a legal hearing against their organisation. On Thursday 6/Feb/2003 I went to the Barbican in central London with my mother to visit the library and have a meal. Security Service naturally knew about it because it had been mentioned the previous day in our house which is under constant surveillance on grounds of "National Security", so they may have been able to inform staff there to say something to me, as has been done elsewhere. Two of the people at the Enquiries desk in the library obviously knew of my circumstances, I spoke to one of them who was very polite, and while I was waiting I heard the other speaking with a little less politeness, as recorded on this audio file. He said, "I spy", to start a game of guess what "I spy"; unsubtle, MI5 Spy. Then, at the 34 second mark on this clip he said;

"So obvious you couldn't even get that. I shall have to kill you. ha, ha, ha"

The words "I shall have to kill you" are interesting because such overt expression

is rarely heard. Security Service wish me extinct.
Some years ago they were openly shouting "suicide" at me, so that is established.
But there is an element of doublethink in their attitude;
they use people's natural prejudice against mentally ill, who are popularly painted by media as being aggressive, to try to tinge the group's view of me and MI5's actions against me. The Security Service religion is that the country's enemies are deadly, and must therefore be extinguished. Hence, we must seize eagerly upon the disabled schizophrenic from Clapham, and throttle him, because who knows what'll happen if we don't.

There may be a subtle agenda of population control in what the Security Service have been doing in this country since 1990. In the current issue of 2600 Magazine (the Hacker quarterly, which I read from time to time) there is a quote from Hermann Goering on page 2; "the people can always be brought to the bidding of the leaders. All you have to do is tell them they are being attacked. It works the same in any country".
2600 printed the quote as a comment on the projected war against Iraq, which does not appear to pose any threat to the territory of those countries which wish to invade it. However the quote is somewhat relevant to my case, which is widely known about within Britain;
the security service instructs all right thinking citizens to do MI5's bidding and band together against a common enemy, while at the same time there is a suggestion of "look what'll happen to you if you don't obey us".

Fanatic's Fare for the Common Man

Certainty level: 90%

The article reproduced below was penned by Bernard Levin for the Features section of the Times on 21 September 1991. To my mind, it described the situation at the time and in particular a recent meeting with a friend, during which I for the first time admitted to someone other than my GP that I had been subjected to a conspiracy of harassment over the previous year and a half.

There is a madman running loose about London, called David Campbell; I have no reason to believe that he is violent, but he should certainly be approached with caution. You may know him by the curious glitter in his eyes and a persistent trembling of his hands; if that does not suffice, you will find him attempting to thrust no fewer than 48 books into your arms, all hardbacks, with a promise that, if you should return to the same meeting-place next year, he will heave another 80 at you.

If, by now, the police have arrived and are keeping a close watch on him, you may feel sufficiently emboldened to examine the books. The jackets are a model of uncluttered typography, elegantly and simply laid out; there is an unobtrusive colophon of a rising sun, probably not picked at random. Gaining confidence - the lunatic is smiling by now, and the policemen, who know about such things, have significantly removed their helmets - you could do worse than take the jacket off the first book in the pile. The only word possible to describe the binding is sumptuous; real cloth in a glorious shade of dark green, with the title and author in black and gold on the spine.

Look at it more closely; your eyes do not deceive you - it truly does have real top-bands and tail-bands, in yellow, and, for good measure, a silk marker ribbon in a lighter green. The paper is cream-wove and acid-free, and the book is sewn, not glued.

Throughout the encounter, I should have mentioned, our loony has been chattering away, although what he is trying to say is almost impossible to understand; after a time, however, he becomes sufficiently coherent to make clear that he is trying to sell the books to you. Well, now, such quality in bookmaking today can only be for collectors' limited editions at a fearsome price - �30, �40, �50?

No, no, he says, the glitter more powerful than ever and the trembling of his hands rapidly spreading throughout his entire body; no, no - the books are priced variously at �7, �8 or �9, with the top price �12.

At this, the policemen understandably put their helmets back on; one of them draws his truncheon and the other can be heard summoning reinforcements on his walkie-talkie. The madman bursts into tears, and swears it is all true.

And it is.

David Campbell has acquired the entire rights to the whole of the Everyman's Library, which died a lingering and shameful death a decade or so ago, and he proposes to start it all over again - 48 volumes this September and 80 more next year, in editions I have described, at the prices specified. He proposes to launch his amazing venture simultaneously in Britain and the United States, with the massive firepower of Random Century at his back in this country, and the dashing cavalry of Knopf across the water, and no one who loves literature and courage will forbear to cheer.

At the time this article was written I had believed for some time that columnists in the Times and other journalists had been making references to my situation. Nothing unusual about this you may think, plenty of people have the same sort of ideas and obviously the papers aren't writing about them, so why should my beliefs not be as false as those of others?

What makes this article so extraordinary is that three or four days immediately preceding its publication, I had a meeting with a friend, during the course of which we discussed the media persecution, and in particular that by Times columnists. It seemed to me, reading the article by Levin in Saturday�s paper, that he was describing in some detail his "artist�s impression" of that meeting. Most telling are the final sentences, when he writes, "The madman bursts into tears, and swears it is all true. And it is." Although I did not "burst into tears" (he seems to be using a bit of poetic licence and exaggerating) I did try hard to convince my friend that it was all true; and I am able to concur with Mr Levin, because, of course, it is.

At the beginning of the piece Levin reveals a fear of being attacked by the "irrational" subject of his story, saying "I have no reason to believe that he is violent, but he should certainly be approached with caution". This goes back to the xenophobic propaganda of "defence" against a "threat" which was seen at the very beginning of the harassment. The impression of a "madman running loose" who needs to be controlled through an agency which assigns to itself the mantle of the "police" is also one which had been expressed elsewhere.

In the final paragraph of this extract, his reference to Everyman�s Library as having "died a lingering and shameful death a decade or so ago" shows clearly what sort of conclusion they wish to their campaign. They want a permanent solution, and as they are prevented from achieving that solution directly, they waste significant resources on methods which have been repeatedly shown to be ineffective for such a purpose.

Private Eye, 23 Oct 1992

Certainty level: 25%

I'm not really sure whether this cover was intended to get at me, or whether it was re-interpreted after publication to be about me. This issue of Private Eye came out in October 1992, by which time I had been under severe continuous pressure at work and from the general population in Oxford for many months. It had John Major saying to his wife, "Come back, Norma!" under the title "Major's support lowest ever".

There's a story behind this. In late October I was in the local pub (the Rose and Crown, nice traditional name eh) with two people from work, Simon and Phil. Phil had with him a copy of the current Private Eye. These are both "nice people" and on my side, I hasten to add. Simon pointed out the message on the magazine's cover to Phil, and asked "what do you think about that". Phil answered, "Well usually they [Private Eye] get it right". This exchange happened in front of me. Although I was ill at the time (this was before I'd started taking medicines) I hadn't read anything into the Eye cover until these guys pointed it out to me.

Sometime later, again in the same road, a student shouted to one of his friends, "so when are you COMING BACK?", again in front of me.

What I realised Phil thought it meant was a double-entendre, the "coming" referring to the act of ejaculation, the "back" referring to the human back-side. So in a play on words you get a person who is referred to as a back-side ejaculating. Charming.

Of course, Phil could have been wrong. Perhaps there was no such meaning intended by Private Eye. Perhaps he saw meaning which wasn't there. Perhaps the moon is made from green cheese. Who knows?

Victor Lewis-Smith

Certainty level: 10%

Victor Lewis-Smith has issued a denial through his webmaster John Hayward-Warburton regarding this article; he says quite categorically it's not written about me. I kind-of sort-of believe him, but I think the conspiracy is so wide that the phrase "Eventually, I had to leave because they were all trying to kill me" could have been intended to be as if from any paranoid person, but could have been influenced by my case in the particular. So the influence could have been sort-of subconscious.

This article is from the Evening Standard of Thursday May 8, 1997.
It is titled "Goon, and best forgotten" and may be found on page 31.

I think VLS has written/produced stuff specifically about me in the past, both in his Evening Standard column, one of which is reproduced below (in another case, he was talking about computer hacking, and I think that was directed at me), and a television programme in around late 1993 when he has a taxi driver who says "they're all trying to kill me guv" and VLS responds "you're supposed to be quite intelligent aren't you".

However, his webmaster has issued a formal denial on his behalf, so it is not for me to oppose what he has stated categorically.

Introduction to the Sent Faxes webpages

Between 1998 and April/2000 I sent some thirty articles on the subject of the MI5 Persecution to
British politicians, media, legal and diplomatic entities in the UK. Of those articles 24 are reproduced
on this part of the website. They were originally composed as Microsoft Word documents, and saved to HTML
form for publication here. A few of them were slightly edited in format for readability.

You will see that these articles cover quite comprehensively what has been going on since 1990, there being
quite a lot of material to cover, since it is a rare week that goes by without MI5 making some harassing
or threatening action against me. "How could it be True?"... they use the mental illness which they induced
in me as a ready explanation for my complaints. Who started it, why did it start, why it continues...
these faxed articles provide examination in more depth of the treatment in the Frequently Asked Questions webpages.
The sheer meaninglessness of the Secret Police actions is highlighted; their operatives make their livelihoods
by cynically exploiting the taxpayers, when in a more responsible country they would be looking at the inside of
prison cells.

The validity of this observation is proven by their reaction to my several suggestions in the articles that I
would cease sending faxes if MI5's agents (and it's always the same people doing the persecution) desisted from
continually harassing me. A number of times, you will see in the faxed articles, I have suggested that
we come to a "peace of mind agreement" where I cease complaining and they cease harassing. On one occasion,
I wrote to Hugh S.-W., the director of OCTS where I was employed in 1992-94 and who is aware of the
circumstances, asking that he intercede to bring this matter to a close, by initiating a meeting between
myself and the persecutors to mutually settle our differences; he didn't reply, but MI5 did
soon after - they said "This is what you wanted, wasn't it?, some sort of confrontation?".
The reality is the people stalking me are not interested in any settlement; for them crime pays, and

pays handsomely; moreover it is State-approved crime; the Police will never investigate or take action;
it is corruption on an incredible level and scale, and it has gone on for over a decade.

You will see that the articles contain three elements; firstly, there are original written articles,
many in the first half of 1999 when I was writing new articles every week and sending them by email and
fax during the weekend; then there are "MI5 Persecution Update" articles, which list happenings recent to
a particular transmission; and finally there is the "old faithful" Frequently Asked Questions article
which was sent on a few occasions during the three year period. These articles generated a number of
interesting responses from politicians and other recipients, many of which are documented in the
"received faxes" area of these webpages.

I hope you enjoy reading these articles. I'm not as angry as these articles necessarily make out,
only sometimes, usually soon after the persecutors have said something unpleasant at me; the purpose
of putting lots of fire and ire into the mix is to try to chuck it into the public domain which might
lead to MI5 being forced to curb their actions. Unfortunately that aim was not achieved, despite
many, many thousands of faxes being sent. Also, if any policemen are reading this, then I'm (a bit) sorry
about the rude things I said about "the Bill" in one or two of the articles; the police have never done me
any harm (yet) by commission, only by omission of doing anything to investigate my complaints or treat
them seriously.

Faxes Sent to British Diplomatic/Legal logs

During the 1998-2000 period my records indicate that I sent at least 3,642 faxes to diplomatic and legal offices located in the British isles, of which 3,345 went via TPC's email-to-fax service and 297 were sent via fax-modem direct from my computer. The actual figure is somewhat higher since, for most of this period, whenever a recipient asked to be deleted from my mailing list, I totally wiped all entries including that from the logfile.

In the records "Y" indicates successful transmission from fax-modem, "N" indicates failed transmission from fax-modem. "E" indicates an error occurred while transmitting via fax-modem and a fax may have been only partly transmitted. "y" and "n" indicate success or failure via TPC.

In April 2000 I changed the method of operation by recording "R" when a recipient requested removal, rather than wiping their details from my mailing list and records; and keeping "B" records for when TPC actioned a ban on a recipient's fax-number, but the recipient did not write to ask me to cease faxing. The purpose of these changes was to keep more accurate and complete records, but the intention was thwarted by the police complaint.

Faxes Sent to British Media logs

During the 1998-2000 period my records indicate that I sent at least 6,137 faxes to the British media,
of which 5,775 went via TPC's email-to-fax service and 362 were sent via fax-modem direct from my computer.
The actual figure is obviously higher since, for most of this period, whenever a recipient asked to be deleted
from my mailing list, I totally wiped all entries including that from the logfile.

In the records "Y" indicates successful transmission from fax-modem, "N" indicates failed transmission from fax-modem.
"E" indicates an error occurred while transmitting via fax-modem and a fax may have been only partly transmitted.
"y" and "n" indicate success or failure via TPC.

In April 2000 I changed the method of operation by recording "R" when a recipient requested removal, rather than wiping their details from my mailing list and records; and keeping "B" records for when TPC actioned a ban on a recipient's fax-number, but the recipient did not write to ask me to cease faxing. The purpose of these changes was to keep more accurate and complete records, but the intention was thwarted by the police complaint.

Also in April 2000, I added some further fax numbers to my media mailing list and records, which is why some of the faxnumbers below have only a single entry, and some indeed have none.

2008 DAYTON CONTEST UNIVERSITY (CTU). Well-known contester guru Tim Duffy, K3LR, announced the following: "The 2008 Dayton Contest University will be held all day on May 15th, 2008, in Dayton, Ohio, at the Crowne Plaza Hotel in downtown Dayton. The Contest University Web site will be updated soon. Registration will open in December (about 4 weeks from now). There will be separate tracks (classes) for first year (did not attend in 2007) and second year (attended in 2007) students." Stay tuned to this reflector (Contest Reflector) and to the Contest University Web site for up to the minute details at: http://contestuniversity.com

5J0/HK0, SAN ANDRES (Update). Operators Tom/K3WT, Vlad/N0STL, Bill/W0OR and Ron/N0AT will be active as HK0/homecall from November 20-26th. The team will also participate in the CQWW DX CW Contest (November 24-25th) as 5J0A and as a Multi-Single entry. QSL 5J0A via W0JAR. QSL all others via their home callsigns, direct or by the W0 QSL Bureau. Visit their Web page at: http://frontiernet.net/~5j0a/

5T, MAURITANIA. Andreas, DL7ZZ, informs OPDX that a German team is planning a DXpedition to Nouakchott, Mauritania, between March 16-30th (2008). The

current team of operators are: Rich/DK8YY, Rene/DL2JRM, Ralf/DL3JJ, Ingolf/DL4JS, Dan/DL5SE and Andreas/DL7ZZ. All team members are well-known for their DXpeditions and contesting, and they would like to provide 5T as a new one to those who need it. Operating location will be nearby the Atlantic Sea, so there will be enough space for their antenna systems especially for the low bands. The team is expecting their license very soon. They plan to have 3 stations on the air; 2 with amplifiers. For operations on the low bands 2 verticals (V160 and V80) will be errected, and on 40m they will use 2 phased verticals. For 30-10 meters, they will set up 2 beams, and for the digital station there will be another ground-plane. They will try to have an online log available that will be updated daily via I-net or pactor. A Web page will be updated with all informations about the DXpedition at: http://www.5t2008.de
QSL via DH7WW, by the bureau or direct. The team is looking for sponsors and donations.

6E, REVILLAGIGEDO (Update). As this bulletin was being written, OPDX was informed by Tony, XE1GRR, Pilot Station for 6E4LM DXpedition, that on November 17th at 0200z, the team was leaving the port of Manzanillo, on board the ship "Manzanillo" and was heading towards Clarion Island (IOTA NA-115). From Tony's press release, the team expects to arrive on Tuesday, November 20th at 1400z and expects to start passing out 6E4LM QSOs around 1500-1600z. They will remain on Clarion Island approximately 24 hours. While operating, the ship will continue on to Socorro Island to drop off food and fuel before returning to Clarion on Wednesday, November 21st. They will leave Clarion Island around 1400z and expect to arrive on Socorro Island on Thursday, November 22nd (approx. at 1400-1500z). The team will remain on Socorro Island for approx. 30 days, airing the callsigns 6E4LM, XF4YK and XF4YW. To read unedited updates and news, visit the DXpeditions Web page at: http://www.6e4lm.xedx.org

6W, SENEGAL (Update). Jovica, T98A (ex.9K2/T94FC, ST0RM, ST2A, T94FC), who received his 6W1SJ license, will be active during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (40m)/Low-Power entry. QSL via T93Y: Boris Knezovic, P.O. Box 59, BA-71000 Sarajevo, Bosnia and Herzegovina. Bureau and E-mail requests are OK (t93y@lol.ba or boris@t93y.com). Jovica will stay in Senegal for at least two years with great possibilities to activate other West Africa countries. Outside of the contest, look for him to be active on CW with some SSB and digital modes.

A3, TONGA. Dr. Tomas, VK2CCC, will be active as A35MT between November 20-26th. His main activity will be on the low bands (mostly CW) and the CQ World Wide DX CW Contest (November 24-25th) as Single-Op entry. His primary QTH will be on the Tongatapu Island Group (OC-049). He is planning to take verticals or a combined trap vertical for 160/80/40 meters, a separate dipole for 160m and a pile of wire antennas for the other bands. Tomas states, "A35 licence allows only 100w on 160m, so if you are in Europe, you'll need GOOD receiving antennas to hear anything at all. And a lot of patience." QSL (the best) via eQSL and the LotW, or direct to:
Dr. Tomas Magyla, 26 Simon Place, Hornsby Heights NSW-2077, Australia.
He also states that he is "very slow" with QLSing (direct cards) as usual. For more (updated) details, visit: http://www.qrz.com/callsign/a35mt

AFRICA AND SOUTHWESTERN TOUR. Well-known DXer Kan, JA1BK, will be visiting Southwestern Europe and Africa between December 4-13th. He might be showing up on the air time permitting in his busy schedule. Look for him as F/JA1BK from the Bordeaux area, EA3/KH6BK from Barcelona, side visit to Gibraltar (activity unlikely), then EA7/KH6BK. Paul, F6EXV, plans to join him and both will attend the Spanish URE DX Convention in San Fernando. On December 10th and 11th, Kan, along with Paul, will be visiting Juan, EA9IE, and might take the mike and/or the key, signing EA9/KH6BK and EA9/F6EXV. QSL respectively to their home callsign (JA1BK and F6EXV).

AH2, GUAM. Members of the Guam Contest Club will be active as AH2R during the CQ World Wide DX CW Contest (November 24-25th) as a Multi-Single entry. Operators mentioned are: Toshinobu/JI3ERV, Mikiawa/JR7OMD, Kazunori/JK3GAD, Osamu/JR8VSE and Nozomu/JE8KKX. QSL via JH7QXJ.

C5, THE GAMBIA (Update). Jan, PA4JJ, will once agin be active as C56JJ between November 30th and December 11th (not December 7th as first announced). This will be a holiday style operation. Jan informs OPDX that he will only use 100 Watts (FT-897) and the antenna will be a vertical and a ZS6BKW. There may be some topband and 6 meter activity. QSL via PA4JJ. PLEASE NOTE: Jan states, "... for direct QSLs OUTSIDE EU, I need at least 2 USDs, but if you want to spend some money for the school project (see http://www,gabiahulp.nl/blz_4a.html) please send a little more." He also states that there is a possibility of an online log this time on the Web site: http://c56jj.pa4jj.nl

C6, BAHAMAS (Update). Operators Fredrick/KE7X and Tom/N6BT will be active from Eleuthera Island (NA-001) between November 18-26th. Activity is planned for the CQ World Wide DX CW Contest (November 24-25th). Look for Fredrick to be active as C6AKX as a Single-Op/Single-Band (20m)/Low-Power entry, and Tom (callsign TBD) to be a Single-Op/Single-Band (160m) entry. QSL both via WA4WTG.

C6, BAHAMAS. Remember Kenny, K2KW, will be active as C6ATA between November 18-26th. Activity will include participation in the CQWW DX CW Contest (November 24-25th) as a Single-Op/Single-Band (40m)/Low-Power entry. Outside of the contest he will be active on 160-30 meters, mostly CW. QSL via WA4WTG.

CN, MOROCCO. Operators Stefano, IK2QEI, will be active as CN3A during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/High-Power entry. QSL via I2WIJ.

CO, CUBA. Winton, CO2WF, will be active during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (40m)/Low-Power entry. QSL via N1KI.

CO, CUBA. Luis, CO6LP, will be active during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (80m)/Low-Power entry. He states that he will be using a FT-80C with 100w into a dipole antenna at 10 meters above the ground. He will be listening for Europe between 3580-3590 and for Asia between 3505-3520 kHz. QSL via CO6LP

"DIRECT ONLY".

CO, CUBA. Juan, CO8TW, will be active during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (20m)/Low-Power entry. QSL via HB9SVT. The log will be online after the contest at:

Faxes Sent to British Parliament logs

During the 1998-2000 period my records indicate that I sent at least 14,480 faxes to the British Parliament in Westminster, of which 9,138 went via TPC's email-to-fax service and 5,342 were sent via fax-modem direct from my computer. The actual figure is obviously much higher since, for most of this period, whenever a recipient asked to be deleted from my mailing list, I totally wiped all entries including that from the logfile.

In the records "Y" indicates successful transmission from fax-modem, "N" indicates failed transmission from fax-modem. "E" indicates an error occurred while transmitting via fax-modem and a fax may have been only partly transmitted. "y" and "n" indicate success or failure via TPC.

In April 2000 I changed the method of operation by recording "R" when a recipient requested removal, rather than wiping their details from my mailing list and records; and keeping "B" records for when TPC actioned a ban on a recipient's fax-number, but the recipient did not write to ask me to cease faxing. The purpose of these changes was to keep more accurate and complete records, but the intention was thwarted by the police complaint.

He will be here on holiday with his wife, so activity may be limited. Activity will be on 160-6 meters (mainly on the low bands), CW, SSB and RTTY. QSL via DL7CM. For more info, visit his Web page at:
http://www.qsl.net/dl7cm/5H1.htm

AM, SPAIN. Operators EA5AFP, EA5FX, EA5AER and EA5KM will be active as AM5R during the CQ World Wide DX CW Contest (November 24-25th) as Multi-2 entry. QSL via EA4RCH.

AU/AT, INDIA (Special Event). Nilanjan Majumdar, VU2HFR, Secretary of the Bengal Amateur Radio Society, informs OPDX readers to look for special event stations using special callsign prefix blocks to celebrate the 149th birthday anniversary of the greatest Indian Scientist and Inventor, Acharya Jagadish Chandra Bose. He states, "Few Indians have been ornamented with the title of 'Acharya' which in Sanskrit means 'Guru' or 'Spiritual Master' or a person possessing great knowledge and wisdom and is a tribute to Sir J. C. Bose whose devotion and dedication to science was solely for the love of science, and who spread his knowledge to entire mankind for the good of the human race without thinking of any personal benefit. He never aspired for money nor fame and thus has not being given due recognition for his scientific endeavors which led to the discovery and advancement of radio communication as we know today. The man was far ahead of his times and even today his work on millimetric waves is being utilised in radio telescopes.

Special permission of the Ministry of Communications and Information Technology, Department of Communications, Government of India, has been accorded vide letter no. L-14011/640/2007-AMT dated 19.09.2007, to the following group of Amateur Radio Operator's licenses to use special callsigns (as mentioned below against each participant) to operate during the Birth Anniversary of India's great scientist and inventor Shri. Jagadish Chandra Bose, (which falls on November 30th 2007) from 25th November 2007 to 2nd December 2007, from their existing licenced location mentioned in the Radio Amateur Licenses.

1. VU2SMN	AU7JCB
2. VU2DCT	AT0JCB
3. VU2DSI	AU2JCB
4. VU2SDF	AU8JCB
5. VU2HFR	AU4JCB
6. VU2UR	AU1JCB
7. VU2SMS	AU9JCB

In addition, some more applications are under process for the special callsigns, all of which have common suffix 'JCB' with varying prefixes from AT1 to AT0, and AU1 to AU0. This is the invitation to all amateurs world wide, who are Prefix Hunters, Special QSL Hunters, etc, to avail the finest opportunity, to work and get QSOs, and later on QSLs from the very special prefix series AU1 to AU0.

The stations will be QRV on the following frequencies:

SSB:	CW:
40M: 7.030 MHz	40M: 7.007 MHz & 7.017 MHz
20M: 14.155 MHz, 14.190 MHz - 14.240 MHz	20M: 14.030 MHz & 14.035 MHz

18M: 18.105 MHz - 18.150 MHz	18M: 18.080 MHz & 18.085 MHz
15M: 21.180 MHz - 21.240 MHz & 21.310 MHz	15M: 21.030 MHz & 21.035 MHz
12M: 24.935 MHz - 24.975 MHz	12M: 24.895 MHz & 24.900 MHz
10M: 28.485 MHz - 28.535 MHz	10M: 28.030 MHz & 28.035 MHz

These frequencies are subject to QRM suffered, and there could be a variation of +/- 5 KHz. All DX stations are requested to send 'QSL via VU2SMN direct only' and, with 2 IRCs of the latest version only which expires on 31.12.2009. All VU stations are likewise requested to QSL with SASE for QSLs. No QSLs are handled via any bureau. For more information on the operation please visit the web page http://au9jcb.angelfire.com/ and for detailed information on Sir. J. C. Bose and his work, please visit the following wonderful links:

Look for Emilio/IZ1GAR to be active as IR9R as a Single-Op/Single-Band (40m) entry. QSL via IZ1GAR. Visit the Tikirriki Contest Club Web page at:

http://www.ih9p.com

OC-186. Adhi, YB3MM, who was scheduled to be active from Karimunjawa Island during the weekend of the CQ WW DX SSB Contest but had to cancel due to a transceiver problem, is now expected to be active during the CQ WW DX CW Contest (November 24-25th). He will probably sign as YB3MM/2. QSL via IZ8CCW.

SA-076/
SA-098. Operators Jorge/OA4BHY, Daniel/DL5YWM, Rene/DL2JRM and Bodo/DL3OCH will be active as OC1I from Isla Lobos de Tierra (SA-076, ARLHS PER-053, WLOTA-1521), January 2-7th. Activity will be on CW/SSB on 160-10 meters with 2 stations on the air simultaneously. Dates can vary depending on the weather and the sea. Before going to SA-076, the team will put Isla Blanca (SA-098) on the air starting (planned) December 28th for at least 2 days. The callsign OC6I will be used for this island. Once the team is done island hopping, they will rest in Lima and possibly be active as OA4/homecall until January 12th. Bodo/DL3OCH is planning to do some 23cm EME (JT65) during that time. Peru has never been activated on 23cm before. QSLs for OC1I and OC6I go only via Jeff/DL5WM. All the others via their home callsigns. Due to the high value of the Euro - please take note that the postage from Germany to overseas is nearly simliar to 2.60 USDs (1.70 EURO). Letters from Germany to Europe are 0.70 EURO which is simliar to 1.10 USDs. For more information on how to get an EME-Sked, please check the Web sites at:

All QSLs are via SM5GMZ. Hopefully more up-to-date details will be forthcoming before the new year. Stay tuned!

TX3, NEW CALEDONIA. Operator Sam, FK8DD, will be active as TX3SAM during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/Low-Power entry. QSL via LZ1JZ.

VE2, CANADA (Zone 2). Operator Yuri, VE3DZ, will be active as VE2IM from Sept-Iles during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/High-Power entry. QSL via VE3DZ.

VI, AUSTRALIA (Special Event). Tim, VK2XTT, President of the BMARC, informs OPDX that a special callsign to commemorate the 50th birthday of The Blue Mountains Amateur Radio Club (BMARC) has been issued by the Australian Communications and Media Authority (ACMA). The callsign is VI2BMARC50 and will only be valid for 10 days from January 18-28th (2008). Members will use the special callsign over the 10 days. QSL cards are to be sent via the bureau. Please look for them on all common bands and modes including PSK31, RTTY, SSTV and CW. A larger, very attractive card, serial numbered and signed by the current executive will also be available. However, there is a cost on this card of 5.00 AUDs posted. So please give VI2BMARC50 a call and help them celebrate this milestone in their club's history. Visit the club's website for updated information at:

http://www.bmarc.org/

YV0, AVES ISLAND. If you have not heard, Aves Island was almost washed way by Hurricane Dean on August 17th. Take a look at the unbelieveable before and after photos of Aves Island at:

http://www.yv0.info/dean/dean1.html

Z3, MACEDONIA. Members of the Radio Club "Nikola Tesla" (Z37M), and Christian/DL1MGB, Thomas/DL5LYM and Anja/DO2WW will be active as Z37M during the CQ World Wide DX CW Contest (November 24-25th) as a Multi-2 entry. QSL via Z37M (info on QRZ.com).

ZS, SOUTH AFRICA. Operators Fred/ZS1FZ, Allan/ZS1AAX, Martin/ZS1SM, Deon/ZS1ZL and Sigi/DL6QW will be active as ZS1FZ during the CQ World Wide DX CW Contest (November 24-25th) as a Multi-Single entry from Cape Town. QSL via DL6QW, by the bureau or direct.

The following stations are expected to be active in the
CQ World Wide DX CW Contest (November 24-25th, 2007)

Thanks to Bill, NG3K, for providing OPDX readers with the following consolidated listing of the participants in the 2007 CQWW DX CW Contest. For a more detailed listing (and up-to-date changes/corrections) in HTML format, please visit Bill's Web page at:

Thanks for those shots Ray.
It was a hard one to work for me,finally got it in 2004.Also worked the last
group there.No doubt,after many years going to sea,the currents will rebuild
what they took away.Thanks to the YVs for all their efforts in the past!

Faxes Sent to British Parliament logs

During the 1998-2000 period my records indicate that I sent at least 14,480 faxes to the British Parliament
in Westminster, of which 9,138 went via TPC's email-to-fax service and 5,342 were sent via fax-modem direct from

my computer. The actual figure is obviously much higher since, for most of this period, whenever a recipient asked to be deleted from my mailing list, I totally wiped all entries including that from the logfile.

In the records "Y" indicates successful transmission from fax-modem, "N" indicates failed transmission from fax-modem.
"E" indicates an error occurred while transmitting via fax-modem and a fax may have been only partly transmitted.
"y" and "n" indicate success or failure via TPC.

In April 2000 I changed the method of operation by recording "R" when a recipient requested removal, rather than wiping their details from my mailing list and records; and keeping "B" records for when TPC actioned a ban on a recipient's fax-number, but the recipient did not write to ask me to cease faxing. The purpose of these changes was to keep more accurate and complete records, but the intention was thwarted by the police complaint.

MI5 Persecution: How Could It Be True?

If you have the patience to read these articles you will be struck by how apparently fantastic the claims being put forward are. You may ask yourself why such seemingly nonsensical assertions are made. This matter has been discussed on the Internets UK-local newsgroups for three years now, and the denizens of the uk.misc newsgroup (the so-called "miscreants") have come up with a number of theories to explain these posts; it has been variously suggested that they are a troll (an artificial creation for the amusement of its author), that they are made by MI5 themselves with the purpose of discrediting other conspiracy theories, and that the poster is mentally ill and the articles are symptomatic of the illness (the view held by most miscreants).

Are these claims the product of mental illness, or is that just a cover?

The most obvious explanation, that the claims made result from the admitted mental illness of the author, is the one which the persecutors intend be the one accepted without consideration being given to the possibility of the claims being true. The persecutors have actually been very clever about this, both in selecting as their target someone who was known from school or university as being borderline schizophrenic, and in ensuring the nature of their persecution corresponds to what often features in the delusions of a schizophrenic.

The very first incident of the persecution occurred in June 1990, when I was still a student at university in London. It consisted of a reaction (giggling) from the newsreader, Sue Carpenter of ITN, to what she saw happening in my living-room at my parents home where I was living. Before your imagination gets the better of you I should make clear that what the newsreader was reacting to was not too embarrassing in nature; my mother had brought an apple for me into the the room, and Sue Carpenter found this amusing.

I recognized that Carpenter had reacted to what she had seen in my living-room, yet this idea still seemed completely fantastic to me. My reaction was to continue watching television, particularly the news, to see if this incident would be repeated. It was, many times, both on BBC and ITV. An intelligent person would have thought to obtain a video recorder and capture some of these incidents in order to try to explain to an observer what he saw in these broadcasts. Unfortunately, I failed this test of intelligence, since I did not record these programmes. I have recently attempted to obtain from ITN tapes of their news programmes dating back to summer 1990, but, unhappily, they have advised me that they do not have complete programmes including newsreaders comments dating back to that period.

From the outset, the persecutors structured their actions to ensure that any complaint would be met with disbelief, and dismissed as delusional. This is why they chose as their target someone who was known at school and university to be borderline mentally ill; and it is why they fired the first shots of their campaign through the broadcast media. Schizophrenics commonly believe the media harass them; it would be exceptional for "full-duplex television" to exist in reality. Those with schizophrenia also commonly believe people are talking about them; again, the persecutors have shown themselves very rarely, but act through intermediaries, both in the workplace, and in public and during travel.

Mental illness is not the cause of these claims, but the simulation of its symptoms is a cover used by the persecutors to deny their victim the ability to have his compaints believed.

What evidence exists to support these claims of "interactive television/radio";?

Quite frankly, I have very little evidence to support my claims. You may examine the "Evidence" area of my website to see such evidence as I have been able to gather. None of it is remotely conclusive. The "smoking guns" all date back to 1990/91, and it is really rather late now to start trying to look for material dating back seven or eight years. In 1997 I started tape-recording every programme I watched or listened to. I also started carrying with me a high-fidelity minidisc-recorder with good quality microphone to catch incidents of public harassment, but this also has not been as successful or conclusive as I had hoped.

Perhaps the best item in the "Evidence" section is the audio file "Life is so hard" (it is labelled with Garfield the cartoon character on the site), which I have given a certainty level of 100%. This item relates to harassment at my workplace in Canada in 1996. A co-worker called Mark was coming up with phrases and expressions which were repeating things being said at my Canadian residence, consequently leading me to believe that my apartment and home phone were bugged, and that the persecutors were passing their gathered information on to Mark. On one particular evening I said in my apartment, "life is so hard, and then you die". The following day I was able to record Mark saying exactly the same phrase at work.

Unfortunately when "they" know you are recording them, they simply dont say things which would unambiguously show harassment. When Mark the co-worker knew he was being recorded, he only made his remarks out of range of the recorder, for example outside the building. When the TV newscasters or radio disc jockeys know they are being taped, they limit themselves to saying things which are ambiguous, which even in my mind may or may not be personally directed against me.

Who knows about this persecution?

Surprisingly many people know. People in the media, such as BBC and ITN newscasters including Martyn Lewis and Michael Buerk, and radio disc jockeys such as Chris Tarrant of Capital Radio, know what is going on, and take part in it. Some co-workers at my former workplaces in England and Canada have known about the harassment. Quite a few people in the general public are also included. I believe the police are aware of the persecution, but, unfortunately, have chosen not to take any action to stop it. I have complained at my local police station in London several years ago, and I have stated on the internet newsgroups that I have done so, hence the police will be well aware of my wish to see the matter resolved. I believe their inaction denotes a dereliction of duty, but without good evidence, I am powerless to compel them to take steps to prevent further harassment, or deal with what has already taken place.

What is the purpose of sending these faxes?

These faxes are being sent to three distinct groups of people, namely Members of Parliament, the media, and diplomats & legal people. As you will have observed I am making use of the email-to-fax gateway at Demon Internet to send these faxes. I am forced to use this gateway since I currently live in North America, and cannot afford the high cost of direct phone calls to the UK.

My purpose in publicising my claims is firstly to discourage the persecutors from continuing their campaign, and also to attempt to bring their campaign out into the open, and thus perhaps identify the persecutors. Neither aim has been achieved yet, but I hope that with sufficient stimulation these aims may yet be accomplished.

The problem with the second aim is that those who read this article will fall into two groups, those who dont know anything about the persecution and consequently will disbelieve my claims as delusional, and those who do know about the harassment and may have some idea of who is behind it, but realise that if the harassers are exposed and the truth brought out into the open, then powerful British institutions will substantially lose prestige, and be exposed to ridicule.

It would give me hope to believe that these faxes will create a third group of people, those who find out that I am telling the truth, and who follow their consciences in standing up and seeing justice done. Only time will tell if this hope will be realized.

Why do you think MI5 are responsible?

The question of who is ultimately responsible for this eight-year harassment is one which is very difficult to answer, as the persecutors have never clearly made their identities known to the persecutee. However, I believe I am correct in attributing the continuing victimisation to elements of the British Security Service MI5, and in this article, I will try to explain the reasons for this belief.

The British internet magazine ".net" featured my website on page 17 of their March 1998 issue (number 42). Their review kindly describes it as an "excellent site" and gives some details of what the net surfer will find there. Should you wish to reply to this article you can do so;

"When did you first suspect MI5 were responsible?"

Over Easter 1995 I went to see a local solicitor in London with a view to talking to the police about the harassment. Soon afterwards I did go to my local police station in Clapham and spoke to an officer there. The solicitor made a comment which suggested to me that the persecution I had been experiencing may have been organised by an intelligence service.

Up to this point, I did not have any clear idea as to who was behind the harassment. Only their agents were visible, in the media, on television news programmes, and on the radio; in the workplace, where things said at my home were repeated verbatim; and in some cases abuse in public and during travel, for example on the trip to Poland in June 1992 which I have already described.

Both from the fact that widely disparate individuals and organisations were employed as agents in the campaign against me, and from the fact that an entity would be required to marshal their resources in the areas of spying on my home and giving gathered information to their agents, it was clear to me that a single entity was responsible for carrying out the campaign. Yet from June 1990 until Easter 1995 I did not have a clear idea of who might be responsible. I guessed that perhaps some private individual or group of persons who saw themselves as my enemies had perhaps paid private detectives to organise the harassment. Alternatively, since the campaign had started in the media, I made a far-fetched supposition that perhaps it was an ad-hoc group of media people who had set themselves up in opposition to me. After Easter 1995 I saw that these guesses were wrong, and I made an I believe much more accurate estimate as to who my enemies really are.

"Why couldn't a private group be behind the persecution?"

There are several reasons why a private individual or group would not be behind this campaign.

Quantity of resources / Money. Here is what one Usenet (internet newsgroup) participant had to say (several years ago) on the topic of how much money it would cost just to keep the surveillance going.

PM: >But why? And why you? Do you realize how much it would cost to keep
PM: >one person under continuous surveillance for five years? Think about
PM: >all the man/hours. Say they _just_ allocated a two man team and a
PM: >supervisor. OK., Supervisor's salary, say, #30,000 a year. Two men,
PM: >#20,000 a year each. But they'd need to work in shifts -- so it would
PM: >be six men at #20,000 (which with on-costs would work out at more like
PM: >#30,000 to the employer.)
PM: >
PM: >So, we're talking #30,000 x 6. #180,000. plus say, #40,000 for the
PM: >supervisor. #220,000. Then you've got the hardware involved. And
PM: >any transcription that needs doing. You don't think the 'Big Boss'
PM: >would listen to hours and hours of tapes, do you.
PM: >
PM: >So, all in all, you couldn't actually do the job for much less than
PM: >a quarter million a year. Over five years. What are you doing that makes
PM: >it worth the while of the state to spend over one and a quarter million
PM: >on you?

A private individual or group would not spend over a million pounds to verbally torture a victim without some financial motive or gain. Private industry is driven by the profit motive, and there is no financial profit to be had from carrying out a campaign in this way. If a private enterprise were behind it then they would have taken direct physical action a long time ago.

State enterprises, on the other hand, can afford to be wasteful, since they are funded by the taxpayer. They do not have to show a money profit. The employees or contractors employed by a state organisation such as MI5 are driven by their own personal profit motives, to make the most money out of their employers for the longest period of time. MI5 is funded to the tune of #150M p.a.; even a few hundred thousand a year would to them be affordable if their managers could convince themselves of the necessity of what they were doing.

Quality of resources / Technical resources - electronic and other surveillance. In summer 1994 a reputable and competent private detective agency was employed to conduct a counter-surveillance sweep of my home in London. They charged us over #400 for this, conducted a thorough search for radio transmitting devices, hard-wired "probe" microphones and also tested the telephone line. They found nothing. This was not altogether surprising, since it had been made very clear to me that there were bugs in my home; the "buggers" would not have made this clear unless they had felt their bugs were of sufficient sophistication as to be safe from detection.

But there is another lesson to be gained from the failure of the private detectives to find anything. The agency employed was one of the most reputable in London. They were employed on the principle of "setting a thief to catch a thief", for if the harassment were being carried out by private detectives, as I then believed, then surely another set of private detectives would be able to find the bugs that they had planted. That these "private eyes" were unable to find anything, and that the harassers were confident that they would not be able to find any bugs, points to the harassers being an order of sophistication above a private agency, and leads me again to believe that a state intelligence service is responsible for the surveillance and harassment.

Quality of resources / Technical resources - Interception of Postal service. In summer 1994 when I emigrated to Canada to try to escape the harassment, I wrote letters home to my family and friends in London. Quite soon after my arrival in Canada, the harassers were able to find precisely where I was staying. The only way I can see of "their" being able to find out my new address was by interception of my letters to the UK.

Later in 1994, I conducted an experiment to see if my letters home were indeed being read. In a letter home I wrote of being depressed and talked in vague terms of suicide. I deliberately chose this topic, since I believed it was the outcome my harassers were trying to achieve, and that if they read the letter, they would "echo" its contents. Sure enough, soon afterwards there were two incidents of people shouting "suicide" at me in public places in Canada.

It is inconceivable for a private agency to have the ability to intercept postal mail. The state security service on the other hand is well known to engage in these activities.

Quality of resources / Access to Media. One of the strangest aspects of this case is the access "they" have to the broadcast and print media. I still do not understand what could persuade newscasters such as Martyn Lewis and Michael Buerk, who consider themselves "gentlemen", to behave in an almost voyeuristic way by "peeking" into the living room of one of their viewers. A year ago I wrote to the BBC asking if these newscasters would confirm or deny the accusations made against them. The BBC replied that their newscasters had denied the accusations, but refused to do so in writing.

It is well known that MI5 have the ability to plant stories in certain newspapers, but convincing television newscasters to "watch" a viewer while they read the news would surely be very difficult for them to accomplish, unless they presented themselves to these journalists as being, for example, a group in the media who were seeing to it that I got my "deserved" treatment. MI5 has a history of manipulating the media, so it might not be too difficult for them to accomplish such a trick, whereas a private group would not have this ability.

"Have they ever denied that they are the Security Service?"

No. Never. This is in fact the main reason why I believe "they" are MI5 and not a privately funded group. If my guess had been wrong then I am sure that "they" would have crowed over my mistake, but they have never admitted nor denied that they are employees of MI5.

In early January 1996 I flew on a British Airways jet from London to Montreal; also present on the plane, about three or four rows behind me, were two young men, one of them fat and voluble, the other silent. It was quite clear that these two had been planted on the aircraft to "wind me up". The fat youth described the town in Poland where I had spent Christmas, and made some unpleasant personal slurs against me. Most interestingly, he said the words, "he doesnt know who we are".

Now I find this particular form of words very interesting, because while it is not a clear admission, it is only a half-hearted attempt at denial of my guess that "they" = "MI5". Had my guess been wrong, the fat youth would surely have said so more clearly.

"If MI5 were behind it, why would they wish to mask their involvement?"

I have heard a number of times a belief from people in the media that it is they, the media people, who are behind the abuse. In spring 1994 Chris Tarrant the Capital Radio D.J. said sarcastically on his breakfast show, "You know this bloke? he says were trying to kill him. We should be done for attempted manslaughter". We, we, we. Tarrant thought it was a media conspiracy.

Returning to the question of "interactive watching" by television newscasters, it would again be much easier for them to take part in that sort of activity if they convinced themselves that the surveillance and abuse were organised by "their own", by media people. It must be second nature to MI5 to mask their involvement in the matters they deal with; in this case, they pretend the campaign is organised by a group in the media, and any journalists who suspect otherwise keep their silence.

Conclusion

Over the last three years I have stated with some force my belief that MI5 are responsible for my misfortunes. I have done so on Internet newsgroups, in letters and faxes to people in politics and the media in the UK, and in 1997 I made a formal complaint to MI5 regarding their activities; the Security Service Tribunal replied in June 1997 that "no determination in your favour has been made on your complaint". (I believe the statement by the Security Service Tribunal can be disregarded, as they have never, ever made a ruling in favour of a complainant.) In three years of naming MI5 as my oppressor "they" have never denied the charge. To me, their silence on this point indicates that my guess was accurate. I believe my persecutors stand identified. The question of why they should carry out this campaign is one I will try to answer in a future article.

MI5 Persecution Update: Friday 15 May, 1998

The persecution has been quite severe for the last week. It appears that my enemies are reacting to the steady stream of faxes making their way over the Atlantic to the fax machines of Westminster politicians and the media. Here is whats happened in the last few days;

The week started off with an incident in the cafeteria at a local shopping centre where I habitually drink my morning coffee. My enemies have concentrated since winter 1995/96 on throwing a particularly horrible sexual slander against me. They "put people up" to repeat this slander against me, and this is what happened again here.

On Thursday morning (yesterday), instead of going to the usual cafeteria I went to a nearby convenience store for coffee. The same horrible sexual slander was shouted at me very loudly by a member of staff as I walked into the store. This was the first time I had ever bought morning coffee in that shop. The other staff obviously knew what was going on, one of them said, "they screwed up my life".

The fax gateway I use to send these faxes to the UK has been working hard these last few days to shut down my access by barring the accounts I use to send these faxes.

I have received an anonymous threat from fax number 0171-219-6101 (the machine gave its name as "ETRA-HoC") which said, "Stop sending to this fax no 0171-219-6101 or else" (the consequences of continued transmission were unspecified). I invited the sender to apologise for his threat, but received no response.

This all adds up to quite a severe reaction to my faxes of the last few weeks. I actually find this quite heartening since it shows that my faxes are finding the mark and there may yet be a breakthrough in my efforts to expose the Security Service conpiracy of abuse against me which has now been going on for eight years.

MI5 Persecution: "Why would they be doing this to you, sir?"

This article will concentrate on the difficult question of "Why". The question which forms the title of this piece was asked of me by the police officer I spoke to in Easter 1995, when I went to make my complaint.

There are really two sides to this question. Firstly, why should MI5 be harassing anybody in this fashion? Secondly, if they choose to behave in this way, why should they have selected me in particular, and not somebody else? Alternatively, why did the persecution start, and why is it continuing?

I do not have definite answers to either side of this question, since my persecutors have usually kept themselves hidden and only acted through other parties. To know "why", one would have to know who the persecutors are, and something of their personalities, since their abuse is almost certainly symptomatic of a personality disorder of the abusers. Certain things however can be deduced about the abusers from the nature of their behaviour, and I will talk about this later in the article.

Why did it start?

It is clear that the persecution must have been initiated by someone who knew me personally, either at school, or at university, or socially, and knew that I was borderline mentally ill, since this is what makes me a target for the persecutors. Unfortunately, the originators have never been identified, and there are several possible candidates. Neither has the link from the originators of the persecution, to the persecutors themselves, ever been made clear. So who are the originators?

University Staff

The identity of the originators may lie in the timing of the persecution. It started in June 1990, while I was finishing a course at Imperial College in London, and a year after I graduated from Cambridge, where I received a degree in computer science. At Cambridge I had achieved some notoriety in the computer lab from various nefarious exploits. Roger Needham attacked me by saying that "there were great hopes for it, but it failed terribly". When I started at Imperial I found that my reputation had preceded me; Cambridge computer lab had spoken to I.C. lecturers about me. I.C. lecturer Frank McCabe summed up commenting about "setting up a straw man so you can tear him down". (Despite being "torn down" by the Cambridge computer labs lecturers, I still achieved a good first degree and a Masters degree at Imperial.)

Other students at university

So, the originators may have been university staff who knew me from my student days. But there are other possibilities. I had other enemies at university, including some fellow students. At my Cambridge college it was common knowledge that my mental health was dubious, and it was known that I talked to myself in my sleep - the floor and walls were quite permeable to noise, so other students heard. I was given the nickname "gibber" because of this habit. Sometime later, I managed to catch myself talking in my sleep when I woke up in the middle of the night.

Here is a quote from a participant in the internet newsgroup where I have been posting for the last three years;

>One thing which has been missing from this discussion is this simple
>prognosis: that maybe he is right and that, despite his admitted
>mental condition, there really is a campaign against him organised by
>now-influential ex-students of his university.

People I knew socially

I had yet other enemies in 1990 (I am a man of many enemies!). In January 1990 I broke up with some people I had been going out with socially. One of them, by the name of Andy Turner, wrote a letter to Alan Freeman, who at the time was a Radio 1 DJ. Freeman read part of the letter out on his Rock Show, about the "one who wore out his welcome with random precision", saying "thats a hell of a letter you wrote there Andy", and "with a schizophrenic youre never alone".

It is my belief that Andy Turner and his friends were trying to make trouble for me, and Turner wrote to Freeman with this in mind. Freeman may have discussed the letter with others, and things may have snowballed from there. This is, of course, pure supposition. The fact is that I do not know who the originators are, and can only guess.

Once it started, why is it continuing?

The answer to this question is obvious. It is unacceptable to the "powers that be" in the UK to have somebody running around who knows he has been targeted by the Security Service and media organizations, and who is in a position to embarrass British institutions. This has become particularly evident in the last week; as I send more faxes to UK politicians and media, so the pressure on me grows, and the volume of abuse increases.

Part of the reason the persecution continues is in the personalities of the abusers, and it is this subject to which I will turn to next, since the key to understanding the persecution lies in understanding those who carry it out, as much as we can.

The Security Service operatives, the persecutors, are they psychopaths?

Let us first examine the definition of the term "psychopath". DSM-IV defines "anti-social personality disorder" as a "pattern of disregard for and violation of the rights of others ... deceitfulness, irritability and aggressiveness ... consistent irresponsibility and lack of remorse". The Harvard Mental Health Letter of Sept 1995 describes these people as using "charm, manipulation, intimidation and violence to control others and satisfy their own needs. Lacking in conscience and in feelings for others, they cold-bloodedly take what they want and do as they please", having "no guilt or regret".

I must say, reading this description of the condition, that it fits the persecutors perfectly. The persecutors have never shown the slightest remorse or guilt. Even when I was severely ill, they continued to abuse me. They have repeatedly blamed their actions on me, which is another trait common amongst psychopaths. They have no respect for my legal or personal rights, and they use intimidation and verbal violence.

If the MI5 operatives are psychopaths then it would explain both why the persecution started, and the degree of verbal violence. Psychopaths by definition damage other people; here, the MI5 operatives find an outlet for their personality disorder, through "cripple-kicking".

Xenophobia on the basis of mental illness, and race

My enemies have made clear many times that one of the reasons they are persecuting me is because of my admitted mental illness. However, it is my belief that they are also persecuting me because I am not of ethnic English origin, and the fact that there have been several incidents of an overtly racist nature reinforces this view.

In one case, two youths on a tube train in London made openly racist references to me as a "soft toy, not up to British Standards". Another person near my home made remarks about "Polish people". In yet another incident in Croydon, a youth made comments about "foreigners".

But the main thrust of their xenophobia is because of my mental illness. I should make clear that I do not look ill; if you met me, you would not know that I had the illness. I take a relatively low dose of medication, and feel quite well. But the persecutors have repeatedly harped on about my supposed serious mental illness; they have called me a "nutter", a "schizophrenic", etc. They have also persuaded other people to use these terms of abuse. They are able to get away with this because abusing the mentally ill is still something which is mostly acceptable in Britain; the media do it, "nutter" is not taboo in the way that "nigger" is.

Conclusion

There are several groups of people who might have wished to cause me trouble, and I still do not know who originated the persecution. Nor do I know how the originators came to be in contact with the (presumed) Security Service operatives who have been carrying out the campaign. To know conclusively why it started, we would have to know who started it, and this information is not available.

However, we can infer some things about the personalities of the persecutors from their methods, and from the degree of verbal violence they employ. It is clear that a main reason for the continuing harassment is the psychopathic disorder of the MI5 agents who carry it out. That they have never been "brought to book" for their misdeeds reinforces their belief that they do no wrong; and, unhappily, until they are brought to book, their persecution campaign looks set to continue.

MI5 Persecution: .net Magazine Applauds my Website

The March 1998 issue (number 42) of .net Magazine reviews the MI5 Persecution website describing it as an "excellent site". The webpages describe in detail the nature of my persecution since 1990 by what are believed to be elements of the UK security service.

(snip image)

You are encouraged to read the web pages which include

- a FAQ section outlining the nature of the persecutors, their methods of harassment through the media, people at work and among the general public
- an evidence section, which carries audio and video clips of media and workplace harassment, rated according to how directly I think they refer to me
- factual descriptions of the state security agencies involved

MI5 Persecution Update: Friday 13 November, 1998

If You Intend To Reply, Please Read This

If you have any questions or observations you would like to share with me, then you are very welcome to reply to my fax number 0171-681-1190. But please.... keep your response to one page if you can! I have had several people faxing my article back to me, including one MP faxing back twenty pages. I do not know if he had anything intelligent to say in his 20-page fax because I applied judicious use of the "Delete" key on my computer. Faxes over a page or two will be deleted without being read.

MI5 Resume Hostilities in Response to these Faxes

When I wrote last weeks "MI5 Persecution Update" I remarked how quiet my life had become. No longer! MI5 have restarted hostilities with a vengeance the past week, in response I believe to the faxes I have been sending to members of the House of Commons.

On Saturday 7 November I went to Clapham Picture House cinema to see the film "Antz" (a very enjoyable film). At the cinema, I was verbally assaulted by a group of teenagers with the words "still crazy", repeated about ten times. There was a film with that name showing at the cinema, but it was clear their abuse was directed at me. I do not look ill, so why would they pick on me? answer, the incident was set-up by the persecutors. One of the teenagers also said to another, "I don't know what we're laughing at".

The following day, Sunday 8/11/98, I was on my way to play squash when I was verbally assaulted by a youth who said "it was so funny", without the slightest trace of humour. What he meant by this phrase was that was funny, and they were trying to humiliate me. I have heard this phrase "it was so funny" used at me before many, many times over the last eight and half years.

Please Encourage Keith Hill MP to Help Me

I live in a bugged house, bugged both for audio and video. My movements are monitored by MI5. The Security Service have followed me to Canada, to Poland and the Continent, to the States. I cannot work anywhere, not in England, not in Canada, because MI5 will destroy whatever employment I am able to obtain. I have asked Keith Hill MP to help me, and he has refused.

The situation is intolerable. It is Mr Hills job to help me out of this mess. So, please, as I said in the last fax a week ago: Do not waste your time returning multiple copies of my faxes to my fax mailbox, as some of you have done. Instead;

Please encourage Keith Hill M.P. to help me.

I am sorry to be using this device to encourage Mr Hill to help, but I think eight and half years are quite enough and it is time something was done to bring this matter to a close.

MI5 Persecution : BBC Newscasters Spying on my Home

This week's topic is the quite extraordinary claim that BBC newscasters such as Martyn Lewis and Michael Buerk have spied on my living room while they read the news. I currently have an advert running for the next six months in Private Eye's "Eye Say" column (at a cost of over #200) which says,"MI5 Persecution - BBC Newscasters Spying on my Home"; the story of my campaign in the Eye is on my Website at; http://www.pair.com/spook/evidence/plaint/priveye.htm

BBCs staff magazine Ariel also ran my advert "BBC Newsreaders Spying on my home" for one issue in the Personal category on 8/July/1997 before it was spotted and axed by editor Robin Reynolds; please see webpage; http://www.pair.com/spook/evidence/plaint/ariel.htm

Beginnings

The very first incident in the "MI5/BBC Persecution" occurred in June of 1990, when a newsreader reacted to what she saw in my living room at home as she read the news. My mother had brought an apple for me into the room, whereupon the newsreader smirked and giggled, apparently finding this funny. I couldn't believe what I was seeing. I carried on watching news and other television programmes to see if presenters would show signs of "interactive watching"; to my surprise, this happened again and again. Unfortunately, I did not have my wits sufficiently about me to videotape these programmes, and it is now almost impossible to obtain recordings dating back to 1990.

Most of the "TV watching" has occurred on the news, and most of it in summer 1990, although some as late as autumn 1993. My website has a few extracts of what might be politicians "getting at" me, in particular John Major and interviewer Dimbleby sharing a joke about the "Knutsford Guardian" which is almost certainly about me.

I sold my portable TV in autumn 1990 and stopped watching television regularly. I realise now that this may have been a mistake. What I should have done was to watch TV and listen to the radio, but tape-record everything and make a note of what each excerpt meant to me. I would then be in a much stronger position as regards to evidence that I am now. That is what I am trying to do now, but unsurprisingly the TV/radio presenters have stopped getting at me, now they know they are being recorded.

Examples of Media Harassment

Here are a few examples which I can still remember of media harassment;

In early 1992 I was watching the BBC news with Martyn Lewis on a small black-and-white portable television at my then home in Oxford. I threw a term of abuse at Lewis; he flinched, then gave a grin and made a comment from which I understood that he had been on my side, but might have changed his mind as a result of what Id just said to him.

Victor Lewis Smith in his TV (BBC2?) program at the end of 1993, had a taxi-driver saying, "theyre all out to get me", to which VLS replied, "but you're quite intelligent aren't you?" (what a nice chap VLS is, compliments no less!)

Paul Daniels the TV magician, sometime in 1990-92 (sorry I can't be more precise but it was so long ago), made a "crying face" and put his face in his hands, which was his way of expressing that I was frequently crying in 1990-92, and that he and other media people found my crying funny.

Kenny Everett (deceased) on some talk show, compared me to a "huge ape" who "scratches himself"; he made some other remarks about what the "ape" got up to which unfortunately I cant remember. (I remember that Everetts comments were quite sympathetic and human, but were obviously about me.)

Stephen Fry on another talkshow (Wogan I think) talking about "masturbatory fantasies", he then referred to me with the words "you prat"; I wonder if the studio audience knew what he was talking about and to whom his comments were directed?

Griff Rhys Jones on Clive James' TV show, made a "lunatic face" (wide fixed grin) to which I said to the TV that he had a "face like a horse's arse", to which Clive James said to GRJ "did you hear that?"

Crimestoppers summer 1990, remarks by a Midlands police officer on the programme, while Nick Ross was presenter (as far as I can remember). The officer talked about "in car entertainment". Nick Ross said to officer, "why don't you stop doing it?" to which he replied, "we can't while he's like this".

BBC2 Newsnight in autumn 1993 had a piece on football hooliganism. A black interviewee said apparently of the hooligans, but in fact of me; "they're just idiots, carry on with the surveillance".

There was an incident with Jonathan Ross which I remember clearly; he was on both BBC and ITV television at the same time, one (ITV I think) was recorded, the other channel was live. Ross has a speech impediment which causes him to pronounce his "r"s as "w". I sarcastically said something about "Mr Woss" to the recorded channel, then turned over to where he was live, and he repeated "Woss" with heavy emphasis and sarcasm.

On the radio, in spring 1994, Chris Tarrant made a sarcastic remark in his morning show, saying "he says were trying to kill him, we should be done for attempted manslaughter", to which another of the studio staff said, "oh no, dont say that". His comment was in reply to a comparison Id made the previous evening between my persecutors and the Polish secret police who murdered dissidents.

Martyn Lewis Denies & Lies, But Wont in Writing

In February 1997 I wrote to BBC Viewer & Listener Correspondence and asked them to investigate the claim that their newscasters had engaged in "interactive watching". They replied that they had asked Martyn Lewis and Michael Buerk whether they had engaged in such practices, and that they had both made verbal denials to VLC, but were refusing to put their denials in writing.

I can understand that they might think that if they were to make written denials to me, then many other people with my condition might write to them with similar questions. But Ive asked a couple of journalists if theyve been writing about me, theyve made written denials, Ive believed them, and I have not put their denials on my website because, since I believe their denials, it would not be relevant to publish them.

To me it looks as if Lewis and Buerk are happy to lie verbally but not in writing, because written falsehoods would place them unambiguously in the wrong, whereas they can try to talk their way out of verbal lies if they are ever caught, or perhaps even deny the verbal lies completely? If they lie without shame, then why would they have any shame about future lies about lying?

One of the strangest aspects of "TV watching" is that Buerk and Lewis have convinced themselves that their "interactive spying" is reasonable behaviour. Martyn Lewis thinks of himself as a "gentleman". He expressed in 1992 that he was "on my side". If this matter ever comes out into the open, I wonder what these newscasters will have to say for themselves, and what the British public will make of their behaviour?

Media Persecution Evidence on my Website

You may directly access the Evidence section on my website at URL;

The category currently contains four video segments, a number of audio files and three published articles. The first video of ITN's John Suchet is unfortunately a mistake - after looking at it again it is obviously not about me. The two Ken Clarke excerpts may or may not be about me; it is funny that he should keep on harping about "paranoia" and "madness", but I have given these ratings of only 30% certainty, as it is more likely that they are not about me in particular, and Clarke is simply displaying the normal prejudices against the mentally ill found in much of society.

The piece I find most interesting is the Dimbleby/John Major interview from April 1997. I have assigned this a 90% rating. Dimbleby starts by emphasising a report from the "Knutsford Guardian". Major recognizes what's going on and joins in with a falsely apologetic "heaven forfend". The emphasis is on the first syllable pronounced "nuts" in

"Knutsford", which is repeated three times. Of course this is hardly anywhere near convincing evidence; the really clear items were all in 1990-92, and they are basically unobtainable now.

If you're reading the website, have a look at the two files from David Hepworth's programme on GLR radio. The first one from 21/Feb/1997 has him talking about an "embarassment" of prizes and "absolute obscene", in reference I believe to the verbal sexual abuse that was being used against me at the time (and which unfortunately is still current). In the second file dated 9/May/1997 he again talks about "absolute embarrassment" of prizes, followed by laughter. To my mind he knows I am listening to his programme, and deliberately makes these remarks for my benefit, with very little attempt to disguise their purpose.

Bernard Levin - "Fanatic's Fare for the Common Man"

On 21 September 1991 this article by Bernard Levin appeared in The Times. It is reproduced in the Evidence section of the website, or may be accessed directly at URL;

To my mind, Levin's article described the situation at the time and in particular a recent meeting with a friend, during which I for the first time admitted to someone other than my GP that I had been subjected to a conspiracy of harassment over the previous year and a half.

Levin writes about a "madman running loose about London" who "bursts into tears, and swears it is all true. And it is." I am pleased to agree with his assertion that "it is all true" because the truth is what I presented to my friend in September 1991 and it is what is being presented to the readership of these articles now.

Conclusion

The harassment, in particular media persecution, was at its strongest in 1990-92. Today, I am recording everything I watch, read and listen, and the media have pretty much given up. It is now incidents "in public" which make up what there is of MI5s persecution. But much of the material from 1990-92 still exists in archives, although the organisations which have those archives generally wont make the material available to the public, for copyright and other reasons.

MI5 can no longer employ the media to persecute me, partly because journalists now know who is behind the persecution, and also because I would publish any instances. My mistake during 1990-92 was to not record instances as they happened; Ive learned from that mistake, and know better now.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3D2/R, ROTUMA. Just a reminder. By the time you read this, Tony, FO5RK, is expected to be here until possibly the end of January. He will be active as 3D2AG/P. Activity will be limited during the first two weeks because of his work. Full-time operations are expected to start around December 15th. Look for him to be on 80-10 meters CW/SSB and 6 meters. For updates and online log, visit: http://www.3d2ag.fr.tc/

5R, MADAGASCAR. Remco, PG0A, has once again returned here and will be active as 5R8NL until December 7th. His first operation was back in 2005. Activity will be a "holiday style" operation. He will be using a FT-857 with an amplifier using verticals and some wire antennas. Remco was heard this past week only on CW and on 40/20/17/15/10 meters at various times throughout the day; earlier as 0830z and as late as 2030z. OPDX was informed by Dennis, PA7FM, that Remco is not into QSLing at all, and effective immediately, PA7FM has taken over Remco's QSL job for this operation as well as the earlier operations. Dennis states, "There's a small backlog of direct QSL request that will be cleared after this operation as soon as possible. Apologies for that to those awaiting an answer." He also mentions that a small Web site will become available online with the possibility of online logs and more photos when the internet connection is good enough. Please remember this is a holiday style operation with just one operator, so no 24 hour around the clock operation.

CE0Z, JUAN FERNANDEZ ISLAND. Svein, LA6IKA, has been on a three month vaction in South America since the beginning of November. He has operated from Chile (CE/LA6IKA) and Argentina (LU/LA6IKA) on 20 meters CW and PSK. In late January he is expected to operate as CE0Z/LA6IKA from Juan Fernandez Island (SA-005). Svein will use an ICOM 703 with only 10 watts and small antennas. QSL via his home callsign. ADDED NOTES: He will also try to get a licence for Easter Islands (CE0Y/LA6IKA). Svein has a blog which keeps you up-to-date on his activities at: http://la6ika.blogg.no/

CT9, MADEIRA ISLAND. Luis, CT3EE, will activate CT9EPC, a special callsign for the EPC (European PSK Club) members on Madeira Island, between December 3-8th and again during December 22-28th. Activity will be mainly on 40/20 meters because of propagation. The callsign CT9EPC is used only on the Digital modes, and the main objective is to have more activity on these modes. QSL direct to CT3EE (see QRZ.com) and not to the Bureau (he is not a member of the Portuguese National QSL Bureau). Please visit the EPC Web page at: http://eu.srars.org/index.php?option=com_weblinks&catid=29&Itemid=144

EA8, CANARY ISLANDS (AF-004). Giovanni, IZ2DPX, will be active as EA8/IZ2DPX from the Island of Fuerteventura between December 30th and January 6th. Activity will be on 40/20/17/15/12/10 meters using a Kenwood TS-50 with a MFJ Tuner into a Spar I1UJX multiband vertical antenna. QSL direct to IK2DUW or by the Bureau.

INDEXA (Helping Make DX Happen). Gary Dixon, K4MQG, INDEXA President, wants to alert fellow DXers that the recently revised INDEXA Web site now has additional features and functions. The INDEXA Web site can be viewed at: http://www.indexa.org/
Gary states, "INDEXA is all about providing financial support for DXpeditions considered to be on the 'most wanted list', so hope the pending DXpeditions we are supporting will be a new DXCC entity or at least provide you with a few new band countries. Anyone interested in

supporting INDEXA and its goals (including membership or donations) can get information from the Web site."

IOTA NEWS......................

NA-035. (Update) Operators Ray/WQ7R/HR9, Lane/KC4CD/HR2, Antonio/HR2DX, Daniel/HR2DMR, Ramon/HR7REA, Javier/HR2J, Pedro/HR2PAC and possibly more will activate Swan Island as HQ8R between March 15-23rd. They plan to be active on 160-10 meters with two stations on phone, one on CW and one on the Digital modes (RTTY and PSK31). They plan to have four stations with ten operators. QSL via HR2RCH: Radio Club de Honduras, PO Box 273, San Pedro Sula, Cortes, HONDURAS (Information from QRZ.com). Visit their Web site at: http://www.hondurasdx.com

J5, GUINEA BISSAU (Update). The "F6KOP TEAM" is planning a DXpedition to Guinea Bissau on Bubaque Island (AF-020 and WLOTA 1145) between January 11-21st (2008). Their callsign will be J5C. This past week the team announced that Serge, F6AML, had to cancel his participation for some personal reasons. Jean-Marc, F8IXZ, (ex-6W1/F8IXZ, 6W4/F8IXZ, TM0GAY, F8IXZ/D44AC, 5H1C), a CW operator, will join the F6KOP team and will go in place of Serge. For up-to-date info, visit their Web pages at:
http://www.j5c.eu

KH0, MARIANA ISLANDS (OC-086). Operators Hiro/W1VX, Toshi/N3YS and Hide/AB2WE will be active from Saipan, December 7-10th. Look for them to sign as KH0/homecall and KH0D. Activity will be on 80-10 meters, CW, SSB, RTTY and FM. QSL W1VX and KH0D via JF1OCQ, N3YS via JE1SYN, AB2WE via JI1JPJ.

Information pertaining to the Northern California DX Foundation is available at: http://www.ncdxf.org

NETHERLANDS ANTILLES TO NET NEW DXCC ENTITIES FOR 2008! Over the past year much discussion has been made about the possibility of new DXCC entities happening once the break-up/disbanding of the Netherlands Antilles takes effect on December 15th, 2008. This past week, the President of European DX Foundation (EUDXF), Hans, PB2T, who visited ARRL HQ in July and had a discussion about the DXCC status of Netherlands Antilles, feels after December 15th, 2008, it looks like four new entities will be added to the DXCC list in the future (Curacao, Sint Maarten, Saba, Sint Eustatius and Bonaire).

OH0, ALAND ISLAND. Operator Ari, OH5DX, will be active as OH0Z during the CQ 160-Meter CW Contest (January 26-27th, 2008) as a Multi-Op entry. QSL via W0MM.

OH0, ALAND ISLAND. Operator Juha, OH9MM, will be active as OH0Z during the CQ WW RTTY WPX Contest (February 9-10th, 2008) as a Single-Op/All-Band entry. QSL via W0MM.

PIRATE ALERTS.....................

FR7BB - Marcel, F6EKB (ex-FR7BB), doesn't know anything about this callsign being reissued. It was recently heard on the air. Marcel left Reunion Island in 1976 and was 3X0HNU until 1993. By the way, he still has his logs.

MU0A - Phil, GU0SUP, reports that during the CQWW CW Contest, the callsign MU0A was very active and was spotted numerous times, and made many S&P contacts. He states, "Sadly, this call has never been issued, a fact which has been confirmed by Ofcom, the licencing authority in the UK, and therefore the operation was a pirate."

PJ4, NETHERLANDS ANTILLES. Larry, Wo0Z, will be active as PJ4/Wo0Z from Bonaire (SA-006) from December 8-15th. He will be active on CW, SSB and possibly RTTY on whatever bands are open in this holiday-style DXpedition. QSL via Wo0Z (PLEASE NOTE: "Whiskey Oscar zero Zulu").

SILENT KEYS.....
OPDX and its readers would like to send out our deepest sympathy to the families and friends of the following Silent Keys:

Wolf Baron, TI2BY, was a well-known ham who started his hobby shortly after WWII and remained active until the present day. In Costa Rica and Latin America, he pioneered digital modes, especially packet. But overall Wolf Baron was known as one of the great teachers of amateur radio in Central and South America.

Dan Umberger, W8ZCQ, became a Silent Key (SK) on November 30th. He was a serious DXER and had 378 countries to his credit. An online obituary is available with a online guestbook at:
http://www.legacy.com/Dispatch/Obituaries.asp?Page=Lifestory&PersonId=98872947

TR, GABON. Roland, F8EN, will once again be active as TR8CR (possibly with a special callsign) from Libreville from December 7th to January 12th. Activity will be mostly on 20 meters (14005, 14125/200 kHz). There is a possibility that Roland may make a short operation from an island in the AF-043 IOTA group. QSL via F6AJA or F8EN.

YB, INDONESIA. Juergen, DJ3KR, is now active as YB1AQB until December 15th. He will be active on all bands using an IC-7000 into a vertical that is 10m in height. Activity has been mainly on 40/30/17 meters CW between 1100-1700z. QSL via his home callsign.

YJ0, VANUATU. Three members of the VK Contest Club will be active from here as YJ0AX during the CQ WW WPX SSB Contest (March 29-30th, 2008) as a Multi-2 entry. Operators mentioned are Trent/VK4TI, Tony/VK3TZ and Laurie/VK4VCC. QSL routes will be announced later for NA and Europe.
A Google group for discussion - YJ0AX2008, has been set up for interest and is open to all operators of contest calibre.

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

For more information about our newsgroup, see:

Please direct any comments, questions, or criticisms to rec-radio-info-request@panix.com.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

5K, COLOMBIA. Operator Siso, HK3W, will be using the special callsign 5K3W during the CQ 160-Meter SSB Contest (February 23-24th) as a Single-Op/Low-Power entry. He will be using only a dipole and 100w. QSL only direct to his home callsign.

5T, MAURITANIA (Update). Andreas, DL7ZZ, provides OPDX with another update on the German team's planned DXpedition to Nouakchott, Mauritania, to take place between March 16-30th (2008). He states that their team is now complete. They have added Oliver, DL2ARD, the 10m-SSB operator of DA0HQ. For more information on the operators and their equipment, please visit the Web page at: http://www.5t2008.de
He also mentions that the first foundations who donated funds and are supporting their DXpedition are now listed on their Web site. The team is looking for sponsors and donations. QSL via DH7WW, by the bureau or direct.

A4, OMAN. To commemorate the 35th anniversary of the Royal Omani Amateur Radio Society (ROARS), look for all Omani stations to sign homecall/35 from December 12-14th. Also, look for the ROARS HQ station, A47RS, to be active A47RS/35. QSL HQ station via the bureau.

ANTARCTIC CRUISE/DXPEDITION (Update). Mehdi, F5PFP, organizer of an upcoming Antarctic Cruise/DXpedition for 4 weeks in 2008-2009, states he is still looking for a good CW operator. The Antarctic Cruise/DXpedition program will take you to: Videla station, Almirante Brown station, Yelcho station, Port Lockroy base, Macchu Picchu station, Republica del Ecuador refuge, Gurruchaga refuge, Maldonado station, Juan Carlos station, Station B, and Risopatron station. The trip will start in Ushuaia. If you are interested and for more details, send him an E-mail at: f5pfp@aliceadsl.fr

CN, MOROCCO. Jim, W7EJ, will be active as CN2R during the CQ 160-Meter CW Contest (January 26-27th) as a Single-Op/High-Power entry. QSL via W7EJ. See the station from CN2R at: http://www.arraysolutions.com/Users/cn2r.htm

CQ MAGAZINE 2007 DX MARATHON. John, K9EL, CQ's Program Manager for the CQ DX Marathon, reports: "Just a few weeks left to the end of the second annual CQ Magazine DX Marathon! Each year from January 1st to December 31st, CQ Magazine sponsors a challenge to work as many countries and zones as possible in the calendar year. This year's edition ends soon, but there is still time to fill in some missing countries and zones. Remember that for 2007, the WARC bands are permitted. For complete rules and submission information, please see our Web site at: http://www.dxmarathon.com
Good luck and see you on the bands! 73, John, K9EL"

CU2, AZORES. Pedro, EA1FCH, who was active from Sao Miguel (EU-003) in the Eastern Island Group as CU2/EA1FCH during the summer, informs OPDX that he will again return during the summer of 2008. Meanwhile, he also reports that he has begun to confirm QSOs from his 2007 operation. Pedro states that he did not make very QSOs (about 600) because of problems with his antenna. His CU2/EA2FCH log is avaialble at:
QSL via EA1FCH, by the Bureau or direct.

DXCC NEWS (DXCC Applications Received Page Information). Bill Moore, NC1L, ARRL DXCC Manager, reports: "Recently, I inadvertently noted a mailing date of September 14th in the block on this page. This was, in fact, the date DXCC was entering applications for and not the mailing date. The actual current mailing period in DXCC as noted on the page is the week of August 31st, but this also includes all remaining August applications. All pending August applications should be finished in the next 1-2 weeks.

DXCC is currently entering applications received during the 3rd week of September.

DXCC is currently mailing the remaining applications for August.

The current backlog is estimated to be: 15 Weeks.

This reporting is fluid because applications before and after this date may be in progress for both mailing and entering. The above figures represent the average period.

Also, please remember it is currently the Christmas season, and in addition to DXCC mail delays, additional delays may occur in the next few weeks due to USPS overload..........73 es DX!"

EY8, TAJIKISTAN. Nodir, EY8MM, will be active in the CQ 160-Meter CW Contest (January 26-27th) as a Single-Op/High-Power/Assisted entry. QSL via K1BV. Priority will be given to NA QSOs and New ones. See Nodir's Web page at: http://www.ey8mm.com
LAST ADDITION: Nodir, EY8MM, will also be active during the ARRL DX CW Contest (February 16-17th) as a Single-Op/Single-Band (80m)/High-Power entry. He also mentions he needs KS, LA, ND, NE and WY.

GB0, ENGLAND (Satellite News). Operators John/G7HIA and Robert/G8ATE will be using the special callsign GB0OO (Golf Bravo 0 (Zero) Oscar One) between December 12-16th. The 12th of December is an unofficial "OSCAR DAY" to celebrate the launch of Amateur radio's first satellite "Oscar-1". They will be operating "ONLY" on analogue satellites. Further information can be found at: http://www.turlington.supanet.com/

HI, DOMINICAN REPUBLIC (NA-096). Costantino, HI3CCP, will be active as HI3C from Loma del Toro (WLOTA L-2274) during the CQ 160-Meter SSB Contest (February 23-24th) as a Single-Op/Low-Power entry. QSL via ON4IQ.

IOTA NEWS..........................

AF-018. Operator Raffaele, IH9YMC, will be active from Pantelleria Island (IIA TP-001, MIA MI-124, WW Loc. JM56XT), African Italy, in the CQ 160-Meter SSB Contest (February 23-24th) as a Single-Op/Low-Power entry. QSL direct only.

EU-070. Christian, F8HJV, will be active from the Levant Island (DIFM ME-012 and WLOTA 1083) near the Napoleon Fort until December 22nd. Activity will be mainly on the HF bands on SSB. He was heard this past weekend on 40 meters. This operation will count for the French Forts and Castles Award (Reference DFCF 83117). QSL via his home callsign.

SA-090. Remember to look for a second YL DXpedition organized by the 4M5DX group this week to take place from Chimana Grande Island (DIV-008 for the Venezuela Islands Award), between December 12-16th. YL operators will sign YW6YL, and the team of operators include Andreina/YY4AND, Carolina/YY4CVI, Laura/YY4LCG, Maika/

YY5ALO and Ydorca/YY5EVA. QSL via IT9DAA, direct preferred but the bureau is OK. More information can be found on their new Web site at: http://www.yw6yl.4m5dx.info

JW, SVALBARD. Unni, LA6RHA, will be making her 16th trip to Svalbard and plans to be active as JW6RHA between January 18-24th. Watch 14248 kHz +/- QRM. QSL via LA6RHA. Visit her interesting Web page at:
http://home.online.no/~la6rha/index.htm

LIGHTHOUSE ACTIVITIES............................

Members of the Texas Lighthouse Radio Society will activate several lighthouses along the Texas Gulf Coast using the callsign W5TLH between December 22-29th and during the "ARLHS Lighthouse Christmas Lights QSO Party". Lighthouses expected to be activated:

Texas Maritime Museum (ARLHS USA-1247)
Corpus Christi (ARLHS USA-1137)
Lydia Ann Channel (ARLHS USA-018, IOTA NA-092, USI TX-001S)
Port Isabel (ARLHS USA-649, USi TX-038S)
Brazos Santiago [New] (ARLHS USA-080)
Brazos Santiago [Old] (ARLHS USA-081, IOTA NA-092, USI TX-007S)
Brazos Santiago Depot (ARLHS USA-1393)

Activity will be mainly SSB on the following suggested frequencies on/near 14260 and 7260 kHz. QSL direct (w/SASE) to W5TLH, c/o Jim Martin, 637 Newberry Dr., Richardson, TX 75080-5622. For a QSL card use a #10 business size return envelope (SASE). For a QSL card and an unfolded certificate send a 9" x 12" return envelope (SASE). Further information can be found at: http://www.w5azn.com

Operator Jakob, OZ7AEI and others plan to activate 4 lighthouses of Aggertange (DEN-081, DEN-082, DEN-190 and DEN-191), Saturday, December 15th, all on Vensyssel/Thy Island (EU-171 and DIA NJ-001). They plan on possibly having 2 stations on the air (20m and 40m). More details will be available (December 14th) on the time/schedule of each LH and the callsign to be used on Jakob's Web page at: http://oz7aei.qrz.dk
All QSLs are via the home callsign, by the Bureau or Direct. See OZ7AEI's new adress on QRZ.com.

NEW OFFICIERS FOR 2008. The Texas DX Society (TDXS) is pleased to announce its officers and board members for 2008:

President - Steve Smothers, W9DX
VP Programs - Cal White, WF5W
VP Membership - Paul Frantz, W5PF
Secretary/Treasurer- Bill Frink, K5WAF
Contest Chairman - Don Daze, N5DD
Repeater Chairman - Glenn Anderson, WB5TUF

Visit TDXS Web site at: http://www.tdxs.net

OH0, ALAND ISLAND (Ops Update). Operators Ari/OH5DX, Juha/OH1JT, Pasi/OH1MM, Timo/OH1TM, Mika/OH2JA, and Tomi/OH6EI will be active as OH0Z during the CQ 160-Meter CW Contest (January 26-27th, 2008) as a Multi-Op entry. QSL via W0MM.

OJ1, ANTARCTICA. Mika, OH2FFP, is a team leader on an expedition from

Finland to the Antarctica with 11 members heading to the Aboa Scientific Base located on Queen Maud land (73�03'S, 13�25'W) near the Swedish, Norwegian and German bases. By the time you read this, the team should be there, and Mika could be active on the air using the very rare callsign OJ1ABOA. Mika will answer QSLs when they return in three months. The base has several transceivers. Mika plans to use 1 KW to a twin dipole for 40 and 20 meters on a 15 meter tall tower. By the way, Mika is fairly new to amateur radio and has no experience with operating or certainly with pileups, but he is an expert on survival in extreme conditions - which may help on the air! He has written two books on extreme conditions survival.

PJ2, NETHERLANDS ANTILLES. Just a reminder that Jerry, WB9Z, will be active this week as PJ2/WB9Z from Signal Point, Curacao (SA-006, WLOTA LH-0942), between December 12-25th. Activity will be holiday style on all bands. QSL via his home callsign.

It was reported that Gerd, DL7VOG, stated in his returned QSL: "Thank you for the QSO/s and your QSL. The postage in Germany is very expensive. I have to pay 1.70 Euros for an overseas letter. Your two USDs is only 1.40 Euros (today's exchange). I don't want to get rich with my hobby but neither poor ;o)) Please remember next time. Most of the US guys insert 2 USD. They probably don't know about this. I have found a cheaper way, but it takes more time!! 73 and GL de Gerd / DL7VOG" The QSL card he sent came from the Czech Republic.

SATELLITE DX REPORT (by John, K8YSE).............

AO-51 continues to be the most active/popular FM satellite and can be worked with a VHF/UHF HT with a hand-held Arrow antenna. DX heard from Ohio in the last week includes TG9GIG, WP4CNU, VA7MG, VE3OSC, VE3TEP, XE1HON, XE1NW, XE1SVT, XE2YWB, YV4DYJ, YV5DSL, YV6BFE. TG9GIG was also worked on VO52 on SSB.

AO7, a satellite launched in 1974 which came back to life in 2002 after not being heard from since 1981, provides the best opportunity for longer range contacts. Western Europe is in view of the Eastern U.S. on some passes with G1WPR, PA1TNO, OH8MBN, F6HRO and LA2QAA being logged on the AO7 Web site: http://www.planetemily.com/ao7/main.php
The AO7 online log shows that there is a lot of opportunity to work DX on this bird. AO7 alternates (on its own) between Mode A (2 meters up/10 meters down) and Mode B (432 up/2 meters down). This is an FM/SSB satellite. Check the Web site for an idea of what mode it might be in.
.... 73, John K8YSE

T9, BOSNIA AND HERZEGOVINA. A team of operators will activate T93J during the CQ 160-Meter CW Contest (January 26-27th) as a Multi-Op entry. QSL via T98U or OE1EMS.

TN, CONGO. Operators Baldur/DJ6SI and Franz/DJ9ZB are now active as TN6X (CW) and TN9Z (SSB), repsectively, until December 13th. Activity has been on 40/30/20/17/15 meters. QSL via their home callsigns.

TO5, MARTINIQUE. Al, F5VHJ, will be active as TO5A from the Island of Martinique (NA-107, DIFO FM-001, WLOTA L-1041) during the ARRL DX SSB Contest (March 1-2nd) as a Single-Op/All-Band/High-Power entry. Al will also be active as TO5A during the CQ WW WPX SSB Contest (March 29-30th) as a Single-Op/All-Band/High-Power entry. QSL both operations via F5VHJ, LoTW, or the REF Bureau.

TX5C CLIPPERTON ISLAND (Press Release). Jay, K4ZLE, member of the Clipperton 2008 team, sent out the following press release:

"Time is drawing close for the Clipperton 2008 DXpedition. The team has been recruited. Plans and preparations are underway. Equipment is being staged, and your Clipperton 2008 team is chomping at the bit to make it a reality.

Information on the planned operation can be found at the web site:

http://www.clipperton2008.org

Included on the web site is information on how you can support these activities, including providing financial support. As in most operations of this type, each individual has made a sizable up front financial commitment. Also, as in most operations of this type, there are other expenses.

Our antenna plans are quite extensive and it takes a LOT of coax to feed those antennas. If you have good quality 9913 or 213 coax sitting around, we can use it. You may ship your surplus coax to us and accomplish at least two objectives:

1) You become part of the support team. As such, in addition to the personal satisfaction that should give you, you will be listed on the official web page.
2) In addition, as a contributor your donation will we tax deductible to the full extent of current tax regulations. We will provide an appropriate receipt for your contribution.

Prior to shipping to us, please contact Steve Hammer, K6SGH, at:

k6sgh <at> clipperton2008 <dot> org

He will coordinate this effort. The countdown is underway. The radios and operators are ready to play. So what do you say; contribute your surplus coax today."

V4, ST. KITTS. Operators Mike/W1USN, Bob/AA1M and Scott/W1SSR will be operating as V4/homecall starting February 28th until March 2008. They will be using CW, SSB and PSK on 160m to 10m. QSL via CBA.

VP5, TURKS AND CAICOS ISLANDS. OCARC Member Bob/K0OK and Dale/KB7UB are still active as VP5/K0OK and VP5/KB7UB, respectively, from Providenciales (NA-002), until December 11th. Activity will be on 160-6 meters CW and SSB.

They were active in last week's ARRL 10 Meter Contest as VP5E (K0OK) and VP5UB (KB7UB). QSL via their home callsigns. Online logs will be available at: http://www.dxer.com/dxlogs
All QSOs will be uploaded to LoTW.

VP5, TURKS AND CAICOS ISLANDS. Operator Jim, W9VNE, will once again be active from Jodi's, VP5JM, "Hamlet" as VP5/homecall on Providenciales Island (NA-002), February 1-6th. Activity is mainly to participate in the FOC Marathon (a members only event - February 2-4th) on CW. Prefix hunters are welcome to exchange reports with him. QSL via W9VNE to:
Jim Danehy, Box 54482, Cincinnati, Ohio 45254 USA.

VP5, TURKS AND CAICOS ISLANDS. Operator Dave, WJ2O, will be active as VP5/WJ2O from Jodi's, VP5JM, "Hamlet" on Providenciales Island (NA-002), February 15-22nd. His activity will include the ARRL DX CW Contest (February 16-17th) as a Single-Op entry. QSL via his home callsign.

VQ9, CHAGOS ISLANDS. Jim, ND9M, informs OPDX that he will be returning to Diego Garcia this week (ETA 12th December) for another four month tour and will resume operating as VQ9JC. Jim states, "My ship will be leaving the island in a few weeks, so I don't know yet how much of my four months will be spent there; hopefully we will return in August or September 2008. But there's a possibility that the ship will be reassigned to another port; if that happens, this would likely be my final chance to put out VQ9. If I'm still there in late March, I will try to get another special prefix callsign issued for temporary use around the CQ WPX SSB Contest. The local licensing authority was very receptive to my request in 2007 and were kind enough to issue me VQ97JC for a two-week period; with luck, they will do it again. Operating time tends to run about 85% CW, 10% SSB, and 5% digital and is mainly on 10-80 meters. I must take a boat from my ship (where I am one of the few remaining Radio Officers) to the island where the ham shack is located and usually cannot be QRV before 1200Z. (Local time is GMT +6 all year.) In order to be on the boat back to the ship, I must QRT by 1630Z on Sundays through Thursday, and by 1730Z on Fridays and Saturdays, although I will occasionally stay overnight to work early morning DX. Even if I do stay overnight, I have to QRT by about 0050Z to make the boat in time to be at my job by 0200Z. (Ops should keep in mind that I'm there on a work assignment; it's not a vacation holiday!)" QSL via ND9M (ex-WB9IHH); either by the bureau or direct is OK. Jim's XYL will forward direct requests to him every three weeks or so, but mail typically takes about two weeks to get to the island once she mails it.

YE9, INDONESIA (Special Event). Look for special event station YE9FCCC to be active from Bali until December 14th on the HF and VHF bands. Activity is to promote the United Nations Climate Change Conference through the world via Amateur Radio Frequencies. Most of the activity this past week was on 40/20 meters CW, with some QSNs on 17 meters. QSL Manager is YB1GJS, and QSL card should be mailed via P.O. Box 1096, Jakarta 10010, Indonesia.

YO, ROMANIA. Pit, YO3JW, informs OPDX that starting December 6th (2007) YO stations can use frequencies 7.100 to 7.200 MHz.

ZD7, ST. HELENA ISLAND (AF-022). Operator Tom, KC0W, will be active as ZD7X during the CQ 160-Meter SSB Contest (February 23-24th) as a Single-Op/Low Power entry. QSL via W0MM (QRZ.com).

MI5 Persecution: How Could It Be True?

If you have the patience to read these articles you will be struck by how apparently fantastic the claims being put forward are. You may ask yourself why such seemingly nonsensical assertions are made. This matter has been discussed on the Internets UK-local newsgroups for three years now, and the denizens of the uk.misc newsgroup (the so-called "miscreants") have come up with a number of theories to explain these posts; it has been variously suggested that they are a troll (an artificial creation for the amusement of its author), that they are made by MI5 themselves with the purpose of discrediting other conspiracy theories, and that the poster is mentally ill and the articles are symptomatic of the illness (the view held by most miscreants).

Are these claims the product of mental illness, or is that just a cover?

The most obvious explanation, that the claims made result from the admitted mental illness of the author, is the one which the persecutors intend be the one accepted without consideration being given to the possibility of the claims being true. The persecutors have actually been very clever about this, both in selecting as their target someone who was known from school or university as being borderline schizophrenic, and in ensuring the nature of their persecution corresponds to what often features in the delusions of a schizophrenic.

The very first incident of the persecution occurred in June 1990, when I was still a student at university in London. It consisted of a reaction (giggling) from the newsreader, Sue Carpenter of ITN, to what she saw happening in my living-room at my parents home where I was living. Before your imagination gets the better of you I should make clear that what the newsreader was reacting to was not too embarrassing in nature; my mother had brought an apple for me into the the room, and Sue Carpenter found this amusing.

I recognized that Carpenter had reacted to what she had seen in my living-room, yet this idea still seemed completely fantastic to me. My reaction was to continue watching television, particularly the news, to see if this incident would be repeated. It was, many times, both on BBC and ITV. An intelligent person would have thought to obtain a video recorder and capture some of these incidents in order to try to explain to an observer what he saw in these broadcasts. Unfortunately, I failed this test of intelligence, since I did not record these programmes. I have recently attempted to obtain from ITN tapes of their news programmes dating back to summer 1990, but, unhappily, they have advised me that they do not have complete programmes including newsreaders comments dating back to that period.

From the outset, the persecutors structured their actions to ensure that any complaint would be met with disbelief, and dismissed as delusional. This is why they chose as their target someone who was known at school and university to be borderline mentally ill; and it is why they fired the first shots of their campaign through the broadcast media. Schizophrenics commonly believe the media harass them; it would be exceptional for "full-duplex television" to exist in reality. Those with schizophrenia also commonly believe people are talking about them; again, the persecutors have shown themselves very rarely, but act through intermediaries, both in the workplace, and in public and during travel.

Mental illness is not the cause of these claims, but the simulation of its symptoms is a cover used by the persecutors to deny their victim the ability to have his compaints believed.

What evidence exists to support these claims of "interactive television/radio";?

Quite frankly, I have very little evidence to support my claims. You may examine the "Evidence" area of my website to see such evidence as I have been able to gather. None of it is remotely conclusive. The "smoking guns" all date back to 1990/91, and it is really rather late now to start trying to look for material dating back seven or eight years. In 1997 I started tape-recording every programme I watched or listened to. I also started carrying with me a high-fidelity minidisc-recorder with good quality microphone to catch incidents of public harassment, but this also has not been as successful or conclusive as I had hoped.

Perhaps the best item in the "Evidence" section is the audio file "Life is so hard" (it is labelled with Garfield the cartoon character on the site), which I have given a certainty level of 100%. This item relates to harassment at my workplace in Canada in 1996. A co-worker called Mark was coming up with phrases and expressions which were repeating things being said at my Canadian residence, consequently leading me to believe that my apartment and home phone were bugged, and that the persecutors were passing their gathered information on to Mark. On one particular evening I said in my apartment, "life is so hard, and then you die". The following day I was able to record Mark saying exactly the same phrase at work.

Unfortunately when "they" know you are recording them, they simply dont say things which would unambiguously show harassment. When Mark the co-worker knew he was being recorded, he only made his remarks out of range of the recorder, for example outside the building. When the TV newscasters or radio disc jockeys know they are being taped, they limit themselves to saying things which are ambiguous, which even in my mind may or may not be personally directed against me.

Who knows about this persecution?

Surprisingly many people know. People in the media, such as BBC and ITN newscasters including Martyn Lewis and Michael Buerk, and radio disc jockeys such as Chris Tarrant of Capital Radio, know what is going on, and take part in it. Some co-workers at my former workplaces in England and Canada have known about the harassment. Quite a few people in the general public are also included. I believe the police are aware of the persecution, but, unfortunately, have chosen not to take any action to stop it. I have complained at my local police station in London several years ago, and I have stated on the internet newsgroups that I have done so, hence the police will be well aware of my wish to see the matter resolved. I believe their inaction denotes a dereliction of duty, but without good evidence, I am powerless to compel them to take steps to prevent further harassment, or deal with what has already taken place.

What is the purpose of sending these faxes?

These faxes are being sent to three distinct groups of people, namely Members of Parliament, the media, and diplomats & legal people. As you will have observed I am making use of the email-to-fax gateway at Demon Internet to send these faxes. I am forced to use this gateway since I currently live in North America, and cannot afford the high cost of direct phone calls to the UK.

My purpose in publicising my claims is firstly to discourage the persecutors from continuing their campaign, and also to attempt to bring their campaign out into the open, and thus perhaps identify the persecutors. Neither aim has been achieved yet, but I hope that with sufficient stimulation these aims may yet be accomplished.

The problem with the second aim is that those who read this article will fall into two groups, those who dont know anything about the persecution and consequently will disbelieve my claims as delusional, and those who do know about the harassment and may have some idea of who is behind it, but realise that if the harassers are exposed and the truth brought out into the open, then powerful British institutions will substantially lose prestige, and be exposed to ridicule.

It would give me hope to believe that these faxes will create a third group of people, those who find out that I am telling the truth, and who follow their consciences in standing up and seeing justice done. Only time will tell if this hope will be realized.

Why do you think MI5 are responsible?

The question of who is ultimately responsible for this eight-year harassment is one which is very difficult to answer, as the persecutors have never clearly made their identities known to the persecutee. However, I believe I am correct in attributing the continuing victimisation to elements of the British Security Service MI5, and in this article, I will try to explain the reasons for this belief.

The British internet magazine ".net" featured my website on page 17 of their March 1998 issue (number 42). Their review kindly describes it as an "excellent site" and gives some details of what the net surfer will find there. Should you wish to reply to this article you can do so;

"When did you first suspect MI5 were responsible?"

Over Easter 1995 I went to see a local solicitor in London with a view to talking to the police about the harassment. Soon afterwards I did go to my local police station in Clapham and spoke to an officer there. The solicitor made a comment which suggested to me that the persecution I had been experiencing may have been organised by an intelligence service.

Up to this point, I did not have any clear idea as to who was behind the harassment. Only their agents were visible, in the media, on television news programmes, and on the radio; in the workplace, where things said at my home were repeated verbatim; and in some cases abuse in public and during travel, for example on the trip to Poland in June 1992 which I have already described.

Both from the fact that widely disparate individuals and organisations were employed as agents in the campaign against me, and from the fact that an entity would be required to marshal their resources in the areas of spying on my home and giving gathered information to their agents, it was clear to me that a single entity was responsible for carrying out the campaign. Yet from June 1990 until Easter 1995 I did not have a clear idea of who might be responsible. I guessed that perhaps some private individual or group of persons who saw themselves as my enemies had perhaps paid private detectives to organise the harassment. Alternatively, since the campaign had started in the media, I made a far-fetched supposition that perhaps it was an ad-hoc group of media people who had set themselves up in opposition to me. After Easter 1995 I saw that these guesses were wrong, and I made an I believe much more accurate estimate as to who my enemies really are.

"Why couldn't a private group be behind the persecution?"

There are several reasons why a private individual or group would not be behind this campaign.

Quantity of resources / Money. Here is what one Usenet (internet newsgroup) participant had to say (several years ago) on the topic of how much money it would cost just to keep the surveillance going.

PM: >But why? And why you? Do you realize how much it would cost to keep
PM: >one person under continuous surveillance for five years? Think about
PM: >all the man/hours. Say they _just_ allocated a two man team and a
PM: >supervisor. OK., Supervisor's salary, say, #30,000 a year. Two men,
PM: >#20,000 a year each. But they'd need to work in shifts -- so it would
PM: >be six men at #20,000 (which with on-costs would work out at more
like
PM: >#30,000 to the employer.)
PM: >
PM: >So, we're talking #30,000 x 6. #180,000. plus say, #40,000 for the
PM: >supervisor. #220,000. Then you've got the hardware involved. And
PM: >any transcription that needs doing. You don't think the 'Big Boss'
PM: >would listen to hours and hours of tapes, do you.
PM: >
PM: >So, all in all, you couldn't actually do the job for much less than
PM: >a quarter million a year. Over five years. What are you doing that

makes
PM: >it worth the while of the state to spend over one and a quarter million
PM: >on you?

A private individual or group would not spend over a million pounds to verbally torture a victim without some financial motive or gain. Private industry is driven by the profit motive, and there is no financial profit to be had from carrying out a campaign in this way. If a private enterprise were behind it then they would have taken direct physical action a long time ago.

State enterprises, on the other hand, can afford to be wasteful, since they are funded by the taxpayer. They do not have to show a money profit. The employees or contractors employed by a state organisation such as MI5 are driven by their own personal profit motives, to make the most money out of their employers for the longest period of time. MI5 is funded to the tune of #150M p.a.; even a few hundred thousand a year would to them be affordable if their managers could convince themselves of the necessity of what they were doing.

Quality of resources / Technical resources - electronic and other surveillance. In summer 1994 a reputable and competent private detective agency was employed to conduct a counter-surveillance sweep of my home in London. They charged us over #400 for this, conducted a thorough search for radio transmitting devices, hard-wired "probe" microphones and also tested the telephone line. They found nothing. This was not altogether surprising, since it had been made very clear to me that there were bugs in my home; the "buggers" would not have made this clear unless they had felt their bugs were of sufficient sophistication as to be safe from detection.

But there is another lesson to be gained from the failure of the private detectives to find anything. The agency employed was one of the most reputable in London. They were employed on the principle of "setting a thief to catch a thief", for if the harassment were being carried out by private detectives, as I then believed, then surely another set of private detectives would be able to find the bugs that they had planted. That these "private eyes" were unable to find anything, and that the harassers were confident that they would not be able to find any bugs, points to the harassers being an order of sophistication above a private agency, and leads me again to believe that a state intelligence service is responsible for the surveillance and harassment.

Quality of resources / Technical resources - Interception of Postal service. In summer 1994 when I emigrated to Canada to try to escape the harassment, I wrote letters home to my family and friends in London. Quite soon after my arrival in Canada, the harassers were able to find precisely where I was staying. The only way I can see of "their" being able to find out my new address was by interception of my letters to the UK.

Later in 1994, I conducted an experiment to see if my letters home were indeed being read. In a letter home I wrote of being depressed and talked in vague terms of suicide. I deliberately chose this topic, since I believed it was the outcome my harassers were trying to achieve, and that if they read the letter, they would "echo" its contents. Sure enough, soon afterwards there were two incidents of people shouting "suicide" at me in public places in Canada.

It is inconceivable for a private agency to have the ability to intercept postal mail. The state security service on the other hand is well known to engage in these activities.

Quality of resources / Access to Media. One of the strangest aspects of this case is the access "they" have to the broadcast and print media. I still do not understand what could persuade newscasters such as Martyn Lewis and Michael Buerk, who consider themselves "gentlemen", to behave in an almost voyeuristic way by "peeking" into the living room of one of their viewers. A year ago I wrote to the BBC asking if these newscasters would confirm or deny the accusations made against them. The BBC replied that their newscasters had denied the accusations, but refused to do so in writing.

It is well known that MI5 have the ability to plant stories in certain newspapers, but convincing television newscasters to "watch" a viewer while they read the news would surely be very difficult for them to accomplish, unless they presented themselves to these journalists as being, for example, a group in the media who were seeing to it that I got my "deserved" treatment. MI5 has a history of manipulating the media, so it might not be too difficult for them to accomplish such a trick, whereas a private group would not have this ability.

"Have they ever denied that they are the Security Service?"

No. Never. This is in fact the main reason why I believe "they" are MI5 and not a privately funded group. If my guess had been wrong then I am sure that "they" would have crowed over my mistake, but they have never admitted nor denied that they are employees of MI5.

In early January 1996 I flew on a British Airways jet from London to Montreal; also present on the plane, about three or four rows behind me, were two young men, one of them fat and voluble, the other silent. It was quite clear that these two had been planted on the aircraft to "wind me up". The fat youth described the town in Poland where I had spent Christmas, and made some unpleasant personal slurs against me. Most interestingly, he said the words, "he doesnt know who we are".

Now I find this particular form of words very interesting, because while it is not a clear admission, it is only a half-hearted attempt at denial of my guess that "they" = "MI5". Had my guess been wrong, the fat youth would surely have said so more clearly.

"If MI5 were behind it, why would they wish to mask their involvement?"

I have heard a number of times a belief from people in the media that it is they, the media people, who are behind the abuse. In spring 1994 Chris

Tarrant the Capital Radio D.J. said sarcastically on his breakfast show, "You know this bloke? he says were trying to kill him. We should be done for attempted manslaughter". We, we, we. Tarrant thought it was a media conspiracy.

Returning to the question of "interactive watching" by television newscasters, it would again be much easier for them to take part in that sort of activity if they convinced themselves that the surveillance and abuse were organised by "their own", by media people. It must be second nature to MI5 to mask their involvement in the matters they deal with; in this case, they pretend the campaign is organised by a group in the media, and any journalists who suspect otherwise keep their silence.

Conclusion

Over the last three years I have stated with some force my belief that MI5 are responsible for my misfortunes. I have done so on Internet newsgroups, in letters and faxes to people in politics and the media in the UK, and in 1997 I made a formal complaint to MI5 regarding their activities; the Security Service Tribunal replied in June 1997 that "no determination in your favour has been made on your complaint". (I believe the statement by the Security Service Tribunal can be disregarded, as they have never, ever made a ruling in favour of a complainant.) In three years of naming MI5 as my oppressor "they" have never denied the charge. To me, their silence on this point indicates that my guess was accurate. I believe my persecutors stand identified. The question of why they should carry out this campaign is one I will try to answer in a future article.

MI5 Persecution Update: Friday 15 May, 1998

The persecution has been quite severe for the last week. It appears that my enemies are reacting to the steady stream of faxes making their way over the Atlantic to the fax machines of Westminster politicians and the media. Here is whats happened in the last few days;

The week started off with an incident in the cafeteria at a local shopping centre where I habitually drink my morning coffee. My enemies have concentrated since winter 1995/96 on throwing a particularly horrible sexual slander against me. They "put people up" to repeat this slander against me, and this is what happened again here.

On Thursday morning (yesterday), instead of going to the usual cafeteria I went to a nearby convenience store for coffee. The same horrible sexual slander was shouted at me very loudly by a member of staff as I walked into the store. This was the first time I had ever bought morning coffee in that shop. The other staff obviously knew what was going on, one of them said, "they screwed up my life".

The fax gateway I use to send these faxes to the UK has been working hard these last few days to shut down my access by barring the accounts I use to send these faxes.

I have received an anonymous threat from fax number 0171-219-6101 (the machine gave its name as "ETRA-HoC") which said, "Stop sending to this fax no 0171-219-6101 or else" (the consequences of continued transmission were unspecified). I invited the sender to apologise for his threat, but received no response.

This all adds up to quite a severe reaction to my faxes of the last few weeks. I actually find this quite heartening since it shows that my faxes are finding the mark and there may yet be a breakthrough in my efforts to expose the Security Service conpiracy of abuse against me which has now been going on for eight years.

MI5 Persecution: "Why would they be doing this to you, sir?"

This article will concentrate on the difficult question of "Why". The question which forms the title of this piece was asked of me by the police officer I spoke to in Easter 1995, when I went to make my complaint.

There are really two sides to this question. Firstly, why should MI5 be harassing anybody in this fashion? Secondly, if they choose to behave in this way, why should they have selected me in particular, and not somebody else? Alternatively, why did the persecution start, and why is it continuing?

I do not have definite answers to either side of this question, since my persecutors have usually kept themselves hidden and only acted through other parties. To know "why", one would have to know who the persecutors are, and something of their personalities, since their abuse is almost certainly symptomatic of a personality disorder of the abusers. Certain things however can be deduced about the abusers from the nature of their behaviour, and I will talk about this later in the article.

Why did it start?

It is clear that the persecution must have been initiated by someone who knew me personally, either at school, or at university, or socially, and knew that I was borderline mentally ill, since this is what makes me a target for the persecutors. Unfortunately, the originators have never been identified, and there are several possible candidates. Neither has the link from the originators of the persecution, to the persecutors themselves, ever been made clear. So who are the originators?

University Staff

The identity of the originators may lie in the timing of the persecution. It started in June 1990, while I was finishing a course at Imperial College in London, and a year after I graduated from Cambridge, where I received a degree in computer science. At Cambridge I had achieved some notoriety in the computer lab from various nefarious exploits. Roger Needham attacked me by saying that "there were great hopes for it, but it failed terribly". When I started at Imperial I found that my reputation had preceded me; Cambridge computer lab had spoken to I.C. lecturers about me. I.C. lecturer Frank McCabe summed up commenting about "setting up a straw man so you can tear him down". (Despite being "torn down" by the Cambridge computer labs lecturers, I still achieved a good first degree and a Masters degree at Imperial.)

Other students at university

So, the originators may have been university staff who knew me from my student days. But there are other possibilities. I had other enemies at university, including some fellow students. At my Cambridge college it was common knowledge that my mental health was dubious, and it was known that I talked to myself in my sleep - the floor and walls were quite permeable to noise, so other students heard. I was given the nickname "gibber" because of this habit. Sometime later, I managed to catch myself talking in my sleep when I woke up in the middle of the night.

Here is a quote from a participant in the internet newsgroup where I have been posting for the last three years;

>One thing which has been missing from this discussion is this simple
>prognosis: that maybe he is right and that, despite his admitted
>mental condition, there really is a campaign against him organised by
>now-influential ex-students of his university.

People I knew socially

I had yet other enemies in 1990 (I am a man of many enemies!). In January 1990 I broke up with some people I had been going out with socially. One of them, by the name of Andy Turner, wrote a letter to Alan Freeman, who at the time was a Radio 1 DJ. Freeman read part of the letter out on his Rock Show, about the "one who wore out his welcome with random precision", saying "thats a hell of a letter you wrote there Andy", and "with a schizophrenic youre never alone".

It is my belief that Andy Turner and his friends were trying to make trouble for me, and Turner wrote to Freeman with this in mind. Freeman may have discussed the letter with others, and things may have snowballed from there. This is, of course, pure supposition. The fact is that I do not know who the originators are, and can only guess.

Once it started, why is it continuing?

The answer to this question is obvious. It is unacceptable to the "powers that be" in the UK to have somebody running around who knows he has been targeted by the Security Service and media organizations, and who is in a position to embarrass British institutions. This has become particularly evident in the last week; as I send more faxes to UK politicians and media, so the pressure on me grows, and the volume of abuse increases.

Part of the reason the persecution continues is in the personalities of the abusers, and it is this subject to which I will turn to next, since the key to understanding the persecution lies in understanding those who carry it out, as much as we can.

The Security Service operatives, the persecutors, are they psychopaths?

Let us first examine the definition of the term "psychopath". DSM-IV defines "anti-social personality disorder" as a "pattern of disregard for and violation of the rights of others ... deceitfulness, irritability and aggressiveness ... consistent irresponsibility and lack of remorse". The Harvard Mental Health Letter of Sept 1995 describes these people as using "charm, manipulation, intimidation and violence to control others and satisfy their own needs. Lacking in conscience and in feelings for others, they cold-bloodedly take what they want and do as they please", having "no guilt or regret".

I must say, reading this description of the condition, that it fits the persecutors perfectly. The persecutors have never shown the slightest remorse or guilt. Even when I was severely ill, they continued to abuse me. They have repeatedly blamed their actions on me, which is another trait common amongst psychopaths. They have no respect for my legal or personal rights, and they use intimidation and verbal violence.

If the MI5 operatives are psychopaths then it would explain both why the persecution started, and the degree of verbal violence. Psychopaths by definition damage other people; here, the MI5 operatives find an outlet for their personality disorder, through "cripple-kicking".

Xenophobia on the basis of mental illness, and race

My enemies have made clear many times that one of the reasons they are persecuting me is because of my admitted mental illness. However, it is my belief that they are also persecuting me because I am not of ethnic English origin, and the fact that there have been several incidents of an overtly racist nature reinforces this view.

In one case, two youths on a tube train in London made openly racist references to me as a "soft toy, not up to British Standards". Another person near my home made remarks about "Polish people". In yet another incident in Croydon, a youth made comments about "foreigners".

But the main thrust of their xenophobia is because of my mental illness. I should make clear that I do not look ill; if you met me, you would not know that I had the illness. I take a relatively low dose of medication, and feel quite well. But the persecutors have repeatedly harped on about my supposed serious mental illness; they have called me a "nutter", a "schizophrenic", etc. They have also persuaded other people to use these terms of abuse. They are able to get away with this because abusing the mentally ill is still something which is mostly acceptable in Britain; the media do it, "nutter" is not taboo in the way that "nigger" is.

Conclusion

There are several groups of people who might have wished to cause me trouble, and I still do not know who originated the persecution. Nor do I know how the originators came to be in contact with the (presumed) Security Service operatives who have been carrying out the campaign. To know conclusively why it started, we would have to know who started it, and this information is not available.

However, we can infer some things about the personalities of the persecutors from their methods, and from the degree of verbal violence they employ. It is clear that a main reason for the continuing harassment is the psychopathic disorder of the MI5 agents who carry it out. That they have never been "brought to book" for their misdeeds reinforces their belief that they do no wrong; and, unhappily, until they are brought to book, their persecution campaign looks set to continue.

MI5 Persecution: .net Magazine Applauds my Website

The March 1998 issue (number 42) of .net Magazine reviews the MI5 Persecution website describing it as an "excellent site". The webpages describe in detail the nature of my persecution since 1990 by what are believed to be elements of the UK security service.

(snip image)

You are encouraged to read the web pages which include

- a FAQ section outlining the nature of the persecutors, their methods of harassment through the media, people at work and among the general public
- an evidence section, which carries audio and video clips of media and workplace harassment, rated according to how directly I think they refer to me
- factual descriptions of the state security agencies involved
- scanned texts of the complaints I have made to media and state security agencies involved
- posts which have been made to netnews over the last three years on this topic

MI5 Persecution Update: Friday 13 November, 1998

If You Intend To Reply, Please Read This

If you have any questions or observations you would like to share with me, then you are very welcome to reply to my fax number 0171-681-1190. But please.... keep your response to one page if you can! I have had several people faxing my article back to me, including one MP faxing back twenty pages. I do not know if he had anything intelligent to say in his 20-page fax because I applied judicious use of the "Delete" key on my computer. Faxes over a page or two will be deleted without being read.

MI5 Resume Hostilities in Response to these Faxes

When I wrote last weeks "MI5 Persecution Update" I remarked how quiet my life had become. No longer! MI5 have restarted hostilities with a vengeance the past week, in response I believe to the faxes I have been sending to members of the House of Commons.

On Saturday 7 November I went to Clapham Picture House cinema to see the film "Antz" (a very enjoyable film). At the cinema, I was verbally assaulted by a group of teenagers with the words "still crazy", repeated about ten times. There was a film with that name showing at the cinema, but it was clear their abuse was directed at me. I do not look ill, so why would they pick on me? answer, the incident was set-up by the persecutors. One of the teenagers also said to another, "I don't know what we're laughing at".

The following day, Sunday 8/11/98, I was on my way to play squash when I was verbally assaulted by a youth who said "it was so funny", without the slightest trace of humour. What he meant by this phrase was that was funny, and they were trying to humiliate me. I have heard this phrase "it was so funny" used at me before many, many times over the last eight and half years.

Please Encourage Keith Hill MP to Help Me

I live in a bugged house, bugged both for audio and video. My movements are monitored by MI5. The Security Service have followed me to Canada, to Poland and the Continent, to the States. I cannot work anywhere, not in England, not in Canada, because MI5 will destroy whatever employment I am able to obtain. I have asked Keith Hill MP to help me, and he has refused.

The situation is intolerable. It is Mr Hills job to help me out of this mess. So, please, as I said in the last fax a week ago: Do not waste your time returning multiple copies of my faxes to my fax mailbox, as some of you have done. Instead;

Please encourage Keith Hill M.P. to help me.

I am sorry to be using this device to encourage Mr Hill to help, but I think eight and half years are quite enough and it is time something was done to bring this matter to a close.

MI5 Persecution : BBC Newscasters Spying on my Home

This week's topic is the quite extraordinary claim that BBC newscasters such as Martyn Lewis and Michael Buerk have spied on my living room while they read the news. I currently have an advert running for the next six months in Private Eye's "Eye Say" column (at a cost of over #200) which says,"MI5 Persecution - BBC Newscasters Spying on my Home"; the story of my campaign in the Eye is on my Website at; http://www.pair.com/spook/evidence/plaint/priveye.htm

BBCs staff magazine Ariel also ran my advert "BBC Newsreaders Spying on my home" for one issue in the Personal category on 8/July/1997 before it was spotted and axed by editor Robin Reynolds; please see webpage; http://www.pair.com/spook/evidence/plaint/ariel.htm

Beginnings

The very first incident in the "MI5/BBC Persecution" occurred in June of 1990, when a newsreader reacted to what she saw in my living room at home as she read the news. My mother had brought an apple for me into the room, whereupon the newsreader smirked and giggled, apparently finding this funny. I couldn't believe what I was seeing. I carried on watching news and other television programmes to see if presenters would show signs of "interactive watching"; to my surprise, this happened again and again. Unfortunately, I did not have my wits sufficiently about me to videotape these programmes, and it is now almost impossible to obtain recordings dating back to 1990.

Most of the "TV watching" has occurred on the news, and most of it in summer 1990, although some as late as autumn 1993. My website has a few extracts of what might be politicians "getting at" me, in particular John Major and interviewer Dimbleby sharing a joke about the "Knutsford Guardian" which is almost certainly about me.

I sold my portable TV in autumn 1990 and stopped watching television regularly. I realise now that this may have been a mistake. What I should have done was to watch TV and listen to the radio, but tape-record everything and make a note of what each excerpt meant to me. I would then be in a much stronger position as regards to evidence that I am now. That is what I am trying to do now, but unsurprisingly the TV/radio presenters have stopped getting at me, now they know they are being recorded.

Examples of Media Harassment

Here are a few examples which I can still remember of media harassment;

In early 1992 I was watching the BBC news with Martyn Lewis on a small black-and-white portable television at my then home in Oxford. I threw a term of abuse at Lewis; he flinched, then gave a grin and made a comment from which I understood that he had been on my side, but might have changed his mind as a result of what Id just said to him.

Victor Lewis Smith in his TV (BBC2?) program at the end of 1993, had a taxi-driver saying, "theyre all out to get me", to which VLS replied, "but you're quite intelligent aren't you?" (what a nice chap VLS is, compliments no less!)

Paul Daniels the TV magician, sometime in 1990-92 (sorry I can't be more precise but it was so long ago), made a "crying face" and put his face in his hands, which was his way of expressing that I was frequently crying in 1990-92, and that he and other media people found my crying funny.

Kenny Everett (deceased) on some talk show, compared me to a "huge ape" who "scratches himself"; he made some other remarks about what the "ape" got up to which unfortunately I cant remember. (I remember that Everetts comments were quite sympathetic and human, but were obviously about me.)

Stephen Fry on another talkshow (Wogan I think) talking about "masturbatory fantasies", he then referred to me with the words "you prat"; I wonder if the studio audience knew what he was talking about and to whom his comments were directed?

Griff Rhys Jones on Clive James' TV show, made a "lunatic face" (wide fixed grin) to which I said to the TV that he had a "face like a horse's arse", to which Clive James said to GRJ "did you hear that?"

Crimestoppers summer 1990, remarks by a Midlands police officer on the programme, while Nick Ross was presenter (as far as I can remember). The officer talked about "in car entertainment". Nick Ross said to officer, "why don't you stop doing it?" to which he replied, "we can't while he's like this".

BBC2 Newsnight in autumn 1993 had a piece on football hooliganism. A black interviewee said apparently of the hooligans, but in fact of me; "they're just idiots, carry on with the surveillance".

There was an incident with Jonathan Ross which I remember clearly; he was on both BBC and ITV television at the same time, one (ITV I think) was recorded, the other channel was live. Ross has a speech impediment which causes him to pronounce his "r"s as "w". I sarcastically said something about "Mr Woss" to the recorded channel, then turned over to where he was live, and he repeated "Woss" with heavy emphasis and sarcasm.

On the radio, in spring 1994, Chris Tarrant made a sarcastic remark in his morning show, saying "he says were trying to kill him, we should be done for attempted manslaughter", to which another of the studio staff said, "oh no, dont say that". His comment was in reply to a comparison Id made the previous evening between my persecutors and the Polish secret police who murdered dissidents.

Martyn Lewis Denies & Lies, But Wont in Writing

In February 1997 I wrote to BBC Viewer & Listener Correspondence and asked them to investigate the claim that their newscasters had engaged in "interactive watching". They replied that they had asked Martyn Lewis and Michael Buerk whether they had engaged in such practices, and that they had both made verbal denials to VLC, but were refusing to put their denials in writing.

I can understand that they might think that if they were to make written denials to me, then many other people with my condition might write to them with similar questions. But Ive asked a couple of journalists if theyve been writing about me, theyve made written denials, Ive believed them, and I have not put their denials on my website because, since I believe their denials, it would not be relevant to publish them.

To me it looks as if Lewis and Buerk are happy to lie verbally but not in writing, because written falsehoods would place them unambiguously in the wrong, whereas they can try to talk their way out of verbal lies if they are ever caught, or perhaps even deny the verbal lies completely? If they lie without shame, then why would they have any shame about future lies about lying?

One of the strangest aspects of "TV watching" is that Buerk and Lewis have convinced themselves that their "interactive spying" is reasonable behaviour. Martyn Lewis thinks of himself as a "gentleman". He expressed in 1992 that he was "on my side". If this matter ever comes out into the open, I wonder what these newscasters will have to say for themselves, and what the British public will make of their behaviour?

Media Persecution Evidence on my Website

You may directly access the Evidence section on my website at URL;

The category currently contains four video segments, a number of audio files and three published articles. The first video of ITN's John Suchet is unfortunately a mistake - after looking at it again it is obviously not about me. The two Ken Clarke excerpts may or may not be about me; it is funny that he should keep on harping about "paranoia" and "madness", but I have given these ratings of only 30% certainty, as it is more likely that they are not about me in particular, and Clarke is simply displaying the normal prejudices against the mentally ill found in much of society.

The piece I find most interesting is the Dimbleby/John Major interview from April 1997. I have assigned this a 90% rating. Dimbleby starts by emphasising a report from the "Knutsford Guardian". Major recognizes what's going on and joins in with a falsely apologetic "heaven forfend". The emphasis is on the first syllable pronounced "nuts" in "Knutsford", which is repeated three times. Of course this is hardly anywhere near convincing evidence; the really clear items were all in 1990-92, and they are basically unobtainable now.

If you're reading the website, have a look at the two files from David Hepworth's programme on GLR radio. The first one from 21/Feb/1997 has him talking about an "embarassment" of prizes and "absolute obscene", in reference I believe to the verbal sexual abuse that was being used against me at the time (and which unfortunately is still current). In the second file dated 9/May/1997 he again talks about "absolute embarrassment" of prizes, followed by laughter. To my mind he knows I am listening to his programme, and deliberately makes these remarks for my benefit, with very little attempt to disguise their purpose.

Bernard Levin - "Fanatic's Fare for the Common Man"

On 21 September 1991 this article by Bernard Levin appeared in The Times. It is reproduced in the Evidence section of the website, or may be accessed directly at URL;

To my mind, Levin's article described the situation at the time and in particular a recent meeting with a friend, during which I for the first time admitted to someone other than my GP that I had been subjected to a conspiracy of harassment over the previous year and a half.

Levin writes about a "madman running loose about London" who "bursts into tears, and swears it is all true. And it is." I am pleased to agree with his assertion that "it is all true" because the truth is what I presented to my friend in September 1991 and it is what is being presented to the readership of these articles now.

Conclusion

The harassment, in particular media persecution, was at its strongest in 1990-92. Today, I am recording everything I watch, read and listen, and the media have pretty much given up. It is now incidents "in public" which make up what there is of MI5s persecution. But much of the material from 1990-92 still exists in archives, although the organisations which have those archives generally wont make the material available to the public, for copyright and other reasons.

MI5 can no longer employ the media to persecute me, partly because journalists now know who is behind the persecution, and also because I would publish any instances. My mistake during 1990-92 was to not record instances as they happened; Ive learned from that mistake, and know better now.

MI5 Persecution Update: Friday 19 March, 1999

If You Intend To Reply, Please Read This

Please.... keep your response to one page if you can! I have had several people faxing my article back to me, including one MP faxing back twenty pages. Faxes over a page or two will be deleted without being read.

Theyve started again. Why? I have no idea.

Unhappily, the persecutors, whoever they might be, have started their activities again over the last two weeks. Usually they try to blame their activities on their victim, but this time they have stopped even pretending that the persecution is my fault. Their verbal abuse appears as gratuitous as it is vicious.

Last Sunday 14 March, I went for a meal in Londons Chinatown with some friends. As we were walking down Gerrard St, a man shouted loudly, twice, the obscenity which has been directed at me for some three years now. This followed previous incidents where the same words had been used. It is very upsetting to be verbally abused in this way and to know that the cowardly abusers are guaranteed to "get away with it" because if you report it then it will be assumed to be part of your illness.

Keith Hill MP (Labour - Streatham), my elected representative, as ever refuses to help.

MI5 Persecution : How to Identify the Persecutors

Usually delusional thinking does not allow the perpetrators to be identified, or the alleged persecution to be proved. My so-called "delusions" are different, because I have several times over a period of some nine years seen the same people, in widely varying places. Most importantly, their names have been recorded, on aircraft passenger lists and hospital register; and if only the police would do their job conscientiously then the persecutors could be identified and this unhappy story brought to a final conclusion.

BA93 Heathrow->Toronto, 10 June 1993

In 1993 I flew to Toronto for a holiday. On disembarking from the aircraft, a group of four men who travelled together looked in my direction, and one of them said, laughing, "If he tries to run away well find him".

I was absolutely stunned when I heard this. I wasnt surprised that they had followed me to Canada, but it shocked me that they had been on the same flight, and that one of them had foolishly given their group away. Unfortunately I was so stunned that I made no attempt to stop them as they got off the flight and proceeded into the terminal. I did not see these people again during my visit to Toronto. I do not know whether they followed me, or whether they were only part of a larger group, some of whom may have already been on the ground and awaiting my arrival.

Over the next few years I made a number of attempts, all unsuccessful, to obtain the passenger list for this flight. British Airways keeps passenger flight coupons for each flight; so if only the police would do the job that is being asked if them, then these four persecutors could be identified, and thus their employing organisation, which is very likely to be the Security Service, determined.

These four men were, apart from the joker who looked the odd man out in the pack, very serious individuals. They appeared to be in their forties or fifties, and my impression on seeing them was that they might have been former soldiers. Their campaign against me concentrates on how "funny" their abuse is; but in this they are plainly lying, because they realise how awful will be the damage to the establishment of which they form part, if the truth about the persecution ever sees the light of day.

The riddle of "Alan Holdsworth"

During Oct/Nov 1996 I saw a doctor several times about an infection, and on 2 Nov 1996 I went to Emergency at the Ottawa Civic Hospital and saw Dr Worthington, who was then Chief of Emergency Medicine. I had to wait several hours before being seen, and several people jumped ahead of me in the queue. One of these was a grey-haired man in his forties or fifties. This may have been one of the men on the BA flight in 1993; I cannot be sure. When Dr Worthington asked his name, he loudly said, "Tad", which is the common abbreviation of my name. Dr Worthington looked puzzled, glanced at the sheet in front of him, and said, "but your name is Alan Holdsworth isnt it?". (I am pretty sure his Christian name was Alan; I cannot be sure of the surname). The man looked put out, and said quietly, "yes".

Unfortunately, I did not follow up this incident immediately. Some time later, I wrote to Dr Worthington to ask the name of this patient, but he refused to give the name out.

I saw this person again two and a half years later, at Ottawa Airport, just as I was about to leave for England. In the warm weather, he was wearing a coat and woolly cap, and pacing up and down in a menacing and aggressive manner. Presumably he thought he was pretending to be a "nutter" and in this way was getting at me; my impression is that he doesnt need to pretend, Holdsworth or whatever his name is is clearly a psychopath and in a healthy society such a person would be locked up, instead of being paid public money to exercise his psychopathic instincts. But todays Britain, a country where the MI5 secret police are given free rein and nobody dares raise a voice in protest, is not a healthy society.

"He doesnt know who we are"

For some reason, whenever I take a British Airways flight, I get hassled by the "persecutors who wont admit theyre MI5". Since this business started, I have travelled BA three times; once in June 1993 BA93 (see above), once to/from Europe during Dec 95/Jan 96, and once in June 1998 with my mother to visit her family. The last journey, I was abused by two "plants" who kept repeating, loudly, "paranoid" (I have this recorded on minidisc). Presumably British Airways gives MI5 the seating plans for their flights, which allows MI5 to position their agents of abuse three rows behind me, so I cant face them, and they are throwing abuse at the back of my head. I have travelled BA as infrequently as possible; to Canada, I usually travel Air Canada.

Anyway, lets return to the second of the three BA trips, and in particular to the flight on 2 January 1996 from Berlin Tegel, to Heathrow, and onwards to Montreal Mirabel. Id waited all night at Tegel for the flight, and was very tired on reaching Heathrow. On the plane to Montreal, two youths sat about three/four rows behind me and to the right, in the window seats. One of them, a rather fat "asshole" to use the Americanism (it fits), kept on going on about "this bloke", saying among many other things, "he doesnt know who we are".

Now that form of words is particularly interesting, because from May 1995, some 8 months previously, I had been vigorously denouncing the "MI5 Persecution" on Usenet. So if Id guessed wrong, then you might expect the harassers to crow about it; which they have not done. If I had guessed right, and the persecutors have been silent before and since this flight, then they could either admit they were MI5, which would be a very serious thing for them to own up to, or they could brazenly lie, in which case I would report their lie, and since many people must surely know who they are, they would lose all credibility. So they have remained silent; apart from this one phrase on the BA flight, where one of their agents said, "he doesnt know who we are". Note carefully that this phrase is NOT a denial, it only appears to be a denial; since it does not say that my guess was wrong; it only states the objective fact that I do not know the identity of the persecutors, without giving any information as to the validity of my guess. Which leads me to posit that my guess was correct.

The Usual Words

The persecutors-who-wont-admit-theyre-MI5 have been active again this week. On Saturday 20/3/99 I visited Ravenscourt Park in west London, and was verbally assaulted with the usual words, "something wrong with him". This audio file is on the web at URL;

This afternoon (Friday 26/March) I was again verbally assaulted while travelling by bus. The same sexual obscenity was thrown at me, and the incident was recorded on my minidisc-walkman. Because of the deeply offensive nature of the slander, I will not be posting this on the website.

Keith Hill MP (Labour - Streatham), my elected representative, as ever refuses to help.

posts which have been made to netnews over the last four years on this topic

This article outlines what is to be found on the webpages, which you are encouraged to browse for the complete story.

Frequently Asked Questions

Your excursion through the website starts with the "FAQ - Frequently Asked Questions" portion. MI5s campaign of harassment against me has been going on for almost 9 years, and its longevity and breadth is reflected in the FAQ. Many thousands of people in Britain and abroad, including some recipients of this fax, have known for many years of MI5s activities against me. The FAQ describes the mass "Omerta suppressing its publication"; we pretend Britain is part of the "Free World", yet the British Secret Police, which is what MI5 are, carry on for many years a campaign which politicians and the media know about, and rely on the silent complicity of so many thousands of people.

The FAQs introductory article names those who are "in the know"; media figures like Martyn Lewis, Michael Buerk, entertainment figures like Chris Tarrant, politicians and many in the general public, "all united in a conspiracy which breaks the laws which the UK does have regarding harassment, and all completely uncaring for any semblance of decency or elementary respect for individual rights.

Broadcast media play a key role in the harassment. The very first incident in June 1990 was when a television newsreader reacted to what she saw happen in my living room at home; such incidents of "interactive television" are still happening in 1999. The same goes for radio stations such as Capital FM. In spring 1994, Chris Tarrant on his Capital morning show made an aside to someone else in the studio, about a person he didn't identify. He said, "You know this bloke? He says we're trying to kill him. We should be done for attempted manslaughter". Tarrant and Capital have made strenuous efforts to avoid answering this charge.

Perhaps worst of all, MI5 have deliberately set-up many incidents in public places such as tube stations, shops, cinemas, where they have paid people to throw abuse at me. Since MI5 obtains funds to the tune of 160 million a year to fund its criminal activities, it has funds both to pay its operatives and to "buy" media figures and members of the public to take part in its campaign of persecution.

The Security Service are professional liars. They throw slanderous abuse, yet they refuse to admit out loud that they are doing so. When challenged about their activities through the Security Service Tribunal they lie and deny their activities. They induce other workers and managers at places of employment to take part in their campaign of abuse, presumably by buying them in the same way they buy media figures.

Complaints, and Press Coverage (BBC Lies, MI5 Lies)

As you might expect I have challenged both the Security Service, through the Security Service Tribunal, and offending broadcasters, to own up to what they have been doing. And as you might also expect, all of these people have lied through their teeth. Still worse, they have refused to commit unambiguous lies on paper; they have couched their lies in bureaucratic language, and allowed others to make false assurances and tell lies on their behalf. So when their lies are exposed, they will then tell further Clintonesque lies about how they werent really telling lies in the first place!

On 6/Feb/1997 the BBC told me they would "never engage in any form of surveillance activity such as you describe". The BBC told me Buerk and Lewis had refused to put their lies in writing, but had stated verbal falsehoods denying my accusations of "interactive watching" during news broadcasts. Clearly Buerk and Lewis fear being caught and exposed, so they hide behind their Viewer Correspondence department.

In March 1997 I issued a summons against the BBC to try to "smoke them out". This summons was struck out as "disclosing no reasonable cause of action", because I had acted as a Litigant-in-Person and most LiP summons are treated thus. My case was arguable in law, so the striking out was unjust.

In June 1997 the Security Service Tribunal wrote to me regarding the complaint I had brought against MI5 in February. They say, "The Security Service Tribunal have now investigated your complaint and have asked me to inform you that no determination in your favour has been made on your complaint." I think you can guess the contempt which I feel for the Security Service Tribunal, who have never made a determination against MI5, and act as merely a whitewashing body for the Security Service. Unsurprisingly in May 1997 the Interception of Communications Tribunal gave the same result.

The last few items of "Press Coverage" give details of mentions of the MI5 Persecution in various magazines and newspapers such as BBCs Ariel, the Observer and .net magazine.

Evidence

Some audio and video clips of evidence have been recorded. My weakness in this area is because most of the really unambiguous evidence would have been obtainable in 1990-92, but I wasnt taping anything at the time, and its very difficult to now obtain recordings from that period.

The audio clip "Life is so Hard" relates to harassment at my workplace in Canada. In the latter half of 1996, I was sitting near to co-worker Mark Lee, who kept coming out with words and phrases which showed MI5 were supplying him with data from my home life. For example, I would say something on the telephone at home, and the following day he would repeat verbatim what I had said. When Mark Lee saw I was recording what he was saying, he started to make his remarks more ambiguous, or make the obvious ones out of earshot of the recorder.

However, during the evening of 12 November 1996, at home in my apartment (flat to you UK-ers), I said "life is so hard, and then you die". A nihilistic, negative thing to say, but quite distinctive. The following day, 13 November, Mark said loudly, "life is so hard eh, and then you die" followed by loud laughter. I captured this on my tape-walkman and the computer-audio file is posted on the website.

There are a number of other audio files in the websites "Evidence" area demonstrating the abuse to which MI5 subject me to through their paid agents.

Also in this section is a very interesting article by journalist Bernard Levin, which followed a meeting I had with a friend in 1991, and to my mind describes in some details Levins "artists impression" of the meeting. He talks about a "madman" who "bursts into tears, and swears it is all true. And it is."

Internet Newsgroup (Usenet) archive

From May 1995 until the present day, this matter has been discussed exhaustively on internet newsgroups. The most interesting articles from the first two years of posts are documented here. This area is worth reading since most of the questions which the reader would ask, have been asked at some time or another by someone on usenet. Perhaps the very first article posted sums it all up so succinctly;

Date: Thu May 4 18:27:24 1995

Subject: BBC's Hidden Shame

Remember the two-way televisions in George Orwell's 1984? The ones which watched you back? Which you could never get rid of, only the sound could be turned down?
Well the country which brought Orwell into the world has made his nightmare follow into the world after him. Since 1990 the British have been waging war against one of their own citizens using surveillance to invade privacy and a campaign of abuse in the transmitted media in their efforts to humiliate their victim.
And the most remarkable thing about it is that what they do is not even illegal - the UK has no laws to protect the privacy of its citizens, nor does it proscribe harassment or abuse except in the case of racial abuse.
A lot of people in England know this to be going on, yet so far they have maintained perfect "omerta"; not a sound, not a squeak has escaped into

the English press, and for all the covert harassment absolutely nothing has come out into the public domain.
Have the British gone mad? I think we should be told.

So how much deeper will the persecutors-who-wont-admit-theyre-MI5 sink in their campaign of lies and intimidation? Each time I thought they could sink no lower, they have managed to surprise me. You thought it could never happen here? When the MI5 British Secret Police make their smears against me, it is the corruption of the Establishment, which they are part of, that is demonstrated.

BBC newscaster Nicholas Witchell cant stop himself laughing

During 1990-91 there were very many instances of "interactive television" where newscasters and other TV presenters saw on a screen before them what was happening in my home, and reacted, frequently by laughing at me. During this period I unfortunately did not record these programmes. For the last year or two, I have been recording everything I watch, and there has been a drastic decrease in such incidents.

However, on occasion, television presenters do still engage in "interactive watching" and react to what they see. This has been evident with Jon Snow of Channel Four News recently - a particularly interesting case, since it has been established that he cannot be corrupted by money (it is well-documented that MI5 offered him a tax-free salary and he turned them down). I wonder what device MI5 are using to encourage him to do the "interactive watching"?

On Saturday 10 April 1999 at 7pm, Nicholas Witchell on BBC2 News reacted when he saw that I was watching the programme, and I have his reactions stored safely on videotape. I have watched this tape several times and I am entirely confident that my evaluation of his reactions is correct. For several minutes his upper lip quivered in mirth as he attempted to keep a straight face. Then finally his self-control evaporated through the excuse of a weak joke and his face collapsed into a grin.

The strange thing is that I dont know why he was laughing at me, what I had done recently to "deserve" to be laughed at. The MI5 persecutors usually manage to invent some justification as to why people should laugh at and/or abuse me ("hes an X", "it was so funny" etc), so Mr Witchell could have been laughing for any number of reasons. Perhaps he found the views I have been expressing in these articles amusing? I suppose if youre paid enough money and ordered to laugh then even the most innocuous thing becomes funny.

Jon Snow of Channel Four News cant stop himself smirking, either.

On 12 February 1999 I was watching Channel Four News presented by Jon Snow. As usual, I was recording the programme, so that if anything out of the ordinary happened, Id be able to go back and watch it again.

Now, Jon Snow, by his own claim, is uncorruptible. He says he turned down an offer of a substantial tax-free salary from MI5 - they wanted to make him their mouthpiece, and he told them where to get off.

So you will be most surprised to learn that Jon Snow "interactively watched" me that evening, and on many other evenings. Approximately fifteen minutes into the programme, he announced that the US President would be making a live appearance at about 7.30pm; I looked at the clock on the mantelpiece; and Snow saw me looking at the clock, and visibly tried to suppress a smirk.

Uncorruptible, are you, Mister Snow? If not money, then why are you watching me, Mister Snow? Are they forcing you to watch me? Cant you turn the monitor off, Mister Snow?

Keith Hill MP (Labour - Streatham), my elected representative, as ever refuses to help.

Comparing the MI5 Persecution with German "Final Solution"

It might seem offensive to compare the mass murder of millions of civilians in wartime with the peacetime persecution of merely one person. Yet the comparison has been coursing through my mind for several years now, because the brutality of German intent to "sub-humans" is very much comparable to the brutality of British intent to someone they vituperate and term "not up to British standards". The methods may differ, but the persecutors mindset is the same.

The Germans first targeted the mentally disabled, too

During WW2 millions of ethnic Russians, Poles, Jews, mentally ill, gypsies and other minorities were rounded up and murdered in purpose-built camps by the German regime, in the name of "racial superiority". Fifty years on, the British Secret Police, MI5, instituted a campaign of mass hysteria; but in their cowardice, limited their activities to one single victim.

It is instructive to note that the early German "cleansing" effort was directed primarily not at Jews, but at the mentally ill. The Nazis set up the T4 project in the thirties to "cleanse" away 70,000 mentally disabled people, including schizophrenics and epileptics. After WW2 the Jews with their media influence used the reaction from the holocaust to roll back anti-semitism in the Western countries; however, the mentally ill are today still a persecuted group in the modern Western world as they were under the Nazis (the current Jewish home secretary in the UK intends to bring in laws for incarceration without any criminal charge for some mentally ill people - he protects his own minority, but does nothing for the other minorities in todays society), and this continuing bias forms a central cause for the current acts of persecution in the UK.

Widespread knowledge of what is happening to the "un-British" minority

In both the German persecution of the thirties and early forties, and the current British persecution, many, many people are well aware of whats happening. There is widespread complicity through inaction of populace; and in a substantial proportion of the mainstread population, the persecution had/has widespread enthusiastic support; yet in both the German case in the 1940s and the British today, the existence of persecution is a mass secret which must be never admitted out loud. In the recent Lawrence case this "secret bigotry" has been termed "institutionalised racism", and that is a very good word for what the British are doing today The persecutory attitudes and omerta regarding them are so deeply ingrained in the national psyche that they define the national mood

During WW2 many Germans knew minorities were disappearing, and through inaction quietly condoned their government's mass murder of "un-German" minorities and inferior "foreigners"; and in the 1990s, similarly, many English people know what the MI5 British Secret Police have been doing, and not only condone it, but actively take part, because of xenophobia against the "un-British" unit minority that is the target of "British" actions. This attitude by the British persecutors has been made explicit through the words "he's not up to British standards"; the British seem to have found their very own "untermenschen" to victimise.

Why these obsessive "holy wars" happen

This type of aggression occurs when the majority is threatened or humiliated in some way, economically, militarily or culturally. In pre-WW2 Germany the threat was primarily economic and military, following Germany's humiliating defeat in the first world war and the reparations it was forced to pay. In modern Britain, one might guess that the majority English who are behind the persecution feel pressured by the swiftly diminishing status of Britain in the world, and the rapidly increasing coloured colonisation of their country, which in time will see the ethnic English a minority in their own land, and their more antisocial elements, unable to reply to the obvious threat, instead project their aggression onto another, weaker, unit minority

In both cases there is a whiff of "holy war" or irrational obsession with the persecution. Certainly the German behaviour fifty years ago bordered on the not-quite-sane, and the current British behaviour towards their chosen victim is strongly tinged with a leave-taking of reason. And the choices open to the victims are the same, since MI5 will never allow me to escape them, "if he tries to run away we'll find him", just like the commandant of Auschwitz telling the new arrivals, "the only escape is through the chimney".

The Victim Will Destroy Us if We Dont Destroy Him First

The persecutors propaganda is the same. Fifty years ago the Germans said, "if we don't do it to the Jews then the Jews will do it to us"; and MI5's propaganda in the early nineties concentrated on their victim as a "monster" aesome "untermenschen" minority.

"We are decent fellows" say the Brutal Persecutors

During the course of researching this article I read part of the very interesting book, "Hitler - A Study in Tyranny", by Alan Bullock. This volume contains a quote from Himmler on the "Final Solution";

"Most of you know what it means when a hundred corpses are lying side by side, or five hundred or one thousand. To have stuck it out, and at the same time .... to have remained decent fellows, that is what has made us hard. This is a page of glory in our history which has never been written and is never to be written."

In the MI5 persecution, too, there is a thread of deliberate brutality to the sick and vulnerable, while the persecutors maintain that "we are decent fellows". There is almost a conscious schizophrenia in the self-attitudes of the Security Service operatives and those in the public who they employ against me, which reflects the contradiction evident in the German attitude above. On the one hand, they stoop to the lowest and most base behaviour; yet at the same time, the MI5 operatives tell themselves that since they are civilised British people, then surely they must by definition be "decent fellows". Any indecency is made the fault of the victim; "hes making us persecute him, so we need feel no guilt".

Yet the conduct is atypical of the way these peoples see their normal modes of behaviour. Befslaughter was not typical of normal German behaviour up to that point. Similarly, the current MI5 abuse goes against the grain of British self-image as being "reserved" and "decent", since they are using terms of abuse which are common among blacks and other supposedly less-developed races, but not among the English.

Conclusion

The ultimate aim of both persecutions is the humiliation and physical extinction of the persecuted group. The Germans did this in a very direct way; the British Secret Police MI5 are acting indirectly and relying on self-extinction of their target, because in peacetime and in the current somewhat false climate of "political correctness" more direct methods are impossible. If MI5 undertook more direct action the mass "omerta" would be broken.

I have written this article with sincerity to show how a historically recent persecution in another country parallels what is being done in this country today. In both cases, the evil-doers are of their countries establishments, and rely on widespread tacit support to maintain the persecution and omerta around it. While the holocaust was undoubtedly the greater evil, it is important to be aware of the fact that had the Germans not been defeated fifty years ago, their plans would have gone through to total completion. In Britain today no force threatens the "permanent government" of which the Security Service forms a part; and it looks very unlikely that the wrongs perpetrated by the MI5 secret police will ever be revealed to public view, and the British secret state brought to justice for its evil actions.

Somewhere between 0 and 100%

The last few days there have been no clear recordable instances of abuse. However, while travelling on the Underground, while walking around near my home and going to friends homes, I am constantly troubled by thoughts that those people over there might be about to get at me; that the couple sitting in the opposite seats laughing are in fact laughing at me; et cetera, et cetera.

A comment by a scientist to the BSE inquiry sticks in my mind. He described the possible scale of the epidemic as "between 0% and 100%". It might not be happening, it might not happen at all, to any discernable degree.... or it might be total. Without clear recording, which seems to have become impossible the last couple of weeks, there is no way of knowing whether the harassment really is continuing, whether we have entered a temporary hiatus, or whether perhaps it has perhaps stopped for now.

But for the time being I think there arent any reasons to dicontinue these faxes. I only re-started them six weeks ago in response to a resumption of MI5 harassment; and I think I will need to be more convinced of absence of persecution before I discontinue my complaints.

The Newscasters are still watching

In the last few weeks there have been at least a couple of fairly overt instances of "interactive watching" by newscasters. I reported this in a previous "MI5 Persecution Update".

These instances are really very rare compared to 1990-91, when there were many dozens of such occurrences. Undoubtedly the reduction is due to my practice of videotaping everything I see. Recently I had the opportunity of showing this years "happenings" (Jon Snow/Nicholas Witchell) to my psychiatrist, and he agreed that in both cases the newscasters were expressing merriment without visible cause, and that objectively it might be possible for my claims to be true - although of course other people reported similar thoughts to him, and this thinking is usually a symptom of illness.

Read About the MI5 Persecution on the World Wide Web

The March 1998 issue (number 42) of .net Magazine reviews the website describing it as an "excellent site". Since August 11, 1996 over 50,000 people have browsed this website.

You are encouraged to read the web pages which include

a FAQ (frequently asked questions) section outlining the nature of the persecutors, their methods of harassment through the media, people at work and among the general public

an evidence section, which carries audio and video clips of media and workplace harassment, rated according to how directly I think they refer to me

objective descriptions of the state security agencies involved

scanned texts of the complaints I have made to media and state security agencies involved

posts which have been made to netnews over the last four years on this topic

MI5 Waste Taxpayer Millions on Pointless Hate-Campaign

Recently I was talking to an independent observer about the nature and purpose of the perceived campaign of persecution against me. The person I spoke to, a highly intelligent man, said he was struck by the utter pointlessness of the perceived campaign against me. He also said that, if my theories were in fact true, many people would have to be involved, in the surveillance itself, and in the technical side of the delivery of information from my home to TV studios for example, if the "interactive watching" were happening as described. He voiced these thoughts without any prompting from me; but both I and other observers had arrived at pretty much the same conclusions, some years ago.

I saw a team of four men at Toronto Airport in 1993

To carry out the surveillance alone, full-time, would employ four or five men, or their equivalent in terms of man-hours. Each man would "work" an eight-hour shift, so you would need at least three men doing the surveillance, plus a connecting link / manager. An indicator that this estimate is correct arrived in 1993, when I was accosted by one of a group of four men at Toronto Airport; he said, laughing, "if he tries to run away well find him". Plainly these were the men who had been involved in the intrusive surveillance of me for the preceding three years.

On other occasions, I have seen the same man on two or three occasions. On one such occasion, at Ottawas Civic Hospital in November 1996; he gave his name to the doctor as "Alan Holdsworth" or some such; my hearing is not very good sometimes and I am not sure of the surname, although I am sure "Alan" was his first name. I saw exactly the same man again in Ottawa, at the airport, in July 1998. Obviously, other people must be "working" with this person; he would not be the sole agent employed in this case.

Usenet readers views on the Cost to MI5 of Running the Campaign

Here's what a couple of other people on internet newsgroups / Usenet (uk.misc) had to say regarding the cost of running such an operation...

PO: >Have some sense, grow up and smell reality. What you are talking about
PO: >would take loads of planning, tens of thousands of pounds and lots of
PO: >people involved in the planning, execution and maintenance of it. You
PO: >must have a very high opinion of yourself to think you are worth it.

and......

PM: >But why? And why you? Do you realize how much it would cost to keep
PM: >one person under continuous surveillance for five years? Think about
PM: >all the man/hours. Say they _just_ allocated a two man team and a
PM: >supervisor. OK., Supervisor's salary, say, #30,000 a year. Two men,
PM: >#20,000 a year each. But they'd need to work in shifts -- so it would
PM: >be six men at #20,000 (which with on-costs would work out at more
like
PM: >#30,000 to the employer.)
PM: >
PM: >So, we're talking #30,000 x 6. #180,000. plus say, #40,000 for the
PM: >supervisor. #220,000. Then you've got the hardware involved. And
PM: >any transcription that needs doing. You don't think the 'Big Boss'
PM: >would listen to hours and hours of tapes, do you.
PM: >
PM: >So, all in all, you couldn't actually do the job for much less than
PM: >a quarter million a year. Over five years. What are you doing that makes
PM: >it worth the while of the state to spend over one and a quarter million
PM: >on you?

Those are pretty much the sort of calculations that went through my head once I stopped to consider what it must be costing them to run this operation. At the very least, a quarter million a year - and probably much more, given the intrusive and human-resource-intensive methods employed. Times nine years. Equals well over two million pounds - and probably much, much more.

Its wasteful for someone with my skills to be unemployed

The wastefulness of the MI5 campaign against me is not just that of futile expenditure on their side. It is also extremely wasteful for someone with my talents to be unemployed and on a disability pension. I am highly qualified in numerate disciplines, yet am unable to work, specifically because of the MI5 hate-campaign against me. It is a terrible waste of resources for a supposedly efficient economy like that of the UK to be squandering the talents of a skilled and capable worker.

I made every effort to remain in employment for as long as I could, but ultimately I was defeated by MI5s employment of massive resources specifically targeted on my workplaces with the sole aim of seeing me evicted from those workplaces. You might expect this sort of behaviour from the Stasi or some other secret police force in a communist country where labour is cheap, and the governments aim on seeing its citizens confined; but for a supposedly free and efficient economy like Britains, the wastefulness resulting both directly and indirectly from the Security Services activities is simply criminal, and should never be allowed.

The international dimension means the costs are multiplied many times overoer had any sense, then they have surely taken leave of them over the last nine years.

Four years of persecution in Canada

The persecution re-started within less than five minutes of my arrival in Canada, as documented above, and in the "frequently asked questions" article on the website. The words, "if he tries to run away well find him" spoken by one of the harassers at Toronto Airport are now imprinted on my mind.

A year later I emigrated to Canada, intending to find a job and settle there, hoping that MI5s interest in me might dim with time. I did manage to find work there, but my hopes of avoiding Security Service interest were ground into dust. As detailed above, I saw the same man in November 1996 and July 1998, both times in Ottawa. Apart from these encounters, there were numerous incidents between 1994 and 1998 of harassment, of an identical nature and in most cases using identical words to what had occurred in the UK. It became quite clear to me that the permanent surveillance and harassment operation which MI5 had subjected me to in England was being continued.

For a team of four or five men to be employed overseas must cost a lot more than if they operate in their home country. And for MI5 to continue the operation for a period of over four years, continuously, must cost many hundreds of thousands of pounds. This confirms my belief that the state is funding the campaign against mehat the Security Service receives current annual funding of #160M. Divided by 1850 staff, works out at #86,000. But the unit annual cost of each "watcher" must be much higher than this, especially given the frequently mobile and overseas nature of their actions of the last few years. A very conservative figure might be a little over #100,000 pa for each of a team of five people, or half a million pounds per year. For nine years, so far. So the most conservative estimate of the surveillance element alone is perhaps four or five million pounds since 1990.

This guesstimate is of course theoretical - I am not privy to inside details of how MI5 split their funding. But to take some other examples, the cost of a US counter-surveillance specialist per day is USD 5,000. Even if the agents permanently assigned to me are not of this calibre - even if they employ specialists when difficult work planting bugs etc is encountered - their salary and support costs must still be very high. The individual agents are doing well for themselves as they are well-paid to exercise psychopathic instincts which in any sane society would see them in prison; but the taxpayers who must fund this terribly wasteful exercise are being "done" out of hundreds of thousands of pounds each year.

It must be emphasised that the above estimates are highly conservative. Besides the surveillance operation, it must carry a high cost in man-hours to propagate covert slanders through the population; to setup and maintain the "interactive watching" links to TV and radio stations, which these organisations continue desparately to "lie and deny"; and to induce antipathy in co-workers which would not otherwise exist.

Why they are wasting Millions of Pounds on a "Nobody from South London"

As remarked in the prologue to this article, it is really most extraordinary that the Security Service spends a chunk of its budget, every year for nine years so far, on a meaningless campaign against a "nobody from South London". That they are spending such a large amount of money has been confirmed to me on several occasions, usually by oblique references to "its costing this country millions". The supposed "logic" behind the persecution is that MI5 wish to avoid their harassment of me, and the involvement of the UK media, to be made public; yet as the reader will appreciate that is a circular argument, "theyre doing it because they want to keep it secret and avoid humiliation for themselves and their country" begs the question, "why did they start doing it in the first place?", to which in truth I myself do not know the answer.

Plainly MI5 with its rich budget can afford half a million pounds a year to waste on a "nobody from South London". Some time ago I was talking to a British surveillance professional on Compuserve who told me "this work costs a lot of money and is usally because the person I am following has done something (usually criminal) to warrant all this money and time being spent." Yet in this particular case it is plainly not the "victims fault" that the harassment is taking place. The hate-campaign against me is completely the creation of the obsessive psychologies of the MI5 agents who have made themselves my persecutors; it is obviously a "personal" campaign for them, and for years they misuse taxpayer funding to feed their insane, unnatural and fixated fantasies.

Four Years of "MI5 Persecution" Posts on Internet Newsgroups

For approximately the first three years of the MI5 persecution, from June 1990 until late 1992, I kept as quiet as possible, in the hope that by not reacting, MI5s interest in me would decrease and they would simply go away of their own accord. This is the sort of behaviour some people employ against bullies; if the bullies arent getting a reaction, then they might simply go away and victimize someone else.

Unfortunately, this tactic didnt work. The quieter I became, the more shrill and hysterical the noise from the Security Service operatives. For about two years I didnt watch TV news at all. Yet this only heightened their obsessed fixation; they continued to follow me wherever I went, they continued to induce harassment at work by managers and fellow workers, and they continued to encourage me to commit suicide. They seemed to regard my refusal to react as a crime which they would have to "put right" by ever more extreme forms of abuse.

Finally, in 1995, I changed tactics radically. Since late 1994 I had had accounts with internet providers in Ontario, Canada. I discovered the cornucopia of internet newsgroups, on every topic from consumer electronics, to politics and legal topics, and I discovered online services such as Compuserve and AOL. In May 1995, I made the first posting to the conspiracy newsgroup, on the subject of "BBCs Hidden Shame".

BBC's Hidden Shame

The internet newsgroup discussion, which has now reached its fourth anniversary, started with an article in alt.conspiracy, which I reproduce here.

Date: Thu May 4 18:27:24 1995
Newsgroups: alt.conspiracy
Subject: BBC's Hidden Shame

Remember the two-way televisions in George Orwell's 1984? The ones which watched you
back? Which you could never get rid of, only the sound could be turned down?

Well the country which brought Orwell into the world has made his nightmare follow into
the world after him. Since 1990 the British have been waging war against one of their
own citizens using surveillance to invade privacy and a campaign of abuse in the
transmitted media in their efforts to humiliate their "victim".

And the most remarkable thing about it is that what they do is not even illegal - the
UK has no laws to protect the privacy of its citizens, nor does it proscribe harassment
or abuse except in the case of racial abuse.

A lot of people in England know this to be going on, yet so far they have maintained
perfect "omerta"; not a sound, not a squeak has escaped into the English press, and for
all the covert harassment absolutely nothing has come out into the public domain.

Have the British gone mad? I think we should be told

At this point, I did not name MI5 as my persecutors. I was still unsure that they were the ones responsible for the "psychological terrorism". In followup posts however I did name them; and the persecutors have never denied the claim; so I think my guess is valid. (The Security Service Tribunal in 1997 have said "no determination in your favour was made", but it is a well established fact that MI5 lies routinely to the Tribunal which has never found in favour of a plaintiff, so no conclusions can be drawn from this.)

This first post was made to alt.conspiracy, but further posts were made to the UK-local newsgroups, in particular uk.misc but also uk.legal and uk.politics (which is now called uk.politics.misc). Some time ago I tried to take the battle to the Compuserve forums, UKPOLITICS (which is now called UKCURRENT - current affairs), but my articles were censored by the forum operators. Such censorship is impossible on the internet newsgroups.

Police Refuse to Act

I have complained several times to the Metropolitan Police, who have each time refused to help.

bu765@torfree.net "Mike Corley" writes:

>Last Easter (1995) I went into the local police station in London and spoke to an officer about the harassment against me. But I couldn't provide tangible evidence; what people said, in many cases years ago, is beyond proof, and without something to support my statements I cannot expect a police officer to take the complaint seriously.

This in itself dos not suggest that the police have it in for you. The old bill operates on extremely tight spending limits forced on them by that pillock Michael Howard, and without evidence, they often have higher priorities than chasing something that cannot go to court.

I doubt that the police are actually being leant on, but they probably realise that if they looked into this, they would be leant on hard. The met always stays away from anything that looks like it has Defence, Security or secret service interest already, because they realise that they are below these government agencies in the general pecking order.

If I walked into my local nick and complained that MI5 were snooping on me, they would show me the door without even looking at my evidence, because that bored desk seargant with only five years to go before he retires doesn't want to start fucking about with somebody who has incurred the wrath of Stella Rimington. He would rather deal with the lost dogs and driving licence producers, eat his cheese and pickle sandwiches and piss off home at the end of his shift than have some high ranking spook having a go at his boss and getting him a bollocking.

In short, you have earned much sympathy but little surprise. Just remember that saying about the enemy of your enemies.

Most recently, I wrote in March 1999 to Charing Cross Police Station CID. They did not acknowledge or reply to my letter. When I phoned them up, the detective Id written to treated me to a sadly not unusual display of police bigotry, with an uneducated rant about "your paranoid rubbish".

It would be nice to think that such uneducated bigotry is something other than wholly typical of police behaviour, but unfortunately that is an illusion that is rapidly dispelled.

Uncorruptible Jon Snow of Channel Four News

From previous articles the reader will know what I think Jon Snow has recently been watching me while he reads Channel Four News in the evening. Recently I digitized a few moments of one such broadcast, where his face twists into a smile, without there being anything in the news broadcast to cause merriment. Here is a usenet post from some time ago on MI5s "bought and paid for" tools in the so-called "free" press.

Peter Harding (harding@ermine.ox.ac.uk) wrote:

: "BBC, MI5, same thing."

Can't disagree with that sentiment.

Wasn't it documented that MI5 sometimes "bought" journalists and broadcasters? I remember reading a report by some jouralist who had been offered an extra tax-free income by MI5 to become their covert mouthpiece, and had refused.
....

It has been reported several times. The most recent was in Private Eye, a few months back. As I recall they also wanted information from him; journalists would be a natural choice for members of the Security Service and the Secret Intelligence Service for information sources.

> It might be interesting to see what he had to say regarding their
> attempt to recruit him.

He was most concerned that many others would have accepted such an offer. However, we can probably make an educated guess as to some of those who accepted: Nigel West (Rupert Allason, MP) and Chapman Pincher would come near to the top of the list.

Corrupt Security Service agents steal millions from taxpayers

Money is of course a factor in the grand equation which is the MI5 persecution. It costs money for the Security Service to "buy" people in the media etc. But that is only a small part of their expenditure of taxpayers resources. Most of the expenditure is directly on the salaries if the agents involved; and in this post I put forward the theory that MI5 are trying to draw out their involvement for as long as possible, very cynically, to maximise their income and line their own pockets.

At each stage they have tried to pretend that I am something out of the ordinary. Either I was very stupid ("he's an idiot") or very clever ("he's like a genius"). Either I was a threat to Western civilization (Levin once referred to me as the next Hitler) or I was completely defenceless ("a soft toy").

Now, it should be obvious to any person with common-sense that I am not out of the ordinary in any way. I have an IQ which is average for the Web, I am racially white European, and there are plenty of other people with schizophrenia or epilepsy out there who haven't been targeted for MI5 attention, so why me?

I think the answer is that the MI5 agents who harass me have cynically exploited the situation by painting me as extraordinary in order to assure themselves of well-paid employment funded by the ordinary British taxpayer. To put it bluntly, they are stealing millions of pounds from the taxpayer to feed their own pockets.

This assertion is supported by the observation that it's the same agents who are doing the harassment. Six months ago in a local hospital I was harassed by someone whose face I had seen (he had stared straight at me aggressively, at the time I just thought it was some nutter but it turns out he was one of "them") aboard a KLM flight a couple of years ago. It's presumably been the same people most of the time. I've seen the way contractors act when they don't want their positions terminated. Would these agents really want to lose their well-paid employment harassing me? Presumably they are promising their bosses a "breakthrough" (ie my demise) real-soon-now and have been for the last seven years, while all the while these MI5 agents skim millions off the taxpayer.

I wouldn't mind a job like that. Perhaps if I persecute myself a little bit, like standing in front of a mirror and shouting mindless obscenities, do you reckon I'd get a slice of the caky Service Tribunal. This year Nick Brooks, current Tribunal Secretary, confirmed to me that he could not think of a single case where the Tribunal had found in favour of a complainant. Here is my usenet post from two years ago.

Subject: MI5: "It wasn't us"
Newsgroups: uk.misc,uk.legal
Organization: Toronto Free-Net

"The Security Service Tribunal have now investigated your complaint and have asked me to inform you that no determination in your favour has been made on your complaint."

Signed ER Wilson, Tribunal Secretary

Well that's a relief then. All that spamming for nothing eh. Gaw blimey, if they say they're not doing it then it can't be them, can it?

In a recent letter to Mr Brooks I expressed the opinion that the Tribunal were unable to fulfil their responsibilities in the face of MI5 falsehoods. Nevertheless, I do intend to make another complaint to the Tribunal in the near future, despite the Tribunal appearing to be a toothless watchdog.

Discrimination against a Unit Minority

MI5 have been very clear in their instructions as to what I should do. They have openly shouted at me the word "suicide", and also from the other abuse it is clear that they want my existence terminated.

This point is covered in more detail in a previous article. The following post describes the xenophobic nature of MI5s campaign against me. They have refined their bigotry down to a unit minority, yet they make use of the discrimination against the mentally ill which is a feature of current British society.

I don't have florid symptoms. But I'm in a difficult situation, because those people who don't know, aren't going to believe, and those who do, they just go along with the crowd. It's never a good idea to go against the grain, and the grain here is defined by interests in the establishment and the media. Even people who could say out loud what was happening won't, because then there's a risk that they'll be seen as traitors and ostracised.

Usually this type of 'hidden abuse' is racial and targetted at a racial minority within a country. You keep the minorities out of the good jobs, but you don't admit discrimination exists. It happens everywhere, not just in Britain. The persecution that is going on now is in reality a refined form of racism. Instead of "nigger" it's "nutter", and abusing the mentally ill is still socially acceptable today. In 50 years it might not be, but today there isn't any social or legal sanction against it.

So really they've refined racial harassment down to a minority of one. The words may be different, but the methods are the same.

MI5 Persecution: BBC Newscasters Lie & Deny They're Watching Me

Central to the persecution campaign waged against me for some nine years now by the Security Service is their use of the media, and in particular the broadcast media, to make clear to me that I am under surveillance and being watched within my own home, even by BBC newscasters while they read the news. This is really an act of arrogance; MI5 and their tools in the television and radio are so sure that they can never be caught, that they have many times made explicity clear on broadcast programmes that they are as capable of seeing me as I am of seeing the broadcast pictures. Even when they have known I am taping the programmes they still carry on this practice; for examples of TVand radio presenters caught "in action", see the Evidence area of my website.

If you wish to reply to this article......

I provide the means for recipients to send me their thoughts on the topics discussed, but ask that you provide me with your fax number or email address if you require a response. Also would you please send not more than one or two pages, if by fax. Thank-you!

It started with a Newscaster, and it continues with Newscasters today

The very first incident in the story started with a reaction by an ITN newscaster, Sue Carpenter, in June of 1990, almost nine years ago now. She reacted to what she saw in my living room at home as she read the news. My mother had brought an apple for me into the room, whereupon the newsreader smirked and giggled, apparently finding this funny. I couldn't believe what I was seeing. I carried on watching news and other television programmes to see if presenters would show signs of "interactive watching"; to my surprise, this happened again and again. Unfortunately, I did not have my wits sufficiently about me to videotape these programmes, and it is now almost impossible to obtain recordings dating back to 1990.

However, I have been busy recording everything Ive watched the last couple of years, and the taping has yielded some nuggets, which you will find if you point your Web browser at the "evidence" area of my website, whose URL address is given above. Strangely it is not particularly the BBC who are "after me" at the moment (with the exception of occasional fire from Nicholas Witchell), but that supposed paragon of virtue and decency Jon

Snow of Channel Four TV News (he actually works for ITN), who once claimed hed turned down MI5s offer of a tax-free salary. I will cover Snows recent actions in a future article.

BBCs Hidden Shame

The first ever Usenet post (internet newsgroup article) on the subject of the MI5 bugging / BBC watching occurred, as stated in a previous article, in early May 1995. It is reproduced here;

Date: Thu May 4 18:27:24 1995
Newsgroups: alt.conspiracy
Subject: BBC's Hidden Shame

Remember the two-way televisions in George Orwell's 1984? The ones which watched you back? Which you could never get rid of, only the sound could be turned down?

Well the country which brought Orwell into the world has made his nightmare follow into the world after him. Since 1990 the British have been waging war against one of their own citizens using surveillance to invade privacy and a campaign of abuse in the transmitted media in their efforts to humiliate their "victim".

I suppose "BBCs Hidden Shame" is more of a wish than a fact. It may be hidden, but the BBC and other media and security organisations seem to have no shame whatever in their anti-social, not to say criminal, actions. Nor do the general public, who seem quite happy to parrot the vilest obscenities without much hesitation or apparently thought.

Martyn Lewis, Nicholas Witchell and the rest

Most of the harassment occurred in 1990-92, when I wasnt making any recordings, and the BBC wont release copies of current affairs programmes from that period.... so although I can remember there were many incidents in that time, even many specifics, I cant dig up the actual programmes to flesh out the bones.

This year, there has been at least one incident with Nicholas Witchell as newsreader, which I have successfully recorded and digitized, i.e. converted into a computer Quicktime movie file. This has not yet found its way onto my website (Im a busy man, dontcha know) but you can be sure I will let the readership of these articles know when that clip makes it onto the web. The Witchell clip was recorded on Saturday 10 April 1999 at 7pm, and shows Witchell trying to restrain his features from collapsing into a smirk. First his upper lip quivers for several minutes, then with the non-excuse of a non-joke his entire face twists into a grin. It looks as if he finds me so funny, that he allows himself to submerge any pretence at professionalism in a sea of MI5-inspired sarcasm and harassment.

The two BBC newscasters whose reactions to me I can remember most vividly over the years are Martyn Lewis and Nicholas Witchell. I can remember thinking years ago that Michael Buerk was also seeing me at home; and if the other two are watching then there would be no reason why he wouldnt be doing the same; but in all honesty I cannot remember a single clear instance of his reacting through facial or verbal expression to me.

I can remember several instances of Martyn Lewis reacting to what he saw of me, however. In early 1992 I was watching the BBC news with Lewis on a small black-and-white portable TV at my then home in Oxford. I threw a term of abuse at Lewis; he flinched, then gave a grin and made a comment from which I understood that he had been on my side, but might have changed his mind as a result of what Id just said to him.

And in spring 1991 I remember Martyn Lewis clearly reacting to what he saw of me at my then accommodation in Woking, Surrey, by continuing to stare at some fixed point near the camera after the news had finished - presumably this is where the monitor interactively showing pictures of my room was located.

Why would BBC and other Newscasters Watch and Harass Me, Watching Them?

This is a very difficult question, and I dont actually know the answer. It is a matter of record that the Secret Services are very much part of the Establishment. The recent exposure of the "MI6 Agent List" on the internet, and its coverage in the newspapers, reveals how much MI5 and MI6 are recruited from the ranks of the Establishment. Obviously the relationship is bi-directional; the Establishment influences MI5/MI6, but the secret services (well, perhaps not so secret now we know who works for MI6!!!) also influence the machinery of power and information dissemination i.e. media in this country. So they must have a lot of covert leverage with the BBC and ITN.

Some of this leverage is obviously through bribery. It is a matter of record that MI5 tried some years ago to "buy" Jon Snow of Channel Four TV. He turned them down - obviously they must have approached other media people as well, and from the lack of other reports of people turning them down, it may be presumed that some other journalists will have accepted the sugared carrots put before them. Ironically, Jon Snow has been taking part in the recent "watching" actions against me - but why he has allowed himself to be used by the secret services is something which I do not know.

Perhaps the Security Service uses blackmail to twist arms of journalists into co-operating with them? I have always thought there was something slightly odd about Martyn Lewiss demeanour. At the time of the Ron Davies "rough trade" scandal it was reported that MI5 had known all about Davies predilections and the sham of his pretence to be a happily married man. Perhaps MI5 have been able to dig something up from Martyn Lewiss private life to blackmail him into acting on their behalf? And if there wasnt anything before the "newscaster watching" started then there most certainly is something now.... once theyve started watching, the newscasters will surely wish their activities to remain covered-up, and co-operate with the security service.

"Newscaster Watching" Deliberately Constructed to Mimic Schizophrenia

Presumably this is the first case in history of television journalists actually taking part in acts of real-time, live spying and reacting against one of their viewers. What you have to understand, though, is that I was quite mentally healthy in June 1990, certainly relative to November 1992, when after two and a half years of harassment I was finally admitted to hospital as an out-patient. MI5 decided from the outset that they would make me mad; they constructed the media harassment to resemble what would be reported by a person with mental illness; and then they carried on years of abuse to inflict on me the condition which they wished to use as an excuse to cover up their abuses.

I sold my portable TV in autumn 1990 and stopped watching television regularly. I realise now that this may have been a mistake. What I should have done was to watch TV and listen to the radio, but tape-record everything and make a note of what each excerpt meant to me. I would then be in a much stronger position as regards to evidence that I am now. That is what I am trying to do now, but unsurprisingly the TV/radio presenters have stopped getting at me, now they know they are being recorded.

When I started publicising my case on internet newsgroups in 1995, I was met with the disbelief one might expect to be accorded to a mentally ill person who talks about "newscaster watching" and media persecution. Some newsgroup participants thought I had started a "troll", an invention made to obtain a reaction; one bright spark even suggested a group of psychology students were behind the articles. But most people thought the articles were symptomatic of derangement - and that is exactly what MI5 want people to think. MI5 chose me as a target because I was mildly mentally ill at the outset in 1990, although I stress my illness then was very mild in comparison with November 1992, and because they knew that enough abuse would (a) make me much more seriously ill, and (b) once I was more ill, they would "get away" with a harassment deliberately constructed to look like the symptoms of paranoid schizophrenia.

Martyn Lewis Denies & Lies, But Wont in Writing

In February 1997 I wrote to BBC Viewer & Listener Correspondence and asked them to investigate the claim that their newscasters had engaged in "real-time spying" on me. They replied that they had asked Martyn Lewis and Michael Buerk whether they had engaged in such practices, and that they had both made verbal denials to VLC, but were refusing to put their denials in writing.

To me it looks as if Lewis and Buerk are happy to lie verbally but not in writing, because written falsehoods would place them unambiguously in the wrong, whereas they can try to talk their way out of verbal lies if they are ever caught, or perhaps even deny the verbal lies completely? If they lie without shame, then why would they have any shame about future lies about lying?

BBC-VLC also said that the BBC "would never engage in any form of surveillance activity" such as that described. Clearly Martyn Lewis and the rest have lied to their own organisations personnel about their criminal actions. So much for the "objective", "truthful" BBC, a nest of shabby liars.

Summons against the BBC, for Nuisance caused by Newscaster Spying

In March 1997 I issued a civil summons against the BBC, seeking injunction against further "newscaster spying", and token damages for what the BBC had done to me until that date. The purpose of the summons was to try to "smoke out" the BBC, since obviously I did not have good evidence which would be necessary for either a civil or criminal case to be made against them. My summons was worded as follows;

1. The plaintiff is and was at all material times residing at [home address]. At some time prior to or during June 1990, persons of unknown identity entered Plaintiff's premises and installed concealed television equipment in said premises.

2. A campaign of harassment was launched against the Plaintiff by the persons of unknown identity, which in part took the form of instigating harassment by BBC TV newscasters (including specifically Michael Buerk and Martyn Lewis) as they read news bulletins, by making direct and personal comments to Plaintiff.

3. The campaigns purpose was to subject Plaintiff to great mental stress and induce mental breakdown. As a result of it Plaintiff did indeed suffer from severe mental strain in 1990-97.

4. In order to avoid the mental strain being caused to him the Plaintiff has been compelled to stop watching BBC TV news. Defendant therefore committed the tort of private nuisance, since normal use of home was interfered with.

5. Plaintiff claims a permanent injunction prohibiting further nuisance, and damages for nuisance suffered limited to 5,000.

Naturally, my attempt to smoke-out the BBC and its lying newscasters failed. The BBCs litigation department sought to have my summons struck out; and they succeeded in doing so, on the grounds of my action "disclosing no reasonable cause of action". I was also prevented from issuing further civil claims against the BBC without leave of the Court. Apparently litigants-in-person frequently / usually have their claims struck out with this wording, regardless of the merit of their claims.

BBC Suppresses my Claims of "Watching by Newscasters"

BBCs staff magazine Ariel ran my advert "BBC Newsreaders Spying on my home" for one issue in the Personal category on 8/July/1997 before it was spotted and axed by editor Robin Reynolds; please see webpage; http://www.pair.com/spook/evidence/plaint/ariel.htm
Clearly the BBC will not allow claims of its wrongdoing to be made public in the media channels it controls.

On several occasions people said to my face that harassment from the TV was happening. On the first day I worked in Oxford, I spent the evening in the local pub the Rose and Crown with the company's technical director Ian, and Phil, another employee. Ian made a few references to me and said to Phil, as if in an aside, "Is he the bloke who's been on TV?" to which Phil replied, "Yes, I think so".

The reader might think that mere "watching" by newscasters etc might be a relatively benign happening. But it is not; it is part of MI5s framework of harassment and lies. On many occasions the reactions of the BBCs newscasters to me has been in the nature of sarcasm, implicit contempt and abuse. This is visible in Witchells news programme mentioned above, where he engages in abuse by laughing at me during his newsreading. It was particularly visible in the early period of 1990-92, and as late as Autumn 1993, when during a Newsnight broadcast Jeremy Paxman interviewed a football person about soccer hooliganism, and the interviewee gave vent to an unsubtle rant about "theyre idiots, theyre just idiots, keep up the surveillance". Paxman started grinning, showing he understood and was taking part in the abuse being perpetrated on that programme.

Conclusion

The MI5 Persecution started with harassment by television newscasters, and today harassment by TV and radio presenters still forms a key part of MI5s activities against me. When this business started in June 1990 I was in relatively good health of mind. Years of persecution by the secret police and their mouthpieces in the state-run BBC and other media eroded my health until MI5 achieved their aim of seeing me rendered mentally ill in November 1992. The diagnosis which was forced on me unfortunately and ironically meant that my reports of the harassment are disregarded, because the mentally ill are second-class citizens in todays Britain.

Yet TV and radio harassment continues, albeit in a reduced form, despite my taping all the programmes I watch, resulting in my being able to obtain and demonstrate objectively on the website instances of media presenters attacking me. Unfortunately these recorded instances are quite tenuous; I might understand them, the presenters understand what it is theyre doing, but despite many thousands of people knowing the truth of the "newscaster watching", the omerta continues and they continue to refuse to admit the truth of the matter. It is a terrible indictment of British society that there is not even one decent person willing to speak out. I look forward to the day when the truth does finally emerge, and the mass corruption which has allowed the MI5 persecution to take place is finally purged and the Establishment criminals caught and appropriately punished.

MI5 Persecution: Molestation during Travel

MI5s persecution of me varies in intensity. Since 1990 it has been steady for perhaps 80% of the time; there was a notable quiet period in 1993, and another quiet period in Jan-Feb 1995, as well as a hiatus in the first two months of 1999. It puzzles me that they cease and restart, seemingly without any logic or reason. But one aspect of MI5s activities against me which is relatively predictable is this weeks articles topic, which is Molestation during Travel. Almost every time I cross the Atlantic, go to the Continent or even try to enjoy a holiday in this country, you can bet that MI5 will be there doing their utmost to wreck it all.

This aspect of the harassment is particularly relevant as I will be travelling to Europe again in a months time, with naturally the Minidisc recorder in tow; so it will be interesting to see if I can record the abuse which will almost certainly take place, either on the Tube going to the airport, at the airport, on the flight, in the terminal building - MI5 have previously instituted instances of abuse at each of these locations, so well see how much taxpayers money they waste this time, and whether it will prove possible to capture their abuse on minidisc.

Read about the MI5 Persecution on the Web

June 1992 in Polands mountain resort of Zakopane

The persecution started in June 1990, and for the first two years I stayed in the UK apart from a couple of brief day trips to Calais. By the summer of 1992 Id had enough of being cooped up in England with abusive fellow employees egged on by an abusive secret police service, and decided to spend 10 days in southern Poland, on what was intended to be a holiday at the mountain resort town of Zakopane.

Unfortunately the psychopaths of the Security Service were not willing to allow me to enjoy a holiday in peace and quiet. The journey to Zakopane was by coach from the meeting point at Londons Victoria coach station (National Express) followed by ferry followed by another coach across Europe. As we left Victoria a youth and his girlfriend started a loud tirade of abuse directed at "this bloke", where the "bloke" was never named, but it was very clear that the "bloke" was myself. The youth said "they" had "found somebody from his school, and he was always really stressed at school, a real psycho". Again, the label "they" was not elaborated on, but it was clear that "they" = the persecutors from MI5. The boy also said, "he was in a bed and breakfast for only one night and they got him". By a not unexpected coincidence I had been in a B&B in Oxford a week previously, which had been booked from work; other things lead me to the conclusion that the company's offices were bugged for most of the 2 1/2 years that I was there, so "they" would have known a room in the B&B had been booked. After a few minutes of this I went back to where they were sitting and asked where they were travelling. The boy named a village in France, and the girl's giggling suddenly ceased; presumably it permeated to her brain cell what the purpose of the boy's abuse was.

It is now very clear to me that MI5 were trying to have me incarcerated, assaulted or killed on this trip across Europe. The degree of verbal violence inescapably leads to this conclusion. When we arrived at our destination, it became clear that many people, both in our tour group and its guide, and among the ordinary residents of the town, knew there was a movement under way to "get" me. MI5 employed many people and significant resources for an action which they knew would only take a maximum of ten days. A commercial operation would never have felt able to waste such resources on such an unproductive and temporary action; only a state-sponsored, taxpayer-funded entity like the Security Service would be able to be so wasteful.

To give some examples of what happened in those ten days; I was walking in some woods outside the town, when a Polish woman, looking at me, said the English "shit" in a strongly Polish-accented voice. For the first three years 1990-92 MI5 had been trying to force this word on me. Another example; I was walking near my "hotel" when a mother said laughing to her child, "a wiesz ze to prawdziwy wariat" which means "you know hes a real madman". And the "TV reacting" happened there too; on Polish TV, a bemused looking journalist said to another, "to jest sprawa Anglikow", which means "its the concern of the English", in other words, none of our business, despite what the English are trying to force down our throats.

Just before we left for home, I went with some others from our group to a nearby bar. There a man shouted at me the same sexual obscenity which MI5 have constantly thrown at me these last three years. I think MI5 try to justify their various terms of abuse by repeating them at me until I say them, either while conscious or while talking in my sleep; and then they seize on my saying those words to "prove" that the obscenities are "my fault", et cetera. This rather stupid reasoning of theirs can actually be seen as indicative of the psychopathic condition attributed to them in a previous article; blaming the victim for the crime you inflict on him is how psychopaths think.

Nor did the persecutors let up during the return trip. Returning on the ferry over the channel, a rather insalubrious-looking guy talked to his mates about "and you know this bloke, hes really mad you know, hes really mad". On the National Express return coach to London, a group of five or six young people started shouting at me. I slumped in my seat and tried to avoid presenting a target, so they got ever more strident - "whats the matter with you, cant you hear us?" One of the other people who had been on the trip to Poland asked them why they were shouting at me, and they said, "hes been to Cambridge", to which the co-holidayer asked them, "have you been to Cambridge?" presumably thinking they were aggrieved fellow students, but they answered "no". Even after I left the coach at Elephant and Castle abuse continued; in the tube station, two kids started throwing abuse at me; one of them said to the other, "and you know he works?" to which the other answered "yes".

Immediate Aftermath of November 1992

As you will know from previous articles, my manager at OCG - ARIS/Oxford, Mr Mitchell, induced a mental breakdown in me in the months leading up to Nov/92. The diagnosis was regarded by the persecutors as a victory for them, because few if any people give credence to allegations of harassment when they are made by somebody suffering from schizophrenia. There is also a bias against the mentally ill, an "institutionalised bigotry" in society comparable to the institutionalised racism against blacks.

However, MI5 did not let up on persecuting me following Nov/92. In December 1992 I flew by charter jet to Alicante in Spain for two weeks recuperation. MI5 planted one of their people on the flight, a youth who tried to start some noises that "hes a nutter". One of the other passengers replied, "oh hes a nutter is he? oh well!" and the youth shut up and said nothing for the rest of the flight. I think it would be fair to say that the youth on the flight was embarrassed by what he had been asked to do in making the flight "uncomfortable" for me; he sounded defensive rather than aggressive.

My first trip to Canada in June 1993

Ive already covered this in a previous article so Ill just give a brief summary here. On 10 June 1993 I flew British Airways from Heathrow to Torontos Pearson Airport. On de-planing from the aircraft, one of a group of four fellow passengers looked at me and said, laughing, "if he tries to run away well find him". It was quite obvious that these four men were the ones who had been harassing me since 1990.

I did nothing to apprehend them or bring this incident to the attention of the airport authorities, mostly because this was my very first visit to Canada, and the last thing I wanted was to get into a dispute before I had even finished disembarking. In retrospect, I can see this was a terrible mistake; I should have made every effort to detain and identify these people.

Subsequently I have made numerous attempts to obtain the names of these people from British Airways passenger lists, by talking to BA, through a lawyer in Ontario, through a solicitor in England, through the UK police, and also through private detectives in the UK. But all my efforts have come to nothing. BA have told me they keep passenger lists for a period of seven years, so they will still have the list for this 1993 flight. I did not see or hear anything during the rest of my visit to Ontario in 1993 which would have lead me to believe that I was being watched or followed.

Journey across Canada in summer 1994

As I think Ive already said in previous articles I emigrated to Canada in late May 1994. For six weeks between late May 1994 and early July 1994 I travelled across Canada from coast to coast, starting in Toronto, visiting various cities and ending up in British Columbia. I saw this both as something of a holiday, and the chance to get to know a little better my adopted country.

As you can guess, MI5 followed me everywhere I went during these six weeks. In Toronto, where I started this trip in late May, I was spoken about by one youth to another with the words "hes an idiot", to which the other replied, laughing sympathetically, "good luck to him".

A couple of days later I went to Montreal and stayed at the YMCA downtown. As you can guess (this is all so predictable, isnt it?) MI5 followed me there and bugged my room at the YMCA. Not only that, but they managed to set-up an instance of "newscaster reaction" from a local television station; while I was watching a Vermont TV news programme on the set in my room, the woman reporter said, "well theyre just tired and they want to go home", which sounds like a pretty unprofessional thing to say until you realise she was trying to say of me that I was the one that was supposed to be tired, and they (ie MI5) wanted me to go home to the UK.

On the bus journey across the North American continent, it was quite clear that MI5 were following me every step on the way. For the first part of the journey they actually put someone on the bus with me, a youth who said at me "that guys paranoid" and tried to incite other passengers to attack me. I stopped for a couple of days in Winnipeg in central Canada, and on leaving the town heard on the radio a female presenter ranting about "insanity! insanity!". It is very tiring travelling such a long distance by bus; I took the journey in two steps, each of about 36 hours; and it is especially tiring when you know MI5 are watching you and harassing you every step of the way.

When I finally got to Vancouver, MI5 instituted the usual harassment, in very short order. I was surprised how quickly they were able to induce hatred towards me in elements of the general populace; the Security Service must have employed a number of agents and serious resources in a very short period of time; and for no real gain, because I havent been back to BC for almost five years, so all their "work" appears to be for nothing. In downtown Vancouver a street person said in front of me, "theyre all talking about him". For a few days I was staying at Pauls Guest House (345 W.14th Ave); on the day I left, the owner Paul shouted at no-one in particular, "hes going to Victoria" - which was quite accurate, I was indeed going to the provincial capital Victoria on Vancouver Island. But I had not told anyone at the guest house where I was going; I had only mentioned to my parents back in England on the phone that I was going away from Vancouver for a few days. Which leads me to suppose that MI5s bugging of the phone in my parents house yielded the "intelligence" that I intended to visit Victoria, and they had passed the information on to Paul.

When I got to Victoria it was again obvious that the persecutors were "doing their stuff" there as well. On the street I was identified as being English, although I had not said anything so my accent hadnt given me away; and returning by ferry to the mainland, I was abused by a Canadian woman who said, "hes a nutter! you can run but you cant hide". During my years in Canada I have never heard the word "nutter" on any other occasion; I do not think it is part of Canadians vocabulary; so the Canadian woman on the ferry, who was obviously talking about me, must have been supplied with this word by the English persecutors. And once I got back to Vancouver, staying at the Austin Hotel on Granville St, I listened to a conversation in the apartment block directly opposite, and a man saying, "hes paranoid, so thats as bad as it can be, so why are they doing this to him?".

Holiday in the States, August 1995

By 1995 I was living in Canada, and in August I went down the eastern seaboard to Florida and as far as Key West by car. As you can guess (this is all so boring and predictable, isnt it?) MI5 followed me every step of the way. I can see in retrospect that this must have been quite easy for them as they had my car bugged, both on the inside to listen to anything that was said and what radio station I was listening to, as well as what must have been a tracker device installed to track it across long distances.

The first city I visited was Philadelphia. In the old Congress Hall where the first US Congress assembled, the woman guide started referring to my situation, saying that "all these people in Europe were watching it", and they were "a little paranoid" at this 18th-century experiment in democracy. Also I had recently written a newsgroup post where Id described a (female) poster as "wet-nosed" (implying "canine"), and a young girl in Philadelphia remarked, "so he thinks were dogs?" There were two or three more incidents during this holiday in the eastern States, including a radio station down near Miami, showing "they" had tracked me all the way there, and were bugging the inside of my car; but I didnt record the details and Ive forgotten some of it now. Also down in Miami Beach a

French tourist in a lift expressed support for me with the words, "cest incroyable" ie. its incredible, meaning that MI5s well-known actions against me were beyond belief.

To go back a bit, in about May/June 1995 Id visited New York, again by car, and was insulted several times by people using the same words that had been used against me in England. In Central Park, and elderly Englishman (not a real gentleman - but then the Engish view of themselves as "gentlemen" etc is quite laughable) looked at me and said "idiot". And while I was eating in a streetside restaurant a New York youth started laughing and said something like, "I cant believe it, hes actually here" - I think that was because I had had an expressed wish to visit New York for some years before this, although after this visit I wont be going there again for a very long time.

Visit to Poland December 1995/January 1996

In December 1995 I flew (BA again, unfortunately - every time Ive flown BA one of these incidents has happened, presumably MI5 is happier setting up harassment on British-domiciled carrier) from Montreal to Berlin and travelled on to Poland to visit family. MI5 naturally harassed me in Poland during my brief stay. They followed me around and got Polish people to take part in the harassment. In one case two Polish youths talked in front of me saying in English (with marked Polish accents), "fucked up men, fuck you". There were also other incidents which I dont remember too clearly since it was some time ago.

The return flight connected through Heathrow, and in the transit lounge MI5 again set-up harassment against me. In Poland they were talking their abuse in English, and in London they set Polish people after me to speak in Polish; they heard me on the phone to my father, and said "a wiesz ze to Polski wariat", in an almost sympathetic, inclusive fashion (translation. "you know hes a Polish nutter"). Once on the flight to Montreal I was again set upon by two English youths, one of whom spoke and the other listened. The aggressive "fat bastard" youth said, "if he wants to be a wanker" (its my fault theyre harassing me, you see), self-justification that "hes a nutter" (so we have to keep on abusing him, because hes ill), as well as talking about the town in Poland where I had been staying. He also said, "he doesnt know who we are", but as already remarked in a previous article, that was at best a half-denial of my guess expressed in internet newsgroups that the people after me were MI5 - if anything its a half-confirmation rather than a half-denial.

These incidents are still going on. You can hear digitised audio files of abuse on a BA flight to Berlin in 1998 on the Web at address

On this flight they were again attacking my mental health; "paranoid, hes paranoid" and "nutter" are discernable. The last "during travel" contact was at Ottawa Airport on 21 July 1998, when "Alan Holdsworth" the psychopath MI5 agent, dressed as a vagrant, was pacing aggressively in the departure area. In three weeks I will again be travelling to Europe; we will see what fresh acts of molestation MI5 perpetrate during this trip.

MI5 are Afraid to Admit They're Behind the Persecution

MI5 have issued a formal denial of any involvement in my life to the Security Service Tribunal, as you might expect them to; but, more importantly, the persecutors have never denied that theyre from the Security Service, despite several years of accusations from my corner on usenet and in faxed articles. I am not surprised that the Security Service Tribunal found "no determination in your favour". I am however a little surprised that the persecutors have refused to confirm my identification of them; by doing so, they implicitly admit that my guess was right.

"No determination in your favour" says the Security Service Tribunal

In 1997, I made a complaint to the Security Service Tribunal, giving only the bare outlines of my case. I do not think it would have made very much difference if Id made a much more detailed complaint, since the Tribunal has no ability to perform investigatory functions. It can only ask MI5 if they have an interest in a subject, to which MI5 are of course free to be "economical with the truth". A couple of months after my complaint the Tribunal replied that;

The Security Service Tribunal have now investigated your complaint and have asked me to inform you that no determination in your favour has been made on your complaint.

Needless to say this reply didnt surprise me in the slightest. It is a well established fact that the secret service are a den of liars and the Tribunal a toothless watchdog, so to see them conforming to these stereotypes might be disappointing but unsurprising.

It is noteworthy that the Tribunal never gives the plaintiff information on whether the "no determination in your favour" is because MI5 claims to have no interest in him, or whether they claim their interest is "justified". In the 1997 report of the Security Service Commissioner he writes that "The ambiguity of the terms in which the notification of the Tribunals decision is expressed is intentional", since a less ambiguous answer would indicate to the plaintiff whether he were indeed under MI5 surveillance. But I note that the ambiguity also allows MI5 to get away with lying to the question of their interest in me; they can claim to the Tribunal that they have no interest, but at a future date, when it becomes clear that they did indeed place me under surveillance and harassment, they can claim their interest was "justified" - and the Tribunal will presumably not admit that in their previous reply MI5 claimed to have no interest.

"He doesnt know who we are"

In early January 1996 I flew on a British Airways jet from London to Montreal; also present on the plane, about three or four rows behind me, were two young men, one of them fat and voluble, the other silent. It was quite clear that these two had been planted on the aircraft to "wind me up". The fat youth described the town in Poland where I had spent Christmas, and made some unpleasant personal slurs against me. Most interestingly, he said the words, "he doesnt know who we are".

Now I find this particular form of words very interesting, because while it is not a clear admission, it is only a half-hearted attempt at denial of my guess that "they" = "MI5". Had my guess been wrong, the fat youth would surely have said so more clearly. What he was trying to do was to half-deny something he knew to be true, and he was limited to making statements which he knew to be not false; so he made a lukewarm denial which on the face of it means nothing, but in fact acts as a confirmation of my guess of who "they" are.

On one of the other occasions when I saw the persecutors in person, on the BA flight to Toronto in June 1993, one of the group of four men said, "if he tries to run away well find him". But the other three stayed totally quiet and avoided eye contact. They did so to avoid being apprehended and identified - since if they were identified, their employers would have been revealed, and it would become known that it was the secret services who were behind the persecution.

Why are MI5 So Afraid to admit their involvement?

If you think about it, what has been going on in Britain for the last nine years is simply beyond belief. The British declare themselves to be "decent" by definition, so when they engage in indecent activities such as the persecution of a mentally ill person, their decency "because were British" is still in the forefront of their minds, and a process of mental doublethink kicks in, where their antisocial and indecent activities are blamed on the victim "because its his fault were persecuting him", and their self-regard and self-image of decency remains untarnished. As remarked in another article some time ago, this process is basically the same as a large number of Germans employed fifty years ago against Slavic "untermenschen" and the Jewish "threat" - the Germans declared, "Germans are known to be decent and the minorities are at fault for what we do to them" - so they were able to retain the view of themselves as being "decent".

Now suppose this entire episode had happened in some other country. The British have a poor view of the French, so lets say it had all happened in France. Suppose there was a Frenchman, of non-French extraction, who was targeted by the French internal security apparatus, for the dubious amusement of French television newscasters, and tortured for 9 years with various sexual and other verbal abuse and taunts of "suicide". Suppose this all came out into the open. Naturally, the French authorities would try hard to place the blame on their victim - and in their own country, through the same state-controlled media which the authorities employ as instruments of torture, their view might prevail - but what on earth would people overseas make of their actions? Where would their "decency" be then?

This is why MI5 are so afraid to admit theyre behind the persecution. Because if they did admit responsibility, then they would be admitting that there was an action against me - and if the truth came out, then the walls would come tumbling down. And if the persecutors were to admit they were from MI5, then you can be sure I would report the fact; and the persecutors support would fall away, among the mass media as well as among the general public. When I started identifying MI5 as the persecutors in 1995 and 1996 there was a sharp reduction in media harassment, since people read my internet newsgroup posts and knew I was telling the truth. The persecutors cannot deny my claim that theyre MI5, because then I would report their denial and they would be seen as liars - but they cannot admit it either, as that would puncture their campaign against me. So they are forced to maintain a ridiculous silence on the issue of their identity, in the face of vociferous accusations on internet newsgroups and faxed articles.

Have MI5 lied to the Home Secretary?

In order for the Security Services to bug my home, they would either have needed a warrant from the Home Secretary, or they might have instituted the bugging without a warrant. Personally I think it is more likely that they didnt apply for a warrant - I cannot see any Home Secretary giving MI5 authority to bug a residence to allow television newscasters to satisfy their rather voyeuristic needs vis-a-vis one of their audience. But it is possible that the Security Service presented a warrant in some form before a home secretary at some point in the last nine years, for telephone tapping or surveillance of my residence, or interception of postal service.

So the possibility presents itself that a Home Secretary might have signed a warrant presented to him based on MI5 lies. Just as MI5 lie to the Security Service Tribunal, so they might have lied to a Home Secretray himself. MI5 and MI6 are naturally secretive services former home secretary Roy Jenkins said, they have a "secretive atmosphere ... secretive vis-a-vis the government as well as [enemies]". Jenkins also said he "did not form a very high regard for how they discharged their duties".

It was only a few years ago that MI5 was brought into any sot the extraordinary thing is that British media organisations like the state- and taxpayer-funded BBC take such an active part in the MI5-inspired campaign of harassment. We have after all heard of MI5 trying to bribe broadcast journalists; but surely there must be a substantial number who are not bought or blackmailed by the Security Services, and who take part in the "abuse by newscasters" of their own volition? The BBC is supposed to be independent of the government of the day as well as the Establishment in general. While perhaps it is childish to think that the BBC is anything other than effectively state-controlled, the degree of collusion between the BBC and the British Secret Police MI5 is something you would not find in many countries. Individual tele-journalists in other countries would have enough self-esteem not to allow themselves to be controlled by their secret police - seemingly, BBC broadcasters like Martyn Lewis and Nicholas Witchell have such a low opinion of their employing organisation that they see no wrong in dragging the BBCs no-longer-good name through yet more mud, at the mere request (whether supported by financial or other inducements) of the British secret Police, MI5.

And when challenged, these broadcasters LIE about their involvement, with just as little shame as MI5 themselves. The BBCs Information dept have said that;

"I can assure you that the BBC would never engage in any form of surveillance activity such as you describe"

which is an out-and-out lie. Buerk and Lewis have themselves lied to their colleagues in the BBCs Information department over the "newscaster watching", but unsurprisingly they refuse to put these denials in writing. Doubtless if the "newscaster watching" ever comes to light, Buerk and Lewis will then continue to lie by lying about these denials. So much for the "impartial" BBC, a nest of liars bought and paid for by the Security Services!

It is obvious that the persecution is at the instigation of MI5 themselves - they have read my post, and only they have the surveillance technology and media/political access. Yet they have lied outright to the Security Service Tribunal. Similarly, BBC newscasters Michael Buerk and Martyn Lewis have lied to members of their own organisation. The continuing harassment indicates they are all petrified of this business coming out into the open. I will continue to do everything possible to ensure that their wrongdoing is exposed.

K9YA Telegraph
Fifth Anniversary For The Good News About Amateur Radio

It's been another great year at the K9YA Telegraph. Thanks to your strong and continued support we're looking forward to celebrating our fifth anniversary in January 2008.

There's a definite buzz on the 'Net with the Telegraph earning enthusiastic comments from bloggers, reviewers and in discussion list threads. As we wrote at the completion of our first year: "Our success derives from you, our large, enthusiastic and devoted subscriber base worldwide, and to the writers whose contribution of personal stories-at once fascinating, humorous, enlightening and compelling-made the Telegraph staff's inaugural year one of consistent joy and fulfillment." That truth remains unchanged, but ever more encompassing as more of you, drawn from the international ham community, have joined the Telegraph readership and lent your experience to enlighten, evoke and entertain.

The Telegraph staff continues in its fifth year-as in our first-ebullient. Thank you for your messages of praise and encouragement, and remember: we're always on the lookout for your good story, or two.

The K9YA Telegraph is a free, monthly, general interest amateur radio publication read by hams in more than 100 countries. The Telegraph is a full-color e-Zine providing the stories and features most wanted by our subscribers because our subscribers write it. Check it out; we think you'll like it too.

MI5 Persecution Update: Friday 11 June, 1999

Harassment in a pub in Clapham, Tuesday lunchtime

Once a month, or once every other month, I meet a Polish friends of mine who lives in Clapham North, and sometimes we go to a particular pub near where he lives. The last time was some two months ago; I did not have my minidisc-walkman with me, and consequently was seriously harassed by people MI5 had instructed to harass me, in the pub.

This Tuesday, 8 June 1999, we again went to the same pub for a pre-meal drink. This time I did have my minidisc-walkman with me. As you can guess, we were followed into the pub by a couple of young people (Im getting older and older - isnt it funny how the MI5 agents all look young these days?). They started talking about my situation, in particular some travel I had booked the previous day. Unfortunately, they were talking fairly quietly, and my minidisc didnt pick up their speech.

MI5s schizophrenic reasoning is that simultaneously I am very important and worthy of their acts of persecution, and I am also totally unimportant and their abuse of me "doesnt matter". Perhaps they should test their agents and managers for obsessive personalities or psychotic features in the same way as employees are drug-tested. MI5 might lose their "worst cases" employees if some psychological testing were applied to their recruitment procedure.

Toothless Watchdogs. What a Surprise.

Recently I have been engaging in communications with two watchdogs, the Security Service Tribunal which deals with complaints against the security service (and always clears MI5 of any wrongdoing), and the Data Protection Registrar, which is mandated to investigate misuse of personal data held on computer.

In a letter to Nick Brooks, Security Service Tribunal secretary, dated 20 April, I asked him if the Tribunal, as an allegedly independent body, had the means to investigate complaints against MI5 other than asking MI5 to themselves investigate complaints. To my disappointment, his reply two weeks later answered the question only indirectly, in the negative. Whatever the reader might think of the merits of the case I have been putting before you in faxed articles this last year and half, you will surely recognise that it is a significant anomaly for the Tribunal to have no independent means of investigating complaints, particularly given the view expressed even by previous home secretaries that the security services are untrustworthy.

MI5 Persecution: No Justice for the Victims of MI5

In a previous article I detailed the similarities between the current MI5 Persecution in England, and other historical instances of similar persecution, notably that by the Nazi Germans in the thirties and forties. The Germans persecuted first the mentally ill, the epileptics and those suffering from schizophrenia, then moved on to racial groups; in todays Britain the persecution is again directed at those with mental illness, which the British in their cowardice find easier than taking on racial groups as the Germans did. But just as in Thirties Germany there was no recourse against a malign and omnipotent state, so the MI5 Secret Police in the modern British Fascist State allow no justice for their victims.

No Recourse Against the Security Services Illegal Harassment

It has become apparent to me over the last nine years just how loaded the dice are in todays Britain, a fundamentally fascist country which masquerades as a democracy. Britain is a democracy in name only; the Establishment, the defence and MI5 secret police are always there, regardless of which party has been voted into power most recently - and from "New Labours" conduct in office one finds it difficult to tell them apart from Old Tories, in their crackdowns on the sick and vulnerable in society.

In thirties Germany the victims of the Nazi regime had no legal recourse against their State oppressors; and in todays Fascist British state, the victims of the Establishment and its MI5 Secret Police similarly have no recourse against the illegal state-funded and organised oppression. There is supposed to be a mechanism for dealing with MI5 crimes, in the shape of the Security Service Tribunal and Commissioner; yet these have never found favour of a plaintiff. One might as well ask the Nazi SS to investigate crimes against epileptics or Jews as ask the Security Service Tribunal to investigate MI5 crimes against British citizens; it is quite obvious what the answer is going to be, regardless of what you say to them, and what evidence you provide. The Tribunal and Commissioner are a mere formality, a whitewashing body to give the Secret Services a veneer beneath which they hide their shabby criminality.

"Institutional Racism" and Bigotry in the Metropolitan Police

The recent inquiry into the racist murder of Stephen Lawrence found clear evidence of systematic and deliberate racism in the Metropolitan Police, which cannot have surprised anyone. Commissioner Sir Paul Condon accepted a somewhat lukewarm definition of institutional racism as being "unconscious". In truth, and this truth must surely be obvious to anyone who has any familiarity or encountered the great British police, the Met has not just "unconscious" racism, but very clearly "conscious" and deliberate racism, of the kind that would have done Thirties Germans proud. And it is a bastion of such open racism - when many other parts of society are learning to live in a multicultural environment, the Met is still living in the past in its attitude to the minorities.

But in addition to the systematic racism confirmed by the Lawrence inquiry, there is also something much more relevant to this case, which is systematic police bigotry against the physically and mentally disabled, which I personally have experienced in my dealings with the police over the years. You cannot expect equal treatment if you are mentally disabled. I tried to make a complaint to the police in 1995 about the harassment I had been subjected to for several years. As soon as they found out I had mental illness, they refused to even talk to me. I tried again in March 1999; the police made various threats to me, while ranting about "your paranoid rubbish" in reference to the complaints expressed to them.

The police refusal to do the job they are employed and paid to do is extremely serious, particularly as this case is highly important, indeed key to the whole issue of British self-perception at the end of the 20th century and the beginning of the 21st century. Britain has lost much in the last fifty years - it has lost an empire, it has lost its self-respect and its identity as a people. If the MI5 persecution finally makes it into the light and the Security Services are seen for the rather cheap bullies their behaviour indicates, it will have a massive and harmful effect on British self-perception in the new century.

Security Service Tribunal - Blatant Whitewashing

A few weeks ago I spoke on the phone to Nick Brooks, the Secretary of the Security Service Tribunal, which is supposed to deal with cases of MI5 transgression. I asked him if the Tribunal had ever found in favour of a plaintiff and against the Security Service. He answered that as far as he knew, it had not.

I also asked Mr Brooks if the Tribunal had any means of investigating allegations of criminal activity by MI5, other than asking MI5 themselves if they had engaged in such activity. His rather circuitous written reply states that the 1989 Security Service Act provides that "it shall be the duty of every member of the Service to disclose or give to the Tribunal such documents or information as they may require for the purpose of enabling them to carry out their functions under this Act". Which is a very round-about way of saying - "No" - the Tribunal has no way of investigating MI5 crimes - None At All.

Setting up the S.S. Tribunal, and creating a Security Service Commissioner, was really an act of falsehood by the government. It is generally recognised that MI5 are out of reach of the normal criminal justice system - the police, as we have seen, have no intesot answer to the government; in a previous article I quoted Roy Jenkins speaking of "a secretive atmosphere.... secretive vis-a-vis the government as well as [enemies]", and a "lack of frankness" from MI5.

If the government wanted to, it could reform the secret services and ensure they acted in conformance with the laws which have been enacted for them in the last ten years. But apparently the present government does not see any need to ensure security service compliance with the law. As noted above, the regulatory machinery for MI5 is deliberately weak; the Tribunal has no independent means of investigation, and it is simply a waste of time complaining to the Tribunal or Commissioner.

Every so often, fresh revelations come to light of secret service transgressions. We have heard from Shayler that MI5 bugged Jack Straw and Peter Mandelson; we have heard from Peter Wright that MI5 plotted to see Wilson ejected from office; yet so closed is the system of government that the law is never enforced against MI5 when they "bug and burgle" everyone from politicians to ordinary citizens.

No Justice from the Legal System, either

Britain has a civil and criminal justice system which effectively limits many complaints from being heard. For a civil complaint to be brought before a court, you need a solicitor willing to act on your behalf. Supposedly it is possible to represent yourself as a Litigant-in-Pthe basis of being "frivolous and vexatious" or "disclosing no cause for action in law". This is exactly what happened to me in 1997 when I twice tried to take the BBC to court for spying on me in my living room at home; my case was twice struck out, and on the second occasion an order was made against me that I could not bring further civil litigation against the BBC without leave of the court.

As the reader can guess it is quite impossible for a person with schizophrenia, who complains about the secret services and media interfering in his life, to find a solicitor willing to represent him in legal action against the persecutors. I have quite a lot of evidence of the continuing persecution which I have posted on the website, even if the evidence is quite tentative and perhaps open to varying interpretations. But I have tried several firms of solicitors; some of them have acted unprofessionally and abused me; all of them have refused to represent me. My psychiatrist gave me the name of the firm of Bindman and Partners in central London, and I have approached them twice. On each occasion they refused to accept my instructions. Plainly the problem with Bindmans, which they have admitted, is their bigotry against mentally disabled people; yet this is not just something that is wrong with Bindmans, it is something that is wrong with the legal system as a whole, since the legal system necessitates finding a solicitor willing to represent you in order to bring a case to court, but it does not have a mechanism for providing a lawyer in the case where no solicitor is willing to take on your case. So the British legal system is such as to prevent cases such as mine from ever receiving an airing in a court.

So much for the civil courts. But the criminal justice system is no better. Two years ago the Protection from Harassment Act came into force. But again, while the Act is all very well on paper, in practice it is unenforceable in my case, since it would require Police action to see the law implemented, and if the police cannot even be trusted to conduct a murder investigation competently (in the Lawrence case), then what chance is there of their investigating complaints against the Security Service? Of course, it would be possible for me to personally issue proceedings through a private prosecution either against MI5 themselves, or against one or more of their media tools; but here we see the same problems as with the civil courts, because first of all I would have to find a lawyer willing to act on my behalf. Litigants-in-person do exist in the criminal courts, but the Attorney General can bring such a prosecution to an end by taking it over and entering a plea of "nolle prossequi"; and I suspect that if I were to bring a private prosecution against either MI5 or one of their media tools, then this is exactly what would happen.

So much for British justice. But if anything the wrongs that have been perpetrated on me by the British justice system are quite mild to what others have suffered. Others have been wrongly convicted based on police evasions and lies, and spent many years in jail based on false charges. I should count myself lucky that despite the best efforts of the MI5 secret police, I have not acquired any criminal charges or convictions; which shows that for all their resources and influence, and the clear imperfections in the British legal system, there are still limits on how much subversion MI5 can achieve.

The latest in a long line of injustices

A comment I heard during the recent scandal of the police mishandling of the Lawrence murder investigation is that "its not as if the police themselves murdered him". This is not a particularly wise statement to make about the case, since it could be argued that the four alleged murderers were aided in their crime by the expectation that the police would deliberately botch the investigation - which of course is exactly what the police did.

But in my case, this would be a completely inaccurate thing to say - since the MI5 secret-police have expressly been trying to nine years now to see an end put to my life, either by having me incarcerated and my liberty ended, or by forcing self-termination on me. It is exactly as if the secret police "themselves murdered [me]", since that is what their aim is in their campaign against me.

The public has heard of instances of police mishandling of cases, of police manufacturing evidence, lying in court, extracting false confessions to clear up crimes, et cetera. Various instances of extra-legal activity by the secret services have also come to light in the last few years. The unhappy truth is that what MI5 have been doing to me for the last nine years is really nothing out of the ordinary for them. To me it seems unbelievable that this sort of systematic campaign of harassment, which thousands and thousands of people in this country and abroad are well aware of, could exist for such a long period of time with the media maintaining "omerta". But my case is not the first such instance of persecution by the "British secret police", and judging by the lack of any real controls on MI5, I very much doubt it will be the last.

MI5 Have Systematically Destroyed My Life

This is getting depressing. From the feedback Ive received, the recipients of these faxes are tired of hearing my complaints, and in truth I am tired of sending them. The reason I havent yet ceased sending faxes is because I cannot think of any other effective means of replying to MI5s actions against me, and I feel I have to do something to try to defend myself. Three/four years ago I got the MI5 harassment out of my system by posting about it on Internet newsgroups, and for a few months this tactic was quite effective - I received (and indeed still do today) support from newsgroup regulars, and felt I could make my voice heard and break the MI5 monopoly on access to the British media. But that was years ago, and today nobody gives a tinkers cuss about my internet posts - so I have sought to escalate matters by communicating directly with the politicians who allegedly say how this country is supposed to be run.

Of course, its quite expensive to keep up a campaign of fax messages for many weeks. Each set of faxes takes approx 50 hours to send over the weekend, and costs perhaps 35. My phone bill for the last quarter was 350. These figures are naturally insignificant compared to what MI5 have been spending against me over a similar period. It also takes a lot of time and energy to create a new article every week, and try and find new and fresh aspects and viewpoints on MI5s persecution of me. I am beginning to run out of both new topics and energy to write these articles.

So I have a suggestion to put before the MI5 persecutors who have been wrecking my life since 1990. In a few days time I will be going on holiday to Poland and Germany, for a couple of weeks. Previously, almost every time I have travelled by plane, or gone anywhere on holiday, the MI5 "wreckers" have been most assiduous in destroying these trips. My suggestion is; if MI5 leave me alone on this next trip, I will cease transmitting these articles. If, however, there are any clear instances of harassment (and I am very capable of recognising MI5 harassment when I see it), then I will make public these instances and publish any recordings I may make of them, and, unwillingly and unhappily, continue the articles.

Read about the MI5 Persecution on the Web

Keith Hill MP (Labour - Streatham), my elected representative, as ever refuses to help.

MI5 Refuse to Allow me to have a Normal Life

Its kind of difficult to contemplate having a normal existence when you know your entire house is bugged from top to bottom, for audio and, very unpleasantly, video; when your employment is systematically destroyed, over and over again; when every time you leave the country your travel is disrupted by MI5 plants on the plane yelling abuse at you..... you get the idea. I would like to have some semblance of a normal life, like my Polish and English friends do. But MI5 have made this impossible, and they have leached massive resources from the taxpayer to institute a life not worthy of the name on me.

A few years ago MI5 were very open about their aims in persecuting me. They were shouting "suicide" at me, both in Canada where I lived at the time, and during my occasional visits to London. You cant get much clearer than that. There have been instances as recently as a few weeks ago of this intention being voiced by their side; on 15 April 1999, a woman at the next ticket counter at the Royal Festival Hall said;

"it would kill it, you know, it would just be overkill... they can't stop can they"

meaning that "they" were trying to "kill it" i.e. me and they "cant stop". The audio file is at;

I wonder why they "cant stop". Nobody (who doesnt know already) believes my claims - so what difference would it make, if they were to "stop" persecuting me? Perhaps what this persons remarks indicates, is the depth of the obsession MI5 have with this case. They have chosen at random a person from the general population, and done their worst to ruin my life. What is wrong with these people, that they persecute a national of the country whose citizens they are supposed to protect?

No Chance of a Harassment-Free Job

Since the harassment started in 1990 I have had three jobs, the first near Guildford, the second in Oxford, and the third overseas in Canada. All three jobs have been systematically destroyed by MI5. It is so ironic that MI5 employs a team of agents, each well compensated for their efforts, to persecute just one person paid a mere fraction of what they get for their "work". In fact, it is a joke that MI5 is allocated resources for this sort of effort. If this area of government were run along commercial lines then MI5 would be very rapidly closed down, they produce nothing of any value, instead spending their time obsessed with the bugging and surveillance of their former employees like Shayler, dangerous subversives like Straw and Mandelson, and "threats to national security" like yours truly.

Applying for my first post university job

When I was applying for my first post-university job in the closing months of 1990, I found at two or three job interviews that MI5 had got there ahead of me. Interviewers knew what words to repeat from what had been said at my home recently; MI5 had supplied them with words to hurt me, and the "British secret police" were trying to wreck my job search and discourage me from joining the world of work. This and the continuing harassment in the media and by the public meant that the search for a job took very much longer than it would ordinarily be expected to take for a person with my qualifications.

With my first job near Guildford came the knowledge that MI5 were doing everything possible to make me lose the job. Despite their efforts I managed to stay in work for ten unhappy months, during which they made very clear to me that they were bugging my workplace, my accomodation in Woking, my car, my home..... and they also made clear that they had "got to" my employer in Guildford.

Employment with Oxford

I was able to find a new job, with Oxford Computer Training Services (now ARIS/Oxford), quite quickly. But it became very clear, very quickly, that MI5 were treating this job the same as the first; they tried to get the other employees and in particular the managers to attack me. It was plainly MI5s intention that I be sacked fro this job. But I was not sacked; instead, after almost a year of abuse from OCTS managers, I was forced to seek medical help, and had to take two months off for medical leave. OCTS MD Hugh Simpson-Wells was motivated in keeping me on by the fear that if he sacked me, then I would take him to court for the treatment OCTS managers had meted out to me during 1992.

Emigration to Canada

When I emigrated to Canada in 1994, I did think that perhaps MI5 would leave me alone, given that I had made the effort to leave the UK and try to find a new life overseas. I could not see any reason why they would continue to harass me over in Canada. But clearly the MI5 agents had their salaries to think about, since continue to harass me they most certainly did, at my home in Ottawa, and by getting fellow employees to speak against me, as had happened with previous jobs in the UK.

MI5 are denying me a future in work

Former Chief Constable of Devon and Cornwall John Alderson had this to say regarding MI5's activities;

> "MI5 is not under the same restraints as the police. They infiltrate organisations, people's jobs and lives. They operate almost like a cancer."

Currently I am on disability, and I can see that MI5 are denying me a future in work. It would be an insult to logic for me to return to work and find a job, in the knowledge that an entire team of MI5 agents, paid in total many times what I would be earning, would have the objective of seeing me "done down" in the employment, and ejected from the place of work. This situation is completely wrong and nonsensical - I would very much like to have a job, but MI5 are preventing me from even thinking about returning to work. The culture of secrecy in MI5/MI6 means there is no objective oversight of their expenditure, when external oversight and greater transparency might lead to wasteful and illogical operations such as that against me being shelved.

Watched and Harassed at my Home and Accommodation

As you will know if you have been reading these articles, MI5 have watched and harassed me at my home, and at every accommodation Ive had since 1990. Theyve also watched me at neighbours houses in London, and at short-term accommodation such as hotels and bed-and-breakfasts. They have used the "words" gained from these watching activities against me, by passing these words on to other people such as OCTS managers for them to make clear that I am being watched where I live.

Harassed at rented rooms in Oxford in 1992

This was at its worst in 1992 in Oxford, where during the week I lived at rented accommodation in Oxford, and at weekends returned to my parents home in London. I was being severely harassed by managers at my place of work, OCTS; and it was clear from the things they said that they were being supplied by MI5 with details of my home life, that they were being supplied with words to repeat at me.

In 1992 I moved house in Oxford many times, living at a total of five rented accommodations in ten months. In January I started off living in a rented room at Headington near the ring road / A40 intersection; then when it became clear that house was being bugged, moved to a rented room in Botley, some miles away. It was at the house in Botley that I had an "interactive watching" experience with Martyn Lewis while he was reading the news; I threw a term of abuse at him; he first flinched, then gave a gsult of what I had just said, he was no longer "on my side".

So I moved house again. This time to a place in Cowley, near the Rover car works, where I stayed for a few weeks. Because of continuing harassment at work, I soon moved from this accommodation, to yet another rented room on Iffley Road. By this time I was very ill and being abused continuously at work. Again, MI5 followed me to the rented room on Iffley Road, and created new instances of "newscaster watching". There was a television in the room which I watched, and as you can guess the newscasters got at me when I was watching the television. Also once I was assaulted, if thats the word for what happened, on leaving the house; a youth grabbed me by the coat lapels, roughed me up a bit with various terms of abuse. I did not report this assault to the police, because what was happening to me at work was very much worse, and nobody seemed to think that that was worthy of being reported to the police. Later that day at work, Alex G, a fellow employee, said "I heard he was assaulted".... I had not told anyone at work about the incident that morning..... so once again it was made very clear that MI5 were watching my rented accommodation and giving information about what was going on there to managers at work.

So I moved house yet again in late autumn 1992, this time to a rented room in a large house on Woodstock Road. I stayed there for several weeks as the situation at work deteriorated due to OCTS managers abuse, until I was forced to take sick leave from work for two months and attend hospital as an outpatient; at which point I gave notice on the room, and returned to London.

MI5 continued to harass me after the diagnosis of serious illness was made. As reported previously, they harassed me on a flight to Spain in December 1992; and in 1993, when I returned to live and work in Oxford, they again bugged my rooms, as well as my workplace, although the intensity of the harassment was very much less than in 1992.

Watched, followed and harassed in Canada

It dismayed me to find that MI5 would not leave me alone after I had settled in Canada. In January 1995 I rented an apartment at the Bayshore complex in Ottawas west end. For some weeks there was no sign of the "buggers". But then it started all over again. They first bugged my car, which had a car alarm installed - the alarm went off two or three times in a single evening, and the following day gave a signal that the car had been broken into. Then they bugged my apartment, and in particular they installed bugs on the phone line in my apartment.

In September 1995 I moved to a new apartment in Ottawas Bytown Market area, the restaurant and entertainment heart of Canadas capital. This proved a serious mistake. In the west end I had been fairly distant from the centre of town where MI5 concentrated their efforts at turning people against me. In the Market area it was much easier for the persecutors to motivate people to harass me, and over the next couple of years there were frequent instances of harassment by the general public.

From 1995 I had some Polish friends in Ottawa, and as the reader can guess, MI5 have spent much effort trying to break up this friendship. They supplied various things about my home life to these friends, for example where I was living in the Market, directly over the road were the studios of a music radio station, which you had to "look up" to see; and MI5 told these friends that I was "looking up" to see the radio station; so the friends then replayed these words back to me, that I was "looking up". MI5 have also made various sexual slanders against me, and these friends also unwittingly replayed some of the words they had been imprinted with by the MI5 persecutors.

MI5 Will Never Allow Me to have a Normal Life

I have heard many excuses as to why MI5 continuously prevent me from having a normal life. We are told that MI5 are defending the country against a tere to zero.

When I have travelled abroad, they always put their people on the flights, on the journeys I undertake, to continue the harassment, so that I am put off further overseas travel, and chained to my home in London. Yet even this is illogical, because when I lived in Canada, they would still put people on flights back to the UK.... and what possible reason would they have for doing that? Perhaps the truest words to describe the MI5 persecution is that reason has nothing to do with their activities - sane people do not behave in the way the MI5 British Secret Police have been doing.

Summer 1999 - more MI5 harassment?

In only a few days time I will be going to Europe again. This time I have deliberately chosen to travel by a non-UK airline; so we will see if they put their paid agents on this foreign carrier, we will see if they try to harass me on this non-British flight.

If they do harass me on this trip to Europe, or if they resume the harassment in London after I return home, then I will continue to report their activities in these faxes. As I said at the beginning of this article, I would very much like to not have to send these articles any more, but that is not my decision to make - it is entirely up to MI5 to cease their pointless persecution of me, once and for all.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3D2/R, ROTUMA. Tony, 3D2AG, reportedly has made it to Rotuma Island and has been busy with his work assignment. By the time you read this he should be active as 3D2AG/p until end of January. Logs will be sent to Sam, FK8DD, and will be posted on: http://www.3d2ag.fr.tc/

3Y, BOUVET ISLAND (AN-002). Operator Petrus, ZS6GCM, is expected to be active as 3Y/ZS6GCM from Bouvet Island, probably for the next three months. He is with a five member team on the island and is their medic. The operator does have a vertical antenna for 40/20/15/10 meters but no amplifier. He is also a newly licensed amateur and has no experience in pile-ups. So, please go easy on him. Activity will be during his spare time only.

3 STEVE'S & W1AW. Once again the famous 3 Steve's (Steve/KF2TI, Steve/N2IFA, Steve/KB2ENF and Kurt/W2MW [aka Steve]) will be guests operating

at the ARRL station, W1AW, Wednesday December 26th, from 1700-2045z. This is their 15th annual WAS (Worked All Steve's) DXpedition to Newington, and they will be operating the following bands:

```
           30m CW  - Kurt (aka Steve)
     40/20/15m SSB - Steve, Steve and Steve
        17/10m     - Andrew/N2IFB and Eric/K2EMZ will also be operating
                     as "Steves"
```

Steve/KF2TI, states, "Hopefully condx will improve, and we will try to listen for outside the US. Packet spots will be posted." If you work any 3 operators, they will send you a beautiful, full color WAS (Worked All Steve's) certificate (suitable for framing). No QSL is needed as they will have copies of the log and send out a certificate to all those who qualify. If you want a W1AW QSL card, please send to them direct or via the bureau. The logs will be posted after January 1st on their website:

http://the3stevesarc.org/

PLEASE NOTE: This is not an officially sanctioned ARRL event. It is run for fun by the 3 Steves Amateur Radio Association - WK3SS (all rights reserved), and they are responsible for the printing and sending of the 3 Steve's and a Kurt Worked All Steve's certificate (suitable for framing). Steve/KF2TI, states, "We would like to thank the ARRL for allowing us to play with their great toys and putting up with us each year. Hope to work you then."

5H, TANZANIA. Pat, W8FV, will be returning to Mwanza sometime this week (possibly December 20th) and is expected to be active as 5H9PD until he returns stateside January 12th. Activity will be mostly on CW on 40-10 meters depending on propagation. He is going to try 80 meters but with only just 100 watts, and he doesn't know how successful he will be. He will also be active on PSK31. QSL via his home callsign.

6W & J5, SENEGAL AND GUINEA-BISSAU. Peter, HA3AUI, will once again be active from Africa and will also activate again both Senegal (as 6W2SC) and Guinea-Bissau (as J5UAP), between January 15th and April 15th. His activity from Senegal (6W) will be mostly Digital with some SSB on 160-6 meters. Activity from Guinea-Bissau (J5) will be on 30-10 meters. His operations will be limited to his spare time and possibly other available longer periods. QSL via HA3AUI direct, by the bureau, LoTW or e-QSL.

7P, LESOTHO. Belgium operators and members of the Radio Club Secunda will be active as 7P8FC from Katsdam between March 27th and April 1st (2008). Operators/members mentioned are Filip/ON4AEO, Kath/ON7BK, Gert/ZS6GC, Sid/ZS5AYC, Lucas/ZS6ACT, Tom/ZS6TMO, Adele/ZR6AP, Steffi and Elna. Activity will be on 80-10 meters. Here are the following suggested frequencies and modes:

SSB - 3780, 7063, 14185, 18136, 21290, 24930 and 28490 kHz
RTTY - 3590, 7040, 14084, 18104, 21084, 24924 and 28084 kHz
PSK - 7038, 14072, 18102, 21072, 24922 and 28122 kHz

QSL via ON4CJK. More details will be forthcoming once their new Web site is complete at: http://www.7p8fc.be

C4, CYPRUS. Look for members of the Pafos District of the Cyprus Amateur Radio Society (CARS) to be active as C4EURO throughout the new year in 2008. Activity is to celebrate the official currency of the Republic of

Cyprus changing from the Cyprus Pound to the Euro on January 1st. Look for operations to be on the HF and VHF bands, CW, SSB and the digital modes. QSL via 5B4AGC.

E4, PALESTINE. Operators Mike/OM2DX, Steve/OM3JW, Rudy/OM3PC and Miro/OM5RW are now active as E4/OM2DX until December 22nd. As this was being written, they were pleasing many on 160 and 40 meters. Look for them to be active on all bands from 160-10m using CW, SSB and RTTY with two stations. QSL via OM3JW. Updates and online logs are available at:
http://www.om2dx.com/e4.html

E5, SOUTH COOK ISLANDS (Story Wrap-up). The complete story wrap-up and QSL information on the recent DXpedition to the South Cook Islands by George/K5KG (E51MMM) and Ron/KK9K (E51NNN) that took place between November 12th and December 1st, is available at: http://e51mmm.blogspot.com Their operation was on all HF bands, primarily on CW and some SSB. They concentrated as much as possible on 160m and 80m. They also operated as E51A, Multi-Two in the CQWW CW Contest, November 24-25th.

E100, IRELAND. Look for special event station EI100SI to be active from January 1st to December 31st, 2008, to celebrate the 100th anniversary of the Boy Scouts in Ireland. QSL route will be posted on QRZ.com.

FO/M, MARQUESAS ISLANDS. Operators Jouko/OH1RX, Pertti/OH2PM, Veijo/OH6KN and Juha/OH8NC will be active from Nuku Hiva (OC-027), January 9-22nd. Activity will be on 160-10 meters with a maximum of three stations running. However, they plan to concentrate on 160-30 meters. Here are the following suggested frequencies:

```
  CW  - 1822, 3502, 3523, 7008, 7023, 10108, 14008, 14023, 18068, 21008,
        21023, 24898 and 28008 kHz
  SSB - 1845, 3790, 7050, 19195, 18145, 21295, 24945 and 28495 kHz
 RTTY - 14080, 21080 and 28070 kHz
```

A Web page and callsigns will be announced later. QSL via OH2PM, direct or by the bureau.

GP4, GUERNSEY (EU-114). Members of the Barry Amateur Radio Society (GW4BRS) will activate the special club callsign/prefix GP4BRS on a number of bands and modes from April 19-26th (2008). The team so far includes club members from Wales and Germany, Glyn/GW0ANA, Curtis/MW0USK, Markus/DL9RCF, Alois/DL8RBL and Franz/DJ9ZB. QSL route is direct via manager GW0ANA or RSGB Bureau.

IOTA NEWS.........................

NA-009. Hisato, JA1DOT, is expected to be active as VY0/JA1DOT from (Zone 2) Resolute Bay, Cornwallis Island, between December 18-27th. Emphasis will be on the lower bands, SSB, CW and RTTY using a vertical antenna with 500w. Hisato does have a Web on his 2001 Dxpedition to Resolute Bay at:
http://www1.famm.ne.jp/~ndxa/pedi/vy0-2001/vy0-2001.html

NA-128. Operator Igor, VE3ZF, will be active as a VE2IDX from Orleans Island (CISA QC-007) on December 28-29th during the RAC Canada

Winter Contest. Before and after the contest he will use his regular callsign VE3ZF/2. His main suggested frequencies are 14260 kHz (daytime) and 3795/7260 kHz (during the night). SKEDs are welcome via: Igor.Slakva_at_smithsdetection.com This is a good chance to start working for the Canadian Islands Trophy (CISA Award program). Rules concerning the CISA Award program can be found at: http://www.qsl.net/ve3tpz/cisa QSL via VE3ZF: Igor Slakva, 105 La Rose Avenue, PH #1410, Etobicoke, Ontario, M9P 1A9 Canada.

OC-142. Steve, G0UIH, will be active as VK2IAY/4 from Great Keppel Island, December 16-22nd. Activity will be centered around 14260 kHz, with the possibility of some operations on 17/15 meters also. QSL via his home callsign, direct or by the bureau. Check out the following Web site for further details at: http://www.percy.me.uk

LZ130, BULGARIA (Special Event). Members of the Balkan Contest Club LZ1KZA (LZ5A) will actiavte the special event callsign LZ130LO from January 1st to March 31st (2008). Activity is to commemorate the 130th anniversary of the liberation of Bulgaria from Ottoman yoke by Russia. QSL to LZ1KZA via Bureau. QSLs are printed by Gold Print Service - http://www.lz3hi.com

A special award will be issued: European stations must establish 5 two-way contacts with LZ130LO on different bands or different modes, (for DX stations - 3 contacts). The same rules are for SWLs. The fee for the Award is 5 EUROs or 10 IRCs. Mail to: Balkan Contest Club LZ1KZA, P.O. Box 36, 4300 Karlovo , Bulgaria.

Amateur radio stations from Russia and countries whose solders took part in Russo-Turkish War of 1877-1878, like part of the Russian army will receive the award free of charge. These countries are: Armenia, Belarus, Bulgaria, Estonia, Finland, Georgia, Latvia, Lithuania, Moldova, Montenegro, Romania, Serbia and Ukraine. For these 14 countries the awards will be send to their national QSL Bureaus. Also, a QSO with LZ130LO counts for 10 points towards the "St. Teodosii Tyrnovski Award":

PLEASE NOTE - See the following Web sites for info on the war:
http://en.wikipedia.org/wiki/Russo-Turkish_War_%281877%E2%80%931878%29
http://en.wikipedia.org/wiki/Treaty_of_San_Stefano

NEW AWARD AVAILABLE. Paco, EA5OL, informs OPDX that there is a new award available. Details of the new "WORLDLAKES Award" can be found on the Web site at: http://worldlakes.info

NEW DXPEDITION VIDEOS AVAILALBE. James Brooks, 9V1YC, has released two new DXpeditions videos. They are the 2007 BS7H Scarborough Reef DXpedition and the 2006 ZL8R Raoul (Kermadec) Island DXpedition videos. These videos will provide a look at a superb behind the scenes (as well as dangerous and successful) DXpeditions. If these videos are anything like James' previous videos (which were great!), they will be a great holiday gift for the DXer in your family or DX friend, or even for your DX club's viewing. Videos are only 25 USDs. These two new videos (and his previous videos) are available at: http://www.dxvideos.com

OOOPPPSSS DEPARTMENT. Two small corrections to OPDX.836. Under "CU2, AZORES" a Web link was left out. The Web site should be:

http://ea1fch.ure.es/log_novo.htm

Also, under "SATELLITE DX REPORT (by John, K8YSE)" the AO7 satellite is an CW/SSB satellite (not an FM/SSB satellite as stated).

PA, THE NETHERLANDS (Special Event Callsigns). Look for the following special event Christmas callsigns to be activated in The Netherlands between December 20th and January 6th (2008). There will be 8 special event callsigns activated. QSL route for each special event station is via the operator. The following stations are also valid for the "Christmas 2007 Award" (See info at: http://www.pg7v.net/xmas2007):

Callsigns	Operators/QSL Managers	Callsigns	Operators/QSL Managers
PA07XMAS	PG7V	PD08HNY	PD0EMR
PC07XMAS	PA3AM	PF07XMAS	PA1WLB
PD07SANTA	PD0AT	PG07XMAS	PA7JWC
PD07XMAS	PD2J	PH07XMAS	PA4CHE

PZ, SURINAME. Operators Stan/AC8W, Hank/K8DD, Jim/KB8TXZ and Jay/W5JAY will be operating from the QTH of Ramon/PZ5RA, February 13-18th. Activity will be on all bands 160-10 meters that will include the ARRL DX CW Contest (February 16-17th) as a Multi-Single entry. Operators are currently awaiting for their callsigns. QSL info will be announced at a later date.

QSL INFO AND NEWS....................

QSL MANAGER FOUND (Update): Kelly, N0VD, reports: "Given the amount of guys that have offered their QSL managerial services, I thought it best to reply to the list rather than individually as I'm still getting offers. I was amazed at the caliber of managers that stepped forward. It was a tough decision, but I have chosen Joe Arcure, W3HNK, as my new manager. Joe seemed the best fit, and I have no doubts he will do a bang up job of cleaning up my backlog and tending to new requests in a timely manner. So, beginning immediately please send all QSL requests to W3HNK for the following calls: KE9KD, N0VD, VP5/N0VD, VP5D (2005 - present only for my QSOs. Joe also manages the original VP5D call holder), J3/N0VD, PJ2/N0VD and PJ4/N0VD. I have a handful of direct QSLs that I will be replying to shortly. If you have sent a bureau card for any of the above calls, it will be forwarded to Joe, and you should have a reply back to your bureau soon. Thanks for everybody's patience while the backlog is cleared up, and thanks to everybody for their offer. Please spread the word. 73 Kelly - N0VD"

QSLS VIA LOTW: 3X5A, T30R and T33RD

QSLS RECEIVED VIA MAIL: 3B7C, 5X1NH, 8Q7GS, A52AM, F5KAQ/P, HQ9R, JW/G3SXW, K3B, KH7XS, NH7O, RK1B/p, TA3J/0, TC2K4J, XW1A, Z36A, ZB2X, ZD7X and ZL3RG

QSLS RECEIVED VIA THE BUREAU: CS2P, CU2A, GB6WW, GB8RU, KG9N/VP9, VE3SY and VE6FI

S0, WESTERN SAHARA. Fernando, EA1BT, has been active as S05A over the past few days on 40/20 meters SSB. His length of stay is not known. QSL via EA1BT.

TN, REPUBLIC OF CONGO. Phil, 9Q1TB, showed up this past weekend as TN/9Q1TB/p on 17 and 20 meters SSB. Gabe, KP4BJD, who talked to him, was told that Phil is only running 30 watts and a "low profile antenna" from Impfondo (his QTH) on the bank of the Ubangi River. He is expected to return to Kinshasa this coming Tuesday. QSL via SM5DJZ.

V5, NAMIBIA (Topband Activity). Uli, DJ2YA, has announced that Frank, V51AS, will be active on Topband on 1826 kHz +/-, December 22nd and 23rd.

V6, MICRONESIA. Kazu/JA0VSH and his XYL Miyuki/JG0PBJ will be taking their New Year vaction on Pohnpei Islands (OC-010), Micronesia, between December 28th, and January 3rd (2008). Kaz will operate as V63KZ and Miyuki as V63MP. Also, they will use the club callsign V63BBQ. Activity will be on 160-10 meters, CW and SSB. No RTTY this time, but Kazu is interested in 160m and will use a 500w amp. Send all QSLs direct to JA0VSH: Kazuhide MARUYAMA, 1-25-49 Iruma, Chofu, Tokyo 182-0004 Japan.

XT, BURKINA FASO. Michael, F1IQH, is now active as XT2WC from Bobo Dioulasso until January 5th. Activity so far has been on 20 meters SSB (14145, 14175 and 14220 kHz). Watch after 0800z and again 1500z. QSL via F1IQH.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B7C DVD VIDEO AVAILABLE. Don, G3XTT, FSDXA Publicity Officer, informs OPDX that the 3B7C DVD is available now! Don states, ... "View a colorful and comprehensive account of life on Ile du Sud, Saint Brandon, during the 3B7C DXpedition." Neville Cheadle, G3NUG, states, "137,500 QSOs with no sunspots from the remote island of Ile du Sud - this is the story of 3B7C." The price is �12.50, USDs 25, Euro 20 or Yen 3,000 including p&p. Also included is the 3B9C Rodrigues video - two for the price of one! Each video runs for approximately 45 minutes. To order your copy, go to
http://3b7c.com
and click on "Order the Video" which has all details of payment methods.

3D2/R, ROTUMA. Tony, 3D2AG, is now very active as 3D2AG/p until the end of January. Most of his activity has been on 20 meters CW, but he has been on 20 meters SSB and 40/17 meters CW. Logs will be sent to Sam, FK8DD, and will be posted on: http://www.3d2ag.fr.tc/

4S7DXG (Illegal Operation). Victor Goonetilleke, 4S7VK, Secretary RSSL, reports: "I am sorry to inform you as the Secretary of the Radio Society of Sri Lanka that Ivan, a Ukranian Ham, is operating without a valid licence. He had a Sri Lankan callsign from a previous occasion, and he applied for a renewal which has not been granted yet from the Ministry of Defense. In the meantime he is stealthily operating and also claiming to operate from IOTA 171 Barbaryn Island which needs special clearance from the Harbour Master which he hasn't received, while operating from elsewhere in Sri Lanka, again without a valid license. No one is permitted to land without this clearance on Barbarine. We have brought this to the notice of the authorities. Last time when he was in Sri Lanka he operated with his Maldivian callsign while in Sri Lanka. We are sad to say that any contacts by him should not be counted as valid."

3Y, BOUVET ISLAND (Update). Rhynhardt, ZS6DXB, reports (edited):
"On December 19th, Petrus, ZS6GCM, was granted temporary permission to operate an Amateur Radio Station for the duration of the 2007/2008 scientific expedition from Bouvet Island. The callsign will be 3Y0E.
We would like to use this opportunity to thank Tom V. Segalstad, LA4LN, and Trond Olsen, LA8XM, for the wonderful help and time they dedicated in obtaining permission to operate from Bouvet Island. Secondly, we would

like to welcome Colin McGowan, MM0NDX, to the team. Colin has donated a dedicated Web site for the expedition and will act as the webmaster. We are hoping to receive regular logbook updates from Petrus via satellite phone and will have a logbook search page where you can look if you are in the log. The official 3Y0E operation Web page address is:
http://www.3y0e.com
The site is under construction, and we plan to have it fully operational in a couple of days. Feel free to visit the site on a regular basis for the latest news from Petrus. Emil Stoikov, LZ3HI, has begun design on the 3Y0E QSL card. Emil has donated the QSL card design and printing free of charge. He will also act as the official QSL Manager for 3Y0E. Previews of cards that were designed and printed by Emil can be found on his Web page at: http://www.lz3hi.com
We look forward to present you all with the official QSL card when it is done. 3Y0E QSL information is: Emil Stoikov, P.O. Box 8, 6000 Stara Zagora, BULGARIA. Petrus will be notified via Satellite phone of his new callsign and permission to start operating. We certainly look forward to bring you more exiting news in the near distant future." Just a reminder, operator Petrus, ZS6GCM, is expected to be active from Bouvet Island, probably for the next three months. He is with a five member team on the island and is their medic. The operator does have a vertical antenna for 40/20/15/10 meters but no amplifier. He is also a newly licensed amateur and has no experience in pile-ups. So, please go easy on him. Activity will be during his spare time only. Also, Rhynhardt, ZS6DXB, is the 3Y0E Pilot Station and Media Officer. His E-mail address is:
zs6dxb@kats.za.net

5Z, KENYA. Ben, DL7UCX, will be active as 5Z4/DL7UCX from December 31st through January 12th. Activity will be on 160-17 meters, mainly on CW and a focus on the lower bands. This will be a holiday style operation using 400 watts into a 18m vertical. QSL via DL7UCX, by the bureau or direct.

8Q, MALDIVES (AS-013). Andrew, G7COD, will once again be active from Embudu Island, South Male Atoll (WLOTA L-3911), using the callsign 8Q7AK between January 21st and February 2nd. This will be the fourth time being active from here. Activity will be mainly SSB with some CW. He plans to be operational everyday (approx.) between 0900-1100z, 1400-1600z and 1800-1830z. Suggested frequencies are: 7093, 10123, 14147, 18133, 21253 and 24953 kHz (+/- 10 kHz). For complete details of operating times, suggested frequencies, QSL information etc...., please check 8Q7AK on QRZ.com. QSL via G7COD, direct or by the bureau.

9H, MALTA (EU-023). Horst, DJ6OZ, will be on holiday and active as 9H3HW between December 23rd and January 5th (2008). QSL via DJ6OZ, by the DARC Bureau or direct.

9L, SIERRA LEONE. Norbert, 9L1FZ, is currently is active and has been heard 20 meters SSB. His transmitter varies with output using 60-100 watts (depends on battery voltage). His antenna system is a homemade loop 20'x60' with SGC automatic tuner, estimated 10 ft. above ground (medium dry soil and rock), with tropical vegetation around and above. We were told the QSL info is via " qsl.9l1fz@mac.com ".

BS7H VIDEO REVIEW (by Editor Tedd, KB8NW). "Let me first say I am a big fan of James Brooks's, 9V1YC, videos. They are all PBS quality videos. If you worked the last BS7H operation in May of 2007 (or even if you didn't), you will want this DVD for your collection. There are 58 minutes of pure pleasure in knowing you worked a rare one (or at least tried to). The video gives you the complete lowdown on how Scarborough Reef became DXCC's most controversial entity, the history of the island, past operations, the difficulties of operating from there and the actual operating conditions. This only touches the surface of the video. James's keen eye for great cinemaphotography is unbelieveable in this DVD (probably better to view it on a big screen). The underwater shots and the sunsets and rises are a real joy. There are also plently of commentaries by key individuals including operators, pilot stations and past operators. You will also see how difficult and dangerous it was for the operators to operate from the four different rocks stations. You will see how operators endured skin cuts on their feet and knees while dragging their boat over the sharp coral reef between their main boat and operating positions on the four rocks. This is only a glimpse of what you will see. This DVD is definitely a five star video." The BS7H video is available at: http://www.dxvideos.com
NEXT WEEK: The review of the 2006 ZL8R DXpedition video.

CQIR WINNERS (CQ - Ireland Calling). A press release by Paul Martin, EI2CA, the P.R.O. for the IRTS, announced the following winners of the "CQIR - Ireland Calling" on December 19th: "In September 2007 the IRTS (Irish Radio Transmitters Society) organised 'CQIR - Ireland Calling', a contest to celebrate the society's 75th anniversary - giving a chance of winning a trip to Ireland, for 2 people, for each and every 75 valid QSOs logged. There were 53 entries in the draw, representing 20 countries - all the way from GW to ZL - and the winner is Ian "Wilf" Prater, M0WLF, of Bristol, England. He had over 300 QSOs and qualified for 4 entries. Wilf is a member of the Bristol Contest Club and has previously visited EI for the IOTA Contest. He can now look forward to a week in Kinnitty Castle, County Offaly. Living in Bristol, Wilf may be closer to Ireland than any other entrant, but he says he will probably travel long path this time. EI/GI entrants had a separate draw for a trip to New York City for two people, to include a visit to the ARRL HQ in Newington, Connecticut. The winner is Declan Horan, EI9FVB, of Ballincollig, County Cork. Declan had 175 QSOs and 2 entries in the draw. IRTS thanks all who took part in CQIR. We're only sorry we can't offer the same prizes every year."

CQ MAGAZINE NEWS (St. Barthelemy [FJ] to Count for CQ DX Awards). From the CQ Newsroom: "CQ DX Awards Manager Billy Williams has announced that the Caribbean island of St. Barthelemy - prefix FJ - has been added to the CQ DX Awards entity list, effective immediately, for confirmed contacts with the island made on or after February 21, 2007. For purposes of the CQ DX Field Awards, St. Barthelemy is in grid field FK.

Until now, the island (along with surrounding smaller islands) has been considered part of French St. Martin (FS) for awards purposes. Last February 21st, the French government gave St. Barthelemy a new status as an 'overseas collective', leading the U.S. State Department last Friday (December 14th) to add the island to its list of 'Dependencies and Areas of Special Sovereignty.' Presence on this list is one of the criteria used to designate a location as a separate entity for award purposes. The ARRL was expected to add St. Barthelemy to its DXCC list in the near future as well."

ADDED NOTE: Rich, W2VU, states: "Hi all - Just one note regarding FJ - For purposes of CQ awards, it is a separate entity as of Feb 21, 2007, the date that France changed Barthelemy's status. So for the CQ DX Marathon (and any other CQ awards), any contacts with FJ on or after Feb 21, 2007, count as a separate entity. I bring this up only since the DXCC date is Dec. 14, when it was added to the US State Dept.'s special list."

CU2, AZORES. Michael, G7VJR, will be active as CU2/G7VJR from Ilha de Sao Miguel (AZ-002 for the Portuguese Islands Award, WLOTA L-2016), December 26th through January 3rd. Activity will be CW only on various HF bands including 160 meters. QSL via G7VJR. Logs will be uploaded to LoTW shortly after the operation.

CY0, SABLE ISLAND (Update). The callsigns for the 6 meter DXpediton planned in 2008 between June 25th - July 5th, have been announced. Look for Sable Island (NA-063, CISA NS-004) to be activated by Pete/VE3IKV, Dick/K5AND, Chris/W3CMP, and Bill/W4TAA. Activity will be on CW and SSB. The fixed 6m station (in FN93) will use the callsign CY0X and CY0RA (for the portable station in GN03). The fixed station will use 800 watts into a 7 element beam up 40 ft. The portable 6m station in GN03 will have 100 watts into a 5 element beam up 30 ft. Other references are: Sable Island - East Lighthouse (ARLHS SAB-001, TWLHD WLH CY0-001, WLOTA:0758, WW Loc. GN03CX) and Sable Island - West Lighthouse (ARLHS SAB-002, TWLHD WLH CY0-002, WW Loc. FN93XW).

DAYTON CTU 2008 (Update - Registration). Tim Duffy, K3LR, CTU Chairman, reports: "I am pleased to announce that 'early bird' registration for Dayton ConTest University (CTU) 2008 is now OPEN. The CTU staff is working hard to prepare an interesting and informative curriculum for 2008. CTU will be held in Dayton, Ohio, on Thursday, May 15th, 2008. CTU 2008 will feature some of the best Radio Contest operators and station builders ("CTU Professors). They will present state of the art contesting topics that will increase your knowledge and fun. Thanks to Icom for their support of CTU 2008 and our contesting radio sport. For CTU 2008 details and registration, 2007 CTU wrap up and more information, go to:
http://www.contestuniversity.com
Please make sure that you click on the registration page and indicate if you are a returning CTU graduate "Graduate School" or this is your first time attending CTU. Based upon the tremendous attendance at CTU 2007, I expect the CTU 2008 student registration slots will fill up fast. Space is limited. Hope to see you at CTU 2008.... Thanks to Scott, KA9FOX, and QTH.com for his hosting of the Contest University Web site!
Merry Christmas and 73! ... Tim, K3LR"

DXCC NEWS...........................

NEW DXCC ENTITY. The following was sent out via W1AW (edited): On December 19th (in ARLD052), the ARRL DXCC Desk announced the addition of St. Barthelemy (FJ) to the DXCC List, making the island entity number 338 with an effective date of 14th December, 2007. Cards with contacts dated December 14th, 2007, or after will be accepted for DXCC credit. New card submissions for St. Barthelemy will not be accepted until January 1st, 2008, in order to allow time for administrative adjustments.

The "event date" that caused St. Barthelemy to be added to the DXCC list was December 14, 2007, the date the U.S. State Department Fact sheet was updated by the Bureau of Intelligence and Research. This update added St Barthelemy to the List of Dependencies and Areas of Special Sovereignty with its Administrative Center in Gustavia, qualifying it under DXCC rules in Section II -- 1 Political Entities (c).

French St. Martin (FS), while also added to the List of Dependencies and Areas of Special Sovereignty, will remain on the DXCC List, but it is now considered a Point 1 Political Entity under the same classification as that of St Barthelemy.

Please direct any questions you may have about St. Barthelemy, St. Martin or the DXCC program to the ARRL DXCC Desk at: dxcc@arrl.org

2007 HONOR ROLL PROCESSING: Bill Moore, NC1L, ARRL DXCC MANAGER reports: "Because of the addition of Saint Barthelemy to the DXCC List, DXCC will prepare its 2007 Honor Roll listings for a future issue of QST based upon applications postmarked no later than December 31, 2007.

END OF DXCC YEAR REMINDER! Bill Moore, NC1L, states: "This is a reminder that in order to receive the free edition of the 2007 DXCC Yearbook you must have a submission dated within the 2007 calendar year. If you do not make a submission, but you are current on the DXCC Honor Roll (current entity count of 328 or higher), you automatically qualify.

If you have made a submission in the past weeks, and you do not see it listed yet, as long as your application is postmarked on or by December 31, 2007, your application will be credited for your 2007 submission. If you plan a 2008 submission, it is a good idea to wait until January to mail it.

We here at DXCC would like to take this time to wish you and your families a Happy, Healthy, Safe and Enjoyable holiday season and all the best for 2008! And, oh yes, good DX too!... 73 es DX!"

A NEW LOOK FOR TWO ARRL CENTURY CLUB AWARDS: The ARRL has completed the finishing touches on certificates issued through the 5-Band DXCC (DX Century Club) and VUCC (VHF/UHF Century Club) programs. The awards program staff worked with the ARRL in-house graphic designers to create a fresh new look for these traditional awards. To see the new look, visit Web pages at: http://www.arrl.org/awards/vucc

Or on the DXCC Dialog Weblog at: http://www.arrl.org/blog/DXCC%20Dialog

C56JJ GOOD FOR DXCC: Jan, PA4JJ, informs OPDX that his recent C56JJ DXpedition to The Gambia between December 1-10th has been approved by DXCC.

DX MARATHON (Update). John, K9EL, CQ DX Marathon Administrator, reports: "CQ Magazine's 2007 DX Marathon will soon come to a close. Since St. Barthelemy, FJ, was just added to the DXCC list, a new version of the DX Marathon scoresheet (V6) is now available on the DX Marathon website. However, since many participants will have already completed their sheets, we will accept the older version with FJ contact information submitted separately in an E-mail. The official DX Marathon website is:

http://www.dxmarathon.com

This years contest ends December 31, 2007, at 2359z."

FH, MAYOTTE (AF-027). Georg, DK7LX, will be active as FH/DK7LX from June 11-23rd (2008). Activity will be mostly CW on all bands with an emphasis on 80/40/30 meters. Operation will be holiday style, using vertical arrays as well as dipoles. More details will become available in 2008 and look for updates on his Web page at: http://www.dk7lx.mayotte.2008.ms/

FJ, ST. BARTHELEMY (NA-146)...................

Operators Martti/OH2BH and Olli/OH0XX continue to be active as FJ/OH2AM from this new DXCC entity (see DXCC News above) until December 27th. They have two stations active (one on SSB and one on CW) using an FT-1000MP and FT2000MP along with Fin Fet amplifier. Most of the activity over the past week as been on 20 meters SSB and 40/17 meters CW. Their goal for this operation is to give as many DXers as possible a new country. Additional bands may be added heading towards the end of the DXpedition. QSLs for this operation go via OH2BN.

Also, active this past weekend was FJ5KH. This is the club station of the "Radio Club of the Association des Radio-Amateurs de St. Barthelemy". Club members DK6ST, FJ5AB, FJ5BC and FJ1CM came on the air early Saturday morning and were expected to end on Sunday evening. DO NOT WORRY IF YOU MISSED IT! Gregg, W6IZT, is expected to join their club as a full privilege member. He will be on St. Barth between January 14-16th (2008) and will be active from their club station FJ5KH, if he finds an accomodation. QSL FJ5KH via FJ5DX (qrz.com).

Members of the RZS Amateur Radio Club (W2RZS) are currently finalizing plans to operate from the new DXCC entity of St. Barthelemy for the upcoming CQ WW WPX SSB Contes (March 29-30th). The W2RZS team will tentatively consist of Bob/WB2NVR, Mike/WA2VQW, Bob/N2DVQ and Adam/N2DHH. They will be concentrating on 160m and the 30/17/12 meters bands before and after the contest, and of course operate 80/40/20/15/10 meters during the contest. Mike/WA2VQW informs OPDX, "Our antennas will be the same as we have been using for our three previous J75 DXpeditions. We hope to get as many of you in our log as possible during our 7 day stay. Please don't hesitate to give us a call, we will look for the 'weak ones' and the MOBILES!"

GJ/MJ, JERSEY (EU-013). Operators Flo/F5CWU, Sylvain/F4EGD and Terry/F5MOO will be active as MJ/homecall, while Tom, GM4FDM, will sign GJ4FDM from the Isle of Jersey (WLOTA L0818) before, during and after the New Year week. Activity will actually take place between December 28th and January 6th, with operations mostly on the lower bands and 30/17/12 17 meters as

well as RTTY. They plan to have three stations on the air for HF and one for VHF (2 meters). They will have a Web site online with their logs at:
http://jersey2008.f5cwu.net
QSL via their home callsigns, either direct or by the bureau.

HF0, SOUTH SHETLANDS (AN-010). Marek, SP3GVX, has been on King George Island since November 2007. He is at the Polish "Henryk Arctowski Antarctic Station" managed by Polish Academy of Science (Institute of Antarctic Biology). At the moment he has many duties to perform, but he should soon be active as HF0POL. This is his 4th time there, and he is going to be there the whole year during 2008. His QSL manager is the same as last time: Tom, SP3WVL. For more info about the Arctowski Station, visit the Web page at: http://www.arctowski.home.pl
ADDED NOTE: Stan, SP3BGD, who was active as HF0POL in 1998, states that his contacts are available via eQSL and LoTW.

IOTA NEWS.......................

NA-057. Ray, WQ7R, will be active as HQ9R from Roatan Island (WLOTA L-1671), for the CQ 160-Meter CW Contest (January 26-27th) as a Single-Op/Low-Power entry. Outside of the contest look for him to be active as HR9/WQ7R. QSL both callsigns via K5WW.

OC-160. Steve, G0UIH, who recently activated Great Keppel Island (OC-142) this past week, will now activate South Molle Island (OC-160), January 7-11th. His callsign will be VK2IAY/4, the same as the previous operation, and he plans to operate mainly around 14260 kHz, with the possibility of some 17/15m operations also. QSL via his home callsign, direct or by the bureau. Check out the following Web site for further details at:
http://www.percy.me.uk

KP2, U.S. VIRGIN ISLANDS. Harry, W6DXO, will be active as KP2/W6DXO from St. John, March 24-28th. Activity will be holiday style with a focus on 20-10 meters SSB with some CW planned. Operations on 40 meters may take place if an antenna can be rigged up. QSL Manager is KF6JOQ.

What seems encrypted to you "Mike", is perfectly normal to the rest of us.
Take a look at www.tinyurl.com for a better explaination. Nice forge by
the way.

     If it isn't encrypted, then why don't you just post your eBay link,
like most normal people, so that people know what type of a site they
are going to, before they click on it?

The appropriate way of doing it is to post BOTH links. The long one may be broken but users can still see where the tinyurl will take them and decide if they want to go there.

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, ARRL W1AW Bulletins, K1XN & GoList, NG3K, W3UR & The Daily DX, AI4U, KP4BJD, N4AA & QRZ DX, N4MM, K8YSE, DX-IS News Site, Pete's-DX-Newsdesk, DK8JB, DL7MAE & The DX News Letter, F5NQL & UFT, G3XTT, F6AJA & Les Nouvelles DX, I1JQJ/IK1ADH & 425 DX News, OM3JW, PY2WAS, PY2ZA, RSGB IOTA Web Site, VA3RJ & ICPO and ZS6DXB for the following DX information.

*** SPECIAL NOTE FROM EDITOR (Tedd, KB8NW): My family (wife/OPDX's chief proof-reader Linda, son Teddy [TJ] and his wife Jessi, daughter Katie and her husband Kevin), and I (KB8NW) would like to wish all DXers, Contesters and OPDX readers a very "Happy New Year". Thanks to the many individuals who have provided DX information over the past year. Without them there would not be an OPDX Bulletin. Also, thanks to the individuals who sent holiday wishes to my family and me.....
73 and Have a Great/Safe/Healthy New Year de Tedd KB8NW
P.S. The year 2008 should be one of the most exciting years for DXers with all the upcoming new DXCC entites expected to be on the air.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3A, MONACO. Ghis, ON5NT, will be active as 3A/ON5NT from January 23-27th. His activity will be mostly during his morning and evening hours.

3Y, BOUVET ISLAND (Update). Before last weekend there had been a report by Mehdi, F5PFP, indicating that he has talked to Petrus, ZS6GCM (3Y0E), via the Bouvet Island satellite phone and was told Petrus is currently unable to transmit due to a problem with his transceiver. However, on December 30th, Petrus/3Y0E and Rhynhardt/ZS6DXB had a conversation via satellite phone. Petrus was happy to confirm that the radio and antenna are working. He made a couple of contacts on December 30th with some ZS and PY stations. Rhynhardt/ZS6DXB and Petrus/3Y0E will be trying a new strategy to get 3Y0E into pileups. 3Y0E will, until further notice, be calling CQ between 1600-1730z on 14200 kHz only. 3Y0E will work simplex until Petrus gets more acquainted with the radio equipment. Please note that no pre-arranged skeds "contacts" can be arranged with 3Y0E. Petrus is still having some E-mail problems, and as soon as they are resolved, they will publish the 3Y0E logbook on the 3Y0E Web site. There has been a number of false cluster reports over the last couple of days and they urge anybody that hears Petrus/3Y0E calling CQ to record him and forward the recording to: zs6dxb@kats.za.net
The official 3Y0E operation Web page address is: http://www.3y0e.com

4X, ISRAEL. Henri, F6EAY, is now signing 4X8AY. No other details were provided. QSL via F5LGE.

6W, SENEGAL. Jacques, F6HMJ, will be active as 6W/F6HMJ from January 8-29th. Activity is usually on 80-10 meters on CW, SSB and RTTY. He will use an IC-706 MKIIG and HF9V. QSL via his home callsign.

9L, SIERRA LEONE (Update). Norbert, 9L1FZ, is currently active and can usually be found on 20 meters (14165 kHz) SSB. He informs OPDX that he will announce a QSL Manager very soon. He also tells OPDX that he can be active on all bands up to 30 MHz, from home, mobile, portable and maritime mobile. Modes of activity will be SSB, CW (please only if needed for specific diploma etc., as he is in the process of relearning after 30 years and is very slow) and all digital modes which can be covered by SCS PTC, including Pactor 3 and robust packet. Norbert adds, "I can operate crossband and duplex, as there are 4 transceivers and antennas available (remote transmitter available). I am not very active and not operating in contests but can spend a couple of hours on the radio if some folks need this rare country (don't think that there are more than 10 licences and more than 3 OMs active over here)." There is a possibility he may activate Banana Island (AF-037).

CN, MOROCCO. Didier, F4ELJ, will be active as CN4MC through January 3rd. Activity will be on 80-10 meters SSB. Most of the activity over the past weekend was on 20 meters. QSL via his home callsign.

CO8, CUBA. Eduardo, CO8LY, reports that he is very active on RTTY and PSK31 on all bands. If you need to work Cuba on any band, he is willing to make a sked for the QSO via E-mail. His E-mail address is:
co8ly@frcscu.ciges.inf.cu

D4, CAPE VERDE. Operator Yuris, YL2GM, will be active as D4C during the CQ WW RTTY WPX Contest (February 9-10th) as a Single-Op/All-Band/High-Power entry. Operator Girts, YL2KL, will be active as D4C during the ARRL DX CW Contest (February 16-17th) as a Single-Op/All-Band/High-Power entry. QSL Manager for both operations go to IZ4DPV. For latest information, check the Web page at: http://www.d4c.cc

DXCC NEWS. OPDX was informed by Gabe, KP4BJD, who received an E-mail from Phil, 9Q1TB, who was recently active as TN/9Q1TB/p, was told by Bill Moore, NC1L, that his TN/9Q1TB/p contacts are not good for DXCC.

FJ, ST. BARTHELEMY. Paul, F6EXV, reports: "Members of the KH8SI group are happy to announce their upcoming activity from the newest DXCC entity, Saint Barthelemy Island. With the help and support of FJ5DX, FJ5AB and FJ5KH, both Yuichi/JR2KDN and Paul/F6EXV will sign FJ/F6EXV (callsign used for SSB and CW) and FJ/JR2KDN (callsign used for RTTY), from January 6-20th. Activity will be on 160-10m, with beam antennas from Cushcraft, vertical and dipole antennas, Yaesu FT2000 and FT857 plus 500W amplifiers. QSL via respective home calls, OK on QRZ.com.

Please note the following:

1) F6EXV will do CW, but is not primarily a CW op. He will do his best, be patient with him.
2) Several hams have been involved in the preparations. The list would be too long but let them be thanked already for their help.
3) A Web page will be available for log checking, though access to internet will not be possible from the operating location. Do not use the clusters to ask us to QSY places, it would be a waste of time... Logs will probably be uploaded every 2 or 3 days, depending on internet access. Details to be given soon, as page is being constructed now.
4) More details will come soon."

HB0, LIECHTENSTEIN. Tom, DL2OBO, will once again be active as HB0/DL2OBO from Chalet Barsula, January 1-9th. Activity will be mainly CW with an emphasis on 160/80/40 meters using a FT-1000MP with an AL1200 amp. Look for him on 40m the first night using a verticial. He will then use 2 element wire beams for 80m and 160m toward USA following the next day(s) and a single vertical for JA/Asia (He states, "Sorry, there is no chance for the 2 element in that direction.")

HC & HC8, ECUADOR AND GALAPAGOS ISLANDS (SA-004). Peter, DL9DAK, is expected to activate Ecuador (HC) and the Galapagos Islands (HC8) during the first half of January. His planned schedule is as follows:

January 2-9th - Active as DL9DAK/HC1 from Quito, Ecuador
January 11-14th - Active as DL9DAK/HC2 from Guayaquil, Ecuador
January 15-18th - Active as DL9DAK/HC8 from the Galapagos Islands
January 19-21st - Active as DL9DAK/HC2 from Guayaquil, Ecuador

Activity will mainly be on 20/17 meters (with some 40 meters) only on the digital modes (RTTY, PSK31/63, MFSK, Feldhell and Olivia500/1000) using only vertical dipoles and 50 watts. Look for him to be active as DL9DAK/HC1 during the "ARRL RTTY Round-Up" Contest (January 6-7th). QSL via his home callsign. For more information, please visit the Web page at: http://www.dl9dak.de

IOTA NEWS...................

AS-060. Chae, HL5YI, will be active as HL5YI/4 from Sorok Island, January 18-21st. Activity will be on 80/40/20/10 meters, CW, SSB and RTTY. He will also participate in the UK DX RTTY Contest (January 19-20th). QSL via his home callsign, direct or by the bureau.

EU-011. A French team of operators lead by Tony, F8ATS, will activate St. Mary's (Grid Square IN69UV) in the Isles of Scilly group between May 15-23rd. During their stay they hope to manage a 2 hour activation from the rare Grid Square IN79jx. The callsigns to be used will be M/homecall. Activity will be on HF (160-10m), VHF(2 m) and UHF (70 cm), CW and SSB. They are expecting one or several digit operators to join them. St. Mary's also counts for the "World Lighthouse On The Air" award under the reference: WLOTA 0234. En route to St Mary's, the team will be active as homecall/m and M/homecall/m, on 40m and 2m. QSLs for all of the callsigns go via F8ATS, through the French Ref-Union Bureau (please only this bureau). For those who cannot use the bureau, Tony will accept valid IRCs and SAEs (please avoid green stamps). More information will follow.

NA-075. Richard, VA7MJR, will be active from Entrance Island (BC) between Jan 9-20th. Activity will be limited due to work, but look for him on 80-6 meters SSB. Other reference numbers are: Canadian Island Award - BC 176, Grid Square CN89cf and Lighthouse CAN-171.

SA-021. A team of Brazilian operators will be active as PW2M from Moela Island, February 1-8th. Team members mentioned so far are (alphabetical): Rolf/PY1RO, Joe/PY2EJ, Luiz/PY2OC, Alex/PY2WAS, Fred/PY2XB, Junior/PY2ZA, with administrative support by Andre/PY2MTV and Eder/PY2XAT. Activity will be on 160-2 meters, CW, SSB and the Digital modes. QSL Manager will be AI4U for foreign operators and PY2AA for Brazilian operators. There is a lighthouse on Moela Island (WLOTA 1335) and permission for the operation was granted by the Brazilian Navy. This is a rare island for IOTA.

J2, DJIBOUTI. Mal, F4FMI, will be active as J20MB between January and the end of March. Activity will be on 20/17/15 meters SSB. QSL via his home callsign.

J5, GUINEA BISSAU (Update). From a press release, the "F6KOP TEAM", who is planning a DXpedition to Guinea Bissau on Bubaque Island (AF-020 and WLOTA 1145) between January 12-21st (2008), report everything is a go. This is the same group that was active as XT2C from Burkina Faso. They hope to be able to use all their skills and experiences gained from the past XT2C operation as well as being active on as many bands as possible simultaneously. Team members located near Paris have spent a lot of time packing their equipment (antennas, coax and guys, four PA's and five transceivers, laptops, and other miscellaneous gear). The team has their licenses in hand: J5C (the official DXpedition callsign), and one for each operator's different nationalities (1 for F, OE and K). Operators are: F2JD, F2VX, F4AJQ, F5JSD, F5PED, F5TVG, F5VHQ, F8BJI, F8BUI, F8IXZ, F8PDR, F9IE, FM5CD, OE8KDK, N2WB and N6OX. Pilot stations are: Thierry/F4TTR and Bruno/F5AGB. To contact the pilot stations, use the E-mail address:

NEW OFFICERS FOR 2008. The following individuals were announced as new officers for the North Shenandoah DX Association:

President - Godfrey Miller, N8GM
V. President - Steve Cuccio, NB3O
Sec/Treasurer - John Kanode, N4MM

NEW PREFIX FOR BOSNIA-HERZEGOVINA IS NOW OFFICIAL. In an announcement by the ARRL and the ARRL Special W1AW Bulletin (ARLX008): "In response to a request from the Ministry of Communications and Transport of Bosnia and Herzegovina in August, the International Telecommunication Union (ITU) withdrew the call sign prefix allocation T9A-T9Z for Bosnia and Herzegovina and made a new allocation, E7A-E7Z. The change was made initially on a provisional basis under authority of the ITU Secretary-General and was confirmed by the 2007 World Radiocommunication Conference to be effective November 17, 2007.

According to International Amateur Radio Union (IARU) Secretary David Sumner, K1ZZ, the Ministry of Communications and Transport (BiH) held a press conference in Sarajevo on December 18 to formally announce the change. Minister Dr. Bozo Ljubic explained the desirability of changing a prefix that initially was allocated during wartime and how it was now being replaced with one that has no connection to that troubled time; similar steps have been taken with regard to passports, drivers' licenses and automobile registrations, he said. Ljubic also observed that the costs associated with the change were minimal compared to the benefits.

Amateur Radio station licenses bearing E7 prefixes will be issued beginning in January 2008, and the use of other prefixes will be phased out.

Sumner and IARU Region 1 President Ole Garpestad, LA2RR, of Norway, were invited to speak at the press conference. Accompanying them was IARU Region 1 Executive Committee member Nikola Percin, 9A5W, of Croatia. They expressed congratulations and support for the change, eliminating an issue that has complicated relations among the radio amateurs of Bosnia-Herzegovina.

Also invited to speak was Miroslav Nikse, President of the Union of Radioamateur Associations of Bosnia and Herzegovina (URAS), a recently formed umbrella organization of amateur radio associations based in different parts of the country. He thanked those involved in promoting the change. In his remarks, Dr. Ljubic pledged support from the Ministry of Communications and Transport to the umbrella organization for the development of Amateur Radio repeater and digital networks that would cover the whole of the country, enhancing emergency communications capabilities."

PZ, SURINAME. Just a reminder that the 4M5DX Group is expected to be active from Paramaribo, Suriname, January 4-11th. There will be a multi-national team of skilled and experienced operators, and their plans are to have three stations active for 10 days. They will operate as PZ5YV on all bands (160-6 meters) CW, SSB and RTTY. Team members mentioned are: Olli/OH0XX, Spiros/SV8CS, Pedro/HK1X, Alex/YV5SSB, Ramon/XE1KK, Jose/YV5TX, Diego/LU8ATX, Pasquale/YV5KAJ and Ramon/PZ5RA. They are still looking for financial assistance to help offset the costs. For more information, please visit: http://www.pz5yv.4m5dx.info/index.html
For a full colored QSL card, please QSL via IT9DAA (direct or by the bureau).

QSL INFO AND NEWS....................

Steve, OM3JW, reports that the complete log, as well as statistics for the recent E4/OM2DX operation from Bethlehem, Palestine, can be found at: http://www.om2dx.com
QSL via OM3JW. PLEASE NOTE: One USD does not cover return postage, but 1 IRC does. All direct requests with insufficient funds will be replied to via the Bureau.

QSL CORRECTION. The correct QSL Manager for HR9/WQ7R is AI4U. K5WW is the QSL Manager just for the HQ9R callsign.

QSLS VIA LOTW: None reported this week.

QSLS RECEIVED VIA MAIL: 3C7Y, 5L2MS, 5U5U, 5W0RE, B1Z, CO6XN, EE5E, EX2M, EY8MM, FM/JE1JKL/P, FM5BH, H40MY, J3A, J38AA, J88DR, KA3UNQ/p, KP2/K3VA, OD5/F5PTM, OX3XR, P29VCX, P29VLR, VK9WWI, XQ0X and ZL1BYZ

QSLS RECEIVED VIA THE BUREAU: DT8A, DR2006K, EE5E, GB95MGY, HP1WW, TZ5A and SV0XAO

T2, TUVALU (Also, H4). Ito "Dan", JA1PBV, who was active as H44V from the Solomon Islands last week, was expected to be active from Tuvalu (T2) starting December 28th through January 4th. However, as of press time there have not been any QSNs reported. So be listening. Dan will return back to the Solomons and be active again starting January 5th. QSL via JA1PBV.

TF, ICELAND. Siggi, TF3CW, will be active in the CQ 160-Meter CW Contest (January 26-27th) as Single-Op entry. QSL via LX1NO.

TR, GABON. Roland, F8EN, continues to be active as TR8CR from Libreville until January 12th. Activity will be mostly on 20 meters. Watch 14005 kHz after 0600z and 14191 kHz after 0700z. There is a possibility that Roland may make a short operation from an island in the AF-043 IOTA group. QSL via F6AJA or F8EN.

VP9,BERMUDA. Kurt, W6PH, will be active as VP9/W6PH again for the 2008 ARRL DX CW Contest (February 16-17th) as a Single-Op/All-Band/Low-Power entry. He will also be active during the ARRL DX SSB Contest (March 1-2nd) as a Single-Op/All-Band/Low-Power entry. QSL direct to his home callsign W6PH.

ZD7, ST. HELENA. Tom, KC0W, who recently moved to St. Helena Island in September and is active as ZD7X, announced that he will be departing the island in April 2008. He states, "This will prematurely bring to a close my eight month ZD7X operation. Thanks to the Radio Amateurs in over 225 countries with whom I have established on-the-air friendships with. The reason that I moved to ZD7-land was my dream of constructing a Big Gun Contesting/DXing station here on St. Helena Island. Unfortunately, I must now abondon this project. I WILL start again in 2008 from another desirable DX location. I will be spending the majority of my last few months as ZD7X on 75/80 meters, CW and SSB. Look for me around 3502 kHz on CW and in the DX window on SSB (+/- QRM). My QSL manager is W0MM. Please send all QSLs for ZD7X to W0MM via bureau or direct........ LoTW, eQSL or any other type of electronic QSLing WILL NOT be accepted." This past weekend Tom was heard on 160/80/20/17 meters at various times.

ZL8R DVD REVIEW. Another interesting video done by James Brooks, 9V1YC. This 46 minute video takes you to Raoul Island which is in the Kermadec Islands chain. As always, James shows you the beauty of the island. The island has a large and active volcano on it where an eruption recently took place on March 17, 2006. One scientist/conservationist died and several others were evacuated from the island. The video tells the story how the well-known ship (by DXers) called the "Braveheart" took a team of operators known as the "Microlite Penguins" to Raoul Island on a DXpedition in October that same year. James provides a view on how the team had to follow strict regulations by the New Zealand Department of Conservation before going to Raoul Island. All the equipment, clothing and gear had to be quarantined before leaving for Raoul. However, seeing that this was a "Microlite Operation", the radio equipment was light. The ZL8R operation only used 100w radios (IC-7000) and dipoles. You will enjoy the many different views from the island, and the interesting way the DXpedition team had to get their equipment on the island to operate. This DVD is definitely another "must have" for the collection. The ZL8R video is available at: http://www.dxvideos.com

MI5. Persecution: Molestation during Travel

MI5s persecution of me varies in intensity. Since 1990 it. has been steady for perhaps 80% of the time; there was a notable quiet. period in 1993, and another quiet period in Jan-Feb 1995, as well as a hiatus in the first. two months of 1999. It puzzles me that they cease and restart,. seemingly without any logic or reason. But one aspect of MI5s. activities against me which. is relatively predictable is this weeks articles topic, which is Molestation during Travel. Almost every. time I cross the Atlantic, go to the Continent or even try to enjoy a holiday in this country, you. can bet that MI5 will be there doing their utmost to. wreck it all.

This aspect of. the harassment is particularly relevant as I will be travelling to. Europe again in a months time, with naturally the Minidisc recorder in tow; so it will be interesting to. see if I can record the abuse which will almost certainly take. place, either on the Tube going to the airport, at the airport, on the flight, in the terminal building -. MI5 have previously instituted instances of abuse. at each of these locations, so. well see how much taxpayers money they waste this time, and whether it will prove. possible to capture their abuse on minidisc.

Read about the MI5 Persecution. on the Web

June 1992 in. Polands mountain resort of Zakopane

The persecution started in June 1990, and for the first two. years I stayed in the UK apart from a couple of brief. day trips to Calais. By the summer of 1992 Id had enough of being cooped up in England with. abusive fellow employees egged on by. an abusive secret police service, and decided to spend 10 days in southern. Poland, on what was intended to be a holiday at the mountain. resort town of Zakopane.

Unfortunately the psychopaths of the Security Service. were not willing to allow me to enjoy a holiday in. peace and quiet. The journey to Zakopane was. by coach from the meeting point at Londons Victoria coach station (National Express) followed by ferry followed by another coach. across Europe. As we left Victoria a youth. and his girlfriend started a loud tirade of abuse directed at "this bloke",. where the "bloke" was never named, but it was very clear that the "bloke" was myself. The youth. said "they" had. "found somebody from his school, and he was always really stressed at school, a real psycho". Again,. the label "they" was not elaborated on, but it. was clear that "they" = the persecutors from MI5. The boy also said, "he was in a bed and breakfast for only one. night and they got him". By a not unexpected. coincidence I had been in a B&B in Oxford. a week previously, which had been booked from work; other things lead me to the conclusion that the company's offices were bugged for. most of the 2 1/2 years that I was there,. so "they" would have known a room in the B&B had been booked. After a few minutes of this I went. back to where they were sitting and asked where they were travelling. The boy. named a village in France, and. the girl's giggling suddenly ceased; presumably it permeated to her brain cell what the purpose of. the boy's abuse was.

It is now very clear to me that. MI5 were trying to have me incarcerated, assaulted or killed on this. trip across Europe. The degree of verbal violence inescapably leads to this conclusion. When we arrived at. our destination, it became clear that. many people, both in our tour group and its guide, and among the ordinary residents of. the town, knew there was a movement under way to "get" me.. MI5 employed many people and significant resources for an action which they. knew would only take a maximum of ten days. A commercial operation would never have. felt able to waste such resources on such an. unproductive and temporary action; only a state-sponsored, taxpayer-funded entity. like the Security Service would be able to be so. wasteful.

To give some examples of what happened in those ten days;. I was walking in some woods outside the town, when a Polish woman, looking. at me, said the English "shit" in a strongly Polish-accented voice.. For the first three years 1990-92 MI5 had been trying to force this word on me.. Another example; I. was walking near my "hotel" when a mother said laughing to her child, "a wiesz ze to prawdziwy wariat" which means "you know hes a. real madman". And the "TV reacting" happened there. too; on Polish TV, a bemused looking journalist said to another, "to. jest sprawa Anglikow", which means "its. the concern of the English", in other words, none of our business, despite what the English are trying to force. down our throats.

Just before we left for home,. I went with some others from our group to a nearby bar. There. a man shouted at me the same sexual obscenity which MI5 have constantly. thrown at me these last three years. I think MI5 try to justify their various. terms of abuse by repeating them at me until I say them, either while conscious or while talking. in my sleep; and then they seize on my saying. those words to "prove" that the obscenities are "my fault", et cetera. This rather stupid reasoning of. theirs can actually be seen. as indicative of the psychopathic condition attributed to them in a previous article; blaming the victim for the. crime you inflict on him is how psychopaths. think.

Nor did the persecutors let up during the return. trip. Returning on the ferry over the channel, a rather insalubrious-looking guy talked to. his mates about "and you know this bloke, hes. really mad you know, hes really mad". On the National Express return coach to London, a group of five. or six young people started shouting at me. I slumped in my. seat and tried to avoid presenting a target, so they. got ever more strident - "whats the matter with you,. cant you hear us?" One of the other people who had been on the trip to. Poland asked them why they were shouting at me, and they said, "hes been to Cambridge", to which the. co-holidayer asked them, "have you been to Cambridge?" presumably thinking they were. aggrieved fellow students, but they. answered "no". Even after I left the coach at Elephant and. Castle abuse continued; in the tube station, two kids started throwing abuse at me; one of them said. to the other, "and you know he works?" to which the. other answered "yes".

Immediate Aftermath of. November 1992

As you will know. from previous articles, my manager at OCG - ARIS/Oxford, Mr Mitchell, induced a mental breakdown in me in. the months leading up to Nov/92. The diagnosis was regarded by the persecutors. as a victory for them, because. few if any people give credence to allegations of harassment when they are made by somebody suffering from schizophrenia. There. is also a bias against the mentally. ill, an "institutionalised bigotry" in society comparable to. the institutionalised racism against blacks.

However, MI5 did not let up on persecuting. me following Nov/92. In December 1992 I flew by charter jet to Alicante in Spain for two. weeks recuperation. MI5 planted one of. their people on the flight, a youth who tried to start some noises that "hes a nutter". One. of the other passengers replied, "oh hes a nutter is. he? oh well!" and the youth shut up and said. nothing for the rest of the flight. I think it would be fair to say that. the youth on the flight was embarrassed by what he had been asked to. do in making the flight "uncomfortable" for me; he sounded defensive rather. than aggressive.

My first trip to Canada in. June 1993

Ive already covered this in a previous. article so Ill just give a brief summary here. On 10 June 1993. I flew British Airways from Heathrow to Torontos Pearson Airport. On de-planing from the aircraft, one of a. group of four fellow passengers looked at me and said, laughing, "if. he tries to run away well. find him". It was quite obvious that these four men were the ones who had been harassing me since. 1990.

I did nothing to apprehend them or bring this incident to the attention. of the. airport authorities, mostly because this was my very first visit to Canada, and the last thing. I wanted was to get into a dispute before I had even finished disembarking. In retrospect, I. can see this was a terrible mistake; I should have made every effort to. detain and identify these people.

Subsequently. I have made numerous attempts to obtain the names of these people from British Airways passenger lists,. by talking to BA, through a lawyer in Ontario, through a solicitor in England, through the UK. police, and also through private detectives in the. UK. But all my efforts have come to nothing. BA have told me they keep passenger lists for a period. of seven years, so. they will still have the list for this 1993 flight. I did not see or hear anything during. the rest of my visit to Ontario in 1993 which would have lead me to believe that I was being watched or. followed.

Journey. across Canada in summer 1994

As I think Ive already said in. previous articles I emigrated to Canada in late May 1994. For six weeks between late May 1994 and early July 1994. I travelled across Canada from coast. to coast, starting in Toronto, visiting various cities and ending. up in British Columbia. I saw this both as something of a holiday, and the chance. to get to know a little better my adopted. country.

As you can guess, MI5 followed me. everywhere I went during these six weeks. In Toronto, where I started this trip in. late May, I was spoken about. by one youth to another with the words "hes an idiot", to which the other replied,. laughing sympathetically, "good luck to him".

A couple of days later I went to Montreal and stayed at. the YMCA downtown. As you can. guess (this is all so predictable, isnt it?) MI5 followed me there and bugged my room at the. YMCA. Not only that, but they managed to. set-up an instance of "newscaster reaction" from a local television station; while I. was watching a Vermont TV news programme on the set in my room, the woman reporter said, "well theyre just. tired and they. want to go home", which sounds like a pretty unprofessional thing to say until you realise she was trying to say of. me that I was the one that was. supposed to be tired, and they (ie MI5) wanted me to go home to the UK.

On the bus journey. across the North American continent, it was quite clear that MI5 were following me every step on the. way. For the first part of the journey they actually. put someone on the bus with me, a youth who said at me "that guys paranoid" and tried. to incite other passengers to attack me. I stopped for. a couple of days in Winnipeg in central Canada, and on leaving the town heard on the radio. a female presenter ranting about "insanity! insanity!". It is very tiring. travelling such a long distance by bus; I took the journey in. two steps, each of about 36 hours; and it is especially tiring when you know MI5 are watching. you and harassing you every. step of the way.

When I finally got to Vancouver,. MI5 instituted the usual harassment, in very short order. I was surprised how. quickly they were able to induce hatred towards me in elements of. the general populace; the Security Service must have employed a. number of agents and serious resources in a very. short period of time; and for no real gain, because I havent been back to BC for almost five years, so all their "work" appears to. be for nothing. In. downtown Vancouver a street person said in front of me, "theyre. all talking about him". For a few days I was staying at Pauls Guest House (345 W.14th Ave); on the day I left, the owner Paul shouted. at no-one in. particular, "hes going to Victoria" - which was quite accurate, I was indeed going to the. provincial capital Victoria on Vancouver Island. But I had not told anyone at the guest house where I. was going; I had only mentioned to my parents back in. England on the phone that I was going away from Vancouver for a few days. Which leads. me to suppose that MI5s bugging of the phone in my parents. house yielded the "intelligence" that I intended to visit Victoria, and they had. passed the information on to. Paul.

When I got to Victoria it was. again obvious that the persecutors were "doing their stuff" there as well. On the street. I was identified as being English, although I had not. said anything so my accent hadnt given me away; and returning by ferry to the mainland, I was abused by. a Canadian woman. who said, "hes a nutter! you can run but you cant hide". During my years in Canada I. have never heard the word "nutter" on any other occasion; I do not think. it is part of Canadians vocabulary; so the

Canadian woman on the ferry, who was obviously talking about. me, must have been supplied with this word by the English persecutors. And once. I got back to Vancouver, staying. at the Austin Hotel on Granville St, I listened to a conversation in. the apartment block directly opposite, and a man saying, "hes paranoid, so thats as bad. as it can be, so why are they doing this. to him?".

Holiday in the States, August. 1995

By 1995 I was living in Canada,. and in August I went down the eastern seaboard. to Florida and as far as Key West by car. As you can guess (this is all so boring and predictable, isnt it?) MI5 followed me every step. of the way.. I can see in retrospect that this must have been quite easy for them as they had my car bugged, both on. the inside to listen to anything that was. said and what radio station I was listening to, as well as what must. have been a tracker device installed to track it across long distances.

The first city I visited was Philadelphia. In. the old Congress Hall where the first US Congress assembled, the. woman guide started referring to my situation, saying that "all these people. in Europe were watching it", and they were "a little paranoid" at. this 18th-century experiment in democracy. Also I. had recently written a newsgroup post where Id described a (female) poster as "wet-nosed" (implying "canine"), and a young. girl in Philadelphia remarked, "so he thinks were dogs?" There were two. or three more. incidents during this holiday in the eastern States, including a radio station down near. Miami, showing "they" had tracked me all the way there, and were bugging. the inside of my car; but I didnt record the details and Ive forgotten some of it now.. Also down in Miami Beach a French tourist in a lift expressed support for me with the. words, "cest incroyable" ie. its incredible,. meaning that MI5s well-known actions against. me were beyond belief.

To go. back a bit, in about May/June 1995 Id visited New York, again by car, and was insulted several times by people using the same. words that had been used against me in. England. In Central Park, and elderly Englishman. (not a real gentleman - but then the Engish view of themselves as "gentlemen" etc is quite laughable). looked at me and said "idiot". And while I was eating in a streetside restaurant a New York. youth started laughing and said something like, "I cant believe it, hes actually here". - I think that was because I had had an expressed. wish to visit New York for some years before this, although after this visit I wont. be going there again for a very. long time.

Visit to Poland December 1995/January. 1996

In December 1995 I flew (BA again, unfortunately. - every time Ive flown BA one of these incidents has happened, presumably. MI5 is happier setting up harassment on British-domiciled. carrier) from Montreal to Berlin and travelled on to Poland to visit family. MI5 naturally. harassed me in Poland during my brief stay.. They followed me around and got Polish people to take part in the. harassment. In one case two Polish youths talked in front of. me saying in English (with marked Polish accents), "fucked up men, fuck you". There were also other incidents which I dont remember. too clearly since it was some. time ago.

The return flight connected through Heathrow,. and in the transit lounge MI5 again set-up harassment against me. In Poland. they were talking their abuse in English,. and in London they set Polish people after me to speak in Polish; they heard me on the phone to my. father, and said "a wiesz ze to Polski. wariat", in an almost sympathetic, inclusive fashion (translation. "you know hes a. Polish nutter"). Once on the flight to Montreal I. was again set upon by two English youths, one of whom spoke and the other listened. The aggressive "fat bastard" youth said, "if. he wants to be a wanker" (its my fault theyre. harassing me, you see), self-justification that "hes a nutter" (so we have to keep on. abusing him, because hes ill), as well as talking about. the town in Poland where I had been staying. He also said, "he doesnt. know who we are", but as already remarked in a previous article,. that was at best a half-denial of my guess expressed in internet newsgroups that the people after me were MI5. - if anything its a half-confirmation. rather than a half-denial.

These incidents are still going. on. You can hear digitised audio files of abuse on a BA flight to Berlin in. 1998 on the Web at address

On this flight they were again. attacking my mental health; "paranoid, hes paranoid" and "nutter" are discernable. The. last "during travel" contact was at Ottawa Airport on 21 July 1998,. when "Alan Holdsworth" the psychopath MI5 agent, dressed as a vagrant, was pacing. aggressively in the departure area. In three weeks I will. again be travelling to Europe; we will. see what fresh acts of molestation MI5 perpetrate during this trip.

MI5 are Afraid to Admit They're. Behind the Persecution

MI5 have issued a formal denial of any. involvement in my life to the Security Service Tribunal, as. you might expect them to; but, more importantly, the persecutors. have never denied that theyre from the Security Service, despite several years of accusations from my corner. on usenet and in. faxed articles. I am not surprised that the Security Service Tribunal found "no determination in your favour". I. am however a little surprised that the persecutors have refused to confirm. my identification of them; by doing so, they implicitly admit that my. guess was right.

"No determination in. your favour" says the Security Service Tribunal

In 1997, I made a complaint to the Security Service Tribunal, giving. only the bare outlines of my. case. I do not think it would have made very much difference. if Id made a much more detailed complaint, since the Tribunal has no ability to perform investigatory functions. It can only ask. MI5 if they have an interest. in a subject, to which MI5 are of course free to be "economical with the truth". A couple of months after. my complaint the Tribunal replied. that;

The Security Service Tribunal have now investigated your complaint. and have. asked me to inform you that no determination in your favour has been made on your. complaint.

Needless to say this. reply didnt surprise me in the slightest. It is a well established fact that the secret service are a. den of liars and the Tribunal a toothless watchdog, so to see them conforming to. these stereotypes might be disappointing but. unsurprising.

It is noteworthy that. the Tribunal never gives the plaintiff information on whether the "no determination in your favour" is because MI5. claims to have. no interest in him, or whether they claim their interest is "justified". In the 1997 report. of the Security Service Commissioner he writes that. "The ambiguity of the terms in which the notification of the Tribunals decision is expressed is intentional",. since a less ambiguous answer would indicate. to the plaintiff whether he were indeed under MI5 surveillance. But I note that the ambiguity also allows. MI5 to get away with lying to the question of their interest in me; they can. claim to the Tribunal that they have. no interest, but at a future date, when it becomes clear that they did indeed place me under surveillance and. harassment, they can claim. their interest was "justified" - and the Tribunal will presumably not admit that in their previous reply MI5 claimed. to have no interest.

"He doesnt. know who we are"

In early January 1996 I flew on a British Airways jet from London. to Montreal;. also present on the plane, about three or four rows behind me, were two young men, one of them fat and voluble, the other silent. It. was quite clear that these two had been planted on the aircraft to. "wind me up". The fat youth described the town in. Poland where I had spent Christmas, and made. some unpleasant personal slurs against me. Most interestingly, he. said the words, "he doesnt know who we are".

Now I. find this particular form of words very interesting, because while it is not a clear admission, it is only. a half-hearted attempt at denial of my guess that "they" = "MI5". Had my. guess been wrong, the fat youth would surely have said so more clearly. What. he was trying to do was to half-deny something he knew to be true,. and he was limited to making statements which he knew to be not false; so he made a lukewarm. denial which on the face of it means nothing, but. in fact acts as a confirmation of my. guess of who "they" are.

On one of the other. occasions when I saw the persecutors in person, on the BA. flight to Toronto in June 1993, one of the group of four men said, "if he tries to run away well find him". But the other. three stayed totally quiet and avoided eye contact. They did so to avoid. being apprehended and identified - since if they were identified, their employers. would have been revealed, and it would become known that. it was the secret services who. were behind the persecution.

Why are. MI5 So Afraid to admit their involvement?

If you think about it, what has been going on in Britain for the. last nine years is simply beyond belief. The. British declare themselves to be "decent" by definition, so when they engage in indecent. activities such as the persecution of a mentally ill person, their. decency "because were British" is. still in the forefront of their minds, and a process of mental doublethink kicks in, where their antisocial. and indecent activities are blamed on the victim "because its his fault were. persecuting him", and their self-regard. and self-image of decency remains untarnished. As remarked in another article some time ago,. this process is basically the same as a large number of Germans employed fifty years ago against. Slavic "untermenschen" and. the Jewish "threat" - the Germans declared, "Germans are known to be decent and the minorities are at fault for what. we do to them" - so they were able to retain the view. of themselves as being "decent".

Now suppose. this entire episode had happened in some other country. The British have a poor view of the French, so. lets say it had all happened in France. Suppose there was a Frenchman, of non-French. extraction, who was targeted by. the French internal security apparatus, for the dubious amusement of French television newscasters, and. tortured for 9 years with various. sexual and other verbal abuse and taunts of "suicide". Suppose this all came out into the. open. Naturally, the French authorities would try hard to place the blame on their victim. - and in their own country, through the same state-controlled media which the. authorities employ as instruments of torture, their view. might prevail - but what on earth would people overseas make of their actions? Where would their "decency". be then?

This is why MI5. are so afraid to admit theyre behind the persecution. Because if they did admit. responsibility, then they would be admitting that there was an action against me -. and if the truth came out, then the walls would come tumbling down. And if the. persecutors were to admit they were from MI5,. then you can be sure I would report the fact; and the persecutors. support would fall away, among the mass media as well. as among the general public. When I started identifying MI5 as the persecutors in 1995 and. 1996 there was a sharp reduction in media harassment, since people read my internet newsgroup posts and knew. I was telling the truth. The. persecutors cannot deny my claim that theyre MI5, because then I. would report their denial and they would be seen as liars - but they. cannot admit it either, as that would puncture their campaign against me. So. they are forced to maintain a ridiculous silence on the issue of their identity, in the face of vociferous accusations on. internet newsgroups. and faxed articles.

Have MI5 lied to. the Home Secretary?

In order. for the Security Services to bug my home, they would either have needed a warrant from the Home Secretary, or. they might have instituted the. bugging without a warrant. Personally I think it is more likely that they didnt apply for a warrant - I. cannot see any Home Secretary giving MI5 authority to bug a residence to. allow television newscasters to satisfy their rather voyeuristic. needs vis-a-vis one of their audience. But it is possible that the Security Service presented. a warrant in some form before a home secretary at some point in the last nine. years, for telephone tapping or surveillance of my. residence, or interception of postal. service.

So the. possibility presents itself that a Home Secretary might have signed a warrant presented to him based on MI5 lies. Just as MI5 lie to. the Security Service Tribunal, so they might. have lied to a Home Secretray himself. MI5 and MI6 are naturally. secretive services former home secretary. Roy Jenkins said, they have a "secretive atmosphere .... secretive vis-a-vis the government as well as [enemies]". Jenkins also said he "did not form a very. high regard for how they discharged their. duties".

It was only a few years ago that MI5. was brought into any sot the extraordinary thing. is that British media organisations like the state- and taxpayer-funded BBC. take such an active part in the MI5-inspired campaign of harassment. We. have after all heard of MI5 trying to bribe broadcast. journalists; but surely there must be a substantial number who are not bought or blackmailed by. the Security Services, and who take part in the "abuse. by newscasters" of their own volition? The BBC is supposed to be independent of. the government of the day as well as the Establishment in general. While perhaps it is childish to think that. the BBC is anything other than effectively. state-controlled, the degree of collusion between the BBC and the British Secret Police MI5 is. something you would not find in many. countries. Individual tele-journalists in other countries would have enough self-esteem not to. allow themselves to be controlled by their secret police -. seemingly, BBC broadcasters like Martyn Lewis and Nicholas Witchell. have such a low opinion of their employing organisation. that they see no wrong in dragging the BBCs no-longer-good. name through yet more mud, at the mere request (whether supported by financial or other inducements) of the British secret. Police, MI5.

And when challenged, these broadcasters. LIE about their involvement, with just as. little shame as MI5 themselves. The BBCs Information dept have said. that;

"I can assure you that the. BBC would never engage in any form of surveillance activity such. as you describe"

which is an out-and-out lie. Buerk and Lewis have themselves lied to. their colleagues in the BBCs Information. department over the "newscaster watching",. but unsurprisingly they refuse to put these denials in writing. Doubtless if the "newscaster watching" ever. comes to light, Buerk and Lewis will then continue to lie by lying about these denials.. So much for the "impartial". BBC, a nest of liars bought and paid for by the Security. Services!

It is obvious that the persecution is at the instigation of. MI5 themselves - they have read. my post, and only they have the surveillance technology and media/political access.. Yet they have lied outright to the Security Service Tribunal. Similarly, BBC newscasters Michael. Buerk and Martyn Lewis have lied to members of their. own organisation. The continuing harassment indicates they are all petrified. of this business coming out into the open. I will continue to do everything. possible to ensure that their wrongdoing. is exposed.

MI5 Persecution Update: Friday 11 June,. 1999

Harassment in. a pub in Clapham, Tuesday lunchtime

Once a. month, or once every other month, I meet a Polish friends of mine who. lives in Clapham North, and sometimes we go to a particular pub near where. he lives. The last time was some two months ago; I did not have my minidisc-walkman with me, and consequently. was seriously harassed by people MI5 had instructed to. harass me, in the pub.

This Tuesday, 8 June 1999, we again went to. the same pub for a pre-meal drink. This time I did have my minidisc-walkman with me.. As you can guess, we were followed into the. pub by a couple of young people (Im getting older and older -. isnt it funny how the MI5 agents all look young these days?).. They started talking about my situation, in particular some travel I had booked the previous day.. Unfortunately, they were talking fairly quietly, and my minidisc didnt. pick up their speech.

MI5s schizophrenic reasoning is that simultaneously I am very. important and worthy of. their acts of persecution, and I am also totally unimportant and their abuse of me. "doesnt matter". Perhaps they should test their agents and managers. for obsessive personalities or psychotic features in the same way as employees are drug-tested. MI5 might. lose their "worst cases" employees if some psychological testing were applied to. their recruitment. procedure.

Toothless. Watchdogs. What a Surprise.

Recently I have been engaging in. communications with two watchdogs, the Security Service. Tribunal which deals with complaints against the security service (and always clears MI5 of. any wrongdoing), and the Data Protection Registrar, which is. mandated to investigate misuse of personal data held on. computer.

In a letter to Nick Brooks, Security Service. Tribunal secretary, dated 20 April, I asked him if the Tribunal, as. an allegedly independent body, had the means to investigate complaints against. MI5 other than asking MI5 to themselves investigate complaints. To my disappointment,. his reply two weeks later answered. the question only indirectly, in the negative. Whatever the reader might think. of the merits of the case I have been. putting before you in faxed articles this last year and half, you will surely recognise that it is a significant anomaly for. the Tribunal to have no independent means of investigating complaints,. particularly given the view. expressed even by previous home secretaries that the security services. are untrustworthy.

MI5 Persecution: No Justice for the. Victims of MI5

In a previous article. I detailed the similarities between the current MI5 Persecution in England, and. other historical instances of similar persecution,. notably that by the Nazi Germans in the thirties and forties. The Germans persecuted. first the mentally ill, the epileptics and those suffering from. schizophrenia, then moved on to racial groups; in todays Britain the persecution is again. directed at those with mental illness, which the British in their cowardice find easier than taking. on racial groups as the Germans did.. But just as in Thirties Germany there was no recourse against a malign and. omnipotent state, so the MI5 Secret Police. in the modern British Fascist State allow no justice for their victims.

No. Recourse Against the Security Services Illegal Harassment

It has. become apparent to me over the last nine years just how loaded the dice. are in todays Britain, a fundamentally fascist country which masquerades as a democracy.. Britain is a democracy in name only; the Establishment, the defence and MI5 secret police are. always there, regardless of which party has been voted into power most. recently - and from "New Labours" conduct in office one. finds it difficult to tell them apart from Old Tories,. in their crackdowns on the sick and vulnerable in society.

In. thirties Germany the victims of the Nazi regime had no legal recourse against their State oppressors; and in todays Fascist. British state, the victims. of the Establishment and its MI5 Secret Police similarly have no recourse against the illegal state-funded and organised oppression.. There is supposed to be a mechanism for dealing with. MI5 crimes, in the shape of the Security. Service Tribunal and Commissioner; yet these have never found favour of a plaintiff. One. might as well ask the Nazi SS to investigate crimes against. epileptics or Jews as ask the Security Service Tribunal to investigate MI5 crimes against British citizens; it. is quite obvious what the answer is going to be,. regardless of what you say to them, and what evidence you provide. The Tribunal and Commissioner. are a mere formality, a whitewashing body to give the. Secret Services a veneer beneath which they. hide their shabby criminality.

"Institutional Racism" and Bigotry. in the Metropolitan Police

The recent inquiry into the racist murder of Stephen. Lawrence found clear evidence. of systematic and deliberate racism in the Metropolitan Police, which cannot have. surprised anyone. Commissioner Sir Paul Condon accepted a somewhat. lukewarm definition of institutional racism as being "unconscious". In truth, and this truth must surely be obvious. to anyone who has any familiarity or encountered the great. British police, the Met has not just "unconscious" racism, but very. clearly "conscious" and deliberate racism,. of the kind that would have done Thirties Germans proud. And it is a bastion of such open racism - when many. other parts of society are learning to live in a multicultural environment,. the Met is still living in the past. in its attitude to the minorities.

But in addition to. the systematic racism confirmed by the Lawrence inquiry, there is also something much more. relevant to this case, which is systematic police bigotry against the physically and mentally. disabled, which I personally have experienced in. my dealings with the police over the years. You cannot expect equal treatment if. you are mentally disabled. I tried to make a complaint. to the police in 1995 about the harassment I had been. subjected to for several years. As soon as they found out I had mental illness, they refused to even talk to me.. I tried again in March 1999; the police made various threats to. me, while ranting about. "your paranoid rubbish" in reference to the complaints expressed to them.

The police refusal to do the job they are employed and paid. to do is extremely serious, particularly as this case is highly important,. indeed key to the whole issue of. British self-perception at the end of the 20th century and the beginning of the 21st. century. Britain has lost much in the last fifty years - it. has lost an empire, it has lost its self-respect and its identity as a people. If. the MI5 persecution finally makes it into the light. and the Security Services are seen for the rather cheap bullies their behaviour indicates, it will. have a massive and harmful effect on British self-perception in the new. century.

Security. Service Tribunal - Blatant Whitewashing

A few weeks ago I. spoke on the phone to Nick Brooks, the Secretary of the Security Service Tribunal, which is. supposed to deal with cases of MI5 transgression. I asked him if the Tribunal had ever found. in favour of a plaintiff and against the Security Service. He answered that. as far as he knew, it had. not.

I also asked Mr Brooks if the. Tribunal had any means of investigating allegations of criminal activity by MI5, other than asking MI5. themselves if they had engaged in such activity. His rather. circuitous written reply states that the 1989 Security Service Act provides that "it. shall be the duty of every member of the Service. to disclose or give to the Tribunal such documents. or information as they may require for the purpose of enabling. them to carry out their functions under this Act". Which is a very round-about. way of saying - "No" - the Tribunal has no way of investigating. MI5 crimes - None At All.

Setting. up the S.S. Tribunal, and creating a Security Service Commissioner, was really an act of falsehood by the government.. It is generally recognised that MI5 are out of. reach of the normal criminal justice system - the police, as we. have seen, have no intesot answer to the government; in a previous article I quoted Roy Jenkins speaking of. "a secretive. atmosphere.... secretive vis-a-vis the government as well as [enemies]", and. a "lack of frankness" from MI5.

If the government wanted to, it could reform. the secret services and ensure they acted in. conformance with the laws which have been enacted for them. in the last ten years. But apparently the present government does not see any. need to ensure security service compliance with the law. As noted above, the regulatory machinery for. MI5 is deliberately weak; the Tribunal has no independent means. of investigation, and it is simply a waste of time complaining to. the Tribunal or Commissioner.

Every so often, fresh revelations come to light. of secret service transgressions. We have heard. from Shayler that MI5 bugged Jack Straw and Peter Mandelson; we have heard from Peter Wright that MI5 plotted to. see Wilson. ejected from office; yet so closed is the system of government that the law is never enforced against MI5 when they "bug. and burgle" everyone from politicians to. ordinary citizens.

No Justice. from the Legal System, either

Britain has a civil and criminal justice. system which effectively limits many complaints from being heard. For a civil. complaint to be brought before a court, you need a solicitor willing to act on. your behalf. Supposedly it is. possible to represent yourself as a Litigant-in-Pthe basis of being "frivolous. and vexatious" or "disclosing no cause for action in law".. This is exactly what happened to me in 1997 when I twice tried to take the BBC to court for. spying on me in my living room at home; my case was twice struck. out, and on the second occasion an order. was made against me that I could not bring further civil litigation against the BBC. without leave of the court.

As the reader. can guess it is quite impossible for a person with schizophrenia, who complains about the secret services and. media interfering in his life, to find a solicitor willing. to represent him in legal action against the persecutors. I have quite a lot. of evidence of the continuing persecution. which I have posted on the website, even if the evidence is quite tentative. and perhaps open to varying interpretations. But I. have tried several firms of solicitors; some of them have acted unprofessionally and abused me; all. of them have refused to represent me. My psychiatrist gave me the name of. the firm of Bindman and Partners in central London, and I have approached them twice. On. each occasion they refused. to accept my instructions. Plainly the problem with Bindmans, which they have admitted, is. their bigotry against mentally disabled people; yet this is. not just something that is wrong with Bindmans, it is something that is wrong. with the legal system as a whole, since the legal system necessitates finding a solicitor willing. to represent you in order to bring a case to court,. but it does not have a mechanism for providing a lawyer in the case where no solicitor. is willing to take on your case. So the British legal system is such. as to prevent cases such as mine from ever receiving an airing in a. court.

So much for the civil courts. But the criminal justice. system is no better. Two years ago the Protection from. Harassment Act came into force. But again, while the Act is all very well on paper, in practice. it is unenforceable in my case,. since it would require Police action to see the law implemented,. and if the police cannot even be trusted to conduct a murder investigation. competently (in the Lawrence case), then what chance is there of their investigating complaints against the. Security Service?. Of course, it would be possible for me to personally issue proceedings through a private prosecution either. against MI5 themselves, or against one or more of their media tools; but here. we see the same problems as with the civil courts,. because first of all I would have to find a lawyer willing to. act on my behalf. Litigants-in-person do exist in the criminal courts, but the Attorney General can bring. such a prosecution to an end by taking. it over and entering a plea of "nolle prossequi"; and I suspect that if I were to bring. a private prosecution against either MI5 or one of their media. tools, then this is exactly what would happen.

So much for British justice. But. if anything the wrongs that have been perpetrated on me by the British justice system are quite mild. to what others have suffered. Others have been wrongly convicted. based on police evasions and lies, and spent many years in jail. based on false charges. I should count myself lucky that despite the best efforts of. the MI5 secret police, I have. not acquired any criminal charges or convictions; which shows that. for all their resources and influence, and the clear imperfections in the British. legal system, there are still limits on how much subversion. MI5 can achieve.

The latest in a long line of. injustices

A comment I heard. during the recent scandal of the police mishandling of the. Lawrence murder investigation is that "its not as if the police themselves murdered him". This is not a particularly wise statement. to make about the case, since it could. be argued that the four alleged murderers were aided. in their crime by the expectation that the police would. deliberately botch the investigation - which of course is exactly what. the police did.

But in my case, this would be a completely inaccurate thing to say. - since the MI5 secret-police have expressly been trying to. nine years now to see an end put to my life, either by having me. incarcerated and my liberty ended, or by forcing self-termination on me. It is exactly. as if the secret police "themselves murdered [me]", since. that is what their aim is in their campaign against. me.

The public has heard of instances of police mishandling. of cases, of police manufacturing evidence, lying. in court, extracting false confessions to clear up. crimes, et cetera. Various instances of extra-legal activity by the secret services have also. come to light in the last few years.. The unhappy truth is that what MI5 have been doing to me for the last nine. years is really nothing out of the ordinary for them. To me it seems. unbelievable that this sort of systematic campaign of harassment, which thousands and thousands of. people in this country and abroad are well. aware of, could exist for such a long period of time with the media maintaining "omerta". But my case is not the. first such instance of persecution by. the "British secret police", and judging by the lack of any real controls on MI5, I very much doubt. it will be the last.

MI5 Have Systematically. Destroyed My Life

This is getting depressing. From the feedback Ive received, the. recipients of these faxes. are tired of hearing my complaints, and in truth I am tired of sending them. The reason I havent yet ceased. sending faxes is because I cannot think of any other effective means of replying to MI5s. actions against me, and I feel I have to. do something to try to defend myself. Three/four years ago I. got the MI5 harassment out of my system by posting about it on Internet newsgroups,. and for a few months this tactic was quite effective. - I received (and indeed still do today) support from newsgroup regulars, and felt I. could make my voice heard and break the MI5 monopoly on access to. the British media. But that was years ago, and today nobody gives a tinkers cuss about my internet posts - so I have sought. to escalate matters by communicating directly with the. politicians who allegedly say how this country is. supposed to be run.

Of course,. its quite expensive to keep up a campaign of fax messages for many weeks. Each set of faxes. takes approx 50 hours to send over the weekend, and costs perhaps 35. My phone bill for the last. quarter was 350. These figures are naturally insignificant. compared to what MI5 have been spending against me over a similar period. It. also takes a lot of time and energy to create a new article. every week, and try and find new and fresh aspects and viewpoints on MI5s persecution of me. I. am beginning to run out of both new topics and. energy to write these articles.

So I. have a suggestion to put before the MI5 persecutors who have been wrecking my life since 1990. In a few days time I will be going on. holiday to Poland and Germany, for a couple of weeks.. Previously, almost every time I have travelled. by plane, or gone anywhere on holiday, the MI5 "wreckers". have been most assiduous in destroying these trips. My suggestion is; if MI5 leave me alone on this. next trip, I will cease transmitting these articles.. If, however, there are any clear instances of harassment (and I am very capable of recognising. MI5 harassment when I see it), then I will make. public these instances and publish any recordings I may make of them, and, unwillingly. and unhappily, continue the articles.

Read about the MI5 Persecution on the. Web

Keith Hill MP (Labour - Streatham),. my elected representative, as ever refuses. to help.

MI5 Refuse to. Allow me to have a Normal Life

Its. kind of difficult to contemplate having a normal existence when you know your entire house is bugged from top to bottom,. for audio and, very unpleasantly, video;. when your employment is systematically destroyed, over and over again; when every time you leave the country. your travel is disrupted by MI5 plants on the plane yelling abuse at you...... you get the idea. I would like to have some semblance. of a normal life, like my Polish and English friends do. But MI5 have made this. impossible, and they have leached massive resources from the taxpayer. to institute a life not worthy of the name. on me.

A few years ago MI5 were very open. about their aims in persecuting me. They were shouting "suicide" at me, both in Canada. where I lived at the time,. and during my occasional visits to London. You cant get much clearer than that. There have been instances as recently as a. few weeks ago of this. intention being voiced by their side; on 15 April 1999, a woman at the next ticket. counter at the Royal Festival Hall said;

"it would kill it, you know, it would. just be overkill... they can't stop can. they"

meaning that "they" were. trying to "kill it" i.e. me and they "cant stop". The audio. file is at;

I wonder. why they "cant stop". Nobody (who doesnt know already) believes my claims -. so what difference would it make, if they were to "stop" persecuting. me? Perhaps what this persons remarks indicates, is the depth of the obsession MI5 have with this case.. They have chosen at random a person from the general population, and done their worst. to ruin my life. What is wrong with these people, that they persecute a. national of the country whose citizens they are supposed to. protect?

No Chance of a Harassment-Free. Job

Since the harassment started. in 1990 I have had three jobs, the first near Guildford, the second in Oxford, and the. third overseas in Canada. All three jobs have been systematically destroyed by MI5.. It is so ironic that MI5 employs a team of agents, each well compensated. for their efforts, to persecute just one person paid a mere fraction of. what they get for their "work". In fact, it is a joke that MI5 is allocated resources for. this sort of effort. If. this area of government were run along commercial lines then. MI5 would be very rapidly closed down, they produce nothing of any value,. instead spending their time obsessed with the bugging and surveillance of their. former employees like Shayler, dangerous subversives like Straw and Mandelson, and "threats. to national security" like yours truly.

Applying for my. first post university job

When I was applying for my first post-university job in. the closing months of 1990, I found at two or. three job interviews that MI5 had got there ahead of me. Interviewers knew what words to repeat from what had. been said at my home recently;. MI5 had supplied them with words to hurt me, and the "British secret. police" were trying to wreck my job search and discourage me from joining the world. of work. This and the continuing harassment in the media and by the public meant that the search. for a job took very much longer. than it would ordinarily be expected to take for a person with. my qualifications.

With my first job near Guildford came the knowledge that MI5. were doing everything possible to make me lose the job. Despite. their efforts I managed to stay in work. for ten unhappy months, during which they made very clear. to me that they were bugging my workplace, my accomodation in Woking, my car, my. home..... and they also made clear that they had "got to" my employer in. Guildford.

Employment. with Oxford

I. was able to find a new job, with Oxford Computer Training Services (now

ARIS/Oxford),. quite quickly. But it became very clear, very quickly, that MI5 were treating this job the. same as the first; they tried to get the other employees and. in particular the managers to attack me. It was plainly MI5s intention that I be. sacked fro this job. But I was not sacked; instead, after almost a year of abuse from OCTS managers,. I was forced to seek medical help, and had. to take two months off for medical leave. OCTS MD Hugh Simpson-Wells. was motivated in keeping me on by the fear that if he sacked me, then I. would take him to court for the treatment OCTS managers had meted out. to me during 1992.

Emigration to. Canada

When I emigrated to Canada. in 1994, I did think that perhaps MI5 would leave me alone, given that I had. made the effort to leave the UK and try to. find a new life overseas. I could not see any reason why they would continue to harass me over. in Canada. But clearly the MI5 agents had their salaries to think about, since continue. to harass me they most certainly did, at my home in Ottawa,. and by getting fellow employees to speak against. me, as had happened with previous jobs in the UK.

MI5 are denying me a future in. work

Former Chief Constable of Devon. and Cornwall John Alderson had this to say regarding MI5's. activities;

"MI5 is not. under the same restraints as the police. They infiltrate organisations, people's jobs and lives. They operate almost. like a cancer."

Currently I am on disability, and I can see. that MI5 are denying me a future in work. It would be an insult to logic. for me to return to work and find a. job, in the knowledge that an entire team of MI5 agents, paid in total many times what. I would be earning, would have the objective of seeing me "done down" in the employment, and ejected. from the place of work. This situation is completely wrong and. nonsensical - I would very much like to have a job, but MI5 are. preventing me from even thinking about returning to work. The culture of secrecy. in MI5/MI6 means there is no. objective oversight of their expenditure, when external oversight and greater. transparency might lead to wasteful and illogical operations such as. that against me being shelved.

Watched and Harassed at my Home. and Accommodation

As you will know if you. have been reading these articles, MI5 have watched and harassed me at my home, and at every accommodation. Ive had since 1990. Theyve also watched. me at neighbours houses in London, and at short-term accommodation such as. hotels and bed-and-breakfasts. They have used the "words" gained from these watching. activities against me, by passing these words on to other people such as OCTS managers for. them to make clear that I am being watched where. I live.

Harassed. at rented rooms in Oxford in 1992

This was at its worst in 1992 in Oxford, where during the week I lived. at rented accommodation in Oxford, and at weekends returned. to my parents home in London. I was being severely harassed. by managers at my place of work, OCTS; and it. was clear from the things they said that they were being supplied by MI5 with. details of my home life, that they were being supplied with. words to repeat at me.

In 1992 I moved house. in Oxford many times, living at a total of five rented accommodations in ten. months. In January I started off living in a rented. room at Headington near the ring road / A40 intersection; then when it became clear that house was being bugged, moved. to a rented room in Botley, some miles away. It was at the house in Botley that I. had an "interactive watching" experience. with Martyn Lewis while he was reading the news; I threw a term of abuse. at him; he first flinched, then gave a gsult of what I. had just said, he was no longer "on my side".

So I moved house. again. This time to a place in Cowley, near the Rover car works, where I stayed. for a few weeks. Because of continuing harassment at work, I soon moved from this accommodation, to yet. another rented room on Iffley Road. By. this time I was very ill and being abused continuously at work. Again, MI5 followed me to the. rented room on Iffley Road, and created new instances of "newscaster watching". There was a television. in the room which I watched, and as you can guess the. newscasters got at me when I was watching the television.. Also once I was assaulted, if thats the word for what. happened, on leaving the house; a youth grabbed me by the coat lapels, roughed. me up a bit with various terms of abuse. I did not. report this assault to the police, because what was happening to me at work was very much worse,. and nobody seemed to think that that was worthy of being reported to the police. Later that day at work, Alex G,. a fellow employee, said "I heard he was assaulted".... I had not told anyone. at work. about the incident that morning..... so once again it was made very clear that MI5 were watching my rented accommodation. and giving information about what. was going on there to managers at work.

So I moved house yet again in. late autumn 1992, this time to a rented room in a large house on. Woodstock Road. I stayed there for several weeks as the situation at work deteriorated due to OCTS managers abuse,. until I was forced to take sick leave from work for two months and attend hospital. as an outpatient; at which point I. gave notice on the room, and returned to London.

MI5. continued to harass me after the diagnosis of serious illness was made. As reported previously, they harassed. me on a flight to Spain in December 1992; and in 1993,. when I returned to live and work in Oxford, they again bugged my rooms, as well as my workplace,. although the intensity of the harassment was very much less than. in 1992.

Watched, followed. and harassed in Canada

It. dismayed me to find that MI5 would not leave me alone after I had settled in Canada. In. January 1995 I rented an apartment at the Bayshore complex. in Ottawas west end. For some weeks there was no sign of the "buggers". But then it started all over again. They first. bugged my car, which had a car. alarm installed - the alarm went off two or three times in a single evening, and the following day gave a. signal that the car had been broken into. Then. they bugged my apartment, and in particular they installed bugs on the phone line. in my apartment.

In September 1995. I moved to a new apartment in Ottawas Bytown Market area, the restaurant and entertainment heart. of Canadas capital. This proved a serious mistake. In the west end I had been fairly. distant from the centre of. town where MI5 concentrated their efforts at turning people against me. In the Market. area it was much easier for the persecutors to motivate people to harass me, and over the next. couple of years there were frequent instances of. harassment by the general public.

From. 1995 I had some Polish friends in Ottawa, and as the reader can guess, MI5 have spent much effort trying. to break up this friendship. They supplied various things about my home life. to these friends, for example where I was living in the Market, directly. over the road were the studios of a music radio station, which you had to "look up" to. see; and MI5 told these friends that. I was "looking up" to see the radio station; so the friends then replayed these words back to. me, that I was "looking up". MI5 have also made various sexual slanders against. me, and these friends also unwittingly replayed. some of the words they had been imprinted with by the MI5. persecutors.

MI5 Will Never Allow Me. to have a Normal Life

I have heard many excuses. as to why MI5 continuously prevent me from having a normal life. We are told that MI5 are. defending the country against a tere. to zero.

When I have travelled abroad, they always put their people on the. flights, on. the journeys I undertake, to continue the harassment, so that I am put off further overseas travel, and chained. to my home in London. Yet even this is illogical, because when I lived. in Canada, they would still put people on flights back to the UK.... and what possible reason would. they have for doing that? Perhaps the truest words to. describe the MI5 persecution is. that reason has nothing to do with their activities - sane people do not behave in the way the MI5 British Secret. Police have been doing.

Summer 1999 - more MI5. harassment?

In only a few days. time I will be going to Europe again. This time I have deliberately chosen. to travel by a non-UK airline; so we will see if they put their paid. agents on this foreign carrier, we will see if they try to harass. me on this non-British flight.

If they do harass me on this. trip to Europe, or if they resume the harassment in London after I return. home, then I will continue to report their activities in these faxes. As I. said at the beginning of this article, I would very much like to not have to send these articles. any more, but that is not my decision to make - it is entirely. up to MI5 to cease. their pointless persecution of me, once and for all.

MI5 Persecution. Update: Friday 9 July, 1999

Harassment. in Poland, July 1999

And still it continues.... in my last fax I said. that provided MI5 made no attempts at harassment during my two-week holiday this. summer, or after I returned to. England, then I would discontinue these faxes. Unfortunately MI5. have continued to harass me, both during the holiday and after my return to London. I really dont want to continue these. articles, since they take up so much time and. effort, not to mention expense; but the Security Service wont even let me have a. holiday in peace and quiet, so I have to make further efforts. to bring their activities out into the open.

In early July I. visited my aunt and her family in Poland. On Saturday 3 July 1999, I went to a family barbecue at an allotment. outside the city. One of my aunts family has previously shown himself to be in. the "enemy" camp, by saying the Polish equivalent. of "something wrong with him", and. various other unprovoked insults. It is disappointing that one of my family could forsake the usual ties of. blood and take part in the actions against me, but thats the way it. is. This guy turned up at the barbecue, and started making insults against me.. In particular, he started to say. something about the video camera which I had brought along on the trip, and. the relevance of the video-camera to my fight against the persecution. It seemed pretty. obvious to me that my enemies had told him to. turn up to this occasion, and most likely schooled him in precisely what words to say; since hes. an unintelligent person and would not be able. to think for himself what insults to make against me.

Harassment in London, week ending Friday 9 July. 1999

Got back to London Wednesay afternoon. Two incidents on. the Underground returning from the airport. Unfortunately I wasnt. recording because I wasnt expecting trouble,. so these slipped through the net. One of these was verbal sexual abuse, of the type Ive. heard many, many times before these last. three-and-a-half years.

Yesterday, Thursday 8/July/1999, I switched on. Heart FM which had never "got at". me before.... and the presenter started making jokes about "mad, crazy" etc. Again,. wasnt recording this because Id never had any trouble from. this radio station and wasnt expecting any.

Also. yesterday, on a bus (155?) from Balham to Clapham, a couple of girls started harassing me with taunts of "crazy". By now I. was expecting trouble and recorded an audio. file of this instance of abuse, at web URL;

The. cynical reader might think my demeanour or behaviour had given rise to the. taunts of "crazy" recorded above. But I assure you my behaviour on the bus would not have made. anyone think I was ill; and the taunts the previous day were the same sexual words as previously; so I'm quite. sure that these incidents are either. deliberately staged, or indicative of an overall high level of awareness among the London public, particularly. in the part of London where. I live.

Keith Hill MP (Labour - Streatham), my elected representative, as. ever refuses. to help.

MI5 Persecution:. Harassment through the Radio

One of the aspects of the MI5. persecution has been harassment through the broadcast and print media; and. one of the aspects of harassment through the. broadcast media is being "got at" by radio presenters. This being "got at" from the radio takes various. forms, the most obvious form being through overt or hidden words and insults. But. there are other, subtler forms. In Canada a couple of years ago, I used to listen to the. local radio stations every morning driving to work, and listened to. the music only, switching between radio station presets rapidly as. soon as a presenters voice came on, so that I would not be subjected to. any verbal

harassment by the D.J.s. But they found a way around this;. they kept on playing the same song, every. bl**dy morning at the same time, which had the words "all coming back to me"; the perceptive. reader will remember that. the words "coming back" have special meaning (see the Private Eye cover. at web URL; for the
hidden. meaning).

And thats. not the only time theyve allowed the songs themselves to be used as abuse against me; many years. ago Radio-1 in the UK did exactly the same, and the DJ even made it explicitly. clear by saying, "dont you sometimes feel as if the. songs were made just for you".

"We should be done for attempted manslaughter". says Chris Tarrant

Capital Radio DJs have been "in on it" from. the start. One of the first things I heard in the summer. of 1990 was from a Capital DJ who said, "If he listens to Capital then he can't be all bad". (supportive, you see. We're not bastards). Much of what came over the. radio in 1990 is now so far away the precise details have. been obliterated by time. No diary was kept of the details, and although archives if they exist may. give pointers, the ambiguity of what broadcasters said. would leave that open to re-interpretation.

In spring. 1994, Chris Tarrant on his Capital morning show made an aside to someone else in the studio, about a. person he didn't identify. He said, "You know this bloke? He says we're trying to kill. him. We should be done for. attempted manslaughter".

That mirrored something I. had said a day or two before. What Tarrant said was understood by the staff. member in the studio he was saying it to; they said, "Oh no, don't say that". to Tarrant. If any archives exist of the morning. show (probably unlikely) then it could be found there; what he said was so out of context that he would. be very hard put to find an explanation. A couple of days later, someone at the site where. I was working repeated. the remark although in a different way; they said there had been people in a computer room when. automatic fire extinguishers went off and those people. were "thinking of suing for attempted manslaughter".

Pirate Radio "gets. at" me

In another incident in. 1990/91, Id been listening to a pirate radio station in South London. for half an hour, when there was an audible phone call in. the background, then total silence for a few moments, followed by shrieks of laughter. "So what. are we supposed to say now? Deadly torture? Hes going to talk. to us now, isnt he?" which meant that they could hear what I would say in my room. Note the word "deadly". - they give away their. purpose.

It constantly surprised me that MI5 are so. easily able to subvert broadcasters, and, in this case of the pirate station, to do so,. so quickly. I think the. answer to this question is that they must have very wide contacts. in the broadcast media; presumably some or in fact many of those contacts are literally "bought". In the. same way as they tried to buy Jon Snow of Channel Four news, they. must have bought many broadcasters and use them both directly to. make insults against me, and promulgate their points of view; but also, they must use. these "bought" broadcasters to influence. other television and radio presenters, who might not even be aware that it was on MI5s behalf that. they were being influenced to "get at". me.

BBC-Radio-1 D.J.s celebrate my job termination. in November 1991

This is another one from the "early years". At the beginning. of November 1991 my employment in Woking, Surrey was terminated.. Chris Tarrant of Capital-FM had already made nasty remarks. about both my work for the company, and the. managers of the company themselves - "so theyre not really a serious. company, well theyd have to be to employ you wouldnt they".

So when I was terminated, as you can expect, BBC Radio 1. D.J.s celebrated. On the Saturday. afternoon (either 9/Nov/1991 or 16/Nov/1991 - I cannot. remember precisely) I briefly listened to Radio-1 and heard the disc. jockeys loudly proclaiming "youre useless, you should be sacked". On the same day, I went down to the Kwik-Fit in Tooting to get my. cars tyres replaced, and in. the office ran into a couple of their staff, one of them with an Australian accent, who said. "what do you think about it then? Its getting killed on. the radio."

Plainly, if. a random car-repair shop in Tooting knew about the persecution, then many thousands of other people. across the capital and all over the country must have known. And. the phrase "getting killed". shows very clear awareness of what the MI5 Persecutors intentions towards me were in 1991, and. judging by the continuing harassment, still remain. today.

Recent Feedback from. Virgin-Radio

As readers will know, from mid-March 1999 for. some four months, every weekend, I have bombarded. Westminster MPs with faxes about the terrible, all-encompassing MI5 Persecution. (Jesting aside,. it really is terrible and all-encompassing, in the UK anyway.). In June 1999, after I'd been at it some three months, I. started getting "covert" feedback from Virgin Radio.

The first feedback I got was from. Danny Baker, on Sunday 13th June. That weekend. I was sending an article which contained biting criticism of the police inaction. in this case. Danny Baker on his Virgin radio show started an angry rant that "he. knows it's rubbish", ie. he was rubbishing what I'd said in that weekend's faxed article. Unfortunately I. wasn't recording this. programme.

The next possible Virgin-Radio feedback was a week later on 19th. June 1999. This is contained in the audio file above, in which. Johnny Boy on his. "Wheels of Steel" programme says;

"and. if you would like to put a triple play together, ahhh.... because quite frankly Hipster and me are. running out of ideas...."

He. goes on to counter Hipster's "how dare you" with a protestation that he is "only joking". You can listen to this incident. on my website at URL;

What I reckon is that my article faxed to MPs. that weekend was forwarded by one of the recipients to Virgin Radio. My article. had included the words;

"I am beginning. to run out of both new topics and energy to write these articles."

So what I reckon is that Johnny Boy read the article.... and. rephrased the above. line "run out of ... new topics" to "running out of ideas". I recognise that. this is a pretty tenuous inference to make.... but do listen. to the audio file, from the "ahhh...." pause in JB's speech you can guess he. is about to say something "risky" and at someone's expense. Anyway, I. listen to the Wheels of Steel regularly and will continue to do so, recording it as I always do. - so any future funny remarks will get immortalised on my website! (There was. a previous incident from August 1998 which is preserved. at web URL;

but I am sufficiently. uncertain about it that I have not included it in this. article.)

First Ever Radio Reference - Alan Freeman. of BBC-Radio-1

The first time I was ever referred. to on the radio was sometime in May or June of 1990, by Alan. Freeman of BBC-Radio-1. Note that this isnt an "interactive listening" episode, its different, this. was Freeman reading out. a letter from one of my "real life" enemies.

Id acrimoniously broken up with some former friends. in January of 1990, and I think. they were still trying to cause me trouble in June of that year. Freeman. on his rock show read out a letter from an "Andrew Turner"; one of my acquaintances from. January 1990 had been called Andy Turner, so I think its the same guy. Freeman quoted Turner as. saying various things about me, in. particular Freeman said "thats a hell of a letter you wrote there Andy", "with. a schizophrenic you're never alone", and something about the "one who wore out his welcome with. random precision" (from the words. of the Pink Floyd song).

When I was looking for. primary causes of the MI5 persecution, this letter which Freeman had read out on. his programme struck me as being potentially one of the sources of the persecution. I know Turner and. various others in that group were very bitter at what they saw. as their failure and my undeserved success, and they were quite determined to upset. the applecart. Of course several other. primary causes are possible; I do not know. why MI5 chose me as opposed to someone else, and MI5 are hardly likely to tell. me.

"Absolute Obscene" David Hepworth. of GLR

This one. Ive assigned a 100% rating on the website. There are actually two separate incidents, which are. linked through the D.J.s choice of words. The first incident can be heard in computer audio at web. URL;

On 21/Feb/1997,. I was listening to BBC GLR, by stealth. Back in 1990 I used to have Capital blaring. out of the speakers all over the garden ("if he listens to Capital then he can't. be all bad", thanks ever so much). But now I listen on my walkman on headphones. with the volume turned right down. It could. not possibly be overheard by any listening device, no matter how sensitive, because sound does not carry from the. phones.

Yet somehow they. are still able to tell which station I am listening to on the walkman. And last night, I bravely tuned. to GLR 94.9FM at around 8.45pm. Everything went well for. the first half hour or so. Around 9.10pm, Hepworth said the following. after the song "Come Around" by the Muttonbirds.

"coming up after this,. we got the rock-and-roll A-level, we have, I assume, Brian do we. have an embarrassment of prizes in there, we do, don't we, absolute obscene amounts of prizes,. there will no doubt be a riot at the back door, and that's, er, A-level coming. up after this"

The key phrases in what he said are, "EMBARRASSMENT of prizes",. and what he himself emphasized verbally, "ABSOLUTE OBSCENE. amount of prizes". It is my belief (based on content and. tone of voice) that when he spoke these phrases. he knew I was listening, and that the phrases refer directly to my situation. The. "EMBARRASSMENT" is the embarrassment he and other media people would feel at having their. wrongdoing exposed; the "ABSOLUTE OBSCENE". (which he verbally emphasized) described the disgusting sexual abuse which. the harassers have been throwing at me.

There was a second incident, on 9/May/1997, which may. be found on the web (with computer audio) at. URL;

This incident again contains the words "absolute. embarrassment of prizes", with the same emphasis. as the first instance, and laughter following the phrase. So theyre aware of the complaint I made on Usenet after the. first incident; and they. are so arrogant that they do exactly the same again. They are so arrogant, they know they are. being recorded and that what. they say will be published on the web, but they dont care. What corrupt media, and what a corrupt country to have such corruption. in its media.

Three Years of. "MI5 Persecution" Faxes

Ten Thousand Faxes,. and Still No Breakthrough

In the last three. years I have sent at least 5,301 faxes directly from my computer, and 4,478 faxes through Demons. extremely useful TPC.INT service, to politicians and the media, in the subject of the. "MI5 Persecution". This has obviously cost me quite a lot of money,. not to mention. time and effort. The aim of all this communication has been to try to put discussion of the "MI5 persecution" into. the public arena; unfortunately, this aim has not. been achieved, yet.

This fax will be my last transmission for the time being,. since the summer recess is almost upon. us. Depending on what the persecutors do between now and the autumn,. I may or may not resume faxing later this year. In the article dated 18/6/99 I said Id stop the articles if. MI5 left me alone; but they. seem to have no fear of these articles, since they kept pursuing me in Poland and after my return. to the UK. Again, if they leave me alone this summer then. I wont have to resume the articles in the autumn; but I think. its fairly obvious that MI5 have nothing better to do with their time than to go after me, and its almost pointless to. make this offer when I know. they wont cease harassing me.

TPC.INT. 1996, 1997, 1998.....

Three years ago I was living in Canada, and. the only economic way of sending faxes to. the UK was through the international email-to-fax gateway TPC.INT. This highly useful and totally free service. converts emails (which may have Postscript-formatted attachments). into faxes which it delivers to any number within the UK. Using the. telephone book, I constructed a computer database of M.P.s fax numbers, and. used this database to deliver copies of the "FAQ -. frequently asked questions" article which Id written some. time earlier.

This service is still operational, but given that I have. resided in London for the last year, I do not need to use Demons service when. I can send articles directly from my own computer. using its fax/modem, which is what I have been doing since. 1998. However, instead of just sending the FAQ article, Ive been composing articles on. various aspects of MI5s treatment of me. Since their activities have been going on. for nine years now, and there have been various aspects to their actions; they have harassed me. at work, at home, through the media, etc; I have so far not run. out of things to say, particularly since their harassment. of me is still ongoing, and I have been able to record the actual words used by their paid agents. on my minidisc-walkman. Since mid-March 1999 I have been. sending these articles pretty much. every weekend.

Anyway, as mentioned above, I intend this to. be the final transmission before the summer recess, and. it would be nice not to have to continue these articles in the autumn. But thats something. that depends on them, not me,. and their attitude is unfortunately clear.

Why am. I sending these articles?

Because I want the harassment to stop.. The cynical reader might think from these articles that I "thrive on adversity" and would be lost without. the harassment to complain. about; but that is not the case. In a perfect world I would like to return to work, in a job unsullied by. MI5s attempts to ruin it; I would like to live. in a house which wasnt bugged, with my words being. repeated at me wherever I go; I would like a normal life. I do not particularly thrive on adversity; I am beaten down by. adversity; the purpose of these faxes. is to try to bring the whole matter out into the public arena, where. the rights and wrongs would be visible to all, and once that were to happen, the adversity might. cease. I have had something approaching a normal life a couple of times in. the last nine years, but always, in the end,. MI5 turn up and ruin it. I just want these people out of my life, permanently, and the only way of. doing that is to kick this business into the public arena, and shame MI5. so that they are incapable of. doing me further damage.

Having said that, unfortunately it seems fairly obvious by now that. these faxed articles are. not going to achieve that aim. Some of the recipients know what I am saying is true; but they choose to stay. quiet - wisely, because if they were to admit the. truth of these articles, then they would bring the wrath of MI5 down on their heads. Presumably. most recipients do not know these articles are true; their reaction to me is. the same as my reaction to the other apparently deluded people who have. sent me email after reading my webpage to tell me it. happened to them too; the reaction being, "leave. me alone, I dont want to know". Its sad that many M.P.s have given me this reaction, because my case. genuinely is different; I genuinely am telling the truth, and the harassment. genuinely is happening to me, and some recipients. of this fax know this to be true.

"Write to. your own M.P."

My local M.P. is Mr. Keith Hill, Labour-Streatham. He refuses to have anything to do with. me. He refuses to represent me, he refuses to talk to me, he has told me not to communicate. with him. He has done absolutely nothing to help me,. and he has told me he will do absolutely nothing to help. me.

Other M.P.s, recipients of these faxes, have for quite some time. been telling me, "write to your own M.P.". On 23 March 1998, Paul. Burstow M.P. wrote. to me; "Whilst I take the issues that you raise seriously, there. is a strict Parliamentary convention that one Member of Parliament does not take up anothers casework. Can I suggest that you write. to your own M.P. at the House of Commons?" Hopefully. the above paragraph will make clear that I. have written to my own M.P. and he has proved unhelpful.

Other M.P.s have told me the same thing. On 21. May 1998, John McFall M.P. told me, ".... there is a parliamentary convention that M.P.s do not take. up cases of people not in their constituency..... therefore can I suggest that you write to your local M.P. who will be better. able to assist you." And on. 8 June 1998, Michael Foster M.P. wrote to me that "M.P.s are inundated with. unsolicited faxes .... M.P.s have a considerable amount of constituent work to. deal with, thus other M.P.s constituents cease to be of concern in so far as they should have. a voice and representation".

Simon Hughes M.P. wrote to me on 5 November 1998, "There. is a strict parliamentary convention which states. that I am not able to represent individuals who are not constituents of mine. My advice. is that you find out who your own Member. of Parliament is rather than circulating your story to all M.P.s.". To my suggestion. that Keith Hill M.P. was doing nothing to help me,. George Foulkes M.P. sent the following faxed response; "If Keith Hill your own M.P. cannot help. no-one else in the House of Commons can." But it is clearly not a case of "cannot" help,. but "will not". help. I have detailed in letters to Mr Hill specific ways in which he could. help me, first of all by finding a lawyer to represent me.. It is Mr Hills job as a Member of Parliament to represent his constituents; if he chooses not to do so, then it reflects badly. on him.

Kate Hoey Sympathises,. but says, "Write to your own M.P."

Here is part of. a letter Ms Hoey sent to me on 15 June 1999.

I appreciate that. you have concerns about the persecution and harassment that you feel you. are experiencing but I note that your MP is in fact Keith Hill. There is. a very strict Parliamentary code which means that M.P.s can only. take action on matters that relate to their own constituents. I am aware that you are not happy with the fact that. you do not feel Mr Hill will assist you but I am afraid that I. cannot take any action on your. behalf.

Ms Hoey plainly belongs. in the camp of people who do not know about the reality of the "MI5 Persecution". She doubts its. existence; "the harassment you feel you are experiencing". She urges me to. see Mr Hills assistance, as have. other M.P.s detailed above.

Really, the fact that I am unable to. obtain assistance from any other M.P., if. my own alleged "representative" Mr Hill chooses not to represent me, is a very. basic weakness in the Parliamentary system. Beinggmainly events at my. former employers in Oxford during 1992, when I was harassed constantly by manager Steve. Mitchell for most of 1992, and was forced to begin attending hospital as an. outpatient as a result. This harassment was obviously of Mitchells own. volition, since I observed him harass similarly another new worker two years later; but. it was also at MI5s instigation, since they kept. providing him with words from my home life which he then proceeded to abuse me with. Yet this is not the only employment. that MI5 have destroyed; the MI5 persecution has lasted from the end. of my student days until the present time, during which I have had three jobs,. all of which have been in. various ways destroyed by MI5s deliberate actions.

In March 1999 I decided to try to force the issue once and. for all. Ever weekend for. the last four months, apart from two weeks when I was on holiday, I have sent original articles by fax directly from my. computer to Westminster politicians. Here is a summary of the articles of the. last four. months;

How to. Identify the Persecutors

Their use of. Schizophrenia to discredit my claims
Comparing the MI5 Persecution with. German "Final Solution"
MI5. are Plainly Trying to Kill Me
MI5 Waste Taxpayer Millions on Pointless. Hate-Campaign
Four Years of "MI5 Persecution" Posts on. Internet Newsgroups
MI5 Agents are Clinical. Psychopaths
BBC Newscasters Lior the Victims. of MI5
MI5 Have Systematically. Destroyed My Life
Harassment. through the Radio

To my deep worry these fourteen faxed articles. have still not achieved the objective of kicking the matter out into the public. arena and forcing an admission either from the persecutors, or from those. "in the know", which includes. some M.P.s.

I dont really know what else. to do to try to bring the "MI5 persecution" out. into the open. I would have expected that these weekly faxed articles. would have had some effect, but the only result has been M.P.s telling me. to contact my own representative Mr Hill who refuses to talk to me. I. understand the convention that M.P.s deal with their own constituents and not those of other M.P.s, but there seems to be a. gap in the process since it allows your own M.P. to refuse to deal. with you, and then you are totally denied any representation. at all.

Conclusion

The only conclusion I can inform the readership. of these articles of, is that there is no conclusion. to this matter, yet! Three years of intermittent articles,. and four months of faxes every weekend, have been absorbed by some of the most powerful people in the. country, to no effect.

Whether these articles. continue in the Autumn is entirely up to the "opposition".. I offered them a cessation of complaints if they would leave me alone. on holiday in June/July, and they went right ahead and harassed me anyway, on holiday and after I returned to. London. If MI5 cease their activities now, then I wont have to continue these faxes. in the autumn;. but I suspect they wont cease, which means youre in for more articles later this year. "There will. be no conclusion."

MI5 Want Me to Send. You these Faxes

MI5 seem to Want to Spin this Business out for as Long. as Possible

The. MI5 persecution has now been going on, starting from June 1990, for well over nine years. If. I knew how to put an end to it then I would do so.. Of course MI5 have indicated how they wish to finish the matter, by finishing me off; they indicated this very clearly years ago. when they were. shouting "suicide" at me.

But a deeper truth is that. the MI5 agents carrying out the persecution rely on it. for their income and their livelihood. They have absolutely no interest in anything other than spinning out the whole business,. because that is how they will maximise their earnings from. their employer for the "work" they. do against me.

A vital part of the fantasy structure MI5 have created about me is. that I am somehow a worthwhile target. If you. bother to read these faxes, if you browse my website, or perhaps read my posts on. the uk.misc newsgroup, you will have by now. twigged that I am a totally insignificant person who in a proper dictatorship like East Germany would not. merit five minutes of Stasi time. But Britain. is improper in the methods of its corruption, and the Security Service. seeks to present me as being a an evil fascist, an evil communist,. an evil something-else, and even a "national institution".

It. occurs to me that to some extent I am playing into their hands, into their scheme of things, by writing these articles and sending. these faxes. By doing these things,. I elevate my profile, and fuel MI5s paranoid obsession with me. But to stop. sending faxes would be to give up the only hope I have. of seeing their campaign "outed" and justice done. Certainly there is no point going to the police. again; and as remarked in a previous article, the. Security Service Tribunal routinely whitewashes every complaint. that is placed before it.

So although MI5 seems to want me. to continue sending these faxes, doing this is the only real chance of getting this business out into. the open. And so Ill continue trying to kick. down their house of cards. At least my situation is less serious than that of some other. victims of the secret services; unlike Shayler I am not. broke and exiled; unlike Fayed I have not lost. a son to the posited activities of the secret services. All I. have lost is some of my health, some of my life, and some of my possible career.

MI5s Abuse. of me is without Cause or Reason

It constantly. puzzles me that MI5 refuse to leave me alone, wherever I go and whatever. I do, or rather, whatever I dont do, since Im not a very socially. or otherwise active person. When I am in England, they chase me all over the place,. and once theyve found me, they pay people to shout rude words at me. When I. am in Europe, they again chase me all over the place, and as usual pay people to shout obscenities at me. When. I am in

Canada or visiting the States, they faithfully chase me all. over the place, and. when they find me, pay people to shout obscenities at me.

It is hard to avoid the conclusion that. these MI5 operatives who chase me are total. lunatics. You will remember from a previous articles the assessment "MI5 Agents are Clinical Psychopaths". They have tried. to blame me for what they. do and what they say; yet their lies have been wafer-thin, and are. clearly seen to be oiled by the money which they acquire from the Government,. and ultimately from the taxpayer.

They have tried various lies to put the blame on me; "we have to. abuse him because. hes a nutter", as if there werent many tens of thousands of other people with schizophrenia in the. United Kingdom. Their choice of abuse words is telling; subconsciously perhaps they realise that it is. they who are the "nutters", and they try to project their. own illness onto their target.

MI5 Operatives have Nothing Else to Do With. Their Time

Ive seen the same "Alan Holdsworth" person. three or four times over a period of several years. I saw. him at the Civic Hospital in Ottawa in the Emergency Ward, where he falsely. declared his name to be "Tad"; at Ottawa airport in summer 1998; and on board another. flight in 1995.

So what. we see from the above paragraph is, the same people are delegated to watch me for many years. Without me,. they wouldnt have a job. They literally have nothing else to do. with their time, except indulge their voyeurism against me. With this observation,. we come to the core of MI5s campaign against me; these people are. not fit for any job other than the exercise of voyeurism against me, and if sanity. were to land on MI5 then they would be out of a. job. If sanity were truly to land then these people and their. employers would be prosecuted for offences under the Protection from Harassment legislation,. which they are clearly breaking.

It is one of the ironies of their. campaign that MI5 have been trying to make me an object of ridicule for completely trivial. things I have done, while MI5 themselves have simply not mentioned how ridiculous is their. own behaviour and. that of broadcast media journalists, in spying on me while they. read the news for example. If the whole truth of this business is ever exposed,. and despite all my efforts it still seems there is a block on its exposure in Britain, then the. rights and wrongs will be clear to all, and no amount of MI5 lies will be able to. change that. MI5 presumably do realise just how damaging such a revelation. would be both to themselves,. and to broadcast media such as the BBC and ITN, because there has not been even the. slightest chink in the armour, despite four and a half years. of my complaints on internet newsgroups and by fax to politicians and the. media.

MI5s Final Kick in. the Teeth to the British State

For someone like myself born in. the late sixties it seems peculiar to think that Great Britain once used to have a. say in the destiny of foreign peoples in far-off sections of the globe. Modern Britons tacitly. accept the. lowering of their country to a third-rate power reliant on the United States for what little say it has in the. world. A third-rate power, now "reverse-colonised" by third world peoples. it once ruled and riven with internal problems so severe the. government hardly dares acknowledge them.

To this third-rate power the MI5 secret police are delivering the. final kick in the teeth through a. campaign of persecution which is guaranteed to hold the state up to ridicule throughout the world when it. is finally exposed. As. a "thought experiment" suppose the French or the Spanish security service had done to one of their own born citizens. what MI5 has done. in this country. Suppose say the Spanish had planted hidden cameras in his home,. for the perverted pleasure of their state television newscasters, just as hidden cameras have been placed in my home for. the perverted pleasure of Martyn Lewis,. Nicholas Witchell et al. Suppose the Spanish service had for nine years. been trying to force suicide on their target; at times,. so blatantly that they shouted the word "suicide".

Now suppose they were. caught.

Of course, as long as MI5 arent caught, theyre laughing.. The psychopathic security service agents gets their kicks from shouting. abuse at me; the newscasters, Lewis, Witchell etc get their jollies,. "it was so funny", we were watching this bloke and he. couldnt do anything about it.

But. once theyre caught, the sky falls in. Of course, the "patriotic" MI5-funded media in Britain will. try to put the best spin on the MI5/media activities; it was the targets fault, of course. But. most of the world bears no allegiance to Britain. If this business is ever. exposed then a weakened Britain will become the laughing-stock of. the world. And I promise you, the security services. persecution of me will be exposed. MI5 has delivered a final kick. in the teeth to the British state, and I will do everything I can to ensure. the world hears about what they have done.

Metropolitan Police Refuse to Investigate. the MI5 persecution

I have on a couple of. occasions tried to motivate the police to investigate. MI5s actions against me. On each occasion they have refused to do so. In. 1995 I went to my local police station and spoke to an officer there; he refused to. accept my complaint, and seemed interested only in seeing me leave the station as. quickly as possible.

Earlier this year I had some communications. with Det.Sgt.Richards of Charing Cross police. Again I asked him to deal with MI5s actions. against me.. Unfortunately DS Richards conformed to the negative stereotype of the bigoted, ignorant "copper"; he said, "I. have read your various bits on the internet. I'm afraid there is no substance or credence to it.. It's an absolute load. of rubbish. I don't investigate rubbish. I can't be more blunt or to the point. than that."

You. have to wonder at the state of law enforcement in Britain. If the victim of a murder. is black, as happened in the Lawrence case, the police deliberately botch the investigation. If the victim of a crime is. mentally ill,. and the perpetrators are the secret services, as in my case, then the police refuse. to even begin to investigate the crimes committed. Politically Britain is a. third-rate country, but from the point of view of obtaining justice, Britain ranks down there with. third-world countries.. You almost feel that MI5 and their media buddies would not even have any shame if their activities against me were exposed;. after all, why should they? they. have the money, they have the control, OK so perhaps theyve broken a few dozen laws, but doesnt the fact. that the police are too corrupt to investigate these. crimes, doesnt that prove that in fact no crimes. have been committed?

I. should say again what I have said earlier in this article. My losses over the last nine. years have not been as great as those of other victims of British Secret. Police malefaction. Fayed lost his son to their murderous activities; in my occasional communications. with former MI5/MI6 employees I have been informed that a "permanent solution" is not. uncommon for opponents of the British secret police. I have lost. health and financially, but am obviously well enough to keep fighting my. case. Others have lost. much more than I. If the joke which is British "law enforcement" refuses to enforce laws against. the security services then that is something that is recognised in other. countries and Britains stock correspondingly. falls. Not that it has very far to fall; the days when England had. any say in the world are long gone.

MI5 Want These Faxes. to Continue

Before the holiday,. I said that if MI5s harassment of me stopped, then I would cease my. complaints. They have known very well that if they continued to harass me then I would resume the fax. campaign in the autumn. Yet they have not stopped persecuting me.. Recently a woman outside my domicile screamed her. head off with abuse in the direction of my window; and on Saturday 2 October, when I was. shopping at a nearby supermarket, a. man shouted the particularly vile sexual swear word which I have heard many times before. over the last few years.

MI5s attitude shows complete. arrogance. Yet it also shows that they want the. faxes to continue and deliberately try to provoke me into sending further faxes. The reasons for this. are given in the first paragraphs of this article; the MI5 operatives who persecute. me have nothing else to do with their time; to make their campaign, against. an apparently unreacting target, have some value, they have to force me to react in. some way against their actions; and by reacting in this. way, by bringing their campaign to the attention of British politicians, I play into. their hands, by giving their campaign the attention and importance which. they feel it deserves.

In the short term, by sending these faxes, perhaps. I am doing something they want me to do, but in the longer term it is undoubtedly more. in my interest than theirs for their. activities to be exposed. If their operatives truly do wish to see these faxes continued then they. are committing a serious mistake, because. it significantly increases the risk if M.P.s (some of whom already. know about MI5s activities against me) are advised of my side of. the story.

I will continue to monitor and record the. secret services activities against me over the next few weeks.. If they diminish and cease, as I hope they will, then I may be able to call a. halt to these faxes; but that it something which is entirely up to them;. recently their continued harassment makes. clear that they do wish the faxes to continue, and in all sincerity I. do think they will continue their activities and make it impossible for me to cease these faxes. It may trouble. you to receive these articles, but it troubles me much. more to be on the receiving end of a national persecution campaign; and while. Britain does not have free speech provisions as does. Canada in the Charter of Rights and Freedoms, and the US in the. first amendment to the constitution, in practice I do not. think anyone is going to try to have me locked up for speaking the truth. I still cherish the hope that the veracity. I express will be shown for what it is, and that the truth will prevail. and make me free.

Removing the Mask of Anonymity from. the MI5 Operatives

Undoubtedly one factor encouraging the MI5 agents. actions against me has been the fact that they can shelter behind. a mask of anonymity while they carry out their abuse. This is both a sign of their. realisation that their actions are criminal; for crimes are harder to pin down. and make a coherent complaint about when their perpetrators are. unknown; and it is a sign of. their cowardice, since they lack the backbone to say things to my face themselves; instead they almost always rely on third parties. to carry out. the actual acts of abuse.

On a. few occasions I have seen the perpetrators, but on each occasion they have managed. to preserve their anonymity. They travelled on the same British Airways flight as me in. 1994; but BA have ever since refused to give up the passenger list for the flight, and the police. and lawyers have proved useless in obtaining their identities from the list. Also one. of them followed me into A&E department of Ottawas Civic Hospital a couple. of years ago, and gave his name as (if I heard. correctly) "Alan Holdsworth"; but. the doctor refused to give out his identity when I later tried to speak. to him.

If only we knew the identities of the individual operatives, then it. would be possible to find out the identity of their employing. organisation. But I think we know the latter already, since I. have been accusing them on internet newsgroups for. four and a half years now, and they have never denied my guess. Indeed, when I was travelling. in January 1996 back to Ottawa, two youths on the (British Airways again,. unfortunately) flight made a lot of noise at. me, one of them saying to the other that I "didnt know who we are". That is a. wafer-thin denial; I had been saying for a year that they were MI5, so a stronger denial. would be necessary if my guess were truly mistaken. I. think the lukewarm denial was worse than no denial at. all, since it confirmed my guess that the employing agency was indeed. MI5.

Conclusion

It has been suggested to me that by. sending these faxes I could be making trouble for myself; but I dont think. so. My psychiatrist knows what I am doing; indeed I have given him a couple of these articles for him to. cast an. eye over.

I dont want to have to send faxes for the next year, or the year. after that. But that is entirely up to MI5. If. they continue to persecute me then I am forced into defending myself. The. ball is in their court, and it is entirely up to them what they. do. If as I suspect it is their intention that these faxes continue, if that is what they insist. will happen then so be. it.

MI5 Persecution Update:. Friday 31 March, 2000

22,544 Faxes Delivered in Three Years,. and Still No Breakthrough

In the last three years I have sent at. least 22,544 faxes to recipients in the UK, of which at least 13,974 have gone to. Westminster. Last weekend alone I sent 832. completed faxes to politicians, the media and various others, on the subject of MI5s mistreatment of me these last ten. years.

I believe some of the recipients know of MI5s actions against. me in the last decade; yet they. maintain strict "omerta" in fear of the security services persecution. actions being made public.

MI5 Insist that these. Faxes must Continue

Between September. 1999 and mid-January 2000, the persecutors, whoever they might be, mostly left me alone. I counted only three. incidents in almost five months - which is a lower rate than at. any time since June 1990, when this business. started.

By leaving me alone. for several months, the "oppressors" were making an implicit assurance that they would continue. to leave me alone in the future. On 11. January I posted to an internet newsgroup accepting what I saw as their assurance of no. further harassment, stating that I would cease sending. these faxes - which is the only thing I do in my defence - if they. continued to leave me alone. And for two weeks I did indeed refrain from distributing. these articles.

But MI5 acted in bad faith. From the last week of. January until the beginning of. March, they resumed their hate campaign against me with a vengeance. They even put people in. my road three times in February, one instance. of which I recorded. They resumed their normal behaviour of bugging my phone and house, listening to where. I would go, and then placing people. in that location to "aggravate and annoy" me.

What MI5 did in February is plainly a contravention of. the Protection from Harassment Act. 1997, since it has caused me "alarm and distress" as specified in the Act.. But it is a waste of time going to the police with a complaint, since. the police have done, and will do, absolutely nothing. I complained to the Metropolitan Police in. 1995, and they refused to take my complaint. When I complained again. in 1999, the detective sergeant laughed at my complaint, with. the words, "It's an absolute load of rubbish. I don't investigate rubbish. I can't be more blunt or. to the point than that." It is useful to remember that the Met also. treated Stephen Lawrences parents with. similar discourtesy; police prejudices are similar in my case, so I can take some comfort. from that case and hope that one day I will get a. fair hearing.

MI5 acted in bad faith, but they also. acted with arrogance. They do not care if I send 800 faxes every weekend, since they know. I cannot prove my claims, and the recent. Shayler case shows how weak external oversight is of the secret services. But they acted with more than arrogance - the. MI5 agents actually want my faxes to continue,. they insist that these faxes continue, since my communications give them an excuse to. continue their activities, and continue. in the paid employ of the secret service. Despite their use of diverse proxies over the. last ten years, it is the same MI5 officers behind. the campaign all the time - I have seen one of them on three occasions in Canada over a period. of years, and it is a safe belief that. that same person continues to be paid for his "work" in harassing me in London now.. The average cost of an MI5 employee is some 75,000 per annum, so one may. infer that their officers are amply compensated; their insistence that "hostilities". are maintained is understandable when placed in this. light.

MI5 Persecution Update: Friday 7 April,. 2000

22,544. + 837 = 23,381

Last weekend. I delivered another 837 faxes to politicians and the media on the subject of the security service conspiracy. which has destroyed my life. This brings the. total in the last three years to at least 23,381.. These totals do not include partially delivered faxes.

Some of the recipients of. these faxes must know that what I say is true; and I hope to motivate those. people to acknowledge the reality of the harassment which has. followed me for ten years. It takes much time to transmit these articles, but as OCG MD Simpson-Wells said. to me in 1992, you have to be a good communicator if you are. to succeeed.

Harassment in. February 2000

Following a quiet period of almost five months,. the persecution resumed with a vengeance in. late January/February 2000. At this time I was at home in Clapham, London and was a. relatively easy target for the persecutors. They have. my house bugged, for audio and I believe video in some rooms as well; so they can find. out easily where I will be going on a particular day, and place people in that location to. mouth words of abuse at me. (I know the last sentence sounds like classic. paranoia, but it happens to be true, and some of the people. reading this know it to be true.)

On Friday 11 February 2000 I went shopping in Croydon, to buy. a watch at H.. Samuels jewellers in the Whitgift Centre. While I was there two youths came into the shop,. one of them quietly uttered an obscenity at me, and they immediately walked out. They. showed no interest in the shop.

That Sunday I met with. a friend in Clapham, who started needling me about "do you know anything about the CIA. and FBI?". Rather unsubtle, and worrying considering Ive known this guy. for 20 years. From the words and demeanour of this "friend" and others in February,. I saw that the persecutors have again been trying to separate from me what remains of. my social. life.

Incidents in my. Road in February

MI5 very rarely place people. in my home road to harass me, but such was their persecutory fervour in February that they did so on three. separate occasions. On the first such. occasion, I was met my two youths who, grinning, said a deeply offensive sexual obscenity at me -. at which I coughed at them, so they called me a "wanker". This incident. is safely recorded on. minidisc-walkman, but because of the offensive nature of their abuse. the recording will not be made public.

Another incident very early in the morning of Sunday 20/Feb/2000. occurred outside my home, following. an evening in Croydon with some schoolfriends. Again there were two youths - for some reason. the persecutors always travel in twos. or threes, very rarely is there just one of them - perhaps they need a group to bolster their. courage, perhaps just one of them wouldnt have the guts to say something unpleasant.. One of the youths said quietly,. and bitterly, "shitty, very shitty".

Anyway, in March there. were no further incidents near my house in in my road, and our neighbours. are very well disposed towards us, so let us hope that the current. quiet continues.

The first incident in June 1990 was when a. BBC newsreader made what seemed to be. a reaction to something which had happened in my home, and out of context of what they were reading. My first. reaction was disbelief; nothing of. the sort had ever happened before, the idea that such a thing could occur had not crossed my mind, yet there was. no doubt of what had just taken place. My disbelief eroded as this recurred time after. time. Besides the news, offenders. included shows such as Crimewatch (!), Newsnight, and "entertainment" shows. There seems. to be very little moral understanding among the people who make these programmes;. they just assume they will never be caught, so they carry on without a thought. for the illegality or amorality of what they do. The only time I. ever heard a word raised in doubt was by Paxman being interviewed by someone. else (I think by Clive Anderson) back in. 1990; referring to the "watching" he said it troubled him, and when asked by the host what. you could do about it, replied "Well, you could just switch it off" (meaning. the surveillance monitor in the studio). He clearly didn't let his doubts stand. in the way of continued surreptitious spying from his own or other people's. shows, though.

Now you're convinced this. is a troll, aren't you? This story has been the subject of much debate on the. uk.* Usenet newsgroups for over a year, and some readers believe it to be. an invention (it has even been suggested that a group of psychology students are. responsible!), others think it symptomatic of a derangement of the author, and a few. give it credence. Quite a. few people do know part or all of the story already, so this text will fill in the gaps in their knowledge. For the rest,. what may persuade you of the third possibility is that some of. the incidents detailed are checkable against any archives of radio and TV programmes that exist;. that the incidents involve named people (even. if those hiding in the shadows have not made their identity or affiliations evident), and those. people may be persuaded to come out with the. truth; and that the campaign of harassment is continuing today both in. the UK and on the American continent, in a none-too-secret fashion; by its. nature the significant risk of exposure increases with. time.

On several occasions people. said to my face that harassment from the TV was happening. On the first. day I worked in Oxford, I spent the evening in the local pub with the company's. technical director Ian, and Phil, another employee. Ian made a few references. to me and said to Phil, as if in an aside, "Is he the bloke who's been on TV?" to which Phil replied,. "Yes, I think. so".

I made a number of efforts to find the. bugs, without success; last year we employed professional counter-surveillance people to scan for bugs. (see later) again without result.. In autumn 1990 I disposed of my TV and watched virtually no television for. the next three years. But harassment from TV stations has gone on for over six years and continues to. this day. This is something. that many people obviously know is happening; yet the TV staff have the morality of paedophiles, that because they're getting away with. it they. feel no wrong.

Other people who were involved in the abuse in 1990 were DJs on. BBC radio stations, notably disc jockeys from Radio 1 and. other stations (see the following section). Again, since they don't have sense in the. first place they can't be expect to have the moral sense not to be part of. criminal harassment.

PO:. >really suspicious, I would call in one of those bug detection teams which
PO: >have those machines that pick up. the transmitted radio waves. This
PO: >reminds me of. BUGS, that new programme on BBC1 on

That's exactly what we did. We went. to a competent, professional detective agency in London, paid. them over 400 quid to debug our house. They used scanner devices which go to over 1 GHz. and would pick up any nearby transmitter in that range,. they also checked the phones and found nothing... but if the tap was at the exchange,. then they wouldn't find anything, would. they?

CS: >Doesn't this suggest. to you that there are, in fact, no bugs to be found?

You can assume that. they've done this sort of thing to other people in more "serious" cases, where. they would know the targets would suspect the presence. of electronic surveillance. So they will have developed techniques and devices which are not readily detectable either by visual inspection. or by electronic means. What those techniques. might be, I couldn't guess.

In this case, the existence of bugging devices. was clear from the beginning, and they "rubbed. it in" with what was said by the boy on the coach. It was. almost as if they wanted counter-surveillance people to be called in, who they knew would fail to detect the bugging devices,. causing loss of credibility to the other things I would have to say relating. to the harassment.

I did all the things someone in. my situation would do to try to find the bugs.. In addition to calling in professional help using electronic counter-surveillance, I made a close visual inspection of. electrical equipment, plus any points where audio or. video surveillance devices might have been concealed. Of course, I found nothing. Normal. surveillance "mini-cameras" are quite noticeable and require visible. supporting circuitry. It seems to me the best place to put. a small video surveillance device would be additional to a piece of electronic. equipment such as a TV or video. It would be necessary to physically. break in to a property to fit such. a device.

-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=
-= Capital Radio -. Chris Tarrant -=
-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=

Capital. Radio DJs have been "in on it" from the start. One of the first things I heard in the summer of 1990 was from a Capital DJ who. said, "If he listens to Capital then he can't be all bad". (supportive, you see. We're not bastards). Much of what came over the radio in. 1990 is now so far away the. precise details have been obliterated by time. No diary was kept of the details, and although archives if they exist may give pointers,. the ambiguity of what broadcasters said would leave. that open to re-interpretation.

In spring 1994, Chris Tarrant on his Capital morning show made an aside. to someone else in. the studio, about a person he didn't identify. He said, "You know this bloke? He says we're trying to kill. him. We should be done for. attempted manslaughter".

That mirrored. something I had said a day or two before. What Tarrant said was understood by the staff member in. the studio he was saying it to; they said, "Oh no, don't say that" to Tarrant. If any. archives exist of the morning show (probably unlikely) then. it could be found there; what he said was so out. of context that he would be very hard put to find an explanation. A couple of days later, someone at. the site where I was working repeated the remark although in a different way; they said there had. been people in a computer room when automatic fire extinguishers went off and. those people were "thinking. of suing for attempted manslaughter".

Finally, this isn't confined to. the established radio stations. In 1990 after I had listened to a pirate radio station in South London. for about half an hour, there was. an audible phone call in the background, followed by total silence for a few moments, then shrieks of laughter.. "So what are we. supposed to say now? Deadly torture? He's going to talk to us now, isn't he?", which meant that. they could hear what I would say in my room.

-= MI5: cost of. the operation -=
-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=
```

Here's what a couple of. other people on Usenet (uk.misc) had to say regarding the cost. of running such an operation...

PO: >Have some sense, grow up and smell reality. What you are. talking about
PO: >would take loads of planning, tens of thousands of pounds and lots. of
PO: >people involved in the planning, execution. and maintenance of it. You
PO: >must. have a very high opinion of yourself to think you are worth it.

PM: >But why?. And why you? Do you realize how much it would cost to keep
PM: >one person under. continuous surveillance for five years? Think about
PM: >all. the man/hours. Say they _just_ allocated a two man team and a
PM: >supervisor. OK., Supervisor's salary, say, #30,000 a. year. Two men,
PM: >#20,000 a year. each. But they'd need to work in shifts -- so it would
PM: >be six men at #20,000 (which with on-costs would work out at more. like
PM: >#30,000. to the employer.)
PM:. >
PM: >So, we're talking #30,000 x 6. #180,000. plus say, #40,000 for the.
PM: >supervisor.. #220,000. Then you've got the hardware involved. And
PM:. >any transcription that needs doing. You don't think the 'Big Boss'
PM: >would listen to. hours and hours of tapes, do you.
PM:. >
PM: >So, all in all, you couldn't actually do the job for. much less than
PM: >a quarter million a year. Over five years. What are. you doing that makes
PM: >it worth the while of the state. to spend over one and a quarter million
PM:. >on you?

Those are pretty much. the sort of calculations that went through my head once I. stopped to consider what it must be costing them to run this operation. The partial answer is, there. have been periods when the intensity has been greater, and. times when little has happened. In fact, for much of 1993 and the first half of 1994, very little happened.. Although I don't think that was for reasons of money - if they can tap. into the taxpayer they're not going to be short of. resources, are they?

The more complete answer is in the. enormity of what they're doing. Relative to the cost to British pride of seeing their country humiliated for. the persecution of their own citizens, isn't is worth the cost of. four or five people to try. to bring things to a close in the manner they would wish? To the government. a million or two is quite honestly nothing - if they can convince themselves of the necessity of. what they're doing, resources will not. be the limiting factor.

-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-

The harassment didn't start by itself, so someone must have. been there at the outset to give. it a firm push and set the "animals" after me. It looks as if I was set up in June 1990, and the timing. indicates someone from university. was responsible.

>One thing which has been missing from. this discussion is this simple
>prognosis: that maybe. he is right and that, despite his admitted
>mental condition, there really is a campaign against. him organised by
>now-influential. ex-students of his university.

In May or June 1990, Alan Freeman on Radio 1 read. out a letter from someone who had known. me for a few years, who wrote of the one who "wore out his welcome with random precision" (from the. Pink Floyd song). Freeman went on to say to the writer "that's a hell of. a letter you wrote there". The indication is strongly that people I had parted from soon. before nursed a grudge against me and were trying to. cause trouble for me.

The suggestion is that. Freeman might have shown the letter to other people, and things could have snowballed. from there. Right from the start the real source (security services presumed) didn't announce. themselves as the origin, but let the "talkers", the radio DJs, believe that they. were the originators. Think about it; if you announce, "we're. MI5 and we have a campaign. against this bloke" then people might not go along with it; but if you say, "everyone else is getting at this bloke because. he 'deserves' it" then people. will join in with fewer qualms.

>Why would "they". wish to assassinate your character?

It's the classic case of hitting a cripple to. prove you're stronger. Why would the. security services expend hundreds of thousands of pounds and more than six years of manpower to try to kill a British citizen?. Because they are motivated by people who knew me at university. and feel personal animosity; because they knew me to be emotionally weak, and it is. in the nature of bullies to. prey on those known to be weak; and because they can rely. on the complicity of the establishment, which the security services manipulate and derive funding from. This is England's. biggest humiliation today,. and the British security services are intent on preventing their humiliation becoming reality by continuing their. campaign of attempted murder. to suppress the truth from becoming public.

-= who knows. about it? =-
-=-=-=-=-=-=-=-=-=-=-=-=-=-

Many people know, both. in the establishment and media, and among the general public. Despite an absence of its target from. the UK for more than two years, the echoes of paranoia. can still be heard loud and clear from across the water. When it started in 1990, the only people who knew. were those in. BBC television who were spying on my home, and a few radio broadcasters. There were a few cases. of public harassment, but very little compared to the situation that developed. a couple of years later.

The list today includes BBC TV staff (newsreaders such. as Martyn Lewis, Michael Buerk,. Nicholas Witchell), people from radio stations such as Chris Tarrant of Capital and Radio. 1 DJs, people in the print media, but also many people in the general. public. All united in a conspiracy which breaks the laws which the UK does have regarding. harassment, and all completely uncaring for any semblance of. decency or elementary respect for. individual rights.

The British. police (obviously) do know the nature of the harassment and in all probability the identity of those behind it. Some time ago. I made a complaint to my local police station in London, without positive. result. The. UK police are failing in their duty to see the law enforced in not checking the. abuse.

The article of which part. is reproduced below was penned by Bernard Levin for the. Features section of the Times on 21 September 1991. To my mind, it described the situation. at the time and in particular a recent meeting with a friend, during. which I for the first time admitted to someone other than my GP that I had been subjected to a conspiracy of. harassment over the previous year. and a half.

>There is a madman running loose about London, called David Campbell;. I have no reason to believe that he is violent, but he should certainly. be approached. with caution. You may know him by the curious glitter in his eyes and a persistent trembling of his hands; if. that does not suffice, you will find him attempting. to thrust no fewer than 48 books into your arms, all hardbacks, with a promise that, if you should return to the. same meeting-place next year, he will heave. another 80 at you.
>
>If, by now, the police have. arrived and are keeping a close watch on him, you may feel sufficiently emboldened to examine the books. The jackets. are a model. of uncluttered typography, elegantly and simply laid out; there is an unobtrusive colophon of a rising sun,. probably not picked at random. Gaining confidence - the lunatic is smiling by now, and. the policemen, who know about such. things, have significantly removed their helmets - you could do worse than take the jacket off the first book in the pile.. The only word possible to describe the binding is sumptuous;. real cloth in a glorious shade. of dark green, with the title and author in black and gold on. the spine.
>
>Look at it more closely; your eyes do not. deceive you - it truly does have real top-bands and tail-bands,. in yellow, and, for good measure, a silk marker ribbon in. a lighter green. The paper is cream-wove and acid-free, and the book. is sewn, not glued.
>
>Throughout the encounter, I should have mentioned, our loony has. been chattering away, although what he is trying to say. is almost impossible to understand; after a time, however, he. becomes sufficiently coherent to make clear that he is trying. to sell the books to you. Well, now, such quality in bookmaking today can only be for collectors' limited. editions at a fearsome price - #30, #40,. #50?
>

>No, no,. he says, the glitter more powerful than ever and the trembling of
>his hands rapidly spreading throughout his entire. body; no, no - the books
>are priced variously at #7, #8 or #9, with the top price. #12.
>
>At this, the policemen understandably put. their helmets back on; one of
>them draws his truncheon and the. other can be heard summoning
>reinforcements. on his walkie-talkie. The madman bursts into tears, and
>swears it is all. true.
>
>And. it is.
>
>David Campbell has acquired the entire. rights to the whole of the
>Everyman's Library,. which died a lingering and shameful death a decade or
>so ago, and he proposes to start it all over. again - 48 volumes this
>September and 80 more next. year, in editions I have described, at the
>prices specified. He proposes to. launch his amazing venture simultaneously
>in Britain and the United States, with the massive. firepower of Random
>Century at his back. in this country, and the dashing cavalry of Knopf
>across the water, and no. one who loves literature and courage will forbear
>to. cheer.

At the time this article was written I had believed for. some time that columnists in the. Times and other journalists had been making references to my situation. Nothing unusual about. this you may think, plenty of people have the same sort of ideas and obviously the papers. aren't writing about them, so why should. my beliefs not be as false as those of others?

What makes this article so extraordinary is that. three or four days immediately preceding its publication, I had a meeting with. a friend, during the course of. which we discussed the media persecution, and in particular that by Times columnists. It. seemed to me, reading the article by Levin in Saturday�s paper, that he was describing in some detail. his "artist�s impression". of that meeting. Most telling are the final sentences, when he writes, "The madman. bursts into tears, and swears it is all true.. And it is." Although I did not "burst into tears" (he seems to be using. a bit of poetic licence and exaggerating) I did try hard to convince my friend that it was all true; and I am able to concur with. Mr Levin, because, of. course, it is.

At. the beginning of the piece Levin reveals a fear of being attacked by the "irrational" subject of his. story, saying "I have no reason to believe that he is violent, but he should certainly be approached. with caution". This goes back to the. xenophobic propaganda of "defence" against a "threat" which was. seen at the very beginning of the harassment. The impression of a "madman running. loose" who needs to be controlled through an agency which assigns. to itself the mantle of the "police" is also one which had been expressed. elsewhere.

In the final paragraph of this extract, his reference to Everyman�s. Library as having "died a lingering and shameful death a decade or so ago". shows clearly what sort of conclusion they wish to their. campaign. They want a permanent solution, and as. they are prevented from achieving that solution directly, they waste significant resources on methods which. have been repeatedly shown to be ineffective for such a. purpose.

Although I did not "burst into tears" (he. seems to be using a bit of poetic licence. and exaggerating) I did try hard to convince my friend that it was all. true; and I am able to concur with Mr Levin, because, of course, it. is.

At the beginning. of the piece Levin reveals a fear of being attacked by the "irrational" subject of his story, saying "I have no reason. to believe that he is violent, but he should. certainly be approached with caution". This goes back to the xenophobic propaganda of "defence" against a. "threat" which was seen at the very beginning of the harassment.. The impression of a "madman running. loose" who needs to be controlled through an agency which assigns to itself the mantle of the. "police" is also one which had been expressed. elsewhere.

In the final paragraph of this extract,. his reference to Everyman�s Library as having "died a. lingering and shameful death a decade or so ago" shows clearly what sort of conclusion they wish. to their campaign. They want a permanent solution, and as they are prevented from. achieving that solution directly, they waste significant. resources on methods which have been repeatedly shown to be ineffective for. such a purpose.

The British police obviously. do know what is taking place. Besides my interpretations of. what individual officers have said which forces that conclusion, it would be. inconceivable for them to be unaware of something on. this scale.

If they know, then they will know that. the abusers have broken laws in the UK. and abroad. If the police know illegal harassment is taking place, and do nothing about it, then. they are failing in. their responsibilities.

Last Easter (1995) I went. into the local police station in London and spoke to an officer about the harassment. against me. But I couldn't provide tangible evidence; what people said, in many cases. years ago, is beyond proof, and without something to support my statements I cannot expect. a police. officer to take the complaint seriously.

The current situation with regard to the police is not. one which allows a breakthrough in dealing with the problem.. On the one hand, most individual officers at a local police station may not. know about the ongoing assaults, so a complaint. at that level will not yield results. Yet the police as an organisation do. know of the harassment, and they must be aware that a complaint has been made at a police station. So it is clearly their. duty to take preventative action against the continuing molestation, but. because the criminals are operating. on behalf of a state agency, the police are not carrying. out their duty.

-=-
-= abuse. in set-up situations and in public -=
-=-

Strangers in the street have recognized me on sight many times,. and shown awareness of the current thread of abuse. To give. you one example, in 1992 I was seriously ill, and. a manager at work somewhat humorously said that "it wasn't fair" that people were bullying me. A few. days later, I attended for the first time a clinic in London as an. outpatient, and on my way out was. accosted by someone who asked if "they had paid my fare", with emphasis on the word "fare". He repeated the word several. times in this different context; that they should. have paid my "fare", each time emphasizing the word.

For two and. a half years from the time their harassment started until November 1992 I refused to see a psychiatrist, because I reasoned that. I was not ill of my own action or fault, but through. the stress caused by harassment, and that a lessening of the illness would have. to be consequent to a removal. of its immediate cause, in other words a cessation of harassment. I also reasoned that since they were. taunting me with jokes about mental illness, if I were to seek treatment. then the abusers would think that they had "won" and. been proved "right". Remember, the constant theme. of any persecution is, "we must destroy you because you're X", whether X is a. racial or other attribute. In this case the X was "we persecute you because. you have brain disease". The similarity of this logic to Nazi attitudes to the mentally. ill is striking.

The. same manager who'd said "it wasn't fair" asked me in winter 1992 why I didn't seek help from a psychiatrist; was it,. he asked, because "they would think. they had won" if I sought treatment? That was something I'd never said at work... again, taken separately it. proves nothing, but many such things over a period of months proves conclusively that people. in the company knew what was. going on, and in quite a lot of detail.

Usually harassment in public lacks the. level of finesse of "paying your fare". Most people's imagination does not. go beyond moronic parroting of the current. term of denigration. That is not surprising given the average level of the abusers; if they do not have the intelligence to. distinguish wrong from right then neither will they. have the capacity for anything other than mindless repetition. of a monosyllabic term calculated to fit into. their minds.

The first incidents of verbal assault. in public were in again in the summer of 1990, although they increased. in frequency and venom with time. In July 1990 the first public incident occurred on a tube train. on the Northern line. Two men. and their girlfriends recognised me; the women sprang to my defence, saying "He looks. perfectly normal, he doesn't look ill". Their boyfriends. of course knew better, and followed the party line; one of them made reference to an "operation", apparently to work at the. tube station but implicitly to a visit that I. had made to hospital a couple of weeks previously.

In August 1990 going. home from college, soon after getting on a tube train at Gloucester Road I was followed by a group. of four youths, who started a chant of. abuse. That they were targeting me was confirmed by other people in the carriage, one of whom asked the other "who are they going on at,. is it the bloke who just got on?" to which the second replied. "yes, I think so". I was. tempted to reply, but as in every other instance the abusers are enabled in their cowardice by physically outnumbering the. abused; any confrontation would result in. my being beaten up, followed by a complaint to the police that "he attacked us", and. of course he's ill, so he must have. been imagining that we were getting at him. Shitty, aren't they?

But the. shittiness of the four youths on the tube train is as nothing compared to the. episode on the National Express coach to Dover in the summer of 1992.. While going on holiday to the Continent I was verbally set upon by a couple travelling sitting a few rows behind. The. boy did the talking, his female companion contributing only. a continuous empty giggling noise. He spoke. loudly to ensure other people on the coach heard, always about "they" and "this bloke" but never naming either the abusers or. the person. he was talking about. He said "they" had "found somebody from his school, and he was always really stressed at school". They. must have dug deep to find enemies there; perhaps someone who dropped. out of school, someone who didn't do too well later, who. was jealous and keen to get their own back? The boy also said "he was. in a bed and breakfast for only one night and they got him". By a not. unexpected coincidence I had been in a B&B in Oxford a week previously, which had been booked from. work; other things lead me to. the conclusion that the company's offices were bugged for most of the 2 1/2. years that I was there, so "they" would have known a room in the B&B had been booked. (But I'll bet "they" didn't. tell the company's managers. their offices were bugged, did they?).

After a. few minutes of this I went back to where they were sitting and asked. where they were travelling. The boy named a village in France, and the girl's giggling suddenly. ceased; presumably it permeated to her brain cell what the purpose of the boy's. abuse was.

This and other set-up. situations are obviously calculated to provoke a direct confrontation which would bring. in the police, with the abusers claiming that they were the. ones attacked. Again in 1992, outside the house where I was living in Oxford I was physically attacked by someone. - not punched, just grabbed by the coat, with. some verbals thrown in for good measure. That was. something the people at work shouldn't have known about... but soon after. a couple of people were talking right in front of me about, "I. heard he was attacked". The UK police have a responsibility for preventing assault occurring,. but they do not seem to take any interest in. meeting that responsibility. I suppose their attitude is that harassment does not come within their remit. unless it involves physical assault, and they will only become involved once that happens. That is of. course quite the wrong attitude for them to take, but as I now understand, the. police investigate only the crime they. wish to investigate; if they do not take your complaints seriously then there is. nothing you can do to make them take. action.

-=
-= purpose in. publicizing it; censorship in uk.* newsgroups -=
-=

The postings to. uk.misc newsgroup generated a very defensive reaction from Usenet readers in the UK. So much so, that they tried strenuously. to suppress what was being said,. both by breaking the rules of netiquette in their responses on the forum, and directly by action to. revoke the account from. which the postings were issued.

Yet the postings were. within the normal boundaries of behaviour for uk.misc, and other less partisan spectators. did not see justice in the censorship which. was effected, as the following excerpt shows;

:Karen. Lofstrom (lofstrom@lava.net) wrote
:>It does seem that the frequency and the size of his posts. are
:>approaching net abuse. However, IMHO,. they aren't quite there yet. If
:>his postmaster were to act in this instance, it would raise. troubling
:>censorship. issues.

The inescapable conclusion of the. censorship effected on the uk.* newsgroups is that. the British are intent on their wrongdoing remaining concealed, and therefore seek to subvert. and suppress freedom of speech, not only in. their own country where the media shows xenophobic bias and bile against all perceived. enemies within and without, but also in other countries which have their own statutes to guarantee the basic. human right of free. speech.

It is absolutely. necessary to bring their hate campaign out into the open where. it can be placed under scrutiny and the harassers seen for what they are. That is the only way of making it impossible for the security. services to carry it out. There is a. wider dimension, though. Xenophobia as demonstrated by British people and institutions over. the last few years belongs to the same stable as. racial hatred. In one case, two youths on a Tube train made that racism. explicit by referring to their victim as a "soft toy, not up to British Standards". Doubtless. others victimize partly on the basis. of race (isn�t it odd that they chose to torment someone who is not ethnically English?). while expressing their abuse in terms of another genetic attribute, namely mental illness. All xenophobia. on a genetic basis is wrong, but while racial insults are illegal,. abusing the mentally ill. is neither against the law nor subject to similar condemnation when. it is exposed.

-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-
-= my response to. the harassment -=
-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-

My first reaction in 1990/91 was to assume. that if I broke contact then they would not be able to follow and would lose interest. So. I did the things that have been suggested by other people; I sold my. television, stopped listening to the. radio and tried to withdraw away from the sources of abuse as. much as possible. I reasoned that they must have more important things to deal with and that normal people would. simply leave me alone if it. were made difficult for them to continue their harassment.

I reckoned without the sheer. vindictiveness of the abusers. They did not let up but instead "got to" people around me, mainly people. at work, to do their. dirty work for them. I went to see my GP, who refused to believe what he was being told, and refused to direct me on to anyone who. could be of practical assistance. It was not until three years had passed that the. GP admitted the. matter was outside his competence and suggested going to the police.

In. the summer of 1994 we called in counter-surveillance experts from a private detective agency. to sweep our house and telephone for bugging devices. They conducted a thorough search and found nothing; but as. noted above, since the existence of. surveillance was being forced in my face by the harassers, you would expect them to have taken the. possibility of a counter-surveillance sweep into account when planning. the type of devices to be. employed.

In Easter 1995. I made a complaint to my local Police station in London, but the police have not. expressed any intention to do anything about the continuing harassment. ("we're not saying it's happening and we're not saying it isn't happening" were the words used).. I think the officer I spoke to at Easter wasn't aware of it happening,. although other members of the police force. obviously do know.

From April 1995 until the present time the matter has been. discussed in a lot of detail on. the Usenet (Internet) "uk.misc" newsgroup. That discussion has given birth to. the article which you are now reading. My hopes in posting to Usenet were that wider. publicizing would discourage the security services from continuing. their harassment, and "draw people out" into concurring with the truth. of what was being said. Neither of those have followed, but the. discussion has served a purpose in allowing this structured report. to be created.

-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=
-= MI5: methods. and tactics -=
-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=

They. deliberately set out to harass in a way that would resemble the symptoms of schizophrenia, so. that any report of the harassment would be taken as indicating mental illness and "treated" accordingly.. They never show their own faces; they only work through proxies, in the media,. among the public, and by manipulating people in the workplace.. Since they do not declare their identity there is no evidence to initiate legal. action against the. security services or anyone else. The only people you can prosecute are the proxies and. they will deny knowledge of any conspiracy.

By repeatedly humiliating and abusing the victim, they induced. mental illness. This is the worst form of human rights violation: making. any statement of. the harassment appear to be symptomatic of the illness which they cause through the harassment. That this can happen, and. people collude by. silence, is absolutely horrifying.

From the beginning in June 1990 they set a pattern. of harassment which they have followed without. change for the last six years. They paint me as a "threat" to which people. must "react" (shades of Nazi persecution methods), while simultaneously portraying their hate campaign on. which they have spent over. a million pounds of taxpayers� money as a "joke".

The MI5 that breaks the law with the silent. complicity of the police is the same agency that is now seeking a role in. the fight against crime. Perhaps the real joke is. the proposed involvement in the implementation of justice of an organisation which commits criminal acts with. secrecy and disinterest for the legal. process.

-= MI5: methods and. tactics -=
-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=

They deliberately set out to harass in a way that. would resemble the symptoms of schizophrenia,. so that any report of the harassment would be taken as indicating mental illness and "treated" accordingly. They. never show their own faces; they only work through proxies,. in the media, among the public, and by manipulating people in the workplace. Since. they do not declare their identity there is. no evidence to initiate legal action against the security services. or anyone else. The only people you can prosecute are the proxies and. they will deny knowledge of any conspiracy.

By. repeatedly humiliating and abusing the victim, they induced mental illness. This is the. worst form of human rights violation: making any statement of the harassment appear. to be symptomatic of the illness which they cause through the harassment. That this can happen,. and people collude by silence,. is absolutely horrifying.

From the beginning in June 1990 they set a. pattern of harassment which they have followed without change. for the last six years. They paint me as a "threat" to which people must "react" (shades of Nazi. persecution methods), while simultaneously portraying their hate campaign. on which they have spent over a million pounds. of taxpayers� money as a "joke".

The MI5 that breaks the law. with the silent complicity of the police is the same agency that is. now seeking a role in the fight against crime. Perhaps the real joke is the. proposed involvement in the implementation of justice of an organisation which commits criminal acts. with secrecy and disinterest for. the legal process.

-= why the. security services? -=
-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=-=

You may ask, why do I think the "they" referred. to are the security services? Is there. any evidence that there is a single source, as opposed to a loosely based. "whispering campaign" amongst many people? Even if there is a single source, is. there any evidence that "they" are professional "buggers". as opposed to amateurs, or perhaps people working for a privately funded. organization?

a) As to the question of a single source versus something more. fragmented; it is quite obvious that there is. a single source from the way the campaign has been. carried out. Since things have been repeated verbatim which were said in my home, there must be one. group which does the watching and listening. Since on several occasions (mainly. during travel) people have been planted in close proximity and rehearsed in what they. were to say, it follows that someone must have done the planning for that,. and again a single source is. indicated.

b) So why couldn't. it be amateurs? Why couldn't it be a private organisation,. for example a private detective agency paid to manage the campaign and. undertake the technical aspects? Some detective agencies are unscrupulous as has been proved on the. occasions in the past when they've been exposed or caught; they too can have. access to the bugging technology deployed; and there are reported. cases of MI5 paying private eyes to do their dirty work (against. peace campaigners and similar enemies of the state) on the. understanding that if they were caught then they could deny all. knowledge. Why couldn't that be the case?

The main factor pointing to direct security service involvement. (as opposed to amateurs or MI5 proxies) is the breadth of their. access to the media in particular, and the fact. that the television companies are so involved in the campaign. The BBC would not directly invade someone's home. themselves, since it would not be. within their remit to allocate personnel or financial resources to do so. An organisation of their stature. would not take part in a campaign set. up by private sources. The only people they would take material from would be the security services, presumably. on the assumption that if the cat ever flew out of the bag yowling it would. be MI5 who would take the. consequences.

State sponsorship. for these acts of psychological terrorism is also indicated by duration; support for over six years for a team. of three or four people would be beyond the means and will. of most private sources. The viciousness of the. slanders and personal denigration also points to MI5;. they traditionally "protect" the British state from politicians of the wrong hue by character assassination, and in this case are using. their tried and tested methods to murder with words an. enemy they have invented for. themselves.

And there are precedents. Diana and Hewitt. were alleged to have been filmed "at it" by an Army intelligence team which had operated. in Northern Ireland, these. allegations were made by someone called Jones who had been on the team. His statements were denied by. the defence establishment who tried to character-assassinate by describing him as. the "Jones twins". Funny how if you tell the truth, then you must be ill,. isn't it? Thought only. communists behaved like that?

Hewitt later said that he'd. been spoken to by someone in the army who revealed the existence of videotapes of him and Diana, and that. the tapes would be published if any attempt was made. by them to resume their association.

-= harassment at work. -=
-=-=-=-=-=-=-=-=-=-=-=-=

Once I stopped watching television and listening to. the radio at the end of 1990, "they" had to find other ways of committing abuses. So. they took what must be for them. a tried and tested route; they get at you by subversion of those around you. Since they wouldn't. be able to do that with my family or friends, that meant getting at people. in the workplace to be their mouthpieces and. do their dirty work for them.

They supplied my employers in Oxford. with details from what was going on in my private life, and what I. and other people had said at my home and accommodation in Oxford. So people. at work repeated verbatim words which had been said in my home, and repeated what I'd been. doing recently. Often the most trivial things, the ones from your domestic life, are. the ones which hurt most. One. manager in particular at Oxford continuously abused me for ten months with verbal sexual abuse, swearing, and threats. to terminate my employment.. After ten months I was forced to seek psychiatric help and start taking medication,. and was away from work for two months. I spoke later with a solicitor about what had happened at that company; he. advised it was only possible to take action if you had left the company as a. result of harassment, and such an action would have to be started very soon. after leaving.

Over a year later the same manager picked on another. new worker, with even more serious results; that employee tried to commit suicide with. an overdose as a result of the ill-treatment, and was forced. to leave his job. But he didn't take action against. the company, either. Abuse at work is comparable to that. elsewhere in that tangible evidence is difficult to produce, and the abusers will always. have their denials ready when challenged. And even if a court accepts what you. say happened, it still remains to prove that abuse causes the type of breakdown I had. at the end of 1992. In a recent case before a British court, a former member. of the Army brought a case against others. who had maltreated him ten years previously. Although the court accepted. that abuse had occurred, it did not agree that depressive illness necessarily followed,. and denied justice to the. plaintiff.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3Y, BOUVET ISLAND (Update). There have been a few reports that Petrus/3Y0E has been active, but there have also been some reports that there have been several pirate stations on. Sounds clips of Petrus operations is now available on the 3Y0E Web page. Look for updates and announcements on the official 3Y0E operation Web page at: http://www.3y0e.com

5H, TANZANIA (IOTA Op). Hans, DL7CM, will once again be active as 5H1CM from Uroa White Villa, Zanzibar Island (AF-032, Grid KI93, WLOTA LH-1080), January 13-24th. He will be here on holiday with his wife, so activity may be limited. Activity will be on 160-6 meters (mainly on the low bands), CW, SSB and RTTY. He will be using an IC-706 w/800 watt amp into a long sloper (31 meters) for 160/80m and other wires antennas. QSL via DL7CM; bureau is "OK" or direct (prefered) to: Hans-Rainer Uebel, Hartmannsdorfer Chaussee 3, 15528 Spreenhagen, Germany. For more info, visit his Web page at: http://www.qsl.net/dl7cm/5H1.htm

AH0/KH0, MARIANA ISLANDS (Reminder). Operators Koya/JI5RPT and Toru/JI5USJ will be active as AH0V and KH0/JI5USJ from Saipan this week between January 10-14th. Activity will be on 80-6 meters, also 60m for USA, the satellites, CW, SSB and Digital modes. Operations will be from Saipan Rental Shack. Koya states, "I'll try to operate on 60m. If you want a SKED on 60m band, please E-mail me." His E-mail address is: ji5rpt@jarl.com
QSL AH0V via JI5RPT and KH0/JI5USJ via JI5USJ. ADDED NOTE: Visit JI5RPT's

ANTARCTICA NEWS............................

Helmuth, W6KDX, current radio operator at KC4AAA from Amundsen-Scott South Pole Antarctica Base can usually be found on 20 meters SSB (watch around 14177 or 14200 kHz) between 1700-0400z. Scotty, WK3N, recently talked to Helmuth and was told that Larry, K1IED, is the QSL route. He was also told that Larry has not answered cards currently, as many of the logs remained at the South Pole. Helmuth intends to gather up all logs he can find and have them sent to K1IED. Helmut says he likes to chat rather than run pile-ups. He also stated that some have received cards by using the direct mail route to the KC4AAA station.

Les, GM3ITN, has put together a very nice "Antarctica QSL Gallery". Maybe you worked some of these stations. Take a look! You can visit the Web page at: http://www.angelfire.com/falcon/leshamilton//1stalbum/

The La Salle Radio Club has received a license to operate from the "Spanish Antarctic Base Juan Carlos 1" as ED3RKL. The Spanish scientific expedition will stay there until January 17th. Activity will be limited to operator's spare time.

Ludwig, ZS6WLC, is expected to be active as ZS7BYRD from the SANAE IV Antarctic Base between now and February. Activity will be on 20 meters using CW, SSB and AM. QSL via operator's instructions.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, informs that the following operations are approved for DXCC credit:

5L2MS - Liberia 2007 Operation
D2NX - Angola 2007 Operation
S79UU and S79AB - Seychelles Islands 2007 Operations

DX MAGAZINE'S "2007 MOST WANTED SURVEY RESULTS". You may want to pick up a copy of the January/February 2008 "The DX Magazine". The magazine has the results of the top 100 "Most Wanted Countries" for the year 2007. The survey's breakdown and results were done by Carl Smith/N4AA (DX Mag's editor), Roger Western/G3SXW and Tim Kirby/G4VXE. The "Top Ten" countries (entities) in the "World-Wide" ranking mixed modes are as follows (listed with last year's results):

2007 Rank	DXCC Entity	2006 Rank
1	North Korea (P5)	3
2	Yemen (7O)	4
3	Navassa (KP1)	5
4	Glorioso (FR/G)	6
5	Bouvet (3Y/B)	7
6	Marion Island (ZS8)	9
7	Desecheo (KP5)	8
8	Scarborough Reef (BS7H)	1
9	Crozet (FT8W)	11
10	Heard Island (VK0/H)	10

From the looks of the list, last year's top 5 entities have moved up two. Why? Two major operations in 2007 have caused this change in the list. First was the Lakshadweep (VU7) operations in late 2005 and early 2007. VU7's ranking last year was 2, but now it is 64 (Wow! What a drop.). Then there was Scarborough Reef (BS7H) in May 2006. BS7H went from a

ranking of 1 to 8. This number is real deceiving. After further looking at the breakdown of the regional charts, BS7H's ranking (*w/2006) are as follows: Europe Only - 28 (1), Asia Only - 39 (7) and North America - 3 (1). No charts were published in the article for the VK/ZL, South America and Africa. North American stations may find this interesting. Ranking by time zones: Pacific - 20 (4), Mountain - 8 (3), Central 3 (1) and Eastern 3 (1). For more details on the results, please pick-up a copy of this super publication. Also, Carl, N4AA, editor of "The DX Magazine" and "QRZ DX Newsletter", will usually have a listing of the results on the following Web page at: http://www.dxpub.com/
We will make an announcement when they are added to that Web site. ONE LAST NOTE: Also in this January/February 2008 issue is the interesting story of the BS7H operation.

DX SOUND CLIPS. Tom, K8CX, noted for his great "Ham Gallery" Web site, has added a new page of interest for DXers. He now provides 111 DX Sound Clips from DXpeditions that took place in 2007. Visit the new page at:
http://hamgallery.com/dx2007/
All were recorded by K8CX.

FJ, ST. BARTHELEMY (DXCC Newest Entity!)....................

By the time you read this, Paul/F6EXV and Yuichi/JR2KDN should be on Saint Barthelemy and "possibly" active as early as late evening January 6th. Activity will last until January 20th. Paul/F6EXV informed OPDX that they have received the proper license and were issued the special callsign TO5FJ. This callsign will be used on all bands and modes. QSL via F6EXV. Support will be appreciated, as some of the equipment will be donated to the FJ5KH radio club for the use by club members. A Web page is now up and running for this activity at: http://www.f6exv.org Paul suggests, "Please update your logging programs so the call is recognized as Saint Barthelemy." Activity will be on 160-10m, CW, SSB and RTTY. They will use beam antennas from Cushcraft, vertical and dipole antennas, Yaesu FT2000 and FT857 plus 500W amplifiers.

Gregg, W6IZT, will be active from the club station FJ5KH on the island between January 9-11th. QSL via FJ5KH using the QRZ.com address.

Craig, AH8DX, has announced that he will be active as FJ/AH8DX during the ARRL DX SSB Contest (March 1-2nd) as a Single-Op/All-Band entry. Look for activity before and after the contest on 30/17/12 meters and RTTY. QSL via AH8DX.

(Update) Members of the RZS Amateur Radio Club (W2RZS) are expected to be active from here between March 25th and April 1st. They plan to operate in the upcoming CQ WW WPX SSB Contest (March 29-30th). The W2RZS team will tentatively consist of Bob/WB2NVR, Mike/WA2VQW, Bob/N2DVQ and Adam/N2DHH. They will be concentrating on 160m and the 30/17/12 meters bands before and after the contest, and of course, operate 80/40/20/15/10 meters during the contest. Mike/WA2VQW informs OPDX, "Our antennas will be the same as we have been using for our three previous J75 DXpeditions. We hope to get as many of you in our log as possible during our 7 day stay. Please don't hesitate to give us a call, we will look for the 'weak ones' and the MOBILES!"

FO/M, MARQUESAS ISLANDS. Operators Jouko/OH1RX, Pertti/OH2PM, Veijo/OH6KN and Juha/OH8NC will be active from Nuku Hiva (OC-027), January 9-22nd. Activity will be on 160-10 meters with a maximum of three stations running. However, they plan to concentrate on 160-30 meters. Here are the following suggested frequencies:

CW - 1822, 3502, 3523, 7008, 7023, 10108, 14008, 14023, 18068, 21008, 21023, 24898 and 28008 kHz
SSB - 1845, 3790, 7050, 19195, 18145, 21295, 24945 and 28495 kHz
RTTY - 14080, 21080 and 28070 kHz

Their callsigns will be announced later. QSL via OH2PM, by the Bureau or direct to: Pertti Simovaara, Suomusjarventie 460, 25390 Kiikala, Finland. Martti, OH2BH, has been announced as the pilot station for their operation. Their Web site is now available online at:
http://sm0w.com/marquesas/

HB0, LIECHTENSTEIN. Bernd/DL6IAN and his XYL Petra/DO6IAN will be active as HB0/DL6IAN and HB0/DO6IAN, July 13-18th. Activity will be holiday style mainly on SSB with some CW. QSL via their home callsigns, by the DARC Bureau or direct.

HI, DOMINICAN REPUBLIC (NA-096). Look for Simone, IZ5JNQ, to be active from Santo Domingo this week. Callsign was not announced but he is expected to be there between January 8-26th. Activity will be on 20/15/10 meters, SSB and the digital modes. QSL direct to his home callsign.

IOTA NEWS............................

SA-071. (Correction - not SA-021 as listed in OPDX.839) A team of Brazilian operators will be active as PW2M from Moela Island, February 1-8th. See OPDX.839 for details.

KG4, GUANTANAMO BAY. Tip, N4SIA/KG4AS, informs OPDX that he and three other operators will be going to GTMO at the end of January for 2 weeks. The team will be erecting a new Force 12 and a new windom antenna, plus make some repairs to other equipment. They plan to be on the air on all bands. More info and the callsigns are forthcoming.

NEW SOLAR CYCLE 24 HAS BEGUN! Solar physicists, who have been waiting for an appearance of a reversed-polarity sunspot, state that this event has taken place on January 4th. This reversed-polarity sunspot signals the start of a new solar cycle. However, this mark may indicate the beginning of "Solar Cycle 24", but does not mean we may see large increases in solar activity right away. "Space Weather News" states, "Solar cycles usually take a few years to build from solar minimum (where we are now) to Solar Max (expected in 2011 or 2012). It's a slow journey, but we're on our way!" For pictures of the new sunspot and updates, please visit the following Web page at: http://spaceweather.com

PJ7, SINT MAARTEN. By the time you read this, Gregg, W6IZT, is expected to be active as PJ7/W6IZT (just before his FJ operation -- See above) until January 8th and again between January 11-13th. Activity will be limited (family vacation), but operations will be on 80-10 meters, CW, SSB and RTTY. QSL via AI4U.

QSL INFO AND NEWS.....................

Tony, XE1GRR, Pilot Station for 6E4LM, XF4YK and XF4YW, informs OPDX that he has uploaded all the logs (6E4LM, XF4YK and XF4YW) on the following Web site at: http://www.6e4lm.xedx.org

Milan, OK3AA, QSL Manager for ET3JA, informs OPDX that as of January 1st (2008), international postage from OK-land has gone up, so one USD is now not sufficient for QSL returns.

FJ/OH2AM logs are now available online at the following Web site:
http://www.n4gn.com/cgi-bin/fjlogsearch

NEED A QSL MANAGER! Frank, N3ZOM, informs OPDX that he is offering his services as QSL Manager to any Amateur outside of the USA. His E-mail is good via QRZ.com.

OLD QSL COLLECTION. Jean Michel, F6AJA, wants to remind everyone to visit the Les Nouvelles DX (LNDX) Web page to see more than 4900 old QSL cards in several different albums/galleries. This site contains:

- The ten most wanted DXCC entities (2004, 2005, 2006) with more than 160 QSLs
- At least, one card, for each 58 deleted DXCC countries (more than 400 QSLs)
- Nearest the totality of current prefixes, disappeared now (more than 1900 QSLs)
- More than 600 QSLs from the Antarctic bases.
- Nearly 230 QSLs from the TAAF (Terres Australes and Antarctiques Fran�aises).
- More than 100 QSL for the rare French islands such as FK/C, FO/C, and FR/B/E/G/J/T
- More than 250 cards for the old timer with more than 110 countries before 1945.
- A card from the French Department before 1945.
- One card from each of the states in the U.S. before 1945.

The URL address for the Web site is : http://LesNouvellesDX.free.fr Some cards are still needed for the collection, and your participation is welcome. Please visit their site and give them your comments by sending an E-mail to: LesNouvellesDX@free.fr

VK4FW QSLING. QSL Manager Bill Horner, VK4FW, reports: "All QSLing has been postponed until further notice for all callsigns I manage. I am 4 hours away from home, nursing my wife back to health. She has just coompleted her 6th session of chemo, so we expect to be here for another couple of months at this stage. As soon as I return home QSLing will be an IMMEDIATE PRIORITY..... Regards, Bill Horner VK4FW"
(OPDX and its readers wish Bill's wife a complete recovery.....)

QSL Manager Jim, N1NK, has informed the DX community that he has uploaded the logs for Yuri, XE1UN, to LoTW. This includes XE1NVX, 6J1UN, 4A1UN, 6H1UN and XE1UN.

QSLS VIA LOTW: 4O3A, 5J0A, CT3IA, DL2DX, GI0KVQ, GM3POI, J3A, J38AA, N8S, PJ2/DL5CW, V26H and ZL8R

QSLS RECEIVED VIA MAIL: 3C7Y, 3D2VB, 3X5A, 5B4NC/p, 5X1VB, 5Z4/UA4WHX, 6W1SJ, 7Q7VB, 9J2VB, 9U0VB, C6ATA, HI3A, OY/PA0VHA, TK/F5OAM, V36M, VE1OTA, VE1OTA/9, VP8CXV, Z2/UA4WHX, Z29KM and ZP5AA

QSLS RECEIVED VIA THE BUREAU: No reports this week....

TF, ICELAND. Siggi, TF3CW, will be active during the CQ 160-Meters CW Contest (January 26-27th) as a Single-Op/Single-Band (40m) entry. His QTH will be from Seltjarnarnes (EU-021, WLOTA LH-2975). QSL via LX1NO.

TR, GABON (Update). Roland, F8EN/TR8CR, continues to be active from Libreville until January 12th. He has received a special callsign TR50R (TR5 Zero R) for celebrating his 50 years in amateur radio. Roland was spotted using the special callsign this past week on CW on 14006 kHz around 1530z. Generally, most of his activity will be on 20 meters during his morning and evening hours. QSL via F6AJA or F8EN.

VP6/D, DUCIE ISLAND. Thirteen operators are still preparing for their large operation to this remote island which takes place in February. The VP6DX international team consists of Dietmar/DL3DXX, Ben/DL6FBL, Carsten/DL6LAU, Andy/DL8LAS, Tonno/ES5TV, Eric/K3NA, Milt/N5IA, Harry/RA3AUU, Les/SP3DOI, Robert/SP5XVY, Cliff/SV1JG, Andy/UA3AB and Robert/WA6CDR. All operators will fly to Mangareva on February 5th and board "Braveheart" (already waiting in port). After clearing French Polynesia customs, the team will set sail to Ducie Island (as early as February 6th, but no later than February 9th). Weather and sea conditions permitting, the team should be at the island early Saturday morning at sunrise (but no later than the 11th). The schedule for the beginning of the tear down will be February 27th. They will have two operating sites with possibly 7 stations on the air. Activity will be on 160-6 meters, CW, SSB and RTTY. QSL via DL6LAU, Direct only to: Carsten Esch, Drosselweg 3, 21376 Salzhausen, Germany. For Bureau QSL cards, they request you use the "Online QSL Request System" found on their Web site (See the Web site for details). They will confirm the online QSL requests for bureau cards at the very last after the direct requests are processed (probably 8-12 month after the expedition). PLEASE DO NOT send cards via the bureau! The team is still looking for contributions because of the very high cost of this operation. For details on how to donate funds, up-to-date news, profiles of the operators, and an on-line log search during the operation, please visit the VP6DX Web page at: http://www.vp6dx.com

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

For more information about our newsgroup, see:

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to rec-radio-info-request@panix.com.

3C, EQUATORIAL GUINEA. Operators Fred/KH7Y, Luis/EA5BRE, Vic/EA5YN and Elmo/EA5BYP are now active as 3C7Y from Bioko Island (AF-010) until October 14th. Activity will be on all bands and modes SSB, CW and RTTY. QSL via EA5BYP. Visit the team's Web page at:
http://personal.telefonica.terra.es/web/ea5yn/3c7y.htm

3D2/R, ROTUMA (Update). Tony, FO5RK, who is planning a DXpedition to Rotuma (OC-060), is expected to be active as 3D2AG/P starting on December 15th, and lasting until January 20th or so, depending on transportation schedules. Antoine will leave for Rotuma from Suva, Fiji, via an inter-island shipping vessel which takes 48 hours to reach the isolated island some 500 km to the northwest. There is no main electricity or adequate supplies of fuel or any other commodities on the island, so all necessary items will need to be taken by boat. Tony will be managing his own QSL requests upon his return home. QSL only direct and please include either 2 USDs or 1 IRC with a SAE for your QSL card. The QSL cards are being printed by UX5UO and the DXpedition is being sponsored by SPIDERBEAM. Upon Tony's return home, he will have his log available online at:

http://www.3d2ag.fr.tc/

QSL requests should be mailed direct to Tony at his QRZ.com address.

4U50, UNITED NATIONS HQ (Special Event). Look for 4U50SPACE to be active at various times from the United Nations HQ (4U1UN) through October 10th. Activity is to celebrate the 50th anniversary of the launch of Sputnik. QSL via HB9BOU.

5Z4, KENYA. Miki, YT1CS, is once again in Africa and is active as 5Z4/YT1CS as of October 6th. He is expected to be in the Coast Province South Group (AF-067) until the end of the month. Look for him to be active in the CQ World Wide DX SSB Contest (October 27-28th). He will be active mainly on SSB using a TS-450S into a vertical antenna for 40-10m, and a dipole for 80m. QSL direct to his home address.

6W, SENEGAL. Jacques, F6BEE, will be active as 6W1RW starting November 19th. He plans to be active in the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/High-Power entry. QSL via F6BEE, by the bureau or direct.

6Y, JAMAICA (Update/Correction). John, W2GB, will be active as 6Y0B from October 23-30th. He states that he will be active before and after the CQ World Wide DX SSB Contest (October 27-28th). QSL via W2GB.

6Y, JAMAICA. Rick/N0NJY and JoAnne/KB0IRW will be active as homecall/6Y5 from Runaway Bay, October 12-14th. Activity is to celebrate their 30th wedding anniversary and 18 years as hams together! QSL via N0NJY. Rick informs operating times will APPROXIMATELY between 1700-2100z on Friday and Saturday, and 1700-2000 on Sunday. It will be a split frequency operation during operations hours on 14190 +/-10 kHz (Listening 14200-14230 +/- 10 kHz). Equipment will be an ICOM IC-735, Alinco Power Supply, and a homebrew antenna. Visit their Blog site for more information, comments, pictures, and QSL information at:

http://jamaicadxpedition2007.blogspot.com/

9K, KUWAIT (Correction/Update). Jon, KL2A, will be active as 9K2HN (not 9K2A) during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band entry. QSL direct or by the bureau to 9K2HN. More information will be available at: http://www.kl2a.com

A5, BHUTAN. Kunio, JA8VE (A52VE), had to leave Bhutan on September 3rd due to health problems. He intended to stay until March 2009.

AH0, MARIANA ISLANDS. Members of the Aquarius Beach Tower Contest Club will be active as AH0BT from Saipan during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi/2 entry. QSL via 7L1FPU.

BX5, TAIWAN. Jimmy, BX5AA, will be active during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band/High-Power entry. Jimmy states that BX5 is a rare prefix for Taiwan (CQ 24). QSL via BX5AA.

This will be a QRP, portable, holiday style operation using a Yaesu FT-817 ND (5 watts QRP Rig) into a Buddistick (portable/vertical antenna). Activity will be on PSK31 digital mode on 4070.15 kHz everyday from 2200-0000z and occasionally on 40/15/10 meters (No 30/17/12m). QSL via the bureau or direct to his home callsign (see QRZ.com).

CN, MOROCCO. M'hamed, CN8NK, will be active as CN4P during the CQ World Wide DX SSB Contest (October 27-28th). Operating class was not provided. QSL via EA5XX.

DXCC NEWS (DXCC 'Applications Received' Web Link). Bill Moore, NC1L, ARRL DXCC Manager, states, "Ever wonder when DXCC received your application? Well, there is a feature on the DXCC Web site that allows you to verify that it has been received, and when! To determine this, visit the DXCC Web site at: http://www.arrl.org/awards/dxcc
Near mid-page there is a link titled "List of DXCC Applications Received"
After clicking this link the callsigns and date logged into the DXCC computer will appear here. Callsigns are listed alpha-numerically. (note, this is not the date received from the post office, it is the date your application was logged into the DXCC system. This date could be several days after receipt from the post office).
At the top of the page is a date. This date is always the Friday of the current estimated period DXCC is mailing applications. (Note: It may or may not be the exact date). Due to the sheer volume of applications that pass through DXCC, applications before and even after this period may be in progress.
Can the approximate turnaround time be determined by this? While not exact, yes, the turnaround time can be estimated:
Using the current date look at the mailing date. The difference between these two dates is the approximate turnaround time. (eg: If today's date is September 10, 2007 and the date shown on the web page is June 22, 2007, the estimated turnaround time can be determined to be approximately 2.5 months. Again, this is only an estimate.)"

EA6, BALEARIC ISLANDS. Duncan, EA5ON, will be operating as EA5ON/6 for the CQ World Wide DX SSB Contest (October 27-28th), possibly as a Single-Op/Single-Band (80m - although yet to be determined). He "may" also operate as EA6/GM7CXM during his off time.

GW/MW, WALES. Members of the Wythall Radio Club and Contest Group, along with some friends, will be on the air from a group member's farm on the Pembrokeshire coast in West Wales during the CQ World Wide DX SSB Contest (October 27-28th). The group will be using the club's callsign MW5W and enter the contest as a Multi-Multi entry with three stations. The team will consist of: Chris/G1VDP, Tim/M3SDE, Charles/M0OXO, Oliver/M3SDO, Ant/MW0JZE, Villiam/OM0AAO, Ian/M0KCM, Neil/M3POV (Novice Op, First Contest), Daz/MW5HOC and Rob/MW0RLJ (the Host and Farm owner). Some of the operators will be on the air before the contest signing their own callsign. For example, G1VDP will become GW1VDP, from the Farm. G1VDP will also be operating some CW and DATA from the location in the days before the contest. The group will also have the option of adding 3 additional stations if they choose. The reference numbers are: Loc: IO71LX, WAB:

SM83 PEM (Pembrokeshire), Lat: 05:04:53 W and Long: 51:59:41 N. QSLs for this operation will be available via the QSL Manager M3SDE (see QRZ.com).

H40, TEMOTU PROVINCE. Reports indicate that operators Mike/KM9D and Jan/KF4TUG have anchored their boat off the shore of Tikopia Island (OC-178). They are expected to be active as H40MY very soon (probably by the time you read this).

IOTA NEWS...........................

EU-031. Helmut, OE1MHL, will be active as IC8/OE1MHL from the Island of Ischia (IIA NA-001, MIA MI-042, WLOTA LH-0689), October 7-12th. Activity will be holiday style on all bands from 0500-0900z and from 1700-2000z. QSL via his home callsign.

NA-088. Tom, W4JKC, will be working at a biological field station on the Isla Colon in the Bocas del Toro Province Group from October 12th to November 2nd. Activity will be limited as time permits. Look for him on 40/20/18/15/10 meters CW and SSB. QSL via W4JKC.

OC-193. Operators Wally/VK6YS, Nigel/VK6KHD and Bruce/KD6WW will be active as VK6CHI from Cheyne Island from about 0900z, October 12th to about 2400z, October 15th. Activity will mainly be on 40/30/20 meters, CW and SSB. QSL direct to VK4AAR:
Alan Roocroft, 376 Old Toowoomba Road, Placid Hills, QLD 4343
Australia. ADDED NOTE: Remember, Wally/VK6YS and Bruce/KD6WW will also be active as VK6YS/p from Rottnest Island (OC-164, WLOTA LH-2197), possibly between 1100z, October 15th to 0300z, October 17th.

SA-090. Look for a second YL DXpedition organized by the 4M5DX group to take place from Chimana Grande Island (DIV-008 for the Venezuela Islands Award), December 12-16th. YL operators will sign YW6YL, and the team of operators include Andreina/YY4AND, Carolina/YY4CVI, Laura/YY4LCG, Maika/YY5ALO and Ydorca/YY5EVA. QSL via IT9DAA, direct preferred but the bureau is OK. More information can be found at: http://www.yw6yl.4m5dx.org/

IQ, ITALY. Look for the Strange Radio Team HQ Station, IQ8OM, to be active during the CQ World Wide DX SSB Contest (October 27-28th). Operator mentioned will be Oreste, IZ8EDJ. He states that a special QSL card will be printed. QSL via IZ8EDJ, by the bureau.

LIGHTHOUSE & US-I ACTIVATION. Special Event Station W3B will make a second attempt to operate from the site of the Blackistone Lighthouse, ARLHS USA-060(H), on St. Clements Island, Maryland (US-I MD-028R) from approximately 1400z to 2000z on Saturday, October 13th. Two operators will be on the air utilizing 40/20/17 meters SSB only. QSL is via SASE to KA3UNQ. (See complete instructions on QRZ.com.)

NH2, GUAM. Koji, JL3RDC, will be active as NH0DX/NH2 during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band/High-Power entry. QSL via JL3RDC.

OH0, ALAND ISLAND (UPDATE). Operator Ari, OH5DX, informs OPDX that there will be three Single-Band entries from the Radio Sporting Team site (OH0Z) during the CQ WW CW Contest (November24-25th). Please look for OH0M (by OH1JT) on 160m, OH0Z (by OH5DX) on 15m and OG0Z (by OH1RX) on 10m. QSL OH0M via OH1MM, OG0Z and OH0Z via W0MM.

P29, PAPUA NEW GUINEA (Updates/New IOTAs). Operators Luis/CT1AGF, Derek/G3KHZ, Steve/G4EDG and Hans/SM6CVX have finished up their operation on Takuu Island (OC-283) on Saturday, and as this was being written, the team should be on their way to Kilinalau Island (OC-256, aka Tulun Islands). It will be an 18 hours trip to OC-256, and they hope to be active for two days. They will try to be on the air the same day they arrive. The report from Carlos, CT1END, by the team states, "We have 4 rigs, one for each of us. Everyone operates for as long as he can, but eventually fatigue takes over and we are sorry for some mistakes we make when we start falling asleep while operating!" Look for them to possibly sign as P29VLR before returning to Buka. QSL P29NI via G3KHZ. QSL P29VCX and the Kilinalau Island operation via SM6CVX. The group is looking for support from the ham community. More details and updates are available on their Web page at:
http://www.rep.pt/P29-PapuaNewGuinea/
PLEASE NOTE: QSL Manager SM6CVX wants to remind everyone that postage from Sweden is 11 SEK to any place outside Sweden, even to Europe and Scandinavia. This is the same as 2 USDs. So for a direct reply from P29VCX and P29VLR, please send 1 IRC or 2 USDs.

P3, CYPRUS. Operators Bob/5B4AGN, George/5B4AGC, Stephen/G3VMW, David/G3NKC, Peter/G4MJS, Martin/G4XUM, Phil/GJ4CBQ and Andy/ZC4VJ/G3AB will be active as P3F during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi/2 entry. PLEASE NOTE: QSL via G3NKC "ONLY" for this operation.

PZ, SURINAME. The 4M5DX Group is organizing a DXpedition to here to take place in the first half of January 2008. A multi-national team of skilled and experienced operators is being put together, and their plans are to have three stations active for 10 days. They will operate as PZ5YV on all bands (160-6 meters) CW, SSB and RTTY. Team members mentioned are: Olli/OH0XX, Spiros/SV8CS, Pedro/HK1X, Alex/YV5SSB, Ramon/XE1KK, Jose/YV5TX, Diego/LU8ATX, Pasquale/YV5KAJ and Ramon/PZ5RA. They are currently looking for financial assistance to help offset the costs. For more information, please visit: http://pz5yv.4m5dx.org/
For a full colored QSL card, please QSL via IT9DAA (direct or by the bureau).

TX5, CLIPPERTON ATOLL (Special Commemorative Envelope). In commemoration of the 30th anniversary of FO0XA-H, a special French postal envelope has been issued. See Web page at: http://www.clipperton2008.org/Special.htm To receive both special commemorative envelopes, send 15 USDs and 2 USDs or 1 IRC with a SAE to: Danielle DUCHAUCHOY, 21 rue de la Republique, 76420 Bihorel, FRANCE. They are available in English as well. Be sure to designate which version on your request. Paypal is accepted to:
f6bfh@f6bfh.net

UT, UKRAINE. Ben, OZ5AAH/OZ5IPA will be active as UT/OZ5IPA from Kiev Borispol, Ukraine, from October 30th to November 7th. Activity will be on CW and SSB using a wire antenna (if nothing better turns up). He will, as usual, particitate in "The International Police Association's Contest (November 3-4th). This will be a new country for all the IPA awards. QSL via his homecall direct: Ben Jakobsen, Gjethusparken 25, DK-3300 Frederiksvaerk, Denmark.

VC2, CANADA. Operators Noel/VE2BR and Gregg/VE3ZZ will be active in the CQ World Wide DX SSB Contest (October 27-28th) from Mercier, Quebec (Zone 5, Grid Loc FN35dh), using the special call VC2Z. QSL via VE2BR.

VK, AUSTRALIA (Also IOTA Ops). Operators Christoph/DK2CRN and George/DL1ECG will be active as VK2AMB and VK2ALU, respectively, October 9-27th. They also plan to activate Fraser Island (OC-142, WLOTA LH-2976), Heron Island (OC-142), Hamilton Island (OC-160) and Dunk Island (OC-171) between October 16-26th. Their activity will be mainly holiday style. QSL via their home callsigns, direct or by the bureau.

VK9L & VK9N, LORD HOWE and NORFOLK ISLAND. Jack, HB9TL, is expected to be active this week from Lord Howe Island (OC-004) as VK9CLF from October 8-18th. He also expected to be active from Norfolk Island (OC-005) from October 19-25th. Activity from both islands will be on 80-10 meters mainly on SSB. QSL direct via HB9QR.

VP6D, DUCIE ISLAND. According to a press release by Carsten, DL6LAU, Team leader, the VP6DX team is still very busy preparing the equipment for a shipment in November. There have been some changes since the last report. He states, "Unfortunately Jan, DJ8NK, and Martti, OH2BH, had to withdraw but we were fortunate to complete the team with some very skilled operators. These are Ben - DL6FBL, Tonno � ES5TV, Harry � RA3AUU and Cliff � SV1JG. So here is the list of people who will head out to Ducie in February 2008 and give you this rare one: DL3DXX, DL6FBL, DL6LAU, DL8LAS, ES5TV, K3NA, N5IA, RA3AUU, SP3DOI, SP5XVY, SV1JG, UA3AB and WA6CDR." Carsten also states that they are "eagerly waiting to give the Elecraft K3s the real test on Ducie. ACOM amps are already packed, microHAM micro Keyer II for all stations should arrive soon and will be used between the radios and the PCs. The new YT6A high-power band pass filters after each amplifier should help to reduce interference between stations even more."

On donations, Carsten states, "Donations prior to our departure are very important for us because basically all of the expenses (Braveheart charter and container shipment) have to be paid way before we actually depart, and the team members already paid what I would call a more than adequate share. Each of them put in 6,200 USDs,- and will pay the own transportation by air to Mangareva (FO). We are deeply grateful to the NCDXF, who contributed 20,000 USDs, - towards the costs. Without NCDXF it would be hardly possible to run a expedition like VP6DX. Please consider joining NCDXF and become a contributor to NCDXF in its 35th year as a premier sponsor of expeditions and the Beacon system. A big thank you also goes to the individuals who already sent in a donation. Even with the generous donations received so far and the contribution of the team members, we are still lacking about 50,000 USDs, - as of September 21st. We again would kindly ask you to check if you could help too. Details on how you can help can be found in the �How To Help� section."

Visit the VP6DX Web page at: http://www.vp6dx.com

Carsten states, "We are putting more content to these pages in regular intervals. If you are interested to receive a newsletter from us automatically, just visit the News section and leave your e-mail there. During the next weeks we will be busy to build the remaining antennas and prepare the container shipment with radios, amplifiers, antennas, generators and the like..... 73sss in behalf of the VP6DX team

Carsten, DL6LAU � Teamleader"

ZL7, CHATHAM ISLANDS. Polish operators Jacek/SP5EAQ, Wojtek/SP9PT, Marek/SP9BQJ are now active as ZL7/homecall until October 18th. The team is also accompanied by Jozef, SP9-31029. Activity is on all HF bands using CW, SSB and RTTY. QSL to their home callsigns.

C5 - GAMBIA

After their successful DXpedition to Mauritius Island last year Rich,OM2TW (team leader), Bob,OM1KW (CW/SSB OP), Joe,OM5AW (CW/SSB), Roman,OM2RA (CW/SSB), Noro,OM6NM (CW/SSB), and Dano,OM1NW (digi/SSB) of the "Mosquitos Contest Club" (OM0C) will show up from Gambia from Oct 17-30 this year. Activities will take place as C52C with up to four stations running simultaneously on 6-160m focussing on the Top band 160m. Their plans include a participation in the upcoming CQWW SSB Contest signing C50C and also a short trip to the island Bijol (AF-060). The QSL manager is OM2FY, he confirms direct or via the bureau. More information can be found online at: http://www.om0c.com/gambia

CE - CHILE

Roberto,CE2/YV5IAL, will be QRV with from the Pacific coast using his QRP equipment (5 watts) on 10/15/20/40m from Oct 15-21. He will try to<work in PSK31 on 14070.15 kHz every day from 2200-0000 UTC. QSLs via bureau to YV5IAL.

VK - AUSTRALIA

It is only little known that Australia issues also suffixes with four letters. These are novice licenses and more of 1.000 of them have been issued so far. The suffix always starts with a "F". Raj,VK4FRAJ, the 12 year old son of VK4AN is the only one known to work also in CW and sometimes it is not very easy for him to explain that in CW. Raj works with only 3 watts, a vertical and a logperiodic and is momentarily working on his DXCC award. He is awaiting every QSL arriving via the VK4 bureau or via the direct address of his father VK4AN:
Eddie, 17-19 Ross St, Maryborough, QLD 4650, Australia.

YK - SYRIA

Amateur radio is officially allowed in Syria for 60 years now. HAMs are allowed to use the prefix 6C60 instead of YK between Oct 15 and Nov 11.

LU - ARGENTINA

The Grupo Argentino de CW (http://gacw.no-ip.org) celebrates its 30th anniversary this year and the festivities take place in "Morse" in the province Buenos Aires. LU1DZ/E, LU5FZ/D, LU6UO/D, LU7BTO/D, LW1EXU/D and LW2DX/D will be QRV from there with two stations on 160-10m from Oct 12-15.

T31 - CENTRAL KIRIBATI

Toshi,JA8BMK, destroyed his amplifier as T30XX on Tarawa and therefore cancelled his activity as T31XX. On his way back home to Japan he hit the airwaves as 3D2WW shortly.

YV - VENEZUELA

The Radio Club Venezolano organizes an activity from Portuguesa using the call YW3AJ in all modes on all bands.The operation takes place from Oct 11-14 and counts for the Venezuelan States Award. QSL via YV5AJ. Their website is: http://www.radioclubvenezolano.org/concurso.htm

4N - MONTENEGRO

Toby,DD5FZ, is going to hit the airwaves as 4N6FZ from Oct 15-27. He may be also a guest op at the station of YT6A and plans to take part in the CQWW SSB and the WAG Contest. QSL via DD5FZ, via bureau is ok.

5Z - KENYA, AF-067

5Z4/YT1CS showed up from AF-067 on Oct 6 and will stay there until the end of the month. OM Miki is using a TS-450S, a vertical for 40-10m and a dipole for 80m, works mostly in SSB and plans to take part in the CQWW SSB Contest. QSLs direct via his homecall.

6Y - JAMAICA, NA-097

Rick and JoAnne Donaldson are celebrating their 30th wedding anniversary and 18th year on air from Oct 12-14. Listen for N0NJY/6Y5 (Rick) and KB0IRW/6Y5 around 14190 kHz. QSLs via homecalls.

SOUTH PACIFIC

Larry,N0UU, and his XYL Jo Ann are travelling through the South Pacific and Larry plans to activate following DXCC entities and IOTA Islands:

Oct 15:	FO/N0UU	Makatea
Oct 16:	FO/N0UU	Fakarava
Oct 17:	FO/N0UU	Raroia
Oct 19:	FO/N0UU	Pukara
Oct 23:	VP6UU	Henderson Island (OC-056)
Oct 24:	VP6UU	Ducie Island (OC-182)
Oct 27:	CE0/N0UU	SA-001

Larry's preferred frequencies are 21.290 and 14.215 MHz but he has been spotted also in SSB on 17m. He confirms all QSOs also via bureau and invites everybody to visit his homepage at: http://www.tri.net/n0uu

4TH STRANGE RADIO EVENT

Once again the Italian "Strange Radio Team" (SRT) organizes an event which lasts from Oct 19, 0600 UTC, until Oct 21, 2200 UTC. Following stations from all over the world will activate a special event call:

call	QSL route
AO8SRT	IZ8EDJ
CQ7SRT	CT1BWW

IRELAND, SPECIAL EVENT STATION

Guglielmo Marconi sent the first commercial radio message from an Irish place called Clifden on Oct 17, 1907. Members of the Galway Radio Experimenters Club will activate the callsign EI100MFT from Oct 13-17.

KAZAKHSTAN, SPECIAL EVENT STATION

Sputnik 1 started the era of modern spaceflight 50 years ago. The OPs UN7SW, UA9LAK/UN, UN7FW, EU1FC, RV3AR, RN3ADS and RU3AWD are activating the special event station UP50SAT from the spaceport Baikonur during the month of October. QSL via bureau to RV3AR.

THE NETHERLANDS, SPECIAL EVENT STATION

PA50JOTA from Nieuweroord is celebrating the golden jubilee of the "Jamboree On The Air" from Oct 17-31 (http//www.scoutnet.nl/~jota). QSL via PA3EFR.

SILENT KEYS

Dimitar,LZ5AZ, one of the founding members of the World Wide Young

Contesters, passed away at the age of 23 on Oct 2. The DX community bemoans also the loss of the wellknown Ukrainian DXer Alexsandr Kuznetsov,UY5EG, and the Spanish EME enthusiast Jose Maria Prat,EA3DXU.

I've been trying to get a 160 QSL from HA8FM...sent two envelopes with
$enclosures but haven't gotten any return...

Anyone have any information on this station...or email address...

Thanks!

YK, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZK2, ZL, ZL7,
ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

2M, SCOTLAND. Paul, 2E1EUB, will be active from northern Scotland between now and October 20th. Activity will be mainly on the satellites using the callsign 2M1EUB/P. QSL via his home callsign 2E1EUB.

3V8, TUNISIA (JOTA Activity). Look for special event stations 3V8CB and 3V8ST to be active October 19-21st. Activity is to celebrate the 10th anniversary of the Tunisia Scouts Amateur Radio Club. Activity will be on all bands, mainly CW and SSB. QSL only via the bureau. "NO DIRECT QSLs" with money/SAE please.

3Z50, POLAND (SPUTNIK Special Event). On October 4, 1957, at 07:28PM GMT, the Soviet Union successfully launched SPUTNIK I. The world's first man-made artificial satellite. Sputnik I was about the size of a basketball, weighed only 84 kilogram, and was a sphere about 0.6 meters in diameter. It took about 98 minutes to orbit the Earth on its elliptical path. When Sputnik entered orbit, it opened the Space Age. To commemorate this fact, a special event station 3Z50SPU was established by Roman, SQ2RH. The station will be on the air until the end of October. A special QSL card will be available after the event for all HAMS and SWL who made QSOs/SWLs with a special event station 3Z50SPU. QSL via SQ2RH.

4N6, MONTENEGRO. Toby, DD5FZ, will be active as 4N6FZ from October 15-27th. He will be a guest operator at the YT6A station and plans to take part in the CQWW DX SSB and the WAG Contests. QSL via DD5FZ, direct or by the bureau is "OK".

6C60, SYRIA (Reminder). Look for Syrian hams to use the special prefix 6C60 to celebrate the 60th anniversary of amateur radio in Syria during the period October 15th to November 15th on all HF bands.

6W, SENEGAL. Boris, T93Y, reports, "After successfully passing the HAM exam in Senegal, Jovica, T98A (ex.9K2/T94FC, ST0RM, ST2A, T94FC), has received his 6W1SJ license today. As during previous activities, you can expect most of his activities to be on CW, with some SSB and digital modes." Jovica will stay in Senegal for at least two years with great possibilities to activate other West Africa countries. QSL via T93Y:
Boris Knezovic, P.O. Box 59, BA-71000 Sarajevo, Bosnia and Herzegovina.
Bureau and E-mail requests are OK (t93y@lol.ba or boris@t93y.com).

6Y, JAMAICA. Operators David/KY1V, Filipe/CT1ILT, John/W2GB, Robert/W5AJ Manu/LU9ESD and Gerald/W1VE will be active as 6Y1V between October 23-30th. QSL via OH3RB.

9U0A QRT. The 9U0A team went QRT Tuesday, October 9th at 0400z after making some 33,500 QSOs. The team is now back in Germany. They report

that the pileups were huge until the end. They also regret that the team couldn't be more active on 160m (and 80m). The team experienced thunderstorms almost every day and this was the worst QRN they have ever heard on any of their DXpeditions which made reception almost impossible. They hope that the operation was able to provide you with a new one.
9U0A Band/Mode Breakdown is as follows:

	CW	SSB	RTTY	PSK31	SSTV	WSJT	Band
160m	127	0	0	0	0	0	127
80m	1721	0	0	0	0	0	1721
40m	2546	0	0	0	0	0	2546
30m	2781	0	660	0	0	0	3441
20m	4586	3464	970	149	0	0	9169
17m	4777	2471	741	200	50	0	8239
15m	4161	1081	925	0	0	0	6167
12m	1435	117	0	0	0	0	1552
10m	475	62	0	0	0	0	537
6m	0	0	0	0	0	5	5
Mode	22609	7195	3296	349	50	5	33504

The QSL route is via DL7DF, either by the German QSL Bureau (DARC) or direct to: Sigi Presch, Wilhelmsmuehlenweg 123, D-12621 Berlin, Germany. More info, plus an online log as well as updates on their DXpedition will be available via the Web page at:
http://www.dl7df.com/9u/index.html

A SPECIAL THANKS (Update on VK4FW XYL). Bill Horn, VK4FW, states, "Firstly let me say that we have been overwhelmed with messages regarding my wife so we would like to say a big thanks to all of you. Cheryl has started CHEMO and it has knocked her around which is the NORM from what we gather. She has expressed that I pass on her thanks for all the support received from the greater ham community....... regards to all...."
Bill Horner (VK4FW), Horner Transport Services, PO Box 612, Childers, 4660, Australia.

C5, THE GAMBIA (Reminder/Update). Members of the "Mosquitos Contest Club" (known as OM0C Contest Crew) are expected to be active from here between October 17-30th. The OM0C contest team will use the callsign C52C and C50C. The operators mentioned are: Rich/OM2TW, Bob/OM1KW, Joe/OM5AW, Roman/OM2RA, Norbert/OM5NM, Dano/OM1NW and Jan/OM2XW. Activity will be on all HF bands (160-10m) and 6m with an emphasis on the lower bands especially 160m. During their DXpedition the team will try to activate Bijol Island (AF-060). Currently, they already have a licence for Island, but still don't have permission for landing. It must be done personally in Banjul. (KYFC and stay tuned for any news.) QSL via OM2FY, by the Bureau or direct to: Branislav Daras, P.O. Box 6, Bratislava 28, 82008, Slovakia. The DXpedition will QSL all correct SWL reports. For updates, visit:
http://www.om0c.com/gambia/index.html

C6, BAHAMAS. Alan, WQ5W, announces his upcoming DXpedition to Treasure Cay, Abaco, Bahamas (IOTA NA-080, Grid Square FL16iq), October 25-31st. The Bahamas Public Utilities Commission has issued him the callsign C6AQW. The primary purpose of this trip is to operate as a 40m Single-Band/ Low-Power entry in the CQWW DX SSB Contest. Alan currently holds the

40m North American record in CQWW DX CW Contest as ZF2TG in 1992 and hopes to break the existing North American 40m Low-Power CQWW DX SSB Contest record during this operation. Outside the contest Alan will concentrate mainly on 160/80/30/17/12 meters CW/SSB plus RTTY on all bands. Alan says �I realize that C6 is not high on anybody's most-wanted list, but I hope to be able to help DXers out with needed band/mode countries to fill in C6 for their DXCC single band or mode or DXCC Challenge Awards.� This DXpedition will be fully compatible with the ARRL Logbook of The World. Logs will be uploaded to LoTW throughout the DXpedition and immediately following its conclusion. Paper QSLs will also be available via WQ5W direct with SASE or Greenstamp and via the bureau. Alan has set up a blog with complete details at:

http://wq5w.blogspot.com

Pictures and news from the trip will be updated before, during and after the DXpedition.

CN, MOROCCO. Anro, RV1AW, will be operating from the CN2R station as CN2AW during the CQ World Wide CW DX Contest (November 24-25th) as a Single-Op/Single-Band (20m) entry. QSL via RV1AW.

CT7, PORTUGAL (JOTA Activity). Operator Arlindo, CT1EGW, will be active with the special callsign CT7EPO, October 19-21st. Activity is to celebrate the Gold Jubilee of the JOTA Scout event (EPO stands for Escoteiros de Portugal). QSL via his home callsign, direct or by the bureau.

E5, SOUTH COOK ISLANDS. OPDX received an E-mail late Friday from Bill, N7OU, who is now active as E51NOU, stating (edited): "Arrived here on Rarotonga on Monday, October 8th, and have logged about 2300 QSOs--all on CW, of course. I've made most QSOs on 20 and 17m, with many grayline openings to Europe. The 'Grinder' jamming signal takes out 40m early in the evening, and condx on 30m have been marginal so far. For antennas, I'm using an autotuner at the base of a 29 ft. wire supported by a 10m pole, about 5m from the ocean. It won't load up on 80m, but performs great on 40-10m. The other antenna is the 20m 2 element vertical Moxon that Jim, E51JD, and I put up on Wed. It gives 2 S-units gain on 20m, which is enough to pull in weaker stations I can't even hear on the other antenna. It's no help on morning long path though..... My volunteer service here begins tomorrow, but I'll have lots of spare time for radio in the early morning and in the evening...... 73 de Bill N7OU/E51NOU"

EA8, CANARY ISLANDS (AF-004). Operators Jean/ON5JV and Georgette/ON6AK will be active as EA8/homecall from Tijoco Bajo, Tenerife Island (S-012 for the Spanish Islands Award, WLOTA LH-1276), between December 1st and January 31st (2008). Activity will be mainly on 20 and 40 meters during their evenings. QSL via their home callsigns, bureau is preferred.

EK0, ARMENIA. Polish operators Leszek/SP9LJD and Kazimierz/SP6AXW will be active as EK0B during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi/2 entry. QSL via SP9ERV, by the bureau or direct.

HI, DOMINICAN REPUBLIC. Dani, EA4ATI, informs OPDX that he has moved from Senegal (6W) to the Dominican Republic (HI), where he has been for the past few months. He has received the callsign HI5/EA4ATI and his location is Pedernales, the last city on the southwest end of Dominican Republic on the border with Haiti (HH). QSL is via his home callsign. For the time being, Dani has only a dipole antenna and 100 watts, but he will make some noise during the next CQ Wide World DX SSB Contest with the HI3CCP team. They will use the callsign HI3C from this location: http://www.lomadeltoro.com/

HI, DOMINICAN REPUBLIC. Michele, IK5ZUI, is active as HI9/IK5ZUI from Las Terrenas. The length of his stay is unknown at the moment. Currently he is using a long wire antenna and only 50 watts. More details are forthcoming.

HL9, SOUTH KOREA (JOTA Activity). In commemoration of the 50th anniversary of Scouting Jamboree on the Air, HL9BSA (Yongsan Army Post, Seoul, Korea) will be activated on Saturday, October 20th. QSL to WX8C.

HP, PANAMA (JOTA Activity). Members of the Radio Club de Panama will be using the special event station callsign HP1RCP during the 2007 JOTA Weekend from the Panama City National Scout Center, October 20-21st. A special QSL will be used. QSL via HP1RCP.

HZ, SAUDI ARABIA. Thomas, HZ1EX, will be active in the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band entry. He will operate at HZ1GW's QTH as HZ1GW or his own callsign. PLEASE NOTE: 80m is not available in HZ-land! QSL HZ1GW via GW0RHC or HZ1EX via SM0BYD.

IOTA NEWS....................

EU-008. (Early Announcement) Colin, MM0NDX, states that he will activate IOTA EU-008 for sure during the 2008 IOTA Contest (July 26-27th). He will use the callsign MM0NDX/p but has not yet decided which island he will activate:

Gigha Island (EU-008, IOSA NH-24, SCOTIA CS-23)
Kerrera Island (EU-008, IOSA FL-02, SCOTIA CN-02)

Colin will update the information in the coming year. QSL direct only to his home callsign.

EU-137. Ric, DL2VFR, informed OPDX that the team closed the operation down on October 13th with 6825 contacts from Ven Island. Please note thei QSL routes:

SD7T via DL2RTK
SD7V via DL2VFR
SD7W via DL2SWW

QSL via the bureau (or direct if absolutely necessary). Do not send a QSL to the SM-QSL-Bureau. They will not be answered. SM7DAY/p of course confirms via the SM-QSL-bureau.

NA-128. (Update/Zone 2 Op). Three members of the Magnolia DX Association (MDXA) and two other operators will activate Orleans Island (QC-007)as VE3ZF/2 (CW and SSB) and W5GED/VE2 (RTTY and PSK) between October 18-21st. Also. look for them to be in the 2007 W/VE Islands QSO Party (October 20-21st) as VE2IDX. The group will then head to Zone 2 (Port Cartier) and be active as VE2Z for CQ World-Wide DX SSB Contest (October 27-28th). Operators mentioned are: Igor/VE3ZF/VE2IDX (MDXA - Team Leader), Ken/

VE3FDX, Travis/W5GED (MDXA), Bill/K5YG (MDXA) and Eugene/N2AA. QSLs for VE2IDX and VE2Z are via VE3ZF, by the Bureau or direct to: Igor Slakva, 105 La Rose Avenue, PH # 1410, Etobicoke, Ontario, M9P 1A9, CANADA. QSL all others callsigns via their home callsign. Their Web site has more information about their operation, including a log search and details on frequencies and modes at: http://www.ve2z.com

J48/SV8, GREECE (IOTA Op). A Hungarian team will be active using J48 and SV8/homecall callsigns from Thassos Island (EU-174), between October 24th and November 8th. They will operate on 80-10 meters plus 6 and 2 meters, using CW, SSB, BPSK31, MS and JT6M modes. Operators mentioned are: Gyuszi/HA2VR, Laci/HA6NL (J48NL), Zsolt/HA6PS (J48PS), Tibor/HA6ZV, Al/HA7JJS (J48JJ) and Laci/HA7PL (J48PL). They will also take part in the CQ World Wide DX SSB Contest (October 27-28th) as Multi-Single using the J48RT callsign. Also, look for them to take part in the HA QRP Contest (November 1-7th) and try to work in the Ukraine Contest too. For the first time this year the group will make a trip to the Ypsario mountain, and will be operating on 2 meters in the VHF Contest on November 2-4th. The QTH will be Kazaviti, and the QRA locator is KN20HR. QSL via the HA QSL Bureau or direct to the operator's own address (via QRZ.com). QSL J48RT via HA6NL.

KH3, JOHNSTON ISLAND. OPDX readers have been looking for an update on Susan's, W7KFI, trip and activity from Johnston Island. Well here it is. Susan informed OPDX this past weekend "It appears that the hurricane season's strength was greatly overestimated....as Mark would say. So if it stays down and no more come this way, I am planning on trying to get out of here just after November 1st during first week of November. Should be good weather then...trade winds should be in full force for a nice down wind ride." If you do not know about Susan, she is a 73 years old grandmother, Skipper of the USSV Dharma, and has been sailing all over the Pacific. This amazing lady is an interesting story. It is highly recommend to visit the following Web pages to see where she has been, and there is a Real Audio recording of her radio interview with Art Bell. Visit the Web pages at: http://ussvdharma.net
http://www.qrz.com/callsign/W7KFI

LX, LUXEMBOURG. Philippe, LX2A, will be active as LX7I during the CQWW DX SSB Contest (October 27-28th) as a Single-Op/All-Band entry. QSL is OK via LX2A, by the Bureau, direct and LoTW (no EQSL). His Web page is:
http://www.lx2a.com

NEW OFFICERS. At their October meeting, the members of the National Capitol DX Association (NCDXA) elected the following officers to serve in 2008:

Dick Mayott/W2YE	- President	Brian Bayus/N1KC	- Treasurer
John Kanode/N4MM	- Vice President	George Vincent/K3GV	- Secretary

Visit the NCDXA's Web page at: http://www.qsl.net/ncdxa

ON50, BELGIUM (JOTA Activity). Members of the UBA section GDV will activate the special event callsign ON50JOTA October 19-21st. Activity is to celebrate 50th anniversary (Golden Jubilee) of the Jamboree On The Air (JOTA). Operations will be on HF/VHF/UHF on the usual scouting frequencies. Skeds may be arranged via E-mail at: on50jota-at-mail.be

ON9, BELGIUM. Rich, N0HJZ, will be active as ON9CMV (semi-rare prefix) between October 24-30th. His activity will include an effort in the CQ World Wide DX SSB Contest (October 27-28th). Rich tells OPDX, "I'll have full power and large antennas for the effort." QSL direct to his home callsign or via LoTW.

P4, ARUBA. Marty, W2CG, will be vacationing here between December 17-31st and will be active as P40CG. He tells OPDX that "This time with a working antenna. Operating time will be limited to early mornings/late evenings (gotta keep XYL happy too)." His activity will be on 80-10 meters CW/SSB. QSL via his home callsign or LoTW.

PA20, NETHERLANDS (Special Event). Look for members of the Netherlands Airforce Radio Amateur Society (NAFRAS - PI4NAF) to be active as PA20NARAS between November 3-19th. Activity will be on HF and VHF. This activity is to celebrate the 20th anniversary of the Society.

PA50, NETHERLANDS (JOTA Activity). Look for special event station PA50JOTA to be active from Nieuweroord to celebrate the Golden Jubilee of the Jamboree On The Air between October 17-31st. QSL via PA3EFR. Visit their Web page at: http://www.scoutnet.nl/~jota

FR/F5TNI QSLS. Laurent, F1JKJ, reports that a few stations asked him for help in the last months to get a confirmation from FR/F5TNI. He states that he called Didier, F5TNI on the phone and was told that he has lost the log in a hard-drive failure. Laurent says, "So no need to try again, no confirmation seems possible."

V8NOM AND HS0/G3NOM QSLS. Tom, GM4FDM, reports: "As you may know I have been Ray's QSL Manager for a number of years. Ray is extremely unwell and unlikely to recover from a severe stroke/heart attack. Over the past couple of years I have been able to respond to QSL requests to the above callsigns, but now I am running out of cards for HS0/G3NOM and have no cards for V8NOM. Before taking ill, Ray discussed the use of LOTW. I have taken the liberty of uploading QSOs for both the above calls to LoTW. I still have a few cards left so I am able to respond to a few more requests for HS0/G3NOM. You may also be aware that the use of 160 and 80m was restricted in Thailand, so please do not ask me about QSOs that are not in Ray's Log. I am unable to help. If it is NOT in LoTW then it's simply not there. I cannot put it there. I still have all Ray's other logs and plenty of blank cards. As the cards run out, I will upload further logs to LoTW.... 73 de Tom GM4FDM"

GOLIST QSL MANAGER DATABASE HELP NEEDED. John, K1XN, from the GoList informs: "During my QSL Manager confirmation process, I have accumalated a list of QSL Managers for which I could not find a published E-mail address, or the E-mail address that I found is not valid and bounces mail. Listed below are some of those QSL Managers that I am having problems with. I hope that maybe they will read this message and take the time to update their E-mail address on QRZ.com or send them to me direct at: golist@gmail.com "

V3 - BELIZE, NA-073

John,W5JON, and his XYL Cathy,W5HAM, will be active from the island Ambergris Caye (NA-073) from Oct 25-31. Listen for V31FB in SSB on 10-160m (also in the CQWW SSB Contest) but he also likes to make skeds for 160m. Cathy prefers the beach holiday. It was many years ago when she promised her husband he may go anywhere for contesting as long as there is also a beach! Now they are going to visit Belize for the fifth time. John will use an IC-7000 plus a 400 watts amplifier and has a free sight to Europe.

V4 - ST KITTS AND NEVIS, NA-104

Scott Andersen,V4/NE1RD, is going to the airwaves from Oct 24-31. He hopes to set a new record in the QRP category of the WWDX from the island of St. Kitts (NA-104). You can get eQSLs, LoTW confirmations and also regular paper QSLs via bureau or direct. SWL reports are welcome.

VK9/L - LORD HOWE ISLAND, OC-004

Haru,JA1XGI, will be active as VK9GLX in CW/SSB/RTTY/SSTV on 20/30/40m and possibly also on the lowbands from Oct 19-22.
QSLs via bureau or direct to JA1XGI or direct only via W8XGI.

VP5 - TURKS AND CAICOS ISLANDS, NA-002

VP5/WA2VYA, VP5/K2WB, VP5/W2WAS and VP5/N2VW will be QRV in CW/SSB especially on the WARC bands from Providenciales (NA-002) on Oct 23-30. They will use the call VP5T during the CQWW SSB Contest (QSL via N2VW). All other QSLs should be sent via buro to the OPs homecall or via LoTW.

XU - CAMBODIA

A Finnish/Belgian team consisting of Wim,XU7TZG, Reijo,OH4MDY (XU7MDY), Anni,OH4JGE (XU7JGE), and Jack,ON4AJV (XU7AJV), was announced to become active from Oct 20 until Nov 5. Following QRGs have been published: 1825, 3507, 7003, 10104, 14007, 21007, 24897 and 28020 kHz, but the lowbands will be emphasized.Listen for XU7MDY in a single band category of the CQWW SSB Contest. Unfortunately QSLs only direct.

3V - TUNISIA

The "Gold Jubilee of the JOTA" will take place from Oct 19-21 and the "Tunisia Scouts Amateur Radio Club" celebrates its 10th birthday during the same time. Listen for 3V8CB and 3V8ST QRV sein, mainly in CW/SSB. QSL cards only via bureau, NOT direct!

4O - MONTENEGRO

The radioclub of the "Council of Europe" and Ranko,4O3A, are going to activate the new DXCC counter Montenegro using the call 4O0CE from Oct 17-21. Reason for that is that Montenegro has joined the Council of Europe last May. QSL via F5LGF.
Online logs will be available at: http://ewwa.free.fr

6W - SENEGAL

Jovica,T98A (ex-ST2A), has passed the Senegalese license exam now and promised to be very active as 6W1SJ for the next two years. Jovica preferably works in CW, but also some SSB and digital modes. There are good chances he might activate also other African countries from there.
QSL via T93Y: Boris Knezovic, Box 59, 71000 Sarajevo,Bosnia-Hercegovina
QSL via bureau or e-mail requests (t93y@lol.ba) are possible as well.

6Y - JAMAICA, NA-097

John,W2GB, will be QRV as 6Y0B from Oct 23-30, including the participation in a single OP category of the CQWW Contest. QSL via W2GB.

A3, 5W, KH8, ZL - SOUTH PACIFIC TRIP

Willy,ON5AX, and his XYL Magda,ON3AX, are travelling the South Pacific Ocean between Oct 17 and Dec 14. They will be QRV in CW/SSB/PSK on 40m/

30m/20m and they also intend to participate in the CQWW SSB Contest while staying on American Samoa. This is their travelling schedule:

5W0AX	Samoa (OC-097)	Oct 17-22
KH8/ON5AX	US-Samoa	Oct 24-29
A35AX	Tonga	Nov 2-14
ZL/ON5AX	Neuseeland	Nov 16-Dec 14

INDIA, SPECIAL EVENT STATION

The special event station AT0MWG is working in CW/SSB/RTTY/PSK from the "4th Military World Games" (http://www.mwg2007.org) which are held in Mumbai until Oct 21. QSL via VU2SWS.

TURKEY, SPECIAL EVENT STATION

The Republic of Turkey is celebrating its 84th anniversary this year. For this reason TA2IJ is working as TC84IJ in CW/SSB until Oct 21. QSLs via TA2IJ.

En dat heb ik gelijk gedaan : direct QSL met een paar dollar en natuurlijk
een SASE.
Toen ik hem werkte was het alleen maar direct en niet via buro.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4U1, ITU HQ (Special Activity). Look for the special callsign 4U1WRC to be used between October 22nd and November 16th. Activity is taking place from the International Amateur Radio Club station 4U1ITU in Geneva during the 2007 World Radiocommunication Conference (WRC). It was mentioned that 4U1WRC is also expected to be active during the upcoming CQ World Wide DX SSB Contest (October 27-28th).

4X, ISRAEL. Operators Hal/W8HC, Jerry/K8OQL, Slava/4Z5MU, Azar/4X6MI, Mark/4Z4KX, Ruben/4Z5FI and Paul/4X6UU will be active as 4X0C during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via W8HC, direct or by the bureau. Logs will be uploaded to LoTW.

6V, SENEGAL. Operator Javier, EA1FDI, will be active as 6V7G during the CQ World Wide DX SSB Contest (October 27-28th). Operating class is unknown. QSL via EA1FDI.

8P, BARBADOS. Tom, W2SC, will be active as 8P5A during the CQWW DX SSB Contest (October 27-28th) as Single-Op/All-Band entry. QSL via NN1N.

8Q, MALDIVES. Claudio, HB9OAU, will be active as 8Q7AU from Dhonveli Island (AS-013), October 29th-November 10th. Activity will be holiday style.

9K, KUWAIT. Operators Hamad/9K2HN, Marko/N5ZO, Faisal/9K2RR, Yaser/9k2YM, Ahmad/9K2LT and Hamad/9K2RT will be active as 9K2HN during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via 9K2HN (QRZ.com address).

9M2, WESTERN MALAYSIA. Operator Rich, G4ZFE, will be active as 9M2CNC during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (20m??) entry. QSL via G4ZFE, LoTW, by the Bureau or direct.

AH2, GUAM. Members of the Guam Contest Club will be active as AH2R during the CQWW DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via JH7QXJ. Operators mentioned are: Kuzamasa/JG3RPL, Toshinobu/JI3ERV, Sato/JH7QXJ, Mikawa/JR7OMD and Masaki/JO1DFG. They suggest to "Please listen to 7075-7100 carefully." DO NOT SEND QSLS to the KH2 address or the Bureau, ONLY to the JARL Manager (via JARL ACCEPTED).

AO5, SPAIN (Polar Ship). A group of Spainish (EA5s) operators have obtained permission to operate on board the polar research ship "Hesperides" in Cartagena. The operation will take place from November 3-4th using the callsign AO5URD. This activity will be valid for the Antarctic Challenge as a polar ship.

AO8, CANARY ISLANDS. Operators EA8AH, EA8CAC, EA8ZS, ES2RR, OH5XT, OH6XX and OH9MM will be active as AO8A during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-2 entry. QSL via EA8AH.

ARCTIC STATION. Operator Mikhail Fokin, RW1AI, is now active as R35NP from the "North Pole 35" drifting station in the Arctic. He will remain there until the summer of 2008. Current position is about 82N 101E in ITU Zone 75. Mike is running only 100 watts on 20, 30 and 40m both CW/SSB. QSL via RW1AI, either by the bureau or direct to: Mikhail N.Fokin, P.O.Box 13, St.Petersburg, 193312 RUSSIA. Logs (including his Antarctic operations as R1AND, R1ANP, R1ANT, RW1AI/ANT) are available at:
http://www.qsl.net/ua1ake/logs/index.html

ANTARCTIC CRUISE/DXPEDITION. Mehdi, F5PFP, is organizing an Antarctic cruise/DXpedition of 4 weeks with an appropriate and safe sailing boat for January 2009. The trip will start in Ushuaia. Here are some the islands that are scheduled to be visited:

1 - KING GEORGE Island: Macchu Picchu base, Station G (traces), Rep del Ecuador, Comdt Ferraz, and Lenie field station.

2 - NELSON Island: Gurruchaga refuge
3 - GREENWICH Island: Maldonado refuge, Bahia Yankee refuge
4 - LIVINGSTON Island: Juan Carlos base, Shireff station
5 - DECEPCION Island: Station B (traces), Gabriel de Castrilla station.
6 - Probably 1 or 2 more islands depending on sailing conditions then back to Ushuaia

At this stage Mehdi is searching for 5 passengers (amateur radio op or not). If you are interested and for more details, send him an E-mail at: f5pfp@aliceadsl.fr

B1, CHINA. A Chinese team which includes Fan/BA1RB, Yongjian/BA1AJ, BG1AC, Mok/BD1ES, BG1AI, Hongxiang/BD1LBE, Yue/BD1LBF and foreign operators James/9V1YC, Richard/K5SF and Doc/VE2QV will be active as B1Z during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-Multi entry. Activity will be on all bands including 160 meters.

CARIBBEAN TOUR (Update to OPDX.828). Alan, WQ5W, will be operating as C6AQW from Treasure Cay, Abaco Island (NA-080), in the Bahamas from October 25-31st, from Dominica as J75W, November 21-28th and from Antigua as V25W, November 30th-December 2nd. During his tour Alan will be active in a couple of contests. As we mentioned in last week's bulletin, look for him (as C6AQW) to be in the CQ World Wide DX SSB Contest (October 27-28th) while on Abaco Island as a Single-Op/Single-Band (40m)/Low-Power entry. From Antigua (IOTA NA-100, Grid square FK97), Alan has reserved the special callsign V25W and will be operating from the V26B superstation in the northern part of the island. The primary purpose of this trip is to operate in the ARRL 160M Contest (November 30th-December 2nd) as a High-Power entry. Alan anticipates very little if any operation outside of the contest on this trip. Alan says �This is a purely contest operation and I hope to put the V2 multiplier in lots of logs during the contest.� From Dominica (IOTA NA-101, Grid Square FK95), Alan will use the specially issued callsign J75W for this and future DXpeditions to the beautiful isle. The primary purpose of this trip is to operate as a Single-Op/ Single-Band (40m) entry in the CQ World Wide DX CW Contest (November 24-25th). Alan currently holds the 40m North American record in CQWW CW as ZF2TG in 1992 and hopes to break his own record during this operation. His QTH will be on top of a cliff overlooking the Caribbean on the northeast side of the island with a clear shot to EU, NA and Asia. Alan says �When I was a teenager in the late 80�s I always wanted to go to J7 to operate because it was a lot rarer then than it is now and looked so beautiful. This trip will mark the realization of that dream and the chance to beat my own NA 40M record in CQWW CW.� Outside of the contest on C6 and J7, look for activity on all bands, especially on 160/80/30/17/12 meters, CW, SSB and RTTY. QSL all operations via WQ5W and LoTW. Logs will be uploaded to LoTW throughout the expeditions and immediately following its conclusion. Paper QSLs will also be available via WQ5W direct with SASE or Greenstamp and via the bureau. Also, visit Alan's Blog at:
http://wq5w.blogspot.com/

CE0, EASTER ISLAND (SA-001). Operators Slaven/9A4X and Zdenko/9A5RR will be active from here betweem October 23-31st. They are expected to be active as CE0Y/9A4X on all bands. They will also sign as CC0Y during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band

(15m) entry. QSL via 9A2AA.

CN, MOROCCO. Members of the UA2 Contest Club will be active during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band entry.

Andy/UA2FB - Active as CN2FB on 80 meters. QSL via CN2FB.
Vladimir/UA2FF - Active as CN2FF on 160 meters. QSL via CN2FF.
Victor/UA2FW - Active as CN2KT on 10 meters. QSL via CN2KT.

CQ9, MADEIRA ISLANDS. Operators CT3BD, CT3DL, CT3DZ, CT3EE, CT3EN, CT3HK, CT3IA, CT3KU, CT3KY, CT3MD, CT1BOH, N6AA, W6NV, OH2KI, W6XD and AB6BH will be active as CQ9K during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-? entry. QSL via CQ9K.

CT3, MADEIRA ISLANDS. Jose, CT1BOH, will be active as CT3NT during the CQ World Wide DX CW Contest (November 24-25th) as Single-Op/All-Band entry. QSL via CT1BOH, direct or LoTW. Visit his Web page at:

http://www.qsl.net/ct1boh/ct3nt.htm

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, reports that the following operation is approved for DXCC credit:

3V8SS - Tunisia; 2007 operation

If you had cards rejected for this operation, please send an E-mail to dxcc@arrl.org and you will be placed on the list for an update.

E2/HS, THAILAND (RAST - WARC bands authorized in new Amateur Radio Act). The RAST announced this past week the following: "Thailand's Intermediate and Advanced class radio amateurs are now permitted to operate on the so-called WARC bands (10-, 18- and 24-MHz) as well as in windows in the CW portion of the 80-metre (3.5-MHz) and 160-metre (1.8-MHz) bands on a permanent basis. The authorization, granted in a new Act governing amateur radio in Thailand by the National Telecommunications Commission (NTC), follows years of lobbying by the Radio Amateur Society of Thailand (RAST). The details were published in the Royal Gazette on October 11, 2007, becoming effective the following day." Thai stations can now use the following frequencies:

160m - 1.800-1.825 MHz
80m - 3.500-3.540 MHz
30m - 10.100-10.150 MHz
17m - 18.068-18.168 MHz
12m - 24.890-24.990 MHz

No changes were made to the VHF bands, where 6-meters (50-54 MHz) and 1240 MHz are still off-limits and 430 MHz (70-cm) is authorized for monitoring only, such as to listen to satellite downlinks. Two meters (144-MHz) is channelized and minor amendments were made to repeater allocations. The full 37-page announcement of the NTC's Amateur Radio Act of 2007 is published in the Thai-language on the web at:

http://www.ratchakitcha.soc.go.th/DATA/PDF/2550/E/152/10.PDF

The Radio Amateur Society of Thailand, which is under the Royal Patronage of His Majesty the King, will make an unofficial translation available soon as well as explaining some of the points in more detail at its website: http://www.qsl.net/rast

FM, MARTINIQUE. Mike, K9NW, will be active as FM/K9NW in the CQWW DX

SSB Contest (October 27-28th) as a Single-Op/All-Band entry. He will be active on the island between October 24-29th. QSL via K9NW.

FRACAP CONVENTION. Jorge, TG9AAJ, CRAG President (Club de Radio Aficionados de Guatemala), announces that the next FRACAP (Federacion de Radio Aficionados de Centro America y Panama) Convention will be hosted once again in the beautiful city of Antigua in Guatemala from November 23-25th. For details please visit the Web page at: http://www.fracap.org/
Also, if interested in attending the convention, please contact Jorge via E-mail at: tg9aaj@gmail.com

FS, ST. MARTIN. Paul, K1XM, will be active as FS/K1XM during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band entry. Look for him to be active a few days before the contest (probably Tuesday or Wednesday), possibly on all bands. QSL via KQ1F.

FY, FRENCH GUIANA. Operators F1HAR, F5HRY, F5MZN, F6FGZ, F6FVY and FY5FY will be active as FY5KE during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via FY5KE.

HR, HONDURAS. Dan, HR2DMR, is expected to be active in the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band/High-Power entry. He will be using monobander antennas. QSL via HR2DMR.

HS35, THAILAND. The 35th SEANET Convention will take place in Thailand's fourth-largest city, the northern town of Lampang, from November 8-11th. Activity includes a traditional wedding ceremony on elephant-back, visits to hot springs, a tour of a power-generating plant, sight-seeing tours and a northern Thai feast along with a welcome dinner. Then there will be the grand gala dinner on Saturday evening and the technical session on Sunday morning featuring, among other things, an account of the 3B7C St Brandon DXpedition. Also, look for special event station HS35SEA to be on the air from the Wienglakor Hotel during the event. Complete details can be found at: http://www.sabah.net.my/seanet/seanet_2007.htm

IOTA NEWS..............................

AS-040. Look for JA6QIN/6 to be active from four different islands in the Goto Island Group between November 5-7th. Islands mentioned are: Arifuku, Wakamatsu, Zuga and Nakadori (all in the JA6 Nagasaki Pref). Activity will be on the HF bands. QSL to his home callsign, direct or by the bureau.

NA-041. Rick, K6VVA, will once again activate Revillagigedo Island (USI AK141S, WW Loc. CO45IP, 1st South Eastern County, Alaska). Activity will take place during the ARRL 160m Contest (November 30th-December 2nd). He will be operating as KL8C, and he also hopes to be active on the other bands as K6VVA/KL7 again as during his September (2007) operation (QSLs are being printed - QSL via N6AWD). Rick mentions that the operating QTH has a great over-salt-water path to the U.S. and much of Europe, although his conditions in September were not good for EU. There is a big hill in the direction of JA, so Rick may try to operate from the other side of the Island with a clear shot to

JA for a while during the daytime/non-160m hours (if not this trip, then the next time).

NA-069. Look for Bren, G4DYO, (ex-editor for the DX News Sheet) to be active as W4/G4DYO from Captiva Island for few hours on November 16th. Activity will be on 20 meters.

OH0, ALAND ISLANDS. Operator Przemek, SP7VC, will be active as OH0/SP7VC during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band entry. QSL via SP7VC.

P3, CYPRUS. Russian operators Alexey/RA1AIP, Sandy/RW4WR, Tony/RX9TL, Jack/RW3QC, Igor/UA2FZ and Harry/RA3AUU will be active as P33W during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via RA3AUU.

PJ4, NETHERLAND ANTILLES. By the time you read this, Kelly, N0VD, should be active as PJ4/N0VD. Kelly will be on Bonaire (SA-006) from October 18-30th, and will participate as part of the PJ4E team as a Multi/2 effort during the CQ World Wide DX SSB Contest (October 27-28th). QSL to N0VD for all PJ4/N0VD QSOs. For PJ4E QSOs, please QSL direct only to WA4PGM.

OJ0B QSLS. OPDX was asked to find out about the OJ0B QSL status, so we contacted Martti, OH2BH, and here is what he said: "Yes, here we come....OJ0B was activated twice this past summer, August and again in September, with some 27,000 QSOs. Both operations were combined together after the September outing and the number of cards needed was determined. All our cards are printed in Poland, and they will be shipped to us at the end of this coming week. We should be able to get all direct cards out by November 15th. We have noticed that many envelopes from U.S. stations have been submitted with one U.S. dollar bill. This matter in now under consideration. If we mail them directly we would subsidize each envelope from our own pocket although we know that sending those cards via bureau network would not make anyone happy. In the meantime, we had just last week released 170 pounds (83 kg) of DX QSL cards, mainly to U.S., Canada and Japan (ed. Bureaus) for variety of our operations over the past two years with the hopes that this investment would still be worth while. We see lot of cards returned with the note 'this person is not accepting QSL cards' and/or is 'not member of national society' thus the rational for confirming each QSO through the bureau is in doubt.... Best Regards, Martti, OH2BH"

QSL MANAGER CHANGE. QSL Manager Franz, DL3PS, will be leaving Germany, so as of November 1st, all QSL cards for VE3ZIK, 9A/VE3ZIK, T9/VE3ZIK, XM3ZIK and 4N1DX will be via DO7ZZ. The German Bureau is OK.

QSLS VIA LOTW: (None reported this week!)

QSLS RECEIVED VIA MAIL: 3B7SP, 3D2ER, A45WD, AP2TN, CO2OJ, KG4IZ, KG4MO, PZ5RA, R1FJT, T30ONM, T77C, T77NM, VP8ROT, VQ9LA, VR10UW, XX9TTR and ZA/DL1RTL

SO6, POLAND. KRIS, SP6DVP (ex-3Z6V), will be active as SO6V during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (40m)/Low-Power entry. QSL via SP6DVP, by the Bureau or direct (QRZ.com SP6DVP and 3Z6V).

V2, ANTIGUA. Team Antigua will once again be active from the warm Caribbean sunshine as V26B during the 2007 CQ World Wide DX SSB Contest (October 27-28th) competition. The operators will be mostly preparing the station starting on or about October 22nd, and will probably be active through October 30th, using their own callsigns as assigned by the Antiguian Licensing Authority. This year Team Antigua welcomes two new operators to their family. They are: Tom/NI1N and Kam/N3KS. They currently do not have any V2 callsigns assigned to them, but when they do their QSL routes will be via their own home callsigns (w/SASE). Please look for the following operators (w/QSL routes - please SASEs) to be active outside of the contest:

V26B via KA2AEV
V26BA via WA3RHW
V26BZR via W2BZR
V26CW via KM9M
V26JN via WX3B
V26OC via N3OC

V8, BRUNEI. Mohammad, V8AQM, will be active during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (20m)/Low-Power entry. QSL via W3HNK.

VU, INDIA. Operator Prasad, VU2PTT, will be active during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band/Low-Power entry. QSL via VU2PTT.

XU, CAMBODIA. A group of Belgian and Finnish operators will be active from here between October 20th and November 5th. Activity will be on the following suggested frequencies: 1825, 3507, 7003, 10104, 14007, 21007, 24897 and 28020 kHz. An emphasis will be on the lower bands. The team is expected to sign XU7MDY during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Band (not mentioned) entry. ALL QSLS are

direct ONLY. Look for the following operators (w/QSL routes) outside
the contest: XU7MDY via OH4MDY   XU7AJV via ON4AJV
              XU7JGE via OH4JGE   XU7TZG via ON7PP

XW. LAOS. The 425 DX Bulletin reports that Alex, RK3DT, will once again be active as XW3DT between October 25th and November 6th. QSL via:
Alex Sinchukov, P.O. Box 11, GPO, Hong Kong.

YM, TURKEY. Operator Ozer, TA2RC, will be active as YM0T during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (160m)/Low-Power entry. QSL via the TA Bureau or direct to TA2RC.

YO, ROMANIA. Jean-Michel, F6AJA, will once again be active as YO/F6AJA from Bucarest between October 27th and November 2nd. Activity will be limited to his free time. Operations will be from the YO3KPA club station.

In this situation, it would seem to make sense, at least with respect to USA/Canada cards, to send all of the made out cards in their envelopes in a bulk package to a USA manager, who could then put 41 cent stamps on them and send them as domestic mail. I once did this for an unnamed DX station in a country that did not accept IRCs. He sent me a big bulk envelope and a bunch of IRCs, and I re mailed them for him. I actually came out ahead a little.

The lesson of this is that with the US Dollar dropping like a stone in value, a dollar just does not go as far as it used to. I usually enclose $2 and lately, sometimes $3. Yes, maybe I send too much, but there are a lot of expenses of sending out a QSL card beyond the postage.

1A0,SOVEREIGN MILITARY ORDER OF MALTA. Just a reminder that an international team of operators will be active as 1A3A during the CQ World Wide DX SSB Contest (October 27-28th). QSL via IZ4DPV.

3DA, SWAIZILAND. Operators Rhy/ZS6DXB, Donovan/ZS2DL and Daniel/ZS6JR will be active as 3DA0WW in the CQWW DX SSB Contest (October 27-28th) as a Multi-2 entry. Dave, ZS6AVM, will be accompanying them and will be active as 3DA0VM on 17 and 12 meters while the other 3 operators are busy in the contest.

3V8, TUNISIA. Operator Achraf (SWL 3V4-002) will be active from the scout radio club station 3V8SS in Sousse during the CQ World Wide DX

SSB Contest (October 27-28th). Activity will mainly be on 20 meters. QSL via the Bureau.

3X, GUINEA. Members of the VooDoo Contest Group have announced that its project for CQ World Wide DX CW Contest (November 24-25th) will be in 3X-land. This will be the group's 14th straight year operating from a different country in West Africa as a Multi-Multi category in the contest. Roger, G3SXW, in a press release states, "We will mount seven 1KW stations with monoband antennas for all six bands right beside the Atlantic Ocean in Conakry, the capital of Guinea. The callsign we have been allocated is 3XY5D. We still hope to secure a shorter call but this is now the most likely to be used in the contest. We also have a VHF licence for 2mtr EME: 3XT1 (3X tango one with no suffix). QSL 3XY5D via G3SXW." The team will also be active a few days before and after the contest. Operators mentioned are: Roger/G3SXW, Fred/G4BWP, John/G4IRN, Robbie/GM3YTS, Bob/K4UEE, Vince/K5VT and Ned/AA7A. All logs will be uploaded to LoTW soon after their return home. Roger, G3SXW, states, "This is one of our more daring DX-peditions. We face the possible risk of civil unrest, washed-out roads and banditry, not to mention zero sunspots! We hope to C U in the contest!" For more details, visit: http://www.voodoocontestgroup.com

5Z4, KENYA. Miki, YT1CS, will be active as 5Z4/YT1CS from Lamu Island (AF-040, Zone 37) during the CQ World Wide DX SSB Contest (October 27-28th). QSL direct to his home address.

6V, SENEGAL (Update). Operator Javier, EA1FDI, will be active as 6V7G until October 29th. As we mentioned last week, look for him during the CQ World Wide DX SSB Contest (October 27-28th). Operating class is unknown. Outside of the contest look for him to be on in the afternoons and nights (local time). Activity will be on 160-10 meters (no 30/17/12m) and on SSB only. QSL via EA1FDI.

8N0, JAPAN (Special Event). Look for special event station 8N0M100A/3 to be active between October 26-28th. Activity is to celebrate the 100th anniversary of the Matsumoto City station in the city of Himeji on the Ie-shima Island (AS-117). Look for them on the HF bands. QSL via the JARL Bureau. Visit the Web page at:

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, informs OPDX that the following operations are approved for DXCC credit:

3V8SS - Tunisia; 2007 Operation
9U0A - Burundi; 2007 Operation
D2DX - Angola; 2007 Operation

If you had cards rejected for any of these operations, please send an E-mail to dxcc@arrl.org and you will be placed on a list for updates.

EA8, CANARY ISLANDS. Heijo, DJ1OJ, will be active as EA8OM during the ARRL DX CW Contest (February 16-17th) as Single-Op/All-Band/Low-Power entry. QSL via DJ1OJ.

FM, MARTINIQUE. Saty, JE1JKL, will be active as FM5BH (from FM5BH QTH) during the CQ World Wide DX SSB Contest (October 27-28th) as Single-Op/All-Band/High-Power entry. QSL via W3HNK.

IOTA NEWS.....................

NA-035. Reports indicate that Javier, HR2J, and a group of operators will activate Swan Island for 6 days between March 16-23rd (2008). The callsign will be HQ8R. The last planned operation (this year) was cancelled due transportation problems. The Honduran Navy is willing to take the team to the island for one week in March if they pay for the diesel for the boat. Javier is currently looking for 5 or 6 U.S. amateurs to join him and help with the cost of the transportation. Also, members of the Radio Club of Honduras (RCH) are now expected to participate in this special DXpedition. Cost of ship is 4500 USDs. Read about Javier on QRZ.com at:

http://www.qrz.com/hq8r

Also see some pictures from IOTA NA-035 taken by Javier last week at: http://picasaweb.google.com/cisnephotos/swanhonduras

I, ITALY (Rare Province). OPDX was informed that there will be an operation from the rare Matera Province of Italy on November 10-11th using the callsign I7ALE/7 or IK8SHL/7. Operations will be on CW with some SSB possible. Activity will be good for the WAIP award.

IQ9, ITALY. Members of the Radio Gruppo Etna Team and possibly others will be active as IQ9BF from Sicily during the CQ World Wide SSB DX Contest (October 27-28th) as a Multi-Single entry. QSL via the bureau.

IT9, ITALY. Operator Giuseppe, IT9BLB, will be active from Sicily during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (160m)/High-Power entry. QSL via IT9BLB.

JD1, OGASAWARA. Koya, JI5RPT, will once again be active as JD1BLY, February 13-28th (2008). Activity will probably be 160-6 meters on CW, SSB and the satellites. QSL via JI5RPT.

JT, MONGOLIA. Enkhbayar, JT1DA, will be active during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band/High-Power entry. QSL via info on QRZ.com.

KH2, GUAM. Joel, KG6DX, will be active as KG6DX in the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band/High-Power entry. USA East Coast is suggested to PLEASE look LP on 15 meters between 1200-1300z. QSL via KG6DX, CBA or QRZ.com address.

OH0, ALAND ISLAND. Martti, OH2BH, sent out the following press release:
"ALAND ISLANDS FOR YOUR BAND POINT AND MULTIPLIER PLEASURE -

Old war-horses, Pertti, OH2PM and Martti, OH2BH, will be taking a boat to reach Alands and provide you a good shot at OH0-multiplier on 80M and 20M during the CQWW SSB Contest this coming weekend.

Martti will sign OH0B (80M) and Pertti will be OH0R (20M).

They wil test their new Creative Design (Japanese) 80M beam along with other things. You may find them there as early as on Thursday.

OH0B via OH2BH and OH0R via OH2PM."

ZM4, NEW ZEALAND. Operators Ken/ZL4NR and Chris/ZL1CT will be active as ZM4A during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via ZL4AA.

ZONEPROP (Interesting Web Page for the CQ World Wide Contest). Zone to Zone Propagation information will be available for the CQWW SSB from Radio Sport Canada at: http://www.radiosport.ca/zoneprop/
ZoneProp uses an widely accepted propagation engine to determine the band on which a contestant in one CQ DX zone is likely to be able to contact a contestant in another CQ DX zone taking into account the current geomagnetic activity. ZoneProp produces a 40 zone by 40 zone matrix that is updated hourly at approximately 20 minutes past the hour. The intersection between a row and column gives the band on which a contestant in the zone represented by the row is mostly likely able to contact an contestant in the zone represented by the column. The zone numbers in the left hand column are clickable. Once clicked the information for that zone is displayed in isolation above a map of CQ DX zones. The pages are refreshed every 10 minutes in order to capture hourly updates of the matrix. For technical details see:
http://www.radiosport.ca/zoneprop/manual.php
ZoneProp is designed for high speed Internet access using IE 6/7 or a recent release of FireFox. It has not been tested in other browsers or on slow speed (e.g. dialup) Internet access.

The following stations are expected to be active in the
CQ World Wide DX SSB Contest (October 27-28th, 2007)

Thanks to Bill, NG3K, for providing OPDX readers with the following consolidated listing of the participants in the 2007 CQWW SSB Contest. For a more detailed listing (and up-to-date changes/corrections) in HTML format, please visit Bill's Web page at:

Saturday afternoon, checked the mail & found my copy of CQ Magazine, with the article about ham radio in China.

And ironically, tucked inside...

a PSE QSL card *from* China. BG1QUI, to be specific, for a QSO just a week earlier. (I remember when it took longer than that to get a QSL from *Chicago*, let alone Beijing...)

China is a tough path from here. I still get excited about working the country period, let alone having someone there answer my CQ, (this QSO was the first time I've ever had a Chinese station answer a CQ) let alone have *them* ask *me* for a QSL.

Just when you think you had DX figured out, it finds a way to surprise you.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B8, MAURITIUS (AF-049). Remember to look for Ronnie, SM7DKF, to be active this week as 3B8/SM7DKF between November 8-24th. This will be a holiday style operation with activity on the usual IOTA frequencies, mostly SSB and perhaps digital modes. QSL direct to his home callsign (see QRZ.com). For more details, visit: http://www.sm7dkf.se/index-info.htm

6E, REVILLAGIGEDO. Members of the radio club "Federacion Mexicana de Radio Experimentadores" (FMRE) will activate Socorro Island (NA-030, WLOTA LH-2941, WW Loc. DK48MS) in the Revillagigedo (XF4) Island group, between November 15th and December 17th. They will use the callsign 6E4LM. Their activity is to celebrate the 75th anniversary of FMRE. Team members will include Carlos/XE1YK, Manuel/XE1VVD, Eduardo/XE2YW and Daniel/XE3RBA. Look for activity to be on 160-10 meters plus 6 and 2 meters, and 70cm, with operations on CW, SSB, digital modes and the satellites. The operators will focus on 160m and 6m, where they feel XF4 is mostly needed. QSL direct to XE2K: Jose Hector Garcia M., P. O. Box 73, El Centro, CA., 92244-0073, USA. Logs will be uploaded to LoTW after all direct QSLs have been sent. More information can be found at: http://www.6e4lm.xedx.org

6Y, JAMAICA (Ops Needed!). Operators Dave/KY1V, Tony/W4OI and possibly others will be active as 6Y1V during the CQ World Wide DX CW Contest (November 24-25th) possibly as a Multi-Single or Multi-2 entry. Tony states that they are looking for one or two good experienced CW ops to join them. QSL via OH3RB. For more details, E-mail Dave, KY1V, at:
david.kopacz@aspwebhosting.com

7W53, ALGERIA. Members of the Bou Saada ARC (7X5VRK) of Bou Saada will activate 7W53N during the month of November to commemorate the 53th anniversary of the beginning of the National Algerian Revolution. QSL via 7X5VRK.

8P, BARBADOS. Tom, W2SC, will be active as 8P5A during the CQWW DX CW Contest (November 24-25th) as Single-Op/All-Band/High-Power entry. QSL via NN1N.

9M6 & 9M0, EAST MALAYSIA ANDSPRATLY ISLANDS (Asian Tour Update). Ed, N1UR, who was recently active from Bhutan as A52UR, will be active as 9M6AAC from the Hillview Gardens ARC station in East Malaysia for the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/Low-Power entry. QSL via N2OO. He also plans to be active from the Spratly Islands

(9M0) between March 22-30th. A callsign has not yet been assigned, but activity will be on CW/SSB on 160-10 meters. QSL via K2RET. Ed now has a Web site set up for his Spratly operation at: http://www.n1urspratly.com/ Activity will be from Layang Layang Island Resort on Spratly Islands. Ed states, "This Spratly DXpedition will be a serious one, but with a small crew and light equipment. It will focus on the most needed bands in North America and Europe and will be an opportunity for many to work Spratly for the first time."

A7, QATAR. Bill, NM7H (aka G0MKT and YI9WF), is expected to be active as A7/G0MKT, possibly by the time you read this, and he will be here until January 5th (2008). Activity will be primarily CW with some PSK and some SSB on 40-10 meters. He may even be on 6 meters if the band opens up. QSL via NM7H, direct or by the bureau.

AH0/KH0, MARIANA ISLANDS (Update). Operators Koya/JI5RPT and Toru/JI5USJ will be active as AH0V and KH0/JI5USJ from Saipan, January 10-14th (2008). Activity will be on 80-6 meters, also 60m for USA, the satellites, CW, SSB and Digital modes. Operations will be from Saipan Rental Shack. Koya states, "I'll try to operate on 60m. If you want a SKED on 60m band, please E-mail me." His E-mail address is: ji5rpt@jarl.com
QSL AH0V via JI5RPT and KH0/JI5USJ via JI5USJ. ADDED NOTE: Visit JI5RPT's

Also his Web page at: http://www.ji5rpt.com/ah0v/

AO5, SPAIN (Polar Ship Update). A group of Spainish (EA5s) operators who were scheduled to operate on board the polar research ship "Hesperides" this past weekend had to postpone their activity until this coming weekend (November 10-11th). The ship is now in a dry dock for technical checking. The operation will use the callsign AO5URD. This activity will be valid for the Antarctic Challenge as a polar ship.

E5/S, SOUTH COOK ISLANDS. Operators George/K5KG and Ron/KK9K will be active as E51MMM and E51NNN, respectively, from Rarotonga Island (OC-013) in the South Cook Islands group, November 12th through December 1st. They plan to concentrate heavily on 160/80 meters. All QSL requests should go to K5KG.

EA8, CANARY ISLANDS (AF-004). Operator Slavo, SP2JMB, will be active as EA8/SP2JMB from November 7-12th. Activity will be on 80-10 meters, CW and SSB. QSL via SP2JMB, direct or by the Bureau.

EF8, CANARY ISLANDS (AF-004). Operators Valery/RD3AF, Alex/RZ3AZ, Yuri/RA9JR and Yuri/UA9AM will be active as EF8M during the CQ World Wide DX CW Contest (November 24-25th), as a Multi-2 entry. QSL via RX3DU (QRZ.com).

FR, REUNION ISLAND (Also Mauritius). Pekka, OH2YY, will be active as FR/OH2YY from Reunion Island between November 12-15th. He will also be active from Mauritius as 3B8/OH2YY between November 16-22nd. Pekka tells OPDX that he will be operating on 40-10 meters SSB using 100 watts into vertical/dipole antennas. QSL via his home callsign, by the bureau or direct to his home address.

HB0, LIECHTENSTEIN. Look for the "Hungarian Traveling Amateur Radio Team" to be active from here again between November 6-14th. Operators will be Laci/HA0HW, Tomi/HA4DX and Geza/HA4XG. They will operate from Masescha (JN47SD, 1350 m ASL) as HB0/homecall. Activity will be on the HF bands, CW, SSB, maybe some digital modes plus 2m on tropo and MS. Their main focus will be on 160 and 80 meters using an Inverted-L antennas and amplifiers. On other bands they will use DunaX gps. QSL via HA Bureau is "OK" or direct via the operator's QRZ.com address.

IOTA NEWS......................

EU-171. Klaus, DK9LO, will be active as OZ/DK9LO from Vendsyssel-Thy/ Nordjylland (NJ-001 for the Danish Islands Award), November 3-16th. Look for activity around the usual IOTA frequencies. QSL via his home callsign, direct, by the bureau or e-QSL.

OC-203. Steve, G4EDG, will be active from Stewart Island as ZL4/G4EDG (or possibly his own ZL callsign by the time the operation starts), November 5-7th. Activity will be on 40-17 meters CW only. QSL direct only to his home callsign. Logs will be uploaded to LoTW ASAP.

OC-144. Operator Hotang, YC0IEM, will be active from Bangka Island between November 18th and December 5th. No info on bands/modes was provided. QSL via IZ8CCW.

OC-186. OP CANCELLED! Adhi, YB3MM, who was scheduled to be active from Karimunjawa Island during the weekend of the CQ WW DX SSB Contest, had to cancel due to a transceiver problem. Look for him to try it again during the CQ WW DX CW Contest (November 24-25th). He will sign as YB3MM/2. QSL via IZ8CCW.

J5, GUINEA BISSAU (Update). The "F6KOP TEAM" is planning a DXpedition to Guinea Bissau on Bubaque Island (AF-020 and WLOTA 1145) between January 11-21st (2008). Their callsign will be J5C. This is the same group that was active as XT2C from Burkina Faso. They hope to be able to use all their skills and experiences gained from the past XT2C operation as well as being active on as many bands as possible simultaneously. Activity will be on 160-10 meters, but the team will focus on the lower bands 160-40m). There will be no 6 meters because this band is not allowed in J5-land. Modes will be mainly CW, SSB, RTTY, PSK31, PSK63 and MFSK16. As usual, they will try to make contacts on SSTV at the end of the DXpedition. Among their goals is to accomplish the first ever QSO between Japan (JA) and Guinea Bissau (J5) on 160m. The group will also dedicate this J5C DXpedition in memory of their beloved friend Gilles Simeon, F5PVF, past President of F6KOP ARC, who became a Silent Key in September (2007). The J5C team consists of: Frank/F4AJQ (Team leader), Gerard/F2JD, Gerard/F2VX, Pascal/F5JSD, Mathieu/F5PED, Frank/F5TVG, John/F5VHQ, Serge/ F6AML, Jean-Paul/F8BJI, Romain/F8BUI, Benoit/F8PDR, Michel/FM5CD, Bernard/ F9IE, Dieter/OE8KDK, Bill/N2WB and Bob/N6OX. The QSL route are via Franck, F5TVG (address correct in all of the major International and French Callbooks). The "F6KOP TEAM" is looking for sponsors and donations for this DXpedition. More details about this operation is available on the J5C Web site at: http://www.j5c.eu/

J7, DOMINICA (NA-101). Operators Harald/DL5HAQ, Manfred/DK6HA and Siegfried/DL3HBZ will be active as J75/DK0RZ, November 4-17th. Activity will be on all bands and modes. QSL via DK0RZ (QRZ.com).

KP2, U.S. VIRGIN ISLANDS. Operators Ann/KP2YL and Brian/KP2HC, who have relocated from St. Croix to California, will visit the island November 15-23rd. Expect to hear them throughout the week on HF SSB and CW. Brian will monitor 6m and take full advantage of any openings on that band. Ann will take part in a Multi-op effort for ARRL November Sweepstakes Phone with Bill/W2UDT and John/NP2B from the NP2B contest station. For those who have wondered, Brian advises that Ann has recovered nicely from her back surgery, and she is very excited about returning to the air from KP2. QSL both Ann and Brian direct only via their California address. QSL the NP2B contest operation via NP2B.

LN3, NORWAY. Members of the Vestfold Contest Club (LA3Z) of Stavern will be active as LN3Z during the CQ World Wide DX CW Contest (November 24-25th), as a Milti-Single entry. Operators mentioned are Harald/LA5UF, Paul/LA6YEA, Jon/LA8HGA and Tom/LA9GX. QSL via LA9VDA, direct or by the bureau. Bureau QSL cards can also be requested by E-mail to:
la9vda2003-at-yahoo.no

MD, ISLE OF MAN (EU-116). Operators Rosel/DL3KWR and Hardy/DL3KWF will be on holiday here between November 17-30th. Look for them to sign MD/homecall and be active "after Tea Time" mainly on CW and the WARC bands. Hardy plans to work on RTTY and PSK31. Also, look for activity during the CQWW DX CW Contest. QSLs via their home callsigns. QSLs may also be requested via E-mail to: dl3kwr@darc.de -or- dl3kwf@darc.de
Also, check their Web page at: http://www.mydarc.de/dl3kwr

PA20, NETHERLANDS (Special Event). Remember to look for members of the Netherlands Airforce Radio Amateur Society (NAFRAS - PI4NAF) to be active as PA20NARAS between now and November 19th. Activity will be on HF and VHF. This activity is to celebrate the 20th anniversary of the Society.

PJ2, NETHERLANDS ANTILLES. Members of the Caribbean Contesting Consortium (CCC) will activate Signal Point Station on Curacao (SA-006, WLOTA LH-0942) as PJ2/homecall, November 20-26th. Operators mentioned are Geoff/W0CG, Jeff/K8ND, Jim/W0NB, Jim/W8WTS, Gerry/G0RTN and possibly others. Their main goal is the CQ World Wide DX CW Contest (November 24-25th), as a Multi-2 entry using the callsign PJ2T. QSL PJ2T via N9AG. QSL all others via their home callsigns. ADDED NOTE: Operators Jeff/K8ND and Jim/W8WTS will stay on until December 3rd. They will also be active in the ARRL 160 Meter Contest (November 30th-December 2nd) as a Multi-? entry using the callsign PJ2T. Also QSL PJ2T via N9AG.

PJ2, NETHERLANDS ANTILLES. Jerry, WB9Z, will be active as PJ2/WB9Z from Signal Point, Curacao (SA-006, WLOTA LH-0942), December 12-25th. Activity will be holiday style on all bands. QSL via his home callsign.

YU3A via YT7TY

QSL CORRECTION. In last week's CQWW DX SSB Contest listing the QSL info for 5Z4/YT1CS was incorrect. The QSL route should be "via YT1CS direct only to his address on QRZ.com" (not YT1HA).

QSL AH6XX via the QSL Manager K2WR: Richard (Rich) Gelber, 205 West End Avenue, Apt 17E, NYC, NY, 10023.

Nenad, VE3EXY, QSL Manager for C31LJ, states he has the log for last week's CQWW SSB Contest. He has cards and is waiting to receive yours.

Mike, KA2AEV, has announced this past week that the log for the recent V26B CQWW SSB operation has been uploaded to the LOTW system.

GOLIST QSL MANAGER DATABASE HELP NEEDED. John, K1XN, from the GoList informs: "During my QSL Manager confirmation process, I have accumalated a list of QSL Managers for which I could not find a published E-mail address, or the E-mail address that I found is not valid and bounces mail. Listed below are some of those QSL Managers that I am having problems with. I hope that maybe they will read this message and take the time to update their E-mail address on QRZ.com or send them to me direct at: golist@gmail.com "

TX5, CLIPPERTON ISLAND (Update/Press Release). The following is a press release from Jay, K4ZLE: "Clipperton 2008 -- This press release formally announces the 2008 DXpedition to Clipperton Island. The DXpedition will be led by N6OX with N7CQQ and K4SV as the management team. The goal is to make 100,000+ contacts, including working as many European, Mediterranean and African stations where Clipperton is high on the most wanted list. Departure date is February 28, 2008, arriving on Clipperton on March 4+-. The team plans to operate 12 to 14 days, depending on conditions, using the call TX5C.

Currently Clipperton is ranked 35th on the most needed countries list worldwide. The team of 22 or so amateur operators look forward to meeting or exceeding the performance expectations of modern DXpeditions. In addition to the ham activities, there will be a series of scientific studies done by the team.

*Clipperton Island (French: �le de Clipperton and as the real French name �le de la Passion) is a nine-square-kilometer coral atoll in the North Pacific Ocean, southwest of Mexico and west of Costa Rica, at 10�18?N, 109�13?W. It has no permanent inhabitants. It is an overseas possession of France administered by the Minister of Overseas France.

*More information about this expedition, including details of the scientific studies, ways you can help support this expedition financially, bios on the operators, a sponsor list and history of this DXCC entity can be found at the team's web site:

http://www.clipperton2008.org

While checking out the web site, be sure to visit the TX5C STORE."

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

For more information about our newsgroup, see:

Please direct any comments, questions, or criticisms to rec-radio-info-request@panix.com.

think that a man traveling alone is a freak, someone of whom you must be suspicious. I am a tourist, I am seeing the sights. I can see women anywhere."

He looked at me with some understanding in his eyes, and I said, "I will tell you a story which I know is true. It is another version of the Garden of Eden."

"Throughout history in all the great religious works of the world there have been stories which some have believed, but which others, with perhaps greater insight, have regarded as legends, as legends designed to conceal certain knowledge which should not fall before any chance person because such knowledge can be dangerous in such hands.

"Such is the story or legend of Adam and Eve in the Garden of Eden, wherein Eve was tempted by a serpent and in which she ate the fruit from the Tree of Knowledge, and having been tempted by the serpent, and having eaten of the Tree of Knowledge, they gazed upon each other and saw that they were naked. Having obtained this forbidden knowledge, they were no longer allowed to remain in the Garden of Eden.

"The Garden of Eden, of course, is that blissful land of ignorance in which one fears nothing because one understands nothing, in which one is, to all intents and purposes, a cabbage. But here, then, is the more esoteric version of the story.

"Man and woman are not just merely a mass of protoplasm, of flesh stuck upon a bony framework. Man is, or can be, a much greater thing than that.

drive a car to Seattle. "No difficulty at all, at all," said the man with the Irish brogue. "I am looking for a good driver to take a Lincoln there. Drive me round, let's see how you shape." As I drove him round he told me of various useful matters. He seemed to have taken quite a liking to me, then he said, "I recognized your voice, you were an Announcer." This I confirmed. He said, "I have a short-wave radio which I use to keep in touch with the 0ld Country. Something wrong with it, it won't get the short waves any more. The local men do not understand this type of radio, do you?"

I assured him that I would have a look at it and he invited me to his home that evening, even lending me a car with which to get there. His Irish wife was exceptionally pleasant, and they left within me a love for Ireland which became intensified when I went there to live.

The radio was a very famous English model, an exceptionally fine Eddystone which has no peer. Fortune smiled upon me. The Irishman picked up one of the plug-in coils and I saw how he held it. "Let me have that coil," I said, "and have you a magnifying glass?" He had, and a quick examination showed me that in his incorrect handling of the coil he had broken a wire free from one of the pins. I showed it to him. "Have you a soldering iron and solder?" I asked. No, but his neighbor had. Off he dashed, to return with a soldering iron and solder. It was the work o

The bond completed, we soared upwards, up into the night sky; I, ever inquisitive, looked down. Beneath us, streaming beneath us, were our Silver Cords, those endless cords which join the physical and the astral bodies during life. We flew on and on, upwards. The Earth receded.
We could see the corona of the sun peering across the far ridge of the Earth in what must have been the Western world, the Western world into which we had so extensively traveled in the astral. Higher we went and then we could see the outlines of the oceans and continents in the sunlit part of the world. From our height the world now looked like a crescent moon, but with the Aurora Borealis, or Northern Lights, flashing across the poles.

We moved on and on, faster and faster, until we outstripped the speed of light for we were disembodied spirits, soaring ever onwards, approaching almost the speed of thought. As I looked ahead of me I saw a planet, huge and menacing and red, straight

Foxy's Showtime on Capital FM 25/11/98 7.35pm

Certainty level: 100%

This one, I can say with absolute certainty, is about me. It was recorded on my Sony Recording Walkman on the evening of Wednesday 25 November 1998. It doesn't mention me by name, so the objective observer might have trouble understanding why I'm so sure it's about me. I'm sure, because the harassment had restarted over the period when this piece was broadcast, and what Capital transmitted would have been in context with events at the time. (Sorry if that explanation is somewhat opaque, but I don't really want to embarrass myself by giving an explanation in detail, and an intelligent reader should be able to work it out for him/her self.)

This isn't the first time Capital have "got at" me; they were doing so right at the very beginning in summer 1990, when they said, "if he listens to Capital then he can't be all bad"; and Tarrant made remarks about me in his breakfast show in spring 1994, when he said, "you know this bloke? he says we're trying to kill him. We should be done for attempted manslaughter."

Unfortunately I didn't record those previous, much more conclusive instances of harassment by Capital DJs, and Capital Radio tells me they only keep recordings for three months. But lately I've been recording everything, and here is one product of that recording.

Neil Fox was introducing some petite Swedish songstress, sounded like Amelia, when he said something about her petite-ness ;

"she's a big big girl, actually she's really about tiny, she's this big, would you say what less than....."

then one of his studio staff shouted, "six inches"

then Fox laughed and said, "less than a meter tall, definitely"

What I think the "six inches" referred to should be obvious. I think it's sexual abuse directed at me.

Also there were a lot of words like "crazy", "mad" etc on this programme, which reinforced my belief that this was on purpose directed at myself.

I think Fox may be something of an unwilling participant in this abuse, he doesn't want to be an abuser but the persecutors are using his show and his staff to get at me. This is not the first time this sort of thing has happened from his show; and my guess is that it won't be the last

Jackie King from the Flying Eye 14/3/99

Certainty level: 40%

In early March 1999, Capital Radio alleged they had received some emails, one of which was forwarded to me. It contained the words, "you know this bloke, he says we're trying to kill him, we should be done for attempted manslaughter!" which Chris Tarrant had said in 1994.

Following these emails there was an explosion in abuse activity, both from Capital Radio, and from MI5 themselves. MI5 followed me around and hurled abuse at me. The following audio file contains what may be abuse from the radio station.

Jackie King from the Flying Eye made these remarks on Sunday (14/3/99) lunchtime 12.24pm; "gas main work being, er, HANDLED if you like (laughs, embarrassed) outside Madame Tussauds, Euston Road obviously feeling the backlash of that".

The key word is "handled", which she sounds embarrassed to be saying; to me it looks like an attempt at a sexual slander. Capital Radio aren't even pretending not to get at me any more. I asked Chris Tarrant several times about his remark from 1994, and he has consistently avoided answering.

Virgin Radio-Johnny Boy (21/August/1998)

Certainty level: 60%

On Saturday 15 August 1998 I attended a gathering of contributors to newsgroup uk.misc at London's Victoria railway station. Also present was Simon G, who had previously given this description of what he would be wearing;

At 06:36 AM 13/8/98 GMT, Simon wrote:
>further clarification to aid recognition, i'll be wearing
>a t shirt, a brown suede waistcoat, a brown suede miniskirt,
>& a pair of patchwork leggings (& may have a widebrimmed straw
>hat, too).

It is my belief that my persecutors, who monitor my home telephone line (and consequently read all modem communications including email), were aware of this meeting, and may even have observed the "meat" taking place.

Following the "meat" it seemed to me that one or two attempts were made by my persecutors to portray me as "gay", on the basis of Simon's suede miniskirt, which in their inventiveness my persecutors attributed to me, not Simon. (Just for the record, Simon is hetero, and has agreed to the above email extract being published.) The following item from Johnny Boy's Wheels of Steel (between 7pm-11pm, Friday 21/8/98) is one such attempt.

(conversation) (J=Johnny-Boy, H=Hipster)

J: Texas of course part of V98 this weekend enjoy it if you're going. Keep your eyes out on Sunday in Chelmsford for Hipster, because he's going to be there. What are you going to be wearing?

H: I'll be wearing my, er, my suede shorts.
(sycophantic laughter)

J: and believe me he ain't joking, he ain't joking. OK coming next at Virgin on the Wheels of Steel...

Why do I think Hipster's "suede shorts" refers to Simon's mini-skirt? Because "suede" in both cases (obvious!); because "suede shorts" indicates "gay" which they were trying to pin on me; because "shorts" = something short, such as a "mini"-skirt; and because the two DJs both laughed as soon as Hipster said "suede shorts", they knew what the joke was, they knew that they were meant (and probably paid) to find it funny.

Virgin Radio-Johnny Boy (19/June/1999)

Certainty level: 30%

I'm not quite sure about this one, so I've given it a one in three chance of being about me. First the background.... from mid-March 1999 for some three or four months, every weekend, I bombarded Westminster MPs with faxes about the terrible, all-encompassing MI5 Persecution. (Jesting aside, it really is terrible and all-encompassing, in the UK anyway.) Of course each week some MPs replied; but in June 1999, after I'd been at it some three months, I started getting "covert" feedback from Virgin Radio.

The first feedback I got was from Danny Baker, on Sunday 13th June. That weekend I was sending an article which contained biting criticism of the police inaction in this case. Danny Baker on his Virgin radio show started an angry rant that "he knows it's rubbish", ie. he was rubbishing what I'd said in that weekend's faxed article. Unfortunately I wasn't recording this programme.

The next possible Virgin-Radio feedback was a week later on 19th June 1999. This is contained in the audio file above, in which Johnny Boy on his "Wheels of Steel" programme says;

"and if you would like to put a triple play together, ahhh.... because quite frankly Hipster and me are running out of ideas...."

He goes on to counter Hipster's "how dare you" with a protestation that he is "only joking".

What I reckon is that my article faxed to MPs that weekend was forwarded by one of the recipients to Virgin Radio. My article had included the words;

"I am beginning to run out of both new topics and energy to write these articles."

So what I reckon is that Johnny Boy read the article.... and rephrased the above line "run out of ... new topics" to "running out of ideas". I recognise that this is a pretty tenuous inference to make.... but do listen to the audio file, from the "ahhh...." pause in JB's speech you can guess he is about to say something "risky" and at someone's expense. Anyway, I listen to the Wheels of Steel regularly and will continue to do so, recording it as I always do - so any future funny remarks will get immortalised on these pages!

Brighton Day Trip - 24/Sept/1998

Certainty level: 5%

On a day trip to Brighton, carrying a minidisc recorder, I managed to collect several indistinct instances of what I think were people swearing at me. Between the 0.5 and 1.5 second marks of the above recording is something that sounds like "nutter". I recorded at least three other much more obscene sexual words on the same day.

I don't honestly think the "nutter" recorded here is part of the conspiracy against me. I've been called similar things elsewhere, where it's been blindingly clear that the insult does form part of the conspiracy - but not in this case. This illustrates quite a worrying point - as a result of the many years of abuse "in public", I now sometimes simply don't know whether somebody is insulting me because they think I look like a dweeb, or whether the conspiracy is in action. Sometimes, due to background noise and people talking quietly relative to ambient noise, I can't be sure of what's being said, even after listening to it again on my minidisc. Or put another way, I now have a mild form of what I recognise to be occasional auditory delusions - but these are fuelled by the many years of actual verbal abuse.

POSK Cafe - 2/Feb/1998

Here are two independent segments, both of which occurred in London on the same day, the first at a Polish cafe, the second on the Tube.

Certainty level: 100%

POSK is the Polish Social-Cultural Centre in Hammersmith, London. It has quite a nice cafe which does pierogi, golabki etc. I went there with my mother early in 1998. Seated at the window table were three Polish men talking amongst themselves. One of them let rip with a sexual obscenity which was clearly directed at me (it's the same one that's been heard again and again since about November 1995), and which was recorded on my minidisc walkman. I have not included it in the above excerpt, which shows the reaction of another of the trio to the first man's swearing - namely, "jestes swinia jednak" which in English is "nevertheless you're a swine".

Certainty level: 20%

Somewhere on the London Underground. "Psycho" (I think - a little unclear).

Leicester Square - 9/Feb/1998

In February 1998 I spent some time in Leicester Square, in the West End of London. This is a very busy area of London, and one which can be relied on to produce "contacts". Capital Radio's offices and their cafe are located here, the Trocadero is nearby, and the place is full of cinemas and entertainment venues.

Certainty level: 100%

A young girl is heard to say, "Alright I'm going to talk to myself" to her friends, followed by all of them laughing together, as I passed by.

Believe me, I do not look mad in real life, these young people would not have directed their comments and laughter at me unless they had already been told by others that I was ill. I am absolutely certain that their behaviour was directed at me, and this audio file is particularly clear.

Certainty level: 60%

This one was recorded in a cafe in Green Park. Two women are talking to each other, one of them says to the other, "something wrong with him", with an emphasis on the "wrong".

The words "something wrong with him" have been repeated at me dozens of times, at my former workplace in Canada, in England, etc. The words are quite deliberately chosen to have two meanings; they obviously imply that I am ill, without forcing the abusers to demean themselves by using more pejorative terms, although they have shown that they have no compunction in that area; and secondly, the words "wrong ... him" make me at fault, and place the guilt for the abusers' wrongdoing on my shoulders.

Certainty level: 30%

Recorded on a Victoria line tube train leaving Green Park station.
If you listen carefully you can pick up the word "hunchback". The speaker had emitted a swear word immediately before this excerpt; both the swear word, and the "hunchback", were (I believe) directed at me.

BA984 LHR->TXL 13/June/1998

Certainty level: 100%

In June 1998 I travelled on the above British Airways flight to Berlin with my mother, to visit her family. There were two women in seats 30D/E, about 4/5 rows behind us. It was quite obvious from the torrent of abuse during these flight that these women had been instructed to harass me and attempt to obtain a reaction.

I did manage to record much of the flight, but unfortunately much of the recording is unclear because of high background noise on the aircraft. The following three excerpts from the recording are the best I can do.

The segment at position 11:34 minutes on my recording contains a fairly quiet word "paranoid", followed immediately by a much louder "yeah, he's paranoid, yeah". During the flight the abuse was not sexual, as it so often is elsewhere, but attacking my mental health.

One of the women in seats 30D/E said "paranoid" very clearly towards the end of the flight, but unfortunately I had run out of minidisc space and stopped recording by then. There is absolutely no doubt in my mind that these women were directed to harass me. This harassment happens without fail on British Airways flights; I've been on something like three or four BA flights in the last 5 years and it's happened each time. Presumably this is because of international law which says incidents on aircraft during flight are actionable in the airline's country of origin - so my persecutors want a reaction from me, and they want to see me "done" in the UK where they can influence the justice system.

These incidents never happen on foreign-domiciled carriers.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3DA, SWAZILAND. Marko, N5ZO/OH6DO, will be active as 3DA0ZO during the CQ World Wide DX CW Contest (November 24-25th), as a Single-Op/All-Band entry. QSL via OH0XX, by the bureau or direct to his Panama address:
Olli Rissanen, Apartado 0860-00432, Villa Lucre, Panama.

6E, REVILLAGIGEDO (Update). Members of the radio club "Federacion Mexicana de Radio Experimentadores" (FMRE) will activate Socorro Island (NA-030, WLOTA LH-2941, WW Loc. DK48MS) in the Revillagigedo (XF4) Island group, between mid-November and mid-December. The team will depart Manzanillo on a Navy ship on the 15th or 16th of November. They expect to be active possibly November 17th or 18th, and be on the air for about 30 days. They will use the callsign 6E4LM. Their activity is to celebrate the 75th anniversary of FMRE. Team members will include Carlos/XE1YK (team leader and FMRE President), Manuel/XE1VVD, Eduardo/XE2YW and Daniel/XE3RBA. Look for activity to be on 160-10 meters plus 6 and 2 meters with operations on CW, SSB, digital modes and the satellites.

ADDED NOTES: They may use the callsigns XF4YK (QSL via XE1YK) and XF4YW (QSL via XE2YW). The group has also planned to possibly stop (on their way back to the mainland) to operate for 3-4 hours from Clarion Island (IOTA NA-115) on 20/17/15 meters, December 18th or 19th, if the Mexican Navy and weather permit. QSL direct to XE2K: Jose Hector Garcia M., P. O. Box 73, El Centro, CA., 92244-0073, USA. Logs will be uploaded to LoTW after all direct QSLs have been sent. More information can be found at: http://www.6e4lm.xedx.org
The pilot stations for the DXpedition will be XE1J and XE1GRR.

6H, MEXICO. Ismael, XE1AY, will be active as 6H1AY from Manzanillo during the CQ World Wide DX CW Contest (November 24-25th). No operating category was provided. QSL via XE1AY: P.O. Box 440, 28200 Manzanillo, Colima, Mexico.

6Y, JAMAICA (NA-097). Operator Dave, KY1V, will be active as 6Y1V from Hopewell (WLOTA LH-0214) for the ARRL 10 Meters Contest (December 8-9th) as a Single-Op/High-Power/CW entry. QSL only to OH3RB, direct preferred but bureau ok.

8R, GUYANA. Operators Phil/G3SWH and Jim/G3RTE will be active from Georgetown between February 22-29th (2008). Phil states, "The 2003 'Most Wanted' survey by 425 DX News shows Guyana at #168." The license has already been issued and the callsign will be 8R1PW. As there have been two recent operations from Guyana in 2007 which used mainly SSB, their activity will be on CW only on all bands 160-10 meters concentrating on the LF and the 30/17/12 meter bands. 160 meters operation is possible dependant upon QRN and site conditions. Propagation permitting, they plan to have two stations on the air for as many hours every day as is possible. Their main objective is to work as many European, North American and ROTW stations on as many bands as possible. QSL via G3SWH, either direct with SAE and adequate return postage (recommended), via Phil's Web site <www.g3swh.org.uk/form.html> for a bureau reply or via the bureau. There will not be an online log (during their operation), but the logs will be uploaded to the following Web site as soon as possible after their return and to LoTW about one year later. For more information visit: http://www.g3swh.org.uk/8r1pw.html

9G, GHANA. Alan, G3XAQ, will be active as 9G5XA from Accra, November 12-26th. Activity will be CW only. He is also expected to be in the CQ Workd Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (possible 15m) entry. Alan will concentrate on 30 and 17 meters outside of the contest. QSL via G3SWH.

C9, MOZAMBIQUE (Update/Reminder). Remember Wayne, W5KDJ, will be going here this week and be active as C91KDJ, November 15-28th. Wayne will concentrate on CW and possibly some RTTY with an emphasis on 160 and 80 meters. His plans are to be active in the CQ World Wide DX CW Contest (November 24-25th). His QTH will be about 50 kilometers north of Maputo. Grid Square: KG64ik. Antennas include a 72 foot vertical for 160/80m, 4 Square 40m, dipole for 30m, and a 2 & 3 element yagis at 60 ft for 20-10m. QSL via W5KDJ. Look for an online log to be available after the DXpedition. Logs will be uploaded to ARRL LoTW. Visit Wayne's Web page at: http://www.tdxs.net/c91kdj.html

CU2, AZORES. Toni, OH2UA, will be active as CU2A during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/High-Power entry. QSL via OH2BH. Visit the CU2A Web page at: http://www.cu2a.com

CY0, SABLE ISLAND (6m Op!). A 6 meter DXpediton is planned for 2008 between June 25th - July 5th. Look for Sable Island (NA-063, CISA NS-004) to be activated by Pete/VE3IKV, Dick/K5AND, Chris/W3CMP, and Bill/W4TAA. Activity will be on CW and SSB. The fixed 6m station in FN93 will have 800 watts into a 7 element beam up 40 ft. A portabele 6m station in GN03 will have 100 watts into a 5 element beam up 30 ft. The callsign and frequencies will be announced later. Other references are: Sable Island - East Lighthouse (ARLHS SAB-001, TWLHD WLH CY0-001, WLOTA:0758, WW Loc. GN03CX) and Sable Island - West Lighthouse (ARLHS SAB-002, TWLHD WLH CY0-002, WW Loc. FN93XW).

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, informs OPDX that all operations on Vlad, UA4WHX's, last trip are now OK for DXCC credit. These include but may not be limited to:
5X1VB - Uganda   9X0VB - Rwanda   D60VB - Comoros
9U0VB - Burundi   D20VB - Angola   J20VB - Djibouti

Other operations include:
3DA0VB - Swaziland   C91VB - Mozambique   V51VV - Namibia
5R8VB - Madagascar   OD5/UA4WHX - Lebanon   Z2/UA4WHX - Zimbabwe
A25VB - Botswana   ST2VB - Sudan

EARA AWARD CHANGES. Said, SU1SK, informs OPDX that there have been changes in the Egyptian Amateur Radio Assembly (EARA) Award. Please note the following changes in the rules required for obtaining the EARA Award. To qualify for the EARA Award, it requires accumulating 10 points as follows:
1 - Any QSO with an Egyptian amateur radio station on any single band

counts as 1 point.
2 - Any QSO with an Egyptian IOTA, JOTA, on any single band counts as 3 points.
3 - Amateurs who already accumulated 10 points or more are kindly asked to send QSL card copies accompanied by 5 green stamps or 5 â‚¬ ONLY by registered mail to this address: GREISS SOBHI, P.O.Box 18 Agouza, GIZA 12654, EGYPT.

Also look for them to be active as PJ4A during the CQ World Wide DX CW Contest (November 24-25th) as a Multi-Single entry. Jeff states, " I will be doing a lot of operating on 160 meters as PJ4/KU8E before and after the contest like I did back in Feburary when we were there for the ARRL DX CW Contest. In addition to a beverage towards the NW (USA) we will have one toward EU as well. I will be making an effort to work Asia every morning. If 160 is not good, check 80 (3505) or 40 meters (7005). The sunrise in Bonaire is 6:00AM local or 1000z. The antenna will be an inverted L - about 80 ft vertical and a KW (AL-1200)." QSL all callsigns via K4BAI.

QSL INFO AND NEWS....................
QSL ROUTES by Johannes/DK8JB:

Hamad, 9K2HN, has informed everyone that he uploaded his whole log (193,000 QSOs) into the LoTW server.

BS7H QSLS. Steve, KU9C, informs OPDX - "Guys, I'm pretty current with BS7H QSLs. I've set up a unique login to help with BS7H inquiries, that is bs7h2007@yahoo.com. If anyone has status questions, this will be the E-mail address to use to ask. Tnx, 73 Steve KU9C"

QSL information for FK/JA1NLX during the November 5-9th operation is as follows: QSL for all QSOs will be sent via Bureau. If you need a quick QSL then you may send SASE to the following address. Akira will send a QSL as soon as he receives your SASE. LoTW log may be uploaded in a few weeks. Direct SASE should be sent to:

Akira Yoshida, 1238-23, Kogasaka, Machida-city, Tokyo, Japan 194-0014

Rafael "Chikin", HI8RV, informs OPDX that he will have a new callsign starting December 1st, 2007. The new callsign is HI8A. If someone needs a HI8RV QSL card, this callsign will be active until November 30th, 2007.

Silvano, I2YSB, is the QSL Manager for the following stations: 5U1A, 5U2K, 5U3T, 5U4R, 5U5A, 5U6W, 5U7B, 5U7DW, 5U7JK, 5U7JW, 5U7RW, 5U8B, 5U9C, 5U0T, 5W0SB, 6O0CW, 6O0N, J20MM, J20RR, FO/I2YSB, TX4PG, ZK1GNW and ZK3SB. He also informs that due to the low exchange rate with the Euro, 1 USD is not enough to cover the mail expenses in Italy; therefore, he kindly asks to enclose 2 USDs or 1 IRC for direct QSL request.

QSLS VIA LOTW: 9K2HN

QSLS RECEIVED VIA MAIL: 3B7C, 4K9W, 9U0A, 9M6XRO, HK6P, HL8KSJ, IA2IPY, IE9/IK4RUX, II1ANT, JX9NOA, PD2HR, RA9LI/FJL, T30XX, VA3ANTA, XE1L and YB9/PA0RRS

 =====================
  == 60 metres ,hence freq is 5 MHz ?
  == Fixed frequency ?
  == What is desired operating range ?
  == What area is available to accommodate an antenna?

If for a limited range I would put up a single tubular (guyed) mast with a non-metal top end and fit an inverted V shape dipole with a suitable length of twin feeder and a current balun/choke near the transmitter ,assuming the transmitter needs to see a 50 Ohms resistive load.
The dipole would be 2 times 15 metres long with the twin feeder length 30 meters or a multiple thereof .

Alternatively an inverted V dipole ,length 2 times 30 metres with the twin feeder length 15 metres or an odd multiple thereof.

Your question is too broad , please specify purpose and operating freq/range of the transmitter.

Frank   GM0CSZ / KN6WH

That's sort of a 'broad' question. Depends a lot on where the antenna is to be situated and the state of your bank account versus your building abilities.

An antenna's environment determines much of it's electrical characteristics, so that can be an important part of the 'selecting' process. An antenna's mechanical characteristics also are part of that 'selecting' process. There are gobs of antenna 'styles'/types so those mechanical 'problems' can usually be sorted out easily, sort of.

Can't give you a particular address for that antenna, but would suggest doing lots of 'shopping' before buying. Making one to fill your need isn't unreasonable at all and can certainly be cheaper (important consideration if you're as 'cheap' as I am!).

Good luck.

Does anyone have their HR20 hooked up using the HDMI connection? The technician hooked us up using components and I never even gave it a thought at first. Is there any noticeable difference in the picture with the HDMI connection? The picture we are getting with the component hook up is very good. but I'm wondering if it can be even better. If we do change to HDMI how would the connections go? Right now everything is run through the Yamaha receiver.

FWIW, yes, you should use the HDMI connection. Better definition, fewer artifacts.

Everybody who uses usenet has done that a time or two. :-) No biggie.

You're not the Bob Nielsen i used to work with at that university founded
by a tobacco baron, are you? Bell Bldg, MSRB ..?

To keep this on topic: I sure haven't done any DXing in a long time.
Though the last time I was home, i found a QSL from VP8, for a PSK31 QSO.

BA984 LHR->TXL 13/June/1998

Certainty level: 100%

In June 1998 I travelled on the above British Airways flight to Berlin with my mother, to visit her family. There were two women in seats 30D/E, about 4/5 rows behind us. It was quite obvious from the torrent of abuse during these flight that these women had been instructed to harass me and attempt to obtain a reaction.

I did manage to record much of the flight, but unfortunately much of the recording is unclear because of high background noise on the aircraft. The following three excerpts from the recording are the best I can do.

The segment at position 11:34 minutes on my recording contains a fairly quiet word "paranoid", followed immediately by a much louder "yeah, he's paranoid, yeah". During the flight the abuse was not sexual, as it so often is elsewhere, but attacking my mental health.

One of the women in seats 30D/E said "paranoid" very clearly towards the end of the flight, but unfortunately I had run out of minidisc space and stopped recording by then. There is absolutely no doubt in my mind that these women were directed to harass me. This harassment happens without fail on British Airways flights; I've been on something like three or four BA flights in the last 5 years and it's happened each time. Presumably this is because of international law which says incidents on aircraft during flight are actionable in the airline's country of origin - so my persecutors want a reaction from me, and they want to see me "done" in the UK where they can influence the justice system.

These incidents never happen on foreign-domiciled carriers.

Evil old bat in BHS 18/12/98

Certainty level: 40%

Not quite sure how sure I am about this one. I went down to Croydon (Surrey) with my mother to buy her a beret. After doing the shopping, we went to the BHS store restaurant to lunch on fish and chips.

You can guess the rest. Auditory hallucinations my shrink calls them, faithfully recorded on Sony minidisc. Some old cow going on about "see that chap, the one over there, something's wrong with him".

It is quite tiring being attacked by random idiots in the street, or as in this case, by some random, evil old bat in a restaurant. Fortunately it is only a sporadic occurrence. My enemies seem of late reluctant to waste resources in my direction. Should I take this as an insult? Am I not worth the millions of taxpayers money which has been wasted on me? Are the obsessives of MI5 themselves the "nutters" and "really mad" which they accuse me of being? Interestingly this suggestion as to the psychological profiles of Security Service personnel has been made by others... it does lead one to wonder, doesn't it?

Ravenscourt Park 20/3/99

Certainty level: 70%

On Saturday I went to Hammersmith, specifically Ravenscourt Park. There had recently been a resurgence of persecution activity, following the Capital spams. I went to the cafe in the park and had a cup of coffee outside, with my mother. As I went inside the cafe to return the cups, a woman shouted a sexual obscenity (not present on this audio file - don't ask), and she said loudly "something's wrong with him". You can just about hear it in the audio file; listen very carefully, several times; it is distinguishable.

Much less subtle is the male voice shouting "take care he's a nutter" immediately after the woman's voice. As on the other recordings there's a lot of noise, but what the people say can be clearly heard.

Given that I take medication and look and behave quite sanely, and that there had been increased abuse over the last couple of weeks, it seems pretty unlikely that this incident was just spontaneous.... of course, you couldn't prove otherwise, but then that's the way MI5 mean their abuse to look.

Battersea Library 29/3/99

Certainty level: 60%

This one is quite dull. During the month of March 1999, MI5 made another determined attempt to "get" me, substantially through radio programmes, through Jon Snow on Channel Four News, and through abuse in public, of which this is one example.

Recorded on my minidisc-walkman on Monday 29 March 1999, this audio file consists of two girls talking. One says to the other, "he's got something wrong with him." The usual words. How many millions a year do the Security Service waste on this? But they've denied it - how silly of me to forget. And they're not liars either, are they?

Royal Festival Hall 15/4/99

Certainty level: 100%

Another "day in the life of", this one. January and February were quiet; in March it all started again; by the middle of April the resurgence of abuse had been going on for over a month. And this, with 100% certainty, is one manifestation of the abuse.

On Thursday 15 April 1999, 1pm lunchtime, I was at the booking office at the Royal Festival Hall near Waterloo Station in London, buying a ticket for a friend. A woman was at the counter next to me. She said;

"it would kill it, you know, it would just be overkill...
.. they can't stop can they"

It was obvious to everyone, the ticket agents included, that her comments were directed at me, and that "they" (ie. MI5) were "killing" me.

I've heard similar things said at various other times, but rarely have their intentions been expressed as clearly as this. The woman also expressed the obsessive nature of MI5's preoccupation with me, by saying, "they can't stop can they".

Balham - LT bus (8/July/1999)

Certainty level: 90%

I am very sure about this one. I got back from holidays on Wednesday. There were two incidents, both on the tube, on the way back from the airport. There was a further incident the following day, Thursday, on the bus (the 155 I think) in Balham, where two girls started spouting abuse about "crazy", etc. Naturally I had my minidisc with me and was able to record their words.

The cynical reader might think my demeanour or behaviour had given rise to the taunts of "crazy" recorded above. But I assure you my behaviour on the bus would not have made anyone think I was ill; and the taunts the previous day were the same sexual words as previously; so I'm quite sure that these incidents are either deliberately staged, or indicative of an overall high level of awareness among the London public, particularly in the part of London where I live.

Clapham South (17/Feb/2000)

Certainty level: 100%

In February 2000, MI5's hate campaign against me was in full swing. They sent people into the road where I live in south London, to swear at me and abuse me as I was leaving or returning home. One such instance is recorded on the above audio file.

On Thursday 17 February 2000, I had just left my home, en route for Croydon, when two youths approached, going in the other direction. One of them said with a smile on his face something which I didn't recognize, and still don't understand despite it being on this audio clip. His demeanour made it clear his statement was directed at me. I coughed, and in response to that, he continued his insult, calling me a "wanker", which is very clearly recorded on this audio clip.

Two days later, in the very early morning of Sunday 20 February 2000, MI5 inflicted another insult against me just outside my house, when, returning from Croydon, two youths approached (MI5 agents always go in packs of at least two - they're too cowardly to go anywhere on their own) and one of them said quietly and bitterly to the other that "he's shitty, very shitty".

It is still comparatively rare for MI5 to send people to my house, or to my road, to harass me. Usually they know where I'm going to, since they have bugs on my phone and in each room of my house; and they send people to that location, or on the train or tube getting there.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3C, EQUATORIAL GUINEA. Elmo, EA5BYP, announces that a DXpedition to the Republic of Equatorial Guinea (Bioko Island AF-010) will take place between October 5-14th. Operators will be Fred/KH7Y, Luis/EA5BRE, Vic/EA5YN and Elmo/EA5BYP. The team will operate with two stations and will sign 3C7Y for 10 days. Activity will be on all bands and modes SSB, CW and RTTY. QSL via

EA5BYP.

4O & YT5, MONTENEGRO AND SERBIA. A team consisting of Pietro/I2MQP, Kan/JA1BK, Mike/K6MYC, Doug/N6TQS and Nikolai/UT5UT will be guest operators from stations in Montenegro and Serbia next month. They will first visit the QTH of Gojko/YU6AO in Montenegro between September 17-21st, and operate as 4O1AO and 4O1M. The group will then participate in the 2007 World HST Championship (Belgrade, Serbia), September 21-23rd. Their trip will end with a visit to Hrane's, YT1AD, station in Serbia and operate as YT5A until the 26th. Look for activity to be on all HF bands including 6 and 2 meters on CW, SSB, RTTY, PSK31, SSTV and EME.

5X, UGANDA. Nick, G3RWF, will be active as 5X1NH from November 21-30th. Activity will start from Kampala between November 21-26th. He also plans to be active in the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Low-Power entry. Outside of the contest, Nick will try to be active on the low bands and the WARC bands, if conditions allow. Modes will be CW, SSB, RTTY and PSK. Nick plans a short safari to the Mountains of the Moon after the contest to Western Uganda and will do some "spare time" portable work. QSL via G3RWF. Nick is happy to try some skeds; E-mail address is: nick@henwood.demon.co.uk

6O, SOMALIA. You only have a few more days to work Filip, ON4TA, as 6O0F. He is expected to leave on August 15th. His activity is limited. Most of his operations is around 14240-14250 kHz usually between 1230-1600z. QSL via his home callsign, the bureau is preferred.

7O, YEMEN. Steve, 9M6DXX, reports (edited), "Chris Lorek, G4HCL, has authorized me to inform everyone that he plans to be active from Sana, Yemen, once again as 7O/G4HCL from Monday, August 13th until early on Wednesday, August 15th. Chris has written permission and official authority to operate on all HF amateur bands under supervised conditions, but warns that it may or may not be possible to obtain the specific documentation that satisfies DXCC requirements. WFWL! This is NOT A DXpedition but a business trip, and operation will therefore only be when possible and is only likely to be for short periods at a time. Chris will be using 1kW to a professional biconical monopole communications antenna. Activity will be SSB only, and probably only on 20m (look between 14170 and 14260 kHz). QSL information for this operation is direct only to G4HCL, PO Box 400, Eastleigh SO53 4ZF, UK. If Chris is able to get on the air for extended periods, this should certainly liven up the bands a little as a prelude to our 3B7C operation! 73..."

8P, BARBADOS. Richard, G3RWL, will be active as 8P6DR between September 27th and October 14th. He plans to be active in the CQ WW RTTY DX Contest (September 29-30th). QSL via G3RWL.

8S, SWEDEN (Special Event). The Jemtland Radio Amateurs (SK3JR) will be hosting the "2007 Scandinavian Young Ladies Radio Amateurs" (SYLRA 2007) meeting, in Ostersund, Sweden, from August 23-26th. YLs and OMs from Scandinavian countries and countries all over the world are invited to join SYLRA 2007. The special callsign for the meeting is 8S3SYL. On Friday, August 24th, there will be a special activity by YL operators from SI9AM with two stations active simultaneously. For more details on this event, please visit: http://www.sylra.se/_sgg/f10000.htm

9H20, MALTA (Special Callsign). Wim, PG9W/9H3ON, President of the Dutch Amateur Radio Society, informs OPDX that a new callsign, 9H20 (NINE HOTEL TWENTY) will be used by their Dutch group to commemorate the 20th year of being in MALTA (EU-023, JM75). The callsign 9H20, with no suffix, has been issued to their group as of August 10th through November 10th. However, the Dutch group will not be active until September 8-9th through October 1st. Activity will be on all bands 80-6 meters. The Dutch operators have also been issued individual 9H3 callsigns during that month. QSL the individual 9H3 callsigns via the info on QRZ.com. QSL Manager for 9H20 (NINE HOTEL TWENTY) is PB9ZR/9H3ZR: Ruben van der Zwet, Barentzstraat 1, 2161 TJ LISSE, The Netherlands. PLEASE NOTE: All QSL cards send directly and reaching them before the end of December 2007, will be answerd direct as well. After December, all QSL cards will go via the bureau. PLEASE NO IRCs!

AM/AN/AO, SPAIN (SPECIAL COMMEMORATIVE AREA CODES). The Spanish Ministry of Industry, Tourism and Commerce has published a Resolution of the General Subdivision of Planning and Management of the radioelectric phantom, by which it grants the use of the area codes (prefixes) AO, AN and AM respectively for EA, EB and EC stations between September 3rd and December 9th of 2007, in the occasion of 75th anniversary of the "Plenipotentiary Conference of the International Telegraphic Union".

C6, BAHAMAS. Operators Peter/W2GJ (C6APR), Ed/K3IXD (C6AXD) and Randy/K4QO (C6AQO) will be active from Crooked Island (NA-113, ARLHS BAH-005), Bahamas, between October 26-29th. Activity will be on 160-6 meters including the WARC bands, CW, SSB, and RTTY. The trio plans to be active as C6APR during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-Single entry. All QSLs go to K3IXD.

CN, MOROCCO. Operators Stefano/IK2QEI, Matteo/IK2SGC, Roberto/I2WIJ, Luca/IK2FFK and Spiros/SV8CS will be active as CN3A during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-2 entry. QSL via I2WIJ.

CN, MOROCCO. Jim, W7EJ, will be active as CN2R starting around October 19th and plans to be active in the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (160m) entry. QSL via W7EJ. See the station from CN2R at: http://www.arraysolutions.com/Users/cn2r.htm

E7, BOSNIA AND HERZEGOVINA (New Prefix Change). The ARRL Letter reports: The ITU has granted a request from the Ministry of Communications and Transport of Bosnia and Herzegovina to replace T9A-T9Z with E7A-E7Z. According to IARU Secretary David Sumner, K1ZZ, �While it probably will take some time for the BiH administration to implement this change, it should put to an end the use of call signs outside the ITU-allocated call sign block by stations in parts of BiH.� The new prefix will be implemented �probably later this year,� Sumner said.

HI, DOMINICAN REPUBLIC. Ted, HI3TEJ, will be active as HI3T during the CQ WW RTTY DX Contest (September 29-30th) as a Single-Op/Low-Power entry. QSL via ON4IQ.

IOTA NEWS................................

AF-004. George, GM0IIO, will be active as EA8/GM0IIO from Playa Blanca, Island of Lanzarote (S-007 for the Spanish Islands Award, WLOTA LH-0099), August 10-16th. Activity will be holiday style, mainly on 20 meters CW and SSB. He will be using a FT-857 and fishing pole vertical antenna. QSL via his home callsign.

AS-080. Members of Anseong DX Club will be active as HL0LPM/3 from Taenanji Island (KDN F-17) between August 19-21st. Operators mentioned are Song/6K2BWA, Lee/DS2GWM, Kwon/DS2GXU, Cho/DS2LLD and Kim/HL2CFY. Activity will be on 160-6 meters CW/SSB/RTTY with various beam and amplifiers. QSL via 6K2BWA, by the Bureau or direct to: Song Jang Woon, 104-1004 Daewoo APT, Dangwang Dong, Anseong, Gyeonggi 456-705, South Korea.

EU-028. Fabio, IW1DFU, will be active as IA5/IW1DFU from Elba Island (IIA LI-001, MIA MI-022, WLOTA LH-0609), August 12-31st. Activity will be mainly CW on 20 and 30 meters, with some SSB opertaions on 20 and 40 meters. He will be running a 100 watts into a vertical and/or dipole antennas. QSL via his home callsign, direct or by the bureau.

EU-078. A group of 10 Spanish operators will activate Meda Gran Island (DIE E-001 for the Spanish Islands Award, MS-007 for the Mediterranean Islands Award and ARLHS SPA-161 [first activation]), August 25-26th. This is a semi rare IOTA, but this island will become very difficult to obtain permissions to enter after 2008; the authorities will be closing the Park. The callsign will be EG3MED, and the team has permission to stay there for 2 complete days running with 2 complete stations. Activity will be on all bands, SSB and CW. The group will have 3 transceivers and a Yagi, dipoles and verticals. The team members are: EA2RC, EA3AGB, EA3CHZ, EA3ESZ, EA3FKX, EA3GHZ, EA3NM, EA5EOR, EB3GGU and EC7AKV. The QSL Manager is EA3GM, by the bureau or direct. A special QSL will be printed.

EU-127. Marcel, DJ5MS, will be active as homecall/p from Helgoland-Duene (N-14 for the German Islands Award, WLOTA LH-0518), August 27-29th. Activity will be SSB only, running 100w into a GP. QSL via his home callsign, direct or by the bureau.

EU-156. Members of the Granville ARC (West Normandy, Manche Department), will activate Tombelaine Island (MA-021 for the French Metropolitan Islands Award - DIFM), a rock located in front of the Mont Saint Michel, from 1800z, August 24th to around 1200z, August 26th. They will use the callsign F5KAQ/p on all HF bands, using CW, SSB and Digital modes, and VHF 2m, using SSB. WWG is: IN98fp. QSL via F5RJM, either by the French REF Bureau or direct (SAE + postage) to: Denis Villemin, 4 Le Flaquet, F50470 Tollevast, France.

EU-170. Marco, IK1ACX, will be active as 9A/IK1ACX from Pag Island (ACIA

IC-188, CIA-32, IOCA CI-082), between now August 18th. QSL via his home callsign.

EU-172. Stefan, DF8HS, will activate Samso Island (JY-008 for the Danish Islands Award, WLOTA LH-0726), August 26th to September 8th. Activity is planned for all bands using SSB, PSK-31 and RTTY. QSL via his home callsign.

NA-083. Operators Dave/W4SAR and Joe/K4SAR will be active as W4SAR/p from Chincoteague Island (USI VA002S, WW Loc. FM27HW, Accomack County, Virginia), between 0100z, August 12th and 0100z, August 24th. Activity will be sporadic on 20 and 6 meters SSB, and 20 meters PSK31. QSL direct to W4SAR (QRZ.com).

NA-112. Jeff, AI4U, will be active as K4I from Sunset Beach (USI NC-012S, Brunswick County, North Carolina), between now and August 17th. Activity will be on 40-10 meters on the IOTA frequencies, CW and SSB, as time allows. QSL via his home callign.

NA-140. (CORRECTION) Last week we mentioned that Page, WA3EOP, will be operating mobile from Kent Island (USI MD004S, WW Loc. FM18UW, Queen Annes Couty, Maryland) on August 11th (1600-1800z). Thanks to several readers, OPDX learned that the RSGB no longer counts Kent Island for IOTA. Kent Island used to count for IOTA but was removed from the list some time ago. NA-140 specifically EXCLUDES the following islands: Asquith's, Kent, Tilghman, Upper Hooper and Wroten. Please see the RSGB IOTA official Web site if you have any further questions at:
http://www.rsgbiota.org/info/search.php?q=na140&search=Search

OC-130. Hans, DL5SDF, is expected to be active from Mindanao Island until August 28th. As this was being written, his callsign was not yet known, but he does have a confirmed license. Hans will only be active on CW using 100 watts and wire antennas. QSL via DL5SDF; preferably via the bureau.

SA-051. The Association of Radioamateurs of Venezuela and the Grupo DX Caracas are pleased to announce the celebration of the Venezuelan Navy Day 2007 with an IOTA DXpedition to Las Aves Islands (Not Aves Island, DXCC YV0 and IOTA NA-20), as YW5AS on August 27-31st. Activity will be on HF (SSB, CW, Digital) and VHF (FM). They will also be activating Aves de Sotavento lighthouse (Admiralty Reference Numbers: J-6491 and WW Loc. FK62DB).QSL Manager is DL3AMA. Also, check the info at QRZ.com for YW5AS.

IS0, SARDINIA (EU-024). Operators Gerry/IZ1DSH and Giovanni/IK1WEG, will be active from here as IS0/homecall between now and August 20th. Activity will be on 40-6 meters CW/SSB. They also plan some trips to the Islands of Spargi (IIA OT-021, EU-041) and Caprera (IIA OT-012, EU-041). QSL via their home callsign, the bureau is "OK".

J49, CRETE. Dick, G3URA, will be active as J49XF in the Russian RTTY Contest, September 1-2nd. QSL via G3URA, direct or by the Bureau. ADDED NOTE: Dick will also be active (using the same callsign) in the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band entry. QSL route is the same as above.

LIGHTHOUSE ACTIVITIES (ILLW is August 18-19th)...............

Members of "The World Light House Foundation", "ARC Koprivnica" and the "All Croatian Islands Award Group" will be active from many Croatian lighthouses and islands between August 17-23rd. During the ILLW between August 17-19th, look for activity from SUSAK lighthouse (Reference numbers: WLH 9A-016, ACIA IC-127, CIA-45, CLH-31, CI-108, ARLHS CRO-50 and EU-136). The callsigns will be 9A60K/p, 9A0LH and 9A7K. QSLs for ALL contacts are via 9A7K. All information about this activity is available on the Web page at: http://www.9a7k.com

Members of the Radio Club Ushuaia will be active as AY7X from the Baliza Escarpados Lighthouse (ARG-081) on Redonda Island (SA-049, WW Loc. FD55VE) between 0001z, August 18th and 2359z, August 19th. The Isla Redonda qualifies for "GACW Five Argentine Islands Award" with #ARXP6. Operations will be on CW, SSB and PSK on the following suggested frequencies:

CW - 3550, 7020, 14010, 21010 and 28050 kHz
SSB - 3680, 7020, 14200, 21200 and 28300 kHz
PSK - 3610, 7038, 14070, 21070 and 28120 kHz

QSL via WD9EWK, by the Bureau or direct to: Patrick Stoddard, 4031 E. Aster Drive, Phoenix AZ 85032-7417 USA.

Members of the Associacao de Radioamadores do Distrito de Leiria (ARAL) will be active as CQ5N from the Lighthouse of the Nazare/Forte S.Miguel Arcanjo, during the International Lighthouse/Lightship Weekend (ILLW) Contest. Activity will be on various modes and bands (HF/VHF/UHF/SHF). QSL only direct to CT6ARL (QRZ.com). The ARAL does not have access to the QSL service bureau.

Members of the "Radio Club Colonia" in Uruguay will activate Colonia City Lighthouse(UR007) next August 18th and 19th. Their callsign will be CV7FARO. Ten operators will be on the air with 3 stations operating on 80/40/20/15/10 meters plus UHF/VHF. QSL Manager is CX1FA (QRZ.com).

A group of about 10 German operators will be active as DF0WFB/LH from the lighthouse (#75 for the German Lighthouse Award - DLTD, ARLHS FED-174, TWLHD WLH DL-022, WLOTA LH-0712) on Oland Island (EU-042, N-20 for the German Islands Award), between August 17-20th for the ILLW. They will have three 100w stations on the air: two for HF and one VHF. QSL via DF0WFB, by the DARC Bureau or direct to: FH Wolfenbuettel, AFu-AG, Salzdahlumer Straße 46/48, 38302 Wolfenbuettel, GERMANY.

The Scarborough Special Events Group will be active as GB2SCA for the "International Lighthouse Weekend" (August 18-19th), from the lamp room in the Scarborough Lighthouse (ARLHS ENG-121). Look for HF activity to be around 7055 or 3725 kHz SSB, and 7025 or 3525 kHz CW. QSL via the RSGB bureau.

Operators Henk/PA3FMC and Ruud/PE1BTV will be active as LA/PA3FMC from the lighthouse (ARLHS NOR-264, WLOTA LH-2373, WW Loc. JP21GA) on Utvar Island (EU-055), August 16-22nd. They will participate in the International Lighthouse/Lightship Weekend (ILLW). Activity will be on all HF bands, SSB and PSK, plus 2 and 6 meters with meteor scatter. QSL via PA3FMC (QRZ.com). Further information can be found at:

http://la2007.dxpedition.nl/

Icelandic Radio Amateurs will operate once again as TF1IRA during the ILLW, August 18-19th. As before, members will be at the Lighthouse of Knarraros; Ref No. ICE012.

OJ0, MARKET REEF. A press release from Jarmo, OH2BN, states: "The Nordic team of OH0RJ, OH2BH, OH2PM, SM0W and SM6U will try landing on Market Reef Saturday, August 11th, around 1600 UTC with two stations and may appear on the air on that night as OJ0B. They will do CW and SSB until Thursday, August 16th. QSL via OH2BH.

On August 16th, OH2HAN, OH2MZB and OH2LU will be swapping the operating duties, weather permitting, and will air OJ0MI focusing on RTTY but also the weekend's (August 18-19th) lighthouse activity. QSL via OH2HAN.

CW at .025 kHz and on SSB 3790, 7040, 14190, 18140, 21290 kHz. Over the lighthouse weekend 14250-14260 kHz will be used.

They will run the latest FT2000 radios and SteppIR antennas.

The Finnish Lighthouse Society has been active repairing the lighthouse for this summer, and you may wish to follow their activities which include daily reporting and interesting general details.

http://www.lighthousesociety.fi/eng/

If you are a stamp collector or wish to receive your QSL card with unique Market Reef stamps, you may send SASE with 7 Euros (10 USDs) as your donation to the Finnish Lighthouse Society through respective QSL managers."

If you wish to tour the Reef in the spirit of adventure, you may follow in the footsteps of the 2005 OJ0B activity:

http://www.kolumbus.fi/oh2bn/pagemarket.htm

ADDITIONAL PRESS RELEASE (via Tim/N4GN). Teemu, OJ�/SM�W (on the OJ�B team) reports: "We have established the first Internet Service in history on Market Reef, this allows us to send you pictures from our OJ�B adventure. Follow the Market Reef Magic on http://www.sm0w.com. We have had one station making some QSOs during the night and expect to be fully operational by tonight with two stations. Stay tuned for more news on the webpage.....73"

ON, BELGIUM (Special Event). Marc, ON9CDR, reports that members of the "Radio Club de Binche" will activate the special callsign ON4WAR to pay a tribute to the Belgian Resistance during WW II, September 1-2nd. Old rigs such as "Paraset" and "TR6" will transmit on CW on the 7 MHz band from the dropping area of the "Refuge B40" in Waudrez (Binche). Some transmissions on SSB are also scheduled on the 7 MHz band. A special QSL card will be issued for this event. QSL information via ON7RY. More information is available on: http://www.on7ry.be

OX, GREENLAND (NA-018 and WLOTA LH-0072). Roland, HB9FMD, will be active as OX/HB9FMD from the Hotel Hvide Falk in Ilulissat, August 17-27th. Activity will be mainly CW on the WARC bands. QSL via his home callsign.

QSLS FOR 5X4A AND 5X4B. Tom, DL8AAM (5Z4GD, ex OP 5Z4FU/A, 5X/DL8AAM etc.), informs OPDX that a great part of the original logs were lost in the "civil war" in Northern Uganda. The QTH of 5X4A and 5X4B was in Kitgum/Gulu, in Northern Uganda, near the Sudanese border. During the time of their activity and to date, this region has suffered from a cruel civil war between the central government and the LRA (Lord's Resistance Army). Tom mentions that he has a great box of "unanswered QSLs". He hopes that maybe later he will be able to return to the sites, and possibly find and collect the "lost" logbooks.

GOLIST QSL MANAGER DATABASE HELP NEEDED. John, K1XN, from the GoList informs: "During my QSL Manager confirmation process, I have accumalated a list of QSL Managers for which I could not find a published E-mail address, or the E-mail address that I found is not valid and bounces mail. Listed below are some of those QSL Managers that I am having problems with. I hope that maybe they will read this message and take the time to update their E-mail address on QRZ.com or send them to me direct at: golist@gmail.com "

SOUTHERN EUROPE TOUR (3A and SV9). Ghis, ON5NT, informs OPDX that he will be active as SV9/ON5NT between August 16-23rs, and 3A/ON5NT between September 24-28th. He states, "Both are holiday trips. So don't expect big signals and most likely no 80 and 160 from SV9." Both operations are QSLed via his home callsign.

SU, EGYPT. Gab, HA3JB, will be active as SU8BHI from Cairo between September 21st and November 30th. Activity will be on CW, RTTY, SSTV, PSK and some SSB. Bands were not provided. He also plans to be active in the CQ WW RTTY DX Contest (September 29-30th) and many of the other major upcoming contests. QSL via HA3JB. More information will be available at: http://www.qsl.net/ha3jb

USI ACTIVITY. Members of the Tri-County Amateur Radio Club (WC5C) will activate Pelican Island (USI TX050, WW Loc. EM12FV, Tarrant County, Eagle Mountain Lake, Texas) using the special callsign W5P, from 1400-2400z on August 25th.. Look for activity on the usual island frequencies (mostly around 14260 and 7260) and possibly other frequencies and various modes. QSL via WC5C (QRZ.com).

V4, ST.KITTS. Scott, NE1RD, is planning another "100 Pound DXpedition", this time to St. Kitts (NA-104). He is expected to be there between October 24-31st and will be active as V4/NE1RD. The main event during this period will be the CQ WW DX SSB Contest (October 27-28th) as a Single-Op/All-Band. QSL via NE1RD. Details, updates and online log for this DXpedition will be available on the following Web pages:

http://dxpedition-v4.com (DXpedition Web site)
http://100pounddxpedition.blogspot.com (NE1RD's blog)

VP2M, MONTSERRAT. Operators Larry/K3VX, Greg/K4NO, Lee/K7NM, Howard/AK9F, Don/K9NR and Carl/K9CS will be active from here between November 20th and December 3rd. The group is there for the ARRL 160 Meter Contest (November 30th-December 2nd). QSL via K9CS.

VP5, TURKS AND CAICOS ISLANDS. "J.C.", W1AI, will be active from Provo (NA-002) as VP5/W1AI, September 1-8th. Activity will be on 160-6 meters, CW and SSB. QSL via his home callsign.

WAS/WAC SPOTTING/SCHEDULING WEB PAGE (Update/Change). Andy, K3UK, continues to improve and update his interesting Web site for individuals who are trying to earn their WAC and WAS. The Web site is called "The K3UK Worked All States/Counties Interactive Sked Page". The site is used for arranging QSOs for WAS and WAC. Andy states, "Feel free to post your operating frequency or the state/county you are looking for. Any modes, any bands."

They are apparently QRV as of the last hour of the WAEDC contest, as they
answered my "CQ EU" on 20 meters!

DXNL 1532 - Aug 15, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

(e-mail: dl7voa@darc.de)

A6 - UNITED ARAB EMIRATES

Don,N1DG, is staying in the Emirates from Aug 15-18 and is QRV as A61AD mainly in RTTY and in CW. QSLs unfortunately only direct or via LotW.

EA8 - CANARY ISLANDS, AF-004

Hans,EA8/ON6ZK, is hitting the airwaves from Teneriffa (AF-004) with only 25 watts mostly in SSB on 20m/17m from Aug 15-22.
QSL via bureau preferred to ON6ZK.

FG - GUADELOUPE, NA-102

David,F1JXQ, showed up as TO1USB (instead of FG/F1JXQ like announced in DXNL 1530) on 14.195 MHz from Guadeloupe (NA-102). QSL via F1JXQ.

KH4 - MIDWAY ATOLL, OC-030

The Midway atoll is one of the most wanted DXCC entities (as seen from Europe). Its scarcity value increased over the past few years after Midway has been closed to the public in January 2002. Carolyn Bohan, the regional head of the "National Wildlife Refuge Pacific Region (US Fish and Wildlife Service)" gave her blessing to a visitor plan, which could come into effect in November 2007 or January 2008. This plan explicitly includes amateur radio activities but restrictions may apply to the antennas. They must be designed in a way not to harm any birds on Midway.

OJ0 - MARKET REEF, EU-053

OH0RJ, OH2BH, OH2PM, SM0W and SM6U intended to land on Market Reef on Aug 11 and planned to show up as OJ0B (QSL via OH2BH) with two stations the same day. OJ0B is working in CW/SSB until Aug 16.

They will be replaced by OH2HAN, OH2MZB and OH2LU as OJ0MI (via OH2HAN) who will be active mainly in RTTY. During the upcoming International Lighthouse Weekend (Aug 18/19) OJ0MI can be found between 14.250 and 14.260 MHz. They announced to be QRV on following frequencies:

CW: 25 kHz from the lower band edge
SSB: 3.790, 7.040, 14.190, 18.140, 21.290 MHz

They will use brand new FT-2000 radios and SteppIR antennas. If you are collecting stamps you may want to request your QSL card enclosed with 7 EUR (or 10 US$) from the QSL manager and get a special stamp from Market Reef. Reports and several pictures from the earlier DXpedition OJ0B (2005) can be found at http://www.kolumbus.fi/oh2bn/pagemarket.htm

OX - GREENLAND, NA-243

Johan,OX/PA3EXX/p, will activate the new IOTA island Rathbone (NA-243) from Aug 19-23. QSLs will be confirmed after his return direct or via bureau to PA3EXX.

SV9 - CRETE, EU-015

Ghis,SV9/ON5NT, is going to spend his holidays on Crete (EU-015) from Aug 16-23. QSLs via his homecall.

V5 - NAMIBIA

Alfons,DJ8VC, will stay in Namibia from Aug 23 until Sep 8 and plans to become QRV as V5/DJ8VC working in CW/SSB on 10-160m. On Sep 1/2 he will join other OMs from Namibia as V55V/p in the IARU Region 1 SSB Fieldday Contest. He is using the shack of Martin,V51W, and can has the choice between wires, a rhombic and several yagi antennas. He also plans to take part in the WAE SSB Contest at the end of his operation (Sep 8/9). QSL cards for V5/DJ8VC and V55V/p (only for THIS Fieldday) will be confirmed by Alfons after his return home.

VP9 - BERMUDA ISLANDS, NA-005

Seppo,VP9/OH1VR, announced to become QRV from Bermuda (NA-005) mainly in CW from Aug 19-21. QSLs via homecall.

7O - YEMEN

Chris Lorek,G4HCL, has the written permission to work under supervision signing 7O/G4HCL on all bands during his business trip from Aug 13-15. You should listen on 14.170 and 14.260 MHz and it is very likely that most of the operation will take place only in SSB on 20m. Chris already notes that the papers he has may not be good enough for an approval by the DXCC Desk.
QSLs only direct via G4HCL, PO Box 400, Eastleigh SO53 4ZF, England.

9X - RUANDA

Peter Stabusch,DL8YA (ex 5Z4SP and 9H1FV), writes that official amateur radio licenses are issued again in Ruanda since July 12. He was lucky enough to get his former callsign 9X5SP which he got allocated before back in April 1967. Peter is working for the "Deutsche Welle" in Kigali and helps to build up the "Rwanda Amateur Radio Union" (RARU). He is using an Atlas 210X with a dipole for 20m. QSLs for 9X5SP via DL8YR.

HUNGARY, SPECIAL EVENT STATION

The 5th International Congress for the New Evangelisation which will take place in Budapest on Sep 15-22. The special event call HG5MISSION is activated until Sep 30. QSL via bureau.

NEW PREFIXES FOR BOSNIA-HERCEGOVINA, E7

The ITU has allocated the prefix block E7A-E7Z to Bosnia-Hercegovina, but changing all the callsigns may last until the end of the year. Jahresende dauern, bis der Wechsel aller Rufzeichen abgeschlossen ist.

PUBLISHING LOGS AND LOSING DXCC CREDIT...

The magazine "CQ" published all logs of the last CQWW DX Contests at: http://www.cqww.com/cwlogs.htm and http://www.cqww.com/ssblogs.htm
In the future DXers have to be aware that it is possible to lose DXCC credit for QSOs made during those contests. Rule 5 in section III of the DXCC rules writes that publishing logs "...creates a question as to the integrity of the claimed QSOs ... and may be considered sufficient reason to deny ARRL award credit for contacts with any station for which such presentations have been made." Falk,DK7YY, who is a field-checker of the ARRL sent a query to the DXCC Desk and the DXCC manager Bill Moore,NC1L, answered that he cannot make any statement questioning this rule. With other words: If a DXpedition submits its CQWW log, it can be assumed that its DXCC approval is denied as well. Country and band chasers will cease their contest participation and may focus on chasing the DX before and after the contest weekends!

SILENT KEY: Dick Wolf,N6FF (ex KL7H), passed away on Aug 1 at the age of 68. He took part in many DXpeditions, was a passionate lowband DXer and QSL manager of many DX stations. Most of these logs have been uploaded to the LoTW. See also the homepage: http://www.n6ff.net

I couldn't help but notice this one. What is the danger to birds from antennas? I've been around a number of different antennas, towers, etc, both temporary and permanent. I haven't seen any evidence of harm to wildlife.

I had heard of danger to birds at a very powerful shortwave site using open wire balanced line, (a macabre story) but that just wouldn't happen in any setup likely to be used today.

http://www.fws.gov/migratorybirds/issues/towers/agenda.html

Our tower (I work for a TV station) has been the site of an annual survey on this topic. (I hear our station's founder was an avid conservationist and was very concerned about these bird kills)

Best information I have is that we don't know *what* the danger is, but we do know that it exists.

That said, we're talking about much larger towers than would ever be involved in a ham DXpedition!

I suppose there's a risk to small rodents (mice, squirrels, etc.) because the tower makes an excellent perch for birds-of-prey!

Seriously, I suspect the concern isn't as much that the antennas themselves will harm wildlife, as that amateurs will disturb habitat as they erect those antennas.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

7O, YEMEN. Chris, G4HCL, was active on the air as 7O/G4HCL for a few days and hours. Apparently, Chris had written authorization from the Director of Communications at the government's run Sana�a International Airport (from where he was operating). Activity seemed only to happened on August 14th and 15th. Reports indicate that he was very weak in signal strength. Rumors state that he only worked one stateside station and a few UK, but several 9M6 stations.

8Q, MALDIVES (Update). Andrew, G7COD, will be active for the third time from Embudu Island, Maldives (AS-013), as 8Q7AK from September 30th to October 12th. Activity will be mainly SSB with possibility of a little CW on the 30/20/17/15/12 meters. Suggested frequencies are: 14147, 18133, 21253 and 24953 kHz (+/- 10 kHz to allow for QRM). Times of operation will be every day from 0830-1030z and 1300-1515z. QSL either via the bureau or direct to G7COD. More detailed information is available under 8Q7AK on QRZ.com.

9Y, TRINIDAD AND TOBAGO. Jim, N6TJ, will be active as 9Y4AA during the CQ World-Wide DX CW Contest (November 24-25th) as Single-Op/All-Band entry. QSL via VE3HO.

C6, BAHAMAS. Operators Fredrick/KE7X and Tom/N6BT will be active from here between November 18-26th. Activity is planned for the CQ World Wide DX CW Contest (November 24-25th). Look for Fredrick to be active as C6AKX as a Single-Op/Single-Band (20m)/Low-Power entry, and Tom (callsign TBD) to be a Single-Op/Single-Band (160m) entry. QSL both via WA4WTG.

CASTLE ACTIVITY. Club members of the UBA section CRD (Radio Club Durnal) will be active as OT2B from "Terra Nova" on the citadel of Namur, September 8-9th. Activity will be on all HF bands, CW, SSB, Digital modes and possibly on the VHF bands. Reference number is NM-039 for the BCA (Belgian Castle Award). Visit the following link to get all information, photos and videos: http://www.roue-libre.be/article.php3?id_article=117
A special QSL card will be issued and will be sent only via the bureau for all contacts.

CN, MOROCCO. Jim, W7EJ, will be active as CN2R starting around November 19th and plans to be active in the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (160m) entry. QSL via W7EJ. See the station from CN2R at: http://www.arraysolutions.com/Users/cn2r.htm

DXCC NEWS (Placing DXCC Plaque Orders). Bill Moore, NC1L, ARRL DXCC Manager, states: "Just a reminder to those who achieve a level in DXCC and you wish to order a wall plaque that you do not have to wait to be listed in order to place your order. When submitting an application if you are sure you will achieve a level for which there is a plaque, you can place your order at the time of your application. (Years ago there was a requirement that you had to be listed before a plaque could be purchased, this is no longer the case). If you've already made a submission and felt you needed to wait for your achievement to be posted before placing your order, you can contact DXCC and we can add your order to your current submission. Send an E-mail to dxcc@arrl.org or call (860)594-0234 or fax to (860)594-0346. Plaque order turnaround can take anywhere from 6-8 weeks, so if you plan to order a plaque for yourself, or, as a gift for a friend or Elmer, please get your order in early. The order form, along with current pricing, is located on the DXCC Web site at:
http://www.arrl.org/awards/dxcc

F, FRANCE (LH and IOTA Activity). Claude, F5MCC, is expected to be active from some onshore lighthouses (for the PB award program) and possibly some islands (for the IOTA, DIFM, WLOTA and PB awards programs) in French Brittany, between now and August 25th. Activity will be on the HF bands from 80-10 meters, mainly on CW, and a little SSB.

GM, SCOTLAND. Gyln, GW0ANA, is planning a "Micro-light" IOTA DXpedition to some Scottish Islands. He will be using a Kenwood TS50S into an inverted V with battery power from a solar panel. Activity will be SSB. He hopes to activate St. Kilda (EU-059) weather permitting, and also various islands in the Outer Hebrides Island Group (EU-010). Look for him to sign GM0ANA/p from August 18-28th. Gyln states, "I will be cruising these waters with friends on holiday and 'Ham Radio is secondary' but be sure I will try my hardest to activate as many as I can." QSL via GW0ANA.

OC-138. Nobi, JA1JCF, will be active as VK4JCF from Horn Island in Queensland, Australia, August 31st to September 2nd. Activity may be limited because he is there to sightsee, but look for him on 30/20/17 meters CW, if active. QSL via the JARL Bureau or direct. PLEASE NOTE: Cards should not be sent to the VK Bureau.

KP2, U.S. VIRGIN ISLANDS. Craig, AH8DX, will be active as KP2/AH8DX during the CQ World Wide DX RTTY Contest (September 29-30th) as a Single-Op entry. QSL via AH8DX.

NEW DX RESOURCE WEB PAGE. Paul, K4UJ, has created a new Web page that is "Wiki based and intended to be for community collaboration." On this page is a listing of each DXCC Entity, each entity has its own page that contains several informational areas. Paul states, "I am soliciting the amateur community for assistance in filling in the information. I have provided an example to show how I would like for each to look. Within each entry you will be able to understand its history, the current DXCC status, challenges with obtaining permission to activate, the IOTA reference, a list of all previous DXpeditions, links to other sites that contain pertinent information. For those of you that have used www.wikipedia.com, it is the same software they use and will have the same look and feel. Please do not post copyrighted material unless you have written permission to reproduce it and can provide it. Please include links to the external sites as well. In order to contribute all you have to do is click on the entity and click 'Edit' at the top of the page. It would be really nice if you registered on the site so that your edits are attached to a login. This will allow for us to send you an update if the information you provide is disputed or is changed." Take a look at the Web page at:

http://www.dxreference.com

NEW WAP WEB PAGE. Gianni, I1HYW, wants to inform OPDX readers that the WAP's (Worldwide Antarctic Program) Web site has moved to:

http://www.waponline.it

"There are a lot of features on this Antarctic Web site which is fully dedicated to Hams and Chasers. The WAP Antarctic QSL Gallery contains nearly 1000 QSLs including a special album of historical cards dated from 1945 to 1960 (before the Antarctic Treaty). The WAP Awards and a Gallery of the most important Antarctic Awards worldwide is waiting your visits. You will find a free download of the WAP Directory, a 40 pages book with the list of Bases huts and Antarctic sites, a useful tool for those wishing to play DX with this part of the world. The 5th Antarctic Activity Week (AAW) will be celebrated next February 18-24th, 2008. OMs wishing to join with their special callsigns are requested to check the list of the first ones already booked. Pay a visit and enjoy it,...... 73 Gianni I1HYW"

OJ0B - MARKET REEF DXPEDITION STUCK IN STORM (Thursday, August 16, 2007):

"The planned departure is delayed because the OJ0B gang cannot be picked off the reef. Please follow the team's progress via the sm0w blog at:

http://www.sm0w.com

Some 11.000 QSOs are handed out so far, and the operators will continue until it is safe to collect the group from the reef. The transfer RTTY team is also waiting in Aland Islands, OH0.

Everything is OK and the team remains in good spirits. A lot of U.S. contacts were made on 80M last night, and we continue checking the low bands. One FT1000 got burnt due to close proximity of the low-band antenns...... Martti, OH2BH for the OJ9B team."

WHAT IS LEFT? The witty Susan, W7KFI, 73 year old grandmother and Skipper of the USSV Dharma, waiting to sail to Johnston Island, informs OPDX this past week (on Thursday): "Well, I guess this is it. Hawaii has a huge fire, and in the last few days, earthquake, hurricane, and now the 7.5 earthquake in Peru gives us a Tsunami...it is supposed to arrive at 2:14AM. Only thing left is a strike by meteor. Although the seas are really daunting out there, the hurricane is directly south of us, I am putting out to sea, the only way to survive an Tsumani...if at 9pm they are still predicting it, I will go to sea...hope I survive, ... Bye all".

YO DX CONTEST. Contest Manager Ovidiu, YO2DFA, wants to remind everyone that the Romanian Amateur Radio Federation (FRR) invites radio amateurs world-wide to participate in the annual YO DX HF Contest. Has anyone been able to get a QSL for this station...QSL manager is
JA8IXM.....I've sent two separate "donations" to the manager but have not
gotten any response...

Any help?

IS0 - SARDINIA, EU-024

Flaviano,IS0/I2MOV, is staying in his house in Dolianova about 20km north of the island's capital Cagliari since Jun 27. Dolianova is the birthplace of his XYL and Flaviano will stay there until November. He is using an IC-706 MKII G, a vertical for 7/10/14/18/21/24/28 MHz and a homebrew dipole for 6m. Flaviano prefers CW operation and requests QSLs via bureau to his homecall. Due to bad condx he only logged some 500 QSOs with 95 countries yet.

TI9 - COCOS ISLAND, NA-012

The DXpedition scheduled for February 2008 is still seeking members to join the team, especially experienced CW operators. Until now only four HAMs confirmed their participation: TI7WGI, DH8WR, DL2AWG and EA1DR. Right now they still try to figure out whether they take part in the WPX RTTY Contest or the ARRL CW Contest (opinions can be mailed to DH8WR@dh8wr.de). Since they can stay there for only ten days (including the way back and forth) only one serious contest participation can be planned during this time.
Further information can be obtained from: http://www.ti9.eu.com

3D2 - FIJI

3D2MT is the callsign of Tomas,LY1F, which he plans to activate between Aug 28 and Sep 4. Tomas promises to show up mainly in CW on 80-10m with emphasis put on 80/40/30m and a participation in the All Asian Contest. Since Tomas is working in Australia at the moment all direct QSLs should be sent to: VK2CCC, Dr. Tomas Magyla, 7 Churchill Avenue, Wahroonga NSW-2076, Australia. If you send your QSLs via the LY bureau or his address in Lithuania a longer processing time must be included.

7O - YEMEN

After conducting a business trip to the Yemen Chris Lorek,G4HCL, is back in England now. Like announced in DXNL 1532 he became active as 7O/G4HCL working in SSB on 20m. His license was issued by Walid Hamed, the "communications manager" of Sana'a International Airport, and not by the official telecommunications authority of the country. This license granted permission to operate the airport's HF station on the amateur radio bands. Chris already contacted the DXCC manager Bill Moore,NC1L, concerning the DXCC credit of this operation.

SWEDEN, SPECIAL EVENT STATION

The 2007 "Scandinavian Young Ladies Radio Amateurs" (SYLRA) meeting takes place in Oestersund, in the north of Sweden, from Aug 23-26,2007. The special event station 8S3SYL will be operated during the hamfest. The QSL manager SM3CVM prefers QSLs via the bureau.
The ladies will also visit the station SI9AM in Morokulia on Aug 24, these QSLs should be sent via SM3CVM. More information can be found at: http://www.sylra.se/_sgg/m1_1.htm

SPAIN, SPECIAL EVENT STATION

Members of the "El Grupo RASE DX" are celebrating the 100th anniversary of the Spanish major league soccer team "Real Betis Balompie" (also known as Betis Sevilla) with an activity from Sep 3-16. The DX club members will use the prefixes AM, AN and AO and activate the special event station EG7CRB in CW/SSB/digital on HF/VHF. A special award is issued as well, more information about award and the radio activities can be downloaded from: http://www.rasedx.com

TI8II QRT DUE TO LIGHTNING

Carlos,TI8II, is momentarily QRT because his equipment has been damaged by a lightning including an ICOM 756pro 2, his computer, printer, scanner, rotor, antenna tuner and an Ameritron amplifier (3 KW). He has backed-up his log recently and lost only his last 15 QSOs. Xavier,EA3BHK, offered his help to Carlos. If you have any donations you can make please send an e-mail to: ti8ii_cont@ea3bhk.com

WORLD RUGBY ASSOCIATION CHAMPIONSHIP AWARD

The Rugby World Championships will be carried out in Great Britain and France this year. Many special event stations will be put on the air and a special award can be obtained during that event. TM0RWC, TM1RWC, TM2RWC, TM3RWC, TM4RWC, TM5RWC, TM6RWC, TM7RWC, TM8RWC and TM9RWC will be QRV during several days in September and/or October. The awards manager is Jean-Claude, F5IL. The award rules and an operating schedule can be found at: http://arala.44.free.fr/cmr.php

LINKS: Current SOTA activities (mountain summits) are announced at:

"The Arctic Challenge" is called the new awards program of the "French Polar Team". For the rules check out: http://f6kdf.ath.cx/f5nod

UPCOMING CONTESTS

Aug 25/26: SCC RTTY Championship
Aug 25/26: YO DX HF Contest

The rules for the 2007 YO DX HF Contest can be downloaded from:
http://www.radioamator.ro/contest/us/yodxhf2007rules.html
The 2006 results can be found on this website as well at:
http://www.radioamator.ro/contest/us/yodxhf2006/dx-results.pdf
Specialty: A special award free of charge will be issued to everybody who works ten members of the "YO DX Club" during the contest. A member list is online at: http://www.radioamator.ro/yodxclub/membri.php

QSL via PY5EG, PY2OMS, ZW5B and PS2T: Mac,W3HC, was the QSL manager for Oms,PY5EG, and all his special callsigns for the last ten years. The NEW QSL manager is now Irv,K3IRV. His direct address is:
K3IRV, Irv McWherter, 11910 Coronada Pl, Kensington, MD 20895-2323, USA

QSL via TM7A: Laurent knew in advance that he will receive many QSL cards for TM7A, a call which was reactivated during the last REF contest. This call has been assigned to Laurent,F8BBL, already in 2003 and he writes that French special callsigns may be re-issued several times. Please do NOT send QSLs for the 2007 TM7A operation to him! The correct QSL route for TM7A (2007) is via bureau to F5RPB or direct to F5PSC.

I really wish that our American friends would reserve 1x1 calls for separate
DXCC-entities and not use them for any kind of "special" operation.

August 27, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, K2PF, AA3B, KA3UNQ, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K8YSE, DX-IS News Site, Pete's-DX-Newsdesk, 9A6AA, DK8JB, DL5ME, DL7MAE & The DX News Letter, F5NQL & UFT, F6AJA & Les Nouvelles DX, HA0HW, I1HYW, I1JQJ/IK1ADH & 425 DX News, OZ1HPS, RSGB IOTA Web Site and VA3RJ & ICPO for the following DX information.

EDITOR'S SPECIAL NOTE (by KB8NW): There will "NOT" be an OPDX bulletin for September 3rd. I am taking my wife (OPDX's Chief Proof-Reader) for her birthday on Thursday to visit my daughter (Katie) and son-in-law in Murfreesboro, TN, and for the holiday weekend. Besides, I can really use the break! However, PLEASE continue to send your DX info to me. If something major happens, I will announce it.

DXCC COUNTRY/ENTITY REPORT:
According to the AR-Cluster Network for the week of Sunday, 19th/August, through Sunday, 26th/August there were 205 countries active. * PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3DA, SWAZILAND. Operators Donovan/ZS2DL, Rhy/ZS6DXB and Daniel/ZS6JR will be active as 3DA0WW during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-2 entry. QSL via ZS6DXB. Look for more info on the Web site at: http://www.zs6dxb.bravehost.com

3D2, FIJI (Just A Reminder). Look for Tomas, VK2CCC (LY1F), to be active as 3D2MT between August 28th and September 4th. Activity will be on 80-17 meters, mainly CW and an entry in the All Asia DX Contest. QSL via the LoTW or via LY1F. Visit his Web page at: http://www.qrz.lt/ly1df

4U1U, UNITED NATIONS HQ. Yes, there was a small operation this past weekend by Paul/WQ2N and his father Gary/W2VQ between (about) 1645-1900z. Activity seemed to be on 20/12/6 meters. QSL via HB9BOU.

5Z, KENYA. Operator Chris, DL2MDU, will be active as 5Z4/DL2MDU between September 10-24th. Activity will be holiday style mainly on CW. Bands of operations were not provided. QSL via the bureau to his home callsign.

A3, TONGA (IOTA Op). Ron, ZL1AMO, plans to activate Lifuka (OC-169) between August 27th and September 16th. Activity will be holiday style, and he hopes to renew his old callsign A35EA.

AT60, INDIA (Special Event). Members of the National Institute of Amateur Radio (NIAR) in Hyderabad will activate the special event station AT60MY to celebrate the 60th anniversary of Indian's independence. Activity will last until November 17th. QSL via VU2NRO.

C5, THE GAMBIA (Update). Members of the "Mosquitos Contest Club" (known as OM0C Contest Crew) continue to prepare for their trip to The Gambia, that will take place between October 17-30th. The OM0C contest team will use the callsign C52C and C50C. Operators mentioned are: Rich/OM2TW, Bob/OM1KW, Joe/OM5AW, Roman/OM2RA, Norbert/OM5NM, Dano/OM1NW and Jan/OM2XW. Activity will be on all HF bands (160-10m) and 6m with an emphasis on the lower bands, especially 160m. During their DXpedition, the team will try to activate Bijol Island (AF-060). Currently, they still don't have permission for landing or the licence for the island. (KYFC and stay tuned for any news.) QSL via OM2FY, by the Bureau or direct to: Branislav Daras, P.O. Box 6, Bratislava 28, 82008, Slovakia. The DXpedition will QSL all correct SWL reports. For updates, visit:
http://www.om0c.com/gambia/index.html

EA8, CANARY ISLANDS. Heinz-Peter, DH1PS, will be active as EA8/DH1PS/p from Fuerteventura Island and its Lighthouse (WLOTA 0883) between August 25th and September 8th. Bands and modes of activity were not provided.

IOTA NEWS..........................

EU-016. Alen, 9A4WW, plans to activate the Croatian Island/Lighthouse of Lastovo (CI-051, MC-196, LH-0815) between August 27th and September 3rd. Activity will be on 160, 80 and 40 meters SSB.

EU-016. Mladen, 9A2NA, will activate Korcula Island (CI-041, MC-163, WLOTA L-1315) from September 1-10th. Activity will be on SSB and the HF bands. Also, he plans to activate two new IOCA islands: Cerin and Prznjak Mali. He will use a FT-897 and vertical/dipole antennas.

EU-017. Fabio, IK8HJC, will be active as ID9/IK8HJC from Vulcano Island (IIA ME-018, MIA MI-122, WLOTA LH-1001) between now and September 1st. QSL via his home callsign, direct or by the bureau.

EU-037. Operators Mario/DL5ME and Guenter/DG3HWO will be active as SD7ME from Oland Island, September 6-11th. Activity will be on the 40/30/20/17 meters on CW and SSB. They plan to use a Butternut and Spiderbeam. QSL via SD7ME (QRZ.com address).

EU-074. Bernardo, HB9ASZ, will be active as F/HB9ASZ/P from the Island of Brehat in Brittany, France, between September 1-22nd. Activity will be CW only with a very modest station (100w and a multiband-dipole). His operation will be mostly in the evenings since it is a family holiday trip and he reports that he favors 30m.

EU-110. Operators Ruda/OK1HWS, Honza/OK1JK, Jiri/OK1JST and Vlasta/OK1UXH will be active as 9A/homecall from Porer Island (ACIA IC-46, CIA-35, IOCA CI-090, MIA MC-313, WLOTA LH-0240), September 9-14th. Activity will be on 80/40/30/20/17/15/10 meters using CW, SSB, RTTY and PSK. QSL all calls via OK1JST.

EU-136. Francois, ON4LO, will be active as 9A/ON4LO from Losinj Island (ACIA IC-116, CIA-25, IOCA CI-058, MIA MC-204, WLOTA LH-4295), September 8-28th. Activity will mainly be on 10/15/20m SSB, VHF and 6m. QSL via his home callsign, direct or by the bureau.

EU-170. Lada, OK1LO, will be active as 9A5LO/p from Pasman Island (CIA-34, CI-085 and MIA MC-291), now through September 3rd. Activity will be on 80-10 meters including the WARC bands, and on CW, SSB, RTTY and PSK31. He will also activate the following Croatian islands: Osljak (CI-081), Ugljan (CI- 134) and Galovac (CI-604). QSL via his home callsign, direct or by the bureau.

EU-170. Niko, DD1MAT, will be active as 9A/DD1MAT from Dugi Otok Island (ACIA CI-367, CIA-10, IOCA CI-018, MIA MC-074, WLOTA

LH-2375), September 1-15th. Look for activity around the usual IOTA and island frequencies. QSL via his home callsign, direct or by the bureau.

OC-022. Rich, PA0RRS, will be active as YB9/PA0RRS from Bali Island (LH-2589) from August 26th to September 24th. Most activity will be on 40-10 meters, but Rich will also give 80 and 6 meters a try. QSL via his home callsign. Rich reports that on April 4th he started processing and mailing out the cards from his recent activity as 9M2MRS.

J2, DJIBOUTI. Darko, T95A, is on assignment in Djibouti and expects to be there for at least a year. He plans on setting up a station in the near future and will be operating as time permits. Darko has been assigned the callsign J28OO, and K2PF will handle his QSL cards.

J3, GRENADA. Look for Gerd, DL7VOG, to be active as J3/DL7VOG from the Island of Grenada (NA-024), August 27-31st. He will then move to Carriacou Island (NA-147), another island in the Grenada group and be active from there until September 16th. Activity will be on 160-6 meters, mostly CW and RTTY, with a little SSB. QSL via his home callsign, direct or the bureau using E-mail requests to: qsl@dl7vog.de

JD1/M, MINAMI TORISHIMA (OC-073). Operator Masafumi, JA6GXK, will be active from Marcus Island as JD1BMM between August 27th and September 18th. He seems to like PSK31 on 20 meters but plans to be active on 80-10 meters on CW, SSB, PSK, RTTY and SSTV.

JW, SVALBARD (EU-026). Operators Karl/LA8DW and Lars/OZ1HPS will be active as JW8DW and JW/OZ1HPS, respectively, between October 1-7th. Activity will be on CW and SSB (bands not provided). QSL via their home callsigns or by the bureau.

LIGHTHOUSE AND USI ACTIVATION: Look for special event station W3B to operate from the Blackistone Lighthouse (ARLHS USA-060(H)) on St. Clements Island (USI MD-028R) from 1400-2000z on September 15th. Activity will be on 40/20/17 meters CW/SSB and possibly PSK-31. QSL with S.A.S.E. to KA3UNQ (See and follow QSL instructions on QRZ.com.) You will receive a photo QSL with a certificate on request.

MM, SCOTLAND (Lighthouse/WAB Activity). Colin/MM0NDX and his XYL will be on holiday in the Highlands of Scotland between August 25th and September 1st. Colin's location will be WAB locator NN15. During his holiday, Colin intends to activate at least one lighthouse, definitely Corran Point Lighthouse (SCO-051) and possibly Ardnamurchan Lighthouse (SCO-005). He is also thinking about airing the rare locators of Rannoch Moor/Rannoch Moor(2) - WAB NN25 which is only a few miles from his holiday location. Look for him around 14257 kHz (+/- kHz).

QSL TU2/F5LDY via F1CGN, direct or by the Bureau. Operator Jean Luc, F5LDY, went QRT from the Ivory Coast on August 25th, after more than 20,000 QSOs. Online log is available at: http://f5kee.free.fr/

QSLS VIA LOTW: BS7H, EI/SP4Z, FW0MO, FW0YL, MD0CCE, TJ3FR, VP2V/DL4WK, VP2V/DL7DF, VU2NKS and VY2MT

QSLS RECEIVED VIA MAIL: 5W0NU, A25KDJ, AP2TN, BS7H, GS0GRC/P, GW8K, HL5FUA, HS0AC, HZ1AN, N2US/P, N8S, OT7C, P29ZAD, PJ2/W9VA, SU8DLH, V44KAI, XT2C, YB1A and ZL8R

SV/J4, GREECE. Geza, HA4XG, will once again return here for a family holiday. His first stop will be in Corfu (Kerkyra) Island (IOTA: EU-052, MIA: MG-055, JM99WR) between August 31st and September 6th. He will operate on the HF bands, and 6 and 2 meters as J48XG and SV8/HA4XG. Look for him to enter the IARU VHF Contest (September 1-2nd). Activity will be on Meteor Scatter transmitting (random) on 144.363 MHz. Geza will than move to Amaliapoli (KM19KE) in Thessalia, near Volos, September 7-14th. His callsigns will be J44XG and SV4/HA4XG, and he will be active on the HF bands, and 6 and 2 meters. He will again be active on 2 meters using Meteor Scatter. Look for him during his morning and evening hours on CW. His rig is an IC-746 into DunaX verticals, preamp on 2 meters, and 10 element DK7ZB Yagi. QSL via the Hungarian QSL Bureau or direct to his QRZ.com address.

V2, ANTIGUA. Bud, AA3B, will be active as V26K between November 21-26th. Activity will include the CQ World-Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/Low-Power entry. This will be an all CW operation on the contest HF bands only. Please QSL via AA3B.

V8, BRUNEI DARUSSALAM. Operators Ronald/PA3EWP, Flo/F5CWU and Tom/GM4FDM are planning a DXpedition to here between November 4-18th. Callsigns are as follows:

Operator	V8 Callsign	QSL Route
PA3EWP	V8FWP	QSL via PA7FM
F5CWU	V8FWU	QSL via F5CWU
GM4FDM	V8FDM	QSL via GM4FDM

Activity will be on all bands from 160-10 meters, conditions permitting. Modes of operations will be on CW, SSB and RTTY. Special attention will be given to the lower bands (160-30m). Also, special attention will be given to Western Europe and the USA. They plan to use at least one beam antenna along with verticals and dipoles. All operators have plenty of experience during DXpedition operation. Depending on InterNet availability, they shall try to maintain online logs at a Web site yet to be established. The Web master will be Dennis, PA7FM, - http://www.pa7fm.nl/

VK9W, WILLIS ISLAND. Operators Tomi/HA7RY and George/AA7JV are expected to leave Cairns on September 22nd on the Motor Vessell Varzin (with George skippering), and hope to commence an operation on Willis on September 25th. Their callsign will VK9WWI. They plan to stay (depart) on October 5th. Please note that these dates are strongly WX dependent. With the Varzin only being a 60 foot motor vessel, operators may delay their departure and wait for favorable weather. Their intent is to set up on the North Cay, but may land on Middle Cay instead due to some recent advice they received. They plan to play it by ear because navigating between coral heads is a scary thing, so the ability to get close to the cay and a good anchorage will decide where they end up. Tomi, HA7RY, will be working the high bands during the day (while George is diving). Then George will work 160 and 80 meters at night. They plan on using 500 watts into two vertical antenna systems. They have chosen the Spiderbeam Telescoping 60 foot mast for the 60 foot inverted L on 160 and 80 meters, as well as the 40 foot Spiderbeam Telescopic mast for 40/30/20 meters. George advises that they have not selected operating frequencies but are open for ideas. STAY TUNED.

VP5, TURKS AND CAICOS ISLANDS. Operators Frank/WA2VYA, Tony/W2WAS, Ken/K2WB and John/N2VW will be active as VP5T during the CQWW DX SSB Contest (October 27-28th) as a Multi/Multi/Dxpedition entry. QSL via N2VW or LoTW. Their activity will be from Providenciales (NA-003), October 23-30th. Look for CW and operations on the WARC bands before and after the contest. Operators will sign using VP5/homecall. QSL to their home callsigns. No eQSLS. SWL QSLs are OK.

VP8, FALKLAND ISLANDS. Chris, GM0TQJ, will be active from East Falkland (SA-002) as VP8CXV during his spare time between September 8th and January 15th (2008). Activity will be mainly SSB but with some RTTY and PSK31. QSL via his home callsign.

DXNL 1534 - Aug 29, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Mike, DJ5AV
(e-mail: dj5av@darc.de)

A3 - Tonga, OC-169

Ron, ZL1AMO, will be on vacation August 27th through September 16th on Lifuka (OC-169). He renewed his licence as A35EA for this activation.

EA8 - Canary Islands, AF-004

Heinz-Peter, EA8/DH1PS, is visiting Fuerteventura (WLOTA 0883) August 25th through September 8th for vacations mainly and will use his IC-706 MKIIG and a wire vertical (1/2 lambda for 20 m resp. 5/8 lambda on 17 m) on SSB. He might also activate a lighthouse e. g. CAI-040, Punta de Jandia. QSL via bureau to his home call DH1PS.

HB0 - Liechtenstein

Giovanni, HB0/IZ2DPX, and Flavio, HB0/IW2NEF, will be in Malbun 1st through 3rd September on 2.600 m ASL using shortwave, 2 m and 70 cm. They will try to get a HB0-call. QSLs via direct or also via bureau via home call.

J2 - Djibouti

Darko, T95A, is on a work assingment in Djibouti for one year at least. he will set up his station soon and be active as J28OO. QSL via K2PF, also sure via bureau.

J3 - Grenada, NA-024, NA-147

Gerd, J3/DL7VOG, will be in Grenada/NA-024 August 27th through 31st. Then he will change to Carriacou (NA-147) in The Grenadines through September 16th. Gerd prefers CW and RTTY on 6 to 160 m but will switch to SSB on request. QSLs via homecall, bureau preferred, and also by e-mail-request to qsl@dl7vog.de for a bureau card.

JD1 - Minami Torishima, OC-073
August 27th through September 18th Masafumi, JA6GXK, will be running JD1BMM from OC-073 again on 10 through 80 m with CW, SSB, PSK, RTTY and SSTV.

P4 - Aruba, SA-036
Bob, W3BTX (P49T), and Roy, W3TEF (P4/W3TEF), will be active on 160 through 6 m, WARC incl, Sep 1st through 15th as P41USA for the anniversary of the events in New York on 11th September 2001. QSLs direct or via bureau to W3TEF.

SV9 - Crete, EU-015
Dick, SV9/G3URA, will be on the air August 27th through September 4th mostly on CW, but also in the Russian RTTY-Contest as J49XF.

VP5 - Turks & Caicos, NA-002
"J.C." VP5/W1AI will be on Providenciales (NA-002) with CW and SSB on all bands 160 through 6 m September 1st through 8th. QSL via homecall.

VU - India
Members of the "National Institute of Amateur Radio" (NIAR) in Hyderabad are using the special call AT60MY through November 17th for the 60th anniversary of India's independence. QSL via VU2NRO.

YB - Indonesia, OC-022
Rich, YB9/PA0RRS, is on Bali (OC-022, LH 2589) August 26th through September 24th on 80 through 10 m. QSL via homecall, also via bureau.

ZD9 - Tristan da Cunha & Gough, AF-030
Brian, ZD9BCB, is leaving the weatherstation on Gough Septmber 14, some weeks later than planned. You find Brian this Sunday at 1730 UTC on 14.315 MHz. QSL via SQ8AQD, direct only.

9X - Ruanda
Correct QSL route for 9X5SP is via DL8YA, NOT DL8YR (DXNL 1532). Operator Peter A. Stabusch manages the Deutschen Welle in Ruanda. Since he started with his work for DW Kigali one year ago he tried for a restart of ham radio with the administration in Ruanda. The necessary laws existed already since some time but they lacked any means of official monitoring. During an official meeting of DW with the local authorities monitoring became a task of the HAMs in Ruanda and Peter A. Stabusch was asked to cooperate and to be president of "Rwanda Amateur Radio Union" by the "RURA" Administratiom.

Pacific: As announced in DXNL #1531 Toshi, JA8BMK, will start for a Pacific tour in September. He will leave Japan for Fiji and continue to Tarawa, West-Kiribati (T30). In mid October he will go from Tarawa for Central-Kiribati as T31XX for at least 1 week and also the CQWW SSB-Contest. Toshi will use 160 through 6 m on CW, SSB and RTTY. Containers with his equipment were already shipped to Tarawa in late July. There may be activity from Rarawa (T33ZZ) befor or after operation from Canton.

Malaysia, special call

Aziz, 9M2AU, will use 9M50MB August 31st for 50 years of independence of Malaysia.

Austria, special call

August 31st through September 9th OE16B will be active for the Pope's visit. You get a special QSL if you contribute for El Molo Mission and School in Kenia with your QSL at least 1 IRC or 1 US $ to: ORF/OE16B, A-1136 Wien, Austria. There will also be QSLing via OEVSV-Bureau.

Russia, special calls

Alexander Kamalagin, UA4IF, was born 100 years ago. He became a ham in 1929, was a radio pioneer for Russia, well known Contester and DXer. For the anniversary special stations R100AK and R100IF are active until the end of this year. QSL via RW4HB, bureau ok. There is also an "Alexander Kamalagin Memory Award" to be found in the Web: http://www.samaraham.ru/main.php?d=awards/ua4if_memory_eng .

Spain, special calls

During the European Basketball-Championship 2007, "EURO-Basket 2007", taking place in Spain in Sept members of "Radio Club Henares" (EA4RCH) will use the special calls AN0EB, AN4EB, AN5EB, AN6EB and AN7EB, Sept 1st through 16th - AN0EB only while members of the Royal Family are visiting a game. QSLs for all calls via EA4RCH, direct or via bureau. Get the "HAM EUROBASKET 2007 AWARD" for QSOs/SWL-reports about four different of their special stations. Read more on http://www.radioclubhenares.org .

Silent Key: Only two weeks ago we received informations for DXNL from Sigi Kleine, DL3AMA. Now we learned that he died unexpectedly on August 14th at the age of 66 years. RIP.
QSL managing for YW5AS (SA-051) was taken over by DM4TI.

DXNL 1535 - Sep 5, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Mike, DJ5AV
(e-mail: dj5av@darc.de)

GD - Isle of Man, EU-116

Lars, DF1LON, intends to be active from the Isle of Man September 6th through 10 as MD0LON on 80 through 10 m, possibly 6 m also, using SSB, CW and RTTY. QSL via home call, also via bureau. For the WAE-Contest (Sep 8/9th) he will be GD6IA (QSL for this call via CBA) or MD0LON.

SP - Poland

During an exhibition in the town of Kielce special call 3Z0MSPO is active September 3rd through 6th. QSL via SP7PKI, direct or via bureau.

VP8 - Falkland-Ilands, SA-002

Chris, GM0TQJ, will be on East Falkland Insel using the call VP8CXV September 8th through Januar 15th, 2008. He prefers SSB but will do also some RTTY and PSK31. QSLs will be answered after his return home.

VQ9 - Chagos-Archipel, AF-006

Jim, ND9M, finished his activity as VQ9JC with the end of August. He will be back on Diego Garcia in December 2007 after his leave for another 4 months.

VU - India

August 31st through September 30th, 2007 there is again a temporary authorization to use 30m band for Indian hams. NIAR special call AT60MY will be active on 10.106 MHz in this time frame.

YB - Indonesia, OC-022

Hans, PA0HOP, will be YB9AGH on Bali in September and October using CW, PSK31 and RTTY. QSL via PA0HOP, direct or via bureau.

ZD7 - St. Helena, AF-022

Tom, KC0W, went to St Helena September 5th for quite a time and is hoping to have is aerials erected by September 15th to start his radio adventure as ZD7X. Tom will take part in all great contests using SSB, CW, RTTY and PSK on all bands 160 through 6 m. Favorite bands will be 30 m, 80 and 160 m. W0MM was selected to be his QSL manager, he will confirm direct as well es via bureau.

3B7 - St. Brandon, AF-015

Nearly 6 months ago we spread information on the DXpedition to St. Brandon (Isle du Sud, AF-015) by "FSDXA" in DXNL #1511. Now here the details about 3B7C: G3USR, GM3POI, N6HC, K3NA, G4TSH, G3XTT, G3SVL, G3NHL, G3IZD, G3BJ, G0OPB, EI5DI, DL7AKC, DK7YY, 9M6DXX, SM5GMZ, MD0CCE, G3NUG, as well as N6OX will be active September 7th (0000 UTC) through September 24th with twelve stations simultaneously. There will be monobanders for 30 through 6 m and verticals for the lowbands.

August 12th the container arrived on Mauritius with six big (5 kVA) Diesel generators.

They also looked for a special authorization for 6 m, usually not available on Mauritius. Three fixed frequencies are authorised for them: 50.090 (CW), 50.102 (CW), and 50.145 MHz (USB).

After uploading of the logs on their web side www.3b7c.com a software will show those 30 top DXers with the biggest amount of bandpoints (= QSOs in CW, RTTY, PSK, SSB and FM per band).

Feedback messages can be sent by e-mail to 3b7c@g3wgv.com and will be made available to the team on a daily basis.

QSL via Neville, G3NUG, direct or via bureau or by LoTW. There will be an online QSL request on their web page too.

SWLs will have BRS32525 for a seperate QSL manager. They will use split frequence for nearly all QSOs on these frequencies:

MHz	CW	SSB	RTTY	FM	PSK
1.8	1.822	1.842	-	-	-
3.5	3.502	3.795	3.570	-	3.580
7	7.002	7.052	7.035	-	7.037
10.1	10.102	-	10.137	-	10.140
14	14.022	14.145	14.085	-	14.071
18	18.072	18.145	18.100	-	18.100
21	21.022	21.295	21.085	-	21.071
24.9	24.892	24.945	24.920	-	24.920
28	28.022	28.495	28.075	29.580	28.071
50	50.102	50.145	-	-	-

50 MHz beacon transmitting on 50.090 MHz

They will produce a video about this DXpedition, you may order the DVD on the 3B7C homepage.

5H - Tansania: Scott, AC3A, will work in Tansania September 7th through 17th for "ORBIS International" (a humanitary organisation, protecting people from blindness). In his evening hours Scott intends to be active as 5H3EYE. QSL via AC3A.

5Z - Kenia: Chris, 5Z4/DL2MDU, is on vacation in Kenia September 10th through 24th and intends to be mainly active on CW "holiday style" with 100 wtts from an FT-897 with wire antennas for 10 through 80 m, prefering 17 m, 30 m and 40/80m. Chris prefers QSLing via DARC-Bureau.

9H - Malta, EU-023

A team from the Netherlands will have the 20th visit to Malta September 8th through October 1st and will present the call 9H20 (nine hotel two zero) on 10 through 80 m. Team members will also be on the air with their individual 9H3 calls. QSL for 9H20 via PB9ZR/9H3ZR: Ruben van der Zwet, Barentzstraat 1, 2161 TJ Lisse, The Netherlands. They do not like IRCs but will confirm automatically via bureau for all QSOs without direct request until December 2007.

Finland, special call

Finland got its indepence December 6th 90 years ago. Due to this event

Finish stations may use the prefix OF instead of OH Sep 1st through December 31st, 2007.

France, special call

This year's CDDXC-Conventio will be held by "Clipperton DX Club" September 22nd in Puyloubier, Southern France. Special station TM8CDX (QSL via F5CQ) will demonstrate this event September 8th through 22nd.

USA, special call

Robert, W2IK, will use special call W2IK/WTC911 September 11th 13:00Z through 0300 UTC September 12th on 40, 20 and 15 m on SSB in memory of the people that lost their lives in the attack to the World Trade Center. QSL to W2IK, P.O. Box 6731, San Antonio, TX 78209, USA. More information by http://hometown.aol.com/realhamradio/ .

Human natures are fine tuned for gene pool survival.

The way we evolve in the gene pool is that when we're not at war, we're in a race.

Peace and freedom means competition. Some people are uncompetitive. So they don't want to compete. Those people demand slavery.More...

Those who demand slavery are not necessarily poorer or richer, superior or inferior. Those are people that somehow do not like competition.

The farm owning farmers in southern US, for example, do not want to compete with the higher salary the industrial north has, so they demand slavery. This happens despite the fact that the landlords are already way richer than their slaves.

Uncompetitive businesses also do not want customers to be free to choose the best products. They demand enslavements of consumers by restricting consumers choice to choose better products.

As time goes by and consensual productive means to aquire wealth become available, those who oppose competition tends to be the one inferior.

When we're not at war, we're in a race. So in a sense, some part of life is a zero-sum game. The happiness of some superior competitors correlate with gene pool survival of such people. This correlate with the extinction of inferior people and this make inferior people unhappy....page...

For example, women prefer rich smart males and normal males prefer as many females as possible. Actually poor males prefer more money rather than more women, but that's later.

If rich smart males get more females, then rich smart alpha males will survive better in the gene pool. That means, the other males do not get any. Hence, the lesser males will not be happy. They will then come up with monogamy to ration females in equal share for everyone.

Those who are uncompetitive are not going to say honestly that they are disgruntled competitors. They're going to come up with some religious unscientific fairy tales to come up with pretext that freedom, such as free sex is wrong.

In short, whenever someone is happy, whenever something gives pleasure, happiness, and money, you can count that someone, somewhere, somehow, will come up with some fairy tales of who knows what that somehow it's wrong, bad, and should be prohibited.

The preference to snuff of happiness earned by others are called envy. In a sense, those who want to be happy are meant to kill each other with those who are envious.

Unless those who run the fastest also hit the hardest, success is simply a bridge to a gas chamber. Deviation from free fair competition turns life into some form of gun fight.

Not everyone can be appeased in a gun fight. Envy is simply unappeasable. The way to keep pursuing our happiness and still be alive is either to kill, or threaten to kill, those who are envious of us that it's not to their best interests to kill or prosecute us....page...

That's why I strongly support death penalty. Without it, all succesful people will be slaughtered by bigots that don't mind going to jail for it.

It's also the same reason why many ugly women oppose porn. That's because those women are envy bigots.

Think of it this way. Pretty women can just show some skin and make millions of dollars. Ugly women has to sexually serve poor males and get knocked up for much less money.

If this keeps going, pretty women can pick the best males with the best genes and provide their sons with better education, opportunity, and more initial start up capital.

The pretty genes will survive better in the gene pool and the ugly will be outcompeted, like in Europe or Japan. All thanks to porn.

Obviously, pretty porn stars are way better of then ugly wife. Becoming a porn star or prostitute is then one of the best job ever in this world.

However, out of envy, ugly women will want to prevent that. What's their justification? By saying that all the good jobs are so bad that it can't possibly consensual, and hence has to be prohibited.

They said that porn should be prohibited to protect women. Which women? Not the consenting one of course. How in the earth people get protected from consensual offers anyway. It's there to protect disgruntled envy competitors.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B7, ST. BRANDON. The 3B7C team is now active from Isle du Sud, St.

Brandon (AF-015). It seems the team arrived on the island on September 5th, apparently the boat trip wasn't very pleasant due to high seas, but activity did not start until around 2000z, September 7th. Here are the following suggested frequencies:

CW   - 1822, 3502, 7002, 10102, 14022, 18072, 21022, 24892 and 28022
SSB - 1842, 3795, 7052, 14145, 18145, 21295, 24945 and 28495
RTTY - 3570, 7035, 10137, 14085, 18100, 21085, 24920 and 28075
PSK - 3580, 7037, 10140, 14071, 18100, 21071, 24920 and 28071
FM   - 29580
6m   - CW/50102, SSB/50145 and Beacon/50090

The 3B7C team plans to have 12 stations on the air. There will be a station on every band from 160-6 meters with second stations on 80 and 20 meters so they can operate on CW and SSB at the same time. This should be a fun and easy operation to work anywhere. Activity is expected to last until September 24th. The 3B7C Web page is available at:
http://www.3b7c.com
Update-to-date news is at: http://www.3b7c.com/news.htm
Daily log updates are at: http://www.3b7c.com/logsearch/search.php
Pilot station for the operation is John, G3WGV, and his E-mail address is: 3b7c@g3wgv.com
QSL via G3NUG, direct (Neville Cheadle, Lower Withers Barns, Middleton on the Hill, Leominster, HR6 0HY, England) or by the Bureau (Bureau cards can be requested via the 3B7C Web page). The QSL Manager for SWLs is Bob Treacher, 93 Elibank Road, Eltham, London SE9 1QJ, ENGLAND.

3B8, MAURITIUS (AF-049). Ronnie, SM7DKF, will be active as 3B8/SM7DKF between November 8-24th. This will be a holiday style operation, with activity on the usual IOTA frequencies mostly SSB and perhaps also digital modes. QSL direct to his home callsign (see QRZ.com). For more details, visit: http://www.sm7dkf.se/index-info.htm

4O, MONTENEGRO. To celebrate the admission of the Republic of Montenegro to the Council of Europe, members of the radio club of the Council of Europe have organized an expedition in collaboration with Ranko/4O3A, to air the special event callsign 4O0CE between October 17-21st. QSL via F5LGF. Logs will be available at: http://ewwa.free.fr/

4U1I, ITU HQ. A group of WRC delegates will activate the callsign 4U1WRC during the CQ World-Wide DX SSB Contest (October 27-28th) as a Multi-Op/? entry from the I.T.U. Geneva station 4U1ITU. QSL via 4U1ITU.

5H, TANZANIA. Scott, AC3A, is in Dar es Salaam until September 17 as part of project ORBIS. The goal of ORBIS (http://www.orbis.org/) is to help eliminate preventable blindness in the world. Scott will be signing 5H3EYE and hopes to be active during the evenings. QSL via his home callsign.

6E/XF4, REVILLAGIGEDO. Carlos, XE1YK, the President of Mexico's FMRE, has announced the dates for a Revillagigedo expedition to celebrate the 75th anniversary of FMRE. The operation will be a full month and take between November 15th and December 15th. Paperwork for the permission will be initiated this week requesting the callsigns 6E4LM and XF4YK. The operators will focus on 160 and 6 meters, where they feel XF4 is most needed, but they will be on the other HF bands as well with a goal of 25,000

QSOs. They plan to use simple antennas and 100 watt radios. More details should be forthcoming.

6W, SENEGAL. Al, F5VHJ, will be active as 6W1RY during the CQ World-Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band/High-Power entry. QSL via F5VHJ.

8Q, MALDIVES. Chris, M0AJT, is now active as 8Q7CT from Dhonveli Island (AS-013) until September 14th. This will be a holiday style operation, so activity will be limited, mainly on CW with some SSB. He will use a FT900 with 100w into G-Whip vertical about 3 meters above sea level on a railing on his water bungalow. QSL via his home callsign.

A5, BHUTAN. Torben, OZ1TL, is expected to be active as A52TL during his stay in May of 2008. He will leave Copenhagen in mid-April to Nepal (Kathmandu) and go from there to Bhutan arriving on May 2nd, 2008. Torben will be attending some of the inauguration ceremonies of the new King of Bhutan. Activity will be mainly on CW (almost exclusively) on most bands including 160/80/40 meters. QSL via his home callsign. He also plans to use the LoTW.

AO8, CANARY ISLANDS. Edu, EA8AUW, will be active as AO8X during the CQ World-Wide RTTY DX Contest (September 29-30th) as a Single-Op/All-Band/High-Power entry. Activity will be from the URE Las Palmas section radio club station EA8URL. QSL via EA8AUW.

ASIAN TOUR. Ed, N1UR, is expected to be active from Bhutan as A52UR between September 28th and October 2nd. Activity will be on all bands CW/SSB. QSL via K2RET. He is also planning to be active from the Hillview Gardens ARC station in East Malaysia as 9M6A. Specific dates were not provided, but he plans to be active in the CQ World-Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/Low-Power entry. QSL via N2OO. He also plans to be active from the Spratly Islands (9M0) between March 22-30th. A callsign has not yet been assigned, but activity will be on CW/SSB on 160-10 meters. QSL via K2RET.

C5, THE GAMBIA. Just a reminder that Andre, ON7YK, will once agin be active as C56YK from September 14-27th. Activity will be on 80-10 meters and also on 6 meter SSB. QSL via the info on QRZ.com.

C9, MOZAMBIQUE. Wayne, W5KDJ (TF2WJN, SV0WWW, 3DA0KDJ and A25KDJ), will be active from 50 km north of Maputo as C91KDJ between November 29th and December 10th. Activity will be mainly CW, possibly RTTY, and he is making 160/80 meters a priority. He plans to use a 72 ft. vertical with 50 or more radials under it. Wayne states it "worked great in Botswana in July". He likes operating split (about 15 kHz up) and listens on the outer edges most of the time. Visit his Web page at: http://www.tdxs.net/c91kdj.html

D4, CAPE VERDE. Operators Girts/YL2KL and Vilnis/YL2KF will be active as D4C during the CQ World Wide DX RTTY Contest (September 29-30th) as a Multi-Single entry. For latest information, check the Web page at:
http://www.d4c.cc

DXCC NEWS...........

ARRL Outgoing QSL Service Changes (Bill Moore, NC1L): "Effective September 6th, 2007, the ARRL Outgoing QSL Service will no longer accept QSL cards for shipment to HH (Haiti) and 9L (Sierra Leone)."

The ARRL Incoming QSL Service and 1X1 Callsigns (Bill Moore, NC1L): "When sending cards to confirm 1X1 callsigns, the ARRL QSL Service requests you note somewhere on the card the person who 'requesitioned' the callsign. This will expedite routing to the proper station and may result in quicker processing of cards handled through the ARRL US Incoming Bureaus. To locate the person responsible for a 1X1 callsign, please visit this site: http://www.ncvec.org/1x1.php
Enter the 1X1 callsign. When the screen appears, select the 1X1 callsign based on the event you worked. Click 'Details' on the right-side of the page to determine the person responsible for the operation.
'See Requesitioned by'
Remember, callsigns may be issued more than once, so following the above procedure will allow the QSL Service to direct it to the proper person. Direct any questions to qsl@arrl.org"

EA8/ED8, CANARY ISLANDS. Operators DK3QZ, DL1EKC, DL1EMH, DL3HAH, DL3QQ, DL5XX and PA0R will be active as ED8A during the CQ World-Wide DX CW Contest (November 24-25th) as a Multi/? entry. Operators will be active outside of the contest as EA8/homecall. No QSL routes were mentioned, so listen to operator's instructions.

FH1, MAYOTTE (AF-027). Alain, F4RPW, informs OPDX that he is now a resident of Mayotte, and has received the callsign FH1LE. He has just arrived on the island about 3 weeks ago. Alain is gradually getting all his equipment sorted and is planning to install his station soon (possibly this week). He will use a vertical antenna to begin with (a 4BTV) and will be using a FT-897 (100w). Alain plans to operate on SSB, maybe CW if he can find the time to practice a little more. He also plans to operate digital modes (PSK31, RTTY) with a Microham interface. Alain also brought with him a beam antenna, a KT-34 upgraded with the latest kit, but he needs more things arranged to get it erected (He states, "I'm not sure the garden is large enough".).

HR2, HONDURAS. Gus, LU1DY, will be active as HR2/LT0E during the CQ World-Wide DX RTTY Contest (September 29-30th) as a Single-Op/All-Band entry. QSL via HQ2LAS.

IOTA NEWS.................................

EU-110. Operators Ruda/OK1HWS, Honza/OK1JK, Jiri/OK1JST and Vlasta/OK1UXH will be active ast 9A/homecall from Porer Island (ACIA IC-46, CIA-35, IOCA CI-090, MIA MC-313, WLOTA LH-0240) between now and September 14th. Activity will be on 80/40/30/20/17/15/10 meters, using CW, SSB, RTTY and PSK. QSL all callsigns via OK1JST.

EU-137. A group of Swedish and German operators will be active from Ven Island from October 6-13th. Activity will be on CW, SSB and RTTY. The team plans on using high power for this operation.

At the moment, the team consists of:

Name/Homecall	EU-137 Callsign	QSL Route
Fred/SM7DAY	SM7DAY/7	QSL via homecall
Frank/DL2SWW	SD7W	QSL via DL2SWW
Tom/DL2RTK	SE7TK	QSL via DL2RTK
Ric/DL2VFR	SD7V	QSL via DL2VFR

QSL all via the Bureau (preferred) or if really necessary via direct (they can only accept new IRC; be aware please that 2 USDs barely cover the postage to outside EU).

EU-165. Members of the Associazione Radioamatoriale Sardinia QRP Club (IQ0QP) will be active September 16th between 1000-1600z from Quirra Island (IIA CA-009, MIA MIS-026), using the callsign IM0/IQ0QP. QSL via direct to: P.O.Box 81, 09047 Selargius (CA), Sardinia Island - Italy.

OC-164. Operators Wally/VK6YS and Bruce/KD6WW will be active as VK6YS/p from Rottnest Island (WLOTA LH-2197), between 1100z, October 15th to 0300z, October 17th. This will be a short mid-week stay with activity on 40/30/20 meters CW/SSB. QSL direct to VK4AAR: Alan Roocroft, 376 Old Toowoomba Road, Placid Hills, QLD 4343 Australia).

OC-193. Operators Wally/VK6YS and Bruce/KD6WW, with the assistance of Nigel/VK6KHD and Karl/VK6FAAD, will be active from Cheyne Island starting on Friday afternoon October 12th through to Monday morning October 15th. The callsign was not provided. Activity will be on 40-15 meters as bands permit. More details should be forthcoming.

KP2, U.S. VIRGIN ISLANDS. Craig, AH8DX, will be active as KP2/AH8DX during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op entry. QSL via AH8DX.

LU, ARGENTINA (Special Event). As part of GACW 30th anniversary, a team of operators will go to operate from the City of Morse (Buenos Aires Province), from October 12-15th. The callsigns to be used are: LU1DZ/E, LU5FZ/D, LU6UO/D, LU7BTO/D, LW1EXU/D and LW2DX/D. They will have two complete stations with high power and wire/vertical antennas. They will be active on all band/modes from 160-10 meters, with emphasis on CW. Morse is located in the NW region of Buenos Aires Province. The nearest major cities is Junin, which is 26 KM from Morse.

NH0, MARIANA ISLANDS. Koji, JL3RDC, gave early notice that he will be active as NH0DX during the CQ WW WPX SSB Contest (March 29-30th). His operating class was not provided. QSL via JL3RDC.

OH0Z PIRATE ALERT. Juha, OH9MM, sent out the following press release:
"Since 27 June 2007 there has been a lot of pirate activity. Most of the pirate activity has been on 10MHZ cw. Primetime for pirate has been so far around 17Z.

Luckily the pirate has been very rude (operating quite long periods). It has been relatively easy to trace. Most of the signals have been sent from the same area. However, we need some more data to contact the telecommunication authorities. Only groups of voluntary people across Europe have identified the antenna directions so far. Even at this point OH0Z �team would like to thank them for good co-operation! In the future: if the pirate keeps on going, please also inform the antenna direction in the spot. Just a reminder, our station is located in square locator JP90�

We have also built an automatic system to monitor the use of OH0Z call. Practically we are receiving OH0Z spots directly to our mobile phones. We can also turn this system off, please no kidding with cluster spots!

Untill further information OH0Z is now totally QRT on 10MHZ. All the future activations on 10MHZ can now be claimed as pirate activations.

OH0Z has been active on 10MHZ only two times this year:

26 � 27. May 2007 operated by OH3BHL
24 � 26. Jun 2007 operated by OH9MM

Before sending any qsl please check log search at our page www.oh0z.net. It contains all 10mhz contacts. We were on the island last weekend preparing new antennas for the upcoming contest season (1-2 September). Few qso�s were made on 80m, 20m and 17m (log seach will be updated soon). No activity on 10Mhz�

Normally we are active during contests. Some �warm up� qso�s before and after the tests. Holiday style operations may occur, but they are very rare! In normal situations we are not active during the week. We are also trying to publish our activities in advance in major bulletins as much as possible!

Please notice that we are also renting the OH0Z place with certain terms. There is no need to operate with our call sign in your home.

On behalf of RadioSporting Team (OH0Z).... Juha Valimaki, OH9MM"

ADDED NOTE: OH0Z will be on for both modes of the SAC Scandinavian Contest, September 15-16th (CW) and September 22-23rd (SSB), 80-10M. OH1JT will be the operator, SOAB in CW, and OH1RX + OH9MM (maybe also others) M/S in SSB. QSL via W0MM. Special prefix may also be used.

P29, PAPUA NEW GUINEA (New IOTAs). Operators Luis/CT1AGF, Derek/G3KHZ, Steve/G4EDG and Hans/SM6CVX together with two non-ham friends will make the journey by chartered boat from Buka Island on September 22nd to Nukumanu Island (OC-284p). They should be active as P29VCX from Nukumanu for about 6 days beginning September 23rd. The plan is then to sail to Takuu Island (OC-283p) and operate using the callsign P29NI from there for 6 days starting about September 30th. Finally, if time permits, they will sail to Kilinalau Island (OC-256, aka Tulun Islands) and operate from there for a few days, possibly as P29VLR, between October 6-9th before returning to Buka. The dates may vary a little depending on the local weather. They expect to operate on all bands, including 160 and 80 meters, with possibly 3-4 stations, two amplifiers, verticals and a multiband dipole. Their plan is to run 4 stations simultaneously from 2 sites on each island. This should allow simultaneous operation from two stations on the same band using different modes. Two stations will use 500w linears and two stations will use 100w. QSL P29NI via G3KHZ. QSL P29VCX and the Kilinalau Island operation via SM6CVX. The group is looking for support from the ham community. More details and updates are available on their Web page at:

http://www.rep.pt/P29-PapuaNewGuinea/

P40, ARUBA. Ken, K6TA, will be active from here as P40TA from November 27th to December 18th. He plans to be active in the ARRL 160 Meter Contest (November 30th-December 2nd) as a Single-Op/High-Power entry. QSL via WM6A and LotW.

QSLS RECEIVED VIA MAIL: 1A4A, 3B7SP, 3XD2Z, 3W22S, 4A3IH, 4W6AAV, 5W0NU, A22AA, A25SL, BS7H, C21/ZL1AMO, C9RJJ, E51QMA, FK8GX, FS/DL7DF, GU3HFN, IS0/IK1WEG, J20MM, JT1CO, KC4/K2ARB, KH8SI, KV4FZ, MM0SJH, N8S, OY/PA0VHA, PY0FF, R1FJT, R1ANF/P, T30CW, T32MO, TF/SM5ELV, TX9C, VP2V/DL7DF, VP2MNS, VQ9LA, VR2XLN, VR6BB, WP3R, XT2C, XW2A, YN4SU and ZK1QMA

SPECIAL EVENT (911). Robert, W2IK, will again be operating special event station W2IK/WTC911 on September 11th, from 1300-0300z (9:00 AM-11:00 PM EST). He states that activity is "IN HONOR OF THOSE WHO LOST THEIR LIVES DURING THE WORLD TRADE CENTER DISASTER. I WILL BE USING MY PERSONAL CALL BECAUSE IT WAS THE FIRST CALL THAT WAS SENT FROM 'GROUND ZERO'." Look for activity on the upper portions of 40/20/15 meters SSB. QSL by sending a 9x12 SASE to the QRZ.com address of W2IK: PO BOX 6731, San Antonio, TX 78209. A special QSL certificate has been printed. Visit the following Web site to see W2IK's entire story:

http://hometown.aol.com/realhamradio/

SV5, DODECANESE. Look for Alberto, IW1RLF, to be active as SV5/IW1RLF from the Island of Rhodes (EU-001, MIA MGD-028, WLOTA LH-0045), September 10-17th. QSL via his home callsign, direct or by the bureau.

SV5, DODECANESE. Operators Luk/ON4BB and Bill/ON5JE will be active as SV5/homecall from the Island of Rhodes (EU-001, MIA MGD-028, WLOTA LH-0045), September 11-25th. This will be a holiday style operation. QSL via their home callsign, the bureau is preferred.

SV5, DODECANESE. Drew, GM3YOR, will be on holiday from September 16-29th on the Island of Symi, Dodecanese Islands, and intends to operate CW only as SV5/GM3YOR over that period using TS50 and wire antennas.

SV9, CRETE (EU-015). Steve, G0SGB, will be active as SV9/G0SGB/p, September 12-25th. He will also activate various lighthouses during his travels. QSL via his home callsign.

SV9, CRETE (EU-015). Ben, DL6FBL, will be active as SV9CVY during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/All-Band/High-Power entry. QSL via SV9CVY.

TK, CORSICA (EU-014). Heinz, DF6ZY, will be active as TK/DF6ZY, September 16-28th. Activity will be on 80-10 meters, mostly on RTTY, but he will switch to SSB or SSTV on request. QSLs via the bureau to DF6ZY or direct.

VP5, TURKS AND CAICOS ISLANDS (Correction). Operators Frank/WA2VYA, Tony/W2WAS, Ken/K2WB and John/N2VW will be active as VP5T during the CQWW DX SSB Contest (October 27-28th) as a Multi/Multi/Dxpedition entry. QSL via N2VW or LoTW. Their activity will be from Providenciales (NA-002, not NA-003 as mentioned earlier), October 23-30th. Look for CW and operations on the WARC bands before and after the contest. Operators will sign using VP5/homecall. QSL to their home callsigns. No eQSLS. SWL QSLs are OK.

VP9, BERMUDA (NA-005). Operators Ted/W3TB and Blair/K3YD will be active as VP9I during the CQ WW DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via N1HRA.

ZD7, ST. HELENA. Just a reminder. Tom, KC0W, who recently moved to St. Helena Island, and is expected to be active as ZD7X possibly by September 15th. His activity will be on modes CW, SSB, RTTY and PSK. Look for his operations on 160-6 meters. Special attention will be given to 40, 75/80 and 160 meters. ZD7X will be active in all major contests. Tom has already announced that he will be active as a Single-Op/Low-Power entry in both the CQ World Wide DX SSB Contest (October 27-28th) and the CQ World Wide DX CW Contest (November 24-25th). When not contesting Tom will be DXing in general. His QSL Manager is W�MM.

ZONE 2 (IOTA Op). Three members of the Magnolia DX Association (MDXA) and one other operator will activate Orleans Island (NA-128/QC-007) as VE2IDX for 2007 W/VE Islands QSO Party and Zone 2 (Sept-Iles) as VE2Z for CQ World-Wide DX SSB Contest (October 27-28th). Operators mentioned are: Igor/VE3ZF/VE2IDX (MDXA - Team Leader), Ken/VE3FDX, Travis/K5GED (MDXA) and Bill/K5YG (MDXA). This is an all-out, high power operation, with an extensive array of antennas. Their goal is to "Set World Record" for the QSO Party and "Set the Record" for Zone 2 for the CQWW Contest. More details should be forthcoming.

DXNL 1536 - Sep 12, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

C5 - GAMBIA

Andre,ON7YK, plans to hit the bands once again as C56YK from Sep 14-27.
He announces SSB operation on 10-80m running 100 watts into a FD4.
QSL cards should be sent to his homecall.
An online QSL exchange is possible via http://www.eQSL.cc

FH - MAYOTTE, AF-027

Alain,F4RPW, moved to Mayotte (AF-027) and is now licensed as FH1LE.
He intends to show up in SSB/CW/PSK/RTTY with 100 watts, vertical and a KT-34 yagi antenna.

FP - ST PIERRE ET MIQUELON, NA-032

John,FP/W9ILY, and Bob,FP/K9MDO are working from NA-032 from Sep 12-18. While Bob prefers working primarily in SSB John takes care of the digital modes RTTY and PSK. They are QRV on all bands from 10-80m using two TS-570D radios and verticals which they stored at the hotel since their last DXpedition. The QSL manager for FP/K9MDO is W9NJB.
W9ILY handles his QSLs himself. QSL via bureau is ok for both calls and the logs of FP/W9ILY will be uploaded to the LotW after the operation.

OH0 - ALAND ISLANDS, EU-002

OH0Z will take part in both parts of the Scandinavian Activity Contest.
OH1JT will be the OP during the SAC Contest in CW on Sep 15/16.
The SSB part one week later will be operated by OH1RX, OH9MM and maybe also other OPs. QSL via W0MM.

OJ0 - MARKET REEF, EU-053

OJ0B logged some 13.000 QSOs during August and the team members were very busy mounting newer and better antennas on the lighthouse. The second activity will be operated by OH0RJ, OH2BH, OH2MM, OH2PM, OH7EA and OH8NC from Sep 15-24. They plan to work with up to three stations during both SAC Contests (CW/SSB). Outside of the contest check here:
CW: 3.523, 7.023, 10.113, 14.033, 18.083, 21.033, 24.903, 28.033 MHz;
SSB: 3.775, 7.075, 14.175, 18.135, 21.275, 24.960 and 28.475 MHz.
Martti,OH2BH, will be the QSL manager again. Stamp collectors may get special stamps from the market reef for 7 EUR or 10 US-$.

TK - CORSICA, EU-014

Heinz,TK/DF6ZY, will be active from Corsica (EU-014) from Sep 15-28. His preferred mode is RTTY on 80-10m but he works also in SSB or SSTV upon request. QSLs via DARC bureau or direct to his homecall.

4O - MONTENEGRO

K6MYC, N6TQS, I2MQP, JA1BK and UT5UT are going to visit Gojko,YU6AO, from Sep 17-21. They will use his shack signing 4O1AO and 4O1M in CW/SSB/RTTY/PSK31/SSTV/EME on 2-160m. All together will go to the World High Speed Telegraphy Championship (HST) which takes place in Belgrad (http://www.hst2007.org) from Sep 21-23. Last not least they are also planning a side trip to the station of Hrane,YT1AD, from where they will be QRV as YT5A until Sep 26.

8Q - MALEDIVES, AS-013

Chris,M0AJT, is working as 8Q7CT mostly in CW and only little SSB from Dhonveli Island (AS-013) from Sep 7-14. His holiday equipment includes a FT-900 with 100 watts and a G-Whip vertical.

ENGLAND, SPECIAL EVENT STATIONS

The "Scarborough Special Events Group" will be active as GB2QE on Sep 15/16 to celebrate the 40th birthday of the ocean liner "Queen Elizabeth 2". All QSOs will be confirmed via buro automatically. Direct cards should be sent to G4SSH.

SPAIN, SPECIAL EVENT STATIONS

The ITU was founded as the "International Telegraph Union" in Paris in 1865. The modern name "International Telecommunication Union" has been determined at a conference in Madrid in 1932. To mark the 75th anniversary of this date all stations in Spain may use special prefixes (AO for EA, AN for EB, AM for EC) between Sep 3 and Dec 9.

SILENT KEY

Gilles Simeon,F5PVF, who passed away on September 7 was one of the active members of the "Radio Club de Provins" (F6KOP). He was also involved in the planning of the DXpeditions 5V7C, 5H1C, TO7C and XT2C.

PIRATE: The call OH0Z was heavily misused by a pirate especially on 10.1 MHz during the past time. Before you send a QSL to OH0Z please use their online logsearch at: http://www.oh0z.net

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, AA1M, K1XN & GoList, W1AL, NG3K, NP3D, W3UR & The Daily DX, N4AA & QRZ DX, W4JO, KM6HB, NN7A, K8YSE, KU9C, W0YR, DX-IS News Site, Pete's-DX-Newsdesk, DJ7IK, DK6XR, DK8JB, DL7MAE & The DX News Letter, F5NQL & UFT, G0IAS, G8ATE, I1JQJ/IK1ADH & 425 DX News, JA8CDG, JI6KVR & IOTA-JA News, OH2BH, OH2BN, PA4JJ, RSGB IOTA Web Site, SV1IW, VA3RJ & ICPO and ZL2AL for the following DX information.

EDITOR'S SPECIAL NOTE (by KB8NW): There will "NOT" be an OPDX bulletin for September 24th. I will be involved in and moderating the DX seminars during the 2007 Great Lakes Division Convention (http://www.2007gldc.org/) next weekend. Also, I will also be attending the Cleveland Hamfest. I hope to see you there at both events. However, PLEASE continue to send your DX info to me. If something major happens, I will send out an announcement.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 9th/September, through Sunday, 16th/September there were 211 countries active. Countries available: 3A, 3B6, 3B8, 3B9, 3C, 3D2, 3DA, 3W, 4J, 4L, 4O, 4S, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7O, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9Q, 9V, 9Y, A3, A4, A5, A6, A7, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, DL, DU, E5/s, E7, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, F, FG, FK, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J6, JA, JD/o, JT, JW, JX, JY, K, KH0, KH2, KH6, KH9, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PY, PZ, S2, S5, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, TA, TF, TG, TI, TK, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V5, V7, V8, VE, VK, VK9N, VP2M, VP2V, VP5, VP8, VP8/h, VQ9, VR, VU, XE, XU, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

1A, S.M.O.M. It was announced this past week that an international team of operators will be active from the Sovereign Military Order of Malta (SMOM) for the first time ever during the CQ World Wide SSB DX Contest (October 27-28th). The callsign 1A3A will be used during the CQWW SSB Contest. This callsign, 1A3A, is a new prefix, and it will be used for the first time from the Sovereign Military Order of Malta. QSL via IZ4DPV. For all activity prior to and after the contest, operators will use the callsign 1A4A. There will be both SSB and CW activity on the WARC bands using the 1A4A callsign during the noncontest period. For updated information, please visit: http://www.1a4a.org/

3B7, ST. BRANDON. The 3B7C team continues to be active from Isle du Sud, St. Brandon (AF-015)until September 24th. As this was being typed Sunday morning, the 3B7C log states as of 2359z, September 15th, there are a total of 72077 QSOs in the database. First QSO was at 2000z, September 7th. Breakdown by bands and modes:

10m - 3232   30m - 7039   Phone: 28002
12m - 4488   40m - 10054   CW: 43599
15m - 9880   80m - 7266   RTTY: 476
17m - 10131   160m - 1739
20m - 18248

Currently, the team is reporting that their Web site has been running very slowly, probably due to the high volume of traffic. The on-line log section is particularly badly affected. They also mention that they are

still having trouble with the on-line log server. It seems to be related to the "large number of entity/zone leaderboard requests", so for the time being they have disabled that facility. They will continue to work on a solution, and suggest to please bear with them. Remember, the 3B7C Web
page is available at: http://www.3b7c.com
Update-to-date news is at: http://www.3b7c.com/news.htm
Daily log updates are at: http://www.3b7c.com/logsearch/search.php
Pilot station for the operation is John, G3WGV, and his E-mail address
is: 3b7c@g3wgv.com
QSL via G3NUG, direct (Neville Cheadle, Lower Withers Barns, Middleton on the Hill, Leominster, HR6 0HY, England) or by the Bureau (Bureau cards can be requested via the 3B7C Web page). The QSL Manager for SWLs is Bob Treacher, 93 Elibank Road, Eltham, London SE9 1QJ, ENGLAND.

5J0/HK0, SAN ANDRES (NA-033). Operators Tom/K3WT, Vlad/N0STL, Bill/W0OR and Ron/N0AT will be active as HK0/homecall from November 19-27th. The team will also participate in the CQWW DX CW Contest (November 24-25th) as 5J0A and as a Multi-Single entry. QSL 5J0A via W0JAR. QSL all others via their home callsigns, direct or by the W0 QSL Bureau.

5R, MADAGASCAR. Willi, DJ7RJ, will be leaving for Nosy (AF-057), on September 25th. He will be active as 5R8RJ from September 26 through October 26th. Activity will be on 160-10 meters, CW and SSB. QSL via the CBA.

7Q, MALAWI. QSL Manager Allan, G0IAS, informs OPDX that Harry, 7Q7HB (G0JMU), is once again in Malawi. He is expected to be there for about 2 months. Allan states, "SORRY Guys and Gals, NO Top Band Scheds this time, maybe when he goes back in January. QSL is via DIRECT ONLY to G0IAS. Cards are normally sent via return post, I sched Harry every day. He may just have some interesting new modes...Regards Allan."

8R, GUYANA. Operators Holger/DK6XR and Martin/DK8XT will be active as 8R1XR and 8R1XT, respectively, from Georgetown starting September 30th through October 13th. Activity will be on the usual frequencies on SSB, CW and RTTY. QSL via their home callsigns.

8R, GUYANA. Operators Anderson/PY2TNT and Alex/PY2WAS will be active as 8R1PY from Georgetown, November 1-4th. Peter Denny, 8R1WD, may also be joining them. They plan to be active full time (24h) if propagation permits, on 80/60/40/30/20/17/15/12/10/2 meters SSB and CW. Their QSL Manager will be PY4KL, the official station of CWJF (both operators are members of CWJF). QSLs may be sent via the bureau or direct.

AM3, SPAIN. Ramon/EA3EJI and a group of operators will activate the Montserrat Monastery as AM3MM during next weekend, September 22-24th. Activity will be on all bands and modes. QSL via EA3MM, by the bureau or direct.

C5, THE GAMBIA. Jan, PA4JJ, will once agin be active as C56JJ between November 30th and December 7th. This will be a holiday style operation. Jan informs OPDX that he will only use 100 Watts (FT-897) and the antenna will be a vertical and a ZS6BKW. There may be some topband and 6 meter activity. QSL via PA4JJ. He states that there is a possibility of an online log this time on the Web site: http://c56jj.pa4jj.nl

CCF AND SRAL'S SAC. Even though the 49th Scandinavian Activity Contest (CW) was this past weekend, Jussi-Pekka, OH6RX, President of Contest Club Finland, wants to remind everyone that the SSB side will be this coming weekend between 1200z September 22nd and 1200z, September 23rd. The Contest Club Finland and SRAL invite all amateur radio operators to participate in their 49th Scandinavian Activity Contest 2007. Official rules are available at: http://www.sk3bg.se/contest/sacnsc.htm

DX MAGAZINE'S MOST WANTED SURVEY. It is that time again to participate in the "DX Magazine's" annual "Most Wanted Survey". This survey will be conducted between now and October 15th. To participate in the survey, the form is available at: http://www.dxpub.com/dx_survey2007.html

EA8, CANARY ISLANDS. Operators Michael/DL3FCG, Alfred/DL8MG, Carola/DL5FEX, Reiner/DL4ZF, Klaus/DK1EG, Tanja/DO6TPG, Lars/DL6FCB, Martin/DG6FDV and Irmgard/DL6FAE will be active as EA8/DL3FCG from La Orotava, Tenerife Island (AF-004, S-012 for the Spanish Islands Award, WLOTA LH-1276), October 9-17th. Activity will be on all HF and the WARC bands (no 160m) using CW, SSB and digitals. QSL via DL3FCG, bureau preferred. All QSOs will also be confirmed via LoTW and eQSL.

FO, FRENCH POLYNESIA. Freddy, F5IRO (aka TO4E, FK/F5IRO, FR/F5IRO, FY/F5IRO and TO7R) has received his 4 months assignment to Papeete, Tahiti (IOTA OC-046, DIFO FO-002). He is expected to be there until mid-January 2008. By the time you read this, Freddy may be active as FO5RU, or possibly FO/F5IRO until he picks up his new licence. Freddy will be active during his spare time on all HF bands, CW, SSB and RTTY. He may activate some other IOTAs during his stay. QSL via Rafik, F5CQ, either direct (SASE + Postage) or via the French REF-Union bureau (please only this bureau). Other information and online log can be found on Rafi's Web page at: http://www.f5cq.net/dxp/2007-FO5RU/fo5ru-fr.htm

HB0, LIECHTENSTEIN. Operators Ekkehard/DF4OR, Tilman/DJ5BX, Peter/DL1FX and Rainer/DL1ZBO will be active as HB0/DF4OR during the CQ World Wide DX RTTY Contest (September 29-30th) as a Multi-Single entry. QSL via the home callsign.

HC1, ECUADOR. Marcos, EA1APV, will be active as HC1/EA1APV from Cotacachi between September 21st and October 20th. He will operate during his spare time because he is working on a project for an international cooperation. QSL via his home callsign.

IOTA NEWS..................

AS-186. A team of 9 Greek operators, all members of the Radio Amateur Association of Greece (RAAG), are planning to activate the Syrian Island of Arwad for the first time for the IOTA program for 10 days between November 1-15th. The callsign will be YK9SV. Operators mentioned are: SV1GE, SV1IW, SV1JG, SV1RC, SV1RP, SV1QN, SV1ACK, SV1GYG and SV8CS. A special emphasis will be given to the lower bands and modes of SSB, CW, RTTY and PSK31.

Also, 6 meters activity is expected if propagation permits. QSL YK9SV via SV1JG. This DXpedition is considered to be very expensive due to the special agreements needed for licensing, transportation, operation costs and support of the local Ham Radio Association. The group is looking for your help and assistance in order to carry out their goal which is a successful operation. They primarily need amateur gear like radios, amplifiers, antennas, coaxial and/or financial support. More information will be available on their Web page at:

http://www.raag.org/arwad

EU-172. Operators Lutz/DL3ARK, Peter/DL4AMK and possibly one other will be active as OZ/homecall from Langeland Island (FY-019 for the Danish Islands Award) and Hov lighthouse (ARLHS DEN-035, WLOTA LH-0590 (New!), WW Loc. JO55LD), September 22-29th. Look for activity around the usual IOTA and Lighthouse frequencies. QSL via his home callsign.

OC-139. Masanori, VK1ANU, will be active from Kangaroo Island between the evening on September 28th and early morning October 1st. Activity will be on CW on 80/40/20/17/15 meters using 100w and wire antennas. QSL via JO2SLZ.

KP2/NP2/WP2, U.S. VIRGIN ISLANDS. Operators Andrei/NP3D, Palmer/K4FO and Dmytro/AK2P will be active from St. Croix Island between September 23-30th. They plan to be active in the CQ WW RTTY DX Contest (September 29-30th) as KP2/NP3D and as a Multi-Op entry. QSL via W3HNK or via LoTW (LoTW logs will be uploaded ASAP). Operator will be active before the Contest on all bands, RTTY, CW and SSB as:

NP2/K4FO - QSL via home callsign.
WP2/AK2P - QSL via home callsign.
KP2/NP3D - QSL via LoTW and via W3HNK, no bureau QSL, please.

LIGHTHOUSE ACTIVITY. Members of the Island Hunters Amateur Radio Club will activate K1AN/p from Pomham Rocks Lighthouse (ARLHS USA-643) and Sabin Point Lighthouse (ARLHS-715) in Rhode Island on October 6th, between 1500-1900z on 14040-14060 kHz, QRP and CW only. A full-colored QSL is available via W1AL.

OJ0, MARKET REEF (OJ0B - Challenging the Rough Seas Once Again!). The following is a press release by Jarmo, OH2BN: "The August 2007 outing to Market Reef, OJ0B, was designed to decorate the lighthouse with powerful antennas that can only be hoisted in good weather conditions. The group was successful, and in addition to making more than 13,000 QSOs, a SteppIR beam plus an assortment of wire antennas were mounted at the light.

The newly composed group of OH0RJ, OH2BH, OH2MM, OH2PM, OH7EA and OH8NC are at it again and they plan to be operational from September 15 until September 24, including both Scandinavian Activity Contests, with three stations. Now they have more flexibility since they have a resident helicopter at their disposal.

Outside of the contest their frequencies are as follows:

CW: 3523, 7023, 10113, 14033, 18083, 21033, 24903 and 28033 kHz
SSB: 3775, 7075, 14175, 18135, 21275, 24960 and 28475 KHz

Once again, if you are a stamp collector or wish to receive your QSL card with unique Market Reef stamps, you may send an SASE with 7 Euros (10 USDs) as your postage/donation to the Finnish Lighthouse Society via QSL manager OH2BH.

If you wish to tour the Reef in the spirit of adventure, you may follow in the footsteps of the August 2007 and November 2005 OJ0B activities:

http://sm0w.com and www.kolumbus.fi/oh2bn/pagemarket.htm

The Finnish Lighthouse Society has been active repairing the lighthouse this summer, and you may wish to follow their activities which include daily reporting and interesting general details."

PACIFIC TOUR UPDATE (T30/T31). Toshi, JA8BMK, will depart from Sapporo, Japan, on September 23rd for Fiji before departing to Tarawa, West Kiribati (T30), on September 25th. He plans to operate for 10 days as T30XX before taking a 5-6 day voyage to Canton Island, Central Kiribati (T31). Toshi will be active as T31XX for about 1-2 weeks starting between October 10th and 15th. He will also operate from Christmas Island, Eastern Kiribati (T32), for about two weeks and sign T32YY. Toshi may also be active from Banaba as T33ZZ. Due to transportation by boat, his schedule may change. Activity from all locations will be on 160-6 meters using CW/SSB and possibly RTTY and PSK31. Reports indicate that his two Honda 900W generators, foods, equipment and antennas have already reached Tawara. His equipment list includes: IC-7000, TS-480HX, 650W output Liner, 4 element HB9CV dipoles for the lower bands, 160m vertical, 6m 4 element HB9CV (100W), 80/75/40m Dipole and vertical, 20/15/10m 4 element HB9CV and a 30/17/12m rotary dipole. No online logs will be available. QSL to JA8UWT, direct only. Donations are welcome.

PJ5, ST. EUSTATIUS (NA-145). Jim, K1NA, will once again be active as PJ5NA during the CQ World Wide CW DX Contest (November 24-25th) as a Single-Op/All-Band entry. Look for activity before and after the contest. QSL via K1NA.

QSL INFO AND NEWS....................

BS7H QSL STATUS. QSL Manager Steve, KU9C, reports: "I've been sending QSL cards out for BS7H for a bit over 40 days now, and am starting to get the question 'my buddy has his, where is mine' or 'are they all out yet'. So, here's the status.... I'm about 75% of the way thru the pile, and well on the way to being more-or-less current with the incoming mail, which is still coming in at a healthy pace. Just to help folks understand the sheer volume, in the first week after the operation, I received nearly 7000 envelopes; to date I've received nearly 14,000 envelopes relative to BS7H. Each card has to be checked against the log, as I'm not pre-printing labels by call with each QSO listed, I'm only issuing QSO's claimed. I expect to be current, and have all QSOs in hand answered, more or less, by the end of September. One way to see if your QSL has been processed is to check the LOTW file. Within a few days of printing your label, your confirmed QSOs will show up there."

GOLIST QSL MANAGER DATABASE HELP NEEDED. John, K1XN, from the GoList informs: "During my QSL Manager confirmation process, I have accumalated a list of QSL Managers for which I could not find a published E-mail address, or the E-mail address that I found is not valid and bounces mail. Listed below are some of those QSL Managers that I am having problems with. I hope that maybe they will read this message and take the time to update their E-mail address on QRZ.com or send them to me direct at: golist@gmail.com "

Art, NN7A, informs OPDX that all direct QSLs received for NN7A/NL7 (NA-206, July 2007) are in the mail as of September 14th. Additional cards will be answered as they arrive. QSLs from NF7E/KL7 and KL1YY should be sent out shortly. They made about 1000 QSOs during the five day operation, including 700 on CW and 300 SSB. Please QSL each operator via their home callsign, direct or by the bureau. Direct addresses are okay on QRZ.com.

QSLS VIA LOTW: A25HQ, BS7H, C56T, E21EIC, J39BS, MM0EAX, OX/PA3EXX/P, OY4TN, WP3GW and UA2FF

QSLS RECEIVED VIA MAIL: 3B7SP, 3B8CF, 4U1ITU, 5B4AGC, 5N9SJA, 6H1AY, 6W1SE, 7P8DX, 8Q7DD, 9M6BAA, AH2L, BS7H, DP0GVN, FR5MV, GB4IPY, GS0GRC/p, HF0POL, LA1CI, LU8DSC/mm, N8S, OJ0VR, R1ANF/p, R1FJT, SV2ASP/A, TF/G4ELZ/p, UK8GK, VK9LT, W5BOS/AL0, YZ7AA, YA/LY1Y and ZP0R

SILENT KEYS.....

OPDX and its readers would like to send out our deepest sympathy to the families and friends of the following Silent Keys:

Well-known QSL Manager and DXer Osten Magnusson, SM5DQC, became a Silent Key unexpectedly on September 6th. He was 67. Osten was the QSL Manager for 9Q1TB and 9Q1EK.

Laimonis Stepans, YL2PQ, became a Silent Key on September 8th, at the age of 63. Many know Laimon from being very active on Topband and in many major contests.

SPECIAL EVENT. Listen for special event station "K6O" (Kilo Six Oscar) to be active as K6O/CIA until the end of the month. This special event station, operating in commemoration of the CIA's 60th anniversary, will be located on the Agency's Headquarters compound and will be operated by the Agency's employees who are hams. K6O/CIA will be operating CW only, most likely on 80/40/30/20/17 meters and in the lower 35 khz of each band.

SPECIAL EVENT. The Anaheim Police ARC will operate special event station K6P in remembrance of POW-MIA recognition day, September 19-22nd. Suggested operating frequencies are: 21350, 18150, 14253, 7250 SSB and 14071.5 PSK. Receive a pictured QSL card via KM6HB: Mark McMullen, P.O.Box 27271, Santa Ana, California 92799. (S.A.S.E please, No Certificate)

SPECIAL EVENT. Operators John/G7HIA and Robert/G8ATE will be using the special callsign GB50SO starting on October 4th for one month. Activity is to celebrate the 50th anniversary of the launch of the first earth orbiting satellite "SPUTNIK ONE" on October 4, 1957, by the former USSR. It is anticipated that all of the available analogue satellites will be used. A special QSL card will be available after the event, so shake the dust off your satellite gear and join in the fun!

TF, ICELAND. Operators Roger/G3SXW and John/G4IRN will spend a weekend in Reykjavik, and be active as TF/homecall, September 21-23rd. Activity will be on 40-12 meters, CW only. QSL via their home callsign and LoTW.

TX5, CLIPPERTON ATOLL (Update). According to the TX5C DXpedition Web page, scientific studies will be conducted during the March 2008 DXpedition. The Web page states, "An important goal of the DXpedition is furthering our knowledge about Clipperton Atoll and its ecosystem. As part of our application for our landing permit, certain scientific studies would be performed during our stay on the atoll. This program was elaborated in collaboration with Professor Christian JOST, Director of the Geopraphical Research Center of Paul Verlaine University in Metz and specialist of the atoll." The program of the observation and scientific activities include:

1) Setting up of a weather station (WS3600).
2) Study of the propagation of radio waves.
3) State of the herbaceous plant coverage on the ring.
4) Observation of the birds living on the atoll.
5) Observation to detect any human presence or occupation.
6) Checking of the preservation state of the geodesic marker.
7) Tides timetable.

For complete details, please visit the TX5C Web page at:
http://www.clipperton2008.org/

VK9W, WILLIS ISLAND (Update). Operators Tomi/HA7RY and George/AA7JV are still a go for Willis Island. George mentions that he was leaving for Australia on September 11th, and states, "We are in a decent shape: our gear has made it and the boat is on its way north (from the Gold Coast). Due to logistics issues and problems with one of the boat's engines, we will be staging out of Airlie Beach, instead of Cairns. We still expect to arrive at Willis on September 24th and be on the air by September 25th." George has indicated that the dates are weather dependent and may slip.

Stay tuned for further updates.

ZF, CAYMAN ISLANDS. Operators Don/W4YCH (ZF2DF), Bob/W6BO (ZF2BO), Janet/W6JND (ZF2JD), Larry/W6OMF (ZF2LH), Sue/K6SUE (ZF2MH) and Jim/W4JO (ZF2JO) will be active as ZF2DF during the CQWW RTTY Contest (September 29-30th) as a Multi-2 entry. Activity is to celebrate Don's/W4YCH making top of the Honor Roll this year. Prior to the contest, the group will get in some operating time on 160-6 meters, including the YL ops. QSL each station via their home callsign. The group will be there from September 24th to October 1st.

ZM2, NEW ZEALAND. Members of the East Coast Contesters Club will be operating again this year in the SO2R all band section of the CQWW DX SSB Contest (October 27-28th). The team will be ZL2AL, ZL2ST, ZL2LF, ZL2CC, ZL2QM and ZL2FAR. QSL direct or by the Bureau via ZL2AL. Address is available at QRZ.com.

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups

Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

For more information about our newsgroup, see:

FO - FRENCH POLYNESIA, OC-046

Freddy,F5IRO, has left Paris on Sep 12 and arrived in Papeete (OC-046) meanwhile from where he is going to hit the airwaves as FO5RU until Jan 15, 2008. If he does not get is licence instantly, he will be QRV as FO/F5IRO temporarily. Activity takes place in CW/SSB/RTTY on all bands. He may also make a short trip to a nearby IOTA Island.
His QSL manager Rafik,F5CQ, confirms QSOs either direct or via bureau.
An online log can be accessed at:
http://www.f5cq.net/dxp/2007-FO5RU/fo5ru-en.htm

HC - ECUADOR

The city of Cotacachi will be the QTH of Marcos,HC1/EA1APV, between Sep 21 and Oct 20. Marcos is working there so the radio hobby occupies only very little of his spare time. QSL via homecall.

HR - HONDURAS

A team of the Radio Club Honduras will be QRV from Swan Island (NA-035) signing HQ8R from Sep 23-28. Swan was an own DXCC counter (KS4) until Aug 31,1972, and was last activated in 2001. The team members HR2J, K2BB, KB2PDW, K8LEE and W8GEX will work with three stations and two amplifiers. QSL via the operator's address in the USA.

HS - THAILAND, AS-053

Eric,SM1TDE, is now living on the Thai resort island Phuket (AS-053) and already applied for the callsign HS0ZHR.

Eric prefers the QSLs to be sent via the bureau to SM1TDE, all mail to his address in Shweden (PO Box 94, S-62321 Ljugarn, Sweden) will be forwarded to Thailand by Eric's father so expect some delays.

KP2 - AMERICAN VIRGIN ISLANDS, NA-106

Andrei,NP3D, Palmer,K4FO, and Dmytro,AK2P, will stay on the island of St. Croix (NA-106) from Sep 23-30. They will sign KP2/NP3D in the multi OP category of the CQWW RTTY Contest on Sep 29/30.

QSLs for KP2/NP3D via W3HNK (direct or LoTW).

NP2/K4FO (QSL via K4FO) and WP2/AK2P (QSL via AK2P) are working in CW/SSB/RTTY on all bands before the CQWW RTTY contest weekend.

P29 - PAPUA-NEW GUINEA

Hans,SM6CVX, Derek,G3KHZ, Steve,G4EDG, and Luis,CT1AGF, are visiting several islands belonging to Papua-New Guinea. The first activities will take place on Sep 22 from Buka Island which will also be the last stop of their trip. They can use four stations with two amplifiers, verticals and multi-band dipoles. Emphasis will be put especially on 80m and 160m during the nights but all other bands will be served as well. They are not sure if they have time for a trip to Kilinalau and which call they may use. More information about this DXpedition can be found at: http://www.rep.pt/P29-PapuaNewGuinea

This is their travelling schedule as of today:

Date	Call	Island	/IOTA	QSL via
Sep 24-29	P29VCX	Nukumanu	/OC-284	SM6CVX
Oct 2-6	P29NI	Takuu	/OC-283	G3KHZ
Oct 8-10	P29VLR	Kilinalau	/OC-256	SM6CVX

SU - EGYPT

SU8BHI will be the callsign of Gab,HA3JB, between Sep 21 and Nov 30. He plans to work in CW/RTTY/SSTV/PSK (only little SSB) on all bands and also during the CQWW RTTY and CW Contests.

Unfortunately QSLs only direct via HA3JB.

Please check out his homepage at: http://www.qsl.net/ha3jb

TF - ICELAND, EU-021

TF/G3SXW and TF/G4IRN will stay in Icelands (EU-021) capital city Reykjavik over the weekend. They will be QRV only in CW on 40-12m from Sep 21-23. QSLs via their homecalls or paperless via LoTW.

VK9W - WILLIS ISLAND, OC-007

Tomi,HA7RY, and George,AA7JV, will conduct a mini DXpedition with

500 watts and verticals signing VK9WWI from Willis (OC-007) between Sep 25 and Oct 5. George will go diving while Tomi spends the time on the high bands during the day and then AA7JV will shorten the nights on 80m/160m.

3A - MONACO

Ghis,ON5NT, is going to spend his holidays in Monaco from Sep 24-28. All activities as 3A/ON5NT (QSLs via homecall) will be sporadically.

5R - MADAGASCAR, AF-057

Manfred,DJ7RJ, will show up again as 5R8RJ from Sep 26 until Oct 26. Manfred will work in CW/SSB on 10-160m from Nosy Be Island (AF-057) using a K2 transceiver and a small amplifier with 500 watts output. His antenna will be an inverted L (15m vertically, 19m horizontally) with elevated radials and emphasis will be put on the lowbands. QSL cards via bureau to DJ7RJ.

7Q - MALAWI

Harry,7Q7HB (G0JMU), is back again in Malawi and will stay there for the next two months.
QSLs via his QSL manager G0IAS, unfortunately only direct.
Another stay is planned for January 2008 including operation on 160m.

9U - BURUNDI

When Sigi,DL7DF, and his DX experienced team are going on tour this means not only a guaranteed QSL card but also a DX operation at its best on all bands. Their next trip leads them to Burundi from where they will be active as 9U0A from Sep 26 until Oct 9. They will work in all modes (including SSTV) on all bands (160-6m) emphasizing the lowbands and digital modes. They also have an extra station exclusively for the digital modes because they expect the highest demand there. Their equipment consists of four radios, three amplifiers, a Titanex V80E Lowband vertical, another 18m high vertical, two 4-square-arrays for 40m and 30m, two Hexbeams for 20-10m, a 5ele yagi for 6m and beverages for receiving. The operators will be DK1BT (Manfred), DL4WK (Wolf), DL7DF (Sigi) and his XYL Sabine, DL7UFN (Jan), DL7UFR (Frank) and SP3DOI (Leszek). They will try to provide an online log during the DXpedition on the website: http://www.dl7df.com
QSLs should be sent to DL7DF either direct or via bureau. His address:
DL7DF, Sigi Presch, Wilhelmsmuehlenweg 123, 12621 Berlin, Germany.
One US $ is not sufficient return postage for a letter outside Europe.

SOUTH PACIFIC - T30/T31 (update to DXNL 1534)

Toshi,JA8BMK, will leave Sapporo on Sep 23 stopping only one day on Fiji and is expected to arrive in Western Kiribati (T30) on Sep 25. He plans to hit the airwaves as T30XX for at least ten days from there. His ship to Central Kiribati (T31) will leave on Oct 4 and is scheduled to arrive five or six days later. Toshi intends to work as T31XX for about two weeks and plans to work also in RTTY and PSK (besides the usual modes CW and SSB). Not mentioned in his last press bulletin was an eventual operation as T33ZZ. This is a list of his equipment: IC-7000, TS-480HX, 650 W output, 4ele HB9CV, dipole for the lowbands, a 160m vertical, 6m: 4ele HB9CV (100 W), 80/40m: dipole and vertical, 20/15/10m: 4ele HB9CV, 30/17/12m: rotary dipole. There will be no online logs and your QSLs should be sent ("direct only") to JA8UWT.

SPAIN, SPECIAL EVENT STATION

Ramon,EA3EJI, and other OMs are going to put up a station in the famous monastery Montserrat and will be QRV as AM3MM in all modes on all bands from Sep 22-24. QSL via EA3MM, direct or via bureau.

SILENT KEYS

Very surprisingly Osten,SM5DQC, passed away on Sep 6 at the age of 66. He was one of the most active Swedish DXers and the QSL manager of 9Q1EK and 9Q1TB. Osten phoned with 9Q1TB only one day earlier telling him about his plans to maintain his antennas.

Laimonis Stepans,YL2PQ, was also a very active DXer and contester from Latvia and passed away on Sep 8 at the age of 63.

DXNL 1538 - Sep 26, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

A5 - BHUTAN

OM Ed,N1UR, will be QRV from the Kingdom Bhutan signing A52UR in CW/SSB on all bands between Sep 28 and Oct 2. QSL via buro or direct to K2RET.

C9 - MOZAMBIQUE

Rodrigo,CT1BXT, hit the airwaves as C91R and will stay in Mozambique until August 2008. Rodrigo's favourite mode is RTTY but in the moment he is only working on 20m with 100 watts and a dipole. He plans to put up a beam for 10/12/15/17/20m soon. QSLs via his homecall.

EL - LIBERIA

"DAGOE" stands for "Dutch Amateurs Going On Expedition". The club members Arie Kleingeld,PA3A (EL2AK), Ad van Ginneken,PA8AD (EL2AG), Arie Noordzij,PA3AN (EL2AN), and Henk van Oosterhout,PA3AWW (EL2AO), are planning a major activity from Liberia from Oct 3-24. The operation on 80m/160m shall start on Oct 7 at latest. Due to the high demand they decided to work in RTTY as well. Liberia's infrastructure was totally destroyed during the civil war (1989-2003) and shall be supported with this DXpedition financially. You may request your QSLs with a donation after the DXpedition at: http://www.liberia2007.com/qslpolicy.php
The DAGOE members have three main goals:

1) Activate Liberia in a major style operation
2) The charity project with a call for donations
3) Supporting the "Liberia Radio Amateur Association" (LRAA) with equipment

The DXpedition will use two radios with amp's having the aim to log at least 25000 QSOs mainly in CW and SSB. Following antennas will be used:

160m/80m: vertical (80 radials)
40m: vertical (30 radials)
WARC: triband vertical
20/15/10m: 2ele tribander and a 3ele tribander.

QSL cards may be requested online at the address printed above. This applies only to direct QSLs and a donation for the charity project is mandatory for that. If you send your QSLs direct you should enclose at least 2 US$ and send them to PA3AWW, Meelbeshof 8, 3355 BD Papendrecht, Netherlands. If you prefer QSLs via bureau please send them also via PA3AWW. There will be no eQSLs.

HB0 - LIECHTENSTEIN

Ekki,HB0/DF4OR, Tilman,HB0/DJ5BX, Thomas,HB0/DK9FEC, Peter,HB0/DL1FX, and Rainer,HB0/DL1ZBO, will activate the Principality of Liechtenstein again working in CW/SSB/RTTY on 80-10m from Sep 26 until Oct 1.

The crew will also take part in the CQWW RTTY Contest signing HB0/DF4OR on the weekend of Sep 29/30. All QSLs via homecalls.

HP - PANAMA

Jay Mills,HP3/K1YJ, was already active this year. He moved to Panama now and should receive his HP3 callsign soon.

QSLs for all his activities should be sent to his new QSL manager W4JS.

J6 - ST LUCIA, NA-108

Babs,J6/DL7AFS, Lot,J6/DJ7ZG, and Ju,J6/DL2ZAE, have flown to St. Lucia (NA-108) on Sep 23 and are working on 6-160m until Oct 11. They plan to operate with up to three stations simultaneously. Ju is a high speed CW OP and takes intensive care of this mode so that Babs and Lot may turn towards SSB and RTTY.

QSL cards for all calls should be sent to DL7AFS. More information can be found on their website: http://www.qsl.net/dl7afs

JW - SVALBARD, EU-026

Karl,LA8DW, and Lars,OZ1HPS, announced to become active in CW/SSB signing JW8DW and JW/OZ1HPS from Svalbard (EU-026) from Oct 1-7.

QSLs via bureau to their homecalls.

SV9 - CRETE, EU-015

Uli,DJ9XB, flew to Crete (EU-015) on monday. Main purpose of this trip is the participation in the CQWW RTTY Contest as J49XB (only) on 15m. All other bands (including 160m if he has enough space for an antenna) will be activated before and after the contest.Uli is QRV only in RTTY.

TI - COSTA RICA

Jean-Pierre,TI2/F6FQX, is working mainly in CW on HF until Oct 3.

TK - CORSICA, EU-014

The team "Equipo de DX4DX" consists of the OPs Pere,EA3CUU, Paco,EA4BT, Emilio,EA7AAW, Julio,EA7JB, Jose,EA7LS, and Ramon,EB4EPJ, and will put Corsica (EU-014) on the air between Sep 28 and Oct 5. Their call will be TK9Z in SSB/CW/RTTY/PSK on 160-10m. QSL via EA4BT, direct or bureau.

More information can be found at: http://www.dx4dx.com

ZF - CAYMAN ISLANDS, NA-016

Don,W4YCH (ZF2DF), Janet,W6JND (ZF2JD), Larry,W6OMF (ZF2LH), Bob,W6BO (ZF2BO), Sue,K6SUE (ZF2MH), and Jim,W4JO (ZF2JO), will take part in the Multi/2 category of the CQWW RTTY Contest signing ZF2DF. They already hit the airwaves 6-160m using their individual calls since Sep 24. The operation ends on Oct 1. All QSLs via homecalls.

8P - BARBADOS, NA-021

Richard,G3RWL, will be QRV again as 8P6DR from Barbados (NA-021) from Sep 28 until Oct 13. Richard is working in CW and digital modes on 10-80m running 100 watts into a G5RV antenna and also plans to take part in the upcoming CQWW RTTY Contest. He confirms the QSLs via bureau or direct via his homecall G3RWL. However QSLs may be requested as well via e-mail (g3rwl@amsat.org), there will be no eQSLs and if he finds you as a dupe in his log your chances to get a QSL are gone.

8Q - MALEDIVES, AS-013

Andrew,G7COD, is expected to hit the airwaves as 8Q7AK from the island Embudu (AS-013) between Sep 30 and Oct 12. He will work mainly in SSB but plans to operate also some CW on 30/20/17/15/12m. His preferred frequencies are 10.123, 14.147, 18.133, 21.253, 24.953 MHz (+/-10 kHz). He will try to be active from 0830-1030 UTC and from 1300-1515 UTC every day. QSLs direct or via bureau via his homecall.
Andrew states that all QSLs from previous 8Q7AK activities should be confirmed by now.

8R - GUYANA

8R1XR (DK6XR) and 8R1XT (DK8XT) will be QRV from Georgetown working in SSB/CW/RTTY on the usual DX frequencies between Sep 30 and Oct 13. QSLs via homecalls.

SOUTH PACIFIC TRIP

Ulli,DL2AH, is travelling the South Pacific planning activities from Niue (ZK2), Chatham (ZL7) and Norfolk (VK9ANH) on 40-10m between the end of September and mid-November. Ulli is working in SSB/RTTY using a FT-897 and loop antennas. The call for Niue is not known yet but he will show up as ZL7/DL2AH from Chatham. And this is his schedule:

ZK2 Sep 29-Oct 12
ZL7/DL2AH Oct 17-Oct 30 and after that
VK9ANH for about two weeks.

QSL cards via DL2AH, direct or via the bureau.

SILENT KEYS

Once again some wellknown DXers passed away last week.
W Denzil Evans,GW3CDP, passed away after a short illness at the age of 81 on Sep 15. Being one of the most active Welsh DXers he was #1 on the DXCC Honor Roll.

Abdule Rashid,S21AR, passed away on Sep 10. He was one of the persons who made the S21U DXpedition in 1990 becoming a success.

Alessio Ortona,I1BYH, was a former president of the Italian amateur radio league ARI. He passed away at the age of 79 on Sep 17.

3D2/R, ROTUMA (OC-060). Tony, FO5RK, reports that his planned DXpedition to Rotuma as 3D2AG/P is on schedule. His operation will take place between December 2007 and January 2008. Actual dates will be announced later. Tony will be managing his own QSL requests upon his return home. QSL only direct and please include either 2 USDs or 1 IRC with a SAE for your QSL card. The QSL cards are being printed by UX5UO and the DXpedition is being sponsored by SPIDERBEAM. Upon Tony's return home, he will have his log available online at: http://www.3d2ag.fr.tc/
QSL requests should be mailed direct to Tony at his QRZ.com address.

4L, GEORGIA. Operator Gia, 4L4WW, will be active during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (80m)/ High-Power entry. He expects to use a 3 element Yagi and inverted V during the contest. QSL via EA7FTR.

4O, MONTENEGRO. Look for Montenegro to be active during the CQ World Wide

RTTY DX Contest on September 29th and 30th as 4O3A. Ranko Boca will air 4O3A from his Montenegrin Premium Contest Resort. He'll be hosting a young team of operators from Slovenia and Italy who will be operating in the Multi-Multi category with multiple stacks and testing a new radio room layout before the SSB and CW versions of the CQ WW. Operators include S50XX, S50YL, S52X, S55O, S57MM, IV3YWT, IV3TMV, 4O3NET, 4O4A, 4O3A, 4O3Z, YU1YV and possibly S51TA. The station now has two new rotary towers as well as a two element yagi on 80 meters. This is just one of many contest activities being organized by Ranko and the SKY Contest Club. The RTTY contest will focus on supporting young contesters and giving opportunities to local youngsters to learn and feel what contesting is all about. Ranko is in the process of fully automating the station and is planning to organize a contest school for youngsters all over the world. Pictures from last year's operation can be found in the Gallery section:

http://www.yt6a.com/

For all who need QSL cards from 4O3A - good news. QSLs from past contest operations from 2007 will be sent via the bureau this month and logs will be uploaded on LoTW. In the future all QSL cards will be sent via the bureau twice a year as well as being uploaded to LoTW.

4X, ISRAEL. Operators Paul/4X6UU and Isaac/4Z4TL will be active as 4X2Z during the CQ World Wide DX RTTY Contest (September 29-30th) as a Multi-Single entry. QSL via 4X6UU. Activity will be from the Mikve Israel Agricultural School club station.

EA6, BALEARIC ISLANDS. Javi, LU5FF, will be active as EA6/LU5FF from Can Picafort, Mallorca (EU-004), between now and November 16th. Activity will be on 30/20/17/15/12/10 meters using CW and SSB.

EY8, TAJIKISTAN. Nodir, EY8MM, will be active during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/Single-Band (possibly 160m or 80m)/High-Power entry, and the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (160m)/High-Power entry. QSL both activities via K1BV. See Nodir's Web page for skeds before the contest:

http://ey8mm.codan.ru

FM, MARTINIQUE (NA-107). Philippe (ex-F8EFU) has received a work assignment to Martinique (DIFO FM-001) and has been issued the callsign FM5LD. It is not clear on the length of his stay, but he operates mainly CW on 30m with a barefoot 50w rig into a wire which is expected to be replaced as soon as possible by a new antenna suitable for DX. Read the QSL information on QRZ.Com or the Online REF-Union callbook.

H40, TEMOTU PROVINCE. "The Daily DX" reports that operators Mike/KM9D and Jan/KF4TUG are now heading to Tikopia Island (OC-178) and plan to be active as H40MY (possibly in the next few days). Details on their estimated time of arrival, length of stay and operating plans are unknown at this time.

HR, HONDURAS. Dan, HR2DMR, is expected to be active in the CQ WW RTTY Contest (September 29-30th) as a Single-Op/Single-Band (20m)/Low-Power entry.

HR, HONDURAS. Alex, K2BB, will be active as HR2/K2BB during the CQWW DX RTTY Contest (September 29-30th). QSL via home call.

HV50/HV6SP, VATICAN. Look for two new callsigns to be activated soon from the Vatican. The first one is scheduled to hit the airwaves on September 27th. The callsign HV50VR (Vatican Radio) will be activated to mark the 50th anniversary of the opening of the Vatican�s Santa Maria di Galeria broadcasting site. HV50VR will also be participating in upcoming contests. QSL direct via IW0GPN. There is a possibility of LoTW uploads. IK0FVC has been authorized to use this callsign. Also, look out for HV6SP. Further details are to follow for this, but QSL via IK0FVC.

QSL via IK0WHN, direct or by IQ0VL via the bureau.

EU-137. (UPDATE) A group of Swedish and German operators will be active from Ven Island from October 7-13th. Activity will be on CW, SSB and RTTY. The team plans on using high power for this operation. They will be close to the Hakens Fyr Lighthouse (ARLHS SWE-168). At the moment the team consists of:

Name/Homecall	EU-137 Callsign	QSL Route
Fred/SM7DAY	SM7DAY/7	QSL via homecall
Frank/DL2SWW	SD7W	QSL via DL2SWW
Tom/DL2RTK	SE7T	QSL via DL2RTK
Ric/DL2VFR	SD7V	QSL via DL2VFR

QSL all via the Bureau (preferred) or if really necessary via direct (they can only accept new IRCs; be aware please that 2 USDs barely cover the postage to outside EU).

J3, GRENADA. A team of stateside operators will activate Grenada from late October 24th to October 31st. The contest station J3A (QSL via WA1S) will be active as a Multi-Multi entry in the CQ WW DX SSB Contest (October 27-28th). Team members are WC4D, N7AZ, KI4QCS, K1EP, KA7KUZ, K0RH, W8CAA, WA8LOW, N0RB, W8KKF, W8GEX and AC8G. For outside the contest, with the exception of W8GEX and AC8G, the team members have been assigned HOMECALL/J3. W8GEX will be J3K and AC8G will be J37K. QSL each to their home callsign or as announced. Expect various other modes outside the contest and operations on the 30/17/12m bands as well as 60 and 6 meters. The team has arranged for antenna and power improvements especially on 80 and 160 previously weak links.

J4, CRETE. Uli, DJ9XB, will be active as J49XB in the CQWW RTTY Contest (September 29-30th) as a Single-Op/Single-Band (15m) entry. He states, "Before and after the contest, I will try to be on 160m in RTTY."

J5, GUINEA BISSAU. The "F6KOP TEAM" is planning a DXpedition to Guinea Bissau (possibly to Bubaque Island - AF-020) between January 10-21st (2008). Their callsign will be J5C. Operators mentioned are: F4AJQ (leader), F6AML (Logistic), F5JSD, F5VHQ, F5TVG, F5PED, F4TTR, F8BUI, F8BJI, F2JD, F2VX, F9IE, N2WB, N6OX and OE8KDK. Activity will be on 160-10 meters, SSB, CW, Digital modes, SSTV and FM. They plan to have 5 stations on the air around the clock. They will use IC7000, FT480 and TS857D, with 4 Spiderbeam, 2 verticals and 3 dipoles. They will also have 4 ACOM 1010 amps. QSL via F5TVG, direct or by the bureau.

J6, ST. LUCIA. Operators Babs/DL7AFS and Lot/DJ7ZG will be active as J6/DL7AFS between now and October 11th. They will later be joined by a 3rd operator, Ju/DL2ZAE. They plan to have three stations active simultaneously on 160-10 meters on CW, SSB, RTTY and PSK. Visit their Web page at: http://www.qsdl.net/dl7afs
QSL via DL7AFS, direct or by the bureau.

JT, MONGOLIA. Members of Mongolian Amateur Radio Society will particate in the CQ WW RTTY Contest (September 29-30th). Look for JT1BE, JT1DN, JT1CO, JT1BV and JT1F.

K0, UNITED STATES. Bob, K0RC, will be active in the CQWW DX RTTY Contest (September 29-30th) using the special event callsign K0D. The special event is to commemorate the 100th anniversary of the immigration by Johann Czudek to the United State of America. More details are available on QRZ.com. Bob will be operating from his home QTH in Chisago County, Minnesota.

NP2, U.S. VIRGIN ISLANDS. Operators John/NP2B, Bruce/W4OV, Julio/WD4R, Esteban/W4DTA, Frederick/K9VV and Lisa/W4LIS will be active as NP2B during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-? entry.

OF, FINLAND. Members of the SES will be active as OF2AG during the CQ WW RTTY DX Contest (September 29-30th) as a Multi-Op entry. Operators mentioned are OH2GI, OH2LU, OH2MZB and OH6XY. Activity is to celebrate the 90th anniversary of their country. All contacts will be confirmed automatically by the bureau.

OH0, ALAND ISLAND. Operator Ari, OH5DX, will be active as OH0Z during the CQ World Wide DX SSB Contest (October 27-28th) as Single-Op/Single-Band (??) entry. QSL via W0MM.

P29, PAPUA NEW GUINEA (Updates/New IOTAs). Operators Luis/CT1AGF, Derek/G3KHZ, Steve/G4EDG and Hans/SM6CVX together with two non-ham friends made it to Nukumanu Island (OC-284p). They are active as P29VCX from Nukumanu. The plan is then to sail to Takuu Island (OC-283p) and operate using the callsign P29NI for 6 days starting about September 30th. Finally, if time permits, they will sail to Kilinalau Island (OC-256, aka Tulun Islands) and operate from there for a few days, possibly as P29VLR, between October 6-9th before returning to Buka. The dates may vary a little depending on the local weather. They expect to operate on all bands, including 160 and 80 meters with possibly 3-4 stations, two amplifiers, verticals and a multiband dipole. Their plan is to run 4 stations simultaneously from 2 sites on each island. This should allow simultaneous operation from two stations on the same band using different modes. Two stations will use 500w linears and two stations will use 100w. QSL P29NI via G3KHZ. QSL P29VCX and the Kilinalau Island operation via SM6CVX. The group is looking for support from the ham community. More details and updates are available on their Web page at:
http://www.rep.pt/P29-PapuaNewGuinea/
PLEASE NOTE: QSL Manager SM6CVX wants to remind everyone that postage from Sweden is 11 SEK to any place outside Sweden. Even to Europe and Scandinavia. This is the same as 2 USDs. So for a direct reply from P29VCX and P29VLR please send 1 IRC or 2 USDs.

SPECIAL EVENT. The W5-National Wildlife Refuge ARC will operate from the Hagerman National Wildlife Refuge, October 12-14th. Visit the following Web page: http://www.fws.gov/southwest/refuges/texas/hagerman/index.html This operation coincides with the National Wildlife Refuge Week and is in support of the KP1-5 Project and our national wildlife refuge system. The callsign for the operation will be W5NWR, W5-National Wildlife Refuge. Look for W5NWR on SSB, CW, RTTY and PSK on frequencies of opportunity. Those making contact can receive a QSL highlighting facts and pictures about the Hagerman National Wildlife Refuge. QSL requests should be sent to NA5U. Other stations will be operating from wildlife refuges across the nation. Look for additional information about this operation and other stations on: http://www.pilgrimriver.com/nwr2007/

T6, AFGHANISTAN. Ross, ex-VK1UN/VK8UN, 4W6UN and EX1UN, has been active as T61AA from Faizabad. The length of his stay is unknown. He usually can be found after 1200z on 20 meters but has also been on 17 meters after 0500z or 1330z. He is using an IC-7000, with a Tokyo Hi-Power HL-1.5KFx amp, Palstar AT-AUTO tuner into a Cushcraft R6000 vertical.

He also has a Double Extended Zepp. Ross hopes to have a 2 element 20m Moxon on an 8 element 6m beam shortly. The old YA prefix is no longer in use, so T6 is now the official prefix of Afghanistan. His operations are good for DXCC. QSL via T61AA: Ross Ballantyne, PO Box 99, World Trade Centre, Victoria 8005, Australia.

T6, AFGHANISTAN. John, KE6GFF, will once again operate as T6EE from Kabul between October 18th and November 12th. It is suggested to look for him on SSB on or about 14210 kHz. QSL via his home callsign: John Kountz, 1065 van Dyke Dr., Laguna Beach, CA 92651.

T7, SAN MARIO. John, T77CD, will be active in the CQ WW RTTY Contest (September 29-30th). QSL via I0MWI, direct ONLY.

TX5, CLIPPERTON ATOLL (Update). "The Clipperton 2008 team received their Clipperton Landing Permit from the French Polynesia authorities last week", reports N7CQQ, John Kennon. The team is now in "Full Steam Ahead" mode and is excited about the trip. They thank team member F6BFH for all his hard work! For complete details, please visit the TX5C Web page at:
http://www.clipperton2008.org/

V2, ANTIGUA AND BARBUDA. Operators Jim/WX3B, Brian/N3OC, Tom/NI1N and Robert/W2BZR will be active as V26B during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-2 entry. Listen for QSL details.

VK9W, WILLIS ISLAND. Operators Tomi/HA7RY and George/AA7JV are now active as VK9WWI. They plan to stay (depart) on October 5th. QSL via HA7RY.

VP2E, ANGUILLA. Operators Andy/DL5CW and Marina/DM5YL will be active from Anguilla (IOTA NA-022) between November 8-26th. Activity will include the CQ WW DX CW Contest. Callsigns probably will be VP2EDL and VP2EDM. Their prefered modes are: CW (DL5CW) and RTTY/PSK31 (DM5YL) on the HF bands. QSL via their home callsign, by the bureau or the address on QRZ.com.

VP8, FALKLAND ISLANDS. Ulli, DL2AH, has added another island to his DXpedition activities. After his Niue Island (ZK2) and Chatham Island (ZL7) operations, look for him to be active from Pebble Island between February 26th and March 13th. He will be active mainly on SSB (with some RTTY) using a FT897 into Windom 40-10m antenna. QSL via DL2AH, direct or by the bureau. ADDED NOTE: Remember, Ulli will also be active from Juan Fernandez (CE0Z) between March 18th and April 7th.

YW3, VENEZUELA. Members of the Radio Club Venezolano announce they will be active as YW3AJ from Portuguesa State from October 11-14th. Activity will be on 160-6 meters, VHF/UHF and all modes. Four stations will be on the air around the clock. GRID FJ59mp. QSL via YV5AJ using QRZ.com address or by the bureau. Operation is good for the D.E.V. (Venezuelan States Award). For more info, visit the Web page at:
http://www.radioclubvenezolano.org/concurso.htm

ZK2, NUIE (Op Cancelled). Bill, VK4FW, informs OPDX that the upcoming major operation scheduled for Nuie (ZK2) has been cancelled until further notice. He deeply regrets to inform all of you that his loving wife has been very ill for a long time now, and she is suffering with lymphoma cancer. Bill states, "We have a long hard road ahead. I would realize that many of you will be bitterly dissappointed, but rest assured, we will eventually make the journey." OPDX and its readers would like to send out our best and prayers to Bill's wife, and hope that she can fight this battle and recover.

The following stations are expected to be active in the
CQ World Wide DX RTTY Contest (September 29-30th, 2007)

Thanks to Bill, NG3K, for providing OPDX readers wih the following consolidated listing of the participants in the 2007 CQWW RTTY Contest. For a more detailed listing (and up-to-date changes/corrections) in HTML format, please visit Bill's Web page at:

DXNL 1539 - Oct 3, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"
(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

A5 - BHUTAN

Kunio Saito,A52VE (JA8VE), had to leave Bhutan on Sep 3 due to health problems. He intended to stay until March 2009.

FM - MARTINIQUE, NA-107

Philippe (ex F8EFU) will live on Martinique (NA-107, DIFO FM-001) for a longer period of time. After hurricane "Dean" he has no telephone or internet at the moment but his radio is working and he is active as FM5LD mostly in CW on 30m. He is running 50 watts into a dipole and plans to put up more wires in the near future. Please send your QSLs via the FM bureau or direct to Philippe Schlegel, Caserne Redoute, BP 616, 97261 Fort de France, Martinique, via France.

FO - CLIPPERTON ISLAND, NA-011

TX5C will be the callsign of the DXpedition to Clipperton scheduled for March 2008. The radio amateurs will be accompanied by a scientific team which is going to study the ecosystem of Clipperton.
The latest information is published at: http://www.clipperton2008.org

H40 - TEMOTU ISLANDS, OC-178

Mike,KM9D, and Jan,KF4TUG, have left Wallis and Futuna and are now on their way to Tikopia Island (OC-178) in the Temotu province. Their call will be H40MY but is not known how long they are ging to stay there. Their QSL manager is OM2SA.

HV - VATICAN CITY

IK0FVC has got the permission to use the callsign HV50VR, "VR" stands for Vatican Radio. Vatican Radio celebrates its 50th anniversary at the moment and the callsign was first aired on Sep 27. Activities can be expected in the upcoming major contests. Unfortunately the QSL manager IW0GPN confirms only direct, but the logs will be uploaded to the LoTW. IK0FVC has also put a new station on the air with HV6SP.
QSL also via IK0FVC, only direct and not very reliably so some rumours say he collects bucks instead of stamps.

T6 - AFGHANISTAN

Ross (ex VK1UN, VK8UN, 4W6UN, EX1UN) is now active as T61AA from the city of Faizabad. The length of his stay is not known but he was heard on 20m after 1200 UTC and on 17m after 0500 and 1330 UTC.
T6 is the new official prefix for Afghanistan, YA calls are not issued anymore. The QSL route for T61AA is via Ross Ballantyne, PO Box 99, World Trade Centre, Victoria 8005, Australia.

TK - CORSICA, EU-014

Mike,TK/DL3VTA, and Wolfgang,TK/DL1DVP, will be active from Corsica (EU-014) in SSB/CW/RTTY/PSK31/63 from Oct 7-14.
QSLs direct or via bureau to their homecalls.

VK9/L - LORD HOWE ISLAND, OC-004; VK9/N - NORFOLK ISLAND, OC-005

Jack,HB9TL/VK6CTL, will be QRV from Lord Howe Island (OC-004) signing VK9CLF in SSB on 80-10m from Oct 8-18.
After that he will activate Norfolk Island (OC-005) as VK9CNF from Oct 19-25. QSL cards should be sent direct via HB9QR.

ZL7 - CHATHAM ISLANDS, OC-038

Jacek,ZL7/SP5EAQ, Wojciech,ZL7/SP9PT, Marek,ZL7/SP9BQJ, and Jozef,SP9-31029, will be active in SSB, CW and RTTY from Oct 5-18. QSLs via homecalls.

3B7 - ST BRANDON ISLANDS, AF-015

3B7C went QRT on Sep 25 at 0331 UTC. After loggging 135.500 QSOs 3B7C is ranking third after D68C and 3B9C in the list of the DXpeditions with the most QSOs. Here is the band and mode breakdown:

10m	7.958	30m	13.460	Phone:	51.754
12m	8.851	40m	19.906	CW:	79.217
15m	18.887	80m	13.267	RTTY:	6.549
17m	21.052	160m	2.922		
20m	31.577				

All details about 3B7C can be found online at: http://www.3B7C.com

3C - EQUATORIAL-GUINEA, AF-010

Fred,KH7Y, Vic,EA5YN, Luis,EA5BRE, and Elmo,EA5BYP, will show up as 3C7Y from Equatorial-Guinea from Oct 5-14 and the team states this is the first activity since five years. The team will be active in CW/SSB/RTTY on all bands from Bioko Island (AF-010) and one station per mode shall be active all around the clock. They have beams for 6/10/15/20m, a rotary dipole for 40m and normal dipoles for the other bands.
QSLs via EA5BYP. Further information can be obtained from their website http://personal.telefonica.terra.es/web/ea5yn/3c7y.htm

5H - TANZANIA

Pat,W8FV, is going to put up his expedition tent on the southern lakefront of Lake Victoria from where he will be QRV as 5H9PD from Oct 6-9.
QSLs via W8FV.

7Q - MALAWI

Ely,IN3VZE, is spending his holidays on the southwestern lakefront of Lake Malawi. Listen for 7Q7CE on all bands from Oct 4-25.
QSL via bureau to IN3VZE or direct to:
IN3VZE, Ely Camin, Corso 3 Novembre 136/2, 38100 Trento, Italy.

9Q - DEMOCRATIC REPUBLIC OF CONGO

John,SM5DJZ, is the new QSL manager of 9Q1TB and 9Q1EK, after their last manager SM5DQC passed away. Direct QSLs should be sent to:
Jan Hallenberg, Vassunda Andersberg, SE-741 91 Knivsta, Sweden.
The logs will still be uploaded to the LotW and online logs are still available at: http://www.logsearch.de

FRANCE, SPECIAL EVENT STATIONS

TM0VDM will be QRV from Oct 6-19 to celebrate the 100th birthday of the poet Maxence Van der Meersch (1907-1951). QSL via F5KEB.

SWITZERLAND, SPECIAL EVENT STATIONS

HB9SPACE will be active during the World Space Week from Oct 4-10. To celebrate the 50th anniversary of astronautics there will be special activity by the Swiss astronaut Claude Nicollier,HB9CN, from the museum of military aviation "Clin d'Ailes" in Payerne on Oct 6.
QSL via bureau to HB4FR.
His operating schedule and details can be found at: http://www.hb4fr.ch

A2 - BOTSWANA

Frosty,K5LBU, is the organizer of a DXpedition to Botswana which is going to hit the airwaves from Jul 6-20. His call will be A25CF, the other participants John,A25OOK (GM3OOK), Wayne,A25KDJ (W5KDJ), Jay,A25SL (W5SL), Lee,A25LT (WA8QFE), Dick,A25BUN (ZS6BUN), Dan,A25DW (ZS6JR), Jan,A25OB (ZS6OB), and Hal,A25HL (ZS6WB). During the IARU HF World Championship Contest (Jul 14/15) they will use the special call A25HQ. The QSL route for A25OOK is via M5AAV, all other QSLs should be sent to the appropriate homecalls. They will be QRV in in CW/SSB/digi modes on 6-160m and via EME on 2m/70cm, antennas include a 22m vertical for 80m/160m and a 4 square array for 40m.
More information can be found at: http://www.tdxs.net/A2.html
These operating frequencies have been announced (in MHz):

SSB/TX	SSB/RX	CW/TX
1.840	1.845-1.850	1.816-1.825
3.790	3.800-3.810	3.516

14.220	14.225-14.230	10.116
14.265	14.270-14.275	14.026
18.145	18.150-18.155	18.076
21.270	21.275-21.280	21.026
24.935	24.940-24.945	24.895-24.926
28.450	28.455-28.460	28.026
50.110	50.110	50.096

In CW they are going to listen 5-10 kHz up.

CE - CHILE

Claudio,CE1VIL, is very active as 3G100S until Aug 1 to celebrate the 100th anniversary of the scout movement in Chile.
QSL via bureau or direct to XQ1KY.

CN - MOROCCO

Claude,F5OGE, will be active as CN2GE/m making a roundtrip through Morocco from Jul 13-29. His trip starts in Tangier and will lead him to Rabat, Marrakech, Benni Mellal, Fes, Tetouane and back to Tangier. Claude will be QRV mainly in CW/SSB on 7 and 14 MHz during the early morning or late evening hours. QSLs direct or via bureau to F5OGE.

DU - PHILIPPINES

Chris,VK3FY/DU1, will be QRV from Luzon (OC-042) from Jul 5-9. He might show up also as VK3FY/DU8 from Mindanao (OC-130) and maybe also from OC-235 if he finds some transportation possibilities.

J8 - ST VINCENT, NA-109

J8/W6JKV is active on the air until Jul 11. This operation takes place on the "magic band" (6m) only. QSL via homecall.

OJ0 - MARKET REEF, EU-053

While OJ0/OH3RM (QSL via homecall) and OJ0VR (QSL via OH1VR) should be active until July 3, the calls of the next DXpedition to Market Reef taking place from Jul 5-9 (see last DXNL) have been announced lately: Peter,SM0BSO, Stellan,SM0LQB, Jan,SM5XGJ, Eric,SM1TDE, and Lars,OH0RJ, will run 3-4 stations in CW/SSB/digital on 2-160m signing OJ0/homecall.

PJ2 - NETHERLAND ANTILLES, CURACAO, SA-006 (WLOTA LH 0942)

Jan,PJ2/DJ8NK, Carsten,PJ2/DL6LAU, and Joachim,PJ2/DL8OBQ, will be QRV from Curacao Island (SA-006) from Jul 9-16. They will sign PJ2HQ during the IARU HF World Championship on Jul 14/15.
QSLs via the operator's homecalls, PJ2HQ via N9AG or LotW.

Salvatore,PJ2/DH7SA, will show up on the bands also from Jul 9-16.
QSL via homecall.

SV5 - DODEKANES, EU-001

SX5RHO is a special event station during the "12th Island Games" active in all modes on all bands until Jul 7. QSLs will be sent automatically via the bureau and the manager SV5FRD will upload the logs to the LotW.

V2 - ANTIGUA AND BARBUDA, NA-100

Frank,K3TRM, is working in SSB/CW/RTTY on 80-6m signing V26RM from Jul 4-10. Furthermore he was the first one to obtain a license for 60m.

YA - AFGHANISTAN

Dejan,YA/9A4ZD, is a new operator in Afghanistan. He has been spotted on 20m (14.300 MHz) and 17m (18.130 MHz) already. QSLs via homecall.

4O - MONTENEGRO

David,OK1FJD, is going to be QRV as 4O6DJ on 6-160m from Jul 7-14.
QSL via OK6DJ.

5X - UGANDA / UA4WHX QRT

Uganda was the last stop of the trip of Vlad,UA4WHX. After logging more than 310.000 QSOs from 21 African DXCC entities in 26 months

Vlad released his QSL guidelines now. Vlad held the following calls: 3DA0VB, 4K0VB, 4L0B, 5H3VMB, 5H3VMB/3 (AF-075), 5H3VMB/5 (AF-074), 5R8VB, 5X1VB, 5Z4/UA4WHX, 5Z4/UA4WHX/p (AF-067), 5Z4BU, 7P8VB, 7Q7VB, 9J2VB, 9U0VB, 9X0VB, A25VB, C91VB, C91VB/4 (AF-103), C91VB/6 (AF-088), D20VB, D60VB, J20VB, OD5/UA4WHX, ST2KSS, ST2VB, V51VV, V51VV/p (AF-070) and Z2/UA4WHX. These are his QSL guidelines:

1) Vlad accepts QSLs via the Russian QSL bureau, but also shipments from national QSL bureaus to his private address (Vladimir M. Bykov, PO Box 2040, Izhevsk, 426000, Russia).
2) However he prefers and recommends direct QSLs.
3) Please send no money bills, only IRCs. Vlad can send up to 7 QSLs with one IRC.
4) The best choice for Vlad is a deduction via Visa or Mastercard. Vlad states that this way of billing is 100% safe and is handled by the "Svezhy Veter Travel Agency".
5) If you had more than one QSO with him, please send only one QSL and list the other QSOs on an enclosed sheet of paper.
6) Vlad has no computer log. There are only paper logs and a few OMs will assist him with confirming the QSLs. Vlad will make another announcement as soon as the shipment of the QSLs has started.

8Q - MALEDIVES, AS-013

Al,JA9APS, will spend his family holidays on the Maldives from Jul 6-9. Listen for 8Q7NK in SSB/CW/RTTY on 40-6m running a TS-570S into a R8 vertical. QSL via homecall, Narumi Kawai, 1-10-14 Suwanokawara, Toyama, 930-0088 Japan.

HONG KONG, SPECIAL EVENT CALLSIGN

Ten years after Hong Kong has been handed back to the People's Republic of China all radio amateurs may use the prefix VR10 (instead of VR2) between July 1,2007, and June 30,2008.

IRELAND, SPECIAL EVENT CALLSIGN

70 years ago the very first commercial transatlantic test flight with passengers on board flew from Botwood/Newfoundland to Foynes/Ireland. Members of the Limerick Radio Club (http://www.qsl.net/ei4lrc) will use the special event call EI70FOY on 10-80m from Jul 6-8. QSL via EI8EM. More information can be found at: http://www.transatlanticflightpby.com

BELARUS, SPECIAL EVENT CALLSIGN

The oldest town in Belarus is Orha which celebrates its 940th anniversary this year. This is the reason for the activation of EU940OR until Jul 26. QSL via UA3FDX.

This new version of the RSGBIOTA.org website includes many new and improved features compared to the previous one. These include improved island searches, the ability to see your QSO records and integration with the DX Cluster. You will also shortly be able to use it to submit updates online and to claim credit for IOTA Contest QSOs without QSL cards.

Check the "System" font in start/run/charmap: �
It's a basic font that should be available on most systems. If it doesn't
work with "System" font, I don't know what to tell you. (Notice there's no
ALT + # code for �, even with System).

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

1A0, SOV. MIL. ORDER OF MALTA (Update). A multinational team lead by

Francesco, IK0FVC, will activate 1A0KM from the Sovereign Military Order of Malta between July 12-22nd. Operators mentioned are: Wolfgang/DL5MAE, Bernhard/DL6RAI, Rodger/G3SXW, Nigel/G3TXF, Luciano/I0JBL, Paolo/I2UIY, Massimo/I8NHJ, Marco/IK0DWN, Sergio/IK0FTA, Roberto/IK0PRG, Giocondo/IW0GIV, Alessandro/IW0GPN, Alan/K5AB, Joe/KO4RR, Victoria/N4WV and Martti/OH2BH. Activity is planned for 160 meters through 23cm on all modes. There will be a possibility of some EME activity during the first weekend of operations. QSL via IK0FTA. Look for logs to be uploaded to the LoTW. An online blog is supposed to be available at: http://1a0km.splinder.com/

8Q, MALDIVES (AS-013). James, M1DST, will be active as 8Q7JP from July 9-16th. Activity will be on 80/40/20/15/10 meters SSB. He might attempt some slow CW too if he is brave enough. PLEASE NOTE that this will be a holiday style with operations. James says, "It is my honeymoon so I have to respect that. My other half is licenced too so she understands the fun". QSL via his home callsign.

8Q, MALDIVES (Correction/Update). Operator Al, JA9APS, will be active as 8Q7KN (not 8Q7NK) between July 6-9th. This is a family vacation. His XYL JR9GTD will also operate as 8Q7KN, and his two sons JE9AMG and JE9AMH will will operate as 8Q7KF. Al hopes to operate on 40-6 meters, SSB, CW and RTTY, using a TS-570S and R8 vertical. QSL via his home callsign. Direct address is: Narumi Kawai, 1-10-14 Suwanokawara, Toyama, 930-0088 JAPAN.

A2, BOTSWANA (Update). Frosty, K5LBU/A25CF, and his team of operators are now active until the 20th. Activity will be active on all bands from 160-6 meters on CW and SSB, with operations also on 6/2 meters and 70cm EME. Look for the following operators to be on the air: Dan/ZS6JR (A25DW), Frosty/K5LBU (A25CF), Wayne/W5KDJ (A25KDJ), Jay/W5SL (A25SL), John/GM3OOK (A25OOK), Lee/WA8QFE (A25LT), Jan/ZS6OB (A25OB), Hal/ZS6WB (A25HL) and Dick/ZS6BUN (A25BUN). The QSL route for A25OOK is via M5AAV; all other QSLs should be sent to the appropriate home callsigns.

AM, SPAIN. For Spain, look for the following URE HQ stations (Union de Radioaficionados Espanoles - Spanish HQ) to be active in the upcoming IARU HF World Championship Contest next weekend (July 14-15th):

AM1HQ	80m	CW/SSB
AM2HQ	160m	CW
AM3HQ	160m	SSB
AM4HQ	15m	CW/SSB and 40m SSB
AM5HQ	10m	SSB, 20m CW/SSB and 40m CW
AM7HQ	10m	CW

QSL all HQ stations via EA4URE.

C6 DXPEDITION VIDEO. Daniel, DL5YWM, informs OPDX that he has put a video online of their recent C6ARI Cay Sal Bank DXpedition (IOTA NA-219) on their Web site: http://www.qslnet.de/c6ari
The German operators were there in early January.

CARIBBEAN TOUR (V2 and VP2). Frank, K3TRM, is now active from Antigua as V26RM until July 10th. Activity will be on 80-6 meters CW, SSB and RTTY. Frank has received permission to operate on 60 meters (a first from Antigua). He was heard this past week very active on 60/20/17 meters. Look for Frank to go to Montserrat (VP2) next and be active between July 11-14th. Activity will be on 80-6 meters, CW, SSB and RTTY. Frank is still waiting for the final confirmation on his callsign, but he is expecting to receive VP2MRM. QSL both operations via K3TRM.

CU2, AZORES. Pedro, EA1FCH, will be active from Sao Miguel (EU-003) in the Eastern Island Group as CU2/EA1FCH, July 27th through August 5th. Activity will be on the lower bands and WARC bands, mainly CW and the Digital modes. QSL via EA1FCH, by the Bureau or direct.

FG, GUADELOUPE (NA-102). Members of the Guadeloupe Island Radio Club FG5KC will be active during the IARU Championship (July 14-15th), from the Alize au Moule Beach. Activity will be on SSB on the HF bands. QSL to: Radio Club FG5KC, BP126 Messagerie, F97110 - Pointe-A-Pitre Cedex, Guadeloupe, France.

MDF IN NOVA SCOTIA. Members of the Halifax Amateur Radio Club (HARC) invite all contesters, DXers and HF enthusiasts to the 4th Annual Maritime DX Forum (MDF). It will be held in Upper Tantallon, just outside Halifax, at the Head of St. Margaret�s Bay. This is a full day event on Saturday, August 4th, begins at 8:30 am. The Program includes five excellent presentations:

1) Tom Harrell, N4XP, talking about the highly challenging 2007 Scarborough Reef DXpedition.
2) The second presentation will explore answers to the question: "Why do Mariners become Radio Amateurs? It features Jose Campione, VA3PCJ, a noted Ontario yachtsman and ham.
3) Scott Wood, VE1QD, will take you on a trip to the British Antarctic Territories, some of the rarest DX real estate on the planet.
4) Fred and Helen Archibald, VE1FA and VA1YL, will show you how to mount a real DXpedition in your own region at a moderate cost.

5) The DX Forum Dinner will feature a reception at 5:00 pm followed

by dinner at 6:00 pm. In the day�s final event, Don Trotter, VE1DTR, and his musical group Sunrise will entertain after dinner with a Bluegrass Concert: DX Breakdown.

The registration deadline is Wednesday, August 1st. The complete details about the MDF and a registration form can be downloaded from the HARC Web site at: http://www.halifax-arc.org
You can also contact Scott Wood, VE1QD at: velqd@rac.ca

QSL all S50HQ via the S5 QSL Bureau.

SPECIAL EVENT (Scout Station). Look for special event station SX100VAR to be active until the end of the year. This is a Boy Scout station to celebrate the 100th anniversary of the International Scout Movement. It will be active from the Scout head office (KM18XF) in the Varnava area on all bands on SSB and RTTY. There will be an award available for radio amateurs and SWLs by making just one QSO with this special event station on any band and mode. More details, picture of the award and the QSL information is available on QRZ.com.

SPECIAL EVENT. Look for special event station K8KRG to be active between July 13-14th during "NOARSFEST" in Wellington, Ohio. A special QSL card will be available. Operator will be Andy, N8OFS, from grid square EN81VE on the following suggested 6 meter frequencies: 50.155, 50.162.5, 50.167.5 and 50.175 MHz.

SX5, DODECANESE (Update/EU-001). Operators Theodor/SV1GRM, Sotirios/ SV1HER, Nikiforos/SV1EEX, Daniel/SV1JCZ, Cliff/SV1JG, Spiros/SV1RC, George/SV1RP and Lykourgos/SW1GZL will be active as SX5AS from the complex of three (3) uninhabitant Rocky Islet of Astakida and the lighthouse (WLOTA LH-0393, WW Loc. KM35JV), July 17-23rd. All the above operators are members of the Radio Amateur Association of Greece (http://www.raag.org). It will be the first time that the islets are going to be activated for ham purposes as well as the lighthouse. The complex is located on the western side of Karpathos Island (at 18 NM) and on the Northern side of Kasos Island. Activity will be on all HF bands, 160m-23 Cm (HF-SHF). Main modes will be CW/SSB/PSK/RTTY/FSK441/ FM. They will also try to work amateur satellites with 2m-23cm FM transponders. QSL via SV1HER (QRZ.com).

T8, PALAU. Operators Hide/JM1LJS (T80W), Motoaki/JE1EKS (T88EK) and Koya/JI5RPT (T88PT) will be active from the IMPAC Palau Rental Shack, July 13-18th. Activity will be on 40-6 meters, CW/SSB and satellites. QSL via their home callsign. The Web pages for this operation are:
http://radio-dream.com/t80w/
http://www.ji5rpt.com/t88pt/

TC25, TURKEY (Special Event). Look for special event station TC25SG to be on the air between July 11-15th to celebrate the 25th anniversary of the foundation of Turkish Coast Guard Command (Sahil Guvenlik). Look for Leonardo/TA1FR, Tevfik/TA1HZ and Bekir/TA2RX to be the operators and to be active from some part of the Marmara Straits Area Command's Coast Guard vessels. They team plans to do an all day multi-band operation for the upcoming IARU HF Championship weekend. QSL direct via TA1HZ or via TA QSL Bureau.

V3, BELIZE (Update). By the time you read this, Dennis, K7BV, should

be active from Caye Caulker (Grid EK57 - IOTA NA-073) off the coast of mainland Belize through July 16th. He informs OPDX that he will be using the callsign V31BV on all bands except 6 meters where he will use the special callsign V36M exclusively. The main purpose of this trip is to focus on 6 meters. He will have a 24/7 breakable beacon on 50.106 MHz. Dennis does state, "There will be plenty of action on the other bands as well with a second rig." QSL via W1JJ. Visit his Web page at: http://www.qth.com/k7bv/v3
EDITOR'S NOTE: Please be aware that the callsign "V31BV" was used once before by Vladimir, UA4WHX, during his Caribbean and Central America tour in the year 2002.

V8, BRUNEI DARUSSALAM. Steve, 9M6DXX, will be operating as V8FEO from July 11-15th. Activity will be on 80-10 meters, SSB only, including a Single-Op/All-Band entry in the IARU HF Championship Contest (July 14-15th). Steve will be using 300 watts to an HF6 vertical and dipoles for 12, 17, 40 and 80m above the hotel roof, about 30 meters above the ground. QSL via Manager M5AAV, direct or by the RSGB QSL Bureau.

WorldRadio Magazine Editor and FISTS CW Club Coordinator Nancy Kott/WZ8C, along with Bob Mennell/WB5IUU, Cal White/WF5F, Paul Frantz/W5PF and Bill Frink/K5WAF from the Texas DX Society (TDXS) will be operating from the Island of Tortola July 11-18th. They will be participating in the FISTS CW Club Summer Sprint on Friday, July 13th from 8:00 PM to midnight EDT, and the IARU Contest the weekend of the 14th. Operations during the rest of the week will be on SSB, RTTY and CW with an emphasis on straight key operations. Here is an opportunity to get IOTA NA-023 in your log, as well as the VP2V prefix, which the operators will be using in front of their callsigns (VP2V/homecall). QSL via FISTS Bureau or W5PF.

VR10, HONG KONG (Special Event). To celebrate the 10th anniversary of Hong Kong being handed back to the People's Republic of China, look for VR radio amateurs to use the prefix VR10 (instead of VR2) between July 1st, 2007, and June 30th, 2008.

WP3, PUERTO RICO (NA-099). Alfredo, WP3C, will be active in the CQWW DX CW Contest (November 24-25th) as a Single-Op/All-Band/Low-Power entry. His activity will also count for the WLOTA as LH-2802. QSL via W3HNK, direct preferred, but Bureau is OK.

YM1907, TURKEY (Change/Special Event/Prefix). To celebrate the 100th anniversary of Fenerbahce Sports Club, look for Berkin, TA3J, to be active using the special callsign YM1907FB, which was authorized by the Turkish Republic Telecommunication Department of Istanbul Site Manage ment, between 1907z, July 19th and 1907z, July 26th (not August 2nd as first announced). Activity will be on 160/80/40/20/15/10/2 meters and the WARC bands on all modes. QSL via TA3YJ, direct or by the bureau. For direct QSLs, please send only SASE and 1 IRC (2006 version) with your QSL card, no green stamps please. SWL QSL cards are OK. No eQSL. Visit the Web page: http://www.qsl.net/ta3j/ym1907fb

ZF, CAYMAN ISLANDS. Ed, N2EK, will be active as ZF2EK from Grand Cayman

Island between July 13-20th. Activity will be limited because he is on holiday. Bands and modes of operations were not provided. QSL via N2EK.

ZL, NEW ZEALAND. Members of the Motueka Contest Club (ZL1V) will be active as a Multi-Op/Multi-Mode station in next weekend's IARU contest, from the Quartz Hill (ZL6QH) super-station. Operators mentioned are: John/W2ID, Brian/ZL1AZE, Chris/ZL1CT and Frank/ZL2TTS. The team will be activating ITU/IARU Zone 60. Please QSL via N3SL.

FM - MARTINIQUE, NA-107

Alain,F5LMJ, will be active from Martinique (NA-107) signing TO5J from Jul 14-28. No further information has been released but Alain prefers working mainly in CW and digital modes. Alain usually sends the QSLs automatically via bureau and his log will be uploaded to the LotW, too.

FS/PJ7 - ST MARTIN, NA-105

Marq,CT1BWW, John,EA3GHZ, and Tomas,EA5YH, and their XYLs will spend their holidays on St. Martin (NA-105) from Jul 15-25. They will be QRV as FS/homecall working with two stations simultaneously in CW/SSB and digital modes on 80-6m. They will also make a trip to the Dutch side of the island from where they may show up as PJ7/homecall. All QSL cards should be sent to the OP's homecall. More information can be found on: http://www.dxciting.com

KH0 - NORTHERN MARIANA ISLANDS, OC-086

Kay,JH0MRP (AC5TB) and Nao,JK1FNL (NA8O), will activate Saipan (OC-086) mainly on the WARC bands and 6m as AC5TB/KH0 (QSL via JH0MRP) and NA8O/KH0 (QSL via JK1FNL) from Jul 13-16. They intend to participate in the IARU HF Championship Contest (Jul 14/15) as well.

SV9 - CRETE, EU-015

Paolo,SV9/IK2MLS, will be QRV from his holidays working in SSB on HF, 6m and 2m from Jul 15-27. QSL via homecall.

T8 - PALAU, OC-009

Hide,T80W (JM1LJS), Motoaki,T88EK (JE1EKS), and Koya, T88PT (JI5RPT), will be active from the "IMPAC Palau Rental Shack" in SSB/CW on 40-6m and via satellite from Jul 13-18. QSLs via homecalls. The websites are: http://radio-dream.com/t80w and http://www.ji5rpt.com/t88pt
A view of the shack is here: http://palau.rental-shack.com/english

TA - TURKEY

Another special event station to celebrate the 100th birthday of the sports club Fenerbahce Istanbul will be YM1907FB from Jul 19-26. The call will be aired by Berkin,TA3J, on 2-160m. QSLs via bureau or direct to TA3YJ. If you send direct QSLs please enclose no money bills but IRCs. There will be no eQSLs and SWL reports are welcome. Feel free to check these two links: http://www.qsl.net/ta3j/ym1907fb and http://www.geocities.com/qslservice/ta3yj

---

TA1FR, TA1HZ and TA2RX are working as TC25SG (25 years coast guard) on all bands from Jul 11-15. QSL via TA1HZ, direct or via bureau!

V3 - BELIZE

V31BV is the call of Dennis,K7BV, who is active from Caye Caulker (NA-073) until Jul 16 as printed in the last DXNL. He is also using the special callsign V36M exclusively on 6m and you can watch the QRG 50106 kHz where he runs a beacon. Both QSLs are managed by W1JJ.

Colin,KU5B, announces his operation as V31UB from Jul 12-17. He is going to spend most of the nights at the radio in CW and SSB and also considers a participation in the IARU HF Championship. QSL via KU5B.

V8 - BRUNEI, OC-088

Steve,9M6DXX, is staying in Brunei (OC-088) from Jul 11-15. He is QRV as V8FEO (QSL via M5AAV) in SSB on 10-80m and will take part in the upcoming IARU HF World Championship as well.

VP2M - MONTSERRAT, NA-103

Frank,K3TRM, applied for the callsign VP2MRM which he plans to activate on the volcano island Montserrat (NA-103) in SSB/CW/RTTY on 80-6m from Jul 11-14.

VP2V - BRITISH VIRGIN ISLANDS, NA-023

Nancy,WZ8C, Bob,WB5IUU, Cal,WF5F, Paul,W5PF, and Bill,K5WAF, are going to stay on Tortola Island (NA-023) from Jul 11-18. They will hit the airwaves as VP2V/homecall in SSB/CW/RTTY and also during the contest. QSL cards for all calls should be sent via bureau to W5PF.

YJ - VANUATU

Hank,W0CZE, and possibly a second OP will shop up as YJ0CZE from Jul 13-21. The QSL manager for YJ0CZE is W0FF.

Operation will take place on following frequencies (in MHz):

band	CW	SSB

JD1/M, MINAMI TORISHIMA (OC-073). Operator Masafumi, JA6GXK, will be active as JA6GXK/JD1 between July 18th and August 2nd, and again from August 29th to September 30th. He seems to like PSK31 on 20 meters.

KH3, JOHNSTON ISLAND. Skipper of the USSV Dharma, Susan Meckley, W7KFI, is expected to depart sometime this week for Johnston Island (OC-023, USI OI-006). Susan was told that she is the last official operation from KH3-land as the U.S. Air Force and the U.S. Fish and Wildlife Service has delcared it a closed island. It took Susan 7 months to get permission from the USAF to stop there. Susan is expected to use the callsign KH3/W7KFI and prefers the CW mode (she states "I can get many more QSOs in"). Watch the frequencies 7036, 10105, 14036, and 18170 kHz. She will also operate SSB (possibly 14236 kHz), but can operate most anything upon request. QRP fans are supposed to watch 10105 kHz. QSL via her home callsign (QRZ.com).

LIGHTHOUSE ACTIVITY..........

Look for CE4T and CE4S to be active from Topocalma Lighthouse (CHI-076) during August 17-19th. They will also be active in the International Lighthouse/Lightship Weekend (ILLW - August 18-19th). Activity will be on 40/20/10 meters using SSB only. QSL CE4S and CE4T via EA5KB Jose in Spain.

Operators Ian/GW0VML and Jayne, Steve/G0SGB and Hugh/M1NTO will be participating in this year's International Lighthouse/Lightship Weekend (August 18-19th) as GB1SL from "The Skerries Lighthouse" (BARLS A-5168, RLHS WAL-030, TWLHD WLH GW-016, WW Loc. IO73QJ), in Wales. More details are forthcoming closer to the operation.

LIGHTHOUSE/IOTA ACTIVITY........

Members of the Greater Norwalk Amateur Radio Club will be active as N1EV from Sheffield Island (NA-136, USI CT-008S, Fairfield County, CT) and the lighthouse (ARLHS USA-753, TWLHD WLH K-150, WLOTA LH-2712), during the International Lighthouse/Lightship Weekend, August 18-19th. Activity will be on 80-10 meters. QSL direct to N1EV (QRZ.com).

Members of the Motorola Amateur Radio Club (Florida Chapter) will take part of International Lighthouse/Lightship Weekend
(http://illw.net/<http://illw.net/),
and activate the Cape Florida Lighthouse (ARLHS USA-118), on August 18th from 1300-2330z, using the special callsign K4L. This lighthouse is on Key Biscayne, part of the Florida State South East Group, IOTA NA-141. Activity is planned for CW, Digital, and SSB operations on the IOTA frequencies on 40 and 20 meters. QSL via W4MOT, direct or by the Bureau.

Members of the Englewood Amateur Radio Society (EARS) plan to be active as K8ONV from the Boca Grande Lighthouse (ARLHS USA-910, WW Loc. EL86UR) on Gasparilla Island (NA-069, USI FL-034S, Charlotte County, Florida), August 18-19th. They will participate in the International Lighthouse Day. QSL via K8ONV (QRZ.com).

MARITIME MOBILE. Michel, F6DWQ (ex-FB8ZP), will be /MM aboard the "M/V Grigoriy Mikkheev" vessel around Svalbard (JW) from July 15-24th. Look for Michel to be mostly on 20 meters with a TS-50 rig.

OH0, ALAND ISLAND. Juha, OH9MM, will be active as OH0Z during the CQ World Wide DX RTTY Contest (September 29-30th) as a Single-Op/All-Band entry. QSL via W0MM.

P2, PAPUA NEW GUINEA (New IOTAs To Be Activated). Look for operators Hans/SM6CVX, Derek/G3KHZ, Steve/G4EDG and Luis/CT1AGF to be active as P29VCX from Nukumanu Island (New IOTA OC-284) between September 23-29th. QSL via SM6CVX. The team will then go to Takuu Islands (New IOTA OC-283) and be active as P29NI from September 30th until October 5th. QSL via G3KHZ. It is also possible that the team may be active from Tulun Island (OC-256) between October 6-9th. The callsign is yet to be decided as is the QSL route. The group plans to have 3 stations and 2 linears on the air. Activity will be on all bands and each night they expect to be on either 80 or 160 meters as well as all the other bands. They will use verticals and multiband dipoles.

PIRATE ALERT. Mamuka, 4L2M, President of the National Association Radioamateurs of Georgia (NARG), informs OPDX that 4L6VV is a pirate station. Operator states his name is Yuri and is in Tkvarcheli. Mamuka says this is not a Georgian license, and they believe the pirate is operating from Russia. Please do not QSL this operation.

PJ4, NETHERLANDS ANTILLES. Operators Jeff/KU8E, John/K4BAI and Larry/K5OT will be active as PJ4/homecall from Bonaire (IOTA SA-006) between November 20-27th. Also look for them to be active as PJ4A during the CQ World Wide DX CW Contest (November 24-25th) as a Multi-Single entry. QSL all callsigns via K4BAI.

INFO NEEDED. Has anyone received XU7ADB QSLs yet? OPDX has some individuals inquiring.

NOT THE QSL MANAGER. Bob, K8BL, informs OPDX that he is receiving QSLs for VP2EDH and IS NOT the QSL Manager. He is the QSL Manager for VP2EOH. QSL VP2EDH via W7XU.

Ed, KU4BP, QSL Manager for V26H in the 2007 ARRL DX SSB Contest, informs OPDX that the operators of V26H have informed Ed that QSL cards for V26H will be going to the printer in a few weeks. So Ed expects to have them by late August. He has confirmed all QSOs for the contest that he has received so far is 340+. Ed states,
"My job is taking me out of town from mid July to mid November. When I return home I will start getting the cards out. Thank you all for your patience."

QSLS VIA LOTW: A25KDJ, CT6A, GM4WZL, HB0/HB9CVQ, LA6FJA, OJ0/OH3RM, OY/G3SXW, R1FJ and SJ2W

QSLS RECEIVED VIA MAIL: 4L3Y, 5H3EE, 9M2/PG5M, 9U0X, N8S, SV2ASP/A, SV9/SM2EKM, TG9ANF, TO3T, VE0MMA and XW1A

RAC DRAFTS A NEW HF BANDPLAN. The Radio Amateurs of Canada (RAC) has been involved in the study and drafting of or a new proposed HF bandplan, which is now posted:
http://www.rac.ca/service/RAC_Draft_HF_Band_PlanR1.pdf
This proposal is now going before the RAC memerbership then shortly to the Region 2 HFBP meeting.

TK, CORSICA (EU-014). Jack, HB9TL, will be active as TK/HB9TL, July 18-30th. Activity will be on 80-10 meters SSB. Other reference numbers: IIA TK-001, MIA MCO-001 and WLOTA LH-1390). QSL direct to HB9QR.

TO1, MARTINIQUE. Operators Franck/FM0IR, Thierry/FM0JR, Yvon/FM0JZ, Eric/FM1HM, Christian/FM1II, FM1KM and Tijus/FM1HN will be active using the special callsign TO1YR from July 29th to August 5th during the turn of the Round Skiffs of Martinique. Activity will be on 80-2 meters on SSB, RTTY and PSK.

VE2, CANADA (Special Event). Look for special event station VE2XPO to be active from the site of the former Korean Pavilion on Ile Ste-Helene in Montreal from July 13-29th. Activity is to celebrate the 40th anniversary of the 1967 EXPO.

VK9L, LORD HOWE ISLAND. Haru, JA1XGI (W8XGI), informs OPDX that he will be active as VK9GLX between October 19-22nd (only 3.5 days!). Activity will be on 40/30/20 meters and possibly the lower bands. Modes will be CW, SSB and Digital (RTTY, SSTV). QSL via JA1XGI (Bureau or direct) or W8XGI (only direct).

WP3, PUERTO RICO (NA-099). Alfredo, WP3C, will be active in the CQWW DX RTTY Contest (September 29-30th) as a Single-Op/All-Band/Low-Power entry. His activity will also count for the WLOTA as LH-2802. QSL via W3HNK, direct preferred, but Bureau is OK.

YJ, VANUATU (OC-035). Hank, W0CZE, is now active as YJ0CZE until July 21st. Activity will be on 80-10 meters CW/SSB. Suggested frequencies
are: CW - 3505, 7010, 10105, 14020, 18075, 21025, 24895 and 28020
       SSB - 3795, 7082, 14190/14250, 18150, 21295, 24950 and 28495 kHz
QSL via W0FF.

CU - AZORES ISLANDS, EU-089

CT1EPV, CT1EGW, CT1GFK, CU2HJA, DJ2VO and HB9CRV/CT3FN will activate Flores Island (EU-089) between Jul 21 and Aug 1. All WLOTA hunters should be aware that they plan to put up their stations in the lighthouse Farol do Albarnaz (WLOTA LH 0947). They will be on the air as CU8/homecall in CW/SSB/RTTY/PSK on 6-80m including the beacon CU8/CT3FN on 50.113 MHz and as CU8T (multi/single) during the IOTA Contest on Jul 28/29. The QSL manager for CU8T is CT1GFK (via bureau), all other QSLs should be sent to the operator's homecalls. Their homepage is: http://www.to-mk.com/azores

JA - JAPAN

The special event station 8J7VENUS is very active in SSB and digital modes on 80-6m from the "Sendai Tanabata Festival" until Aug 31. QSL via JH7YES.

JD1 - MINAMI TORISHIMA, OC-073

Masafumi,JA6GXK/JD1, is working from Minami Torishima (OC-073) from Jul 18 until Aug 2 and once again from Aug 29 until Sep 30. He prefers working in PSK on 20m.

JW - SVALBARD, EU-026

Martin,JW/G3ZAY, and Michael,JW/G7VJR, are working from the clubstation JW5E in Longyearbyen (EU-026) on all bands but mainly on 6m and the WARC bands from Jul 15-22. QSLs via homecalls (bureau, direct, LoTW).

KH3 - JOHNSTON ATOLL, OC-023

Like announced previously in DXNL 1525 Susan,W7KFI, will become active from the Johnston atoll (OC-023) during the end of July. She plans to arrive already this week. KH3/W7KFI prefers working in CW on the QRGs 7036, 10105, 14036 and 18070 kHz and in SSB on 14236 kHz. Since the atoll is now under administration of the "US Fish and Wildlife Service" all future operations have to be organized under much more difficult circumstances. However the environmental agency declared this the last official operation and the island for not accessible anymore.

KL7 - ALASKA, NA-041

Rich,N7TCO, and Martin,W7ASF, will use the callsign W7ASF/KL7 from the island Prince of Wales (NA-041) from Jul 22-30. They also intend to take part in the IOTA Contest on Jul 28/29. QSL via W7ASF.

SU - EGYPT

Giselher "Gisel",SU9GD (DJ2AVB), writes: "I am active from Mehalla El-Kubra for three years now, mostly in CW and Feldhell, THROB and other digital modes on 20m. You can find me on the bands during the Islamic weekend (friday/saturday) starting around 1400 UTC. I run about 50 watts in the digital modes and 100 watts in CW using a vertical on the roof. Please QSL via my homecall DJ2AVB."

SV5 - DODEKANES, EU-001

SX5AS is the callsign of a DXpedition to Dodekanes (Astakida Islands) with the team members Cliff,SV1JG, Nikiforos,SV1EEX, Theodoros,SV1GRM, Spiros,SV1RC, George,SV1RP, Lykoyrgos,SW1GZL, Sotirios,SV1HER, and Daniel,SV1JCZ. The Astakida Islands (EU-001) are three uninhabited rocks in the Carpathian Sea which recalls the pictures of the recent BS7H DXpedition. The team is working in SSB/CW/PSK/RTTY/FSK441/FM and via satellites on all bands from 160m-23cm activating also the lighthouse (WLOTA: LH 0393) for the very first time from Jul 17-23. Their QSL manager is SV1HER.

TK - CORSICA, EU-014

Jack,TK/HB9TL, can be found in SSB on 10-80m from Jul 18-30. Unfortunately QSLs only direct via his QSL manager HB9QR.

ZF - CAYMAN ISLANDS, NA-016

David,K2DBK, will stay on Grand Cayman (NA-016) from Jul 22-29. You may hear him as ZF2DK if he is not relaxing at the beach. David prefers working in SSB on 20m but has antennas for all bands from 6-40m with him. He may also try PSK but start listening on the IOTA frequencies. QSL cards will be handled by David himself, either direct or via bureau and all log data will be uploaded to the LotW as well. More information can be found at: http://k2dbk.com

GREECE, SPECIAL EVENT STATION

SX100VAR is a scout station celebrating 100 years of the international scout movement. The QTH is Varnava where the Greek scout headquarters is situated. Working/listening to SX100VAR qualifies yourself for a special award issued by the awards and QSL manager SV1VS for EUR 5. SX100VAR is working in SSB and RTTY on all bands until Dec 31, 2007.

ITALY, SPECIAL EVENT STATION

IA3GM is activated by Luigi,IV3LNQ, until Sep 30 to mark the 70th anniversary of the death of Guglielmo Marconi. QSLs via IV3LNQ.

JAPAN, SPECIAL EVENT STATION

8J1ESP is a special callsign of the International League of Esperantist Radio Amateurs (ILERA) which will be put on the air by Lenio,PY3DF, Tanaka,JA1FXZ, and other members of the league with following schedule:
Jul 31-Aug 04 from Nagano/Takato
Aug 04-12 from the 92nd Esperanto World Congress in Yokohama
Aug 12-31 from Tokyo.
The station will work on these frequencies (+/- QRM): 7.066, 14.266, 21.266 and 28.766 MHz. QSLs via bureau or direct to JA1YAR or JA1FXZ.

DXCC: The German "Financial Times Deutschland" wrote on July 10, 2007, that the independence of Kosovo will be retarded not only because of the resistance of Russia. Experts expect a decision about the future of the Kosovo to be made not before the NATO summit in Bukarest which will take place in April 2008. So we still have to wait for a new European DXCC counter...

Due to a problem with the database it is momentarily not possible to open any online DXCC lists on the DXCC homepage. They are already working to fix the problem.

PIRATE: Mamuka,4L2M, president of the "National Association Radioamateurs of Georgia (NARG)" writes that the station 4L6VV is a pirate! The OP calls himself Yuri and proclaims Tkvarcheli to be his QTH. Mamuka states that this is not a valid Georgian licence and asks everybody not to QSL. He thinks the pirate works from Russia.

UPCOMING CONTESTS

Jul 28/29: RSGB IOTA Contest and SWL IOTA Contest

IOTA

collected by Fredy,DE0MST (e-mail: iota@dxhf.darc.de)

Island activities:

EU-038, PA, Noord Holland: Jack,PD2J, and Jan-Jaap,PG7V, will be active as PC6IOTA from Texel Island between Jul 24 and Aug 1. QSL via PG7V.

EU-170, 9A, Dalmatia North Group: A team of Hungarian OPs will show up as 9A6NL and/or 9A/homecalls from Pasman Island from Jul 21-31. They also plan to participate in the upcoming IOTA Contest.
QSLs for 9A6NL via HA6NL, all others via homecalls.

Hello Ham friends.

I worked HD8EX 27/28 - November 1988 and untill now still searching for the qsl info.
Is there anyone who worked this station at that period and can help me out on this one?

Many thanks !

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

2M, SCOTLAND. Paul, 2E1EUB, will be active as 2M1EUB/p from from north-east Scotland (IO87RJ) beginning July 27th for 7 days. Activity will be mainly on the satellites (maybe some HF too). QSL via 2E1EUB.

CU2, AZORES. Ann, WA1S, is expected to be active as CU2/WA1S this week between July 27th and August 10th. Activity will be on 80-10 meters, except for 30 meters. QSL via her home callsign.

CY0, SABLE ISLAND. Duane, WV2B, has announced that a group is in the early stages of planning a DXpedition to Sable Island during 2009. Currently, there are four operators mentioned: Duane/WV2B (CW/SSB), Rich/AI5P (CW/SSB), Dick/VE1AI (CW/SSB) and Scott/KA3QLF (RTTY/SSB). The callsign to be used is CY0ZZ. Activity will be on 160-6 meters and they plan to have a minimum of 3 stations on the air. A dedicated 6 meter station is a possibility. QSL routes are: AI5P/CY0 via AI5P, CY0ZZ via KA3QLF or VK4AAR for VK, JA, etc.. stations. The team is looking for sponsors to help them cover the large cost of chartering the Britain Norman Islander aircraft which must be used to land on the beach at Sable Island. The cost of this charter alone will be nearly $10,000. Further information is available on their Web site at:
http://www.sabledx.com

GB100, ENGLAND (Special Event). Look for special event station GB100J to be activated by an international group of Amateur Radio operators from the 21st World Scout Jamboree at Hylands Park, Chelmsford, in the United Kingdom between July 27th and August 7th. Operations will take place on all bands and all modes including PSK31. For more information, please visit: http://gb100j.radio-scouting.org.uk

GB4, ENGLAND (Special Event). David, M0XDF, suggests to listen on Wednesday, August 1st, for Scout stations to be active from all over the world to celebrate the 100th anniversary of Scouting. His Scout groups will have a special event station on that day. Look for GB4SBS (Second Bracknell Scouts) from a camp site near East Grinstead in England. Activity will be mainly SSB (no bands provided).

HC8, GALAPAGOS ISLANDS. Operators Manu/LX2LX and Norby/LX1NO are now active as HC8/homecall from Isabela Island (IOTA SA-004, WLOTA L-2957), the largest island within the Galapagos group, until July 31st. Their activity will be low profile (holiday style) mainly on CW with some SSB. QSL via LX1NO. An online log may be available at:
http://www.luxlog.info/hc.htm

IOTA NEWS......................

IOTA SPECIAL NOTES: The 15th IOTA (Islands On The Air) Contest will take place next weekend on July 28-29th. Rules for the contest are available at:
http://www.contesting.co.uk/hfcc/rules/riota.shtml
The SDI logging program by EI5DI uses custom Island/Prefix reference files and is recommended for Single-Op entrants under the rules. SDI runs on any Windows PC and is "FREE" from: http://www.ei5di.com/sd/sdisetup.exe

AS-120. (UPDATE) Members of the Nicosia Amateur Radio Club (CARS) will be active as C4MG from Agios Georgios [aka Kakoskaliou] (MIA MCI-001) during the RSGB IOTA Contest (July 28-29th). This coastal island of Cyprus (AS-004) has not been activated (as far as they know) since the previous expedition of the CARS there in July 2001, so there should be quite a few island chasers that are in need of this one. The group consists of George/5B4KH, Spyros/5B4MF, Paris/5B4XF, Nestoras/5B4AHZ, Andreas/5B8AP, Cliff/SV1JG and possibly also Marios/5B4WN and Stavros/5B4AFM. Cliff/SV1JG is participating in the expedition on behalf of the Radio Amateur Association of Greece (RAAG) of which he is the Vice President. The group hopes to land on the island on the morning of Friday, July 27th, and hopes to be on the air early in the afternoon. Operations will cease shortly after the end of the IOTA contest on Sunday, July 29th. There will be 2 stations active, one with a linear amplifier. Antennas include a 5-band Spiderbeam, a TA33Jr tribander and HF2V and R7000 verticals. Operation will take place with the 5B4NC/P callsign outside the contest and with the callsign C4MG during the IOTA contest - please update your contest logging software. The QSL Manager for both callsigns will be George/ 5B4KH. QSL via bureau or use the QRZ.com address for direct request.

AS-136. (UPDATE) Dale/BA4TB will be joined by Jiang/BG4TBC, Dai/ BG4TBJ, Mi/BG4TQX and Yun/BG1LKK to be active as homecall/4 from Chongming Island, July 27-30th. Activity will include the RSGB IOTA Contest. They plan to operate on CW, SSB and RTTY, on 80-6 meters. QSL via their home callsigns.

EU-008. Operator Jon, M0OVL, will be active as MM0OVL/P from the Island of Mull in the Inner Hebrides, July 27-29th. Activity will be on 80-10 meters and as an entry in the 2007 IOTA Contest. QSL via M0OVL (QRZ.com). Visit it his Web page at:

EU-010. Dennis, M0LSB, will be active as MM0LSB/p from Great Bernera (IOSA OH-12, SCOTIA HI-27), Outer Hebrides, July 27-29th. Activity will be on 80-10 meters SSB, using low power, and will include the RSGB IOTA Contest. QSL via his home callsign.

EU-011. Members of the Cray Valley Radio Society team will once again (5th trip) activate St. Mary's Island in the Isles of Scilly as G3RCV/P during the IOTA Contest (July 28-29th). In the past the team has operated on the WARC bands, 2m and 6m prior to and after the contest using their callsigns as homecall/P.

EU-025. Operators Mallamo/IT9CQC, Sebastiano/IW9HBY, Giovanbattista/ IT9HCS and Mario/IW9DCM will be active as IR9P from the Island of Sicily during the CQ World Wide DX SSB Contest (October 27-28th) as a Multi/? entry. QSL via IW9HMQ.

EU-036. Chris, OE9ICI, will be active as LA/OE9ICI from Hitra Island for the RSGB IOTA Contest (July 28-29th). Activity will be on 80/40/20 meters SSB with only 100 watts. QSL via his home callsign, direct or by the bureau.

EU-049. Operators George/SV1QN and Giannis/SV1GYG will be active as homecall/8 from Samos Island (MIA MG-099, WLOTA LH-4163), July 26th to August 4th. They will operate CW, SSB, RTTY and PSK31 on 160-10 meters, and will participate in the RSGB IOTA Contest. QSL via their home callsign.

EU-088. Operators Jan/OZ5JR, Klaus/OZ7KDJ and Erik/OZ9V will be active as homecall/p from Anholt Island (NK-001 for the Danish Islands Award), July 25-30th. Activity will include an entry in the RSGB IOTA Contest (July 28-29th), using the callsign OZ8MW/p and on 80-10 meters. QSL via their home callsigns.

EU-105. Operators Jean-Jacques/ON7EQ, Roland/ON5QK and Sebastien/ON3EQ will be active as F/OT3T from the Ile-de-Batz (DIFM MA-018), July 26-29th. Activity will include the RSGB IOTA Contest (July 28-29th). Outside of the contest they will activate the Ile-de-Batz lighthouse (DPLF 094, ARLHS FRA-071, WLOTA LH-0680). Activity will be on all bands, SSB only. QSL via ON7EQ, direct or by the bureau.

EU-122. Operators Allan/GM3OZB, Barry/GM3YEH, Steve/GM4OSS, John/GM0DJG and Gordon/MM0BIM will be active as GI3YS from Rathlin Island (WLOTA LH-0283) during the RSGB IOTA Contest. QSL via the bureau to MM0DHQ.

EU-123. Operators Colin/G3VCQ, Steve/M1ERS, Trevor/2E0TWS, Sharon/M3VCQ and possibly others plan to be activate two islands in the Clyde Islands group between July 26th and August 2nd. They will start with the Island of Arran (IOSA CL-01,SCOTIA CS-14) using the callsign GS3RCM. They will also be an entry in the RSGB IOTA Contest (July 28-29th) using the callsign MM3M. The group also intends to activate the Island of Pladda (IOSA CL-07, SCOTIA CS-12), if possible. QSL both callsigns via G3VCQ, direct or by the bureau.

EU-127. Andy, DA0T, will be active as DA0T/p from Neuwerk Island (N-12 for the German Islands Award, WLOTA LH-2311), July 26-29th. Activity will include the RSGB IOTA Contest and will be on all HF bands. QSL via his home callsign to: Andreas Kuelper, Curslacker Deich 362, D-21039 Hamburg, Germany.

EU-133. A group of Russian operators will participate in the RSGB IOTA Contest (July 28-29th) as RI1AA from Bolshoy Berezovyy Island (RRA RR-01-02). Before the contest they will be active as UE1CBB. QSL both stations via UA1AIR, direct or by the bureau.

EU-136. Rafal, SQ5FWR, will be active as 9A/SQ5FWR from Losinj Island (ACIA IC-116, CIA-25, IOCA CI-048, MIA MC-204) during the RSGB IOTA Contest. QSL via home call, direct or by the bureau.

EU-158. A group of OM/YL German operators will active from Proti Island (MIA MG-092) between July 26-31st. Their activity will also include the upcoming RSGB IOTA Contest. Look for the OM operators Olaf/DJ7TO, Uwe/DK3WW, Frank/DK7AO, Michael/DL6MHW, Holger/DL7AU and Holger/DL7IO to be active as J48IO. They plan to run 2 stations simultaneously from 160-10 meters. Each station has its own generator and antenna setup for 160-10 meters. The YL operators are Katrin/DL1AXL, Andrea/DL3ABL and Birgit/DL7IQ, and they will be active as J48YL. Activity will also include the RSGB IOTA Contest on all bands and modes. QSL route for both callsigns is DK7AO. Bureau QSL cards are preferred. An E-mail bureau request is also OK via: dl7io-at-qsl.net

EU-170. Caudio, IN3DEI/W1ADX, will be active as 9A/W1ADX from a few Dalmatian Islands (Dugi Otok, Molat, Pasman, Ugljan) in this IOTA group from now through August 7th. Activity will be holiday style. QSL via IN3DEI.

EU-181. Boyan/LZ1BJ and friends will be active as LZ1BJ/P from Sveti Ivan Island between July 23-26th (weather permitting). QSL via LZ QSL Bureau.

EU-182. Operators Alexandr/UR5FAV, Oleg/US0ZZ, Slava/UT5ZC, Boris/UT7UT, Nikolay/UX0FF, Vladislav/ER3DW, Anatoly/ER3DX, Alex/ER3OO and Valery/ER3ZZ will be active as homecall/p from the Island of Ankudibov from July 27-30th. QSL via their home callsigns. Activity will also include an entry in the RSGB IOTA Contest (July 28-29th), and the team will sign EM5F. QSL via UX0FF, by the Bureau or direct to: Nikolay Lavreka, P.O. Box 320, Izmail, 68609, UKRAINE.

The team will consist of Pedro/HR2PAC, Henry/HR2H, Daniel/HR2DMR and Antonio/HR2DX. The QSL Manager will be HR2RCH. QSL via the bureau or direct to: DXpedition Cochinos Cays - Chachahuate Island, PO Box 273, San Pedro Sula, Honduras (w/SAE and IRC).

NA-231. (Operation ABORTED!) Cezar/VE3LYC reports, "Hi Guys, I am heartbroken to announce that our attempt to activate East Pen Island had to be aborted. Ken/G3OCA and I have arrived in Ft. Severn, northern Ontario, based on a long series of telephone and E-mail communications with the local community here, who at no point in time provided an indication that this operation should be cancelled. For the past four days we have been on a roller-coaster, with the local community going back and forth between being ready to provide assistance and withdrawing it. On Thursday, July 19th, after intense negotiations, a team of four experienced guides/hunters was proposed and gathered by the local counsel. Although this increased substantially the cost of our expedition, we agreed to it, having travelled so far. Late evening, however, two of the guides dropped out, which left no opportunity for other sufficiently skilled guides to take their place. It has to be said that numerous local people have reported recently an unusual number of polar bears on the shore for this time of the year - polar bears are supposed to come to short sometimes after mid-August. Last August aerial survey of East Pen Island reported 40 polar bears there. Locals belive that with such an intense recent activity their number is larger this year. Besides this danger, colonies of walruses have been reported both on the shore and on the island, these animals having cubs right now and therefore being extremely protective - constituting thus a serious danger in crossing to the island in a small boat. In view of the above, it was clearly impossible to continue with our attempt.... 73, Cezar (VE3LYC) and Ken (G3OCA)"

SA-051. Members of the Association of Radioamateurs of Venezuela are organizing an IOTA DXpedition to Las Aves de Sotavento Archipelago in August to celebrate 2007 Venezuelan Navy Day. Their activity will be on CW and SSB on HF and on VHF FM. QSL via DL3AMA.

KH3, JOHNSTON ISLAND. Skipper of the USSV Dharma, Susan Meckley, W7KFI, who was expected to depart sometime last week for Johnston Island (OC-023, USI OI-006), has once again postponed her departure. Susan informs OPDX (as she apologizes to everyone) that it seems to look "like one hell of a hurricane season...." heading her way from the Mexican area. She states, "If there is a two week lull I will depart for KH3, but it looks like I am stuck in Honolulu till end of the season. In any event, propagation is much better in November than in July/August anyway. I guess the tooth ache that brought me back to

Honolulu was good after all...." She also mentions that she does not want to get stuck on an island that has a 5 ft. elevation during a hurricane storm surge and everything goes underwater.

LIGHTHOUSE ACTIVITY. The Greater Norwalk Amatuer Radio Club (GNARC) will be sponsoring a DXpedition to activate Sheffield Island Lighthouse for International Lighthouse Weekend (ILLW), August 18-19th. Operation of N1EV will begin 1600z, August 18th and end around 1800z August 19th. Activity will be on 80-10 meters SSB/CW/FSK. Operations will take place in or around the IOTA calling frequencies. Plans are to run at least 2 stations for the entire event. QSL direct to N1EV. SASE for domestic QSLs; DX send green stamp or IRC. Sheffield Island reference numbers are: IOTA-NA-136, USI-CT-008 and ARLHS-USA-753.

NEW WAP WEB SITE. The "Worldwide Antarctic Program" (WAP) now has a new Web site online (old Web page: http://www.ddxc.net/wap). This Web page is dedicated to Antarctic Chasers. Take a look at:
http://www.waponline.it

OH0, ALAND ISLAND.........

Ari, OH5DX, will be active as OH0Z during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (15m) entry. QSL via W0MM.

Juha, OH1JT, is planning to be active in the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (possibly 80m or 20m) entry. Callsign has not yet been decided.

An operator to be announced later will be active as OH0AW during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (40m) entry. QSL via OH5DX.

Juha, OH9MM, will be active as OH0I during the CQ World Wide DX CW Contest (November 24-25th) as a Single-Op/Single-Band (160m) entry. QSL via OH9MM.

P4, ARUBA. John, KK9A, will be active as P40A during the CQWW DX SSB Contest (October 27-28th) as a Single-Op/All-Band entry. QSL via WD9DZV.

UPDATE on "Has anyone received XU7ADB QSLs yet?" Bruce. AA9RN, states he has received his QSL from EA4URE from the October 2000 operation.

QSLS VIA LOTW: DD5M, J5UTM, MD0CCE, ON4AEK, OT4A and P40A

QSLS RECEIVED VIA MAIL: 1A4A, 3C0M, 3DA0EI, 3XM6JR, 6W1SE, 6W/IZ2DPX, 7X2LS, 9M8PSB, 9U0X, A61AJ, CW6V, EA8AH, EP3HF, FM5BH, HH2FYD, IR2IPY, KL7CQ, KP4WW, LT1F, OJ0VR, P49V, PJ4/K4BAI, PS2ZT, R750M, SU1SK, TI5N, TM5TAF, UA0ZC, VP8KF, VU7RG/VU7MY, ZC4LI, ZP0R and ZV5A

SPECIAL EVENT. Members of the Associazione Radioamatori Marinai Italiani (ARMI) will activate the special callsign II1TS (Italy Italy ONE Tall Ships) during the 2007 Tall Ships Race, July 28-31st. This international naval event featuring the most beautiful sailing vessels of Europe (among which are AMERIGO VESPUCCI, the PALINURO and the ITALIA), in addition to many other ships which are specially equipped training vessels. For this event, the ARMI will be operational with a team from the Coast Guard Command stationed at the Old Port of Genoa. Activity will be on HF and on all modes (SSB/CW/FSK). A special award Diploma has been created and can be requested from Alberto/IT9MRM, the award manager, for a cost of 10 Euros. (The proceeds, less printing and postal expenses, will be attirbuted to the ISTITUTO ANDREA DORIA, a charity institution which cares for the orphaned children of Navy personnel deceased in the line of duty or in peace missions.) During the above-mentioned period, the ARMI operators will also be active on board one of the training vessels using the special callsign II1TS/MM; operations will be in QRP. The QSL is design by IW1QN. QSL via IZ1GJK, by the Bureau (BUREAU A.R.I. 1601) or direct with SASE (1 USD or IRC or 1 Euro). For QSL Bureau requests via E-mail: ii1ts_team2007@yahoo.it QSL via LoTW (at the end of operation). For more info, visit:
http://digilander.libero.it/assoradiomarinai/tallship/home.htm

TK, CORSICA (EU-014). Operators Tom/DL2RMC and Heiko/DL1RTL will be active as TK/homecall between July 30th and August 8th. Activity will be holiday style operations. Look for them on 160-6 meters on CW and the Digital modes. They will have vertical antennas for the low bands. QSL via their home callsigns. ADDED NOTE: They may make a trip to EU-164 for the IOTA Contest.

V3, BELIZE. John/W5JON and his wife Cathy/W5HAM will be on Ambergris Caye (NA-073) from October 25-31th. Look for John to be active as V31FB on 160-10 meters SSB. He also plans to be active in the CQWW DX SSB

Contest (October 27-28th). Years ago his wife Cathy said that he could operate any contest from anywhere, "as long as it is warm and there is a beach". This will be their 5th year on Ambergris Caye operating in the contest. QSL via his home callsign.

ZD7, ST. HELENA. Tom, KC0W, will be moving to St. Helena Island in early September and is expected to be active as ZD7X. His activity will be on modes CW, SSB, RTTY and PSK. Look for his operations on 160-6 meters. Special attention will be given to 40, 75/80 and 160 meters. ZD7X will be active in all major contests. Tom has already announced that he will be active as a Single-Op/Low-Power entry in both the CQ World Wide DX SSB Contest (October 27-28th) and the CQ World Wide DX CW Contest (November 24-25th). When not contesting Tom will be DXing in general. His QSL Manager is W�MM.

Thanks for the help om Lamont.
Tried the Box DX that time but never had something in return.
I am looking for a call which i can email or get in contact with.

Anyway thanks for your contribution.

BY - CHINA, AS-136

Dale,BA4TB/4, Jiang,BG4TBC/4, Dai,BG4TBJ/4, Yun,BG1LKK/4, and Mi,BG4TQX/4, will activate Chongming Island (AS-136) in CW/SSB/RTTY on 80-6m from Jul 27-30 including the IOTA Contest on Jul 28/29. QSLs via homecalls.

C6 - BAHAMAS, NA-113

Pete,W2GJ, Ed,K3IXD (C6AXD), and Randy,K4QO (C6AQO), will show up from Crooked Island (NA-113) from Jul 27-30 including a participation in the IOTA Contest as C6APR (QSL via K3IXD). C6AXD and C6AQO will be QRV in CW/SSB/RTTY on 6m and the WARC bands before and after the contest.

CU - AZORES ISLANDS, EU-003

Pedro,CU2/EA1FCH, who prefers working in CW and digital modes on the WARC and lowbands will stay on Sao Miguel Island (EU-003) from July 27 until Aug 5. QSL via EA1FCH, via bureau or direct.

---

Ann,CU2/WA1S, will visit Sao Miguel (LH 2016) as well between Jul 28 and Aug 9. QSL via bureau to WA1S.

EA6 - BALEARIC ISLANDS, EU-004

Jorge,EA8TL/EA6, is going to visit Ibiza and Formentera (EU-004) from Jul 31 until Aug 24. He plans to operate in SSB on 80-2m (no 30m/6m) using an IC-706 with 100 watts.

GJ - JERSEY, EU-013

Iain,M0PCB, and Chloe,2E1IDT, are working with QRP power signing MJ0PCB and 2J1IDT from Jersey Island (EU-013) from Jul 24-31.
QSLs via homecalls.

HC8 - GALAPAGOS ISLANDS, SA-004

Manu,HC8/LX2LX, and Norby,HC8/LX1NO, are spending their holidays on Isabela Island (IOTA SA-004, WLOTA LH 2957) from Jul 20-31. You can expect them to show up in CW mostly. QSL via LX1NO.
See also http://www.luxlog.info/hc.htm

HS - THAILAND, AS-053

Between August 2007 and June 2008 Eric,SM1TDE, will work at a place where other people use to spend their holidays: on Phuket (AS-053).
As soon as he gets his HS0Z license you will find him mainly in CW on 40m/20m/15m/10m. Bureau QSLs should be sent via SM1TDE, for direct requests Eric still needs to rent a postbox in Thailand.

IS0 - SARDINIA ISLAND, EU-024

Tano,IS0/IZ8GCB, will be active in CW/SSB on 40m/20m/15m/10m from Sardinia (EU-024) from Aug 1-19. QSLs direct or via bureau to IZ8GCB.
His homepage can be found at: http://www.iz8gcb.com

KH3 - JOHNSTON ATOLL, OC-023

Once again Susan's,W7KFI, departure from Hawaii to Johnston has been delayed by a hurricane. This week she will decide if a safe trip to Johnston is possible at the moment. Else the departure would be delayed till November when the hurricane season is over and the condx to Europe are hopefully better. Susan will keep us informed.

LY - LITHUANIA

Rolf,DL6ZFG, is staing in Lithuania until Jul 31 and also intends to attend the LY-Hamfest near Kaunas from Jul 27-29. Rig: IC-706MK2G, verticals, all bands, preferably 20m up.

I noticed that K1RY was listed there -- maybe E-Mail him and see if he can
help

Well I upgraded to Windows Internet Explorer 7.0 and subsequently could not
access any of my usual Telnet DX Packet Clusters (;-)

But there is a patch from CiscoNET to make it work with IE and Vista

See URL:
http://www.cisconet.com/index.php?option=com_content&task=view&id=357&Itemid=72

FYI: Telnet and DX Packet Cluster info are at URL:

Could be Bob. All I know is after the patch, I can now access any cluster
site at the NG3K site -- URL:

Very good Gerrit - glad to help
Pathfinder has helped me find a lot of QSL routes  -- URL:
http://www.dxlabsuite.com/pathfinder/WebClient/

73 and Gd Dx which is a two fold endeavor
1. Scream and shout till you work em
2. Get the QSL card

Hopefully LOTW will eliminate a lot of number 2.
See ARRL LOTW Log Book Of The World at URL:

That's good to know.  I recall that the default Windows telnet is rather
broken.  If you want to see a nice dedicated DX Cluster client, take a
look at http://www.ve7cc.net/

I tried to install the ve7cc telnet program on a Win98SE machine and
it kept putting in a WS2_32.dll file in my C:\\Windows\System file
that screwed up the whole machine. I downloaded a new WS2_32.dll file
and installed it and all is OK. I tried it the second time and the
same thing happened. Anyone know of a fix or what I'm doing wrong?

It looks like a great program if you can get it to work.

Thanks

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B7C, ST. BRANDON ISLAND. Don Field, G3XTT, FSDXA Publicity Officer, posted a press release (their 5th) on the 3B7C DXpedition Web page this past week. Excerpts from the release state that operations will take place from Isle du Sud, St.Brandon, between September 7-24th. Operators Neville/G3NUG and Don/G3BJ have taken a vacation in Mauritius and used the opportunity to confirm the various logistical arrangements for their September operation. Don also visited Isle du Sud to make a detailed site survey. Everything is looking good, and the contracts are in place, both for the ship which will take them to the island and for accommodation and logistics on the island. It seems that they will have the island to themselves. A container full of gear has been shipped and will arrive in Mauritius on August 12th. Six large diesel generators have also been shipped. Good news for 6m enthusiasts. Eventhough 6m operations are not normally allowed from Mauritius and its outlying islands, they have been able to gain a short-term permit. It is limited to three fixed frequencies: 50090 (CW), 50102 (CW) and 50145 (USB). A new team member has been added. Bob, N6OX, has now joined the team. They are still looking for another operator (details are on the Web page). Their Web site continues to be updated on a regular basis. There are photographs of the island and of the container being loaded. Also, included are details about QSLing on the Web, site and you may wish to check this out before they fire up. They will, of course, be fully supportive of LoTW, for those who are looking for DXCC credits. Remember that if you are a sponsor, you will receive priority treatment for QSL cards. Also on the Web site you will find details of how to pre-order the DVD that they will be making of the 3B7C operation. For more details and the complete press release, please visit their Web page at: http://www.3b7c.com/

3D2, FIJI. Look for Tomas, VK2CCC (LY1F), to be active as 3D2MT between August 28th and September 4th. Activity will be on 80-17 meters, mainly CW and an entry in the All Asia DX Contest. QSL via the LoTW or via LY1F. Visit his Web page at: http://www.qrz.lt/ly1df

4TH STRANGE RADIO EVENT. The Italian's Strange Radio Event will take place this year between 0600z, October 19th and 2200z, October 21st. This year the "Strange Radio Team" (SRT) is trying to involve SRT members outside of Italy too. Many Italian stations will be using many special "SRT" callsigns (such as IS0SRT, II1SRT, IR8SRT, IO8SRT, IU7SRT, II0SRT etc ...) and the SRT group is hoping to hear many other SRT callsigns from many other countries. SRT plaques will be awarded

for this event and Strange Radio Event certificates will be available for making QSOs with different SRT special callsign. The mode for this event is SSB only. For more details, please visit the SRT Web page at: http://www.strangeradioteam.com
If you need any additional info, send an E-mail to:
iz7dok@strangeradioteam.com

8J1, JAPAN (Special Events)........................

Look for special event station 8J1A to be active between August 1-26th to celebrate the 2007 Amateur Radio Festival. QSL via the JARL Bureau.

Look for special event station 8J3ARDF to be active between August 1st through October 21st to celebrate the All Japan ARDF Athletic Meet. QSL via the JARL Bureau.

9Q, DEM. REPUBLIC OF CONGO. QSL Manager Osten, SM5DQC, informs that Georges, 9Q1EK, is now the only current active station from 9Q-land. Osten also states that Georges' log has been updated and is available at: http://www.logsearch.de
He also mentioned that there are BUSTED callsigns in the log, and if you do not find your QSO in the log to please E-mail him at:
sm5dqc@areteadsl.se
He also states, "When QSLing (direct only) please check SM5DQC on QRZ.com and read what is written below the picture - we do NOT have Euro mail in Sweden! Cards are usually mailed the same day I receive your letters." SM5DQC's address is: Osten Magnusson, Nyckelvagen 4, SE-59931 Odeshog, Sweden. ADDED NOTES: Phillipe, 9Q1TB, is on vacation until early August, and Osten has not yet received the latest log. Also, 9Q1D and 9Q1NT have gone QRT; 9Q1D is back in Sweden and 9Q1NT is in Belgium. QSL 9Q1D via SM5BFJ (direct only) and 9Q1NT via homecall ON5NT. The homecall of 9Q1D is SM5DIC.

AN, SPAIN (Special Event). Members and friends of Radio Club Henares (EA4RCH) will be active from September 1-16th with special callsigns during the EuroBasket 2007. Look for the following callsigns on all bands and modes: AN0EB, AN4EB, AN5EB, AN6EB and AN7EB. The callsign AN0EB will only be active on the days that the Royal HouseHold is present during any game. QSL via EA4RCH, direct or by the bureau.
A different QSL will be printed for each callsign. A special "HAM EUROBASKET 2007 AWARD" will be available to all stations or SWLs that work 4 different stations. More details are available at:
http://www.radioclubhenares.org

CE0Z, JUAN FERNANDEZ ISLANDS. Ulli, DL2AH, will be active as CE0Z/DL2AH from March 11-26th, 2008. Activity will be holiday style on 40-10 meters mainly on SSB and RTTY using a FT-897. QSL via DL2AH, direct or by the Bureau.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, informs OPDX that the following operation is approved for DXCC credit:
9U�X - Burundi; 2007 Operation
If you had cards rejected for this operation, please send an E-mail to

dxcc@arrl.org and you will be placed on the list for update.

FM, MARTINIQUE (Special Event). Members of the FM Ham Radio Association (FM.HAM.R.A.) will be active as TO1YR between July 29th and August 5th. Activity is to celebrate their annual Tour des Yoles Rondes de la Martinique. Operations will be on 80/40/20/17/15/12/10/6/2 meters on SSB, RTTY and PSK31. QSL via FM1HN.

FW, WALLIS ISLANDS (OC-054). Mike/KM9D and Jan/KF4TUG are currently active as FW0MO and FW0YL, respectively, from Nukutapu. FW0YL was heard in the IOTA Contest this past weekend. Length of stay is not sure (no date set). QSL for both cllsigns via OM2SA and LoTW.

HAMATLAS (WITH WAZ) ON THE WEB (Update)! Darek, SP6NVK, informs OPDX that he has now added "WAZ Zones" with full information about all zones and precise maps, especially in "difficult" areas like borders between Zones 2/4, 17/18 and 23/24. The WAZ Zone maps are available at:
http://www.waz.hamatlas.eu/
Darek has started this new ham atlas service on the Web after 4 years of work on it. This service contains the complete information on all 337 DXCC Entities, over 3000 pictures and 1100 maps. He hopes everyone will enjoy and be satisfied in using his service. The HamAtlas Web site is available at: http://www.hamatlas.eu/

IOTA NEWS.......................

EU-016. Giuseppe, IK5WWA, will be active as 9A/IK5WWA from Solta Island (ACIA IC-656, CIA-51, IOCA CI-126, MIA MC-389) from August 25th to September 1st. He will be on holiday there and plans to activate some of islands west of Solta Island. Activities will be on all HF bands (no 160m) with a dipole and vertical antennas. QSL via his home callsign.

EU-136. Leonardo, IW0QO, will be active as 9A/IW0QO from Losinj Island (CIA-25, ACIA IC-116, IOCA CI-058, MIA MC-204) from August 1-10th. Activity will be holiday style on 80, 40, 20, 15 and 10 meters. QSL via his home callsign, by the Bureau or direct to: c/o Sezione A.R.I. di Perugia, P.O. Box 113, 06100 Perugia - PG, Italy.

EU-167. A group of operators were active as CQ7P from Pessegueiro Island (DIP BA-001, DCFP F-043) during the RSGB IOTA Contest this past weekend. QSL CQ7P via CS1GDX (QRZ.com).

NA-137. Operators Cory/N1URA, Beckie/KB1IRZ, Bob/W1IF, Joe/W1SK and Steven/W1ZW will be active as N1URA from Seguin Island (USI "New One", Sagadahoc County, Maine) and lighthouse (ARLHS USA-746, TWLHD WLH K-148, WLOTA LH-0719, WW Loc. FN53CQ), August 11-12th. Activity will be QRP with CW stations at 5 watts and SSB stations at 10 watts. APRS callsign will be N1URA-LH. QSL direct to N1URA with a SASE number 10 size envelope to: Cory Golob, 63 Jordan Bridge Rd, Sabattus, Maine 04280-4200. See QRZ.com for more details.

KH9, WAKE ISLAND. Reports indicate that Mark, W4CK, hopes to be active from here for about two weeks beginning around August 19th. He has obtained the special callsign K9W and plans to be active mainly CW only. QSL via W4CK.

LIGHTHOUSE/LIGHTSHIP ACTIVITIES..................

A special radio station will be active as SN2NP during the ILLW between August 17-19th. Activity will be from the lighthouse in Gdansk Nowy Port. Operations will be on CW, PSK31, RTTY and SSB. QSL via SP2BIK, direct or by the Bureau.

Members of the Bahia Blanca DX Group will transmit again from five different lighthouses at the same time during the International Lighthouse/Lightship Weekend (ILLW) which will be held on the third weekend of August (August 17-19th). Look for the following lighthouses:

RINCON Lighthouse (ARG�036) -- Special Prefix/Callsign LR3DX will be used. Lat. 39� 23' S Long. 62� 01' W --- Grid Locator = FF80xo. Located in Verde Peninsula in Villarino County.

RECALADA Lighthouse (ARG-009) -- Each operator will use their own callsign plus �/D� because they are located in the Province of Buenos Aires. Lat. 39� 00� S Long. 61� 16� W. ---- Grid Locator = FF91ia. Located in Monte Hermoso. The tallest LH in South America and the sixth in the world.

BALIZA TRIPODE Lighthouse (ARG�1884), using the BBDXG callsign LU3DXG. Lat. 38� 53� S Long. 61� 58� W ---- Grid Locator = FF91ac Located at 30 Km. from the Puerto Belgrano Naval Base.

CABO BLANCO Lighthouse (ARG-001), using the official LH call LU6XA Lat. 47�12'S Long. 65�45'W --- Grid Locator = FE72dt Located in San Jorge Gulf, 60 Km. north from Puerto Deseado, Santa Cruz Province and 1420 Km. South from Bahia Blanca.

Activity will be on all bands and modes, including the Digimodes (RTTY, PSK, SSTV..). Contacts with Recalada, Baliza Tripode and Rincon Lighthouses will be valid for the "Province of Buenos Aires Lighthouses Award" organized by Bahia Blanca DX Group. (more info from: lu9esd@yahoo.com). All QSLs are via LU7DSY: Carlos Almiron, P.O. Box 709, 8000 Bahia Blanca, Buenos Aires, Argentina. If you want to send only one envelope with all cards, it�s "OK": Up to 2 QSL = 1 IRC. Up to 4 QSLs = 2 IRCs. Bahia Blanca DX Group Web site:

http://www.grupodxbb.com.ar

P4, ARUBA. Scott, W4PA, is planning to be active as P40PA (callsign applied for, but subject to change) during the CQ World Wide DX SSB Contest (October 27-28th) as a Single-Op/All-Band/High-Band entry. QSL via W4PA.

PIRATE ALERT. Mamuka, 4L2M, President of "The National Association Radioamateurs of Georgia", informs OPDX that "Today (July 24th) I received information from Mr. Zaza Gonjilashvili, (Amateur radio section officer of the GNCC - Georgian National Communication Commision), about cancellation of the Radioamateur license of the station 4L5A, Al Teimurazov. Since, 4L5A already is a pirate station."

QSL INFO AND NEWS....................

QSL routes provided by Johannes/DK8JB:

DA9L/p via DO1BEN
DL0IL via DL9GR
ER2KRT via ER2RM
GJ6YB via G3SWH (direct)

9M4SDX NEW ADDRESS. Tex, 9M2TO, QSL Manager for the 9M2SDX operation, informs OPDX that he has a new mailing address: Tex Izumo, P.O. Box 125, GPO 10710, Penang, MALAYSIA.

BS7H QSL STATUS. The 2007 Scarborough Reef DXpedition is pleased to announce that the first QSLs were mailed. Steve, KU9C, has received over 10,000 envelopes, so they expect it will take approximately 2 months before every card is answered. Please do not send for a second card until they announce all cards have been answered. Steve will also upload QSOs to LoTW as he processes the cards, so if you utilize LoTW, you can expect your QSOs to show up roughly the same time you receive your card. This will allow you to avoid mailing in your physical QSL card for verification. A small number of QSL cards were received with either no SASE or a SASE with old style IRCs that are no longer valid. KU9C will attempt to contact you via E-mail, but if he cannot contact you, these will be returned by the bureau. Steve will also upload bureau card QSOs to LoTW as they are processed.

GOLIST QSL MANAGER DATABASE HELP NEEDED. John, K1XN, from the GoList informs: "During my QSL Manager confirmation process, I have accumalated a list of QSL Managers for which I could not find a published E-mail address, or the E-mail address that I found is not valid and bounces mail. Listed below are some of those QSL Managers that I am having problems with. I hope that maybe they will read this message and take the time to update their E-mail address on QRZ.com or send them to me direct at: golist@gmail.com "

N8S QSL STATUS: Dragan, YT3W, announced last week that they mailed 2500 QSL cards. All QSL cards received up to June 1st have been answered. There were a total of 14,500 direct QSL cards answered and 1000 sent via bureau. They still have 2500 QSL cards to answer since June 1st. All will be mailed within the next 15 days. News about the N8S QSL cards can be found at: http://www.yt1ad.info/n8s/news.html

VU7LD ON LOTW (Special Note). When uploading your VU7LD QSOs into the "Logbook of The World" (LoTW), ONLY used the callsign VU7LD and not VU7LD/VU2xxx callsign. If you do not do this, your QSO will not be found in the LoTW. The appended /VU2xxx to the callsign VU7LD was to indicate who the operator was. This was reportedly required by Indian authorities but the actual license was "VU7LD".

YU6AO QSL STATUS: Dragan, YT3W, announced last week that all QSL cards received between January 29th and July 25th were processed and mailed July 27th (about 500 letters).

QSLS VIA LOTW: 7Z1HL, CT3EE, GM4WZL, IZ5DKJ, J5UTM, MM0BSM, PY3CQ, RX3AGD, UA3AGW, VU7LD and XE1MM

QSLS RECEIVED VIA MAIL: 3B6RF, 3B7SP, 9Q1EK, A92GR, BS7H, CW6V, E21YDP, FS/AH8DX, FY5KE, HQ7F, J8/W6JKV, K9A/ANT, KH6ND/KH5, KL7J, LA8EJ, N5T/ANT, N8S, NP3U, OA4SS, P29SX, S57RR, ST2R, TO6T/p, V63KU, XT2C and ZD9BCB

SPECIAL EVENT. Look for special event station N0T (November-Zero-Tango) to be active between August 4-12th, during the Oregon/California Trail Association National Convention. Activity is planned for as many HF bands as possible depending on propagation. Operations on 30 and 20 meters CW will be hit hard! They will also pay attention to the General portion of the Phone and CW bands. They would like to work many DX stations to impress the the many folks who will be attending the convention, so please spread the word. QSL via K0BLT with an SASE for an attractive QSL.

SPECIAL EVENT (911). Robert, W2IK, will again be operating special event station W2IK/WTC911 on September 11th, from 1300-0300z (9:00 AM-11:00 PM EST). He states that activity is "IN HONOR OF THOSE WHO LOST THEIR LIVES DURING THE WORLD TRADE CENTER DISASTER. I WILL BE USING MY PERSONAL CALL BECAUSE IT WAS THE FIRST CALL THAT WAS SENT FROM 'GROUND ZERO'." Look for activity on the upper portions of 40/20/15 meters SSB. QSL by sending a 9x12 SASE to the QRZ.com address of W2IK: PO BOX 6731, San Antonio, TX 78209. A special QSL certificate has been printed. Visit the following Web site to see W2IK's entire story:

T8, PALAU. Frank, I2DMI, and his wife Giovanna are planning a trip to Palau for the Christmas Holidays between December 25th and January 2nd (2008). He informs OPDX that he will be active as T88RY on the HF and WARC bands but only on RTTY. Activity will be limited because Frank states that this is a "DX HOLIDAY not a DXPEDITION because I am the only operator. I'll try to stay in the shack as long as possible, but I have to spend some time also with my wife visiting PALAU." More info will be available in September on QRZ.com (under T88RY). QSL via I2DMI: P.O.Box 55, 22063 CANTU', Italy.

V60, MICRONESIA (Just A Reminder!). Six members of the Japan Amateur Radio League (JARL) Kyoto Club, will be planning a DXpedition to the

Federated States of Micronesia (FSM) this summer. This is one of the events celebrating the club's 60th anniversary. Activity will be from the South Park Hotel on Pohnpei Island (OC-010) between July 30th and August 5th. Operations will be on 160-6 meters CW/SSB/FM/RTTY/PSK31, depending on the band conditions. The team has been allowed to use the special, brand new V60 prefix to celebrate their club's 60th anniversary (thanks to Mark DeOrio, Frequency Manager at the FSM Department of Transportation, Communications & Infrastructure). Look for the following callsigns (w/QSL routes) to be used:

Callsign	Operator	QSL route	Callsign	Operator	QSL route
V60YAQ	Club Stn.	JI6DUE	V60KL	Kenji	JN3JBC
V60DU	Hidenori	JI6DUE	V60TI	Tetsuya	JA3UWB
V60IL	Masato	JF3PLF	V60TX	Shozo	JH3TXR
V63JJ	Kazuo	JA3ART			

All operators accept QSL card(s) via the bureau. Visit their Web page at: http://www.ja3yaq.ampr.org/v6/

VK9C, COCOS-KEELING ISLAND (OC-003). Bernd, VK2IA, will be active as VK9AA during the CQWW DX CW Contest (November 24-25th). His operating class will be announced later. QSL via DL8YR (QRZ.com).

VK9L, LORD HOWE ISLAND. Tomas, VK2CCC (LY1DF), will be active from here between November 20-27th. His callsign is not yet confirmed, but it should be VK9L(something). Activity will be focused on the low bands, mainly CW and an entry in the CQWW DX CW Contest (November 24-25th). QSL via the LoTW or via LY1F. Visit his Web page at:

http://www.qrz.lt/ly1df

VO1, CANADA (Special Event). Members of the Amateur Radio Club of Central Newfoundland will activate special event station VO1GAM until August 31st. Activity is to commemorate the 70th anniversary of the first transatlantic experimental commercial flight (on July 5, 1937) between Botwood, Newfound, and Foynes, Ireland. Activity will be on all bands. QSL is "OK" via the Bureau or direct to VO1MX. One of the main operators for this event is Jason, VO1JNS.

WH2, GUAM (OC-026). Mike, K3UOC, who was active this past weekend as WH2D during the IOTA Contest, took time out of the contest to inform OPDX that he (and his family) are now living and working in Guam. He suggests to read his current bio and operating information under WH2D on QRZ.com. There you will also see a nice photo of him and the kids from the school's radio club. Mike operates from the school's radio club (WH2D). He states that he works 90% CW and works whatever HF bands are open. Mike will also QSX for EU and NA when the bands open -- "which doesn't happen often". He also makes token appearances in most major and regional contests and always works transceive and never works split. Mike adds, "I attempt to work the deserving on all 9 HF bands.... which is a pretty lofty goal, but it's what keeps the pileups fun for me." Lastly, he informs, "I've been on the air for nearly a year now from WH2D (St. John's School ARC) running 100W to a Cuschcraft R-7000. The plan for this year is for a new hex beam, add some power, and boost my QSO total. Last school year, I made 6,000 contacts. This school year I hope to do 10,000 contacts. Work and family duties keep me away from the radio except mostly on weekends." QSL WH2D via K3UOC, direct or by the bureau. LAST MINUTE NOTE: Just before going to print, Mike E-mailed OPDX again and mentioned he wrote an article for their school's Web site about the club and the activity at WH2D. You may find this interesting. There are some CW sound bites there. Visit: http://www.stjohnsguam.com/main/index.php?option=com_content&task=view&id=269&Itemid=124

ZL7 & ZL9, CHATHAM AND AUCKLAND/CAMPBELL ISLANDS. It was announced this past weekend that Wilbert, ZL2BSJ, will take part in an oceanographic mission as technician near ZL7 and ZL9 on board of a research vessel called "R/V Tangaroa" in January 2008. More details later.

No.
Just lucked out that it was the IOTA contest and gotten a DX bulletin
that W7ASF was going to be in KL7 for it.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

6C60, SYRIA. Look for Syrian hams to use the special prefix 6C60 to celebrate the 60th anniversary of amateur radio in Syria during the period October 15th to November 15th on all HF bands.

AM/AN/AO/EG7, SPAIN. Members of the El Grupo RASE DX will be on the air between September 3-16th, to celebrate the centenary of the "I Centenario of the Royal Betis" football club in Spain. They are expected to use the special prefix AM, AN and AO, and the special event station EG7CRB during this event. Activity will be on VHF and HF bands, CW, SSB and the Digital modes. A special diploma and QSL card is available. For more details about the event, visit the Web page: http:/www.rasedx.com

CE0Z, JUAN FERNANDEZ ISLANDS (Change). Ulli, DL2AH, will be active as CE0Z/DL2AH from March 18th to April 7th, 2008 (not March 11-26th as first announced; this is due to airlane flight problems). Activity will be holiday style on 40-10 meters mainly on SSB and RTTY using a FT-897. QSL via DL2AH, direct or by the Bureau.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, informs OPDX that the following operation is approved for DXCC credit:
    9U�X - Burundi; 2007 Operation
    BS7H - Scarborough Reef; 2007 Operation
    J5UAR - Guinea-Bissau; 2007 Operation
  If you had cards rejected for this operation, please send an E-mail to dxcc@arrl.org and you will be placed on the list for update.

FP, ST. PIERRE AND MIQUELON. Operators John/W9ILY and Bob/K9MDO will be going to Miquelon (NA-032) and be active as FP/W9ILY and FP/K9MDO. John informs OPDX that the operations will begin on Thursday, September 13th (or possibly the evening of Wednesday, September 12th) and continue through Tuesday, September 18th. Operations will be from the famous MAXOTEL that has been used by several previous DXpeditions. Activity is planned for all bands 80-10 meters. They will be concentrating on SSB (primarily FP/K9MDO) and RTTY/PSK (primarily FP/W9ILY). Their equipment will be two TS-570D(G) rigs, 100 watts and no amps, and they plan to use the antennas that were donated by previous DXpeditions. Due to the strict weight restrictions of Air St. Pierre, they believe that 100 watts with good verticals at the sea will provide good, workable signals. QSL routes are as follows:
 FP/W9ILY - QSL direct or by the Bureau. Contacts will be uploaded to LoTW ASAP following the DXpedition.
 FP/K9MDO - QSL via W9NJB direct or by the Bureau.
John states, "This will be a 'laid-back' type of DXpedition to give us and the DX community the maximum enjoyment. Thus, we do not envision a 24-hour operation, especially with only two operators."

GB, ENGLAND (Special Event). Robert, G8ATE, states, "A small group of satellite enthusiasts in the East Midlands of England are planning to operate a special event (GB) station to celebrate the forthcoming 50th anniversary of the world's first Earth orbiting satellite SPUTNIK ONE from October 3rd for one month." More details are forthcoming.

IOTA NEWS..................

AS-039. Operators Vlad/RV1CC, Yuri/RA0FU, Serge/ UA1ANA, Oleg/UR3IFD, Victor/RV2FW, Valery/UA0ZC, Serge/UA0ZAZ, Alex/UA0ZCC and Elena/RV3ACA will be active as RK1B/0 from Bering Island, August 9-14th. AS-151. Operators BY1TT, BD1PTA, BA3CE and possibly others will be active as homecall/2 from Juhua Island between August 10-12th. QSL via BD1PTA.

EU-003. Falko, DG1WIM, will activate the Island of Sao Miguel (AZ-002 for the Portuguese Islands Award, WLOTA LH-2016) as CU2/DG1WIM between now and August 14th. Operations will be holiday style. QSL via his home callsign, direct or by the bureau.

EU-025. Alberto, IT9MRM, will be active as IT9MRM/p from Isola delle Palme (IIA SR-010, MIA MI-266) between August 6-8th. Activity will be on the HF bands SSB. QSL direct or by the bureau.

EU-030. Jens, DL8WOW, will be active as OZ/DL8WOW from Bornholm Island (BO-001 for the Danish Islands Award, WLOTA LH-2203) between now and August 17th. Activity will be on 40-10 meters, mainly CW, using a FT-897 with 100 watts. QSL via his home callsign.

EU-054. Operators Raffaello/IT9ATF, Gianni/IT9ORA, Renato/IT9NPR, Pippo/IT9PPG, Giuseppe/IT9RZU and Pino/IT9WDC will be active as IF9A from Favignana Island (IIA TP-011, MIA MI-025, WLOTA LH-1545), between October 26-28th, for the CQWW DX CW Contest. Activity will be on all bands and modes. QSL via IT9ATF.

EU-055. Operators Henk/PA3FMC and Ruud/PE1BTV will be active as LA/PA3FMC from the lighthouse (ARLHS NOR-264, WLOTA LH-2373, WW Loc. JP21GA), on Utvar Island, August 16-22nd. They will participate in the International Lighthouse/Lightship weekend. Activity will be on all HF bands using SSB and BPSK, plus 2 and 6 meters with meteor scatter. QSL via PA3FMC (QRZ.com). Further information can be found at: http://la2007.dxpedition.nl/

EU-175. Operators Jorge/CT1FMX, Mary/CT1YTS and Jose/CU3EQ will be active as CU3F from Terceira Island (AZ-003 for the Portuguese Islands Award, WLOTA LH-0524, WW Loc. HM68KP), Azores, between now and August 9th. Activity will be on 80-6 meters CW, SSB, PSK31 and RTTY. QSL via CT1FMX, direct or by the bureau.

NA-041. Rick, K6VVA, will be active as K6VVA/KL7 from Revillagigedo Island (USI AK141S, WW Loc. CO45IP, 1st South Eastern County, Alaska), September 7-9th. Activity will be holiday style on 40/30/20/17 meters primarily on CW. He plans to operate in the CW Sprint Contest. QSL via N6AWD. More information is available at: http://www.k6vva.com/iota/na041/

NA-083. Operators Dave/W4SAR and Joe/K4SAR will be active as W4SAR/p from Chincoteague Island (USI VA002S, WW Loc. FM27HW, Accomack County, Virginia) from 0100z August 12th to 0100z August 24th. Special note: Look for sporadic activity on 6m SSB and on 20m SSB and 20m PSK31. QSL direct to W4SAR (QRZ.com).

NA-140. Page, WA3EOP, will be operating mobile from Kent Island (USI MD004S, WW Loc. FM18UW, Queen Annes Couty, Maryland) on August 11th (1600-1800z). Activity will include the MDC QSO Party. He plans to use both 40 and 20 meters, perhaps both SSB and CW from the mobile. Suggested frequencies are: 7230, 7060, 14266 and 14060. Most activity will be SSB, and if there is any CW it will be slow speed. QSL via his home callsign.

OC-142. Steve, G0UIH, will be active as VK2IAY/4 from Great Keppel Island, December 16-22nd. As with previous DXpeditions the main operation will be centered around 14260 kHz, but with some possibility of 15/17 meters operations. His equipment will be an IC-706MK2G with homebrew wire dipoles. QSL either direct or by the bureau. Check out the website for further details at:
http://www.percy.me.uk/

OC-160. Steve, G0UIH, will be active as VK2IAY/4 from South Molle Island, January 7-11th (2008). As with previous DXpeditions the main operation will be centered around 14260 kHz, but with some possibility of 15/17 meters operations. His equipment will be an IC-706MK2G with homebrew wire dipoles. QSL either direct or by the bureau. Check out the website for further details at:
http://www.percy.me.uk/

IPY STATION. Look for Charles, M�OXO, to again activate the special event station GB4IPY between August 30th. Activity is to celebrate the "International Polar Year (IPY)". The International Polar Year Events run until 2009 and has been set up to raise awareness about the plights of our Polar Regions in respect of Global Warming and other matters of interest. The GB4IPY station is the only station active from the U.K. and for the World-Wide Antarctic Program it has a reference number of WAP-098 for the WAP chasers. The station will be active on the HF bands and 6m using SSB, CW and PSK31 modes several times each week. There is also a new award now available by the operator and can be claimed for working a combination of GB4IPY and GB0ANT stations on various bands and modes. Details about the GB4IPY/GB�ANT award can be found on M�OXO Web site at:
http://charlesm0oxo.piczo.com/
There are three levels ranging from a certificate to a trophy.

ISWL ACTIVITIES. Pete Rayer, ISWL Life Vice President, reports the following stations will be active using special ISWL club callsigns:
August Operations:

GX4BJC/A - Operated from Towcester, in Northamptonshire, by Phil, G4DMS (WAB Square = SP65 NHM). Phil will also be on the ISWL stand at the Wimborne Hamfest on August 12th. Group photographs will be taken around noon.

MX1SWL/A - Operated from Skegby, Nottinghamshire, by Merv, G0UJD. (WAB Square = SK56 NOT).

All QSL info is on www.iswl.org.uk or QRZ.com or via eQSL.cc. NO LOTW.

JD1/O, OGASAWARA (Real Early Announcement). Koya, JI5RPT (JD1BLY), and possibly others (using JD1 callsigns) will be active from Chichijima Island (AS-031) between February 13-28th. Activity will be on 160-6 meters on CW, SSB, Satellites and Digital modes. They will focus on 160 and 80 meters. QSL via their home callsigns. Meanwhile, Koya, JI5RPT, will be active as JD1BLY during the ARRL DX CW Contest (February 16-17th) as a Single-Op/ All-Band entry. QSL via JI5RPT. For more details and updates, visit the Web page at: http://www.ji5rpt.com/jd1/

KH3, JOHNSTON ISLAND. Skipper of the USSV Dharma, Susan Meckley, W7KFI, who was expected to depart sometime last week for Johnston Island (OC-023, USI OI-006), has once again postponed her departure. Susan informs OPDX (as she apologizes to everyone) that it seems the hurricane weather coming from the Mexican area does not look good. Apparently, she started to head out and heard about hurricane Erik. The hurricane was heading her way and it was expected to pass to the south. Susan states, "I am heading into Honolulu for the hurricane season...it ends in Nov. If there is a break in the WX then I will schedule to KH3."

LIGHTHOUSE ACTIVITIES (ILLW is August 18-19th)..............

Members of the "RADIO CLUB URUGUAYO" will activate "Faro Puerto del Buceo West Breakwater" (ARLHS URU-014, 34�54'35"S - 56�07'51"W, GF15wc), during the upcoming ILLW activity, August 18-19th. Activity will take place from Friday, August 17th, 2200z until Monday, 20th 0100z, on all bands from 160-10 meters on CW and SSB with at least two stations using the special callsign CV1AA. If possible, some digital modes and VHF 2 meter operation will also be active too. QSL for this activity only DIRECT to: Radio Club Uruguayo, P.O.Box 37,11000, Montevideo, URUGUAY, SOUTH AMERICA, with SASE and IRC or 2 green stamps.

Members of the Associacao de Radioamadores da Vila de Moscavide will be signing CT1RVM/p during ILLW 2007 from Cabo Raso Lighthouse - reference number ARLHS POR011. This activity will also be valid for the Portuguese Lighthouses Award (Reference number DFP FES04), and the Portuguese Castles and Fortresses Award (Reference number DCFP F141 - Forte de Sao Bras). Activity will be on 40, 20, 15 and 10 meters, SSB. Look for them near the World Lighthouse frequencies. Suggested SSB frequencies (+/- 20 khz) are: 7070, 14270, 21370, 28370 kHz. QSL will be sent 100% via the Bureau to confirm all contacts. For more info, visit:
http://www.arvm.org/index_l2007.html

Members of the "Bittern DX'ers" will activate for the 5th time GB2BML "Blakeney Mariner's Light" for the ILLW 2007, on the weekend of August

18-19th. Reference number is #ENG-292 first issued in 2003. Activity will be on all bands and most modes. They have new QSL for this year! Visit the Bittern DX'ers Web page at: http://www.bittern-dxers.org.uk

Look for TC1LHW to once more be on the air from Karaburun Lighthouse (TUR-036) during the International Lighthouse/Lightship Weekend (ILLW). Operators will be Leonardo/TA1FR and Tevfik/TA1HZ. Detailed information is available at:
http://tc1lhw.tripod.com/index.html
Also see: http://www.qrz.com

Look for TA2RX to activate the Taslik Gelidonya Lighthouse (TUR-049) for the first time during the ILLW. There is no electricity or generator there. Due to the hard conditions to reach the lighthouse - nearest road suitable for vehicle traffic is 2 kms away - the operator will be operating QRP, using a car battery (He has to carry all the equipment for 2 miles on foot). Operations will be only 20 and 40 meters. So watch out for this QRP DXpedition.

Station W2T will be activated by members of the Old Barney ARC from the Tucker's Island Lighthouse (ARLHS USA-911) on Saturday, August 18th, from about 1300z through 2100z. QSL via N2OO. Visit the following Web pages:
Old Barney ARC: http://www.obarc.org
Tucker's Island Lighthouse: http://www.tuckertonseaport.org

QSL INFO AND NEWS....................

3Y0X ON LOTW! QSL Manager Bob Schenck, N2OO, announced that the 3Y0X logs has been uploaded to LoTW as of August 3rd, 2007.

QSL AM1HQ, AM2HQ, AM3HQ, AM4HQ, AM5HQ, AM7HQ via EA4URE.
QSL AM3A via EA3FHP.

CORRECTION: In OPDX.818, under - UPDATE on "Has anyone received XU7ADB QSLs yet?" Bruce, AA9RN, stated that he has received his QSL from EA4URE from the October 2000 operation. Bruce now tells OPDX that he was wrong on the QSL info, and he is sorry for the false info.

GOLIST QSL MANAGER DATABASE HELP NEEDED. John, K1XN, from the GoList informs: "During my QSL Manager confirmation process, I have accumalated a list of QSL Managers for which I could not find a published E-mail address, or the E-mail address that I found is not valid and bounces mail. Listed below are some of those QSL Managers that I am having problems with. I hope that maybe they will read this message and take the time to update their E-mail address on QRZ.com or send them to me direct at: golist@gmail.com "

VK9DNX QSL STATUS. Mario, DJ2MX, reports: "I would like to inform you about the status of VK9DNX direct QSLs. On last Friday (July 27th) the last big batch with VK9DNX cards has been sent out. The next step will be processing of all requests received via OQRS (Online QSL Request System) followed by answering the bureau cards. Please notice that 3 USDs or 1 IRC are sufficient for return postage to destinations outside of Europe. Once again the VK9DNX team wants to thank you very much for your support and donations. The planning of the next DXpedition just started.....73"

YI1BGD QSLS. Paul, ON6DP, received the following mail from YI1IRQ, from the Society I.A.R.S. (Baghdad, Iraq) stating that they "lost the logbook of YI1BGD for the last perioud after 2003". The location of their old club has been looted and all papers burned. No one was there "to keep the log safe at that time (it was war)." They still suggest to send QSLs to their QSL Bureau (P.O.Box 55072, Baghdad - 12001, Iraq) and they may be able to find a way to answer some of them (for YI1BGD). They will send the QSLs to people who visited their club station at that time before 2003. Operators like G0TLC and OM6TX who used that callsign sometime, and they may have a copy of the log.

Nilay, TA3YJ, reports that the YM1907FB online log has been updated at:
http://dx.qsl.net/cgi-bin/logform.cgi?ym1907fb

CALLSIGN CHANGE! Chris informs OPDX, "After 14 years of being Z31GX, I have changed my callsign to Z35X as of August, 1st 2007. 73 and greetings from Macedonia de Chris, Z35X (ex. Z31GX)"

QSLS VIA LOTW: 1A0KM, 3Y0X, BS7H, E30NA, OH1MA, OJ0/SM0EPO, SK3GM and ZF1A

QSLS RECEIVED VIA MAIL: 1A4A, 5W0JT, 5W0RE, 5X1Z, 6V7F, A92GR, BS7H, FK8CP, N8S, TR8CA, VK9DNX, YA/LY1Y and ZK1VVV

P4, ARUBA (Special 911 Event). Earlier this year, Bob/W3BTX (P49T) and Roy/W3TEF (P4/W3TEF) requested a special prefix that could be used over the upcoming anniversary of the September 11, 2001, attack on the USA. On Saturday, August 4th, the government of Aruba issued their requested callsign P41USA for the period of September 1-15th, 2007. In addition, they also received permission to use several photos taken at NYC by the National Park Service for their special prefix QSL card. The QSL card will also mention that they are affiliated with the PVRC. Bob and Roy will be operating 160-6 meters (including the WARC Bands) at various times during this period using the special callsign. It's possible that several bands will be operating at the same time. All QSLs should go to Roy, W3TEF, (direct with SASE or via bureau).

ST2A QRT. Boris, T93Y, informs OPDX that after 40,660 QSOs logged as ST0RM and ST2A, operator Jovica's, T98A (ex. T94FC) assignment in the Sudan has

come to an end. During the past two years spent in the Sudan, Jovica has made 35,012 QSOs on CW, 3386 on SSB, 2249 on RTTY and 13 on PSK31. He also provided many new ones working 843 QSOs on 160m, 3916 QSOs on 80m and 585 QSOs on 6m. Some of the pictures which illustrate living and working conditions in Sudanese desert environment are available at:
http://www.t93y.com/st2a
Jovica's new assignment with UNHCR (United Nations High Commissioner for Refugees) is in Dakar, Senegal, and will start on September 1st. Details about his activities will be forthcoming once he has time to settle in at his new location. Being in the regional office of the UNHCR, Jovica's work area covers the whole western part of Africa and he hopes to activate most of countries in the region. Boris, T93Y, states, "Information about HAM activity from countries other than Senegal will be distributed accordingly. Jovica thanks DXers for the QSOs from Sudan and hopes to see you on the bands from Senegal."

SV9, CRETE (EU-015). Look for Marc, ON7SS/OO9O, to be active as SV9/OO9O/p from here during his holiday between August 7-17th. Bands and modes of activity were not provided. QSL via ON7SS, direct or by the bureau.

T31, CENTRAL KIRIBATI ISLAND (Possibly Also T33). Toshi, JA8BMK, plans to be active from Kanton Island (OC-043) as T31XX in late October. He plans to stay there for about a couple of weeks (minimum 1 week). Activity will be on 160-6 meters, CW, SSB and RTTY. He has started to prepare for activity and has sent necessary equipment like a generator, food, antennas, ...etc. to Tarawa, in Western Kiribati. Toshi is scheduled to leave Japan sometime in September and will head towards Western Kiribati (T30) via Fiji (3D2). He will leave T30-land for T31 in mid-October. It will take Toshi a week's sailing trip to reach Canton Island. If Toshi has some extra time, there is the possibility he will visit Banaba Island (OC-018) and operate as T33ZZ before or after the T31 operation. QSL via his home callsign.

W9DXCC APPROACHING. Start planning for the 55th W9DXCC DX Convention/Dinner Banquet. The event will take place on September 15th. Details are available at: http://www.w9dxcc.com/

Z360, MACEDONIA. Look for members of the well known contest Radio Club "Nikola Tesla", Z37M (ex.Z30M), to use the special callsign Z360M (Z-three sixty-M) from August 1st to the end of the year. Activity is to celebrate the 60th anniversary of the Radio Club Nikola Tesla in Stip, Macedonia.

2007 ARRL Great Lakes Division Convention

"Ham Radio Alive and Well in Northern Ohio"

Something special is taking place late September. For the first time (so they say) the American Radio Relay League (ARRL) will be holding their Great Lakes Division Convention (GLD) on September 22nd in Independence, Ohio. The GLD Convention is usually held every two years in different cities, so this year it is in the Cleveland area (the day before the Cleveland Hamfest). So, what goes on at a convention? Sponors, many informative Seminars, Hospitality Room, Award presentations, Dinner Banquet with a guest speaker, Prizes, Special Ceremonial of "The Royal Order of the Wouff Hong" and a great time with plently of camaraderie with other hams.

It all starts Friday evening (September 21st) at the Sheraton Independence Hotel with early registration and a Hospitality Room provided by the Cuyahoga Amateur Radio Society (CARS), Lake Erie Amateur Radio Association (LEARA) and the Northern Ohio DX Association (NODXA).

On Saturday morning there will be continued registration, sponsor tables, and the hospitality room will open at 9:00 a.m. The hospitality room will host card checking and free refreshments both Friday evening and Saturday morning.

Opening ceremonies begin at 11:30 a.m. The first seminar will start at noon with Bob Heil/K9EID and Chip Margelli/K7JA in a joined two room session. Bob�s, K9EID, pioneering work in the Amateur Radio world has led to significant improvements in audio quality throughout the industry. His company, Heil Sound, is the leading manufacturer of microphones and boom-sets for the world of Ham Radio. Chip, K7JA, has been active in DXing for over 42 years. You may have seen him on the Tonight Show with Jan Leno competing with (and defeating) the U.S. Champion cell-phone text messenger in a message-completion speed contest.

The room wil then be divided into two rooms. One room will go into an intense DX session, and the other will cover 3 different amateur radio interests seminars.

1:00-1:10 P.M.: Tedd/KB8NW (NODXA President and Editor of the OPDX) will open and moderate DX seminars. Guest speakers will include (times may vary):

1:10-1:45 P.M.: Bernie McClenny/W3UR Editor of "The Daily DX and Weekly DX" and QST�s "How�s DX?" column. He will give a talk on the "History of DX from the beginning to today".

1:45-2:10 P.M.: Don Karvonen/K8MFO, Ohio�s number one DXer who is in the top ten of the ARRL�s DXCC Challenge, is expected to give talk about 6 meter DXing.

2:10-2:40 P.M.: John Papay/K8YSE, one of the KH8SI operators, will talk about activating Swains Islands as a brand new DXCC entity.

2:40-3:25 P.M.: Bob Allphin/K4UEE, recently appointed DXAC Chairman, will talk about the DXAC and his recent VU7RG activity.

3:30-3:55 P.M.: DX seminars will end with a question and answer panel consisting of KB8NW, K8YSE, K4UEE, K8MFO, K4ZLE, W3UR and possibility others.

Other seminars (second room) taking place:

1:00-1:55 P.M.: ARRL EmComm speaker from Headquarters will discuss emergency communications and the National Emergency Response Planning Report. Speaker will be newly appointed Dennis Dura, K2DCD. He is their new ARRL Emergency Preparedness & Response Manager. Visit the ARRL Web site and read more about Dennis, K2DCD, at: http://www.arrl.org/news/stories/2007/07/31/101/?nc=1

2:00-2:55 P.M.: ARDF by Bob Frey/WA6EZV and Dick Arnett/WB4SUV. Lots of great equipment will be demonstrated and on display. Photos and information from International Competitions will also be available.

3:00-3:55 P.M.: Jim Sanford/WB4GCS Amsat�s Eagle Satellite Project Manager will discuss new developments and talk about what the new Eagle high orbit satellite will mean for everyone.

4:00 P.M.: Seminar rooms will once again be joined and will close with Tim Duffy/K3LR, an expert on Antennas/Contesting. He will talk about his K3LR Multi-Multi Contest Station. Many of you may have seen his station while traveling on I-80 when in Pennsylvania near the Ohio line.

6:00 P.M.: Great Lakes Division Director Jim Weaver/K8JE will present the Great Lakes Division Awards on the 2nd floor in the Independence Room. Please consider nominating a fellow ham for one of these awards by visiting:

http://www.2007gldc.org

The banquet will start at 7:00 P.M. where the President of the ARRL, Joel Harrison/W5ZN will be the keynote speaker. Following the banquet the top secret Wouff Hong ceremony will begin for any interested ARRL Member.

Please support this great event by attending. Sponsors have helped make ticket prices lower than usual. Advanced sale tickets are available for purchase online at www.2007gldc.org along with complete information and any late news or changes.

DX-MB 1531 - 8.8.2007
DX Mitteilungsblatt
DARC-Referat fuer DX und HF-Funksport
Editor: Helmut Schlaffer, DL7MAE

(e-mail: dxmb@dxhf.darc.de)
(http://www.darcdxhf.de)

BY - Volksrepublik China: Vom 10. bis 12.August wird ein groesseres Team von der Insel Ju Hua (AS-151) erwartet. BY1TT/2, BD1PTA/2, BA3CE/2 und andere OPs sind mit dabei.
Der QSL-Manager fuer saemtliche Teilnehmer ist BD1PTA.

DU - Philippinen: Hans,DL5SDF, haelt sich vom 10. bis 28.August auf Mindanao (DU9) auf. Eine Lizenzzusage liegt bereits vor, nicht jedoch das Rufzeichen. Hans benutzt Drahtantennen, funkt mit 100 Watt und ausschliesslich in CW. QSLs (Buero bevorzugt) sind an DL5SDF zu senden.

IS0 - Sardinien: Gleich zwei Aktivitaeten beginnen in dieser Woche auf Sardinien: Stefano,IM0/IK5XCT, wird noch bis 13.August die Insel Maddalena (EU-041, IIA OT-008) aktivieren. Buero-QSLs ueber ihn koennen auch per E-Mail oder bei http://www.qsl.net/ik5xct angefordert werden.

Vom 8.-20.August sind Gerry,IS0/IZ1DSH, und Giovanni,IS0/IK1WEG, von EU-024 in SSB und CW von 6-40m in der Luft. Abstecher zu den Inseln Spargi (IIA OT-021, EU-041) und Caprera (IIA OT-012, EU-041) sind auch geplant. QSLs an die Heimatrufzeichen, Buero ist ok.

KH2 - Guam: Mike,K3UOC, arbeitet und lebt mit seiner Familie seit etwa einem Jahr in Guam (OC-026). Mike, der dort als Lehrer beschaeftigt ist, hat die Moeglichkeit, von der Schul-Clubstation WH2D zu funken. Er ist zu 90% in CW zu finden und kuendigt Aktivitaet auf allen neun Kurzwellen-baendern an, wann immer es seine Zeit und die Bedingungen erlauben. Auch an allen groesseren Contesten will er sich beteiligen. Nach 6.000 QSOs im vergangenen Schuljahr, hofft er diesmal mit zum Ziel gesetzten 10.000 QSOs noch erfolgreicher zu sein. Dazu will Mike demnaechst eine Endstufe betreiben und neben der vorhandenen Cuschcraft R-7000 noch einen Hex-Beam aufstellen. Mike sitzt meist an Wochenenden an seinem Radio und kuemmert sich auch um die QSL-Karten, die direkt oder ueber das Buero an K3UOC geschickt werden sollen. Auf der Webseite der Schule findet man einen Artikel, den Mike ueber seine Amateurfunkaktivitaeten auf Guam geschrieben hat, sowie mancherlei andere interessante Infos: www.stjohnsguam.com/main/?option=com_content&task=view&id=269&Itemid=124

KH3 - Johnston: Susan,W7KFI, war mit ihrer Yacht bereits wieder auf dem Weg nach Johnston, als Hurrikan Erik ihr einen Strich durch die Rechnung machte. Sie segelte wieder zurueck nach Honolulu und wird erst im November, nach der Hurrikan-Saison erneut einen Versuch unternehmen, nach KH3 zu segeln.

OH0 - Aland-Inseln/JW - Svalbard: Vom 7.-12.August weilt Juergen,OH0/DJ3KR, auf den Aland-Inseln und nimmt am 11./12.August auch am CW-Teil des WAEDC-Contestes teil. Anschliessend reist er weiter nach Svalbard, wo er als JW/DJ3KR vom 15.-26.August zu erreichen sein wird. QSL-Karten gehen an sein Homecall.

ST - Sudan/6W - Senegal: Jovica,T98A (ex T98A), war zwei Jahre im Sudan taetig und loggte in dieser Zeit als ST0RM und ST2A ueber 40.660 QSOs, die Mehrzahl (35.012) davon in CW. Einige Fotos hat er auf seiner Homepage online gestellt: http://www.t93y.com/st2a
Sein Job bei der UNHCR (die UN-Fluechtlingsorganisation) verschlaegt ihn ab dem 1.September nach Dakar, in die senegalesische Hauptstadt. Er wird aber nicht nur im Senegal zu tun haben, sondern im gesamten westafrikanischen Raum. Man darf also auf Aktivitaet aus diversen Laendern in der Region durch T98A hoffen.
Sein QSL-Manager T93Y bestaetigt QSL-Karten stets sehr zuverlaessig.

XX9 - Macao: Hide,JM1LJS, plant eine neuerliche Aktivitaet als XX9TJS, voraussichtlich vom 10.August, 0900 UTC, bis 13.August, 1100 UTC. Er macht CW und SSB von 10-80m und wuenscht QSLs direkt an JM1LJS.

Z3 - Mazedonien: Vierzehn Jahre lang war OM Chris mit seinem Call Z31GX in der Luft gewesen. Seit dem 1.August hat er mit Z35X ein neues Call. DJ0LZ, der QSL-Manager beider Rufzeichen, bestaetigt leider nur direkt.

Vom 1.August bis zum Jahresende benutzt der Radioclub "Nikola Tesla" Z37M das Sonderrufzeichen Z360M. Grund hierfuer ist das 60-jaehrige Bestehen des Radioclubs.

4O - Montenegro: Emir,9A6AA, plant als 4O6AA von der Insel Sveti Nikola (EU-163, LH 1097) zwischen dem 13. und 19.August Betrieb zu machen. QSL-Karten �leider nur direkt� wuenscht Emir ueber sein Homecall.

9Q - Demokratische Republik Kongo: Nachdem 9Q1D zurueck in Schweden und 9Q1NT zurueck in Belgien ist, ist Georges,9Q1EK, momentan die einzige aktive und DXCC-anerkannte Station im Kongo, so sein QSL-Manager Osten,SM5DQC. Die 9Q1EL-Logs koennen auf http://www.logsearch.de abgefragt werden. Noch waehrend des Monats August kommt Phillipe,9Q1TB, wieder von seinem Heimaturlaub zurueck. SM5DQC ist auch der QSL-Manager von Philippe und er weist darauf hin, dass er nur auf direktem Wege QSL-Karten bestaetigt und dass er in Schweden mit dem EURO nichts anfangen kann, da dieser in Schweden nicht eingefuehrt wurde. Karten fuer 9Q1TB und 9Q1EK sollen an die folgende Adresse gesendet werden:
SM5DQC, Osten Magnusson, Nyckelvagen 4, SE-59931 Odeshog, Schweden.

Pazifik: Toshi,JA8BMK, macht sich im September auf den Weg nach 3D2, T30, T31XX und evtl. noch T33ZZ und sucht dabei noch Mitstreiter, um die Kosten niedriger halten zu koennen. Sollte jemand Interesse haben, kann er sich mit ihm per e-mail (fuku-t20@amber.plala.or.jp) in Verbindung setzen.Alle Rufzeichen wurden ihm bereits vor laengerer Zeit zugeteilt. Spenden sind willkommen, mehr Einzelheiten erfahren Sie im DX-MB, kurz bevor die DXpedition starten wird.

Frankreich, Sonderrufzeichen: Den 150.Geburtstag von Heinrich Rudolf Hertz feiern franzoesische Amateurfunker mit der Sonderstation TM2HRH vom 6. bis 19.August. QSL-Karten gehen ueber das REF-Bureau an F6KTN.

Kanada, Sonderrufzeichen: Mitglieder des "Amateur Radio Club of Central Newfoundland" benutzen noch bis 31.August das Call VO1GAM. Damit will man an den 70.Jahrestag erinnern, an dem der erste kommerzielle Transatlantikflug (5.Juli 1937) von Botwood (Neufundland) nach Foynes in Irland stattgefunden hatte. Aktivitaet ist auf allen Baendern angekuendigt und QSL-Karten via Buero oder direkt sollen an den Manager VO1MX gesendet werden.

Polen, Sonderrufzeichen: SN2NP ist vom 17.-19.August vom Danziger Leuchtturm in CW/PSK31/RTTY/SSB in der Luft. QSL via SP2BIK, Buero oder direkt.

---

SP5VYI, SP5X, SP5IUK und SP5GRU sind noch bis 30.September OPs an der Sonderstation 3Z90ZIM. Betrieben wird diese in Przasnysz, wo die oertlichen Pfadfinder ihr 90-jaehriges Gruendungsfest feiern.
QSL via SP5ZIM oder SP5X.

DXCC: QSL-Karten von J5UAR (Guinea-Bissau, Operation 2007) werden ab sofort fuer das DXCC-Diplom anerkannt und koennen dem DXCC-Desk zur Pruefung vorgelegt werden. Wurde die Karte frueher bereits zurueckgewiesen, soll man den Sachverhalt per e-mail an dxcc@arrl.org der ARRL mitteilen.

DXNL 1531 - Aug 8, 2007
DX Newsletter

a free and weekly service of
DARC Committee "DX and HF contesting"

(http://www.darcdxhf.de)

editor: Helmut Schlaffer, DL7MAE
(e-mail: dxnl@dxhf.darc.de)

translation by: Bob, DL7VOA
(e-mail: dl7voa@darc.de)

BY - CHINA, AS-151

A large team with BY1TT/2, BD1PTA/2, BA3CE/2 and other OPs is going to activate Ju Hua Island (AS-151) from Aug 10-12.
The QSL manager for all participants will be BD1PTA.

DU - PHILIPPINES, OC-130

Hans,DL5SDF, will stay on Mindanao (DU9, OC-130) from Aug 10-28.
He already has the confirmation to get a license but does not know the callsign yet. Hans works only in CW with 100 watts and wires.
QSLs (preferably via bureau) via DL5SDF.

IS0 - SARDINIA, EU-041

Two activities from Sardinia will commence this week:
Stefano,IM0/IK5XCT, is active from Maddalena Island (EU-041,IIA OT-008) until Aug 13. Bureau QSLs can be requested via e-mail to him or at his website: http://www.qsl.net/ik5xct

---

Gerry,IS0/IZ1DSH, und Giovanni,IS0/IK1WEG, will be QRV from EU-024 in SSB/CW on 6-40m from Aug 8-20. They also plan some trips to the islands Spargi (IIA OT-021, EU-041) and Caprera (IIA OT-012, EU-041).
QSLs via homecalls, bureau ok.

KH2 - GUAM, OC-026

Mike,K3UOC, is living with his family on Guam (OC-026) for about one year now. Mike, who is working as a teacher, has the possibility to use the equipment of the school's club station WH2D. He usually works about 90% in CW and promises operation on all nine HF bands whenever the time and conditions permit. He intends to take part in all major contests.
After logging 6.000 QSOs during the last school year, he hopes to reach 10.000 QSOs this year. Mike plans to acquire an amplifier and also a Hex beam to support the Cushcraft R-7000 he already has. Mike can be found on the bands mostly during the weekends and takes care of the QSL cards which should be sent via bureau or direct to K3UOC.
A few lines written by Mike about his amateur radio activities on Guam can be found on the website of his school:
www.stjohnsguam.com/main/?option=com_content&task=view&id=269&Itemid=124

KH3 - JOHNSTON ATOLL, OC-023

Susan,W7KFI, was underway to Johnston (OC-023) with her yacht when hurricane Erik threw a spanner in her plans. She sailed back to Honolulu and will wait till November when the hurricane season is over.

OH0 - ALAND ISLANDS, EU-002 / JW - SVALBARD, EU-026

Juergen,OH0/DJ3KR, is QRV from the Aland Islands (EU-002) from Aug 7-12 and plans to take part in the WAEDC CW Contest on Aug 11/12 as well. He will then travel to Svalbard (EU-026) from where he will show up as JW/DJ3KR from Aug 15-26. All QSLs via his homecall.

ST - SUDAN / 6W - SENEGAL

Jovica,T98A (ex T98A), has been working in Sudan for two years now and logged 40.660 QSOs as ST0RM and ST2A, most of them in CW (35.012 QSOs). He published a few photos on his homepage: http://www.t93y.com/st2a
On Sep 1 his job for the UNHCR (UN High Commissioner for Refugees) takes him to Dakar, the capital of Senegal. However he will not only work in Senegal but in the whole West-African region so chances are there might be some activities from this area by T98A.
His QSL manager T93Y confirms all QSLs very reliably.

XX9 - MACAO

Hide,JM1LJS, plans another activity as XX9TJS, most likely from Aug 10, 0900 UTC, until Aug 13, 1100 UTC. Hide works in CW/SSB on 10-80m and requests QSLs direct via JM1LJS.

Z3 - MACEDONIA

Chris,Z31GX, was using his old call for 14 years now and got his new callsign Z35X on Aug 1.
Unfortunately DJ0LZ, QSL manager of both calls, confirms only direct.

The radio club "Nikola Tesla" (Z37M) can use the special event callsign Z360M between Aug 1 and the end of the year to mark the 60th birthday of their club.

4O - MONTENEGRO

Emir,9A6AA, plans to become active as 4O6AA from the island Sveti Nikola (EU-163, LH 1097) from Aug 13-19.
Unfortunately QSLs only direct via his homecall 9A6AA.

9Q - DEMOCRATIC REPUBLIC OF CONGO

After 9Q1NT is back in Belgium and 9Q1D returned to Sweden, the last active station in Congo (which is approved for DXCC credit) is Georges,9Q1EK, as stated by his QSL manager Osten,SM5DQC.
The 9Q1EL logs can be searched within at: http://www.logsearch.de
Philippe,9Q1TB, will return from his trip home during the month of August. SM5DQC who is also the QSL manager of 9Q1TB writes that he confirms QSL cards only direct and the EURO is useless for him in Sweden because they still have their Swedish currency.
QSL cards for 9Q1TB and 9Q1EK should be sent to following address:
SM5DQC, Osten Magnusson, Nyckelvagen 4, SE-59931 Odeshog, Sweden.

PACIFIC TRIP

Toshi,JA8BMK, plans to activate 3D2, T30, T31XX and maybe also T33ZZ during September or October and still looks for people to join him to keep the costs down. If you are interested please contact him via e-mail (fuku-t20@amber.plala.or.jp). All calls have been allocated to him a long time ago. Donations are welcome, more information will be published in the DX Newsletter as soon as the DXpedition starts.

FRANCE, SPECIAL EVENT STATION

The 150th birthday of Heinrich Rudolf Hertz is celebrated with the French special event station TM2HRH from Aug 6-19. QSLs via F6KTN.

CANADA, SPECIAL EVENT STATION

Members of the "Amateur Radio Club of Central Newfoundland" are using the special call VO1GAM until Aug 31. This marks the 70th anniversary of the first commercial trans-atlantic flight (5 Jul 1937) between Botwood (Newfoundland) and Foynes (Ireland). Activities take place on all bands and the QSLs should be sent via bureau or direct to VO1MX.

POLAND, SPECIAL EVENT STATION

SN2NP will be active in CW/PSK31/RTTY/SSB from the lighthouse in Gdansk from Aug 17-19. QSL via SP2BIK, via bureau or direct.

SP5VYI, SP5X, SP5IUK and SP5GRU are activating the special event station 3Z90ZIM until Sep 30. QTH is Przasnysz where the local scouts celebrate their 90th anniversary. QSL via SP5ZIM or SP5X.

DXCC: QSL cards of J5UAR (Guinea-Bissau, 2007) are accepted for DXCC credit now. If you submitted your QSL earlier and got it rejected, please send an explaining e-mail to dxcc@arrl.org

IOTA DINNER BANQUET. The 12th annual Islands On The Air (IOTA) Dinner will be held on Friday, April 27th, in the Birch Room of the Holiday Inn Hotel and Conference Center, 9000 W. Airport Drive, Visalia, CA 93277, in conjunction with the 58th annual Visalia International DX Convention.

The event's program agenda is as follows:

1800 Eyeball discussions (drinks available)
1830 Welcoming/Introductions (dinner served buffet-style)
1900 IOTA Programs begin
"IOTA Program Overview/Status" (G3ZAY)
"Santa Cruz Is, NA-144" (N6VR)
"Canadian IOTAs, NA-195 & NA-156" (K9AJ & KD6WW)
"Mexican IOTAs, NA-1" (XE2K)
"Alaskan IOTA, NA-237" (W5BOS)

The dinner will be served buffet style in the Birch Room at a cost of XX USDs per person, payable at the door (cash only). The buffet menu will contain entr�e choices of beef, fish, and chicken along with selected vegetables, salad, dinner rolls, dessert, and a beverage (coffee, ice water, or ice tea).

Reservations for this event are not required and will not be taken. Attendees will pay as they enter at the door. Admission is free for those wishing only to watch the programs without dining. As usual, seating will be performed using a "first come, first seated" policy. For additional information regarding this event, please contact: Jim Zimmerman (N6KZ), (IOTA Dinner Coordinator), 2316 W. Dallin Street, Lancaster, CA 93536-5702 Home Phone: (661) 945-6539 E-mail: jimzim1@mindspring.com

IOTA NEWS......................

AF-004. Wilko, PA3BWK, will be active as EA8/PA3BWK from the Island of Lanzarote (DIE S-007, Punta Pechiguera lighthouse FEA D-2782, WLOTA LH-0099, WW Loc. IL38BU), June 10-16th. Activity will be on 40-10 meters, mainly CW, at 10 kHz up from the lower band edge. QSL via PA0ZE (QRZ.com).

AS-117. Kenji, JA4GXS, will be active as JA4GXS/4 from Ohzu Island (JIIA AS-117-110), JA4 Yamaguchi Prefecture, between now and March 20th. Activity will be on the HF bands CW. QSL via his home callsign, by the bureau or direct: Kenji Sasaki,
2-15 Ishikannon-cyo, Yamaguchi-City, 753-0038 JAPAN

EU-039. Operators Jean/F5IRC, Christophe/F5UBH, Luis/F5THW and Karim/F4CTJ will be active as TM5CI from Chausey Island (DIFM MA-004, WLH 0424, PB062, DFCF 50002 and may be DFCF 50007), March 22-24th. Activity will be on 80/40/20 meters CW, SSB, RTTY and PSK31. QSL via the bureau.

EU-096. Operators Andy/IZ0EHO, Vincenzo/IZ0FKE, Simone/IZ0BTV, and Markus/OH1MN will be active as OH10TA from Parainen Island, April 25-29th. Activity will be on all bands, the WARC bands included. QSL via OH10TA (QRZ.com). Further information can be found at: http://www.oh10ta.com

EU-146. Operators Fons/ON4AWT and Win/ON8VD will be active as PA/homecall from Schouwen Duiveland, April 8-13th. Activity will be on all HF bands, CW, SSB and the Digital modes. There will also be activity on VHF SSB. QSL via his home callsign; the bureau is preferred.

NA-231. Operators Cezar/VE3LYC and Ken/G3OCA will attempt to activate for the first time NA-231P (East Pen Island, VY0), between July 20-22nd. Ken is a well experienced island activator, but this will be Cezar's first. East Pen Island is the only island approved for this IOTA group and the breeding place of polar bears, which brings interesting challenges to the team. They are prepared to have two stations on the air operating CW and SSB from 40-10 meters. QSL via VE3LYC, either direct or by the bureau (G/GI/GM/GW stations can QSL via G3OCA).

SA-098. Simon, IZ7ATN, is expected to be active this week as OA6/IZ7ATN/p from Blanca Island in the Arequipa/Moquegua/Tacna Department Group (new one) around March 20-22nd. He will concentrate on 20 and 17 meters SSB, plus 15 and 10 meters if the bands are open and 40 meters if he can put up a decent antenna. QSL via his home callsign.

J75, DOMINICA (Update). The W2RZS Amateur Radio Club will be returning to Dominica for the 2007 CQ WW WPX SSB Contest (March 24-25th), and they will be using their J75RZ callsign. This will be their third trip to J7-land. They expect to arrive on March 21st and stay for 6 days. Their "home" will be the Harmony Villa which boasts a 1700 foot elevation and is situated in the rain forest. Due to work schedules, there will be only two operators this trip; Bob/WB2NVR (J79RS) and Mike/WA2VQW (J79VQ). They will be active before and after the contest on 160-6 meters, CW/SSB/RTTY, including the WARC bands, and possibly 60 meters. They will also be concentrating on the lower bands. All QSLs for J75RZ should be sent to W2RZS via direct or by the bureau.

LIGHTHOUSE ACTIVITY. Members of the Scouting Association Ham Radio Baependi (PY3UEB) will be activating Santa Marta's Lighthouse (ARLHS - BRA 187/ DFB SC/012) in Santa Catarina State, now through March 20th. Look for the following: PP5/PY3UEB/LH, PP5/PY3CQ/LH, PP5/PY3KN/LH, PP5/PY3NZ/LH and PP5/PY3FOX/LH. QSL via the bureau or direct (QRZ.com or HAMCALL.net).

MOST WANTED OCEANIA SURVEY RESULTS. Mark, ZL3AB, announced his results of his "Oceania Most Wanted Countries List" that were sent in by operators in the VK/ZL and Oceania areas. Mark seemed disappointed that just under 40 contributors took part in his survey. Here are the top 10 countries (out of his top 40) with their ranking as follows:

Rank	Prefix	Country
1	7O	Yemen
1	KP1	Navassa I.
3	3C0	Pagalu I.
4	BS7	Scarborough Reef
5	FT8Z	Amsterdam & St. Paul Is.
6	FR/J	Juan de Nova & Europa
6	KP5	Desecheo I.
8	FR/G	Glorioso Is.
8	PY0P	St. Peter/St. Paul Rock
8	TN	Congo

P4, ARUBA (SA-036). John, W2GD, will be active as P40W during the CQ WW WPX SSB Contest (March 24-25th) as a Single-Op/All-Band/High-Power entry. Look for some CW activity before and after the contest. QSL via N2MM. Logs will be loaded on LoTW upon his return to USA.

P4, ARUBA (SA-036). Andy, AE6Y, will be active as P49Y from March 21-27th. His activity will include the CQ WW WPX SSB Contest (March 24-25th) as a Single-Op/All-Band entry. QSL via AE6Y.

PJ2, NETHERLANDS ANTILLES. Operators Martin/K2PLF, John/N4RV, Helmut/DF7ZS, Joe/W9JUV, Ray/WA9YYY and Geoff/W0CG will be active PJ2T from Signal Point, Curacao (SA-006, WLOTA LH-0942), during the CQ WW WPX SSB Contest (March 24-25th) as a Multi-Single (or possibly Multi-2) entry. QSL via N9AG.

G3NOM QSLS. Tom, GM4FDM, reports (edited): "As some of you may know, I am the QSL Manager for Ray, G3NOM, and have all (or most) of his log books for his various travels. Again, as some of you may know Ray had a major stroke some time back and has not been on the radio since and is doing VERY poorly. Today I received a package from one of Ray's friends in Thailand containing a number of QSL cards which have been received in Thailand either direct to Ray's home or via the Bureau. Some of these QSLs go back quite a long ways and contain old style IRCs etc. I shall try to honor all these requests but returning cards either by the bureau or direct as they arrived irrespective of whether the IRC is valid or not as they were all valid when posted. Please bear with me, and I shall do my best to get this done as quickly as possible. Please do not trouble Ray or his XYL with any more QSL requests. I have a large number of blank cards, and as I said earlier, all or if not most of the logs. The only cards I cannot verify are for 160m just prior to Ray's illness. As you know 80/160m was only allowed in Thailand on a few special occasions, and I always verified the 160m QSOs with Ray before responding, so if you have a 160m QSO, then unless it is very clear in the logs, then I cannot help you. I have logs for: 5B4/G3NOM, 9M2OM/P, 9M2/G3NOM, 9M2OM, A52OM, E22DX, E28DX, G3NOM, HS0AC/2, HS2AC, HS0/G2NOM, JT4/G3NOM, S21U, S2/G3NOM, XY1HT and ZC6/G3NOM. I also have logs for V8NOM, BUT I have NO QSL cards for this one. Please feel free to E-mail me any questions. 73 de Tom GM4FDM" ADDED NOTE: Tom's E-mail address is:

tom@gm4fdm.com

J20RR/J20MM QSLS. Silvano, I2YSB, informs OPDX that all the QSLs for J20RR and J20MM have been sent out (over 2300 cards).

QSL OH0B via OH2BH. Operators Toni/OH2UA and Martti/OH2BH were breaking ice when traveling to Brando, Aland Islands, to activate OH0B in the Russian DX Contest this past weekend. This is their first outing in 2007 to observe how all the antennas have survived the freezing winter at 60 degrees North.

SPECIAL EVENT. To commemorate the 95th anniversary of the sinking of the Titanic, ham radio operators worldwide will participate in a special event broadcast originating from the TITANIC Museum Attraction (in Branson, Missouri) beginning at 8 a.m., Saturday, April 14th, and concluding at 7p.m., Sunday, April 15th. Members of the Nixa Amateur Radio Club will transmit the news of the anniversary using the special event callsign W0S. Operators from Nixa, Missouri, have permission from the FCC to broadcast using this special callsign which stands for "White Star," the name of the company that built the Titanic. The worldwide broadcast will take place to honor the radio broadcasters working aboard the Titanic on the night she sank. ADDED NOTE: A UK group is also expected to be active. Details should be forthcoming.

SX5, DODECANESE (EU-001). Operators Theodor/SV1GRM, Sotirios/SV1HER, Nikiforos/SV1EEX, Cliff/SV1JG, Spiros/SV1RC and Lykourgos/SW1GZL will be active as SX5AS from the Rocky Islet of Astakida and lighthouse (WLOTA LH-0393, WW Loc. KM35JV), July 17-23rd. Activity will be on all HF bands, CW and SSB. QSL via SV1HER (QRZ.com).

TI, COSTA RICA. Operators Don/N6JRL, Sandra/N3TQU, Cliff/N0ZUQ, Lisa/KB0RLJ and David/WA6IFI will be active as TI5N in the CQ World Wide DX SSB Contest (October 27-28th) as a Multi-Single entry. QSL via info on QRZ.com.

TM4, FRANCE. Operators Jean-Paul/F6FYA, Genevi�ve/F5SQM and possibly others will be active as TM4Q during the CQ WW WPX SSB Contest (March 24-25th) as a Multi/? entry. QSL via F6FYA.

TM6, FRANCE. Operators Andre/F0ELK, Olivier/F1AKK, Stephane/F4DXW, Laurent/F5MUX, Xavier/F5TTU, Robert/F5VCR and Sebastien/F8DBF will be active as TM6M during the CQ WW WPX SSB Contest (March 24-25th) as a Multi/? entry. QSL via F6KHM.

YE1, INDONESIA. Operators Joz/YD1JZ, Terry/YC1KAF, Yoyan/YB1CCF, Heri/YB1KAR and Mohammad/YE1AA will be active as YE1ZAT during the CQ WW WPX SSB Contest (March 24-25th) as a Multi/Multi entry. QSL route was not provided.

YI, IRAQ (Stations Are Off The Air!). Several sources are reporting that the Amateur Radio in Iraq has been suspended until further notice. Details of the suspension, reportedly, are from a letter addressed to the world-wide ham radio community from the Iraq Amateur Radio Society (IARS) President, Diya Sayah, YI1DZ. He received confirmation from the office of Prime Minister Nouri Al-Maliki that all Amateur Radio activity in that nation is to be closed down immediately. This includes operation by Iraqi nationals, foreign visitors and even members of the coalition forces safeguarding that nation. This is apparently in an effort to increase security.

ZK3, TOKELAU ISLAND (Op Cancelled!). Members of the N8S Swains Island DXpedition have cancelled their trip to the Tokelau Island (ZK3A). The operation to Swains Island (as N8S) will take place April 4-15th. However, operations from the Independent State of Samoa (5W - formerly known as Western Samoa from 1914-1997) as 5W5AA (and possibly other callsigns) will take place between April 17-24th.

ZL8/ZM8, KERMADEC ISLANDS. Remember that Jacky/ZL3CW (F2CW) and Aki/ZL1GO (JA4EKO) are expected to be active this week as ZM8CW and probably ZL8GO from Raoul Island (OC-039) between March 22-27th. QSL via ZL1AMO.

ZY7, BRAZIL. Members of a PY7 team will be active as ZY7C during the CQ WW WPX SSB Contest (March 24-25th) as a Multi/Single entry. QSL via PT7WA.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B6, AGALEGA. Team leader Witek, SP9MRO, announced on March 22nd that the Polish DXpedition to Agalega Island has been rescheduled to take place between June 6-18th, provided that the team can obtain permission for staying, a licence and the right ship to take them there. For updates please visit the 3B6 Web page at: http://3b6.godx.eu/

3B8, MAURITIUS (AF-049). Starting April 5th, look for Mart, DL6UAA, to once again be active as 3B8MM for a few weeks. His activity will be mostly CW, but he will also try SSTV (on 14230 kHz). QSL via his home callsign, direct or by the bureau. Visit his Web site at:
http://www.dl6uaa.de/indexa.html

4O3/YT6, MONTENEGRO (Late WPX Announcement). There was another contest effort from Montenegro by Ranko/YT6A (on 20m) and Martti/4O3B/OH2BH (80m) during this past weekend's CQ WPX Phone Contest. The OH2BN press release stated:

> "They will be using many newly established stations and antenna concepts at Ranko's 'Premium Contest Resort' 600 meters above sea level near the city of Herceg Novi." ADDED NOTE: Visit Ranko's new Web site (still under construction) at: http://www.skycc.info/yt6a

7P, LESOTHO. Operators Tony/ZS1APB, Barry/ZS1FJ, Shaun/ZS1RA, Roy/ZS1ROY and Deon/ZS1ZL will be operating from the highest point in Lesotho (3000m ASL) on the north border escarpment of the Drakensburg Range between April 5-12th. The team has requested the callsign 7P8DX. Activity is planned for 80-15 meters with an emphasis on the lower bands. They plan to have three stations active simultaneously using Yagis and V-beams.

A2, BOTSWANA (UPdate/Ops Stilled Needed!). Frosty, K5LBU, reports that so far they now have 3 operators beside himself. He would like to find at least 2 more to join their group. The dates are still the same, July 5-21st. Frosty states, "It looks like we might be able to do some EME and LEO work also while there." If interested, contact him via E-mail at:
frosty1@pdq.net
ADDED NOTE: Frosty is already thinking about next year, possibly 3DA0 or 7P8.

A5, BHUTAN. Beginning in April, operator Kunio, JA8VE, is expected to be here on a two year work assignment through March 2009 as a JICA senior volunteer for Japan's Ministry of Foreign Affairs to coach the Bhutanese telecommunications ministry. He will be active as A52VE and will be operating from the capital city of Thimphu. Activity will be on all bands including 6 meters, SSB, Digital modes and some CW. Kunio states that he will use a Yaesu and Icom radio with ONLY 100 watts (amps are prohibited) possibly using a Spider beam and Inverted VEE or DP. QSL via JF1OCQ, using the QRZ.com address.

CU2, AZORES. Pedro, EA1FCH, will be active from Sao Miguel (EU-003) in the Eastern Island Group as CU2/EA1FCH, June 27th through August 5th. Activity will be on the lower bands and WARC bands, mainly CW and the Digital modes. QSL via EA1FCH, by the Bureau or direct.

DXCC NEWS......................

JUST A REMINDER (DXCC Honor Roll listings due)! The deadline for the next ARRL DXCC Honor Roll listing is approaching very fast. Just under a week to go! All submissions must be "postmarked by March 31st". The Honor Roll list will appear in the 2007 August QST. There are 337 current entities on the DXCC list, so you must be at 337 for Top of the Honor Roll or within the numerical top 10 to qualify for the Honor Roll (minimum of 328 entities; deleted entities do not count toward Honor Roll).

Reports indicate that the following operations are not yet approved for DXCC credit:
E51PDX - North Cook Islands
E51PEN - North Cook Islands
Reason given: No documentation received for either of these 2006 operations.

Bill Moore, NC1L, ARRL DXCC Branch Manager reports that the following operations are approved for DXCC credit:
1A4A - Sovereign Military Order Of Malta 2007 Operation
9M4SDX - Spratly Islands 2007 Operation
9U9Z - Burundi 2007 Operation
DX�JP - Spratly Islands 2007 Operation
YW�DX - Aves Island 2007 Operation

ER, MOLDOVA. Andy, RW3AH, is now active as ER/RW3AH until April 12th. This is his third DXpedition to the Republic of Moldova. He plans to pay special attention to the 160/80m bands and as usual on 20 meter CW/SSB (for USA General Class above 14260 kHz and for Russian amateurs around 14150-14180 kHz). Also mentioned is that Valery, RW3GW, may possibly join him as well as a second operator using the callsign ER0/R7C or ER0/NA1SA between April 8-12th. QSL direct using the address on QRZ.com.

GP8, GUERNSEY (EU-114). Chris, M0DOL, will be here for 7 days and is expected to arrive during the morning of May 26th. He plans to activate castles and forts on the island. He will stay in Richmond near Vazon Bay, in sight of both Fort Richmond and Fort Hammet. Chris states that he will also be at Vale Castle on Sunday, May 27th. Look for Chris, along with Tom/2E0TSW and members of the Norhampton Radio Club, to activate the callsign GP8LED/p for the first time ever from all locations. Activity will be on all bands. A full colored double-sided QSL card will be available only direct from M0DOL (information via QRZ.com). ATTENTION CASTLE HUNTERS: A list of CASHOTA reference numbers will be available soon on the following Web page soon at: http://www.cashota.org

HL, SOUTH KOREA (IOTA & LH Activity). Jean-Pierre, F5AHO, will be active as HL1/F5AHO from May 12-20th. His plans are to activate some IOTAs and Lighthouses. The following were mentioned: AS-081 (LH0304), AS-060, AS-026 (LH0686) and AS-085. Activity will be SSB on 20/1715 meters using his FT857 and a wire GP. QSL via his home callsign, by the bureau or direct.

INDIAN OCEAN TOUR. Gildas, TU5KG, will once again be portable maritime-mobile (/MM) around Kerguelen Island (FT5XP) and Crozet Island (FT5WL). This time Gildas will not go to Port aux Francais. He will, however, be on Reunion Island (FR/TU5KG) around May 15th. QSL via F4EFI, direct or by the bureau. No e-QSLs accepted.

KH8S, SWAINS ISLAND DXPEDITION (Update). It is a little over a week to go before members of the N8S Swains Island DXpedition will hit the air between April 4-15th. Then the team will move their operations to the Independent State of Samoa (5W - formerly known as Western Samoa from 1914-1997) as 5W5AA (and possibly other callsigns) between April 17-24th. Acim, YZ1EW, announced this past week that both the N8S and 5W5AA teams will be active on 60 meters (on 5403.5 kHz), 2m EME and 6 EME with WSJT65 A,B,C (on frequencies 50.375 MHz and 144.375 MHz). He also announced that the following pilot stations for the operation are: Toma/YU1AB for Western Europe, Lee/KH6BZF for the Americas and the Pacific, and Antic/YU1AA for the YU and Eastern Europe areas. Lastly, he stated that the DXpedition team is ready to go. All donations are welcome according to the data on their Web site at: http://www.yt1ad.info/n8s/
Acim also adds (edited): "The most wanted DXCC country needs HAMSPIRIT on the frequency, and please listen carefully to the operator on the current frequency."

LIGHTHOUSE ACTIVITY..............

Operators Jim/KA3UNQ, Dan/KD3CQ and Al/W3REG will operate as N3L from the Point Lookout Lighthouse (ARLHS USA-628), Maryland, on April 14th, from 1400-2000z. Activity will be on 80/40/20/17 meters SSB, PSK31 and possibly CW. Certificate is available on request. QSL with SASE to KA3UNQ. Visit the Point Lookout Lighthouse's Web page at:
http://www.ptlookoutlighthouse.com/

Operator Jim, KA3UNQ, will be active as a portable from some island in the IOTA NA-031 group (Aquidneck, Goat and Conanicut Islands), April 7-9th. He will also activate numerous Rhode Island lighthouses and U.S. Islands. Activity will be on 40/20/17 meters SSB. QSL with SASE to CBA.

ON50, BELGIUM. Look for special event station ON50EU to be active now through December 31st, to celebrate the 50th anniversary of the Treaty of Rome (EU 50 years). QSL via ON7YX, by the Bureau or direct.

OX60, GREENLAND (NA-018). Look for special event station OX60AD to be active April 1-30th. Activity is to commemorate the 60th anniversary of the U.S. Air Force and the 56th anniversary of the Defense Treaty between the U.S. and Denmark for the Protection of Greenland. The "AD" suffix in OX60AD stands for "America-Denmark". Activity will be on 40/20/17/15/10 meters using CW, SSB, and RTTY. QSL via OX3UR.

PA50, NETHERLANDS. Members of the VERON-Leiden are now active as PA50EU until April 9th to celebrate the uniting of Europe from Rome. Activity will be on 80 meters through 70cm. QSL cards can be sent via the Dutch QSL Bureau (DQB).

The logs for the recent 9M4SDX Spratly Island DXpedition are now available online at: http://9m4sdx.dxers.net/log_search/search.html

PZ5A was operational this past weekend in the CQWW SSB WPX Contest. QSL DIRECT via PZ5RA (Ramon) as indicated on QRZ.COM. IMPORTANT NOTE: PZ5A was first activated in the 2003 CQWW SSB WPX Contest, and QSLs for that operation still go via W5UE (Randy). The second activation of PZ5A as a special callsign (2007 SSB WPX) goes via PZ5RA only DIRECT as indicated on QRZ.COM.

U.S. POSTAL RATES GOING UP! The cost of mailing a letter will go from 39 cents to 41 cents (first ounce) for letters on May 14th. Howvever, you will be able to lock in that price � no matter how rates rise in the future � by buying the new "forever" stamp. More details are available at: http://news.yahoo.com/s/ap/20070319/ap_on_go_ot/postal_rates

XT2C QSL STATUS. Bernard, F9IE, has reportedly put the first batch of QSL cards in the mail for direct requests.

YX0A, YX0LIX and YX0A/MM QSL STATUS. Steve, KU9C, reports: "Folks, After returning from a long business trip, I've now sized the YX0A/YX0LIX/YX0A-MM QSLs and can provide the following status:

- I believe all QSLs received at my QTH by mid-February will be in the mail back to you by April 9, 2007. The only exception I see are folks that have sent cards for several calls I manage in one envelope; these will be delayed and I cannot easly predict when I'll be done with those. By the fact that you included several in one envelope, I've made the assumption that you're not in a big hurry for these. If you've not received your card by mid-April, feel free to email me; at that time I'll be able to provide status..... 73 Steve KU9C"

RMD SPECIAL EVENT. Look for special event stations to be active from 1200z April 14th to 1200z April 15th to commemmorate Radio Maritime Day. This is a CW event which will be operated from former marine coastal radio stations and possibly ships at sea. Suggested frequencies are: 1854, 3520, 7020, 14052, 21052 and 28052 kHz. Look for the following mentioned stations (or individual operators with a special /designator):
